CAH 2113. Survey of Early Islamic Art and Architecture from the Seventh to Fourteenth Centuries. 3 Credits.

Introductory survey of the visual arts and architecture in the Muslim lands from the seventh to the fourteenth centuries. Analysis of arts ranging from Spain in the west to Central Asia, Iran, and India in the east within their historical, religious, and cultural contexts.

CAH 2114. Survey of Islamic Art and Architecture from the Fourteenth Century to the Present. 3 Credits.

Introductory survey of the visual arts and architecture in the Muslim lands from the fourteenth century to the present. Analysis of arts ranging from Spain in the west to Central Asia, Iran, and India in the east within their historical, religious, and cultural contexts.

CAH 2145. History of European Decorative Arts. 3 Credits.

Changing styles of European furniture, textiles, ceramics, and glass in the context of general trends in art history and changing patterns in economic, technological, social, and cultural history from antiquity to the modern age. Credit cannot be earned for this course and AH 2145.

CAH 2154. American Architecture I. 3 Credits.

Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns as a means of interpreting historic meaning; analysis of buildings both as artifacts and as signifiers of social, cultural, and economic tendencies. 1600 to 1860. (Same as AH 2154, AMST 2520).

CAH 2155. American Architecture II. 3 Credits.

Continuation of CAH 2154. Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns as a means of interpreting historic meaning; analysis of buildings both as artifacts and as signifiers of social, cultural, and economic tendencies. 1860 to present. Recommended background: Prior completion of AMST 2520 or CAH 2154. (Same as AMST 2521, AH 2155).

CAH 2161. History of Decorative Arts: American Heritage. 3 Credits.

The decorative arts in America from the seventeenth century to the modern period; consideration of changing visual characteristics in relation to the changing American experience. Recommended background: Assumes some prior knowledge of European design styles and history, such as that covered in CAH 2145. Credit cannot be earned for this course and AH 2161.

CAH 2162. History of Photography. 3 Credits.

The historical, social, aesthetic and technological developments of the photographic medium, including its relationship to modern art and modes of visual representation and the properties that inform one's understanding of photographic meaning. Credit cannot be earned for this course and AH 2162.

CAH 2162W. History of Photography. 3 Credits.

The historical, social, aesthetic and technological developments of the photographic medium, including its relationship to modern art and modes of visual representation and the properties that inform our understanding of photographic meaning. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 2162W.

CAH 2190. East Asian Art. 3 Credits.

Introduction to the visual and material cultures of East Asia from the prehistoric to modern periods, covering the areas of contemporary China, Japan, and Korea. Same As: AH 2190.

CAH 2191. South Asian Art. 3 Credits.

Visual and material cultures of South Asia from the prehistoric to contemporary periods, covering modern Afghanistan, Bangladesh, India, Nepal, Pakistan, and Sri Lanka. (Same as AH 2191).

CAH 2192. Art of Southeast Asia. 3 Credits.

Introduction to the arts of visual and material cultures of Southeast Asia covering areas of contemporary Vietnam, Laos, Cambodia, Myanmar, Thailand, and Indonesia, especially Java and Bali. (Same as AH 2192).

CAH 3060. History of Design. 3 Credits.

History of designed objects, images, and spaces, including products, furniture, appliances, interiors, posters and other printed materials, and the latest digital media. Influences among the design disciplines, as well as developments in materials and technologies, within their cultural, political, economic, and social contexts. Recommended for all design students.

CAH 3065. Digital Media Culture. 3 Credits.

From the early days of the telegraph, telephone, radio, television, to the Internet and beyond, the ease and speed with which information can be conveyed digitally is dramatically changing long-established business and social patterns, including how we live, work, and interact. Considering both contemporary media and older technologies as they have been transformed through digitization, this course covers the impact of the digital revolution on the creation, production, and spectatorship of new forms of visual art and design.

CAH 3099. Variable Topics. 1-36 Credits.

. Same As: AH 3099.

CAH 3101. Ancient Art of the Bronze Age and Greece. 3 Credits.

Survey of Greek art from the Minoans and Mycenaeans (c. 2000 BC) to the age of Alexander (c. 300 BC); relationships among the arts of different groups in the Aegean area and their impact on Western culture; Thera volcanic eruption, Dorian Invasion, portrayal of women, heroic nudity, and assumption of a stylistic chronology. Credit cannot be earned for this course and AH 3101.

CAH 3102. Ancient Art of the Roman Empire. 3 Credits.

Survey of Roman art from the successors of Alexander the Great (c. 300 BC) to the fall of the Roman Empire in the West (c. 300 AD); impact of the Greek world on Roman art and culture; innovations and achievements of the Romans in architecture, portraiture, and historical narrative. Focus on the city of Rome and other areas of the Roman world such as North Africa and Asia. Credit cannot be earned for this course and AH 3102.

CAH 3103. Art and Archaeology of Egypt and the Near East. 3 Credits.

The great artistic tradition of the Nile Valley and the contemporary civilizations (c. 3000 BC to after 1000 BC) between the rivers Tigris and Euphrates (present day Iraq). The Pyramid Age, temples at Karnak and Luxor, tombs of the Valley of the Kings, and artistic traditions of the Sumerians, Akkadians, Babylonians, Assyrians, and Persians. Credit cannot be earned for this course and AH 3103.

CAH 3104. Art and Archaeology of the Aegean Bronze Age. 3 Credits.

Excavational and multidisciplinary aspects of classical archaeology in the Bronze Age Aegean utilizing archaeology, ancient history, art history, classical studies, and anthropology; Minoan and Mycenaean civilizations (1700 to 1200 BCE). (Same as ANTH 3806).

CAH 3105. Topics in Ancient Art and Archaeology. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3105, CLAS 3115.

CAH 3112. Proseminar in Romanesque and Gothic Art and Architecture. 3 Credits.

The origin of Western art in the Hiberno-Saxon and Carolingian worlds and their relationship to the Ancient heritage and to the contemporary Byzantine art. Romanesque and Gothic architecture and its sculptural decoration as art historical and social phenomena. Same As: AH 3112, CAH 3112, CAH 6212.

CAH 3113. Islamic Art and Architecture. 3 Credits.

Introduction to the visual culture of the Muslim world, from Spain to India, from the seventh century to the present. Examination of artworks in their historical, religious, and cultural contexts; key points in the field's historiography. (Same as AH 3113).

CAH 3114. Art of the Book in the Medieval Muslim World. 3 Credits.

Painting and book illumination in the Islamic world, beginning with the rise of Islam in the seventh century and ending with the seventeenth century. Uses written sources and works of art and material culture to better understand the unity and diversity of the Islamic world and its complex attitude toward images. Recommended background: Prior completion of CAH 3113. (Same as AH 3114).

CAH 3117. Special Topics in Precolumbian Art and Archaeology. 3 Credits.

Topic vary by semester. May be repeated for credit provided the topic differs. See the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3117, ANTH 3891.

CAH 3120. Italian Art and Architecture of the 13th through 15th Centuries. 3 Credits.

Origins, development, and theoretical foundations of painting, sculpture, architecture and urban form in Renaissance Italy from the early 13th to late 15th centuries. Credit cannot be earned for this course and AH 3120, CAH 6220.

CAH 3121. Italian Art and Architecture of the Sixteenth Century. 3 Credits.

Development and theoretical foundations of painting, sculpture, architecture, and urban form in Renaissance Italy from the early fifteenth to late sixteenth centuries. Credit cannot be earned for this course and AH 3121.

CAH 3122. Topics in Early Northern Renaissance Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3122.

CAH 3122W. Topics in Early Northern Renaissance Art and Architecture. 3 Credits.

Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3122W.

CAH 3123. Topics in Northern Renaissance Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. (Same as AH 3122).

CAH 3123W. Topics in Northern Renaissance Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3123W.

CAH 3131. Italian Art and Architecture of the Seventeenth Century. 3 Credits.

The Counter-Reformation and creation of the Baroque in painting, sculpture, and architecture in Rome (Carracci, Caravaggio, Bernini, Borromini, Pietro da Cortona), Turin (Guarini, Juvarra), and Venice (Longhena). Credit cannot be earned for this course and AH 3131.

CAH 3132. Topics in Northern European Art and Architecture of the Seventeenth Century. 3 Credits.

Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. (Same as AH 3132).

CAH 3134. Topics in Spanish and Portuguese Art through the Sixteenth Century. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3134.

CAH 3134W. Topics in Spanish and Portuguese Art Through the Sixteenth Century. 3 Credits.

The Kingdoms of the Iberian Peninsula from the reconquest of Granada to the Renaissance Age of Exploration. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3134, AH 3134W.

CAH 3135. Topics in Seventeenth and Eighteenth Century Spanish and Portuguese Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3135.

CAH 3140. European Art of the Eighteenth Century. 3 Credits.

Painting, sculpture, and architecture in France, Great Britain, and Italy. Emphasis on Watteau, Chardin, David, Hogarth, Gainsborough, Reynolds, Canaletto, and Tiepolo. Painting, sculpture, and architecture in France, Great Britain, and Italy. Restricted to Graduate standing. Credit cannot be earned for this course and AH 3140.

CAH 3141. European Art of the Early Nineteenth Century. 3 Credits.

Neoclassicism and Romanticism in the context of Western European political, social, and cultural developments. Emphasis on France, England, and Germany and the representative styles of David, Ingres, Delacroix, Turner, Constable, and Friedrich. Same As: CAH 3141W. Credit cannot be earned for this course and AH 3141, AH 3141W.

CAH 3141W. European Art of the Early Nineteenth Century. 3 Credits.

Neoclassicism and Romanticism in the context of Western European political, social, and cultural developments. Emphasis on France, England, and Germany and the representative styles of David, Ingres, Delacroix, Turner, Constable, and Friedrich. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: CAH 3141. Credit cannot be earned for this course and AH 3141, AH 3141W.

CAH 3142. European Art of the Late Nineteenth Century. 3 Credits.

The revolution in style of Realism, Impressionism, and Post-Impressionism in the context of Western European political, social, and cultural developments; representative styles of Courbet, Manet, Monet, Morisot, Repin, Seurat, Cezanne, Van Gogh, and Gauguin. Same As: AH 3142, AH 3142W, CAH 3142W.

CAH 3142W. European Art of the Late Nineteenth Century. 3 Credits.

The revolution in style of Realism, Impressionism, and Post-Impressionism in the context of Western European political, social, and cultural developments; representative styles of Courbet, Manet, Monet, Morisot, Repin, Seurat, Cezanne, Van Gogh, and Gauguin. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AH 3142, AH 3142W, CAH 3142.

CAH 3143. Early Twentieth-Century Art. 3 Credits.

History and theory of early twentieth-century modernism in the visual arts, from origins in the late nineteenth century through Surrealism. The work of artists such as Matisse, Picasso, Kandinsky, Duchamp, and Mondrian. Credit cannot be earned for this course and AH 3143.

CAH 3143W. Early Twentieth-Century Art. 3 Credits.

History and theory of early twentieth-century modernism in the visual arts, from origins in the late nineteenth century through Surrealism. The work of artists such as Matisse, Picasso, Kandinsky, Duchamp, and Mondrian. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3143, AH 3143W, CAH 3143.

CAH 3146. Modern Architecture in Europe and America. 3 Credits.

Major developments in architecture and urbanism from the Industrial Revolution to the end of the twentieth century. Credit cannot be earned for this course and AH 3146.

CAH 3146W. Modern Architecture in Europe and America. 3 Credits.

Major developments in architecture and urbanism from the Industrial Revolution to the end of the twentieth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3146W, CAH 3146.

CAH 3150. Theories and History of Graphic Design. 3 Credits.

This course investigates traditional and contemporary ideas, language, and theories of graphic design. It includes a survey of the development of graphic design from 1900 until the present. Specific graphic design assignments are assigned to support certain historical lessons.

CAH 3150W. Theories and History of Graphic Design. 3 Credits.

Analysis of the history of graphic design and visual communication. How cultural factors, such as new technologies, economic shifts, and developments in art and culture, have shaped the field of graphic design.

CAH 3151. American Art in the Age of Revolution. 3 Credits.

American art during the eighteenth-century consumer revolution, the American War for Independence, and the early republic; socioeconomic and political purposes of art, focusing on Enlightenment symbolism and the visualization of national identity. (Same as AMST 3151).

CAH 3152. American Art in the Era of National Expansion. 3 Credits.

American art from the opening of the Erie Canal in 1825 to the Spanish-American War in 1898. Emphasis on the role of art in the expansion of the United States, exploring issues of race, class, and gender; art and religion. Credit cannot be earned for this course and AH 3152.

CAH 3153. American Art of the Twentieth Century. 3 Credits.

Twentieth-century American painting and sculpture from the turn of the century to the beginnings of postmodernism. Artists of the Stieglitz circle and later modernist movements such as abstract expressionism, pop, op, minimal, and conceptual art. Credit cannot be earned for this course and AH 3153.

CAH 3160. Topics in Latin American Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3160.

CAH 3165. Later Twentieth-Century Art. 3 Credits.

Artists, art, and critical concepts from the later twentieth century; key movements and issues, including abstract expressionism, minimalism, conceptual art, feminism, identity politics, and the rise of globalization. Same As: AH 3165, AH 3165W, CAH 3165W.

CAH 3165W. Later Twentieth-Century Art. 3 Credits.

Artists, art, and critical concepts from the later twentieth century, focusing on key movements and issues, including abstract expressionism, minimalism, conceptual art, feminism, identity politics, and the rise of globalization. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AH 3165, AH 3165W, CAH 3165.

CAH 3170. Materials, Methods, and Techniques in Art History. 3 Credits.

Hands-on introduction to the materials, methods, and techniques of the fine arts through traditional practices and processes of manufacture including panels, canvases, grounds, pigments, and drawings and paintings from raw materials. Credit cannot be earned for this course and AH 3170.

CAH 3181. Special Topics in Asian Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: AH 3181.

CAH 3182. Special Topics in South Asian Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 3182.

CAH 3182W. Special Topics in South Asian Art. 3 Credits.

Introduction to the art, architecture, and visual culture of the Indian subcontinent from ancient to contemporary periods. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 3182, AH 3182W, CAH 3182.

CAH 3240. Cultures of Photography: WWII to 2000. 3 Credits.

The nature of photography, its practices, meanings, and visual results during a critical era of rapid development of the medium; how contextual and cultural understandings have shaped the readings of images over the second half of the twentieth century. Additional work is required if taken for graduate credit.

CAH 3330. The Twentieth Century Artist Book. 3 Credits.

The historical, theoretical, and critical development of artists' books throughout the 20th and early 21st centuries within the context of movements and trends in the visual and performing arts; Arts and Crafts Movement, Russian Futurism, Surrealism, fluxus, Conceptual Art, and Postmodernism, among others. Restricted to Priority to graduate students of the Art and the Book department; open to other degree students as space is available.

CAH 3530. Art and Architecture of Washington, D.C. 3 Credits.

The art and architecture of the city of Washington, D.C. Major collections, special exhibitions, historic architecture, and the city itself. As a majority of class time is spent at various sites outside the classroom, this is a walking-intensive course. Additional work is required if taken for graduate credit.

CAH 4109. Topics in Ancient Art and Archaeology. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4109, CLAS 3115.

CAH 4119. Seminar in Medieval Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4119.

CAH 4129. Seminar in Renaissance Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4129.

CAH 4139. Seminar in Baroque Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 4139.

CAH 4149. Seminar in Modern European Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4149.

CAH 4150. Seminar in Modern Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4150, AH 4150W, CAH 4150W.

CAH 4150W. Seminar in Modern Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AH 4150, AH 4150W, CAH 4150.

CAH 4157. Seminar in Photography. 3 Credits.

Advanced undergraduate study of photography and lens-based media. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Same As: AH 4157.

CAH 4159. Seminar in American Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: CAH 4159W. Credit cannot be earned for this course and AH 4159.

CAH 4159W. Seminar in American Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors. Same As: AH 4159W, CAH 4159. Credit cannot be earned for this course and AH 4159.

CAH 4165. Topics in Islamic Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4165.

CAH 4169. Seminar in Contemporary Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Restricted to juniors and seniors. Same As: AH 4169.

CAH 4179. Topics in Design History and Theory. 3 Credits.

Practical, historical, and theoretical underpinnings of designed spaces, objects, and interactions. Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

CAH 4181. Topics in Asian Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Restricted to juniors and seniors. Same As: AH 4181.

CAH 4182. Topics in South Asian Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult program for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4182.

CAH 4189. Seminar: Topics in Art History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors. Credit cannot be earned for this course and AH 4189.

CAH 4197. Senior Thesis. 1-4 Credits.

Students should consult the Director of Undergraduate Studies by the end of their junior year regarding eligibility, selection of an area of research, and the appropriate faculty members to supervise the project. May be repeated for credit. Same As: AH 4197.

CAH 4198. Independent Study. 1-3 Credits.

Directed research and study in a specific area of art history to be approved by a faculty member. A written proposal of the plan of study and approval from the faculty member and the Director of Undergraduate Studies is required for registration. May be repeated for credit. Same As: AH 4198.

CAH 4199. Internship in Art History. 1-3 Credits.

Students gain practical experience working in an arts institution such as a museum or gallery. Advisor approval required for registration. A maximum of 3 credits may count toward the major. Restricted to Corcoran BA and BFA majors. Same As: AH 4199.

CAH 4300. Victorian Avant-Garde: British Art and Culture from 1851 to 1901. 3 Credits.

The second half of the nineteenth century was a period of extreme technological, social, and cultural upheaval. During these years, traditional ideas about art, design, literature, and journalism were challenged by new ways of thinking that seeded the ground for more radical changes in the twentieth century. The class focuses on close and critical readings of primary artworks and texts in Washington-area libraries, archives, and museums. Visits are scheduled for the Rare Book and Special Collections Department of the Library of Congress and the National Gallery of Art. Topics include: The Great Exhibition of 1851, the Pre-Raphaelite Brotherhood, the Arts and Crafts Movement, Aestheticism, and the Revival of Printing. Key figures include: John Ruskin, Dante Gabriel Rossetti, Julia Margaret Cameron, Elizabeth Siddal, William Morris, W.E. Godwin, Walter Pater, J.M.W. Whistler, Aubrey Beardsley, and Oscar Wilde. Along with weekly readings and short written responses, there is one long-form seminar essay and presentation due at the conclusion of the semester, as well as a shorter theoretical essay and a mid-term exam. Same As: CAH 7300.

CAH 6201. Proseminar in Ancient Art of the Bronze Age and Greece. 3 Credits.

Greek art from the Minoans and Mycenaeans (c. 2000 BC) to the age of Alexander (c. 300 BC). Relationships among the arts of the different groups in the Aegean area and their impact on Western culture. The Thera volcanic eruption, the Dorian Invasion, the portrayal of women, heroic nudity, and the assumption of a stylistic chronology. Restricted to graduate students. Credit cannot be earned for this course and AH 3101, AH 6201.

CAH 6202. Proseminar in Ancient Art of the Roman Empire. 3 Credits.

Roman art from the successors of Alexander the Great (c. 300 BC) to the fall of the Roman Empire in the West (c. 300 AD). The impact of the Greek world on Roman art and culture; innovations and achievements of the Romans in architecture, portraiture, and historical narrative. Focus on the city of Rome and other areas of the Roman world such as North Africa and Asia. Credit cannot be earned for this course and AH 6202, CAH 3102.

CAH 6205. Topics in Ancient Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6205.

CAH 6211. Proseminar in Early Christian and Byzantine Art and Architecture. 3 Credits.

Art of the Mediterranean world following the collapse of Roman administration. Growth of the basilica and its decoration; the significance of small objects in medieval study. The rise and fall of the East Roman (Byzantine) Empire from Justinian to 1453. Credit cannot be earned for this course and AH 6211.

CAH 6212. Proseminar in Romanesque and Gothic Art and Architecture. 3 Credits.

The origin of Western art from the Hiberno-Saxon and Carolingian worlds and their relationship to the Ancient heritage. Romanesque and Gothic architecture and its sculptural decoration as social phenomena. Restricted to graduate students. Same As: CAH 3112. Credit cannot be earned for this course and AH 6212.

CAH 6213. Islamic Art and Architecture. 3 Credits.

Introduction to the visual culture of the Muslim world, from Spain to India, from the seventh century to the present. Examination of artworks in their historical, religious, and cultural contexts; key points in the field's historiography. Restricted to graduate students. Same As: AH 6213.

CAH 6214. Art of the Book in the Medieval Muslim World. 3 Credits.

An advanced-level introduction to the visual culture of the Muslim world, from Spain to India, from the seventh to the seventeenth century. Examination of artworks in their historical, religious, and cultural contexts; key points in the field's historiography. Restricted to graduate students. Credit cannot be earned for this course and AH 6214.

CAH 6215. Seminar in Medieval Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6215.

CAH 6220. Proseminar in Italian Art and Architecture of the Thirteenth Through Fifteenth Centuries. 3 Credits.

Origins, development, and theoretical foundations of Renaissance painting, sculpture, and architecture (Giotto, Duccio, Masaccio, Donatello, Ghiberti, Brunelleschi, Mantegna, Bellini, Botticelli). Credit cannot be earned for this course and AH 6220, CAH 3120.

CAH 6221. Proseminar in Italian Art and Architecture of the Sixteenth Century. 3 Credits.

Development and theoretical foundations of painting, sculpture, architecture, and urban form in Renaissance Italy from the early fifteenth to late sixteenth centuries. Credit cannot be earned for this course and AH 6221.

CAH 6222. Proseminar in Early Northern Renaissance Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and AH 6222, CAH 3122.

CAH 6223. Proseminar in Northern Renaissance Art and Architecture. 3 Credits.

Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6223.

CAH 6225. Seminar in Renaissance Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6225.

CAH 6231. Proseminar in Italian Art and Architecture of the Seventeenth Century. 3 Credits.

The Counter-Reformation and creation of the Baroque in painting, sculpture, and architecture in Rome (Carracci, Caravaggio, Bernini, Borromini, Pietro da Cortona), Turin (Guarini, Juvarra), and Venice (Longhena). Restricted to graduate students. Credit cannot be earned for this course and AH 6231, CAH 3131.

CAH 6232. Proseminar in Northern European Art and Architecture of the Seventeenth Century. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6232, CAH 3132.

CAH 6234. Proseminar in Spanish and Portuguese Art through the Sixteenth Century. 3 Credits.

The kingdoms of the Iberian Peninsula from the reconquest of Granada to the Renaissance Age of Exploration. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6234.

CAH 6235. Topics in Design History and Theory. 3 Credits.

Examines practical, historical and theoretical underpinnings of designed spaces, objects, and interactions. Topics vary by semester. May be repeated for credit provided the topic differs. Restricted to This course is restricted to graduate students.

CAH 6236. Seminar in Baroque Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6235.

CAH 6240. Proseminar in European Art of the Eighteenth Century. 3 Credits.

Painting, sculpture, and architecture in France, Great Britain, and Italy. Emphasis on Watteau, Chardin, David, Hogarth, Gainsborough, Reynolds, Canaletto, and Tiepolo. Credit cannot be earned for this course and AH 6240.

CAH 6245. Seminar in European Art of the Nineteenth Century. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6245.

CAH 6246. Proseminar in Modern Architecture in Europe and America. 3 Credits.

Major developments in architecture and urbanism from the Industrial Revolution to the end of the twentieth century. Restricted to graduate students. Credit cannot be earned for this course and AH 6246, CAH 3146.

CAH 6250. Seminar in Modern Art. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6250.

CAH 6251. Proseminar in American Art in the Age of Revolution. 3 Credits.

American art during the eighteenth-century consumer revolution, the American War of Independence, and the early republic. The socioeconomic and political purposes of art, with focus on Enlightenment symbolism and the visualization of national identity. Prerequisite: graduate students. Credit cannot be earned for this course and AH 6251, AMST 3151, CAH 3151.

CAH 6252. Proseminar in American Art in the Era of National Expansion. 3 Credits.

American art from the opening of the Erie Canal in 1825 to the Spanish-American War in 1898. The role of art in the expansion of the United States, exploring issues of race, class, and gender. Art and religion. Restricted to graduate students. Credit cannot be earned for this course and AH 6252, AMST 3152, CAH 3152.

CAH 6254. Seminar in American Art before 1900. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6254.

CAH 6255. Seminar Studies in American Art and History. 3 Credits.

Selected problems and themes in American cultural history involving the use of artistic materials in different media. Emphasis on methodology and analytic techniques. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. (Same as AMST 6730).

CAH 6257. Seminar in Photography. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6257.

CAH 6258. Art Historiography. 3 Credits.

The development of art history as a discipline from the eighteenth century to the present. An investigation of different art historical methodologies, including formal analysis, iconological, feminist, Marxist, semiotic, and deconstructivist approaches. Restricted to graduate students. Same As: AH 6258.

CAH 6259. Textile Historiography. 3 Credits.

Critical perspectives, theories, and methodologies of the study of textiles across academic disciplines such as including anthropology, art history, gender studies, philosophy, and design disciplines. Restricted to graduate students.

CAH 6260. Seminar in African Art. 3 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Restricted to graduate students. Same As: AH 6260.

CAH 6261. Seminar in Asian Art. 3 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Restricted to graduate students. Same As: AH 6261.

CAH 6262. Seminar in South Asian Art. 3 Credits.

Topics in the visual cultures of South Asia from a range of time periods; artworks in their historical, religious, and cultural contexts; key points in the field's historiography. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6262.

CAH 6265. Seminar in Islamic Art and Architecture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Credit cannot be earned for this course and AH 6265.

CAH 6269. Seminar in Contemporary Art. 3 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Restricted to graduate students. Same As: AH 6269.

CAH 6270. Special Topics in Art History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Same As: AH 6270.

CAH 6286. Preventive Conservation Concepts. 3 Credits.

Historical development of preventive conservation in museums, conservation ethics, team approaches to conservation, interactions of various materials with agents of deterioration. Basics of materials testing, preparation of condition reports, choosing museum storage and exhibition materials, and risk assessment. Restricted to graduate students. (Same as CMST 6203, ANTH 6203).

CAH 6287. Preventive Conservation Techniques. 3 Credits.

Practical applications of preventive conservation of materials, monitoring environmental conditions, conducting risk assessments, evaluation of exhibit and storage areas; developing plans, policies, and procedures for collections care; grant proposal preparation for collections care initiatives. Restricted to graduate students. (Same as CMST 6204, ANTH 6204).

CAH 6298. Independent Research in Art History. 3 Credits.

Directed research and study in a specific area of art history to be approved by a faculty member. A written proposal of the plan of study and approval from the faculty member and the Director of Graduate Studies are required prior to enrollment. May be repeated for credit. Restricted to graduate students. Credit cannot be earned for this course and AH 6298.

CAH 6299. Museum Internship. 3-12 Credits.

Students gain hands-on experience working in an arts institution such as a museum or gallery. Approval of the Director of Graduate Studies is required prior to enrollment. May be repeated for credit. Restricted to graduate students. Same As: AH 6299.

CAH 6400. History of Exhibitions. 3 Credits.

The exhibition is where modern and contemporary art meets the public. This course looks at the history and theory of exhibiting new art in the past 150 years, starting with the French Salon and the independent alternatives that challenged it (Courbet, the Impressionists, and Post-Impressionists), through avant-garde exhibitions (Expressionists, Dada, and Surrealists), installation art and alternative exhibition strategies, and leading to today's art fairs and biennials (Art Basel, Documenta, the Venice Biennale, the Whitney Biennial, etc.). We cover historic exhibits including the Armory Show and Hitler's Degenerate Art exhibit. Individual and group projects research specific recent exhibitions, as we consider such issues as design, audience, and critical reception. At times this course may be cross-tallied at the undergraduate level as CAH 4400. Students wishing to pursue undergraduate credit should register for the undergraduate section.

CAH 7300. Victorian Avant-Garde: British Art and Culture (1851-1901). 3 Credits.

The effects of the technological, social, and cultural upheaval of the nineteenth century on traditional ideas about art, design, literature, and journalism; the more radical changes in these media in the twentieth century. Study of primary artworks and texts in Washington-area libraries, archives, and museums. The Great Exhibition of 1851, Pre-Raphaelite Brotherhood, Arts and Crafts Movement, Aestheticism, and Revival of Printing. John Ruskin, Dante Gabriel Rossetti, Julia Margaret Cameron, Elizabeth Siddal, William Morris, W.E. Godwin, Walter Pater, J.M.W. Whistler, Aubrey Beardsley, and Oscar Wilde. (Same as CAH 4300).

CORCORAN CONTINUING EDUCATION (CCE)

CORCORAN DECORATIVE ARTS AND DESIGN (CDAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CDAD 6570. Proseminar in Decorative Arts and Design. 3 Credits.

Preparation for careers in the history of decorative arts and design. Students choose an object on which to conduct research, write, and make a presentation. Writing intensive. Restricted to graduate students.

CDAD 6571. Survey of Decorative Arts and Design I. 3 Credits.

Overview of major historical developments in decorative arts and design from the 1400s through the 1700s. Focus on objects from Italy, France, England, Germany, and the Netherlands. Restricted to graduate students.

CDAD 6572. Survey of Decorative Arts and Design II. 3 Credits.

Overview of major developments in decorative arts and design in Europe and the United States from 1800 to present. Restricted to graduate students.

CDAD 6573. Material Culture Theory. 3 Credits.

Exploration of material culture theory through a detailed case study of material and artistic output in a particular time period. Topics vary. See department for more details. Restricted to graduate students.

CDAD 6574. Topics in Medium-Based Decorative Arts and Design. 3 Credits.

Provides opportunities for introductory-level study of media – including textile, wood, glass, ceramics, metal, and paper –outside of the student's major area of focus. Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Restricted to graduate students.

CDAD 6575. Non-Western Influences in Decorative Arts and Design. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Restricted to graduate students.

CDAD 6600. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Restricted to graduate students.

CDAD 6900. Independent Study. 3 Credits.

Advanced study of a particular topic or theme in decorative arts and design through readings, research, and analysis. Faculty advisor's approval is required prior to enrollment. Restricted to graduate students.

CDAD 6902. Internship. 3 Credits.

Practicum at a museum, gallery, auction house, arts center, or other approved institution. Students must spend 120 contact hours on-site over the course of the semester, including development of a final project based on their internship experience. Restricted to students in the MA in decorative arts and design program.

CDAD 6998. Thesis Research. 3 Credits.

Original advanced research of a particular topic or theme in decorative arts and design that results in an annotated scholarly paper. Includes a thesis defense. May be repeated for credit. Restricted to students in the MA in decorative arts and design program with the permission of the advisor.

CDAD 6999. Thesis Research. 3 Credits.

Original advanced research of a particular topic or theme in decorative arts and design that results in an annotated scholarly paper. Includes a thesis defense. May be repeated for credit. Restricted to students in the MA in decorative arts and design program with the permission of the advisor.

CORCORAN EXHIBITION DESIGN (CEX)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CEX 6010. Exhibition Design Studio 1. 3 Credits.

The curatorial or content studio. Focus on the building blocks of an exhibition, emphasizing the body's relationship to objects and spaces. Provides a foundation in designing with two- and three-dimensions and across scales. Corequisites: CEX 6011.

CEX 6011. Spatial Representation and Making I. 3 Credits.

The skills and tools required for two- and three-dimensional design work. Foundational theories of representation and production. Corequisites: CEX 6010.

CEX 6012. Spatial Representation and Making II. 3 Credits.

Enhances approaches to three-dimensional design and introduces those of the fourth-dimension (time) through visualizations of atmosphere, materiality, and other spatial/experiential expressions. Prerequisites: CEX 6011. Corequisites: CEX 6020. Same As: CEX 6120.

CEX 6014. Materials, Detailing, and Fabrication/Installation. 3 Credits.

Focuses on exhibition prototyping and installation through detail drawing and fabricating. Design intent, function, aesthetics, and user experience are considered alongside material properties and building methodologies. Prerequisites: CEX 6012. Corequisites: CEX 6040. Same As: CEX 6110.

CEX 6020. Exhibition Design Studio 2. 3 Credits.

The narrative studio. Emphasis on spatial organization and sequencing in exhibitions. Introduces circulation, choreography, and wayfinding as unifying forces in spatial/experiential design. Time as a design consideration. Prerequisites: CEX 6010. Corequisites: CEX 6012.

CEX 6030. Exhibition Design Studio 3. 3 Credits.

The site studio. Influences of context on an exhibition through hands-on field experience and with outside partners. Uses public settings to test and transform design intentions. Prerequisites: CEX 6020. Same As: CEX 7010.

CEX 6040. Exhibition Design Studio 4. 3 Credits.

Capstone and comprehensive design studio. Students produce a public exhibition design and installation as an independent pursuit within an instructor-provided methodological framework. Prerequisites: CEX 6030 and CEX 6220. Corequisites: CEX 6014 and CEX 6230. Same As: CEX 7900.

CEX 6100. Lighting, Acoustics, and Design for the Senses. 3 Credits.

Fundamentals of static and kinetic lighting, sound, and acoustics, and other atmospheric/sensory contributors to spatial/experiential design. Students develop a foundation for professional collaboration with related specialists.

CEX 6110. Materials, Detailing, and Fabrication/ Installation. 3 Credits.

Focuses on exhibition prototyping and installation through detail drawing and fabricating. Design intent, function, aesthetics, and user experience are considered alongside material properties and building methodologies. Prerequisites: CEX 6012. Corequisites: CEX 6040. Same As: CEX 6014.

CEX 6120. Spatial Representation and Making II. 3 Credits.

Enhances approaches to three-dimensional design and introduces those of the fourth-dimension (time) through visualizations of atmosphere, materiality, and other spatial/experiential expressions. Prerequisites: CEX 6011. Corequisites: CEX 6020. Same As: CEX 6012.

CEX 6210. Special Topics in Exhibition Design. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details.

CEX 6220. Exhibition Design Research. 3 Credits.

Preparation for exhibition design capstone. Students create an exhibition design proposal, complete pre-design research, and produce a schematic design package. Prerequisites: CAH 6400 and CEX 6020. Corequisites: CEX 6030. Same As: CEX 7800.

CEX 6230. Art and Design Writing. 3 Credits.

Principles of writing artist/designer statements, grant proposals, exhibition text, creative marketing, and art/design criticism. Production of capstone installation collateral and didactic documents. Corequisites: CEX 6040.

CEX 6800. Independent Study: Exhibition Design. 1-3 Credits.

For degree students only. Enrollment requires prior permission. Restricted to Instructor Permission Required.

CEX 7010. Exhibition Design Studio 3. 3 Credits.

The site studio. Influences of context on an exhibition through hands-on field experience and with outside partners. Uses public settings to test and transform design intentions. Prerequisites: CEX 6020. Same As: CEX 6030.

CEX 7800. Exhibition Design Research. 3 Credits.

Preparation for exhibition design capstone. Students create an exhibition design proposal, complete pre-design research, and produce a schematic design package. Prerequisites: CAH 6400 and CEX 6020. Corequisites: CEX 6030. Same As: CEX 6220.

CEX 7900. Exhibition Design Studio 4. 3 Credits.

Capstone and comprehensive design studio. Students produce a public exhibition design and installation as an independent pursuit within an instructor-provided methodological framework. Prerequisites: CEX 6030 and CEX 6220. Corequisites: CEX 6014 and CEX 6230. Same As: CEX 6040.

CORCORAN FIRST-YEAR FOUNDATION (CFN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CFN 1000. Communication Design. 3 Credits.

This course examines digital design techniques and concepts that are relevant to all majors. Students learn the basics of visual communication, typography, and design by utilizing Adobe Photoshop to create a series of projects that result in the creation of their own basic website. Students learn how to scan, import, and create artwork and how to correct and adjust image tone and color. Students also use Photoshop's many selection and editing tools and are introduced to layers, channels, color palettes, and scripted actions. By going through lessons ranging from image retouching to title banner and button creation and simple time-based animation, students assemble and produce a simple website which showcases a portfolio of their own work. In addition to the projects above, students are introduced to the theories and practices of visual communications and graphic design through a series of lectures and demonstrations. Other Adobe CS software such as InDesign are touched on as well.

CFN 1090. Drawing and Surface. 3 Credits.

An intensive studio covering the principles of drawing and mark-making and their place in contemporary art and design practice. Through the physical activity of drawing, students refine their capacity to observe and visualize. Materials fee. Restricted to BFA majors.

CFN 1091. First-Year Studio 1: Form and Materials. 3 Credits.

Comprehensive studio course providing a broad experience with the tools and materials of traditional and conceptual sculptural practices in art and design; develops students' ability to think, perceive, visualize, design, and build in three dimensions and explore questions of space, place, site, presentation, and context. Required for all first-year BFA majors.

CFN 1092. Time and Light. 3 Credits.

Technical applications of lens and non-lens based dark-room photographic processes; video recording and editing; field and experimental audio recording, and outdoor projection; the roles of time-based media in contemporary art and design practice. Required for first-year BFA majors.

CFN 1093. First-Year Studio 4: Interaction. 3 Credits.

Understanding, conceptualizing, and creating art and design projects that expect interaction from audiences or users; the influence of design on the human experience; politics of space; skills for working collaboratively with other makers. Required in the first year for BFA majors.

CORCORAN GRAPHIC DESIGN (CGD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CGD 1010. Fundamentals of Graphic Design. 3 Credits.

This course is an introduction to the visual components that serve as fundamental principles in the field of Design. Projects include the study, classification, and application of Gestalt theories of perception; color systems for designers; and pattern design. Course projects focus on visual relationships of form, image, type and grid structures. Students are engaged in a series of projects that address 2D and 3D abstract forms and their professional applications. Students learn design methodology and processes, design language, and the critique process for designers. These design methods and processes help students observe, understand, and articulate their intuitive visual decision-making skills. Professional practices for designers, project workflow, and professional presentation are integrated into course projects. Digital software tools and hand craft tools are learned and applied to course projects. Prerequisites: CDM 1200 and a working knowledge of OSX and Illustrator, InDesign, and Photoshop.

CGD 1090. Design Fundamentals I. 3 Credits.

The study, classification, and application of Gestalt theories of perception. Design methodology, project workflow; professional practices and presentation; and digital software and hand craft tools. Students create 2D and 3D forms and learn to use materials in design projects.

CGD 1091. Design Fundamentals II. 3 Credits.

Further development of skills acquired in CGD 1090. Visual relationships of form and image, type and grid structures, and scale. A minimum grade of C in the prerequisite course is required. Prerequisites: CGD 1090 or CDE 1090.

CGD 1099. Variable Topics. 36 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details.

CGD 2020. Communication Design. 3 Credits.

An introduction to visual communication practices that are built on fundamental principles in the field of graphic design and typography. Prerequisites: CGD 1091.

CGD 2050. Typography I. 3 Credits.

Introduction to typefaces and letterforms. Typographic terminology, history, technology, classification, measurement, and context. Prerequisites: CGD 1090 or CGD 1091.

CGD 2060. Typography II. 3 Credits.

This is an intermediate studio course in typography. Topics covered include typographic vocabulary, terminology, history, technology, classification, measurement, and syntax. Projects explore audience, structure/syntax, content/meaning, visual hierarchy, and aesthetics in message building for visual communications. Students further their knowledge of typographic history, nationality, technology, and the grid as organizing principle and system. Students must have received a grade of C or above in CGD 2050 to have it count toward the prerequisite requirement. Prerequisites: CGD 2050; and CDE 2090 or CGD 2000.

CGD 2090. Design Studio I. 3 Credits.

Exploration of visual hierarchies, composition, design principles, and an intro to Semiotics. Students learn through an iterative design process. Requires a high level of execution through precise craftsmanship. Restricted to graphic design majors. Prerequisites: CDE 1090 or CGD 1090.

CGD 2091. Design Studio II. 3 Credits.

Brand identity systems and programs. Iterative design process used to develop a cohesive and comprehensive branding program, with the developed brand identity applied to print, motion, and web media. A grade of C or above is required in the prerequisite course. Prerequisites: CGD 2090. Same As: CDE 2091.

CGD 3010. Special Topics in Design. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Prerequisite: CDE 1090.

CGD 3050. Typography III. 3 Credits.

Advanced design study exploring typography as both a legible and expressive communication tool. Exploration of traditional and contemporary practices through experimentation with narrative and hierarchical structures in static and kinetic media. Prerequisites: CGD 2060 or permission of the department chair.

CGD 3060. Typography IV. 3 Credits.

This is a course in advanced typography. Projects cover advanced visual hierarchy, sequence, kinetic type, narrative tools, and the grid as organizing principle and system. Students explore typography as legible and expressive communication within cultural context. Letterform ideation is investigated. Media utilized includes print and motion. Students must have received a grade of C or above in CGD 3050 or CGD 3090 or CDM 3090 to have it count toward the prerequisite requirement. Prerequisites: CGD 3050 or CGD 3090 or CDM 3090; or permission of the department chair.

CGD 3070. Typography in Motion. 3 Credits.

This course focuses on advanced experimental typography for animation and motion graphics. Projects focus on narrative, storyboarding, style frames, kinetic sequence, transitions, and workflow. Students explore typography as legible and expressive communication within cultural context. Methods and iterative processes for experimental typeface design are explored and developed. Students must have received a grade of C or above in CGD 3050 or CGD 3090 or CDM 3090 to have it count toward the prerequisite requirement. Prerequisites: CGD 3050 or CGD 3090 or CDM 3090; or permission of the department chair.

CGD 3090. Graphic Design Studio III. 3 Credits.

In this advanced level course, students focus on interactive and interaction design. Course projects immerse students in interactive web design, and mobile apps design for smart phones and tablet devices. Students learn, employ, and engage in systems design, user experience, user interface design, user interaction, and responsive design. Students learn to use mobile devices (smart phones/tablet devices) and computers as digital tools to communicate designed messages and visual content. Students learn advanced design process which includes: iterative concept development, wire framing, prototyping, design development, craft, details, production, and coding. Software and coding used in course projects include Adobe Digital Publishing Suite (DPS), HTML, and CSS. Students develop professional oral presentation skills by participating in weekly critiques. Project workflow, professional presentation, and professional practices for designers are integrated into course projects. At the end of the semester, students obtain experience in professional design projects and skill sets, while understanding on-the-job expectations for a fast-paced professional design studio. Students must have received a grade of C or above in CDE 2091 to have it count toward the prerequisite requirement. Restricted to graphic design majors. Prerequisites: CDE 2091 or permission of the department chair.

CGD 3091. Graphic Design Studio IV. 3 Credits.

In this advanced level course, students focus on design as instrument for social change. The semester long course project is Design Ignites Change. The project focuses on a social change or a social awareness issue. Students learn and develop skill sets in research, messaging, strategy, mood boards, branding, identity, production, and implementation. The project components include print design, interactive design, motion design, and social media. Students learn advanced design processes and create a cohesive brand package as they work with numerous project components and phases. The design process includes: iterative concept development, design development, craft, details, and production. Students develop professional oral presentation skills by participating in weekly critiques. Project workflow, professional presentation, and professional practices for designers are integrated into course projects. At the end of the semester, students obtain experience in professional design projects and skill sets, while understanding on-the-job expectations for a fast-paced professional design studio. Students must have received a grade of C or above in CGD 3090 to have it count toward the prerequisite requirement. Restricted to graphic design majors. Prerequisites: CGD 3090; or permission of the department chair.

CGD 3800. Independent Study: Corcoran Graphic Design. 3 Credits.

Independent research and special projects. Prior approval of the instructor or the program director is required. Restricted to junior and senior graphic design majors.

CGD 3900. Internship in Graphic Design. 3 Credits.

Provides opportunities for students to develop marketable skills, establish professional contacts, and explore different career options. Program approval is required prior to enrollment. Restricted to graphic design majors. Prerequisites: CGD 3090.

CGD 3960. Design Lab. 3 Credits.

This course offers a select group of undergraduate junior and senior graphic design students the unique opportunity to design and oversee production of projects for the Corcoran Gallery of Art and College of Art Design. Design Lab serves as an in-house design studio as students gain experience interacting with clients, managing deadlines, understanding and working within the limitations of their projects, and scheduling timelines. Elements of the design process covered in the course include writing design briefs and contracts, conceptual and design development phases, producing print-ready artwork, and fabrication coordination and supervision. Permission of department required for enrollment.

CGD 3961. Design Lab II. 3 Credits.

To be announced.

CGD 4090. Graphic Design Thesis I. 3 Credits.

"Graphic Design Senior Thesis is comprised of three components: written paper, interview of a design professional, and a final graphic design thesis project. In this course, students select a topic related to the field of Design, develop a thesis statement and written paper through a research and writing phase. Graphic Design briefs pertaining to the development of the written thesis and paper are explored during the semester. This course is for BFA/Graphic Design only. Prerequisite: A grade of "C" or better in CGD 3091 Graphic Design Studio IV; or Department Chair's approval."

CGD 4091. Graphic Design Thesis II. 3 Credits.

"Graphic Design Senior Thesis is comprised of three components: written paper, interview of a design professional, and a final graphic design thesis project. Students finalize the written thesis paper on a design-related topic. Then, students interview a prominent practitioner in the field of Design. As the third component of Graphic Design Senior Thesis, students translate their thesis paper into a graphic design thesis project. Upon completion, the thesis projects are presented in a special museum exhibition. This course is for BFA/Graphic Design only. Prerequisite: A grade of "C" or better in CGD 4090 Graphic Design Thesis I; or Department Chair's approval."

CGD 4120. Environmental Design. 3 Credits.

Reading the environment and the unique messages within it, using the environmental sign as a medium. A grade of C or above is required in the prerequisite course. Prerequisites: CGD 2091 or CDE 2091.

CGD 4170. Professional Practices for Designers. 3 Credits.

Resume and portfolio development and business considerations of the practicing designer. Personal goal assessment, operation of a design business, and designer-client relationships. Prerequisites: CGD 3091.

CORCORAN INTERACTION DESIGN (CIXD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CIXD 2090. Narrative Media for Interaction. 3 Credits.

Exploration of narrative as a method to conceptualize, communicate, and evaluate interactions across design contexts and media; using key aspects of narrative and event structure as a method for framing and analyzing designed interaction. Materials fee. Restricted to interaction design majors. Prerequisite: CFN 1093.

CIXD 2091. Systems Thinking for Interaction Design. 3 Credits.

The importance of technological, organizational, and social systems in the practice of interaction design. Materials fee. Restricted to interaction design majors. Prerequisites: CIXD 2090 and CIXD 2111 or permission of the instructor.

CIXD 2111. Creative Code. 3 Credits.

Procedures and methods of code-based strategies for realizing creative ideas; fundamental skills in creative coding languages and environments. Materials fee.

CIXD 3090. Human Centered Design for Social Engagement. 3 Credits.

Studio-based introduction to participatory design processes and their application for interaction design and social innovation. Materials fee. Prerequisite: CIXD 2091.

CIXD 3091. Prototyping and Fabrication for Interaction. 3 Credits.

Investigation of prototyping as a method for testing and communicating initial design assumptions and creating platforms for participatory response; refinement of associated fabrication skills. Materials fee. Prerequisites: CIXD 2091 and CIXD 2111.

CIXD 3110. Topics in Interaction Design Studio. 3 Credits.

Issues in contemporary design practice. Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

CIXD 3112. Data Visualization and Sonification. 3 Credits.

Tools and processes for visualizing and sonifying data sets using current web-based tools; critical analysis of data visualization examples; interactive possibilities of creating user experiences around data. Materials fee. Prerequisites: CIXD 2111 or permission of the instructor.

CIXD 3120. Interaction Design Internship. 3 Credits.

For interaction design majors pursuing an internship directly relevant to program themes and goals. Permission of the major advisor required prior to enrollment. Graded on a Credit/No Credit basis. Restricted to interaction design majors.

CIXD 3820. Engagement Lab. 3-6 Credits.

Design lab with a focus on social, environmental, and community impact. Project teams collaborate with a community partner to identify and respond to local challenges that might be addressed through interaction design processes and skills. Materials fee.

CIXD 3910. Collaborative Design Project. 3 Credits.

Practical experience in the conceptualization, production, and delivery of a multidisciplinary design project. Materials fee.

CIXD 4020. Topics in Design Research. 3 Credits.

Key theoretical and methodological concepts in the field of interaction design connect research in design innovation with qualitative and quantitative research methods, providing insights into user behaviors, attitudes, and expectations. Prerequisites: CGD 2091 or CIXD 2091.

CIXD 4090. Interaction Design Thesis I. 3 Credits.

The development of a senior thesis project and accompanying research. Student work evolves in a studio atmosphere that stresses user-oriented research, analysis, and prototyping of digital and physical interactive experiences, services, or products with a focus on social and environmental impacts. Materials fee. Restricted to Interaction Design majors. Prerequisites: CIXD 3090 and CIXD 3091.

CIXD 4091. Interaction Design Thesis II. 3 Credits.

Completion of a senior thesis project and accompanying research. Student work evolves in a studio atmosphere that stresses user-oriented research, analysis, and prototyping of digital and physical interactive experiences, services, or products with a focus on social and environmental impacts. Materials fee. Restricted to undergraduate interaction design majors. Prerequisite: CIXD 4090.

CIXD 4193. Topics in Design Leadership. 3 Credits.

Experiential study of professional practices of interaction designers and the leadership skills that promote innovative, equitable, and sustainable design solutions. Topics vary by semester. See program for more details. Restricted to undergraduate interaction design majors. Prerequisite: CIXD 3091.

CIXD 6001. Design Intensive. 1-3 Credits.

Design processes for students transitioning careers or entering a design graduate program from a non-design background; design thinking, design tools and technologies, digital imaging, sketching, model making and prototyping. Recommended background: No prior experience is necessary.

CIXD 6010. Interaction Design for Service. 3 Credits.

Tools and approaches for developing interactive services and experiences. Students work to define and frame problems, generate innovative proposals, and think comprehensively about the social, ethical, and organizational models surrounding the solutions they design. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6011. Narrative Media Design for Interaction. 3 Credits.

Exploration of narrative as a method to conceptualize, communicate, and evaluate interactions across design contexts and media; key aspects of narrative and event structure as a method for framing and analyzing designed interaction. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6012. Prototyping Interaction. 3 Credits.

Investigation of prototyping as a method for testing and communicating initial design assumptions, establishing feedback processes, creating platforms for participatory response, improving design ideas, and assessing the life-cycle implications of design solutions. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6020. Topics in Human Centered Design. 3 Credits.

Critical analysis of human-centered design methods in public policy and civic contexts using a case study approach. Topics vary by semester. See department for details. Prerequisites: CIXD 6010, PPPA 6006 and PPPA 6011.

CIXD 6021. Topics in Design Leadership. 3 Credits.

Practice-based investigation of leadership skills that promote innovative, equitable, and sustainable design solutions. Topics vary by semester. See department for more details. Permission of the instructor may be substituted for the prerequisites. Prerequisites: CIXD 6010 and CIXD 6011.

CIXD 6080. Engagement Lab. 3-6 Credits.

Design lab with a focus on social, environmental, and community impact. Project teams collaborate with a community partner to identify and respond to local challenges through interaction design. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6090. Topics in Design Research. 3 Credits.

Key theoretical and methodological concepts in the field of interaction design; connecting research in design innovation with research methods that offer insight into users' behaviors, attitudes, and expectations. Topics vary by semester. See department for more details. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6110. Studio Topics in Interaction Design. 3 Credits.

Issues in contemporary design practice. Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details.

CIXD 6111. Creative Code. 3 Credits.

Procedures and methods of code based strategies for realizing creative ideas; fundamental skills in creative coding languages and environments. Restricted to graduate students in the interaction design program or with the permission of the instructor.

CIXD 6112. Data Visualization and Sonification. 3 Credits.

Tools and processes for visualizing and sonifying data sets using current web-based tools; critical analysis of data visualization examples and interactive possibilities of creating user experiences around data. Students are expected to have foundational knowledge of digital design processes prior to enrollment. Restricted to graduate students in the interaction design program or with the permission of the instructor. Recommended background: Prior experience with digital imaging and web-based tools.

CIXD 6210. Interaction Design Capstone I. 3 Credits.

Development of project and research, stressing user-oriented research, analysis, prototyping of digital and physical interactive experiences, products. Restricted to graduate students in the interaction design program. Prerequisites: CIXD 6010, CIXD 6011, and CIXD 6012.

CIXD 6220. Interaction Design Capstone II. 3 Credits.

Continuation of CIXD 6210. Completion of project and related research. Emphasis on user-oriented research, analysis, and prototyping of digital and physical interactive experiences, services, or products. Restricted to graduate students in the interaction design program. Prerequisites: CIXD 6210.

CIXD 6998. Interaction Design Thesis I. 3 Credits.

The development of a thesis project and accompanying research. Student work evolves in a studio and seminar atmosphere that stresses user-oriented research, analysis, and prototyping of digital and physical interactive experiences, services, or products with a focus on their social and environmental impacts. Restricted to graduate students in the interaction design program. Prerequisites: CIXD 6010, CIXD 6011, and CIXD 6012.

CIXD 6999. Interaction Design Thesis II. 3 Credits.

Completion of thesis project and related research. Emphasis on user-oriented research, analysis, and prototyping of digital and physical interactive experiences, services, or products with a focus on their social and environmental impact. Restricted to graduate students in the interaction design program. Prerequisites: CIXD 6998.

CORCORAN INTERIOR ARCHITECTURE (CIAR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CIAR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

CIAR 2100. Studio 1. 6 Credits.

Introduction to design through study and application of fundamental design principles and elements to two- and three-dimensional projects. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 2100.

CIAR 2125. Introduction to Graphic Communications. 3 Credits.

Introduction to a variety of techniques used in communicating design ideas; image creation, logo design and branding, rendering, basic layouts, modeling, printed and digital presentation skills. Credit cannot be earned for this course and IA 2125.

CIAR 2150. Beginning Sketching for Designers. 3 Credits.

Freehand sketching developed and applied as a tool in all phases of the creative design process. Credit cannot be earned for this course and IA 2150.

CIAR 3200. Studio 2. 6 Credits.

All phases of design, from development of a concept through producing a complete presentation; implementing the different aspects of the design process. Prerequisites: CIAR 2100. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 3200.

CIAR 3225. Understanding Materials and Color. 3 Credits.

The visual perception and interaction of color; interior and exterior materials for use in residential and commercial environments. Credit cannot be earned for this course and IA 3225.

CIAR 3250. Introductory Digital Design Tools. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting, and enhancement of presentations; using CAD for the production of construction drawings. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 3250.

CIAR 3300. Studio 3. 6 Credits.

Studio course emphasizing continued refinement of the design process as applied to multifaceted and complex problems in non-residential space. Prerequisites: CIAR 3200. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 3300.

CIAR 3325. Concepts in Modern Architecture. 3 Credits.

Introduction to the history and concepts of architecture, interiors, and furniture from the Bauhaus movement until the present; creative thinking and cross-cultural perspectives emphasized. Credit cannot be earned for this course and IA 3325.

CIAR 3350. Basic Sustainability Design Strategies. 3 Credits.

Introduction to sustainable design and to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating Systems for Interior Design and Construction. Credit cannot be earned for this course and IA 3350.

CIAR 4400. Studio 4. 6 Credits.

Continuation and refinement of the design process to further advance conceptual thinking for development of larger-scale and more complex design problems. Prerequisites: CIAR 3300. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4400.

CIAR 4425. Fundamentals of Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4425.

CIAR 4450W. Pre-Design for Studio 5. 3 Credits.

Research methodology applied to development of the senior project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: CIAR 3300. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4450W.

CIAR 4500. Studio 5. 6 Credits.

Culmination of skills and knowledge gained through the program as demonstrated by the development of an interior design project covering all aspects from conception through presentation. Prerequisites: CIAR 4400. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4500.

CIAR 4525W. Professional Practice and Internship. 3 Credits.

Industry professionals provide students with guidance concerning the roles and responsibilities of the professional interior designer; written business procedures and practices, legal implications, ethics, trade relations, and designer-client relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4525W.

CIAR 4550. Building Systems: Methods and Processes. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; building systems (mechanical, electrical, plumbing) relevant to function and design of interior spaces. Restricted to undergraduate IA majors. Credit cannot be earned for this course and IA 4550.

CIAR 6100. Studio 1 Graduate. 6 Credits.

Introduction to the theory and application of design principles and elements in the built environment and to two- and three-dimensional projects; understanding the design process while adhering to a concept or parti. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6100.

CIAR 6125. Graphic Communications. 3 Credits.

Concepts and techniques used successfully in communicating design; graphic design principles, including hierarchy, emphasis, balance, rhythm and contrast, tools used in creating two-dimensional communication ideas; image creation, logo design and branding, rendering, basic layouts, three-dimensional modeling, printed and digital presentation skills. Credit cannot be earned for this course and IA 6125.

CIAR 6150. Sketching Architecture and Design. 3 Credits.

Three-dimensional mechanical drafting and free-hand sketching developed and applied as a tool in all phases of the creative design process; using line value, 2D and 3D representation of the built environment. Credit cannot be earned for this course and IA 6150.

CIAR 6200. Studio 2 Grad. 6 Credits.

Application of fundamental knowledge of design to complex three-dimensional projects and small scale interior projects. Prerequisites: CIAR 6100. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6200.

CIAR 6225. Interior Materials and Color Theory. 3 Credits.

Visual perception and interaction of color; interior and exterior materials for residential and commercial environments; interior building methods and materials as they relate to interior build-outs, furniture grade materials, and construction; materials qualities, strengths, weaknesses, and appropriate usage. Credit cannot be earned for this course and IA 6225.

CIAR 6250. Digital Drafting and Modeling. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6250.

CIAR 6300. Studio 3 Graduate. 6 Credits.

Continued exploration of the design process as applied to medium scale projects. Prerequisites: CIAR 6200. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6300.

CIAR 6325. Case Studies: Bauhaus to Bilbao. 3 Credits.

Modern and contemporary architectural ideas and concepts explored through key buildings and interiors of the twentieth and twenty-first centuries; focus on modernist works in Washington, DC. Credit cannot be earned for this course and IA 6325.

CIAR 6350. Sustainability and the Built Environment. 3 Credits.

The application of sustainable design; introduction to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) rating system, the Living Building Challenge, and the WELL Building Standard. Credit cannot be earned for this course and IA 6350.

CIAR 6400. Studio 4 Graduate. 6 Credits.

Continued refinement of the design process to further advance conceptual thinking for development of larger-scaled and more complex design problems. Prerequisites: CIAR 6300. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6400.

CIAR 6425. Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6425.

CIAR 6450. Research Seminar for Studio 5. 3 Credits.

Students synthesize knowledge and define an area of interest that is well established or newly emerging within the discipline in preparation for the capstone project in Studio 5. Prerequisites: CIAR 6300. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6450.

CIAR 6500. Studio 5 Graduate. 6 Credits.

Students create and design an individual capstone interior design project that meets the learning objectives, accreditation standards, and requirements of the program. Prerequisites: CIAR 6400. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6500.

CIAR 6525. Practicum and Internship. 3 Credits.

Students work with professional interior designers, architects, or industry-related professionals participating in a project based setting. Roles and responsibilities of the professional interior designer; business procedures, legal-implications, ethics, trade relations, and designer-client-contractor relations. Prerequisites: CIAR 6400. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6525.

CIAR 6550. Structures and Building Systems. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; mechanical, electrical, and plumbing building systems as related to function and design of interior spaces. Restricted to graduate IA majors. Credit cannot be earned for this course and IA 6550.

CIAR 6800. Studio A. 6 Credits.

Students identify and solve a problem through individual design projects, then work collaboratively on a larger scale project with meaningful social impact in CIAR 6900 (Studio B). Restricted to students in the MA in interior architecture program.

CIAR 6825. Advanced Visual Communications Methods. 3 Credits.

Introduction to advanced sketching, modeling, and graphic methods that enhance students' ability to communicate their concept ideas and design projects. Restricted to graduate students.

CIAR 6850. Architectural Design Theory and Criticism. 3 Credits.

Core design ideas in interiors and architecture; analysis of and theoretical meanings behind those ideas. Includes projects related to and site visits in Washington, DC. Restricted to graduate students.

CIAR 6900. Studio B. 6 Credits.

Students design and execute a collaborative project using research and assessment developed through CIAR 6900 (Studio A). The group project is displayed at the Corcoran School of the Arts and Design final exhibition. Restricted to students in the MA in interior architecture program. Prerequisites: CIAR 6800.

CIAR 6925. Psychology of the Built Environment. 3 Credits.

Topics related to the human experience, such as social design, ethical responsibilities, and sustainability. Case study projects allow students to investigate precedents as they explore the psychological impact of design. Restricted to graduate students.

CIAR 6950. Leadership in Design. 3 Credits.

The attributes of successful leaders and how individuals come to master those qualities. Students interact with professionals in leadership and management roles in the design field. Restricted to graduate students.

CORCORAN MUSEUM STUDIES (CMST)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CMST 6101. Museum Management. 3 Credits.

Overall operation of the museum; legal status of the museum and its obligations to the public, governance, staffing, and policymaking as a nonprofit organization. Theory applied to practical situations. Restricted to graduate students. Same As: MSTD 6101.

CMST 6102. Museum Financial Management. 3 Credits.

Financial management of museums, including how the roles and responsibilities of a variety of museum professionals involve financial management, revenue generation, and budgeting in order to assure a museum's daily operation, growth and sustainability. Restricted to graduate students.

CMST 6103. Leading Change. 3 Credits.

Leadership challenges and styles as they relate to organizational change efforts; museums undergoing change; best practices in leadership at all levels of the museum. Restricted to graduate students.

CMST 6104. Managing People and Projects. 3 Credits.

Organizational development and modern management concepts as applied to museums. Managing people in the organization; the importance of project management systems to museum administration. Restricted to graduate students.

CMST 6105. Museum Fundraising. 3 Credits.

Introductory topics in museum fundraising, including sources of funds, best practices and approaches, annual funds and capital campaigns, and the internal management of the fundraising effort. Restricted to graduate students.

CMST 6106. Museum Marketing. 3 Credits.

Opportunities and responsibilities within museum marketing. Development of a marketing plan; situational analysis and market research; segmentation and targeting; positioning and intent; identification of business, strategies and key performance metrics. Restricted to graduate students.

CMST 6107. Museum Ethics and Values. 3 Credits.

Ethical questions museums face in practical, political, and institutional contexts, including governance and funding, collecting and preservation, exhibiting culture, and education and public programs. Restricted to graduate students.

CMST 6201. Introduction to Museum Collections. 3 Credits.

Issues and practices in creating, controlling, protecting, and providing access to collections. Fundamentals of planning, policies, records, accession and the physical protection of objects; legal and ethical issues related to registrarial work and cultural heritage. Restricted to graduate students.

CMST 6202. Collections Management: Practical Applications. 3 Credits.

Development and implementation of policies and procedures relevant to management of museum collections. Practical experience with acquisition, documentation, loans, preservation, exhibition, storage, packing, transportation and disposal. Restricted to graduate students. Prerequisite: CMST 6201.

CMST 6203. Preventive Conservation Concepts. 3 Credits.

Histories of preventive conservation, ethics, team approaches to conservation. Basics of materials testing, interactions of materials, condition reports, museum storage and exhibition materials, and risk assessment. Restricted to graduate students. (Same as ANTH 6203).

CMST 6204. Preventive Conservation Techniques. 3 Credits.

Continuation of CMST 6203. Practical exercises and ethical issues; evaluation and monitoring of collections; development and implementation of policies and procedures to facilitate collections care. Prerequisites: One of the following: ANTH 6203, CAH 6286, or CMST 6203. Credit cannot be earned for this course and AH 6287, ANTH 6204.

CMST 6205. Archival Practice. 3 Credits.

Introduction for museum professionals to the core ideas and practices of archivists and archival institutions. Restricted to graduate students.

CMST 6206. Digitization and Digital Asset Management. 3 Credits.

Management of digital assets, projects, or programs involving digitization and access for museum professionals. Current methods in creation and dissemination of digital surrogates, associated metadata, and digital descriptive records of museum collections. Restricted to graduate students.

CMST 6301. Museum Exhibition Curatorial Research and Planning. 3 Credits.

The role of the curator in contemporary museums with an emphasis on curatorial work on exhibitions. Includes ethics, collecting, documentation, communication, scholarly research, and public presentation. Restricted to graduate students. Credit cannot be earned for this course and MSTD 6301.

CMST 6302. Museum Exhibition Design. 3 Credits.

Language, materials, and processes for developing and designing museum exhibitions.

CMST 6304. Exhibition Development and Scriptwriting. 3 Credits.

Exhibition development from a content perspective. How exhibitions incorporate storytelling, the role of the audience including community stakeholders, and the collaborative work of exhibitions teams. Restricted to graduate students. Prerequisites: CMST 6301 or permission of the Director for Graduate Studies.

CMST 6305. Visitor Perspectives: Museum Evaluation. 3 Credits.

Theory and practice of museum evaluation with emphasis on how evaluation informs stages of exhibition development, including concept generation, design, interpretation, and installation. Students conduct an evaluation study and present evaluation results to museum staff. Restricted to graduate students. Same As: MSTD 6305. Credit cannot be earned for this course and EDUC 6706.

CMST 6306. Race, Gender, Sexuality, and the Museum. 3 Credits.

Exploration of the role that museums play in the construction, reification, and representation of ideas about race and gender. Restricted to graduate students.

CMST 6307. Interpreting Historic Sites and House Museums. 3 Credits.

Interpretation of historic sites and house museums, the most common type of museum in the United States, including historical significance, visitor needs and interests, and online and on-site interpretive methods. Restricted to graduate students.

CMST 6403. Museums and Technology. 3 Credits.

Critical analysis of the historical and contemporary relationships between museums and digital technologies. How human and institutional cultures shape and are shaped by their technologies and how such ideas inform museum practices. (Same as EDUC 6710).

CMST 6404. Museums and Social Media. 3 Credits.

How museums engage users through the internet. Online platforms used to evaluate the complexities of social media including strategies, tactics, and benchmarks for measuring online engagement and associated challenges and risks. Restricted to graduate students.

CMST 6501. Museum Studies Internship. 1-3 Credits.

Individual work experience in museums of the Washington area or elsewhere. Students are supervised by staff members of the cooperating museum in the areas of museum management, object care and conservation, or exhibitions. Restricted to students in the master's and certificate programs in museum studies.

CMST 6502. Directed Research. 3 Credits.

Individual research on special topics in the museum field under supervision by a professor or museum professional. Topics must be approved by the director of the Museum Studies Program. May be repeated for credit. Restricted to graduate students.

CMST 6601. Special Topics in Museum Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CMST 6701. Museum History and Theory. 3 Credits.

Origins of the modern museum and the history of museums. Theorists whose ideas have been accessed to inform our understanding of museums as places of meaning making, power and empowerment, and cultural authority. Restricted to graduate students.

CMST 6703. Museums and Community Engagement. 3 Credits.

How museums engage with local communities as primary audiences for programming and support. Students perform community-engaged work with a local museum or historic site. Restricted to graduate students.

CMST 6704. Museums and Cultural Property. 3 Credits.

Legal and ethical principles of ownership and restitution of stolen art and other cultural property wrongfully removed from its owners or countries of origin. Current museum policies and procedures for acquisition, exhibition, retention, and restitution of their collections analyzed using claims brought against museums. Restricted to graduate students. Prerequisite: CMST 6201.

CORCORAN MUSIC (MUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MUS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

MUS 1061. Instrumental Ensemble. 1 Credit.

Chamber ensemble groups are approved by audition. Section numbers are .11 guitar ensemble, .12 percussion ensemble, .13 jazz combo, .14 keyboard ensemble, .15 string ensemble, .16 woodwind ensemble, .17 brass ensemble, .18 Baroque ensemble, .19 Latin band, .20 blues band.

MUS 1071. Jazz Band. 1 Credit.

Preparation and performance of classic and contemporary "big band" literature. Prerequisite: audition before director.

MUS 1081. Orchestra. 1 Credit.

Preparation and performance of orchestral literature. Prerequisite: audition before director.

MUS 1083. University Band. 1 Credit.

Consisting of two ensembles: The University Symphonic Band and GW Colonial Brass. See schedule of classes for section information. Audition before director required.

MUS 1091. University Singers. 1 Credit.

Preparation and performance of choral literature. Prerequisite: audition before director. Section .10 is University Singers; Section .11 is Chamber Choir.

MUS 1093. University Singers/Chamber Choir. 1 Credit.

Preparation and performance of choral literature. Section .10 is University Singers; Section .11 is Chamber Choir. Prerequisites: audition before director.

MUS 1095. Vocal Theater Workshop. 1 Credit.

Development of body awareness for the stage, acting improvisations, and character development. Scenes chosen from the opera, operetta, and musical theater repertoire. Musical coaching, use of makeup, and audition preparation.

MUS 1099. Variable Topics. 1-36 Credits.**MUS 1101. Elements of Music Theory. 3 Credits.**

Elements necessary for the study of music, including practical musicianship and musical notations; develops skills in music reading, writing, and aural acuity. Concurrent registration in a music reading lab is required.

MUS 1102. Comprehensive Musicianship I. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard. Prerequisite: MUS 1101.

MUS 1103. Music in the Western World. 3 Credits.

Introductory history of musical styles, related to listening; study of music materials and media. Not open to music majors.

MUS 1104. Topics in Music. 3 Credits.

A rotating set of classes; topics may include: American music, a composer, the opera, and musical life in Washington, DC.

MUS 1105. Introduction to Musical Thought and Practice. 3 Credits.

Introduction to concepts, methods, and practices that guide the study and performance of music. Old and new paradigms of musical thought are subject to discussion and critical investigation.

MUS 1106. Introduction to Musical Performance and Experience. 3 Credits.

Through discussion, writing, and performance, students engage with issues such as the putative transcendent character of music, the false divisions between interpretation, improvisation, and composition, and the impact of modernity on expressive culture. Placing their own processes of musical decision making within these conceptual frames allows students to interrogate and develop their performative and social selves. Restricted to Register for this course in the Music department.

MUS 1107. Music of the World. 3 Credits.

Introduction to music in culture through comparative study of music from a variety of cultures worldwide.

MUS 1108. History of Jazz. 3 Credits.

Introduction to the styles, composers, and performers of jazz music from its origins to the present.

MUS 1151. Conducting. 3 Credits.

Technique of conducting, score reading, rehearsal procedures, analysis, and interpretation of selected musical literature; practice in conducting. Prerequisite: MUS 2101.

MUS 1511. Piano. 1 Credit.

MUS 1512. Piano. 2 Credits.

MUS 1513. Voice. 1 Credit.

MUS 1514. Voice. 2 Credits.

MUS 1515. Organ. 1 Credit.

MUS 1516. Organ. 2 Credits.

MUS 1517. Classical Guitar. 1 Credit.

MUS 1518. Classical Guitar. 2 Credits.

MUS 1519. Violin. 1 Credit.

MUS 1520. Violin. 2 Credits.

MUS 1521. Viola. 1 Credit.

MUS 1522. Viola. 2 Credits.

MUS 1523. Cello. 1 Credit.

MUS 1524. Cello. 2 Credits.

MUS 1525. Bass. 1 Credit.

MUS 1526. Bass. 2 Credits.

MUS 1527. Flute. 1 Credit.

MUS 1528. Flute. 2 Credits.

MUS 1529. Recorder. 1 Credit.

MUS 1530. Recorder. 2 Credits.

MUS 1531. Oboe. 1 Credit.

MUS 1532. Oboe. 2 Credits.

MUS 1533. Clarinet. 1 Credit.

MUS 1534. Clarinet. 2 Credits.

MUS 1535. Saxophone. 1 Credit.

MUS 1536. Saxophone. 2 Credits.

MUS 1537. Bassoon. 1 Credit.

MUS 1538. Bassoon. 2 Credits.

MUS 1539. French Horn. 1 Credit.

MUS 1540. French Horn. 2 Credits.

MUS 1541. Trumpet. 1 Credit.

MUS 1542. Trumpet. 2 Credits.

MUS 1543. Trombone. 1 Credit.

MUS 1544. Trombone. 2 Credits.

MUS 1545. Tuba. 1 Credit.

MUS 1546. Tuba. 2 Credits.

MUS 1556. Lute. 2 Credits.

MUS 1557. Harpsichord. 1 Credit.

MUS 1572. Jazz Performance Techniques. 2 Credits.

MUS 2012. Piano. 2 Credits.

Prerequisite: Open by examination.

MUS 2014. Voice. 2 Credits.

Prerequisite: Open by examination.

MUS 2016. Organ. 2 Credits.

Prerequisite: Open by examination.

MUS 2018. Classical Guitar. 2 Credits.

Prerequisite: Open by examination.

MUS 2020. Violin. 2 Credits.

Prerequisite: Open by examination.

MUS 2022. Viola. 2 Credits.

Prerequisite: Open by examination.

MUS 2024. Cello. 2 Credits.

Prerequisite: Open by examination.

MUS 2026. Bass. 2 Credits.

Prerequisite: Open by examination.

MUS 2028. Flute. 2 Credits.

Prerequisite: Open by examination.

MUS 2030. Recorder. 2 Credits.

Prerequisite: Open by examination.

MUS 2032. Oboe. 2 Credits.

Prerequisite: Open by examination.

MUS 2034. Clarinet. 2 Credits.

Prerequisite: Open by examination.

MUS 2036. Saxophone. 2 Credits.

Prerequisite: Open by examination.

MUS 2038. Bassoon. 2 Credits.

Prerequisite: Open by examination.

MUS 2040. French Horn. 2 Credits.

Prerequisite: Open by examination.

MUS 2042. Trumpet. 2 Credits.

Prerequisite: Open by examination.

MUS 2044. Trombone. 2 Credits.

Prerequisite: Open by examination.

MUS 2046. Tuba. 2 Credits.

Prerequisite: Open by examination.

MUS 2048. Harp. 2 Credits.

Prerequisite: Open by examination.

MUS 2050. Percussion. 2 Credits.

Prerequisite: Open by examination.

MUS 2058. Harpsichord. 2 Credits.

Prerequisite: Open by examination.

MUS 2071. Jazz Performance Techniques. 1-3 Credits.

MUS 2072. Jazz Performance Techniques. 2 Credits.

Prerequisite: Open by examination.

MUS 2101. Harmony. 3 Credits.

Study of tonal harmonic practice from Baroque, Classical, Romantic, and twentieth-century repertoires. Concurrent registration in the weekly keyboard lab is required.

Prerequisite: MUS 1102.

MUS 2102. Comprehensive Musicianship II. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard.

Prerequisite: MUS 2101.

MUS 2105. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor.

Same As: ANTH 2505.

MUS 2105W. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites:

MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor. Same As: ANTH 2505.

MUS 2106. Music History III: Twentieth-Century Art Traditions. 3 Credits.

Western musical traditions and styles since Romanticism and approaches to music as art in contemporary society.

Prerequisite: MUS 1101.

MUS 2122. Music in the U.S.. 3 Credits.

History of music and musical life in the United States,

emphasizing relationships among traditions of diverse origin.

Prerequisites: MUS 1101 or permission of the instructor.

MUS 2122W. Music in the U.S.. 3 Credits.

History of music and musical life in the United States,

emphasizing relationships among traditions of diverse origin.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

Prerequisites: MUS 1101 or permission of the instructor. Same As: MUS 2122.

MUS 2123. Musical Cultures of Black Americans. 3 Credits.

Musical genres and styles developed by African Americans since Reconstruction in their historical and cultural contexts.

Emphasis on black musical contributions to the cultural life of Washington, DC.

MUS 2134. Composition. 3 Credits.

Introduction to twenty-first-century compositional practice; concepts of post-tonal analysis; emphasis on style studies and original student works. May be repeated for credit.

Prerequisite: MUS 2101.

MUS 2140. Pedagogy. 3 Credits.

Principles, materials, and methods of teaching in selected

areas. Permission of the instructor required prior to enrollment.

MUS 2173. Comprehensive Musicianship for Jazz. 2 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard, with emphasis given to skills associated with jazz performance. Prerequisite: MUS 1102.

MUS 2174. Introduction to Jazz Harmony. 3 Credits.

Analysis and composition of tunes in jazz/pop styles. Study of rhythmic characteristics, voice-leading, and chord/scale relationships within a jazz context. Prerequisite: MUS 1102.

MUS 2318. Orchestral Instrument. 2 Credits.

Prerequisite: Open by examination.

MUS 2661. Electronic and Computer Music I. 3 Credits.

Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee.

MUS 2662. Electronic and Computer Music II. 3 Credits.

Continuation of MUS 2661. Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee. Prerequisite: MUS 2661.

MUS 3099. Variable Topics. 1-12 Credits.

MUS 3126. Music History I: Antiquity through Early Baroque. 3 Credits.

The development of Western European music from its earliest traceable roots to the end of the early, experimental Baroque period. Prerequisite: MUS 1102 and sophomore standing.

MUS 3127. Music History II: The Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late 17th through the late 19th centuries. Prerequisite: MUS 1102.

MUS 3127W. Music History II: Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late seventeenth through the late nineteenth centuries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 1102.

MUS 3139. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Prerequisite: MUS 2101.

MUS 3139W. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 2101.

MUS 3174. Topics in Music Theory and Composition. 3 Credits.

A seminar on variable topics in the discipline of music theory, analysis, and composition. Topics may include analysis of post-tonal music, advanced jazz arranging, analysis of fourteenth-century vocal music, developments in extended instrumental techniques since 1950. Prerequisites depend on the topic; consult the department.

MUS 3175. Topics in Music History and Literature. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department. Credit cannot be earned for this course and TRDA 2185.

MUS 3175W. Topics in Music History and Literature. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and TRDA 2185.

MUS 4085. Senior Capstone Project. 2-4 Credits.

Research, composition, or performance project. Students must consult with a faculty mentor and present a written proposal prior to enrollment and meet regularly with their mentor throughout the semester. Restricted to senior music majors. Recommended background: prior completion of MUS 4198.

MUS 4184. Advanced Composition. 3 Credits.

Private instruction in composition in tutorial format. Prerequisite: MUS 2134.

MUS 4198. Senior Seminar. 3 Credits.

Methodologies of musical research, including studies in performance, composition, history, bibliography, and cultural theory. Recommended for students completing senior capstone projects. Restricted to music majors.

MUS 4199. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite.

MUS 4199W. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

MUS 5099. Variable Topics. 1-99 Credits.

CORCORAN PHOTOJOURNALISM (CPJ)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CPJ 2091. Photojournalism Studio Sequencing and Narrative Strategies. 3 Credits.

Techniques, practices, and ethics of photojournalism. Strategies for researching, photographing, editing, and interpreting stories and sequences; advancing technical skills; history and contemporary practices of visual journalism. Prerequisites: CSA 1501 or CSA 1502 or CPH 1091. Recommended background: prior completion of CSA 2090 or SMPA 2113.

CPJ 3090. Photojournalism Studio Visual Reportage. 3 Credits.

Similarities and differences in photojournalism in newspapers, magazines, television, the internet, and other media, including still and moving images, writing and editing needs in a variety of assignments, journalistic ethics, and communication laws. Prerequisites: One of the following: CSA 2090, CPJ 2090, or CPJ 2091.

CPJ 3091. Photojournalism Studio Multimedia Storytelling. 3 Credits.

Comparison of modes of practice, journalistic ethics, and communication laws with a focus on multimedia approaches to storytelling. Prerequisites: One of the following: CSA 2090, CPJ 2090, or CPJ 2091. Recommended background: Prior completion of CPJ 3090.

CPJ 3300. Speed of Sound. 3 Credits.

Great audio is a key component to compelling multimedia and video. Over the course of this class, audio reporting, collection, and postproduction techniques are explored and put into practice as a means to sharpen skills and advance understanding of the role and power of audio in visual journalism. Prerequisites: CPH 3050 and CPJ 2090 or CPJ 2091, or CPH 2090 and CPH 2091.

CPJ 4050. Picture Editing. 3 Credits.

CPJ 4090. Photojournalism Thesis I. 3 Credits.

In the final year of the Photojournalism curriculum, the emphasis is on developing individual strengths and style in the context of a sophisticated understanding of how photographic media shape and reflect public opinion. Students define, propose, research and initiate a longterm project that culminates in the Spring semester Senior Thesis exhibit. Intensive one-on-one and group critiques are integrated into the course as the students explore various approaches to their chosen subject matter. Prerequisites: CPJ 3091 and permission of the department.

CPJ 4091. Photojournalism Thesis II. 3 Credits.

This course continues the objectives of CPJ 4090 and focuses on the completion of the students' thesis work, which results in an exhibition at the Corcoran Gallery. Portfolio development and critique prepares students for the onset of their careers. Prerequisites: CPJ 4090 Photojournalism Thesis I and permission of the department.

CPJ 4170. Professional Practices for Photojournalism. 3 Credits.

This classroom complement to students' internship experiences examines the professional contexts in which today's photojournalism takes place and incorporates business practices, ethics, and economic realities. Practical approaches for working across multiple platforms are explored. Students meet with working professionals and experts during the semester and develop their portfolios, resumes and web identities for presentation in meeting the professional demands of the field. Restricted to photojournalism majors. Prerequisite: CPJ 3091.

CPJ 4340. Project-Driven Website Design. 3 Credits.

Technical and conceptual introduction to web design; visual design; fundamentals of website structure and navigation; accessibility and usability; writing HTML and CSS; content management systems; the web as a platform for both client-driven and self-published work. Prerequisites: CDM 1200 or CDM 2220 or CFN 1000.

CPJ 4600. Web Essay. 3 Credits.

This class teaches photographers to build essays with still photography images and audio files. Over the course of the semester students propose, research, edit and produce a series of audio/stills essays for web publication. Skills in developing and executing photo stories are addressed, in addition to effective audio gathering and editing. Audio gear and laptops required. Prerequisites: CPH 2090 or CPJ 2090 or permission of the department.

CPJ 6010. New Media Photojournalism Image and Impact. 3 Credits.

Traditional and nontraditional uses of photographic imagery in the media. Finding the elements within an image, sequence or mode of publication that are most effective in communicating a concept or representing human experience. Restricted to students in the MA in new media photojournalism program or with the permission of the instructor.

CPJ 6020. Topics in Photo Editing Studio Seminar. 3 Credits.

The function of editing in photojournalism as catalyst for public discourse through intentional audience engagement. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to students in the MA in new media photojournalism program or other graduate students with portfolio review and permission of the Director of Graduate Studies. Prerequisite: CPJ 6010.

CPJ 6024. Photojournalism Seminar II: Danish Embassy. 3 Credits.

To be announced.

CPJ 6025. Photojournalism Seminar II: Theories of Change/ New Forms of Radical Photography. 3 Credits.

In questioning how photographers collaborate with NGO's, policy makers, community activists and many others, this course examines if and how creative work can radicalize civic institutions like the press, citizenship and even government toward greater justice and equity. With a focus on three arenas examined through visual arts: violence, the environment and global equity; the class presents students with a comprehensive window into the discourse and practice(s) of socially engaged art, film, and photography. Through critical discussions, field trips, and visiting artists, the class creates a blueprint and staging ground for students to activate these ideas within their own areas of interest.

CPJ 6050. Advanced Multimedia Lab I. 3 Credits.

Technical production skills to support the development of complex new media photojournalism projects. Audio and video collection and post-production, integration of still images, and web-based project production. Restricted to students in the MA in new media photojournalism program or with the permission of the instructor.

CPJ 6060. Advanced Multimedia Lab II: Editing and Production. 3 Credits.

Continued development of technical production skills to support the development of complex new media photojournalism projects. Audio and video collection and post-production, integration of still images, and web-based project production. Restricted to students in the MA in new media photojournalism program or with the permission of the instructor.

CPJ 6100. Research, Reporting, and Writing: Contemporary Journalism Practice. 3 Credits.

Students go beyond the basics in story coverage exploring effective research techniques, interview techniques, and writing for breaking news as well as short and long term projects. Through lectures, writing assignments, intensive workshops as well as individual and team assignments, students develop and begin to hone the skills of effective story coverage for web and print publications. This course works closely with the Photojournalism Story and Narrative and Advanced New Media Lab courses. A critical reading of contemporary media is emphasized throughout the course.

CPJ 6110. Story and Narrative in Photojournalism. 3 Credits.

At the heart of photojournalism is the human condition and the day-day-lives of those around us. Through this course students analyze effective visual story telling with still images. Students develop an understanding of what makes a strong photo story and how to pursue compelling images. A series of student-generated projects is completed through the course of the semester.

CPJ 6225. Making Meaning Through the Photography Book. 3 Credits.

An advanced course that engages with the traditions and current practices of the photographic book to examine and explore narrative strategies useful to contemporary artists/ photographers. Students structure their own photographic books. Prerequisites: CPJ6110 or permission of instructor.

CPJ 6300. Speed of Sound. 3 Credits.

Great audio is a key component to compelling multimedia and video. Over the course of this class, audio reporting, collection, and postproduction techniques are explored and put into practice as a means to sharpen skills and advance understanding of the role and power of audio in visual journalism. Prerequisite: CPJ 6050.

CPJ 6400. Fine Printing Technique. 3 Credits.

Students refine approaches to editing and digital printing of photographs; develop an efficient workflow; and integrate advanced digital techniques and approaches to serve the content of the image and the intentions of the image-maker. Restricted to graduate students. Prerequisites: CPJ 6110. Recommended background: prior completion of new media photojournalism first-year curriculum.

CPJ 6401. El Salvador Travel: International Experience/Transnational Identity. 3 Credits.

The travel component of the course provides an opportunity for cultural exchange and for the application of an integrated model of art and social practice in a global/local context. By in situ exploration, conducting video interviews of artists and key cultural figures, and by leading educator workshops for youth, Corcoran students partner with students in El Salvador, empower young people, provide new models of engagement, and together construct a visual document of the artistic scene of the 1980s in El Salvador and its relevance to the current, transnational, cultural milieu. Travel expenses for CPH 3401 are additional. Pre-requisite: CPH 3400/6400 or permission by the instructor.

CPJ 6500. New Media Photojournalism Capstone Production Workshop. 3 Credits.

Workshop for research, pre-production, and production of a multimedia capstone project for the new media photojournalism program. Required of and restricted to anyone who is working on NMPJ capstone requirements and completion of the degree. Restricted to students in the MA in the new media photojournalism program. Prerequisites: CPJ 6010, CPJ 6050, CPJ 6060, CPJ 6100, and CPJ 6110. Corequisites: CPJ 6550.

CPJ 6501. New Media Photojournalism Capstone Post-Production Workshop. 3 Credits.

Multimedia post-production course designed to support completing capstone video and photo reporting projects, public and community engagement presentations and exhibits, and publication. Restricted to students in the MA in the new media photojournalism program. Prerequisites: CPJ 6500 and CPJ 6550.

CPJ 6540. Project-Driven Website Design. 3 Credits.

Technical and conceptual introduction to web design as part of the visual storytelling and publication. Explores visual design; fundamentals of website structure and navigation; accessibility and usability; writing HTML and CSS; and content management systems. Deadlines align with spring capstone. Recommended background: Intended for students working with a large body of work for capstone or thesis visual projects. Credit cannot be earned for this course and CPJ 4340.

CPJ 6550. New Media Photojournalism Capstone Research and Reporting. 3 Credits.

The essential elements of effective and ethical longer-form reporting and writing in both print and online media are addressed using case studies, reporting and writing assignments, and in-class exercises. Restricted to students in the MA in new media photojournalism program. Prerequisites: CPJ 6010, CPJ 6050, CPJ 6060, CPJ 6100, and CPJ 6110. Corequisites: CPJ 6500.

CPJ 6560. NMPJ Capstone Travel Project Production. 3-6 Credits.

Structured support of capstone production involving extensive travel outside of the Washington, DC, region. For detailed information concerning eligibility, approval, course structure, requirements, and costs consult the NMPJ program advisor. Restricted to students in the MA in new media photojournalism program. Prerequisites: CPJ 6010, CPJ 6050, CPJ 6060, CPJ 6100, and CPJ 6110; and CPJ 6020 or CPJ 6225; and CPJ 6550 or equivalent (permission of the program advisor is required).

CPJ 6570. Nuancing the Story: Advanced Video Post-Production. 3 Credits.

Examination and practical application of video post-production practices and techniques such as story design, motion graphics and visual effects. Students apply and master skills to edit existing projects and prepare a professional demo reel of work. Restricted to students in the MA in new media photojournalism program or with the permission of the program director or the instructor. Prerequisites: CPJ 6010, CPJ 6020, CPJ 6050, CPJ 6060, CPJ 6100, CPJ 6110, CPJ 6500, and CPJ 6550.

CPJ 6600. Web Essay: Effective Storytelling with Audio and Images. 3 Credits.

This class teaches photographers to build essays with still photography images and audio files. Over the course of the semester students propose, research, edit and produce a series of audio/stills essays for web publication. Skills in developing and executing photo stories are addressed as are effective audio gathering and editing. Audio gear and laptops required. Restricted to students with advanced level with still photography skills; advanced knowledge of Adobe Premiere or Final Cut required of graduate students. Prerequisites: CPH 2090 and CPJ 2090 or permission of department for BFA and BA students; CPJ 6110 and CPJ 6050 or portfolio review and permission of department for graduate students. Recommended background: Advanced abilities in still photography and/or photojournalism. (Same as CPJ 4600).

CPJ 6640. Advanced Studio Lighting: Commission Project. 3 Credits.

Students work collaboratively with two professional photographers to produce 5-10 photographic portraits and 5-10 short videos of Foreign Service employees for an exhibition at the U.S. Department of State's new U.S. Diplomacy Center. Through an immersive, hands-on approach, students learn the different aspects of commissions and exhibitions, including research, project management, collaboration and production. Students also learn about historical and contemporary aesthetic approaches to photographic portraiture and master technical issues such as lighting and interviewing skills. This course is aimed toward photography and photojournalism students who want to learn to work collaboratively in a real-life commission situation.

CPJ 6800. Independent Study: Photojournalism. 3 Credits.

This option is appropriate for degree students who want access to independent faculty supervision, lab areas, and supplies for independent projects, and do not need or desire extensive course instruction.

CPJ 6900. Internship: MA Photojournalism. 3 Credits.

For degree students only. Internships can help students develop marketable skills, establish professional contacts, and explore different career options.

CORCORAN STUDIO ARTS (CSA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CSA 1090. Fine Art Fundamentals I. 3 Credits.

Exploration of techniques in acrylic and oil painting through studio practice, personal development, and art historical contexts.

CSA 1091. Fine Art Fundamentals II. 3 Credits.

Foundational digital software and equipment, concepts, and techniques. Exploration of cultural and theoretical aspects of digital media: truth v. fiction, digital narratives, virtual boundaries, personae, and the social media landscape. Restricted to Students who have not taken CSA 1601.

CSA 1101. Introduction to Handbuilt Ceramics. 3 Credits.

Introduction to working with clay as an art form; fundamental hand-building techniques such as pinch, coil, and slab; basic surface, glaze, and firing techniques. Introductory history of ceramics. Credit cannot be earned for this course and FA 1014.

CSA 1102. Introduction to Wheelthrown Ceramics. 3 Credits.

Introduction to wheelthrowing in ceramics; the potter's wheel as a tool to make ceramic cylindrical, open forms, and vessels; slips, underglazes, and glazes; reduction and oxidation kiln firing; the role of wheel-thrown pottery in historic and contemporary cultures. Credit cannot be earned for this course and CCR 1253, FA 1015.

CSA 1201. Sculpture Fundamentals: Material Investigations. 3 Credits.

Beginning study of design and fabrication of sculpture. Introduction to sculptural techniques across multiple media, with a focus in hand-built processes including textile, wood, and found object techniques. Materials fee. Credit cannot be earned for this course and CFA 1092, CFN 1091.

CSA 1301. Drawing Fundamentals. 3 Credits.

Fundamentals of line, shape, value, contrast, composition, and mark making. Emphasis on working directly from life. Traditional and contemporary strategies and skills for developing technique, process, and meaning. Conceptual issues. Materials fee. Credit cannot be earned for this course and CFN 1090, FA 1301.

CSA 1401. Painting: Visual Thinking. 3 Credits.

Development of technical and perceptual skills that are the foundation of visual expression. Introduction to the mechanics of paint handling, including how to begin a painting, apply paint, and model form. Value, line, color, and abstraction. Credit cannot be earned for this course and CFA 1091.

CSA 1501. Black and White Photography Fundamentals. 3 Credits.

Materials and processes of black and white chemical photography; camera operations, film processing, printing, and presentation methods; the visual language of photography: historical antecedents, contemporary practices, and strategies of critical interpretation.

CSA 1502. Introduction to Digital Color Photography. 3 Credits.

Materials and processes of digital color photography; color theory, exposure techniques, film scanning, digital color correcting, and printing; the use of color as a means of visual communication and creative expression, historical antecedents, contemporary practices, and strategies of critical interpretation.

CSA 1601. New Media Digital Art. 3 Credits.

Introduction to the tools and processes of digital, electronic, and time-based arts; development of technical skills necessary for using the computer as a creative tool.; the history and current role of digital representation and distribution in art, ideas, and relationships.

CSA 1701. Printmaking Medium and Materials Workshop. 3 Credits.

Introduction to printmaking media and their use in historic and contemporary artistic practice. Multi-faceted relationships of printmaking with photography, sculpture, painting, and other media. Recommended background: Prior completion or simultaneous enrollment in CFN 1090, CSA 1301, or FA 1301.

CSA 1702. Screenprinting. 3 Credits.

Fundamental techniques required to produce hand-pulled screen prints and their context within printmaking and contemporary art. History of screen printing and its role as a fine art, mass media, and commercial tool. Same As: CSA 2702.

CSA 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

CSA 2001. Concept Lab. 3 Credits.

Connecting concept, materials, media, and audience; addressing challenges using materials and media. Cross-disciplinary thinking and individual and collaborative creative practices as well as historical, contemporary, and theoretical context of art works.

CSA 2090. Photography/Photojournalism Studio Documentary Modes and Constructed Realities. 3 Credits.

How photographic processes construct perception of truth and fiction; approaches to image making and interpretation, strategies for editing, and advancing technical skills while developing awareness of photographic traditions and contemporary practices, including photojournalism and documentary modes. Prerequisites: One of the following: CPH 1091, CSA 1501, or CSA 1502. (Same as CPJ 2090).

CSA 2092. Fine Art Studio Experimental Materiality. 3 Credits.

Investigation of materiality and investigation of the meanings and effects of material choices in creative practice. Focus on innovative and unusual materials along with experimental uses of traditional art materials. Restricted to students in the fine arts program or with the permission of the instructor. Prerequisites: At least two of the following courses: CFN 1090, CFN 1091, CFN 1092, CFN 1093.

CSA 2111. Ceramic Design in Handbuilt Forms. 3 Credits.

Further development of handbuilding techniques in ceramic sculpture; pinching, coiling, paddling, and hollowing; use of slabs and hump and press molds. Students produce clay and glazes and experiment with those materials in various reduction and oxidation firing ranges. Prerequisites: One of the following: CSA 1101, CSA, 2101, or FA 1101.

CSA 2112. Ceramic Wheelthrown Forms. 3 Credits.

Use of the wheel to create intricate elements and practices that accompany advanced functional and non-functional ceramic forms, including sculptural applications. Clay and glazes in various reduction and oxidation firing ranges; relationships between clay, surface, and fire. Prerequisites: One of the following: CSA 1102, CSA 2101, or FA 1102. Credit cannot be earned for this course and CCR 2253.

CSA 2113. Intermediate Sculpture in Clay. 3 Credits.

Methods of clay construction relating to sculptural form and aesthetic concerns of sculptural objects. Traditional hand building methods and innovative forming techniques; production of discreet objects and multiples; finishes and firing techniques. Prerequisites: One of the following: CFA 2126, CSA 1101, CSA 2101, or FA 1101. Credit cannot be earned for this course and CCR 2380.

CSA 2211. Sculpture Fabrication. 3 Credits.

Intermediate to advanced fabrication techniques including woodworking, metal fabrication, mold-making, and textiles; developing safe and creative uses of more advanced sculptural techniques and tools in the development of a body of work. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 2214. Metals and Metalworking. 3 Credits.

Introduction to a variety of processes for working with metal alone or with other materials, including forming, cutting, joining, casting, and 3D printing, and their application to contemporary sculpture. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 2215. Mold Making and Casting. 3 Credits.

Introduction to a variety of mold making and casting techniques and materials, discussion of the possibilities of the multiple, and their application to contemporary art. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 2216. Form in Wood. 3 Credits.

Applications of wood as a material for art and design practice; expanded techniques for milling, joining, bending, and shaping; exploration of the physical, historical, and conceptual properties of wood as a living material. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 2311. Intermediate Drawing: Perception and Mark Making. 3 Credits.

Conventional and unconventional materials, techniques, and prepared surfaces; perceptual and conceptual development; observational practice of drawing; and exploration of historical and contemporary developments in drawing. Prerequisites: One of the following: CFA 1090, CFA 1091, CFN 1090, CSA 1301, CSA 1401, or FA 1301. Credit cannot be earned for this course and CFA 2200.

CSA 2411. Painting: Watercolor. 3 Credits.

Introduction to the fundamental tools, materials, and methods of watercolor painting. Addresses line, shape, value, color relationships, and composition, and techniques such as color mixing, washes, and painting in layers. Prerequisites: One of the following: CFA 1091, CFA 2124, CSA 1401, CSA 2401, or FA 1401.

CSA 2412. Painting a Figure. 3 Credits.

Perceptual painting of the figure with a focus on developing visual analysis skills. Materials, construction processes, and formal language of painting. Narrative and symbolic language and political critiques of representation. Prerequisites: One of the following: CFA 1091, CFA 2124, FA 1401, CSA 1401, or CSA 2401.

CSA 2413. Intermediate Painting: Process and Materials Lab. 3 Credits.

Traditional and experimental contemporary materials, construction, and application processes used in fine art painting. Support structures, grounds, paints, application tools, and actions by the painter. Prerequisites: One of the following: CFA 1091, CFA 2124, CSA 1401, CSA 2401, or FA 1401.

CSA 2502. Time-based Media Lab. 3 Credits.

Video and audio production with a focus on the skills needed to be a technically proficient and thoughtful media maker. Basic techniques in recording, editing, and production management and conceptual and technical analyses in pop culture, art history, and documentary studies. Restricted to students in the BFA in fine art photography and in photojournalism programs or with the permission of the instructor. Prerequisites: CPH 1091 or CSA 1052.

CSA 2511. Photography: Abstraction Versus Representation. 3 Credits.

Theory and practice of abstract and representational photography in historical and contemporary contexts; chemical and digital photographic processes. Prerequisites: One of the following: CPH 1091, CSA 1501, CSA 1502, or FA 1502.

CSA 2512. Photography: Altered Landscapes. 3 Credits.

Investigation of images of place in contrast to conventions of landscape photography; historical and contemporary contexts; chemical and digital photographic processes. Prerequisites: One of the following: CPH 1091, CSA 1501, CSA 1502, or FA 1502.

CSA 2513. Photography: From Photograms to Scanograms. 3 Credits.

Low-tech methods of producing analogue photographs and generating digital images. Working in both the chemical darkroom and digital lab. Analyzing examples of photography from the earliest practitioners to work being produced by contemporary artists. Prerequisites: One of the following: CPH 1091, CSA 1501, CSA 1502, or FA 1502.

CSA 2570. Studio and Location Lighting. 3 Credits.

Introduction to studio and location lighting. Strobe and continuous lighting equipment; light modifiers and grip equipment; mixed sources light; and aesthetic approaches using artificial and ambient light. Prerequisites: CPH 1091, CSA 1501, CSA 1502, FA 1501, or FA 1502.

CSA 2611. Video Art. 3 Credits.

The skills needed to be a technically proficient and thoughtful video maker. History of video art since 1965; avant-garde moving image languages; and theoretical and social contexts that have informed the development and use of the medium. Prerequisites: CFN 1092, FA 1502, or FA 1601.

CSA 2701. Printmaking Medium and Materials Workshop. 3 Credits.

Introduction to printmaking media and their use in historic and contemporary artistic practice; multi-faceted relationships of printmaking with photography, sculpture, painting, and other media. Materials fee. Recommended background: CFN 1090, CSA 1301, or FA 1301.

CSA 2702. Screenprinting. 3 Credits.

Fundamental techniques required to produce hand-pulled screen prints and their context within printmaking and contemporary art; history of screen printing and its role as a fine art, mass media, and commercial tool. Materials fee. Same As: CSA 1702.

CSA 2703. Wood Block Print. 3 Credits.

Traditional and contemporary methods of wood block printing; techniques for incorporating wood block and other media in the creation of individual and multiple prints and objects; uses of woodblock printing in historical contexts and in contemporary art. Materials fee.

CSA 2705. Collagraph and Mixed-Media Printmaking. 3 Credits.

Production of multiple print editions using collaged and mixed-media printmaking techniques, including including, sandographs for the Vandercook press, silk organza, traditional collaged plates and paper prints; historical and contemporary examples and development of critical language for analyzing print media. Materials fee.

CSA 2706. Lithography. 3 Credits.

Introduction to lithographic printmaking as a versatile tool for manipulating photographic images and as an expressive drawing medium. Materials fee. Recommended background: CFN 1090 or CSA 1301 or FA 1301.

CSA 2760. Book Arts: Concept and Content. 3 Credits.

Fundamentals of developing book art structures and artist's books; construction and bindings, text and image-making techniques, and utilizing design, photography, and writing as source materials for book projects. Materials fee.

CSA 3020. Topics in Photography and Photojournalism. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CPJ 2090, CPH 2090, CSA 2090, or CSA 2091. (Same as CPJ 3120).

CSA 3020W. Topics in Photography and Photojournalism. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CPJ 2090, CPH 2090, CSA 2090, or CSA 2091. Credit cannot be earned for this course and CSA 3020.

CSA 3021. Topics in Fine Art Seminar. 3 Credits.

Theoretical, historical, material, political and poetic context of topics in contemporary art and culture. Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Restricted to juniors and seniors.

CSA 3021W. Topics in Fine Art Seminar. 3 Credits.

Theoretical, historical, material, political, and poetic context of topics in contemporary art and culture. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to junior and seniors in the BA in fine arts program; in the BFA in fine art, graphic design, interaction design, and photojournalism programs; or with the permission of the instructor.

CSA 3092. Fine Art Studio Critical Practices in Making. 3 Credits.

Students create work in response to conceptually oriented questions in media with focus on the structure and rhythm of their creative practice, consideration of the lives and politics of objects, and processes of individual and collective action. Emphasis on technical, conceptual, and aesthetic development. Materials fee. Restricted to BFA in fine art majors; BA in fine arts majors with the permission of the instructor. Prerequisites: CFA 2090 and CSA 2092. Recommended background: Prior completion of CSA 2093.

CSA 3101. Special Topics: Ceramics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CFA 2126, CSA 1101, CSA 2101, or FA 1101.

CSA 3120W. Topics in Photography and Photojournalism. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CPJ 2090, CPH 2090, CSA 2090, or CSA 2091. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and CSA 3020.

CSA 3201. Special Topics: Sculpture. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 3202. Sculpture Digital Forms. 3 Credits.

Applications of digital fabrication to a multi-media contemporary art practice. The intersection between digital and physical methods of fabrication. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201. Credit cannot be earned for this course and FA 2213.

CSA 3240. Wear, Strut, Occupy. 3 Credits.

Costume, adornment and the relationship between individual, material, and context, including wearable sculpture, fashion, performance, and wearer/performer identity. Practical experience with clothing design and interpretation through a variety of costume design projects. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 3241. Installation Art. 3 Credits.

Installation and sculpture through the lens of site specificity, architecture, media, and landscape. Theoretical dialogue of context and material as well as the practical issues of fabrication and implementation. Prerequisites: One of the following: CFA 1092, CFN 1091, CSA 1201, or FA 1201.

CSA 3301. Special Topics: Drawing. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CFA 1090, CFA 1091, CFN 1090, CSA 1301, CSA 1401, or FA 1301.

CSA 3401. Special Topics: Painting. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: CFA 1091, CFA 2124, CSA 1401, CSA 2401, or FA 1401.

CSA 3501. Special Topics in Photography. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: One of the following: FA 1501, FA 1502, CPH 1091, CSA 1502, or CSA 1501.

CSA 3510. Pre-Digital Alternative Process. 3 Credits.

Investigation of alternative photographic processes such as albumen, salted paper, gum bichromate, platinum/ palladium, and mordantage, leading to a fully realized portfolio, book, or other independent project. Prerequisites: One of the following: CPH 1091, CSA 1501, or FA 1501. Recommended background: prior completion of CPH 2090 or CSA 2090. Credit cannot be earned for this course and CPH 3450.

CSA 3535. Advanced Digital Photography. 3 Credits.

Enhancement of digital camera, editing, and printing techniques through advanced approaches. Connecting process with content of the image and intentions of the image-maker. Development of individual image-making abilities and personal approach. Prerequisites: CPH 2100 or CSA 1502. Recommended background: Prior completion of CSA 2090.

CSA 3536. Making Meaning in the Photography Book. 3 Credits.

Methods of developing narrative and non-narrative photo books, including assembly of individual photographs and texts into sequential form. Historical and contemporary strategies of making meaning. Prerequisites: One of the following: CPH 1091, CSA 1501, CSA 1502, FA 1501, or FA 1502. Recommended background: CSA 2091.

CSA 3540. Advanced Lens-Based Commissions Project. 3 Credits.

Through a real-world collaborative project students learn the aspects of commission and exhibition work including research, project management, and production. Advanced lighting and interviewing skills, problems in historical and contemporary portraiture. Commissions vary by semester. Prerequisites: CSA 2570 or SMPA 2113. Credit cannot be earned for this course and CPH 3640.

CSA 3601. Special Topics: Time-Based and Electronic Media. 3 Credits.

Issues in contemporary time-based and electronic media. Topics vary by semester. May be repeated provided the topic differs. See the schedule of classes for more details. Prerequisites: CDE 1091, CSA 1502, CSA 1601, or SMPA 2012.

CSA 3606. Performative Media. 3 Credits.

Development and production of performance-based art works. Elements of performance (text, movement, sound, video, ritual, social practice). Narrative and theoretical approaches to performance art and works for stage, video, or installation.

CSA 3612. Video: Remixing the Archive. 3 Credits.

Use of existing moving image and sound in video, live remix or sources for performance in arts and documentary contexts. Narrative and theoretical approaches to mediated memory. Introduces students to the substantial archival resources in Washington, DC, and online collections. Prerequisites: CSA 2502, CSA 2601 and SMPA 2112 or related coursework with the permission of the instructor.

CSA 3613. Site and Sound. 3 Credits.

Contemporary sonic art practice and audio production; audio storytelling, spatialized sound, and site-based sonic artwork; critical perspectives on sound and audio practice. Prerequisites: CFN 1093 or CSA 1502 or CSA 1601 or SMPA 2112.

CSA 3710. Special Topics in Print Media. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Permission of the instructor may substitute for prerequisites. Prerequisites: CFA 2125, CPR 2300, CPR 2423, CPR 2403, CSA 2701, CSA 2702, CSA 2703, CSA 2705, CSA 2708 and CSA 2760.

CSA 3712. Letterpress From the 1400s to the Digital Age. 3 Credits.

Traditional and contemporary letterpress and relief printing applications; typesetting; presswork, inking, editioning, and Vandercook press operation; black and white relief printing, reduction printing; and experimental collagraph techniques. Materials fee.

CSA 3716. Advanced Printmaking: Screenprinting and Woodblock. 3 Credits.

Exploration of woodblock as discrete practice and in combination with screenprinting, painting, sculpture, and photography. Historical examples examined. Contemporary artists introduced through site visits and field research. Recommended background: CSA 1701, CSA 1702, and CSA 1703.

CSA 3901. Special Topics: Cross-Disciplinary Studio Arts. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Recommended background: Prior coursework in the media or topics covered.

CSA 3912. The Cinematic in Contemporary Art. 3 Credits.

The influence of cinema on contemporary art in historical, conceptual, and aesthetic contexts. Students employ cinematic strategies through projects that explore setting, sequencing, camera angle, point of view, tracking, lighting, performance, narrative, and sound. Prerequisites: CFN 1092 or CSA 1502 or CSA 2502 or CSA 2601.

CSA 3913. Painting Off the Wall. 3 Credits.

Nontraditional approaches to painting, including manipulation of its structural aspects. Painting combined with other creative fields such as architecture, sculpture, social practice, performance, and film/video. Prerequisites: One of the following: CSA 2401, CSA 1401, TRDA 4338, FA 1401, CFA 2124, or CFA 1091. Credit cannot be earned for this course and FA 3913.

CSA 3914. Art Outside the Gallery. 3 Credits.

Site-specific art practices emphasizing a variety of forms of public art, artist-run spaces, and practices that engage places and audiences outside of formal art spaces. Prerequisites: CFN 1093, CSA 2201 and CFA 2123.

CSA 3915. Public Spectacle in Socially Engaged Art. 3 Credits.

Ethical, cultural, and political implications of using art in the public sphere and the philosophical, theoretical, and historical background of these practices. Students create collaborative artworks that address real-life problems and seek solutions in actual and virtual communities, from inventing a persona to creating a social movement. May be repeated for credit. Recommended background: Prior completion of any two 2000-level courses in one or more of the subject areas CDE, CGD, CDM, CMUS, CPJ, CSA, and CTAD.

CSA 3951. Creative Photovoltaics. 3 Credits.

The fabrication process of solar devices and the parameters of solar cells in design and art applications. Students build a small solar device and conceptualize innovative proposals for new solar technology solutions. Prerequisites: CSA 1201 or CFN 1093.

CSA 4020. Photography and Photojournalism Studio Seminar. 3 Credits.

Critical issues in contemporary photography, photojournalism, and related lens-based media including photographic voice, precedent and impact in the art world and publishing worlds. Research and writing in support of the development of thesis and independent projects. Prerequisites: One of the following: CPH 3020, CPJ 3020, or CSA 3020.

CSA 4021. Fine Art Studio Seminar. 3 Credits.

Critical issues in the production, contextualization, presentation, documentation, and distribution of contemporary art works. Research and writing in support of the development of thesis or capstone projects in contemporary art. Restricted to juniors and seniors.

CSA 4070. Professional Practices for Lens-Based Media. 3 Credits.

Ideas and strategies for career success in photography and related lens-based media; establishing practical modes of promotion, fundraising and entrepreneurship, preparing packages or work, and writing grants and press releases. Business practices including model releases, contracts, copyright law, managing budgets. Restricted to students in the BFA programs in fine art photography and photojournalism. Prerequisites: One of the following: CPH 3090, CPJ 3090, or CSA 3090. Credit cannot be earned for this course and CPJ 4170.

CSA 4085. Directed Studies: Studio Arts. 1-3 Credits.

Directed research and study in a specific area of studio art practice to be approved and supervised by a faculty member. Students must have their plan of study approved by the faculty supervisor and the Director of Undergraduate Studies prior to enrollment. Restricted to fine art photography, fine art, and photojournalism majors.

CSA 4092. Fine Art Thesis I. 3 Credits.

The development of a senior thesis project and accompanying research. Individual and group critiques, readings and discussions. Planning and execution of a body of work that extends visual language and conceptual development. Restricted to students in the BFA in fine art program and those in the BA in fine arts program with the permission of the instructor.

CSA 4093. Fine Art Thesis II. 3 Credits.

Completion and exhibition of a senior thesis project and accompanying research. Individual and group critiques, readings and discussions. Planning and execution of a body of work that extends visual language and conceptual development. Restricted to students in the BFA in fine art program; BA in fine arts students with the permission of the instructor.

CSA 4095. Critical Practices. 3 Credits.

Development and execution of an independent body of work; connecting project ideas with choices of material, action, and site. Technical, conceptual, and aesthetic development emphasized; supported by study of theory and criticism and individual and group critiques. Restricted to students in the BA in fine art program or with the permission of the instructor based on portfolio review. Prerequisites: One of the following: CSA 2001, CSA 2092, or FA 2001.

CSA 4098. Studio Arts Internship. 3 Credits.

Open to students pursuing an internship directly relevant to their major themes and goals. Permission of the Director of Undergraduate Studies required prior to enrollment. Graded exclusively on a Pass/No Pass basis. Restricted to students in the fine art photography, fine art, and photojournalism programs. Credit cannot be earned for this course and CPH 3900, FA 4199.

CSA 4170. Professional Practices for Artists. 3 Credits.

Infrastructure of the art world through analysis of various sustainable models of contemporary art practice for young artists. Establishing practical modes of criticism, promotion, fundraising and entrepreneurship in relation to exhibiting one's work, seeking venues, conducting studio visits, managing budgets, and writing grants, press releases, and artist statements. Restricted to juniors and seniors in the BFA and BA in fine arts programs. Prerequisites: CSA 2001 and CSA 3092.

CSA 6010. Social Practice Workshop. 4 Credits.

Core studio for students in the MFA in social practice program. Intensive studio critique supported by an equally rigorous investigation of the interdisciplinary tools, strategies, cultural and technological innovations for socially engaged creative practice. Restricted to students in the MFA in social practice program.

CSA 6015. History and Theory of Art in the Public Realm. 3 Credits.

Contemporary and historical theories of social relations and public space and foundational questions relevant to a creative practice in the public sphere. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to graduate students in Corcoran School programs.

CSA 6016. Field and Research Methodologies for Artists. 3 Credits.

Research and other professional methodologies for artists working on cross-disciplinary projects in the public realm. Theoretical and practical tools for developing hybridized models for inquiry. Restricted to students in the MFA in social practice and public policy program.

CSA 6080. Social Practice Field Studio. 3 Credits.

Socially engaged practice lab with a focus on social, environmental, and community impact. Students collaborate with a local partner to identify and respond to local challenges. Restricted to students in the MFA in social practice and public policy program.

CSA 6085. Directed Studies. 1-3 Credits.

Directed research and study in a specific area of studio art practice to be supervised by a faculty member. Students must have a written plan of study proposal approved by the supervising faculty member and Director of Graduate Studies prior to enrollment. Restricted to students in the MFA in fine arts and MA in new media photojournalism programs.

CSA 6091. Contemporary Art and Theory for Artists I. 3 Credits.

Thematic history of contemporary art since the late 1960s. Key theoretical ideas shaping contemporary philosophy, art practices, and art history. Restricted to graduate students.

CSA 6092. Contemporary Art and Theory for Artists II. 3 Credits.

Continuation of CSA 6091. Thematic history of contemporary art since the late 1960s. Key theoretical ideas shaping contemporary philosophy, art practices, and art history. Restricted to graduate students. Recommended background: CSA 6091.

CSA 6093. Professional Practices. 3 Credits.

Infrastructure of the art world through analysis of various sustainable models of contemporary art practice for young artists. Establishing practical modes of criticism, promotion, fundraising and entrepreneurship in relation to exhibiting one's work; seeking venues; conducting studio visits; managing budgets; and writing grants, press releases, and artist statements. Restricted to students in the MFA in fine arts program.

CSA 6094. Writing in Practice. 3 Credits.

Key artists' writings and the ways in which artists incorporate writing into their overall artistic practices. Questions of intention, the reciprocity of an artwork, agency and locational identity, defining a public/audience, and perceptions of care and engagement. Restricted to graduate students.

CSA 6095. Critical Practices. 3-9 Credits.

Interdisciplinary studio that supports the production and analysis of creative work. Critiques and discussions challenge students to develop and articulate their creative practice. Emphasis on conceptual, aesthetic, and theoretical development. Restricted to students in the MFA in fine arts program.

CSA 6096. Studio Visits. 1-3 Credits.

Ongoing critical discourse about each student's creative work through regular studio visits with the instructor, as well as one-time visits by international, national, and regional artists. Restricted to students in the MFA in fine arts program and other Corcoran students with the permission of the instructor.

CSA 6097. Topics in Public Strategies. 2 Credits.

Connection of artists, designers, organizers, researchers, and policy makers whose work expands the role of creative practice in the public sphere. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students in Corcoran School programs.

CSA 6098. Studio Arts Internship. 3 Credits.

Open to graduate students pursuing an internship directly relevant to their studio arts program themes and goals. Permission of the Director of Graduate Studies is required prior to enrollment. May be repeated for credit. Restricted to students in the MFA in fine arts and MA in new media photojournalism programs.

CSA 6101. Special Topics: Ceramics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6111. Ceramic Design in Handbuilt Forms. 3 Credits.

Further development of handbuilding techniques in ceramic sculpture; pinching, coiling, paddling, and hollowing; use of slabs and hump and press molds. Students produce clay and glazes and experiment with those materials in various reduction and oxidation firing ranges. Restricted to graduate students.

CSA 6113. Sculpture in Clay. 3 Credits.

Methods of clay construction relating to sculptural form and the aesthetic concerns of the sculptural object. Traditional hand building methods and innovative forming techniques; production of discreet objects, multiples, and issues dealing with the installation of each; and finishes and firing techniques to connect ceramic surface and form. Restricted to graduate students. Same As: CCR 5380. Credit cannot be earned for this course and FA 6113.

CSA 6201. Special Topics: Sculpture. 3 Credits.

Rotating issues in contemporary sculptural practices. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6202. Sculpture Digital Forms. 3 Credits.

Applications of digital fabrication to a multi-media contemporary art practice. The intersection between digital and physical methods of fabrication. Restricted to graduate students.

CSA 6214. Metals and Metalworking. 3 Credits.

Introduction to a variety of processes for working with metal alone or with other materials, including forming, cutting, joining, casting, and 3D printing, and their application to contemporary sculpture. Restricted to graduate students.

CSA 6240. Wear, Strut, Occupy. 3 Credits.

Costume and adornment as a vehicle to explore the relationship between individual, material, and environment, including costuming, fashion, sculpture, performance, and wearer/performer identity. Hands-on experience with clothing design and interpretation through a variety of costume design projects. May be repeated for credit. Restricted to graduate students.

CSA 6241. Installation Art. 3 Credits.

Installation and sculpture through the lens of site specificity, architecture, media, and landscape. Emphasis on theoretical dialogue of context and material and the practical issues of fabrication and implementation. May be repeated for credit. Restricted to graduate students.

CSA 6301. Special Topics: Drawing. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6401. Special Topics in Painting. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6501. Special Topics in Photography. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6510. Pre-Digital Alternative Process. 3 Credits.

Investigation of alternative photographic processes such as albumen, salted paper, gum bichromate, platinum/ palladium, and mordantage, leading to a fully realized portfolio, book, or other independent project. Restricted to graduate students. (Same as CPH 3450).

CSA 6511. Photography: Abstraction Versus Representation. 3 Credits.

Theory and practice of abstract and representational photography in historical and contemporary contexts. Chemical and digital photographic processes. Restricted to graduate students.

CSA 6512. Photography: Altered Landscapes. 3 Credits.

Investigation of images of place in contrast to conventions of landscape photography; historical and contemporary contexts; chemical and digital photographic processes. Restricted to graduate students.

CSA 6513. Photography: From Photograms to Scanograms. 3 Credits.

Low-tech means of producing analogue photographs and generating digital images; moving between the chemical darkroom to the digital lab. Review of images captured by the earliest practitioners to work being produced by contemporary artists. Restricted to graduate students.

CSA 6540. Advanced Lens-based Commissions Project. 3 Credits.

Through a real-world collaborative project students learn the aspects of commission and exhibition work, including research, project management, and production. Advanced lighting and interviewing skills, problems in historical and contemporary portraiture. Commission varies by semester. May be repeated for credit. Restricted to students in the MA in new media photojournalism program. (Same as CSA 3540).

CSA 6570. Studio and Location Lighting. 3 Credits.

Introduction to studio and location lighting for photography and lens-based media. Strobe and continuous lighting equipment, light modifiers and grip equipment, mixed sources light, and aesthetic approaches using artificial and ambient light. Restricted to graduate students.

CSA 6601. Special Topics: Time-Based and Electronic Media. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6606. Performative Media. 3 Credits.

Development and production of performance-based art works. Elements of performance (text, movement, sound, video, ritual, social practice). Narrative and theoretical approaches to performance art and works for stage, video, or installation. May be repeated for credit. Restricted to graduate students.

CSA 6612. Video: Remixing the Archive. 3 Credits.

Use of existing moving image and sound in video, live remix or sources for performance in arts and documentary contexts. Narrative and theoretical approaches to mediated memory. Introduces students to the substantial archival resources in Washington, DC, and online collections. Restricted to graduate students.

CSA 6613. Site and Sound. 3 Credits.

Overview of contemporary sonic art practice and audio production. Audio storytelling, spatialized sound, and site-based sonic artwork. Critical perspectives on sound and audio practice. Restricted to graduate students.

CSA 6701. Special Topics in Print Media. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6702. Screenprinting. 3 Credits.

Production of hand-pulled screen prints and their context within printmaking and contemporary art. History of screen printing and its role as a fine art, mass media, and commercial tool. Restricted to graduate students.

CSA 6703. Wood Block Print. 3 Credits.

Traditional and contemporary methods of wood block printing; techniques for incorporating wood block and other media in the creation of individual and multiple prints and objects; uses of woodblock printing in historical contexts and in contemporary art. Restricted to graduate students.

CSA 6705. Collagraph and Mixed-Media Printmaking. 3 Credits.

Production of multiple print editions using collaged and mixed-media printmaking techniques. Exploration of historical and contemporary examples of collagraph prints and development of critical language for analyzing print media.

CSA 6706. Lithography. 3 Credits.

Lithographic printmaking as a versatile tool for manipulating photographic images and as an expressive drawing medium. May be repeated for credit. Restricted to graduate students.

CSA 6710. Special Topics: Print Media. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CSA 6712. Letterpress From the 1400's to the Digital Age. 3 Credits.

Traditional and contemporary letterpress and relief printing applications; typesetting; presswork, inking, editioning, and Vandercook press operation; black and white relief printing, reduction printing; and experimental collagraph techniques. May be repeated for credit.

CSA 6716. Advanced Printmaking: Screenprint/ Woodblock. 3 Credits.

Traditional methods of wood block printing. Contemporary artists working in this medium are introduced through site visits and field research. Restricted to graduate students.

CSA 6760. Book Arts Concept and Content. 3 Credits.

Development and construction of artist's books. Emphasizes structures and bindings, text and image-making techniques, and utilizing design, photography, and writing as source materials for book projects. Restricted to graduate students.

CSA 6901. Special Topics in Cross-Disciplinary Studio Arts. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students. Recommended background: Prior completion of coursework in the media or topics covered. (Same as CSA 3901).

CSA 6912. The Cinematic in Contemporary Art. 3 Credits.

The influence of cinema on contemporary art in historical, conceptual, and aesthetic contexts. Students employ cinematic strategies through projects that explore setting, sequencing, camera angle, point of view, tracking, lighting, performance, narrative, and sound. Restricted to graduate students.

CSA 6913. Painting Off the Wall. 3 Credits.

Nontraditional approaches to painting, including manipulation of the structural aspects of paintings; painting combined with other creative fields such as architecture, sculpture, social practice, performance, and film/video. Restricted to graduate students. Prerequisite: . Credit cannot be earned for this course and FA 6913.

CSA 6914. Art Outside the Gallery. 3 Credits.

Site-specific art practices emphasizing a variety of forms of public art, artist-run spaces, and practices that engage places and audiences outside of formal art spaces. May be repeated for credit. Restricted to graduate students.

CSA 6915. Public Spectacle in Socially Engaged Art. 3 Credits.

Ethical, cultural, and political implications of using art in the public sphere; the philosophical, theoretical, and historical background of these practices. Students create collaborative artworks that address real-life problems and seek solutions in actual and virtual communities, from inventing a persona to creating a social movement. May be repeated for credit. Restricted to graduate students.

CSA 6951. Creative Photovoltaics. 3 Credits.

The fabrication process of solar devices and the parameters of solar cells in design and art applications. Students build a small solar device and conceptualize innovative proposals for new solar technology solutions. May be repeated for credit. Restricted to graduate students. (Same as CSA 3951).

CSA 6998. Thesis Research. 3 Credits.

Development of a thesis project and accompanying research. Permission of the Director of Graduate Studies required prior to enrollment. Graded on a Credit/No Credit basis only. Restricted to Corcoran MFA students.

CSA 6999. Thesis Research. 3 Credits.

Development of a thesis project and accompanying research. Permission of the Director of Graduate Studies required prior to enrollment. Graded on a Credit/No Credit basis only. Restricted to Corcoran MFA students.

CORRECTIONAL HEALTH ADMINISTRATION (CHA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CHA 6210. Correctional Health Administration for Behavioral Health Populations. 3 Credits.

Correctional health care administration of incarcerated patient populations with serious mental illnesses and substance use disorders; classification, health care delivery, risk management, and accreditation requirements for managing these medically complicated patients. Recommended background: correctional health administration students.

CHA 6275. Correctional Health Care Administration Practicum. 6 Credits.

Supervised field work in correctional health administration, arranged in consultation with the program director. Prerequisites: CML 5023, CML 6020, CML 6021, CML 6025 and CML 6050.

CORCORAN THEATRE AND DANCE (TRDA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TRDA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

TRDA 1015. Understanding the Dance. 3 Credits.

The art of dance—a lecture and experiential approach to its cultural importance, history, and creative processes. The contributions of the choreographer and dancer to society. Attendance at performances and presentations, and viewing video. Laboratory fee.

TRDA 1020. Women and the Creative Process. 3 Credits.

Consideration of questions of aesthetics and creativity through the study of art produced by women since the mid-twentieth century. The creation, meaning, and impact of work across the fields of visual art, dance, theatre, and music.

TRDA 1021W. The Artist-Activist. 3 Credits.

The modern and contemporary history of work by seminal artists who challenge political and societal structures and advocate for social change. Restricted to students enrolled in the women's leadership program. Prerequisites: TRDA 1020 or CTAD 1020. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 1025. Understanding the Theatre. 3 Credits.

The art of the theatre; its literature, history, aesthetics, and mechanics. Contributions of the playwright, actor, director, and designer. Attendance at assigned theatrical performances.

TRDA 1035. Theatre Production. 3 Credits.

Understanding of the basic elements of theatrical production and the collaborative artist/artisan process through discussion, observation, and practical application. Same As: CTAD 1035.

TRDA 1099. Variable Topics. 1-36 Credits.**TRDA 1151. Beginning/Intermediate Ballet. 1 Credit.**

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1152. Beginning Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1153. Beginning/Intermediate Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1170. Intermediate Modern/Postmodern Dance I. 2-3 Credits.

Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee.

TRDA 1171. Intermediate Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 1170. Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 1170 or permission of the instructor.

TRDA 1214. Beginning Acting. 3 Credits.

An introduction to the process of acting. Students learn to make choices using various acting techniques to create characters and learn about the process.

TRDA 1240. Performance Theory. 3 Credits.

Examination of the ways in which the practices and heuristics of performance have been used to understand a wide range of cultural activities; expansion of the notion of aesthetic performance proper to include sources, subjects, and forms historically considered non-dramatic; and underlying questions concerning what performance is, what it does, and what value it holds.

TRDA 1330. Basics of Production Design. 3 Credits.

Basic elements of production design and execution explored through discussion, observation, and practical application. Same As: CTAD 1330.

TRDA 2160. Intermediate Ballet. 2-3 Credits.

Training in movements and steps within the intermediate level ballet lexicon, emphasizing technical skills, stamina, mastery of longer dance sequences, presentation, musicality, and artistry. Permission of the instructor required prior to enrollment. May be repeated for credit. Laboratory fee. Recommended background: mastery of low intermediate level ballet steps and vocabulary, ability to perform short combinations of dance steps, and competence in basic elements of ballet technique.

TRDA 2172. Intermediate/Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Laboratory fee. Prerequisites: TRDA 1171 or permission of the instructor.

TRDA 2173. Intermediate/Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 2172. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 2172 or permission of the instructor.

TRDA 2179. Contact Improvisation. 2 Credits.

A movement form that arises from the point of contact between partners who explore gravity, space, and timing in the spontaneous moment-to-moment exchange of the dance. Exploring the improvisational state of body/mind through the use of imagery, tuning the senses, mindfulness practices, and play. Laboratory fee.

TRDA 2180. Movement Improvisation/Performance. 3 Credits.

Exploring the body and its surroundings in movement, use of language, narrative, environments and contexts for creative expression, developing event and performance structures from improvisation. May be repeated for credit. Laboratory fee.

TRDA 2185. Trends in Performance. 3 Credits.

Study of the theory and practice of contemporary performance art movements and artists; political and artistic activism; scripting and scoring to create performance works based on a single art discipline or interdisciplinary arts. Laboratory fee. Credit cannot be earned for this course and MUS 3175.

TRDA 2188. African Dance. 1 Credit.

African/Caribbean dance styles and techniques, with warm-ups and center floor work of long and short movement phrases. Basic/modern/jazz terminology and definitions appropriate to intermediate/advanced/African dance are used. Emphasis on alignment, execution, musical phrasing, and the importance of rhythmic timing and nuance.

TRDA 2189. World Dance. 3 Credits.**TRDA 2190. Gender/Indian Classical Dance. 3 Credits.****TRDA 2191. Dance History. 3 Credits.**

The history of Western theatrical dance from the late eighteenth century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

TRDA 2191W. Dance History. 3 Credits.

The history of Western theatrical dance from the late eighteenth century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 2192. Repertory/Performance. 1,2 Credit.

Participation in the processes of learning and performing dance repertory or new dance works. Audition required. Laboratory required. May be repeated for credit. Laboratory fee.

TRDA 2193. Dance Styles I. 1-12 Credits.

Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2194. Dance Styles II. 1-12 Credits.

Continuation of TRDA 2193. Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2195. Global Dance History. 3 Credits.

The role of dance globally in relation to socio-cultural and artistic histories. Importance of certain artists and dance forms contextualized by major world events as seen through the geography of immigration. Perspectives from the Americas, Africa, the Middle East, and Asia.

TRDA 2215. Intermediate Acting. 3 Credits.

Students continue to develop acting techniques introduced in TRDA 1214 through scripted scene work. Students learn to make choices through text exploration, use various acting techniques to create characters and develop clear character relationships, and stage completed scenes. Prerequisite: TRDA 1214.

TRDA 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as ENGL 2240.

TRDA 2250. Dramatic Writing. 3 Credits.

A workshop in playwriting and screenwriting, with emphasis on dramatic structure. Same as ENGL 2250. Recommended preparation: Engl 1210 and two semesters of literature courses.

TRDA 2339. Theatre Practicum. 1 Credit.

Participation in department mainstage productions in a production or management capacity under the supervision of a member of the faculty. Prerequisite: TRDA 1330. After two practicums have been completed, participation may also include performance positions, for which TRDA 1214 is prerequisite. May be repeated for a total of 6 credits. Laboratory fee.

TRDA 3099. Variable Topics. 1-12 Credits.**TRDA 3131W. Theatre of Social Change. 3 Credits.**

Focuses on theatre of social change as practiced in the second half of the twentieth century and in the early twenty-first century; exploring additional case studies from South Africa, Europe, and the United States. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 3157. Career Strategies for the Dance Artist. 3 Credits.

Introduction to career opportunities in the performing arts, from performance to arts management. Students undertake a short-term, unpaid internship with a dance artist or dance organization in the greater Washington metropolitan area and design a project that supports advancement of their career goals.

TRDA 3174. Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Laboratory fee. Prerequisites: TRDA 2173 or permission of the instructor.

TRDA 3175. Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 3174. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 3174 or permission of the instructor.

TRDA 3182. Dance Composition I. 3 Credits.

Problems in structural and conceptual aspects of constructing dances and shaping and forming movement materials. Laboratory fee. Prerequisite: TRDA 2180. Recommended background: TRDA 2185.

TRDA 3183. Dance Composition II. 3 Credits.

Continuation of TRDA 3182. Emphasis on intention and content in making dances. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

TRDA 3186. Embodied Kinesis for Dance. 3 Credits.

Exploration of bodies in movement through theoretical, experimental, and personal research; techniques for embodiment in the somatic arts. Laboratory fee.

TRDA 3222. Topics in Advanced Acting. 3 Credits.

The actor's approach to various styles and genres and to non-literary theatrical forms. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Studio fee. Prerequisite: TRDA 2215.

TRDA 3240. Introduction to Dramaturgy. 3 Credits.

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as ENGL 3240.

TRDA 3245. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the seventeenth century.

TRDA 3245W. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the seventeenth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 3246. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The eighteenth century through the present.

TRDA 3246W. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The eighteenth century through the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as ENGL 3250. Prerequisite: ENGL 2250 or equivalent. May be repeated for credit with departmental approval.

TRDA 3331. Introduction to Lighting. 3 Credits.

Theories and practical application of lighting for theatre and dance. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3332. Theatrical Makeup Design. 3 Credits.

Theory and practice in the art of stage makeup design, including latex and crepe hair. Materials fee. Prerequisite: TRDA 1330.

TRDA 3333. Stage Management. 3 Credits.

The role and function of the stage manager in theatrical production. The basic skills needed to begin work in stage management. Emphasis on organization, documentation, and dissemination of information. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 3334. Introduction to Audio Design. 3 Credits.

The basic elements of audio design and production through discussion, observation, and practical application. Laboratory required. Laboratory fee. Prerequisites: TRDA 1330.

TRDA 3335. Introduction to Scene Design. 3 Credits.

Fundamental study of scenic design, including historic overview, basic drawing, and rendering techniques, through the use of various mediums and script analysis. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3336. Introduction to Costuming. 3 Credits.

History of fashion in Western civilization from ancient Greece to the twentieth century. Fundamental study of costume construction through specific projects. Costume construction. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3710W. Contemporary Drama. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TRDA 4184. Choreography and Performance. 1-3 Credits.

Create a dance or a performance work of individual design, including casting, rehearsal procedures, staging aspects, and public presentation. Prerequisite: TRDA 3182; recommended: TRDA 1330, TRDA 2185. May be repeated for credit. Laboratory fee.

TRDA 4204. Personal Aesthetics II: The Environment. 3 Credits.

This course fosters individual investigation of movement research and studio practice in order to develop an individual dance aesthetic. TRDA 6204 Personal Aesthetics – Environment (2-3) engages the artist/student in creative activities general related to alternative spaces and events related to "live" art, performance art, dance and related arts with less formal production/presentation elements. Prerequisites: M.F.A. candidacy or permission of instructor. (Same as TRDA 6204).

TRDA 4275. Directing for the Theatre. 3 Credits.

Fundamentals of script analysis, staging, casting, and rehearsal techniques. Laboratory fee. Prerequisites: TRDA 1214 and TRDA 1330; and TRDA 2240/ ENGL 2240 or TRDA 3240/ ENGL 3240.

TRDA 4338. Scene Painting. 3 Credits.

The techniques and materials used in creating character in the various elements of set design. Methods include set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wallpapering. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 4595. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

TRDA 4595W. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee.

TRDA 4596. Independent Study. 1-6 Credits.

Independent research and special projects. Open to qualified juniors or seniors majoring or minoring in theatre or dance. Before students are permitted to register for TRDA 4596, they must submit a written proposal of the plan of study and obtain approval of the faculty member who is directing the study and the department chair.

TRDA 4597. Senior Project. 3 Credits.

A capstone project related to the student's particular concentration. The project may be in the form of a performance, theoretical or realized design for the theatre, directorial project, playscript, stage management experience, dramaturgical project, choreographic project, or other approved area. Restricted to TRDA majors with senior standing.

TRDA 4598. Internship. 3-6 Credits.

Open to qualified seniors majoring or minoring in theatre or dance. Work placements with not-for-profit and commercial theatre and dance organizations for an approved number of hours per week. May be taken for a maximum of 6 credits. Restricted to permission from the department.

TRDA 4599. Honors Thesis. 3 Credits.

Directed research and/or creative project. Open to qualified seniors by permission. Arrangements must be made with a sponsoring faculty member in the department and applications must be completed early in the second semester of the junior year.

TRDA 5099. Variable Topics. 1-99 Credits.**TRDA 6200. Portfolio I: Performance. 1-5 Credits.**

Portfolio I: Performance Prerequisites: M.F.A. candidacy and permission of instructor.

TRDA 6201. Personal Aesthetics I: The Body. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6202. Contemporary Dance History and Criticism. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6203. Portfolio II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6204. Personal Aesthetics II: The Environment. 2 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6205. Choreography. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6206. Dance Pedagogy. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6207. Portfolio III: Artistic Initiative. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6208. New Media and Dance. 5 Credits.

. Prerequisites: M.F.A. candidacy and permission of instructor.

TRDA 6209. Cultural Communities of Dance. 4 Credits.

Cultural Communities of Dance Prerequisites: M.F.A. candidacy and permission of instructor.

TRDA 6210. Personal Aesthetics III: Integration. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6211. Career Networks in Dance. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6212. Portfolio Review I: Performance. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6213. Portfolio Review II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6214. Portfolio Review III: Artistic Initiatives. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6296. Research Project I. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6299. Research Project II. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6330. Materials and Methods. 3 Credits.

Fundamentals of building materials, tools, fabrication techniques, and methodology used in modern stagecraft. Restricted to students in the MFA in production design program or with the permission of the instructor. Recommended background: basic knowledge of theatre production; TRDA1330.

TRDA 6331. Intermediate Lighting Design. 3 Credits.

Theory and execution of lighting design for theatre and dance. May be repeated for credit. Laboratory fee. Restricted to MFA candidates; permission of the instructor may be substituted.

TRDA 6335. Intermediate Scene Design. 3 Credits.

Development of advanced skills of scenic design, including script analysis, needs assessment, research techniques, conceptual design development, drawing and rendering techniques, preparation of construction documentation and fabrication management. Laboratory fee. Restricted to MFA candidates except by permission of the instructor.

TRDA 6336. Intermediate Costume. 3 Credits.

Basic techniques of costume design through specific projects. Various rendering techniques consistent with the historical period concerned. Laboratory fee. Restricted to MFA candidates; permission of the instructor may be substituted.

TRDA 6338. Scene Painting. 3 Credits.

Development the painting skills needed for the reproductive craft of theatrical painting. Restricted to MFA candidacy or permission of instructor.

TRDA 6340. Period Styles. 3 Credits.

A broad perspective of major European and American cultures through analysis of the interiors, furniture, textiles, fashion, and architecture of major civilizations and historical periods from Egypt to the present. Laboratory fee. Restricted to MFA candidates except by permission of the instructor.

TRDA 6342. Pattern Making. 3 Credits.

Pattern drafting and draping methods based on contemporary and historical clothing. Laboratory fee. Restricted to MFA candidacy or permission of instructor.

TRDA 6344. Production Drafting. 3 Credits.

Development of drafting skills for production. Ground plans and shop documents. Traditional hand drafting and computer assisted design. Laboratory fee. Restricted to MFA candidacy or permission of instructor.

TRDA 6346. Advanced Studies in Design: Collaborative Studies. 3 Credits.

Development of the skills needed to design and work within a collaborative or team-based environment through visual and verbal communication, script analysis, concept development, and research techniques. Laboratory fee. Restricted to MFA candidates or instructor's permission.

TRDA 6348. Techniques in Design Presentation. 3 Credits.

The various techniques used in costume and scenic design presentations, such as rendering with paint, pencil, ink, and electronic media. Restricted to MFA candidates; permission of instructor may be substituted.

TRDA 6595. Selected Topics. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details. Restricted to MFA candidates; permission of instructor may be substituted.

TRDA 6596. Independent Research in TRDA. 1-12 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

TRDA 6598. Internship. 1-12 Credits.

Internships with theatre companies or arts organizations, including conference and/or seminar. May be taken for a total of 9 credits. Prerequisites: M.F.A. candidacy and permission of the instructor.

TRDA 6997. Production Design Practicum. 1 Credit.

Guided advanced individual laboratory training and experience; planning and executing complex production assignments with an emphasis on the management of subordinate crew. MFA production design candidates enroll in this course each semester of their program. Restricted to MFA production design students or permission of the instructor.

TRDA 6998. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6999. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

COUNSELING (CNSL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CNSL 0920. Continuing Research - Master's. 1 Credit.

.

CNSL 0940. Continuing Research - Doctoral. 1 Credit.

.

CNSL 2102. Foundations of Counseling. 3 Credits.**CNSL 2162. Professional and Ethical Orientation to Counseling. 3 Credits.**

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 2163. Psychosocial Adjustment. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children and adolescents.

CNSL 2376. Introduction to Rehabilitation Counseling. 3 Credits.

Overview of rehabilitation profession, including philosophy, history, ethics, theory, legislation, settings, and practice.

CNSL 2378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Case management services for persons with physical, mental, and emotional disabilities.

CNSL 2381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders; rehabilitation and psychosocial implications.

CNSL 5099. Variable Topics. 1-99 Credits.**CNSL 6100. Special Workshop. 1-12 Credits.**

Topics to be announced in the Schedule of Classes. May be repeated for credit. Credit cannot be earned for this course and CPED 6100, CPED 6199, SPED 6100, SPED 6299.

CNSL 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with an instructor.

CNSL 6103. Thesis Research. 3 Credits.

CNSL 6104. Thesis Research. 3 Credits.

CNSL 6114. Introduction to Research and Evaluation in Counselor Education. 3 Credits.

Conceptual understanding of research design and analysis of quantitative, qualitative, and mixed methods designs for the consumer and future producer of research. Restricted to students in master's and doctoral counseling programs.

CNSL 6130. Vocational Assessment of Individuals with Disabilities. 3 Credits.

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as SPED 6230.

CNSL 6151. Professional and Ethical Orientation to Counseling. 3 Credits.

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 6153. Counseling Interview Skills. 3 Credits.

Acquisition of counseling skills common to all theories through lectures, demonstrations by faculty, role playing, and videotaping. Permission of the instructor required for non-counseling majors. CNSL 6151 may be taken as a corequisite. Material fee. Prerequisites: CNSL 6151 for counseling majors.

CNSL 6154. Theories and Techniques of Counseling. 3 Credits.

An introduction to basic counseling and psychotherapeutic theories and associated techniques. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6155. Career Counseling. 3 Credits.

A consideration of theory, practice, and the body of information related to career counseling, choice, and development over the life span. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6157. Individual Assessment in Counseling. 3 Credits.

Detailed study of individual analysis and appraisal techniques. Development of systematic case study. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6159. Psychosocial Adaptation. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children, adolescents, and adults.

CNSL 6161. Group Counseling. 3 Credits.

Principles of group dynamics as related to interaction within groups. Techniques and practice in group counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6163. Social and Cultural Dimensions - CNS. 3 Credits.

Basic sociocultural concepts in counseling theory and how they apply to the practice of the counseling profession. CNSL 6153 may be taken as a corequisite. Permission of the instructor required for non-counseling majors. Prerequisites: CNSL 6153 for counseling majors.

CNSL 6164. Values, Spiritual, and Religious Issues in Counseling. 3 Credits.

The theoretical and practical intersection of counseling, psychotherapy, and mental health considerations with religion and spirituality. The clinically effective and ethically responsible integration of religion and spirituality into counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6169. Counseling Substance Abusers. 3 Credits.

Individual, group, family, and self-help counseling applied to substance abusers. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6170. Grief and Loss. 3 Credits.

Exploration and discussion of grief and loss from theoretical, practical, cross-cultural, and personal perspectives; implications for counselors within a multidisciplinary environment.

CNSL 6171. Family Counseling. 3 Credits.

The family as a system: how it affects the client and how the client affects it. Didactic presentations, role playing, and work with simulated families. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6172. Human Sexuality for Counselors. 3 Credits.

Issues of sexuality as related to counseling in contemporary society. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6173. Diagnosis and Treatment Planning. 3 Credits.

For counselors and mental health practitioners. Symptoms and treatment of various mental disorders. The process of making psychiatric diagnoses. A variety of treatment strategies are covered, along with their application to various disorders. Prerequisite: CNSL 6153.

CNSL 6174. Trauma and Crisis Intervention. 3 Credits.

This course provides the counseling student with an introduction to research, theory, and practices within the field of traumatology. The course covers the historical evolution of the field; biopsychosocial underpinnings of trauma and trauma spectrum disorders; issues in diagnosis, assessment, and intervention from a culturally diverse framework; and a synthesis of best practices as they are currently evolving. Using a developmental and systemic approach, the course provides a counseling perspective on the knowledge base from the multiple disciplines that contribute to the field of traumatology.

CNSL 6175. Living and Dying: A Counseling Perspective. 3 Credits.

Survey of fundamental psychosocial issues surrounding grief, loss, and life-threatening illness. Topics include AIDS, suicide, multiple loss, caregiver's grief, spirituality, and cross-cultural issues.

CNSL 6177. Spirituality and Loss. 3 Credits.

Exploration of how spiritual beliefs, faith traditions, and life philosophy affect the process of dying, bereavement, and grieving. Effective counseling approaches.

CNSL 6179. Children and Loss. 3 Credits.

The process of grief, loss, and death as experienced by children and adolescents from theoretical, moral, spiritual, and developmental perspectives. Development of effective and sensitive skills and competencies to meet the needs of children and their families as they face life-challenging transitions.

CNSL 6185. Internship in Counseling. 3 Credits.

First part of a two-semester clinical experience for degree and certificate candidates in counseling. Includes 100 hours of supervised practicum in a counseling setting.

CNSL 6186. Advanced Internship in Counseling. 3 Credits.

Second part of a two-semester clinical experience for degree and certificate candidates in counseling. Includes 600 hours of supervised counseling experience in a counseling setting. Prerequisite: CNSL 6185.

CNSL 6188. Systems in Career Counseling Development. 3 Credits.

The complex role of systems in career counseling and development. Class and work experience in the areas of career assessment, computerized career planning, and the design and evaluation of career counseling systems.

CNSL 6189. Career Development and the Contemporary Workforce. 3 Credits.

Through case studies, simulations, and group work, the demographics and challenges of the workforce in the United States are examined. The knowledge, skills, and competencies necessary to respond to current trends and projected changes in the global workforce.

CNSL 6190. Advanced Career Counseling. 3 Credits.

Expansion of career development theory, concepts, and practice: the helping relationship, delivery systems, current market and economic information, and available resources. Prerequisite: CNSL 6155 (for counseling majors); permission of instructor is required for others. Material fee.

CNSL 6268. Foundations of Clinical Mental Health Counseling. 3 Credits.

Description of community counseling settings, problems clients present, and a consideration of appropriate intervention strategies.

CNSL 6269. Practicum I in Counseling. 3 Credits.

First in a two-semester clinical experience. Working with clients in the practicum clinic, agency, or school setting under intensive supervision from faculty, developing the therapeutic relationship and basic counseling competencies. Six to eight hours of work per week are required for a minimum of 100 hours total over two practica. Prerequisites: CNSL 6151, CNSL 6153, CNSL 6154, CNSL 6157, CNSL 6163, CNSL 6173, CNSL 6174, CNSL 6268, EDUC 6115 and HDEV 6108.

CNSL 6270. Practicum II in Counseling. 3 Credits.

Second in a two-semester clinical experience. Working with clients in the practicum clinic, agency, or school setting under intensive supervision, developing therapeutic relationship and basic counseling competencies. Six to eight hours of work per week are required for a minimum of 100 hours total over two practica. Prerequisite: CNSL 6269.

CNSL 6271. Advanced Clinical Skills. 3 Credits.

The practice of empirically supported counseling practice; essential interviewing and case conceptualization skills; developmentally relevant assessment, diagnosis, and treatment; and multicultural and social justice counseling. Restricted to students in master's and doctoral counseling programs. Prerequisites: CNSL 6269.

CNSL 6376. Foundations of Rehabilitation Counseling. 3 Credits.

Introduction to the field of rehabilitation counseling. History, development, and current practices. Key concepts, including vocational rehabilitation, roles and functions of the rehabilitation counselor, and independent living rehabilitation.

CNSL 6378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Disability management services; psychosocial aspects of disability; rehabilitation services for persons with psychiatric disabilities.

CNSL 6380. Job Placement and Supported Employment. 3 Credits.

Job development and modification: placement of persons with disabilities.

CNSL 6381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders with rehabilitation and psychosocial implications.

CNSL 6395. Foundations of Forensic Rehabilitation Counseling I. 3 Credits.

Overview of the roles and functions of professionals who provide forensic rehabilitation services in matters of litigation. Vocational assessments, labor market issues, transferable skills analysis, job analyses. Instruments utilized in forensic rehabilitation.

CNSL 6396. Foundations of Forensic Rehabilitation Counseling II. 3 Credits.

Workers' compensation, personal injury, medical/professional malpractice, catastrophic injury, loss of earnings capacity, and life care planning. Ethical standards, practices, federal court rules, and common situations found in the litigation process.

CNSL 6397. Law and the Rehabilitation Consultant. 3 Credits.

Overview of law and court procedures for forensic rehabilitation professionals. Qualification of forensic experts, roles and functions of expert witnesses, discovery, work product, hearsay, direct and cross-examination, admissibility of evidence, and opinions in state and federal venues.

CNSL 6398. Psychopharmacology. 3 Credits.

CNSL 6466. Foundations of School Counseling K-12. 3 Credits.

Study of the environmental and specialty elements for school counseling, with special attention to the principles and practices of school counseling.

CNSL 6467. Coordination of Comprehensive School Counseling Services. 3 Credits.

Theory and practice of classroom management for school counselors; creation and implementation of guidance programming, school system support; designation, coordination of services, systemic and student support for special education students Restricted to students in the school counseling program. Prerequisites: CNSL 6466 and CNSL 6269.

CNSL 8100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

CNSL 8101. Research and Independent Study. 1-3 Credits.

Guided individual research. Program and conferences arranged with an instructor.

CNSL 8244. Advanced Group Counseling. 3-6 Credits.

A post-master's course on interpersonal process groups, with didactic, experiential, and supervisory components. Prerequisites: CNSL 6161 and permission of the instructor.

CNSL 8251. Advanced Psychopathology and Pharmacology. 3 Credits.

In-depth study of psychopathology and standard pharmacological intervention to psychological dysfunction associated with distress or impaired functioning; the range of child, adolescent, and adult presentations of psychological disorders seen in clinical practice.

CNSL 8252. Leadership and Advocacy in Counseling. 3 Credits.

Exploration of leadership styles as they apply to counseling professionals. Ethical and multicultural issues associated with leadership and advocacy will be presented, consultation models will be introduced.

CNSL 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as HDEV 8253/HOL 8742.

CNSL 8254. Advanced Multicultural Counseling. 3 Credits.

Recent research addressing key aspects of multicultural counseling. Practical knowledge about effective skills practice in the provision of services to clients from different cultural backgrounds, with emphasis on experiential and cognitive/behavioral approaches. Permission of the instructor required prior to enrollment. Prerequisite: CNSL 6163. Recommended background: PhD degree student in the field of counseling; completed a master's degree in counseling.

CNSL 8255. Supervision in Counseling. 3 Credits.

Theory and practice of clinical supervision and consultation for preparation to enter supervisory positions in the field of counselor education. Current thinking regarding supervisory theory/models, practice, research, and ethics. Permission of the instructor required prior to enrollment. Restricted to students in the PhD in counseling program.

CNSL 8256. Doctoral Practicum in Counseling. 3 Credits.

Supervised clinical experiences in applied settings. Students receive University-based supervision related to their cases through group supervision and case presentations.

CNSL 8257. Doctoral Internship in Teaching. 3 Credits.

Minimum 300 clock hours of supervised didactic and experiential learning activities relevant to instructional roles and responsibilities in counselor education.

CNSL 8258. Advanced Theories of Counseling. 3 Credits.

Current research on counseling and psychotherapy process and outcome; critical analysis of theory with applications for practice and research. For EdS and PhD degree candidates in the field of counseling. Permission of the instructor required prior to enrollment.

CNSL 8259. Doctoral Internship in Supervision I. 3 Credits.

Doctoral internship.

CNSL 8260. Doctoral Internship in Supervision II. 3 Credits.

Doctoral internship. Prerequisite: CNSL 8259.

CNSL 8961. Doctoral Internship in Research. 3 Credits.

Critical approach to reading research; practical experience in applied research design; integration of theoretical, research, and applied elements of the profession of counseling.

CNSL 8998. Predissertation Seminar. 3 Credits.

Required of all doctor of philosophy in the field of counseling degree candidates.

CNSL 8999. Dissertation Research. 3,6 Credits.

. Prerequisites: CNSL 8998 or EDUC 8998.

CURRICULUM AND PEDAGOGY (CPED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CPED 0920. Continuing Research - Masters. 1 Credit.

CPED 0940. Continuing Research - Doctoral. 1 Credit.

CPED 5099. Variable Topics. 1-99 Credits.

CPED 6100. Special Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes. Credit cannot be earned for this course and CNSL 6100, SPED 6100.

CPED 6100W. Special Topics. 1-12 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

CPED 6101. Research and Independent Study. 1-3 Credits.

Individual research under the guidance of a staff member; program and conferences arranged with an instructor.

CPED 6131. Teaching Jewish History to Middle and High School Students. 3 Credits.

Concepts for educators surrounding the ways in which Jewish historians interpret primary sources and analyze historiographic debates.

CPED 6132. Strategies for Teaching Biblical Texts. 3 Credits.

Analysis of major biblical narratives using study methods ranging from the historical to the literary; key aspects of biblical interpretation and strategies for teaching Bible effectively.

CPED 6133. Rabbinic Judaism and the Teaching of Rabbinic Texts. 3 Credits.

The development of rabbinic Judaism through a study of its thought and literature using primary texts from 100 to 500 C.E.; best practices for teaching rabbinic texts using different pedagogical approaches; distinctions between a historically-based academic approach and a more imaginative, theological approach.

CPED 6134. Practicum in Jewish Education. 2 Credits.

Field-based experiences and weekly seminar for students seeking to teach in classrooms dedicated to Jewish education; honing disciplinary expertise in the curriculum; lesson planning, instructional strategies, classroom management and intervention, and new methods and tools.

CPED 6172. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as SPED 6272.

CPED 6175. The Culturally and Linguistically Diverse Student with Special Needs: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Material fee. Same as SPED 6275.

CPED 6176. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Material fee. Same as SPED 6276.

CPED 6199. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as SPED 6299.

CPED 6221. Developmental Reading: Emergent Literacy. 3 Credits.

The components of a balanced literacy program for emergent, beginning, and early-instructional-level readers. Incorporation of phonological awareness, phonics, fluency, reading comprehension, and writing lessons into a balanced reading-literacy program.

CPED 6223. Interdisciplinary Elementary School Literacies. 3 Credits.

Theory and practice of interdisciplinary elementary school studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6224. Diagnostic Teaching of Reading: K-6. 3 Credits.

Collection of diagnostic data; construction of informal traditional and non-traditional reading and writing tests; other instruments of evaluation; selecting and planning activities suitable to specific problems. Prerequisite: at least one previous course in reading.

CPED 6225. Introduction to International Curricula. 3 Credits.

CPED 6229. Current Issues in Elementary Education. 3 Credits.

Identification, definition, and analysis of some of the most important problems facing the contemporary American elementary school.

CPED 6236. Analysis of Teaching. 3 Credits.

Teaching viewed as a system; component aspects are examined with a view toward developing a critical method of analysis. Material fee.

CPED 6239. Practicum in Curriculum and Instruction. 3-6 Credits.

Supervised field experience in curriculum and instruction. Permission of the instructor required prior to enrollment.

CPED 6289. New Literacies Coach and Reading Specialist. 3 Credits.

Contemporary issues and conditions influencing literacy/reading leadership roles and the expanded roles of the new literacy reading coach and reading specialist. Topics include designing and evaluating interdisciplinary literacy education environments. Students work with educators on instructional and professional development activities to meet the literacy education needs of children. Prerequisites: CPED 6224 and permission of the department.

CPED 6292. Practicum 2: Leadership in Interdisciplinary Literacies. 3-6 Credits.

Drawing on prior program experiences in leadership and interdisciplinary literacies, students develop and refine effective interdisciplinary literacy education leadership qualities and skills, facilitate change in school communities, and foster teacher growth and student achievement. Students demonstrate lessons and provide assistance with lesson planning to teachers in, across, and between subject area disciplines and conduct professional development workshops in school settings. Prerequisite: CPED 6289.

CPED 6305. Foundations of Curriculum Theory. 3 Credits.

Examination of the educational ideas of individuals and groups that have influenced American and international curriculum development and practice during the 20th and 21st centuries. Comparisons of the issues, models, and principles that have guided curricular thought, development, and innovation.

CPED 6339. Teachers as Researchers. 3 Credits.

Qualitative and quantitative methods of research in teaching and learning with a focus on practitioner-based research. Prepares teachers to develop an inquiry stance towards their practice and provides them with the knowledge, experiences, and skills to systematically examine their own practice and student learning.

CPED 6340. Teacher Leadership in Education. 3 Credits.

From the perspectives of educational theory and practice, the ideals and realities of contemporary public school teaching are viewed within a system of local, state, and federal organizations, with the goal of enhancing the role of teachers as knowledgeable and effective leaders in their profession. Material fee.

CPED 6353. Post-Master's Internship in Curriculum and Instruction. 3-6 Credits.

Supervised professional internship in curriculum, instruction, teaching, research, or policymaking. Internships are individually arranged. (Same as SPED 8353).

CPED 6365. Perspectives and Research in Teaching Computer Science. 3 Credits.

CPED 6366. Perspectives and Research in Teaching English. 3 Credits.

The teaching of English in the context of the social and historical foundations of education and through conceptual frameworks from contemporary curriculum theory.

CPED 6367. Perspectives and Research in Teaching Science. 3 Credits.

Significant trends, findings, and perspectives in science education in the United States from the early nineteenth century to the present.

CPED 6368. Perspectives and Research in Teaching Social Studies. 3 Credits.

Deepens students' understanding of the social studies curriculum through analysis of current research, theory, and practice, and application of this knowledge to instructional planning.

CPED 6370. Perspectives and Research in Teaching Mathematics. 3 Credits.

Survey of the history of mathematics, mathematics education research, instructional design, and the teaching of science, technology, engineering, and mathematics (STEM) curriculum standards. The impact of history in the field and research on teaching.

CPED 6410. Reading Children's Literature across the Curriculum. 2,3 Credits.

Participants read and analyze multicultural children's literature (from folktale to nonfiction) while simultaneously practicing discussion, dramatization, art, and writing response strategies suitable for involving all students and integrating literature across the school curriculum.

CPED 6412. Elementary School Curriculum and Methods. 2 Credits.

A comprehensive block course with sections in mathematics, science, language arts, and social studies. Integrated with CPED 6635. Pre-service teachers taking the four sections learn to be successful teachers of elementary methods in all content areas, including how to incorporate content and pedagogy into practice at their internships. May be repeated for up to 8 credits; with permission, up to four blocks (to a total of 8 credits) may be taken in one semester. Permission of the advisor required prior to enrollment.

CPED 6507. Instructional Models and Classroom Management. 3 Credits.

The interconnections between effective instruction and positive classroom management. Through planning, implementing, and evaluating learning activities that apply research-based practices, students link instructional and management strategies to specific content and thinking goals. Microteaching lab. Material fee.

CPED 6530. Assessment in the Secondary Classroom. 3 Credits.

Key concepts and principles in the field of educational assessment, with emphasis on practical applications for classroom teachers. Students design and evaluate a range of assessment tools in their content areas.

CPED 6532. Professional Internship in Middle School Education. 3-6 Credits.

Supervised internship in middle schools; required seminar. Restricted to permission from instructor.

CPED 6534. Professional Internship in Secondary Education. 6 Credits.

Internship seminar providing various means of support related to the field placement and program portfolio, as well as a forum for engaging in academic conversation around the field experiences. Fee applies.

CPED 6544. Educational Technology and Computer Literacy Methods. 3 Credits.

Computers and related technologies in educational settings. Using national technology standards for teachers as a framework, the course combines discussion of key issues related to technology in education, demonstration of technology-related instructional methods, and hands-on computer use and materials development. Material fee.

CPED 6545. Teaching Computer Science in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Thirty hours of field experience in a secondary classroom is required. Material fee.

CPED 6546. Teaching English in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Material fee. Prerequisites: CPED 6606 and CPED 6507 and the approved certification coursework in the content area.

CPED 6547. Teaching Science in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Material fee. Prerequisites: CPED 6606 and CPED 6507 and the approved certification coursework in the content area.

CPED 6548. Teaching Social Studies in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. 30-hour field experience in a secondary classroom is required. Material fee. Prerequisites: CPED 6507 and CPED 6606.

CPED 6549. Teaching Art in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Material fee.

CPED 6550. Teaching Mathematics in Secondary Schools. 3 Credits.

Introductory course in mathematics teaching that derives its goals from pedagogy standards for secondary mathematics developed in collaboration with the National Council of Teachers of Mathematics (NCTM). Focus on developing and understanding middle and high school curriculum standards. Material fee.

CPED 6551. Second Language Instructional Methods. 3 Credits.

Knowledge and skills related to the instruction and assessment of language students in English and foreign language settings; past second language teaching methods, contemporary instructional approaches and materials, and other considerations in developing academic and social language proficiency. Requires field experience in a classroom. Materials fee. Prerequisites: CPED 6507 and CPED 6606.

CPED 6554. Issues, Study, and Practices - ESL. 3 Credits.

A critical review of scholarship and research findings in English as a second language. Major policy issues and implications that relate to ESL practice.

CPED 6555. Educating Language Minorities. 3 Credits.

A study of federal, state, and local policies and issues affecting the education of linguistically diverse populations. Resources for use with specific linguistically diverse groups.

CPED 6556. Linguistic Applications in English as a Second Language. 3 Credits.

The science of language and how its different branches may be used for English as a Second Language (ESL) teacher training, classroom instruction, material development, evaluation, research, and policy development.

CPED 6557. Second Language Acquisition. 3 Credits.

The nature of first and second language acquisition and development; social, psychological, and linguistic factors affecting language acquisition; implications of language acquisition research and theory on English and foreign language classroom instruction.

CPED 6604. Perspectives in American Education. 3 Credits.

Historical and social development of education in the United States; evolution of American education related to the growth of the nation and the changing social order; examination of selected issues in contemporary education.

CPED 6606. Theories of Learning and Development. 3 Credits.

A comprehensive investigation of the complex relationship between teaching and learning. How learning takes place, how it is motivated, and how it is influenced. Material fee.

CPED 6608. Development and Diversity. 3 Credits.

Student diversity in relation to theories of human growth and development. Diverse student strengths and needs; the special needs population; dynamics of inclusion; and intercultural issues related to the teaching/learning process. Material fee.

CPED 6622. Foundations of Reading Development. 3 Credits.

Theories of printed text reading acquisition and development; strategic processes of teaching and learning from printed texts; linguistic, cognitive, developmental, sociocultural, and affective dimensions and models of reading; design and implementation of meaningful reading instruction.

CPED 6623. Foundations of Reading Development. 2 Credits.

Basic theories and processes of reading acquisition and assessment; linguistic, cognitive, developmental, social, and affective bases of reading; influences of media, instructional strategies, including formal and informal assessment. Design and implementation of instruction in critical literacy.

CPED 6624. Foundations and Research of Literacy and Reading Education. 3 Credits.

Study of the scholarship on foundational and new literacy knowledge, concepts, and practices. Topics include models of literacy, theories and relations of multimodal and printed text reading (e.g., linguistic, psychological, and sociocultural), and the uses of these theories for the teaching and learning of literacies.

CPED 6626. Practicum 1: Reading Diagnosis, Assessment, and Solutions. 3 Credits.

Candidates learn advanced diagnostic and assessment procedures to determine specific difficulties associated with printed-text reading, generate diagnostic profiles, and make instructional recommendations. Data are collected from children who struggle with printed texts; and, from those data, case studies are developed with implications for instruction.

CPED 6627. Teaching Second Language Reading and Writing. 3 Credits.

Literacy development for language learners; theories of literacy development in a second or foreign language, strengths and needs of language learners, reading and writing instructional strategies for language and content classrooms. Appropriate for students interested in teaching ESL, foreign languages, or content areas in elementary or secondary schools. Materials fee.

CPED 6628. Literacies in Informal Learning Environments. 3 Credits.

How culture, language, and out-of-school literacy experiences, particularly those in museums, influence attitude, learning, affective and interdisciplinary knowledge, and teaching practices. New literacy research, curriculum, and literature, and how social and cultural factors contribute to the literacies of everyday life.

CPED 6635. Professional Internship in Elementary Education. 3-6 Credits.

Supervised internship; required seminar. Permission of the instructor required prior to enrollment. Material fee.

CPED 6691. Interdisciplinary Adolescent Literacies. 3 Credits.

Theory and practice of interdisciplinary adolescent literacies studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6701. Arts in the STEM Curriculum. 3 Credits.

In-depth coverage of approaches to integrating arts and design into STEM curricula ("STEAM") for student learning; criteria and approaches for assessing student learning in arts-integrated STEM curricula; building a culture of craftsmanship; and collaborating with arts and design professionals.

CPED 6702. Integrating Engineering in the Math and Science Classroom. 3 Credits.

Approaches to integrating engineering and design into K-12 math and science classrooms. Students develop competencies by engaging in various forms of engineering and design, from small "design challenges" to more complex, semester-long engineering projects.

CPED 6703. Advanced STEM Teaching Methods. 3 Credits.

Advanced approaches for integrating science, technology, engineering, and mathematics into the K-12 classroom.

CPED 8100. Special Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

CPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a faculty member. Program and conferences arranged with an instructor.

CPED 8199. Federal Education Policy Institute. 3 Credits.

.

CPED 8309. Supervising Preservice Clinical Experience. 1-3 Credits.

CPED 8325. Curriculum Theory. 3 Credits.

History and development of the field of curriculum studies; theoretical perspectives on curriculum and the nature and purposes of curriculum research, development, and theorizing.

CPED 8330. Foundations of Education Research in Curriculum and Instruction. 3 Credits.

Works that have influenced twenty-first century curriculum and instruction: post-positivism, constructivism, critical theory, and post-structuralism/new materialism.

CPED 8331. Seminar in Teaching. 3 Credits.

Key issues that define the complexities of teaching; the connections between advanced teaching and learning.

CPED 8332. Search of the Literature in Curriculum and Instruction. 3 Credits.

Analysis of types of literature reviews in the field of curriculum and instruction and development of a literature review; the relationship of theory building to review of literature, and how research questions arise from extant theory and related literature. For doctoral students in curriculum and instruction, to precede CPED 8998. Material fee.

CPED 8333. School Reform through Professional Development. 3 Credits.

Fundamental perspectives of school reform through professional development of educators (K-12); evolution of contemporary professional development models and trends; examination of interactive modules using selected professional development activities. Material fee.

CPED 8334. Seminar in Learning. 3 Credits.

Theories and processes for making claims about learning.

CPED 8335. Seminar in Research in Curriculum and Instruction II. 3 Credits.

Students develop research skills in curriculum and instruction; create an individual, unique, and focused research study that is feasible for a doctoral student to accomplish; and learn skills and strategies for writing a research proposal. Prerequisite: CPED 8334.

CPED 8340. Education Policy, Reform, and Teacher Leadership. 3 Credits.

This online course engages students in the study of education policies and reforms that specifically focus on teaching and teachers. Further, this course examines teacher leadership as it impacts school reform through professional development initiatives that sustain change efforts. Four areas of study ground the focus of this course: education policy, change theories and school reform, teacher leadership, and professional development. Restricted to doctoral students; permission of the instructor required for master's students.

CPED 8341. Evaluation in Curriculum and Instruction. 3 Credits.

This course teaches doctoral and master's students about evaluating curriculum and instruction related programs, projects, or policies. This course provides students with the theoretical grounding and practical experiences they need to develop and implement evaluation research. Students in the course are required to: 1) read current literature that covers the breadth of theories and models applied in the field of evaluation, 2) participate in live online discussions and instructor presentations and, 3) design, implement and report on a targeted evaluation of a curriculum and instruction related program, project or policy. Restricted to doctoral students; master's students with approval of instructor.

CPED 8354. Doctoral Internship: Teacher Education. 3-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, policymaking, or private agency function. Permission of the advisor required prior to enrollment.

CPED 8998. Doctoral Seminar in Curriculum and Instruction. 3-6 Credits.

Review of literature; preparation of a dissertation proposal and a manuscript of publishable quality. Permission of the instructor and major advisor required prior to enrollment. Material fee.

CPED 8999. Dissertation Research. 3-6 Credits.

Prerequisite: CPED 8998.

DATA SCIENCE (DATS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

DATS 1001. Data Science for All. 3 Credits.

Cross-disciplinary perspective on topics ranging from an introduction and overview of standard data science tools through to frontier research topics in real-world systems. R is introduced.

DATS 2101. Ethical Life in a Digital World. 3 Credits.

Introduction to ethical perspectives and policies in an increasingly digital world. Topics include generation, recording, curation, processing, sharing, and use of data; algorithms; programming; hacking; and professional codes.

DATS 2102. Data Visualization for Data Science. 3 Credits.

Working with data and code to engage data science questions. Students develop coding, data visualization, and data presentation skills. Prerequisites: DATS 1001; and STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

DATS 2103. Data Mining for Data Science. 3 Credits.

Basic concepts, principles, methods, implementation techniques, and applications of data mining, with a focus on Python and data mining algorithms. Overview of data mining techniques and skills to explore and analyze data. Prerequisites: CSCI 1012, DATS 1001, MATH 1232, and STAT 1053.

DATS 2104. Data Warehousing for Data Science. 3 Credits.

Fundamental concepts of databases and data warehousing. Database management; extract, transform, load (ETL) processes; and SQL. Ethical considerations, including privacy, data stewardship, and database security Prerequisites: CSCI 1012 and DATS 1001.

DATS 4001. Data Science Capstone. 3 Credits.

Capstone experience for data science majors. Application of theoretical knowledge and practical skills gained in major courses to a real-world problem. Review of ethical issues and current topics in data science. Restricted to data science majors. Prerequisites: DATS 1001, DATS 2101W, DATS 2102, DATS 2103, and DATS 2104.

DATS 6001. Algorithm Design for Data Science. 3 Credits.

Theory and implementation of the most important problems in algorithm design. Tailored to the needs of non-computer science students.

DATS 6101. Introduction to Data Science. 3 Credits.

Basic techniques of data science. Algorithms for data mining, basics of statistical modeling, and concepts, abstractions, and practical techniques.

DATS 6102. Data Warehousing. 3 Credits.

Fundamentals and practical applications of data warehousing, including planning requirements, infrastructure, design, and maintenance. Prerequisites: STAT 2118 or permission of the instructor. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics.

DATS 6103. Introduction to Data Mining. 3 Credits.

Concepts, principles, and techniques related to data mining; strengths and limitations of various data mining techniques, including classification, association analysis, and cluster analysis.

DATS 6201. Numerical Linear Algebra and Optimization. 3 Credits.

Linear and quadratic programming, nonlinear equations, global and unconstrained optimization, and general linearly and nonlinearly constrained optimization as used in data science. Restricted to students in the MS in data science program or with the permission of the instructor. Prerequisites: MATH 2184 or MATH 2185. Recommended background: An undergraduate degree with a strong foundation in science, mathematics, or statistics.

DATS 6202. Machine Learning I: Algorithm Analysis. 3 Credits.

Practical approach to fundamentals of algorithm design associated with machine learning; techniques of statistical and probability theory, combinatorial optimization, and factor graph and graph ensemble as used in machine learning. Prerequisites: DATS 6101 and DATS 6103. Credit cannot be earned for this course and PHYS 6620.

DATS 6203. Machine Learning II: Data Analysis. 3 Credits.

This course is a practical approach to fundamentals of machine learning with an emphasis on data analysis; i.e., how to extract useful information from different datasets Topics include linear models, error and noise, training and testing methods, and generalization as used in machine learning. Restricted to Designed primarily for students in the Data Science program, however other students with appropriate backgrounds can register for the course with permission of the instructor. Prerequisite: DATS 6101. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics. Credit cannot be earned for this course and PHYS 6720.

DATS 6311. Bayesian Methods in Data Science. 3 Credits.

Introduction to Bayesian data analysis. Parameter estimation (using formal analysis, grid approximation, and Markov chain Monte Carlo), hierarchical models, generalized linear models, JAGS, and Stan. Prerequisites: DATS 6101 and DATS 6103.

DATS 6312. Natural Language Processing for Data Science. 3 Credits.

Introduction to natural language processing and its basic techniques and methods. Natural language processing techniques used to explore, analyze, and leverage natural language data stored in text, covering commonly used text analysis techniques and tools. Prerequisite: DATS 6202.

DATS 6401. Visualization of Complex Data. 3 Credits.

This course is a practical approach to fundamentals of data visualization specifically for data science professional. It covers all significant topics, including graphics, discrete and continuous variables, clustering and classification. Restricted to candidates for the MS or graduate certificate in data science; permission of the instructor may be substituted. Prerequisites: DATS 6101, DATS 6102, and DATS 6103.

DATS 6402. High Performance Computing and Parallel Computing. 3 Credits.

Practical approach to high performance computing specifically for the data science professional. Topics such as parallel architectures and software systems, and parallel programming. Restricted to students in the MS or graduate certificate in data science programs or with permission of the instructor. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

DATS 6450. Topics in Data Science. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to students in the master's and graduate certificate in data science programs. Restricted to students in the master's and graduate certificate programs in data science. Prerequisites: DATS 6101 or permission of the instructor.

DATS 6499. Data Science Applied Research. 3 Credits.

Students conduct research projects under the supervision of the instructor. Project topics build on the knowledge and skills acquired during the data science program. Permission of the instructor required prior to enrollment.

DATS 6501. Data Science Capstone. 3 Credits.

Practical application of the knowledge and skills acquired during the master's program. Capstone team projects are chosen in consultation with the instructor. In addition to the specific prerequisite courses, completion of five pre-approved data science courses is required prior to enrollment. Restricted to students in their final semester of the MS in data science program. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

DATS 6810. Hot Topics in Big Data Analytics. 3 Credits.

This course will enhance students' big-data analysis and statistical skills, and is aimed at upper-level undergraduate and graduate students from the physical, biological and social sciences. In addition to overviewing standard tools using R, it will expose students to current thinking about real data, analysis and modeling in our 'non-normal' world where distributions are fat-tailed rather than approximately normal, and where processes are bursty rather than approximately Poisson. Its cross-disciplinary approach will also help address the likely challenge facing next-generation researchers and employees, to 'understand' real-world data not only through statistical tests, but also by building generative simulations (e.g. in C) that reproduce the statistical stylized facts of real-world data sets. Other topics to be discussed include networks, machine-learning, as well as web-scraping of data – e.g. from social media sources. Restricted to Graduate and advance undergraduate students with permission of the instructor. Prerequisite: MATH 2184. Recommended background: Competency in single-variable calculus; MATH 2233 would be beneficial but is not strictly necessary. (Same as PHYS 6810).

DECISION SCIENCES (DNSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

DNSC 1001. Business Analytics I: Statistics for Descriptive and Predictive Analytics. 3 Credits.

Foundations of probability and statistical methodologies used in business analytics; probability laws, probability models, univariate and bivariate models and their applications, sampling, hypothesis testing, contingency table analysis, simple and multiple linear regression models. Credit cannot be earned for this course and STAT 1051, STAT 1053, STAT 1111.

DNSC 1051. Introduction to Business Analytics. 3 Credits.

Business analytics fundamentals; the information it provides, how and when it is used, and how it affects decision making. Uncertainty; using data of all sizes; making decisions with incomplete data. Simulation of real-life scenarios to support optimal decision making. Students must have achieved a minimum score of 61 on the ALEKS placement examination in order to enroll.

DNSC 1099. Variable Topics. 1-36 Credits.

DNSC 2001. Business Analytics II: Predictive and Prescriptive Analytics. 3 Credits.

Builds on the foundations of probability and statistical methodologies covered in DNSC 1001. Categorical data analysis; design of experiments and analysis of variants (ANOVA); multiple regression; parameter estimation and testing; residual analysis; indicator variables; model selection procedures; logistic regression; and applications of optimization models. Prerequisites: DNSC 1001 or STAT 1051 or STAT 1053 or STAT 1111. Credit cannot be earned for this course and STAT 2112.

DNSC 3288. Big Data, Predictive Analytics, and Ethics. 3 Credits.

How data is collected, stored, analyzed, and acted upon. Safeguards in place (or not in place) to protect individual freedoms. Ethical quandaries posed by the advent of recent technological advances. Same As: DNSC 3288W.

DNSC 3288W. Big Data, Predictive Analytics, and Ethics. 3 Credits.

How data is collected, stored, analyzed, and acted upon. Safeguards in place (or not in place) to protect individual freedoms. Ethical quandaries posed by the advent of recent technological advances. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: DNSC 3288.

DNSC 3401. Introduction to Business Analytics. 3 Credits.

Fundamentals of business analytics: what information it provides, how and when that information is used, and how it affects decision making. Working with uncertainty; understanding the dynamic nature of decision making; using data, regardless of its size; and making decisions with incomplete data. The simulation of real-life scenarios to support optimal decision making. Prerequisites: APSC 3115 or STAT 1051 or STAT 1053 or STAT 1111.

DNSC 3402. Data Mining. 3 Credits.

The practice of exploring and discovering actionable business intelligence from large amounts of data; concepts, methods, and tools; supervised and unsupervised data mining techniques for discovering relationships in large data sets and building predictive models; regression models, decision trees, neural networks, clustering, and association analysis. Prerequisites: APSC 3115 or STAT 1051 or STAT 1053 or STAT 1111; Math 1231 or Math 1252.

DNSC 3403. Decision Models. 3 Credits.

Designing and developing decision models using Microsoft Excel and specialized decision support add-ins; interpreting the models' outputs. Equivalent courses may be substituted for the prerequisites. Prerequisites: DNSC 2001 or STAT 2112 or STAT 2118 or ECON 2123 or STAT 2123.

DNSC 4211. Programming for Analytics. 3 Credits.

Handling and preparing data for business analytics; descriptive, predictive and prescriptive analytics; creating data stories in collaboration with and for end users and information consumers; scripting, publishing, and collaborating for data products. Prerequisites: DNSC 1001 and DNSC 2001. Recommended background: Some prior knowledge of a programming. Credit cannot be earned for this course and DNSC 6211.

DNSC 4219. Forecasting Analytics. 3 Credits.

Predictive analysis and use of black-box models for time-series forecasting. Emphasis on identifying hidden patterns and structures in univariate and multivariate time-series data and using these for forecasting. Prerequisites: DNSC 4211; and DNSC 2001 or ECON 2123 or STAT 2112 or STAT 2118 or STAT 2123; and MATH 1221 or MATH 1231 or MATH 1252.

DNSC 4233. Social Network Analytics. 3 Credits.

Introduction to the theories, methods, and procedures of network analysis with emphasis on applications to organizations and management.

DNSC 4279. Data Mining. 3 Credits.

The practice of exploring and discovering actionable business intelligence from large amounts of data. Prerequisites: DNSC 2001 or ECON 2123 or STAT 2112 or STAT 2118 or STAT 2123; and DNSC 4211; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and DNSC 6279.

DNSC 4280. Machine Learning. 3 Credits.

Machine learning techniques. Topics include supervised learning (classification, regression), unsupervised learning (clustering, dimensionality reduction) and techniques associated with both types of learning. Restricted to students in the BS in business analytics program. Prerequisites: DNSC 4279.

DNSC 4281. Revenue Management Analytics. 3 Credits.

Methodologies used in pricing and revenue management. Tactical optimization of pricing and capacity allocation decisions to ensure the right prices are in place for all products, to all customers, through all channels, at all times. Prerequisites: DNSC 3403. Recommended background: A basic understanding of probability, probability distributions, expected value calculations, and basic optimization, and some knowledge of spreadsheet modeling.

DNSC 4282. Supply Chain Analytics. 3 Credits.

Mathematical modeling techniques used to design, analyze, execute, and integrate supply chains.

DNSC 4289. Capstone in Business Analytics. 3 Credits.

Designed to apply the knowledge gained in the classroom to real world problems by working in teams on an industry project. Students develop significant expertise in a set of analytical tools. Prior completion of all courses in the major is required. Restricted to students in the BS in business analytics program.

DNSC 4403. Decision Models. 3 Credits.

Design and development of decision models using spreadsheet software with decision support add-ins; interpreting decision model outputs; commonly used classes of models; decision analysis spanning business disciplines. Restricted to juniors and seniors.

DNSC 4404. Essentials of Project Management. 3 Credits.

Theoretical foundations of and practical insights into project management; the role of project management in contemporary business and government organizations; the link between projects and strategy. Project design and development.

DNSC 4900. Special Topics. 3 Credits.**DNSC 4995. Independent Study. 6 Credits.**

Students undertake research in an area of particular interest under the direction of a School of Business faculty member.

DNSC 5099. Variable Topics. 1-99 Credits.**DNSC 6201. Introduction to Business Analytics. 1.5 Credit.**

An introduction to business analytic concepts, methods, and tools with concrete examples from industry applications; Big Data and the opportunities it has created for businesses to store, organize, and analyze vast amounts of information. Completion of a basic course in statistics prior to enrollment is recommended.

DNSC 6202. Statistics for Managers. 3 Credits.

Mathematical and statistical concepts employed in the solution of managerial problems. Applications of functions, elements of calculus, and linear algebra. Introduction to probability, frequency distributions, statistical inference, and regression and correlation. Credit cannot be earned for this course and MBAD 6221, MBAD 6222, MBAD 6224.

DNSC 6203. Statistics for Analytics I. 1.5 Credit.

Foundations of statistical methodologies in business analytics; statistical inference and probability models; estimation, hypothesis testing, contingency table analysis, analysis of regression models; logit and probit analysis. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with departmental permission. Corequisites: DNSC 6206.

DNSC 6206. Stochastic Foundation: Probability Models. 1.5 Credit.

Introduces the foundations of probability, along with the commonly used probability models (binomial, normal, and poisson) in predictive analytics. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with departmental permission.

DNSC 6207. Applied Probability Models. 1.5 Credit.**DNSC 6208. Computational Optimization. 3 Credits.****DNSC 6209. Forecasting for Analytics. 1.5 Credit.**

Predictive analysis and use of blackbox models for time-series forecasting. Identifying hidden patterns and structures in the data and exploiting these for forecasting. Prerequisites: DNSC 6202 or MBAD 6224.

DNSC 6210. Decision and Risk Analytics. 1.5 Credit.

Concepts, methods, and practical tools to analyze managerial decisions involving risk and uncertainty. Restricted to students in the master of science in business analytics degree program or with program approval. Prerequisites: DNSC 6206 and DNSC 6203.

DNSC 6211. Programming for Analytics. 3 Credits.

Accessing, preparation, handling, and processing data that differ in variety, volume, and velocity. Development of a theoretical grounding in emerging paradigms like schema-less data. Python and R typically used. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with departmental permission. Credit cannot be earned for this course and DNSC 4211.

DNSC 6212. Optimization Methods and Applications. 3 Credits.

Linear, network, integer, and nonlinear models and their fundamental underlying analytic concepts and solution methods; model development, formulation, solution and interpretation of results using powerful commercial software; intuitive understanding of solution methods and their underpinning theoretical paradigms for effective use of optimization models. Restricted to students in the master of science in business analytics degree program or with the permission of the instructor.

DNSC 6213. Statistics for Analytics II. 1.5 Credit.

Statistical methodologies for business analytics in real world scenarios; introduction of high-level analytical techniques such as hierarchical linear modeling and mixed-effects modeling. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with permission of the department. Prerequisite: DNSC 6203.

DNSC 6214. Pricing and Revenue Management. 1.5 Credit.

Methodologies for addressing pricing issues; tactical optimization of pricing and capacity allocation decisions; quantitative models of consumer behavior and constrained optimization. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224.

DNSC 6215. Social Network Analytics. 1.5 Credit.

Concepts, methods, and applications of network science; analyzing real networks and related phenomena such as organizational analysis, social power, fraud detection, and disease propagation. Prerequisites: DNSC 6206 and DNSC 6203; or DNSC 6202; or MBAD 6224 (note that DNSC 6206 must be taken before DNSC 6203). Recommended background: Prior exposure to Python and R scripts.

DNSC 6216. Business Analytics Skills Workshops. 1.5 Credit.

Practical workshop designed to develop the student's application-related skills for the analytics realm. Programming skills, computing environments (e.g. cloud or enterprise computing), and data ethics and security. Restricted to students in the master of science in business analytics degree program.

DNSC 6217. Business Analytics Practicum. 1.5 Credit.

Working in small teams, students apply their analytics skills to projects sponsored by public or private institutions. Each team is advised by a faculty member, and the practicum sponsor designates a mentor to provide guidance to the team for the duration of the project. Prerequisite: MSBA degree candidacy.

DNSC 6219. Time Series Forecasting for Analytics. 3 Credits.

Predictive analysis and blackbox models for time series and econometric forecasting. If chosen for the prerequisite, DNSC 6206 must be taken before DNSC 6203. Restricted to students in the master of science in business analytics degree program or with the permission of the department. Prerequisites: DNSC 6206 and DNSC 6203; or DNSC 6202; or MBAD 6224.

DNSC 6225. Business Process Simulation. 1.5 Credit.

Approaches and issues involved in business process design; basic tools used to analyze and improve processes; process modelings using a powerful discrete-event simulation tool. If DNSC 6206 and DNSC 6203 are taken as prerequisites, they must be completed in that order. Prerequisites: DNSC 6206 and DNSC 6203; or DNSC 6202 or MBAD 6224.

DNSC 6231. Consulting for Analytics. 1.5 Credit.

Practical tools used by analysts and managing analysts, within an organization or for an external consulting-focused organization, for integrating analytical skills into problem solving. Prerequisites: DNSC 6203, DNSC 6206, and DNSC 6211 or permission of the instructor.

DNSC 6233. Social Network Analysis for Managers. 3 Credits.

Concepts, theories, and applications associated with network data; concepts at micro, meso, and macro levels, including connectedness, homophily, transitivity, and clustering. Power, roles, social position, and social capital.

DNSC 6234. Procurement and Contracting. 3 Credits.

Principles and concepts essential to effecting large procurement programs. Planning, sourcing, and contractual design for diverse acquisitions. Emphasis on federal government policy with comparison of buying at other governmental levels and the private sector.

DNSC 6235. Communication Strategies in Project Management. 3 Credits.

Communication leadership and management practices that facilitate successful project management; strategies and practices related to communication, change management, and performance reporting.

DNSC 6236. Project Quality Management. 3 Credits.

Current theories and practices regarding quality management as applied to manufacturing and the service industry, the application to project systems, and the application to individual projects. Prerequisite: None.

DNSC 6237. International Project Management. 1.5 Credit.

Augments the basics of project management with theory, practice, and methodology related to global project environment; practical investigation of the cultural environment in the context of managing global projects.

DNSC 6238. Project Management and Organizational Context. 1.5 Credit.

Organizational influences on project management practices; definition and classification of organizations; organizational culture; organizational strategy; project management practices that take place during initiation, planning, execution, monitoring and controlling, and closing processes.

DNSC 6239. Project Governance. 1.5 Credit.

An overview of project governance; models, practices and case studies.

DNSC 6247. Organization, Management, and Leadership. 3 Credits.

Fundamentals of human resource management for project managers. Tools and techniques for success in managing and leading people in a project environment. Prerequisites: None.

DNSC 6250. Project Management Finance. 3 Credits.**DNSC 6251. Optimization Models for Decision Making. 1.5 Credit.**

Optimization modeling techniques, including linear programming, sensitivity analysis, networks, integer programming, multiple objective optimization, and nonlinear and evolutionary programming. Prerequisites: DNSC 6202 or MBAD 6224.

DNSC 6252. Risk Analysis for Decision Making. 1.5 Credit.

Probabilistic modeling techniques with spreadsheet implementation. The concept of risk and methods for its analysis; risk attitudes, risk measures, decision trees, simulation models, game theory, real options approach, and risk communication. Recommended background: Working knowledge of basic statistics.

DNSC 6254. Risk Management. 1.5 Credit.

Basic principles of risk management practices. Developing a risk management plan, including identifying, analyzing, mitigating, and monitoring projects risks. Prerequisites: DNSC 6202 or MBAD 6224; or MBAD 6221 and MBAD 6222.

DNSC 6257. Cost Estimation and Control. 1.5 Credit.

Methods of developing project estimates during the planning stages and updating the estimates throughout the life of the project; monitoring, reporting, controlling, and managing project cost; relationships between project cost and other parameters, including scope, time, quality, reliability and procurement risk. Prerequisites: DNSC 6202 and DNSC 6261.

DNSC 6258. Executive Decision Making. 1.5 Credit.

Concepts and methods for making complex decisions in business and government. Identifying objectives and alternatives, setting priorities, and making collaborative decisions.

DNSC 6259. Project Portfolio Management. 1.5 Credit.

Management of an organization's portfolio of projects for the overall success of the enterprise; alignment of projects with an organizations strategy and goals and consistency with values and culture. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6261. Introduction to Project and Program Management. 3 Credits.

Comprehensive overview of project and program management. Culture, principles, and basic techniques of project management.

DNSC 6262. Directed Computational Project Management. 3 Credits.

Practical examination of project management concepts by quantitative application using various software tools. Research in real cost data to support project calculations. Prerequisite: DNSC 6254, DNSC 6257, DNSC 6261, DNSC 6267.

DNSC 6263. Managing External Projects. 3 Credits.

Fundamentals of contract management from a project manager's perspective. The outsourcing process, associated project strategies, and legal elements. Acquisition planning, vendor selection, contract formulation, and performance control.

DNSC 6267. Planning and Scheduling. 3 Credits.

Integrated planning, scheduling, and control systems for planning the scope of a project; optimizing time, cost, and resources; and monitoring and controlling schedules, including those for delayed projects. Prerequisites: DNSC 6261; and DNSC 6202 or MBAD 6221; and MBAD 6222 or MBAD 6224.

DNSC 6269. Project Management Application. 3 Credits.

Students are expected to demonstrate integration of the knowledge accumulated in their study plan and apply integrated knowledge and experience to best practices, a project case history, and a handbook. Prerequisites: MSPM candidacy or permission of instructor/advisor.

DNSC 6274. Statistical Modeling and Analysis. 3 Credits.

The process of specifying, analyzing, and testing models of human and systemic behavior. Formalization of models; statistical test comparison and selection; computer implementation of univariate, bivariate, and multivariate tests. General linear model: linear regression, analysis of variance, and analysis of covariance. Prerequisite: MBAD 6221 and MBAD 6222 .

DNSC 6275. Advanced Statistical Modeling and Analysis. 3 Credits.

Advanced topics associated with the general linear model. Testing for and remediation of assumption violations. Detection of outliers, influential observations, and multicollinearity. Alternative design strategies in the analysis of variance; latent growth analysis; hierarchical linear modeling; testing for interactions and parallelism. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6276. Exploratory and Multivariate Data Analysis. 3 Credits.

Methods for exploratory and multivariate data analysis. Application and comparison of advanced multivariate analytical procedures. Multivariate and discriminant analysis, LISREL analysis, and canonical correlation. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6277. Applied Forecasting and Time-Series Analysis for Managers. 3 Credits.

Introduction to various forecasting techniques, including time-series regression models, cyclical trends, exponential smoothing methods, seasonal and nonseasonal ARIMA processes, and the Box-Jenkins approach. Application of forecasting methods in economics, finance, and marketing. Prerequisite: MBAD 6222 or permission of instructor.

DNSC 6278. Big Data Analytics. 3 Credits.

Practical workshop-style course using cloud computing resources to analyze and manipulate data too large to fit on a single machine and/or analyze with traditional tools. Spark, MapReduce, the Hadoop Ecosystem, and other tools. Prerequisites: DNSC 6211 and ISTM 6212. Recommended background: Understanding of and experience with Linux/OSX; programming concepts; R, Python, SQL, or other programming language; remote computing via SSH; shell executables; version control tools such as Git/GitHub.

DNSC 6279. Data Mining. 3 Credits.

How organizations make better use of increasing amounts of collected data and convert that data into information to support managerial decision making; data mining and data analysis methods and tools for exploring and analyzing data sets; state-of-the-art software tools for developing novel applications. Note that the prerequisite courses must be taken in the order listed. Restricted to students in the master of science in business analytics and graduate certificate in business analytics programs. Prerequisites: DNSC 6203 and DNSC 6206. Credit cannot be earned for this course and DNSC 4279.

DNSC 6280. Supply Chain Analytics. 3 Credits.

Analytical framework for how supply chains function for decision making. Decision models studied include inventory management, integrated transportation, risk pooling, network coordination, and supplier management. Prerequisites: DNSC 6202; or DNSC 6203 and DNSC 6206; or MBAD 6224.

DNSC 6290. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

DNSC 6298. Directed Readings and Research. 3 Credits.

DNSC 6300. Thesis Seminar. 3 Credits.

DNSC 6401. Sustainable Supply Chains. 1.5 Credit.

Introduction to integrating environmental management and sustainability concepts into the operations and supply chain management fields.

DNSC 6403. Visualization for Analytics. 1.5 Credit.

Use of data visualization software technology in the context of exploratory and reporting capabilities. SAS Visual Analytics/Statistics and other methodologies. Various graphical approaches to preparing and visualizing data. Prerequisites: DNSC 6206 and DNSC 6203; or DNSC 6202; or MBAD 6224 (if chosen for the prerequisite, DNSC 6206 must be completed before taking DNSC 6203).

DNSC 6404. Sports Analytics. 1.5 Credit.

Analyzing and leveraging information throughout a sports organization. Strategies for gaining competitive advantage on the field of play; player analysis; and business operations. Prerequisites: DNSC 6206 and DNSC 6203; or DNSC 6202; or MBAD 6224 (note that DNSC 6206 must be completed before taking DNSC 6203).

DNSC 6500. Analytic Skills for Managers. 1 Credit.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to students in the MBA program.

DNSC 8328. Special Topics in Decision Making. 3 Credits.

Special topics and advanced applications, such as catastrophe theory, Markovian decision processes, and Bayesian statistics. May be repeated once for credit.

DNSC 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

DNSC 8392. Computational Optimization. 3 Credits.

The description, design, and programming of efficient computational methods for large-scale optimization problems; introduction to software, optimization solvers, and programming languages used by professionals to code and model industry-size optimization problems.

DNSC 8393. Applied Stochastic Models for Business. 3 Credits.

In-depth coverage of stochastic models and their applications in business and industry; applications to marketing, call center modeling, finance, queuing systems, and operations.

DNSC 8394. Stochastic Programming. 3 Credits.

The intersection of probability theory and statistics with mathematical programming for modeling optimization problems that involve uncertainty. Basic knowledge of linear programming, elementary analysis and probability. Emphasis on algorithmic methods to solve stochastic programming instances.

DNSC 8397. Advanced Special Topics. 1-3 Credits.

Current research and scholarly issues in management science.

DNSC 8998. Advanced Readings and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

DNSC 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

EAST ASIAN LANGUAGE AND LITERATURE (EALL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EALL 1075. East Asian Calligraphy. 3 Credits.

Writing of Chinese characters with traditional writing implements. No knowledge of the language required. Covers the history, aesthetics, and philosophy of East Asian scripts and calligraphy and their relationships to paintings, seal carving, and literature. Same as FA 1075.

EALL 2802. Introduction to Chinese Religions. 3 Credits.

General introduction to Chinese religions focusing on religious doctrines and institutions; religious practices, including ancestor worship, family and communal rituals, spirit possession, fengshui theories, pilgrimage, popular worship of ghosts and gods. (Same as REL 2802).

EALL 3099. Variable Topics. 1-12 Credits.**EALL 3811. Confucian Literature in East Asia. 3 Credits.**

General introduction to the Confucian traditions of literature, with an emphasis on history, historical writings, popular tales, and drama in China, Japan, and Korea. (Same as REL 2811).

EALL 3814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions, how these traditions evolved over time, and the way each culture assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. (Same as REL 2814).

EALL 3814W. Religion and Philosophy in East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and EALL 3814.

EALL 3831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Same As: EALL 6831, REL 2831.

EALL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as REL 3831).

EALL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage. Same as REL 3832.

EALL 3881. Women, Gender, and Religion in China. 3 Credits.

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. Same as REL 3881/WGSS 3881. (Same as REL 3881, WGSS 3881).

EALL 4197. Independent Study. 1-3 Credits.

Departmental approval is required to register.

EALL 5099. Variable Topics. 1-99 Credits.**EALL 6811. Confucian Literature in East Asia. 3 Credits.**

Introduction to Confucian literature in China and other parts of East Asia from earliest times to the present day. Various historical, philosophical, and religious dimensions of Confucian texts and practices. (Same as EALL 3811).

EALL 6831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Students taking the course for graduate credit must complete additional work. (Same as EALL 3831, EALL 3831W, REL 3831W).

EALL 6832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Popular beliefs and practices in the everyday life of China, with consideration of a variety of practices such as ancestor worship, family and communal rituals, spirit possession, fengshui theories, and pilgrimage. Credit cannot be earned for this course and EALL 3832, REL 3832.

EALL 6881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. (Same as EALL 3881, REL 3881, WGSS 3881).

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ECON 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

ECON 1001. Principles of Mathematics for Economics. 3 Credits.

Prepares students for college instruction in principles of microeconomic and macroeconomic theory, as well as instruction in business, social science, and basic science courses that do not require knowledge of calculus. Restricted to students who have successfully completed high school algebra I and basic geometry prior to matriculation and who have taken the Assessment and Learning in Knowledge Spaces (ALEKS) placement examination at GW; No minimum ALEKS score is required for this course.

ECON 1011. Principles of Economics I. 3 Credits.

Major economic principles, institutions, and problems in contemporary life. Microeconomics—supply and demand, the price system and how it works, competitive and monopolistic markets. Credit cannot be earned for this course and HONR 2043.

ECON 1012. Principles of Economics II. 3 Credits.

Continuation of ECON 1011. Major economic principles, institutions, and problems in contemporary life. Topics in macroeconomics, including national income concepts, unemployment and inflation, institutions of monetary control. Prerequisite: ECON 1011 OR HONR 2043. Credit cannot be earned for this course and HONR 2044.

ECON 1099. Variable Topics. 1-36 Credits.**ECON 2101. Intermediate Microeconomic Theory. 3 Credits.**

Analysis of household economic behavior, including derivation of demand functions. Analysis of firm behavior, including derivation of supply frameworks. Demand and supply interaction under various market structures and in factor markets. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2103.

ECONOMICS (ECON)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

ECON 2102. Intermediate Macroeconomic Theory. 3 Credits.

Investigation of the determinants of national income, inflation, unemployment, and interest rates. Alternative business cycle theories, with emphasis on the role of imperfect information, uncertainty, and expectations. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2104.

ECON 2103. Intermediate Microeconomic Theory: A Mathematical Approach. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions, and of firm behavior, including derivation of supply frameworks; demand and supply interaction under various market structures and in factor markets; reliance on constrained and unconstrained optimization techniques when analyzing household and firm behavior. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2101.

ECON 2104. Intermediate Macroeconomic Theory: A Mathematical Approach. 3 Credits.

Development and application of mathematical models of aggregate economic behavior with a focus on the intertemporal choices made by households, firms, and governments. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2102.

ECON 2121. Financial Economics. 3 Credits.

Economic analysis of key financial institutions, markets, and variables. Investigation of the performance of asset markets and the roles of money, credit, interest rates, and exchange rates. Examination of private sector institutions like equity markets and the banking system and the roles of regulators like the Federal Reserve. Credit cannot be earned for both ECON 2121 and ECON/FINA 3301. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044. Credit cannot be earned for this course and FINA 3301.

ECON 2122. Monetary Theory and Policy. 3 Credits.

Analysis of classic and modern monetary theories and their application to current economic conditions. The links between theory and policy. The altered role of money over time; the new money technology. Prerequisites: ECON 1011 and ECON 1012.

ECON 2123. Introduction to Econometrics. 3 Credits.

Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231; and STAT 1051 or STAT 1053 or STAT 1111. Same As: STAT 2123.

ECON 2136. Environmental and Natural Resource Economics. 3 Credits.

Analysis of a variety of environmental and natural resource problems. The economic causes of these problems, their consequences, and the relative merits of alternative policies for dealing with them. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044.

ECON 2148. Survey of Health Economics. 3 Credits.

Economic analysis of the determinants of demand, supply, output, and distribution in the health care sector, with special emphasis on current policy issues of access, quality, and cost. Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 1011 and ECON 1012. Credit cannot be earned for this course and ECON 3148.

ECON 2151. Economic Development. 3 Credits.

Theories and empirical studies of the economic problems of developing countries. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 6250.

ECON 2151W. Economic Development. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ECON 1011 and ECON 1012.

ECON 2157. Urban and Regional Economics. 3 Credits.

Analysis of the determinants of urban growth and development; firm location; the functioning of urban land and housing markets. Prerequisites: ECON 1011 and ECON 1012.

ECON 2158. Industrial Organization. 3 Credits.

Analysis of market structure, conduct, and performance of firms in a market economy, with emphasis on case studies of U.S. industries. Prerequisite: ECON 1011- ECON 1012.

ECON 2159. Government Regulation of the Economy. 3 Credits.

Economic analysis of antitrust and regulation in the American economy. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103 or ECON 2158.

ECON 2160. Surv:Finance&Engineering Econ. 3 Credits.

ECON 2167. Economics of Crime. 3 Credits.

Analysis of crime, both empirical and theoretical, that examines the links between law and economics, the economics of criminal participation, and the economics of law enforcement. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

ECON 2169. Introduction to the Economy of China. 3 Credits.

Background, organization, and operation of the economy. Appraisal of performance and analysis of problems of development. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044.

ECON 2170. Introduction to the Economy of Japan. 3 Credits.

Analysis of the structure and growth of the Japanese economy. Prerequisites: ECON 1011 and ECON 1012.

ECON 2180. Survey of International Economics. 3 Credits.

Basic concepts of international trade and international finance, with emphasis on policy issues. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 6280.

ECON 2181. International Trade Theory and Policy. 3 Credits.

The basis for international trade and the effect of trade on consumers, producers, and workers; causes and effects of the international movement of factors including foreign direct investment, outsourcing, and migration; and the impacts of trade policies and trade agreements. Credit may not be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 3181, ECON 6283.

ECON 2182. International Macroeconomic Theory and Policy. 3 Credits.

Topics include the balance of payments, the determination of exchange rates and prices in open economies, the interaction of the exchange rate and domestic economic activity, international financial markets, and exchange rate and financial crises. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044. Credit cannot be earned for this course and ECON 6284.

ECON 2185. Economic History and Problems of Latin America. 3 Credits.

Analysis of present structures and problems of Latin American economies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044.

ECON 2195W. Special Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ECON 2198. Special Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 and ECON 1012.

ECON 2199. Special Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

ECON 3098. Variable Topics - Regional Economics. 1-9 Credits.

.

ECON 3099. Variable Topics. 1-12 Credits.

ECON 3105. Economic Forecasting. 3 Credits.

Theory and empirical analyses of economic trends and fluctuations; use of economic indicators and simple econometric models. Prerequisites: ECON 1011 and ECON 1012; and ECON 2102 or ECON 2104; and ECON 2123.

ECON 3142. Labor Economics. 3 Credits.

Analysis of labor supply and demand; measurement and theory of unemployment; occupational choice; wage differentials; labor market issues and policies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

ECON 3148. Health Economics. 3 Credits.

Analysis of economic theories and applications to the demand for and supply of health care. Examination of the role of government in health care, public health, and unhealthy behavior (e.g., smoking). Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 2101 or ECON 2103. Credit cannot be earned for this course and ECON 2148.

ECON 3161. Public Finance: Expenditure Programs. 3 Credits.

Economic analysis of government spending and social regulation program; public goods, externalities, income transfer and social insurance programs, and benefit-cost analysis of government programs. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3162. Public Finance: Taxation. 3 Credits.

Economic analysis of taxes. Topics include individual and corporate income taxes, payroll taxes, sales and excise taxes, property and wealth taxes, design of tax systems, and effects of taxation on labor and capital markets. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

ECON 3165. Economics of Human Resources. 3 Credits.

Economic analysis of education and training, labor market discrimination, marriage and the family, and social security. Prerequisites: ECON 1011 and ECON 1012; and ECON 2101 or ECON 2103.

ECON 3181. International Trade Theory. 3 Credits.

Rigorous examination of theories of international trade that explain why countries trade and their gains from trade. Theories include comparative advantage, the factor-proportions theory of trade, and recent theoretical developments. The course also deals with the theory of trade policies, such as tariffs and quotas. Credit cannot be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103; and MATH 1221, MATH 1231, or MATH 1252. Credit cannot be earned for this course and ECON 2181.

ECON 3190. Law and Economics. 3 Credits.

An introduction to the economic analysis of legal systems. How laws alter behavior and how laws might be designed to satisfy efficiency and fairness criteria. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3191. Game Theory. 3 Credits.

Introduction to game theory, covering concepts such as Nash equilibrium, evolutionary games, backward induction and subgame perfection, Bayesian-Nash games of imperfect information, adverse selection, and moral hazard. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3198. Advanced Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON 2104) or ECON 2123.

ECON 3199. Advanced Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON 2104) or ECON 2123.

ECON 4198W. Proseminar in Economics. 3 Credits.

Preparation and presentation of a research paper in any field of economics agreed upon by the student and instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the economics program. Prerequisites: ECON 2101 or ECON 2103; and ECON 2102 or ECON 2104. Recommended background: Prior or concurrent enrollment in ECON 2123 or STAT 2112 or STAT 2118.

ECON 4199. Independent Research - Economics. 3 Credits.

Independent research. Prerequisites: ECON 1011 and ECON 1012; and completion of 12 credits of upper-division economics courses, including ECON 2101 or ECON 2103 and ECON 2102 or ECON 2104, with a minimum grade-point average of 3.4; and approval of an independent research project by a faculty member of the economics department.

ECON 5099. Variable Topics. 1-99 Credits.**ECON 6217. Survey of Economics I. 3 Credits.**

Intermediate-level microeconomic theory for graduate students in fields other than economics.

ECON 6218. Survey of Economics II. 3 Credits.

Continuation of ECON 6217. Intermediate-level macroeconomic theory for graduate students in fields other than economics. (ECON 6217 and ECON 6218—).

ECON 6219. Managerial Economics. 3 Credits.

Intermediate microeconomic theory, with emphasis on production and costs, market structure and pricing, risk analysis, and investment theory and capital budgeting. Credit can be earned for only one of ECON 6217 or ECON 6219.

ECON 6237. Economics of the Environment and Natural Resources. 3 Credits.

Analysis of public policy problems relating to the environment and natural resources development and management. Prerequisite: ECON 6217.

ECON 6239. Economics of Defense. 3 Credits.

Economic analysis applied to national security planning and objectives. Analysis of defense establishment problems, including manpower, the defense industry base, procurement policy.

ECON 6248. Health Economics. 3 Credits.

Demand for medical care; organization of the health care delivery industry; policy issues on regulation, efficiency, and allocation of health care services.

ECON 6249. Industrial Org-TComm Industry. 3 Credits.**ECON 6250. Survey of Economic Development. 3 Credits.**

An introduction to economic problems faced by less developed countries. Emphasis on applications to policymaking and evaluation. Prerequisite: ECON 6217 or ECON 6280 or equivalent. Credit cannot be earned for this course and ECON 2151.

ECON 6255. Economics of Technological Change. 3 Credits.

Economics of research and development; innovation and growth; the role of government in the development and use of new technology.

ECON 6269. Economy of China I. 3 Credits.

Analysis of organization, operation, policies, and problems. Development of the economy since 1949.

ECON 6270. Economy of China II. 3 Credits.

Continuation of ECON 6269. Examination of critical problems of development. Prerequisites: ECON 6269 or permission of the instructor.

ECON 6271. Economy of Japan. 3 Credits.

Analysis of Japanese economic institutions and their contribution to Japan's development.

ECON 6280. Survey of International Economics. 3 Credits.

Introductory international trade and finance, primarily for students in the Elliott School. Topics include the economic effects of trade liberalization and protection, exchange rate determination, and macroeconomic policies in an open economy. Recommended background: introductory microeconomics and macroeconomics. Credit cannot be earned for this course and ECON 2180.

ECON 6283. Survey of International Trade Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Survey of international economics and policy; application of comparative advantage and other arguments for trade; impact of trade on a domestic economy; new arguments for protectionism; and regional trading blocs. Credit cannot be earned for this course and ECON 2181.

ECON 6284. Survey of International Macroeconomics and Finance Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Open economy macroeconomics; international finance; balance of payments accounting; exchange markets; alternative models of balance of payments determination and adjustment; behavior of flexible exchange rate systems. Credit cannot be earned for this course and ECON 2182.

ECON 6285. Economic Development of Latin America. 3 Credits.

Diversity of structures of Latin American economies; import substituting industrialization; inflation; problems of underemployment and income distribution.

ECON 6286. Economic Development of Latin America. 3 Credits.

Continuation of ECON 6285. Structure of trade; protection, exports, and economic development; regional and global economic integration; foreign investment, multinational enterprise, and technology transfer.

ECON 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as GEOG 6290/ SOC 6290/ STAT 6290.

ECON 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as GEOG 6291/ SOC 6291/ STAT 6291.

ECON 6292. Topics in International Trade. 3 Credits.

Topics on international trade issues and policy. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6293. Topics in International Finance. 3 Credits.

Topics on macroeconomic issues and policies in open economies, including exchange rate regimes, determinants of international capital flows, currency crises, financial contagion, current account sustainability and sovereign crises, fiscal problems, and macro-policies in emerging markets and mature economies.

ECON 6294. Topics in Economic Development. 3 Credits.

Topics on economic development issues and policy vary depending on faculty availability and interest. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6295. Special Topics. 3 Credits.

Topics vary, depending on current issues of interest and faculty availability.

ECON 6298. Reading and Research. 3 Credits.

Independent research. Restricted to master's candidates.

ECON 6300. Mathematical Methods for Economics. 3 Credits.

Instruction in the mathematical background required to appreciate and understand the use of mathematics in economic analysis, including multivariable calculus, integral calculus, and linear algebra. Emphasis on techniques for solving systems of equations, unconstrained and constrained optimization, comparative static analysis, difference equations, and analysis of dynamic models and their application to a range of economic problems. Restricted to students in the MA in applied economics program.

ECON 6301. Applied Microeconomic Theory. 3 Credits.

The principal areas of microeconomic theory: consumer demand, decision making under uncertainty, production and costs, game theory, and product markets; both competitive and imperfectly competitive, factor markets, and market failures. Emphasis on the application of theory to microeconomic issues of interest to the private and public sectors, such as product pricing, market entry and deterrence, competition policy, tax policy, and environmental regulation. ECON 6301 may be taken as a corequisite. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

ECON 6305. Applied Macroeconomic Theory. 3 Credits.

Development of an integrated framework for analyzing the determination of macroeconomic variables such as total production, unemployment, interest rates and inflation; interpreting macroeconomic data and macroeconomic policy; linking economic theory and current economic policy. The level of mathematical rigor is above that in a typical intermediate undergraduate macroeconomics course, but below that in a first-year PhD course. ECON 6300 may be taken as a corequisite. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

ECON 6321. Applied Managerial Economics. 3 Credits.

The application of economic principles and methodologies to key management decisions within organizations. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6323. Applied Behavioral Economics. 3 Credits.

The application of economic principles and methodologies to key management decisions within organizations. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6325. Applied Game Theory. 3 Credits.

Equilibrium concepts based on the Nash Equilibrium; application of these concepts to oligopolistic markets, long-term relationships in repeated games, auctions, reputation formation, and others. Recommended background: Prior completion of a course in intermediate microeconomics and one semester of undergraduate calculus.

ECON 6330. Applied Macroeconomics and Money. 3 Credits.

Motivations for employing the modern, expanded tools of a central bank; historical and present limitations. Recommended background: Prior completion of a course in intermediate macroeconomics.

ECON 6335. Applied Financial Derivatives. 3 Credits.

Introduction to the theoretical and practical aspects of financial and derivative markets; application of quantitative and statistical approaches to a variety of problems. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6340. Applied Labor Economics and Public Policy. 3 Credits.

Topics in labor economics, including unemployment, unions, immigration, the minimum wage, pensions, worker mobility, and inequality. ECON 6300 may be taken as a corequisite. Prerequisite: ECON 6300.

ECON 6344. Applied Industrial Organization. 3 Credits.

The behavior of firms and implications of market structure and resource allocation; market participants, the role of transaction costs, product differentiation, imperfect knowledge, and market contestability. Public policy related to monopoly regulation and antitrust law. Use of standard microeconomic empirical and theoretical tools, including an introduction to game theory. Recommended background: Prior completion of a course in intermediate microeconomics and one semester of undergraduate calculus.

ECON 6350. Applied Development Economics. 3 Credits.

The complex causes of underdevelopment and contemporary ideas about how to make development succeed; theory underlying development economics, as well as the analytical tools used in development research. Students are expected to have a working understanding of the concepts of calculus. Recommended background: Prior completion of a course in intermediate microeconomics or intermediate macroeconomics.

ECON 6374. Probability and Statistics for Economics. 3 Credits.

Basics of research design, probability theory, mathematical expectations, univariate and bivariate statistical comparison tools, and a brief introduction to regression analysis. Restricted to students in the MA in applied economics program or with the permission of the instructor.

ECON 6375. Applied Econometrics. 3 Credits.

Introduction to the skills needed to critically evaluate and conduct econometric analysis. Multiple regression analysis; theoretical underpinnings of the ordinary least squares estimator; interpreting regression results and how to address common issues that arise in regression analysis; econometric methods to estimate and test economic models and to address causal questions using observational data. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6374.

ECON 6376. Time Series Analysis. 3 Credits.

The tools required to understand, implement, and interpret common models used in time series econometrics. Emphasis on intuition and application. Students become proficient with performing basic time series analysis and forecasting using time series statistical software. Restricted to students in the MA in applied economics program. Prerequisites: ECON 6305 and ECON 6374.

ECON 6997. Independent Research. 1-3 Credits.

This course is limited to master's degree candidates in Economics. Before permission is granted to register for ECON 6997, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. The written plan must also be approved by the program director. This course may be repeated once for credit but to no more than a total of 6 credits.

ECON 6998. Thesis Research. 3 Credits.**ECON 6999. Thesis Research. 3 Credits.****ECON 8301. Microeconomic Theory I. 3 Credits.**

Theory of unconstrained optimization; optimization subject to equality and inequality constraints, along with applications. Profit maximization, utility maximization and cost minimization, concave and quasi-concave functions, monotone comparative statics, duality theory, the envelope theorem and Le Chatelier principle, and the Kuhn-Tucker conditions.

ECON 8302. Microeconomic Theory II. 3 Credits.

Expected utility theory, general equilibrium in a pure exchange economy and economy with production, welfare theorems and the core theory of the competitive firm in the short run and long run, monopoly and price discrimination, models of oligopoly. Prerequisite: ECON 8301.

ECON 8303. Microeconomic Theory III. 3 Credits.

Theory of games, including Nash equilibrium and its refinements and comparative statics, evolutionary game theory, multistage games and subgame perfection, repeated games and oligopolistic supergames, static and dynamic Bayesian games, auction theory, and bargaining theory. Prerequisite: ECON 8301 and ECON 8302.

ECON 8305. Macroeconomic Theory I. 3 Credits.

Alternative theories of income, employment, and the price level; impact of monetary and fiscal policy; role of expectations in the economy; and microfoundations of macroeconomic models and dynamic analysis.

ECON 8306. Macroeconomic Theory II. 3 Credits.

Extensions of alternative models of income determination, economic growth, and the application of analytical frameworks to the U.S. and international economies. Prerequisite: ECON 8305.

ECON 8307. Macroeconomic Theory III. 3 Credits.

Extensions to stochastic and dynamic general equilibrium frameworks, with emphasis on economic policy. Prerequisite: ECON 8306.

ECON 8323. Monetary Theory and Policy I. 3 Credits.

Theory of monetary policy within the framework of contemporary American central banking.

ECON 8324. Monetary Theory and Policy II. 3 Credits.

Continuation of ECON 8323. Theory of monetary policy within the framework of contemporary American central banking.

ECON 8337. Environmental Economics. 3 Credits.**ECON 8341. Labor Economics I. 3 Credits.**

Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8342. Labor Economics II. 3 Credits.

Continuation of ECON 8341. Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8345. Industrial Organization I. 3 Credits.

Economic theory and evidence regarding industrial market structure, conduct, and economic performance.

ECON 8346. Industrial Organization II. 3 Credits.

Continuation of ECON 8345. Economic issues in antitrust and government regulation of the U.S. economy.

ECON 8351. Development Economics I. 3 Credits.

Major analytic concepts, measures, theoretical models, and empirical methods of development economics.

ECON 8352. Development Economics II. 3 Credits.

Continuation of ECON 8351. In-depth examination of special research topics with emphasis on methods in applied microeconomics.

ECON 8357. Regional Economics. 3 Credits.

Study of regional planning and growth models, including input-output, programming, and econometric models used by planning agencies; analysis of interregional production, trade, migration, firm location, and pricing models.

ECON 8358. Urban Economics. 3 Credits.

Analysis of spatial relationships among economic activities within an urban area including the urban land, labor, and housing markets; urban transportation models; fiscal relationships among jurisdictions.

ECON 8363. Public Finance I. 3 Credits.

Theoretical and empirical analysis of the economic role of the public sector and the effects of public expenditures on resource allocation and income distribution. Topics include public goods, externalities, social insurance, and benefit-cost analysis.

ECON 8364. Public Finance II. 3 Credits.

Theoretical and empirical analysis of the effects of taxes and transfers on the allocation of resources and income distribution. Topics include partial and general equilibrium models of tax incidence, effects of taxes on labor supply, saving, and portfolio choices of households and on investment and financing decisions of firms.

ECON 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as STAT 8375.

ECON 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as STAT 8376. Prerequisite: ECON 8375.

ECON 8377. Econometrics III. 3 Credits.

Econometric methods for systems of equations and panel data, with additional topics that may vary from year to year. Prerequisite: ECON 8376.

ECON 8378. Economic Forecasting. 3 Credits.

Introduction to the theoretical and applied aspects of economic forecasting. Topics include the role of forecasting, univariate time-series analysis, single equation models, multiple series models, and evaluation of forecasts. Prerequisites: ECON 8375 or permission of the instructor.

ECON 8379. Laboratory in Applied Econometrics. 3 Credits.

Application of econometric theory and the use of econometric software; students are required to write an empirical research paper. The course usually deals exclusively with either micro or macroeconomic issues. May be repeated for credit provided the topic differs.

ECON 8381. International Trade Theory. 3 Credits.

International trade theory, including alternative models of the gains from trade and evaluations of the new justifications for protectionism, and analysis of commercial policy, factor flows, and trade and investment with multinational corporations. Prerequisites: Most sections require calculus or permission of the instructor.

ECON 8382. International Finance and Open-Economy Macroeconomics. 3 Credits.

International finance, including alternative models of balance of payments behavior and adjustment, payments accounting, exchange markets, and alternative exchange-rate regimes.

ECON 8383. International Financial Markets. 3 Credits.

Financial economics and international financial markets. Topics include standard asset pricing theory, uncertainty in open economy macroeconomics models, financial market microstructure, and incomplete markets.

ECON 8395. Advanced Special Topics. 3 Credits.

Topics vary depending upon current interests and faculty availability. Open to graduate students in economics. May be repeated for credit.

ECON 8397. Dissertation Proposal Seminar. 3 Credits.

Limited to Doctor of Philosophy candidates in Unit II. Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies.

ECON 8997. Independent Research. 3 Credits.

Prior to enrollment, a written plan of study must be submitted for approval of both the faculty member directing the research and the director of graduate studies for the PhD program or the department chair. May be repeated for a total of 6 credits. Restricted to doctoral degree candidates in economics. Prerequisites: departmental approval.

ECON 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ECON 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

EDUCATIONAL LEADERSHIP (EDUC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EDUC 0920. Continuing Research - Master's. 1 Credit.

.

EDUC 0940. Continuing Research: Doctoral. 1 Credit.

.

EDUC 1099. Variable Topics. 1-36 Credits.**EDUC 2701. Museums as Cultural and Educational Resources. 3 Credits.**

A general introduction to museums as institutions, sources of information, and places for enjoyment. Classes take place on campus and at museums in the metropolitan area. Admission by permission of instructor.

EDUC 3002. Special Workshops. 3 Credits.**EDUC 5099. Variable Topics. 1-99 Credits.****EDUC 6100. Experimental Courses. 1-12 Credits.**

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with a program advisor.

EDUC 6112. Foundations of Assessment, Testing, and Measurement in Education. 3 Credits.

Foundations of assessment, testing, and measurement with a focus on basic statistical concepts for assessment data literacy, research design issues for assessments, a review of other educational assessments (IQ and psychological, personality and diagnostic), and other issues with assessment and testing including technology, ethical, and legal issues.

EDUC 6114. Introduction to Quantitative Research. 3 Credits.

Development of a conceptual understanding of research design and quantitative analysis options for the consumer of research. Appropriate use of vocabulary and interpretation of research findings. Critique of research articles and/or development of a small-scale proposal.

EDUC 6116. Introduction to Educational Statistics. 3 Credits.

Fundamentals of descriptive statistics and hypothesis testing; introduction to inferential statistics and research design, distinguishing between nonexperimental, quasi-experimental, and true experimental designs. Designed for those with little preparation in quantitative methods or who are not prepared for Educ 8120.

EDUC 6232. Supervision of Curriculum, Instruction, and Assessment. 3 Credits.

Preparation to lead and assess curriculum, instruction, and assessment practices in educational settings.

EDUC 6234. Foundations of K-12 Educational Leadership. 3 Credits.

Function, processes, and best practices involved in school principal leadership.

EDUC 6236. School Law and Policy. 3 Credits.

The legal basis of education and public schools in the United States. Constitutional provisions and federal statutes that guide school law. Legal factors that influence school policy. Consideration of practical school situations for legal implications, development of skills to research legal issues affecting schools, and preventive law measures.

EDUC 6238. Leadership for Equity and Social Justice. 3 Credits.

Cultural diversity and social justice in the context of teaching, learning, and leadership practice; systemic inequities in schools and how inclusive and socially just leadership practices can address these inequities.

EDUC 6240. Instructional Leadership for School Improvement. 3 Credits.

Introduction to the theory and practice of school improvement with a focus on the role of school leaders in the process.

EDUC 6242. Administrative Issues in Education. 3 Credits.

The impact of major social, political, economic, and education issues on the role of school leaders and the delivery and quality of programs and services.

EDUC 6244. School, Family, and Community Engagement. 3 Credits.

The purpose, scope, essential elements, and impact of a successful school-community relations program; community power structures, the roles of policy and leadership, communication techniques for interacting with various audiences and the media, and evaluation of public relations and marketing for educational institutions.

EDUC 6246. School Finance and Resource Management for School Leaders. 3 Credits.

Theory and practice of personnel and resource management for school administrators; selection, compensation, evaluation, promotion, retention, and removal of staff; principles of effective financial and resource management, including accounting, budgeting, and reporting; technology acquisition, building operations, and facilities management.

EDUC 6252. Human Relations Diversity. 3 Credits.

Application of current theory and research findings in human relations to staff motivation, change, conflict management, and communication techniques for working with individuals and groups within organizations.

EDUC 6256. School Business Management. 3 Credits.

Management and control of the business functions of school districts. Assessing, planning, developing, and presenting educational budgets; the legal contexts affecting school business management. Risk management and school-site budgeting.

EDUC 6258. School Finance. 3 Credits.

The financing of public elementary and secondary education in the United States; current revenue sources, distribution decisions, and trends in the fiscal operations of schools. Litigation, finance policies, and equitable investments of public monies.

EDUC 6260. Practicum in Supervision. 3-6 Credits.

Practical experience in supervision of instruction. Admission by permission of instructor.

EDUC 6262. Internship in Supervision and Instructional Leadership. 3-6 Credits.

Service in a school situation directed by the University's faculty and school systems; integration of theory and practice.

EDUC 6264. Problems and Practices in Staff. 3 Credits.

Application of principles and practices concerned with change and evaluation of educational administration.

EDUC 6270. Education Policy for School Leaders. 3 Credits.

Overview of education policy for educational leaders; economic and social dimensions of education policy and analysis of the policy process; policy development, planning, implementation, analysis, and evaluation.

EDUC 6272. Leading Evidence-Based Action Research for School Improvement. 3 Credits.

Culminating experience implementing the design and leadership of an action research project at a school or central office location. Gathering and analysis of data, reviewing the literature, developing and implementing a program to address an identified area of need; and measuring the program's effectiveness and reflecting on/modifying it based on results. Prerequisite: EDUC 6287.

EDUC 6287. Internship: Administration. 1-6 Credits.

Standards-based work in a practical setting, planned and guided cooperatively by GW and personnel in the placement school district.

EDUC 6314. History of American Education Reform. 3 Credits.

An examination of how evolving social, economic, and political forces have propelled and opposed American education reform efforts throughout history.

EDUC 6368. Leadership and Education. 3 Credits.

A general introduction to issues of leadership applicable to education settings and to key features of educational organizations; leadership as a process and a set of skills and how its styles interact with organizational contexts.

EDUC 6371. Education Policy. 3 Credits.

An introduction to the development, implementation, and assessment of education policies at national, state, and local levels.

EDUC 6381. Program Evaluation: Theory and Practice. 3 Credits.

Introduction to the theory of social program evaluation, alternative evaluation models and methodologies, and the political and social contexts of evaluation.

EDUC 6388. Analysis of Education Policy Issues. 3 Credits.

Covers a range of education policy options, assessing their advantages and disadvantages based on evidence, and drawing implications for policy formulation. A critical approach is applied to the assigned readings, questioning the sources of evidence, appropriateness of analysis, and validity of the findings. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 6392. Practicum in Educational Policy Program Evaluation. 3-6 Credits.

Supervised practical experience in field placements. Admission by permission of instructor. Prerequisite: EDUC 6381.

EDUC 6401. Foundations in Educational Technology. 3 Credits.

Theory and practice of educational technology. Key characteristics of different media, principles of application, and issues concerning their appropriate use.

EDUC 6402. Trends and Issues in Educational Technology. 3 Credits.

The research and practice surrounding the use of computers in educational and training settings. Students acquire the practical knowledge necessary to the development and evaluation of computer-related curricula through projects and case studies.

EDUC 6403. Educational Hardware Systems. 3 Credits.

Design and implementation of educational hardware systems, including computers and computer networks.

EDUC 6404. Managing Computer Applications. 3 Credits.

For managers and prospective managers in education and human services who are concerned with the automation of their operations. Basic principles needed to design, implement, and manage an information system. Admission by permission of instructor.

EDUC 6405. Developing Multimedia Materials. 3 Credits.

The design, development, integration, and use of multimedia resources in education and training settings. Students examine and critique multimedia technologies, develop instructional materials, and create a unit or module that applies instructional design theory.

EDUC 6406. Instructional Design. 3 Credits.

Designing, implementing, and evaluating instructional strategies for learners. Assessing needs, writing objectives, selecting curriculum/content, selecting and implementing methods and techniques, selecting appropriate devices and evaluating instruction.

EDUC 6407. Design and Implementation of Educational Software. 3 Credits.

Theory and practice of creating educational software; psychological basis of using software in learning; instructional programs; authoring tools; artificial intelligence applications; interactive media. Students design and evaluate an educational program. Prerequisite: EDUC 6401 or permission of instructor.

EDUC 6421. Critical Issues in Distance Education. 3 Credits.

Historical, conceptual, theoretical, and practical issues associated with distance education as a foundation for research and practice in the domain of distance education as well as adult learning, educational systems design, and school administration and policy.

EDUC 6422. Instructional Needs Assessment and Analysis. 3 Credits.

An introduction to the role of instructional needs assessment and analysis. The design and development of instruction. Key elements of the instructional design cycle, including data analysis.

EDUC 6423. Technology and Disabilities. 3 Credits.

Assistive technology as it impacts the lives of people with disabilities, including the performance of tasks related to employment, education, and activities of daily living.

EDUC 6424. Learning Technologies and Organizations. 3 Credits.

The role of learning technology in organizations, learning in the workplace, and knowledge management in corporations, schools, and universities.

EDUC 6425. Developing Effective Training with Technology. 3 Credits.

Development of skills in planning and producing effective technology-rich training that meets institutional and organizational needs.

EDUC 6426. Computer Interface Design for Learning. 3 Credits.

Human-computer interaction, both in general and with emphasis on issues in education. General design aspects; theories, principles, and guidelines related to human-computer interaction.

EDUC 6427. Advanced Instructional Design. 3 Credits.

Development of a prototype instructional design project and documentation report requiring rapid design and development strategies. Prerequisites: EDUC 6406.

EDUC 6428. Developing Digital Professional Portfolios. 3 Credits.

Students create a digital professional portfolio, using advanced skills in the design, development, integration, and use of multimedia resources.

EDUC 6441. Internship in Educational Technology Leadership. 3 Credits.

Students are assigned to a cooperating agency and work in consultation under the guidance of the course instructor. Admission by permission of instructor.

EDUC 6442. Educational Technology Leadership Master's Project. 1-6 Credits.

Students design, develop, implement, and evaluate an individual project. Admission by permission of instructor.

EDUC 6500. Introduction to Student Affairs and Higher Education. 3 Credits.

Introduction to the study of higher education and the student affairs profession, including the ways in which broader aspects of higher education research, theory and policy inform the work of student affairs practitioners. Historical and current contexts of American higher education, the academic community, and existing issues and emerging challenges surrounding the practice of student affairs in the current higher education landscape.

EDUC 6510. Administration of Higher Education. 3 Credits.

Government, organization, and administration of colleges and universities; duties of trustees and administrators.

EDUC 6520. Foundations of College Student Development. 3 Credits.

College student development theories, practices, and problems, including historical overview and human development theories related to college students.

EDUC 6525. Managing College Student Services Programs. 3 Credits.

An overview of student affairs administrative practices, including planning models, budgeting, policy development, program development, facility management, and team building. Admission by permission of instructor.

EDUC 6530. Intercultural Campus Leadership. 3 Credits.

This course is designed to explore intercultural leadership skills through the lens of understanding group identity differences, multicultural competence, and the foundations of effective advocacy for social justice. Lectures, readings, class discussions, written assignments, and experiential activities are used to promote an understanding of intercultural leadership skills to help create inclusive learning environments. The course explores how oppression and privilege relate to differences based on gender, race and ethnicity, sexual orientation, and (dis)ability. Students also study how these identities intersect with each other.

EDUC 6540. Group and Organizational Theories. 3 Credits.

Review of major organizational theories inside and outside higher education, including systems, institutional, cultural, cognitive, environmental, ecological, as well as power and influence.

EDUC 6550. Assessment in Higher Education. 3 Credits.

Key concepts in the assessment of outcomes in higher education and in student affairs. History of the assessment movement in higher education, strategies and methods for measuring outcomes of the college experience, identifying the limitations of operational processes that can be improved, and current issues in measuring student success in higher education.

EDUC 6555. Higher Education Policy. 3 Credits.

Assessment of policies that impact higher education, including the relationship of K-12 policy to higher education. Policy networks and mechanisms of policymaking. Policy development and assessment.

EDUC 6560. Legal Problems in Higher Education. 3 Credits.

Investigation of legal problems in higher education related to the legal structure of higher education, religious concerns, students, faculty, and academic programs.

EDUC 6565. Financing Higher Education. 3 Credits.

Analysis of private, state, federal, and other revenue sources; strategic planning, program budgets, and financial methods and practices.

EDUC 6570. Educational Planning. 3 Credits.

An examination of the planning movement in education: its historical development and the recent shift in premises, context, and expectations. Different approaches to the planning process; its role in research; and overview of main analytical techniques currently in use.

EDUC 6572. Dynamics of Change. 3 Credits.

An analysis of the process of change, particularly as it relates to educational policy. Comparison of theories; analytical tools; historical precedents; examples of federal education policies.

EDUC 6575. Personnel Administration. 3 Credits.

Human resource management: planning, recruitment, selection, placement and induction, staff development, rewards, and negotiations. Issues and legislation that influence personnel functions and policy; communication skills for human resource leadership.

EDUC 6579. Managing Multicultural Environments. 3 Credits.

Application of multicultural research in identifying key elements for managing diverse environments, communicating with families, planning professional development activities, and increasing student learning.

EDUC 6585. Master's Internship in Higher Education Administration. 3-6 Credits.

Supervised field experience in higher education settings. Admission by permission of instructor.

EDUC 6590. Capstone in Higher Education Administration. 0 Credits.

The capstone is designed to promote the integration of the core curriculum and practitioner experiences of the Master's degree program in Higher Education Administration, and to prepare for student transition to a professional student affairs or academic affairs position following completion of the degree. Restricted to students in the MAEd&HD in higher education administration program.

EDUC 6601. International and Comparative Education. 3 Credits.

Theoretical foundations of comparative and international education; systematic investigation of the structure and practices of selected representative school systems in different parts of the world. Emphasis on development of methodologies for comparative study.

EDUC 6602. Regional Studies in International Education. 3 Credits.

In-depth study of education in a selected region of the world. Structures and issues facing education systems in social, political, economic, cultural, and historical context. Prospects of education for human national development. May be repeated for credit provided the region differs.

EDUC 6610. Programs and Policies in International Education. 3 Credits.

Overview of policies and programmatic responses to issues in international education. Topics include education and development, international higher education and student services, and education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6615. Internationalizing U.S. Schools. 3 Credits.

EDUC 6620. Strategies and Analysis in International Education. 3 Credits.

Strategies for improving education in international contexts. Topics include education and development, international higher education and student services, or education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6630. International Experiences. 1-6 Credits.

Study and research in a foreign country as part of a group program. Admission may require permission of the instructor.

EDUC 6631. Internship: International Education. 1-6 Credits.

Service in an international education institution or related individually designed program planned to enable the student to connect theory to practice. Admission may require permission of instructor. May be repeated for credit.

EDUC 6640. Selected Topics in International Education. 3 Credits.

Current trends, themes, and issues in international education. May be repeated for credit provided the topic differs.

EDUC 6650. Education and National Development. 3 Credits.

The role education plays in the process of national development in advanced industrial societies and societies moving to industrialism.

EDUC 6660. Capstone in International Education. 3 Credits.

Review of core topics in international education and completion of major supervised project or paper. Taken near the end of the master's program in lieu of the Comprehensive Examination.

EDUC 6701. Museums as Institutions I: Fundamentals. 3 Credits.

An overview of the museum as an environment for learning, considering the influence of institutional history and organizational structure on the museum's mission of serving the public.

EDUC 6702. Facilitating Museum Learning I: Fundamentals. 3 Credits.

Theory of and practice in the development of communication skills in the museum. Educational concepts; teaching strategies and techniques; institutional liaison and group process.

EDUC 6703. Museum Audiences. 3 Credits.

A survey of the museum's diverse audience, emphasizing implications for effective programming, with attention to audience research.

EDUC 6704. Facilitating Museum Learning II: Field Placement and Seminar. 3-6 Credits.

Supervised placement in local educational institutions. On-campus seminar focuses on human development and learning theory. Placement requires a 16 hour per week commitment.

EDUC 6705. Museums as Institutions II: Field Placement and Seminar. 6 Credits.

Supervised placement in area museums and related organizations where students carry out projects in cooperation with the site. On-campus seminar includes presentations by leading practitioners. Placement requires a commitment of 32 hours per week. Restricted to museum education students. Prerequisites: EDUC 6701, 6702, 6703 and 6704.

EDUC 6706. Evaluating Museum Learning. 3 Credits.

Evaluation and research methods appropriate to the museum setting. Review of research on museum audiences; designing exhibition and program evaluations.

EDUC 6707. Museum Proposal Writing. 3 Credits.

Preparation of proposals for museums seeking support from public and private funders. Proposals are developed in cooperation with local museums.

EDUC 6709. Interpretation in the Historic House Museum. 3 Credits.

Seminar integrating advanced practices of museum education with current scholarship in architectural history, material culture, and social history. Extensive use of Washington museum resources. Same as AMST 6709. Admission by permission of instructor.

EDUC 6710. Museums and Technology. 3 Credits.

Applications of technology that link the public with the museum: Internet exhibitions, interactive computer programs, video conferencing, the electronic classroom. Guest lectures, field trips, and group projects.

EDUC 6711. Museum as a Learning Environment. 3 Credits.

Exploration of why visitors frequent museums and how they create personal meaning. Approaches to support the audience's engagement with the museum's resources.

EDUC 6801. Prelude to Experiential Education and Jewish Cultural Arts. 1 Credit.

Theme-based orientation to the program in experiential education and Jewish cultural arts and to the metropolitan Washington, DC, Jewish community. Includes extensive site visits. Restricted to students in the experiential education and Jewish cultural arts program.

EDUC 6802. Finale in Experiential Education and Jewish Cultural Arts. 1 Credit.

Theme-based orientation to the program in experiential education and Jewish cultural arts and to the metropolitan Washington, DC, Jewish community. Students plan and implement extensive site visits. Restricted to students in their final semester of the experiential education and Jewish cultural arts major. Prerequisite: EDUC 6801.

EDUC 6803. Introduction to Experiential Jewish Education. 4 Credits.

Introduction to the theory and practice of experiential Jewish education in a variety of settings, addressing the relationship of education to identity development. Includes a fieldwork experience.

EDUC 6804. Applied Research in Experiential Jewish Education. 3 Credits.

Overview of research methods employed in experiential Jewish educational settings and their various applications to practice. Prerequisite: EDUC 6803 Introduction to Experiential Jewish Education.

EDUC 6805. Capstone in Experiential Education and Jewish Cultural Arts. 3 Credits.

Six-week, full-time internship at leading Jewish cultural institutions in the United States and abroad. Restricted to students in the experiential education and Jewish cultural arts program.

EDUC 6806. Jews, Social Justice, and Activism. 3 Credits.

Critical examination of the important place of social activism, civic engagement, and community service in American Jewish life.

EDUC 6807. Fieldwork in Experiential Jewish Education. 3 Credits.

Sixteen-week, part-time internship at leading Jewish organizations or institutions. Restricted to students in the master's degree in experiential Jewish education program.

EDUC 6810. Paideia and Jewish Education. 2 Credits.

Analysis of the ancient Greek concept of paideia and its implications for the theory and practice of contemporary experiential Israel education.

EDUC 6811. Foundations of Contemporary Israel. 3 Credits.

Key questions and concepts surrounding Israel's history, and Israeli society, politics, and culture, from 1948 to present. Restricted to students in the graduate certificate in Israel education program.

EDUC 6812. American Jews and Modern Israel. 2 Credits.

The relationships of young American Jews, and the American Jewish community more broadly, to the modern State of Israel, particularly in the context of new political and ideological dynamics in the United States and Israel.

EDUC 6813. The Israel Educational Experience. 4 Credits.

Held in Israel over an eight-day period. Students learn about issues that characterize contemporary Israeli society and apply this learning to educational programming. Restricted to students in the graduate certificate in Israel education program.

EDUC 6840. Introduction to Improvement Science in Education. 3 Credits.

The process and application of improvement science to complex educational problems.

EDUC 6841. Inquiry Tools Supporting Improvement Science. 3 Credits.

The means by which improvement science uses and adapts to a range of established qualitative and quantitative tools, processes, and methods to support educator inquiry within the context of K-12 school settings.

EDUC 6842. Teacher Leadership through Improvement Science. 3 Credits.

Improvement science practices that facilitate teacher leadership; dispositions, knowledge, processes, and relationships supportive of teacher leaders working in different school contexts.

EDUC 6843. Improvement Science as Educational Change. 3 Credits.

Improvement science as a staged, interpretive educational change process; diverse role group perspectives; past and current reforms efforts.

EDUC 6998. Thesis Research. 3 Credits.

Thesis research.

EDUC 6999. Thesis Research. 3 Credits.

EDUC 8100. Experimental Courses. 1-12 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 8101. Research and Independent Study. 1-3 Credits.

Review of literature. Preparation of a dissertation proposal and a manuscript of publishable quality.

EDUC 8110. Advanced Study: Ideas, Issues, and Practices in Education. 3 Credits.

For precandidates for the EdD Alternative means of responding to the complexities of the educational process. Topics vary but concern education as an individual process and as sociocultural preservation and renewal. May be repeated for credit.

EDUC 8120. Group Comparison Designs and Analyses. 3 Credits.

Designs and analyses to assess differences for more than two groups when compared on one dependent variable. Fixed, random, and mixed effects ANOVA and ANCOVA models within factorial design, multiple comparison tests, and introduction to regression analysis. Prerequisites: EDUC 6116.

EDUC 8122. Qualitative Research Methods. 3 Credits.

A general introduction to several major qualitative research traditions (e.g., biography, grounded theory, ethnography, phenomenology, and case study). Application of qualitative research design and procedures, including preliminary data collection, analysis, and writing.

EDUC 8130. Survey Research Methods. 3 Credits.

Techniques used to collect an array of information from a large number of people through structured interviews and mailed, e-mailed, or web-based questionnaires. Defining the research question and design; sampling, survey development, data collection procedures, pretesting, and data handling. Prerequisite: EDUC 8120, EDUC 8122.

EDUC 8131. Case Study Research Methods. 3 Credits.

Techniques used to examine one or a few complex cases, collecting data from several types of sources and by several methods. The course covers design, data collection, and data analysis/integration. Prerequisite: EDUC 8122.

EDUC 8140. Ethnographic Research Methods. 3 Credits.

Techniques used to examine systematically the contemporary daily life of a given group in its natural setting, focusing on culture—the recurring patterns of thought and social relations. Issues of research design and data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8142. Phenomenological Research Methods. 3 Credits.

Techniques used to elicit and recognize perceptions, interpretations, motives, expectations, and imaginations. The framing of appropriate research questions, data collection and analysis, and the statement of conclusions. Prerequisite: EDUC 8122.

EDUC 8144. Discourse Analysis. 3 Credits.

Techniques used to examine verbal and nonverbal communication to understand identity, beliefs, intentions, relationships, and culture. The framing of appropriate research questions; data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8147. Critical Methodologies in Educational Research. 3 Credits.

Theoretical foundations of multiple critical research traditions; researcher responsibility, power and the construction of knowledge; scholarly research in design, practice, and report, drawing upon relevant critical epistemologies. Prerequisite: EDUC 8122.

EDUC 8148. Qualitative Data Collection. 3 Credits.

Identification of appropriate data sources, participant recruitment, mechanics of data collection, and research protocol development. Conducting observations, interviews, focus groups, and other ethnographic methods. Prerequisite: EDUC 8122.

EDUC 8149. Qualitative Data Analysis. 3 Credits.

Analysis of ethnographic and other forms of qualitative data in educational research. Interpretive strategies for analyzing qualitative data. Prerequisite: EDUC 8122.

EDUC 8170. Educational Measurement. 3 Credits.

Classical and modern measurement theory, item response theory, and factor analysis. Educational and psychological instrument development and validation. Interpretation of scale scores and assessment of instrument adequacy. Prerequisites: EDUC 8120. Recommended background: EDUC 6112 or equivalent.

EDUC 8171. Predictive Designs and Analyses. 3 Credits.

Techniques used to assess how independent variables are related to one dependent variable. Multiple linear regression, logistic regression, ordinal regression, and non-linear regression. Appropriate research questions, data interpretation, and design within generalized linear modeling. Prerequisites: EDUC 8120.

EDUC 8172. Multivariate Analysis. 3 Credits.

Techniques for assessment of relationships among multiple independent variables and dependent variables. Multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), discriminant analysis, and exploratory factor analysis. Prerequisite: EDUC 8171.

EDUC 8173. Structural Equation Modeling. 3 Credits.

Multivariate techniques used for assessment of structural (causal) relations among latent (unobserved) variables with multiple observed indicators: observed and latent variable path analysis and confirmatory factor analysis. Latent means analysis and latent growth modeling. Prerequisite: EDUC 8171.

EDUC 8174. Hierarchical Linear Modeling. 3 Credits.

Techniques appropriate for analyses of hierarchically structured data. Theoretical concepts of hierarchical linear models (HLM); social and behavioral research; popular HLM software such as HLMwin; and large scale datasets. Prerequisites: EDUC 8171.

EDUC 8175. Item Response Theory. 3 Credits.

Conceptual, mathematical, and applied issues in item response theory. Dichotomous models, item response theory software used for estimation and model fit, test construction, differential item functioning, and item response theory equating. Prerequisites: EDUC 8170.

EDUC 8177. Assessment Engineering. 3 Credits.

In-depth coverage of topics related to assessment engineering, including cognitive model development using cognitive diagnostic assessment and formative assessment modeling, item model development using auto item generation, and automated test assembly and psychometric model development using computer adaptive testing. Introduction to current assessment engineering and educational big-data analytic applications. Prerequisites: EDUC 8170.

EDUC 8179. Capstone Project in Assessment, Testing, and Measurement in Education. 3,6 Credits.

Multifaceted assessment that serves as a culminating academic and intellectual experience for students during the end of their academic program. The capstone project is similar to a thesis or dissertation but may take a variety of forms. Permission of the instructor required prior to enrollment. Prerequisite: EDUC 8170.

EDUC 8240. Organizational Theory and Leadership in Education. 3 Credits.

Theories and models examining how pk-12 school organizations are part of larger bureaucratic structures and how micro processes that help the overall organization function occur. Restricted to students in the EdD in educational leadership and administration program.

EDUC 8268. Leadership Theory for Education. 3 Credits.

Historical and contemporary theories of leadership through the lens of education; leadership, adaptive leadership, and power analysis.

EDUC 8270. Fundamentals of Educational Planning. 3 Credits.

The planning movement in education at the federal, state, division, and building levels; strategic, short-term, and long-term planning processes for school and educational leaders.

EDUC 8271. Education Policy for School Leaders. 3 Credits.

The interactions of policy development, interpretation, and implementation at different levels of the system; how policy actors draw upon different values to advance and critique current problem formulations and related solutions in education.

EDUC 8276. Seminar: Administration and Supervision. 1-12 Credits.**EDUC 8277. Advanced Instructional Leadership for School Improvement. 3 Credits.**

Introduction to the role of the instructional leader from school and district perspectives. Students gain theoretical and practical skills and knowledge in areas including instructional improvement; education reform; accountability; conditions for improvement; and planning and sustaining change.

EDUC 8280. Critical Review of Educational Leadership Literature. 1,3 Credit.

The techniques, tools, and presentation of critical reviews and syntheses of educational literature used to inform forthcoming research. Systematic mapping of what is known and deriving research questions, conceptual frameworks, and applicable methods. Prerequisite: an approved dissertation topic or permission of instructor.

EDUC 8320. The Politics of Education. 3 Credits.

Examination of the contextual factors (political, economic, and historical) and the nature of political decision making on education issues, primarily at the state and local level. Prerequisite: EDUC 6371.

EDUC 8321. Economics of Education. 3 Credits.

Application of economic theory and analysis to education problems and policies; analysis of contemporary education reforms adopted to improve educational outcomes. Prerequisites: EDUC 6371 and EDUC 8171.

EDUC 8322. Education Policy Implementation. 3 Credits.

The evolution and implementation of education policies. Analysis of policy implementation at varying governance levels and types of educational systems. Policy is analyzed as a process and as it interacts with organizational, social, economic, and political factors. Prerequisites: EDUC 6371.

EDUC 8323. Policies of Education Equity. 3 Credits.

Analysis of the development, implementation, and evaluation of education equity policies, with consideration of their context, formulation, and application. Prerequisites: EDUC 6371 and EDUC 8171.

EDUC 8325. Policy Design: Accountability in Education. 3 Credits.

Models of educational accountability and their implementation within the broader U.S. education system; approaches to accountability, including contemporary policies such as market-based systems, regulatory approaches, and professional accountability. Prerequisite: EDUC 6371.

EDUC 8329. Seminar in Program Evaluation. 3 Credits.

Contemporary problems and issues in evaluation of social programs: design, implementation, analysis, and utilization. Prerequisite: EDUC 6381 and approval of instructor.

EDUC 8334. Doctoral Internship in Educational Policy. 3-6 Credits.

Methods of analysis used in the study of educational policy issues. Case studies on a range of policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 8340. Methods of Policy Analysis in Education. 3 Credits.

Methods of analysis used in the study of educational policy issues; policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisites: EDUC 6116 and EDUC 6371.

EDUC 8345. Advanced Studies in Educational Policy Analysis. 1-12 Credits.

The process by which education policies are designed, adopted, and implemented by education systems. Case studies of specific policies, examining their assumptions and objectives, the criteria for assessing their effectiveness, and their governance at federal, state, and local levels. Prerequisite: EDUC 6371, EDUC 8120, or permission of instructor.

EDUC 8505. Seminar: Higher Education Administration. 1-12 Credits.**EDUC 8510. Administration and Organization of Higher Education. 3 Credits.**

Organizational characteristics and administrative nature of colleges and universities; challenges and opportunities for governance; cultures, norms, and changes in higher education organizations.

EDUC 8515. Comparative and International Higher Education. 3 Credits.

An exploration of cultural, theoretical, and disciplinary perspectives of international higher education through a comparative lens.

EDUC 8520. Theories for Research on College Students. 3 Credits.

Theoretical approaches used to study college students; competing frameworks and the contributions of emergent approaches to understanding college students.

EDUC 8525. College and University Curriculum. 3 Credits.

Development, patterns, creative design, issues, problems, evaluation, and trends in the higher education curriculum.

EDUC 8530. Leadership in Higher Education. 3 Credits.

Cognitive leadership theory as articulated in higher education: what leadership is, how it works, how it is practiced, how it is considered by scholars and practitioners, and how it is researched.

EDUC 8540. History of Higher Education. 3 Credits.

History, philosophy, scope, purpose, present status, programs, and trends in higher education in the United States.

EDUC 8555. Policy Analysis in Higher Education. 3 Credits.

The intricacies of major policy debates in higher education, focusing on policy framing, goals, solutions, and implementation.

EDUC 8560. Case Studies in Higher Education Administration. 3 Credits.

An analysis of case studies related to administrative functions in colleges and universities.

EDUC 8565. College and University Governance. 3 Credits.

Organizational and administrative structures, patterns, and relationships in higher education.

EDUC 8566. Higher Education Finance. 3 Credits.

Fundamental concepts in higher education finance; state finance and policy issues; and the impact of financial decisions made at the federal, state, and institutional levels on faculty and students.

EDUC 8580. The Community/Junior College. 3 Credits.

The two-year college as it relates to secondary education, four-year colleges, and universities. Objectives, curricula, students, faculty, legal concerns, and special problems of two-year colleges.

EDUC 8582. Administration and Governance of Two-Year Colleges. 3 Credits.

A study of the community/junior college, focusing on administrative and governance patterns and national, regional, state, and local influences, as well as the theory and structure of two-year college organization.

EDUC 8585. Doctoral Internship in Higher Education Administration. 3-6 Credits.

Service in a higher education situation directed by the University and the cooperating institution to integrate theory and practice. Admission by permission of instructor.

EDUC 8594. Current Issues in Higher Education. 3 Credits.

Analysis of contemporary issues in higher education practice and scholarship.

EDUC 8701. Education Policy Design. 3 Credits.

Processes and practices of policy planning and design in a system of federal, state and local control; effect of federal actions on the work of state and local educators; the state role in shaping federal education policies.

EDUC 8702. Evidence in Education Policymaking. 3 Credits.

Review of theory and research on evidence-informed policymaking and the practical skills of drafting evidence-informed policy initiatives; integrating research with other types of evidence to understand policy problems and formulate responses.

EDUC 8703. Implementation for Education Policymakers. 3 Credits.

The challenge of designing and implementing policy with attention to implementation. Review of research on the organizational, social, and political factors that influence implementation and case study analyses of successful and unsuccessful policy implementation.

EDUC 8704. Advocacy and Strategic Communications. 3 Credits.

The ways in which public discourse and political advocacy shape policy making and implementation; framing policy issues, advancing policy objectives, and engaging stakeholders and members of the media.

EDUC 8998. Pre-Dissertation Seminar. 3-6 Credits.

Required of all departmental EdD degree candidates. Approval of the dissertation research proposal by the dissertation committee is necessary for successful completion of the seminar. Admission by permission of instructor.

EDUC 8999. Dissertation Research. 3,6 Credits.

Prerequisite: EDUC 8998.

ELECTRICAL AND COMPUTER ENGINEERING (ECE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ECE 1010. Introduction to Electrical and Computer Engineering I. 1 Credit.

Basic and emerging concepts in electrical and computer engineering; professional literature and resources; technical writing, speaking, and presentation skills. Practical experiments and projects. (Fall, Every Year).

ECE 1020. Introduction to Electrical and Computer Engineering II. 1 Credit.

Continuation of ECE 1010. Basic and emerging concepts in electrical and computer engineering; professional literature and resources; technical writing, speaking, and presentation skills. Practical experiments and projects. (Spring, Every Year).

ECE 1099. Variable Topics. 1 Credit.**ECE 1120. C Programming for Electrical and Computer Engineering. 3 Credits.**

Basic programming concepts including algorithmic thinking and structured programming, control flow, data types, pointers, functions, algorithms, I/Os, threads, and performance evaluation and optimization; concurrency and multicore programming using threads, processes as well as parallel C programming paradigms; controlling hardware devices and fine control via interfacing with assembly language. Credit cannot be earned for both this course and CSCI 1121. (Spring, Every Year) Credit cannot be earned for this course and CSCI 1121.

ECE 1125. Data Structures and Algorithms for ECE. 3 Credits.

Fundamentals of algorithms and data structures for electrical and computer engineering; techniques to solve problems through programming in C/C++ languages, linked lists, stacks, queues and trees; searching methods such as binary trees, hashing, and multi-way trees; design and analysis of algorithms and their space and time complexity. Prerequisite: ECE 1120. (Fall, Every Year).

ECE 2110. Circuit Theory. 4 Credits.

Circuit elements, techniques of circuit analysis; circuit theorems; operational amplifiers; RLC circuits; natural and step responses; series, parallel and resonant circuits; sinusoidal steady-state analysis; phasors; power calculations; transformers; two-port circuits. CAD tools used in circuit projects. Corequisites: APSC 2113; and PHYS 1022 or PHYS 1026. (Fall and spring, Every Year).

ECE 2115. Engineering Electronics. 4 Credits.

Solid state devices used in electronic engineering; physics of their operation; application to electronic circuits. Application of these elements in power supplies and in linear amplifiers. Design concepts through use of SPICE and graphical techniques. Prerequisite: ECE 2110. (Spring, Every Year).

ECE 2120. Engineering Seminar. 1 Credit.

A detailed view of the electrical and computer engineering professions. Departmental and other speakers discuss facets of ECE, engineering education, and other department, college, or university topics of interest. (Fall, Every Year).

ECE 2140. Design of Logic Systems. 4 Credits.

Boolean algebra; combinational and sequential circuits; minimization techniques; design and build logic subsystems, such as decoders, multiplexers, adders, and multipliers. Use of CAD tools. Prerequisites: ECE 2110. Corequisites: ECE 2115. (Spring, Every Year).

ECE 2210. Circuits, Signals, and Systems. 3 Credits.

Circuit analysis using Laplace transforms; transfer functions; poles and zeroes; Bode diagrams; effects of feedback on circuits; convolution; Fourier series and Fourier transforms; design of filters. CAD tools used in design of projects. Prerequisites: ECE 2110. (Spring, Every Year).

ECE 3125. Analog Electronics Design. 4 Credits.

Design, testing, and measurement of analog electronic circuits. Differential and multistage amplifiers; output stages and power amplifiers; frequency response of amplifiers, high-frequency models of FETs and BJTs; introduction to feedback circuit topologies; use of electronic CAD tools, such as P-SPICE. Prerequisite: ECE 2115. (Fall, Every Year).

ECE 3130. Digital Electronics and Design. 4 Credits.

Design and testing of logic gates, regenerative logic circuits, and semiconductor memory circuits. Implementation of such circuits with NMOS, CMOS, TTL, and other integrated circuit technologies. Use of electronic CAD tools, such as SPICE. Students must have completed a course in logic systems, such as ECE 2140 or equivalent, prior to enrollment. Consult the instructor if uncertain whether this requirement has been met. Prerequisite: ECE 2140. (Fall, Every Year).

ECE 3135. Digital Design with FPGAs. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Introduction of ASIC design techniques; design and programming of FPGAs using CAD tools; timing in sequential circuits; essential hazards; races in sequential circuits; design-and-build FPGA project. Prerequisite: ECE 2140. (Spring, Every Year).

ECE 3220. Introduction to Digital Signal Processing. 3 Credits.

Signal representation, sampling, discrete-time signals, z-transforms and spectra, difference equations; Fourier analysis; discrete Fourier transform, IIR and FIR filter design. Prerequisite: ECE 2210. (Fall, Every Year).

ECE 3225. Signal and Image Analysis. 3 Credits.

Introduction to digital filters and digital image processing, time- and frequency-domain techniques for signal feature analysis; spectral estimation and analysis; autoregressive modeling; detection and estimation of periodicity; digital images as two-dimensional signals; 2-D Fourier transform. Prerequisites: APSC 3115 and ECE 2110. (As arranged, Every Year).

ECE 3310. Introduction to Electromagnetics. 3 Credits.

Maxwell's equations, pulse propagation in one dimension, transmission line equations, reflection coefficient, capacitance and inductance calculations, Smith chart, plane waves, reflection from a dielectric of fiber and integrated optics. Prerequisites: APSC 2113; and PHYS 1022 or PHYS 1026. (Spring, Every Year).

ECE 3315. Fields and Waves I. 3 Credits.

Complex phasor notation, uniform transmission lines, standing wave ratio, power, reflection coefficient, impedance matching; review of vector analysis and numerical methods; electrostatics, generalizations of Coulomb's law, Gauss's law, potential, conductors, dielectrics, capacitance, energy; Magnetostatics, Biot-Savart Law, Maxwell's equations, vector magnetic potential, inductance, magnetic energy, boundary conditions. Prerequisites: APSC 2113; and PHYS 1022 or PHYS 1026. (Fall, Every Year).

ECE 3410. Communications Engineering. 3 Credits.

Fourier series and Fourier transform in relation to signal analysis. Convolution and linear filtering. Signal bandwidth and sampling theorem. Analog modulation. Random variables and stochastic processes; power spectrum. Digital modulation: BPSK, QPSK, MSK. Pulse code modulation, DPCM and delta modulation. Prerequisites: APSC 3115; and ECE 2210. Recommended background: Students in this course should have taken APSC 3115 (Engineering Analysis III) and ECE 2210 (Circuits, Signals, and Systems) or an equivalent course; If unsure, please contact the instructor, and discuss the prerequisite requirements. (Spring, Every Year).

ECE 3515. Computer Organization. 3 Credits.

Structure and operation of a digital computer. Design of computer arithmetic units, data and instruction paths. Microprogramming; memory technology; virtual memory; caches; pipelined computer organization; characteristics of secondary storage; I/O interfacing. Prerequisites: ECE 2140. (Fall, Every Year).

ECE 3520. Microprocessors: Software, Hardware, and Interfacing. 3 Credits.

Microprocessor architecture, address decoding, hardware interrupt, parallel and serial interfacing with various circuits, timer/counters, direct memory access, microprocessor-based system. Hands-on laboratory experience using laboratory facilities is an integral part of this course. Prerequisites: ECE 1120 and ECE 2140. (Fall, Every Year).

ECE 3525. Introduction to Embedded Systems. 3 Credits.

Microcontrollers and their application in embedded systems. Topics include assembly and C for microcontroller programming, serial and parallel I/O interfacing, and multimedia interfacing. Students perform laboratory experiments and a final project to develop a microcontroller-based embedded system. Prerequisites: ECE 1120 and ECE 3520. (Spring, Every Year).

ECE 3530. Introduction to Parallel and Distributed Computer Systems. 3 Credits.

Parallel Computing versus Distributed Computing Systems. Applications of Parallel Computing and Distributed Computing in Science and Engineering. Computer networks versus interconnection networks of parallel systems; high throughput versus low latency computing systems. Data Centers, Clouds, Grids, Edge, Fog and Cluster Computing. Performance analyses and evaluation of parallel and distributed systems. Shared memory and distributed systems programming with introduction to OpenMP, pthreads, message passing, Hadoop and MapReduce. Synchronization issues and methods. Introduction to the design and analyses of parallel algorithms. Performance Analysis and Program Optimizations. Introduction to GPUs and Heterogeneous systems and programming. Offered as arranged. Prerequisites: ECE 1120 and ECE 1125. (Summer, Every Year).

ECE 3915W. Electrical and Computer Engineering Capstone Project Lab I. 1 Credit.

Program majors take ECE 3915, ECE 4920, and ECE 4925 in sequence beginning in the second semester of their junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Spring, Every Year).

ECE 4140. VLSI Design and Simulation. 3 Credits.

Study of VLSI circuit design including PMOS and NMOS transistor analysis, switch and gate logic design, understanding of semiconductor fabrication processes and design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, and designing with highly variable process parameters. Each student designs a VLSI chip, simulates the design and submits a GDS II file for Chip fabrication. Prerequisites: ECE 3130 and ECE 3135. (Same as ECE 6240) (Fall, Every Year).

ECE 4145. Micro- and Nanofabrication Techniques. 3 Credits.

Introduction to the basic fabrication principles at the micro and nano scale; students practice and fabricate simple devices. Prerequisite: ECE 2110. (Fall, Every Year) Same As: ECE 6245.

ECE 4150. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. MIPS CPU HDL implementation/verification/testing. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed and fabricated in ECE 4140 or equivalent chips. Prerequisite: ECE 4140. (Same as ECE 6250) (Spring, Every Year).

ECE 4155. Sensors, Networks, and Applications. 3 Credits.

Sensor technologies for measurement of mechanical, optical, magnetic, electromagnetic, thermal, and acoustic signals; interface electronic components, calibration, noise, and nonlinearity in addition to main modern sensors and sensor networks. Prerequisites: ECE 3125 or permission of instructor. (Spring, Every Year) Credit cannot be earned for this course and ECE 6255.

ECE 4160. Introduction to Nanoelectronics. 3 Credits.

Nanoscience and technology and nanoelectronics. Basic nanofabrication steps, and techniques to build devices such as carbon nanotubes, Graphene device, and other 2D nanoelectronic devices. Tools for performing design and characterizations of nanodevices, including scanning electron microscopy (SEM), atomic force microscopy (AFM), and transmission electron microscope (TEM). Prerequisite: ECE 2115. (Same as ECE 6260) (Fall, Every Year).

ECE 4320. Fields and Waves II. 3 Credits.

Magnetostatic fields, Lorentz force torques, Biot-Savart law, Ampere's law, magnetic materials, inductance, magnetic energy; Maxwell's equations, Faraday's law, charge-current continuity, vector potential; time-harmonic fields, plane waves, polarization, skin effect, dielectric boundaries, and fiber optics; radiation, dipole, gain, effective area. Prerequisites: APSC 2114; and ECE 3315. (Spring, Every Year).

ECE 4415. Introduction to Computer Networks. 3 Credits.

Layered protocol architectures; digital transmission and fundamental limits; error detection and ARQ protocols; data link layer and control; multiple access protocols; circuit and packet switching; multiplexing; routing; flow and congestion control and queue management; LAN standards; TCP/IP; Next-generation Internet. Prerequisites: APSC 3115. (Spring, Every Year).

ECE 4425. Data Communications Laboratory. 1 Credit.

Experiments in support of the analysis and design of communications systems with emphasis on network protocols. Time and frequency division multiplexing, flow control, automatic repeat request, interfacing, token ring, token bus, multiple access for Ethernet, routing, packet switching. Prerequisite: ECE 4415. (Spring, Every Year).

ECE 4435. Photonics and Fiber Optics. 3 Credits.

Concepts of opto-electronic devices; light-matter-interaction; absorption; device details and applications: laser, photodetector, modulators, optical cavity, waveguides and optical fibers; device and link considerations, including energy-per-bit, modulation speed, and nano fabrication; plasmonics and nanophotonics; industry perspective. Prerequisites: APSC 2114; ECE 3310 or ECE 4320. Recommended background: Prior completion of at least one undergraduate-level course in electromagnetism and semiconductors. (Spring, even years) Credit cannot be earned for this course and ECE 6765.

ECE 4535. Computer Architecture and Design. 3 Credits.

Advanced topics in computer architecture and design; instruction-level parallelism, thread-level parallelism, memory, multithreading, and storage systems. Prerequisite: ECE 3515. (Fall, Every Year) Credit cannot be earned for this course and ECE 6005.

ECE 4610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. Prerequisites: ECE 2210 and ECE 3315. (Same as ECE 6610) (Spring, Every Year).

ECE 4620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency and power flow control. Voltage, current and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 6620) (Fall, Every Year).

ECE 4662. Power Electronics. 3 Credits.

The application of electronics to energy conversion; principles of operation, analysis, and control of circuits; methods of solving power electronic circuits and finding the steady-state values of important quantities; deriving the linear model of the studied power electronic circuits and designing controllers for these devices. A general knowledge of electric circuits and linear control theory is required. Restricted to undergraduate students. (Same as ECE 6662) (Spring, Every Year).

ECE 4710. Control Systems Design. 3 Credits.

Mathematical models of linear systems; steady-state and transient analyses; root locus and frequency response methods; synthesis of linear feedback control systems. Prerequisites: APSC 2114; and ECE 2210 or MAE 3134. (Fall, Every Year).

ECE 4730. Robotic Systems. 3 Credits.

Modeling and analysis of robot designs. Kinematics of mechanical linkages, structures, actuators, transmissions, and sensors. Design of robot control systems, computer programming, and vision systems. Use of artificial intelligence. Current industrial applications and limitations of robotic systems. Same as MAE 3197. Prerequisite: computer programming, APSC 2058, ECE 4710.

ECE 4920W. Electrical and Computer Engineering Capstone Project Lab II. 3 Credits.

Program majors take ECE 3915, ECE 4920, and ECE 4925 in sequence beginning in the second semester of their junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Fall, Every Year).

ECE 4925W. Electrical and Computer Engineering Capstone Project Lab III. 3 Credits.

Program majors take ECE 3915, ECE 4920, and ECE 4925 in sequence beginning in the second semester of their junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ECE 4920W. (Spring, Every Year).

ECE 4980. Special Topics. 1-3 Credits.

Topic to be announced in the Schedule of Classes. (Fall and spring).

ECE 4990. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

ECE 6005. Computer Architecture and Design. 3 Credits.

Advanced topics in computer architecture and design; instruction-level parallelism, thread-level parallelism, memory, multithreading, and storage systems. (Fall, Every Year).

ECE 6010. Linear Systems Theory. 3 Credits.

Introduction to linear systems theory. Topics include linear vector spaces and linear operators, mathematical representation of dynamic linear systems, concept of state and solution of the state equation, controllability and observability, canonical forms of the state equation, state feedback, and state estimation. (Fall, Spring, Every Year).

ECE 6015. Stochastic Processes in Engineering. 3 Credits.

Axioms of probability; conditional probability; independent events; sequential experiments. Single and multiple random variables. Discrete-valued and continuous-valued stochastic processes; discrete-time and continuous-time stochastic processes; mean, auto-correlation and autocovariance functions; multiple random processes; stationary stochastic processes and linear time-invariant systems; ergodicity; Markov chains. Examples from engineering applications. (Fall, spring, and summer, Every Year).

ECE 6020. Applied Electromagnetics. 3 Credits.

Vector algebra and calculus, Divergence and Stokes theorems, Maxwell's equations, Boundary conditions, Poynting vector theorem, Time harmonic waves, Wave equation, Propagation in lossy media, Skin depth, Plane waves in an arbitrary direction, Polarization, Snell's law, Transmission line equations, Propagation constant, Characteristic impedance, Average power, Waveguides, TEM, TM and TE modes, cutoff frequencies, Vector and scalar potentials, scalar Green's function, Near and far fields from a dipole, radiated power and Antenna fundamentals Recommended background: ECE 4320 or similar course. (Fall, Every Year).

ECE 6025. Signals and Transforms in Engineering. 3 Credits.

Signal spaces and approximation. Orthogonal functions. Fourier series and transform. Bandpass signals and modulation. Hilbert transform and analytic signals. Time frequency analysis. Short-time Fourier transform. Linear systems properties. Laplace transform. Sampling and discrete-time signals. Discrete-time Fourier transform and z-transform. Wavelets. (Fall and spring, Every Year).

ECE 6030. Device Electronics. 3 Credits.

Semiconductor device concepts; doping, drift diffusion, recombination. Analysis of Schottky and Ohmic contacts, pn junctions, MOS systems. Modeling and analysis of semiconductor devices such as MOSFET and bipolar transistors. Hot electron and short and narrow channel effects. (Spring, Every Year).

ECE 6035. Introduction to Computer Networks. 3 Credits.

Layered protocol architectures. Digital transmission, fundamental limits. Error detection and ARQ protocols. Data link layer and control. Multiple access protocols. Circuit and packet switching. Multiplexing. Routing. Flow and congestion control, queue management. LAN standards. TCP/IP. Next-generation Internet. (Fall and spring, Every Year) Same As: ECE 4415.

ECE 6045. Special Topics. 3 Credits.

Topics vary by semester. May be repeated provided topic differs. See department for details. (Fall and spring, Every Year).

ECE 6050. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

ECE 6060. Electric Power Generation. 3 Credits.

Primary traditional/conventional and alternative/renewable energy sources and energy storage applications. Large generation plants and distributed small generation units and impact on transmission and distribution systems operation and infrastructure. Review of applicable schemes of hybrid generation. Evaluate smart grid objectives on long and short term stability of large power networks. (Fall, Every Year).

ECE 6105. Introduction to High-Performance Computing. 3 Credits.

Taxonomy and classifications of computers and parallel computers. Parallel thinking and parallel algorithms. Domain decomposition and load balancing. Programming parallel computers using the message passing, global address space, and partitioned global address space paradigms. Restricted to graduate students in science or engineering or permission of the instructor. (Fall, Every Year).

ECE 6120. Advanced Microarchitecture. 3 Credits.

Review of computer architecture fundamentals performance and power; pipeline design and hazards; superscalar pipelines, speculation and recovery; fetch logic and instruction caches; branch prediction; decoder logic for CISC and RISC; scheduling and instruction issue; ALUs and register files; memory optimizations; commit logic. Prerequisite: ECE 6005. Recommended background: Students should have taken at least one course in computer architecture, such as ECE 6005 or equivalent, prior to enrollment. (Spring, Every Year).

ECE 6125. Parallel Computer Architecture. 3 Credits.

Architectural classifications and taxonomies of parallel computers; enabling technologies, including advanced processor concepts, interconnection networks, high-speed memory architectures and protocols; parallel performance and scalability; and introduction to parallel algorithms and parallel programming. Prerequisites: ECE 6005 or ECE 6105. (Spring, Every Year).

ECE 6130. Big Data and Cloud Computing. 3 Credits.

This course covers a wide range of research topics related to big data and cloud computing, including data centers, virtualization, hardware and software architecture, as well as system-level issues on performance, energy efficiency, reliability, scalability and security. Prerequisites: ECE 6005 or ECE 6105. (Spring, Every Year).

ECE 6132. Secure Cloud Computing. 3 Credits.

The course provides a comprehensive guide to security concerns and best practices for cloud computing and cloud services. Topics discussed include cloud computing architectures, risk issues and legal topics, data security, internal and external clouds, information security frameworks and operational guidelines. Offered as arranged. Restricted to students in the MEng in cybersecurity policy and compliance program. (Summer, Every Year).

ECE 6140. Embedded Systems. 3 Credits.

Architectural advances and instruction sets for embedded microprocessors. Real-time operating systems and real-time scheduling, use of pre-designed software and hardware cores. Sensors, actuators, and data acquisition. System-on-chip (SoC). Design case studies. Prerequisite: ECE 6005. (Fall, Every Year).

ECE 6150. Design of Interconnection Networks for Parallel Computer Architectures. 3 Credits.

In-depth study and fundamental design principles of interconnection networks for parallel computing architectures including network-on-chips for multicores and chip multiprocessors (CMPs), interconnection networks for multiprocessors, multi-computers, and datacenters; interconnect topologies, routing protocols and algorithms, switching techniques, flow control protocols, router design, modeling and simulation tools, interconnect reliability, scalability, security, emerging technologies for interconnects (optical, wireless, radio frequency), emerging applications (neuromorphic, quantum, and approximate computing), case studies covering modern commercial examples. Restricted to SEAS graduate students. Prerequisites: ECE 6005 or equivalent. Recommended background: Prior completion of a course in computer organization or computer architecture, which may be ECE 3515 or ECE 6005 or an equivalent. (Spring, Every Year).

ECE 6160. Secure Computer Architecture. 3 Credits.

Building blocks of secure hardware and systems: trusted execution environment, security engines; side and covert channels in computing systems; hardware trojans; physically unclonable functions and challenges; obfuscation strategies. Prerequisites: ECE 6005 or equivalent with permission of the instructor. (As arranged, Every Year).

ECE 6213. Design of VLSI Circuits. 3 Credits.

This class covers top-down ASIC/FPGA design methodology; Modeling of VLSI circuits using HDL; Behavioral, Structural, and RTL modeling techniques; Logic synthesis techniques; Design verification plan and techniques; Students design and verify a final project using state-of-the-art commercial VLSI CAD tools for ASIC and FPGA (Altera). (Fall, Every Year).

ECE 6214. High-Level VLSI Design Methodology. 3 Credits.

This class covers advanced ASIC-FPGA design methodology including: synthesis methodology for both ASIC and FPGA design flow, DSP design for mobile device and implementation to ASIC and FPGA, low-power SOC design, CPF implementation, area/delay/power optimization and trade-offs, DFT, DFM, Low-Power design for mobile device, and Hardware/Software co-design. Advanced low power design for multi-core CPU architecture, LP top-down design flow with CPF implementation/verification. Students design and verify a final project using ASIC CAD tools and FPGA demo board with built-in LA. Prerequisite: ECE 6213. (Spring, Every Year).

ECE 6215. Introduction to MEMS. 3 Credits.

Introduction to microelectromechanical and nanoelectromechanical systems (MEMS/NEMS). Basic principles of simulating, designing, and fabricating MEMS/NEMS. Prerequisite: ECE 6240. Recommended background: Students in this course should have taken at least one prior course in ECE 6240; If unsure, contact the instructor, and discuss the pre-requisite requirements. (Spring, Every Year).

ECE 6216. RF/VLSI Circuit Design. 3 Credits.

Introduction to radio frequency systems: RF design, specifications, S-parameters, gain, noise, stability, matching concepts, small signal amplifiers, low noise amplifiers, power amplifiers, system-level design. In this course students use CAD tools such as ADS and other industrial tools to design class project. Prerequisite: ECE 6240. (Spring, odd years).

ECE 6218. Advanced Analog VLSI Circuit Design. 3 Credits.

CMOS technology, CMOS analog building blocks, current sinks, current sources, current mirrors, voltage references, CMOS amplifier design, feedback circuits, frequency response, compensation. Analysis of circuit variants: cascoding, active replacement elements – non-linear circuits. A/D converter design, examples of CMOS A/Ds. Mixed-signal layout techniques. Students are required to design CMOS Analog Circuit project, and submit final design Layout together with simulation using CAD (CADENCE analog design) simulation tools. Final report is required. Prerequisite: ECE 6240. (Spring, even years).

ECE 6221. Introduction to Physical Electronics. 3 Credits.

Theoretical principles underlying the operation of electronic devices; postulates of quantum mechanics: wave-particle duality, uncertainty relations, electronic band structure; free-carrier statistics; electron-photon interaction; physical principles of semiconductor and optoelectronic devices. (Fall, Every Year).

ECE 6240. VLSI Design and Simulation. 3 Credits.

Study of VLSI circuit design including PMOS and NMOS transistor analysis, switch and gate logic design, understanding of semiconductor fabrication processes and design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, and designing with highly variable process parameters. Each student designs a VLSI chip, simulates the design and submits a GDS II file for Chip fabrication. (Same as ECE 4140) (Fall, Every Year).

ECE 6245. Micro- and Nanofabrication Technology. 3 Credits.

Introduction to the basic fabrication principles at the micro- and nanoscale; practical experience and fabrication of simple devices. Restricted to graduate students. Prerequisite: ECE 2150. (Fall, Every Year) Same As: ECE 4145.

ECE 6250. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. MIPS CPU HDL implementation/verification/testing. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed and fabricated in ECE 4140/6240 or equivalent chips. Prerequisite: ECE 6240. (Spring, Every Year) Same As: ECE 4150.

ECE 6255. Sensors, Networks, and Applications. 3 Credits.

Sensor technologies for measurement of mechanical, optical, magnetic, electromagnetic, thermal, and acoustic signals; interface electronic components, calibration, noise, and nonlinearity in addition to main modern sensors and sensor networks. Restricted to graduate students. Prerequisites: permission of the instructor. (Spring, Every Year) Credit cannot be earned for this course and ECE 4155.

ECE 6260. Introduction to Nanoelectronics. 3 Credits.

Nanoscience and technology and nanoelectronics. Basic nanofabrication steps; techniques to build devices such as carbon nanotubes, graphene device, and other 2D nanoelectronic devices. Tools for performing design and characterizations of nanodevices, including scanning electron microscopy (SEM), atomic force microscopy (AFM), and transmission electron microscope (TEM). (Same as ECE 4160) (Fall, Every Year).

ECE 6500. Information Theory. 3 Credits.

Introduction to the mathematical representation of information, including the concepts of entropy, mutual information and information transfer over noisy media; mathematical representation of information sources; entropy and mutual information; noiseless and noisy coding theorems; data compression; communication channels and their capacity to convey information; and rate distortion theory. Prerequisite: ECE 6015. (Spring, odd years).

ECE 6505. Error Control Coding. 3 Credits.

Introduction to the principles governing the mathematical theory of error detecting and correcting errors occurring in the transfer of information over digital communication channels. Prerequisite: ECE 6015. (Spring, Every Year).

ECE 6510. Communication Theory. 3 Credits.

Principles of digital communications. Channels, digital modulation; optimum receivers and algorithms in the AWGN; coherent, non-coherent, and fading channels. Correlation detectors, matched filters; diversity. Bounds on performance of communications, comparison of communications systems and implementation issues. Prerequisite: ECE 6015. (Spring, Every Year).

ECE 6520. Mobile and Wireless Communication Systems. 3 Credits.

Characterization of mobile and wireless channels. Indoor and outdoor path loss models. Multipath propagation. Fading and fading countermeasures: coding, equalization. Power control. Cellular design and frequency reuse. Modulation and coding techniques. Spread Spectrum and OFDM. Random access methods. Code and Space Division Multiple Access, MIMO. Prerequisite: ECE 6510. (Fall, odd years).

ECE 6525. Satellite Communication Systems. 3 Credits.

Low earth orbit and geostationary satellite systems; transmission systems; RF link budgets; modulation and multiplexing; multiple access techniques, including FDMA, TDMA, and CDMA; satellite transponders, antennas, and earth stations. Prerequisite: ECE 6510. (Fall, Every Year).

ECE 6530. Electronic Warfare. 3 Credits.

Electronic attack and protection of information; countermeasures and counter-countermeasures; attacks on ranging and tracking radar systems; jamming and jamming defense; attacks on communications systems; defensive techniques, signal design, spread spectrum; attack and defense of optical and high-energy systems. Offered as arranged. Prerequisite: ECE 6510. (Summer, Every Year).

ECE 6550. Network Architectures and Protocols. 3 Credits.

The course covers network topologies and control structures; Switching and routing of information streams; Internet transmission protocols; Data representations and codes; Application protocols; Mail and file transfer protocols; and Network management systems. Prerequisite: ECE 6035. (Spring, Every Year).

ECE 6560. Network Performance Analysis. 3 Credits.

Telecommunications traffic models: arrival and service time distributions, Poisson and Erlang formulas. Topological design algorithms. Delay and blocking models and probabilities for packet switched networks. Routing, relaying, and flow control algorithms: delay and cost minimization, throughput optimization. Prerequisites: ECE 6015 and ECE 6035. (Fall, Every Year).

ECE 6565. Telecommunications Security. 3 Credits.

Speech and data scrambling. Linear and nonlinear transformations. Cryptographic techniques. Block and stream ciphers. The Data Encryption Standard (DES). Key management, digital signatures, message authentication, hash functions. Public key algorithms. Restricted to Students with graduate standing in science or engineering or with the permission of the instructor. (Fall, Every Year).

ECE 6570. Telecommunications Security Protocols. 3 Credits.

The OSI security architecture: services and mechanisms; risk analysis; Internet protocol security mechanisms; Ipv4 and Ipv6 security; security associations, authentication, MD5; encapsulating security payload (ESP); e-mail security: PGP, S/MIME, PEM, MSP; secure voice communications algorithms; security in Internet commerce: SSL, SET. Offered as arranged. Prerequisites: ECE 6035 and ECE 6565. (Fall and spring, Every Year).

ECE 6575. Optical Communication Networks. 3 Credits.

Wave propagation through fiber, dispersion, polarization. Multiplexing techniques, WDM. Optical networking components. Optical transmission systems design. All-optical networking, broadcast star and wavelength routing networks. Performance analysis, survivability, control and management. Optical access networks. (Fall, Every Year).

ECE 6580. Wireless Networks. 3 Credits.

The course introduces students to the principles governing the design and implementation of various types of wireless networks; mathematical analysis of telecommunications traffic; technology of wireless information transmission systems; first, second and third generation cellular networks based on circuit and packet switching principles; capacity sharing and duplex transmission; Time Division and Code Division Multiplex system; fourth and fifth generation cellular networks; wireless local and personal area networks; performance evaluation of wireless cellular and local area networks. Prerequisite: ECE 6035. (Spring, Every Year).

ECE 6610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. May be taken for graduate credit by students in fields other than electrical engineering. (Spring, Every Year) Same As: ECE 4610.

ECE 6620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency, and power flow control. Voltage, current, and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 4620) (Fall, Every Year).

ECE 6662. Power Electronics. 3 Credits.

The application of electronics to energy conversion. Principles of operation, analysis, and control of circuits including solid-state electronic switches. Methods of solving power electronic circuits and finding the steady-state values of important quantities. Deriving the linear model of the studied power electronic circuits and designing controllers for these devices. A general knowledge of electric circuits and linear control theory is required. (Spring, Every Year).

ECE 6666. Power System Transmission, Control, and Security. 3 Credits.

Analysis of AC networks, load flow, transient stability, economic dispatch, reactive compensation, FACTS, effects of alternative generation, voltage and frequency control, N-1 contingency, restoration techniques. Offered as arranged. Prerequisite: ECE 6620. (Fall and spring, Every Year).

ECE 6667. Nuclear Power Generation. 3 Credits.

Review of nuclear reactor engineering, traditional and developing reactor design, issues regarding the safe operation of nuclear plant, and control and regulatory aspects of nuclear power generation. Prerequisite: ECE 6620. (Fall, even years).

ECE 6668. Power Distribution Grids. 3 Credits.

Equipment for power distribution for industrial, commercial and residential applications. Switching and safety at the distribution voltage level. Bulk Insulation Level and Insulation coordination principles. Applications of 'smart-grid' innovations to short and long-term development of remote metering and customer communications. Selection and Application of Protective Relays, Fuses, Ground-Fault Protection. Prerequisite: ECE 6060. (Fall, odd years).

ECE 6669. Smart Power Grids. 3 Credits.

Overview of probability theory. Overview of basic power market reliability modeling and evaluation. Generation supply reliability techniques, modeling and evaluation. Reliability of transmission system and delivery of supply. Loss of load probability evaluation. Forced and maintenance outages and impact on system reliability. Load forecasting and probability of interconnected systems. Risk evaluation in power system operation. Operating reserve techniques and indices. Distribution system reliability including substations. Composite system reliability modeling. Reliability worth and value. (Spring, odd years).

ECE 6670. Power System Protection. 3 Credits.

Main philosophy for protection of power systems. Protection systems and approaches. Reliability and security of protection systems. Protection of Generators, Transformers, Motors and Transmission Lines. Requirements for Distributed Source Generation (DSG's). Requirements for system protection, to prevent grid blackouts and to enhance power system security. Prerequisite: ECE 6620. (Spring, even years).

ECE 6690. Power Systems Economics. 3 Credits.

Overview of electrical power market economics and market participants. Production pricing and market clearing pricing. Market ancillary service pricing. Location marginal pricing and zonal pricing schemes. New electrical generation entrant impact. Investing in generation and in transmission. Independent power producers and independent transmission owners. Offered as Arranged. (Fall and spring, Every Year).

ECE 6691. Power Systems Reliability. 3 Credits.

Overview of probability theory. Overview of basic power market reliability modeling and evaluation. Generation supply reliability techniques, modeling and evaluation. Reliability of transmission system and delivery of supply. Loss of load probability evaluation. Forced and maintenance outages and impact on system reliability. Load forecasting and probability of interconnected systems. Risk evaluation in power system operation. Operating reserve techniques and indices. Distribution system reliability including substations. Composite system reliability modeling. Reliability worth and value. (Spring, even years).

ECE 6699. Energy and Sustainability. 3 Credits.

Energy sources; consumptions; societal and environmental impacts; energy generation and harvesting technology; thermodynamics and efficiency limits; nanotechnology for sustainability; emission and pollution; growth models; learning curves; life-cycle-analysis; energy in an international perspective. Offered as arranged. Recommended background: A basic understanding of energy and thermodynamics such as material covered in ECE 4620 and MAE 2131. (Fall and spring, Every Year).

ECE 6710. Microwave Engineering. 3 Credits.

Graduate level elective course open to Electrical Engineering graduate students. Topics include transmission line theory, transmission lines and waveguides, waveguide discontinuities, microwave networks, impedance matching and tuning, microwave resonators, power dividers and directional couplers, and microwave filters and active microwave circuits. Prerequisite: ECE 6020. (Fall, even years).

ECE 6715. Antennas. 3 Credits.

Graduate level elective course open to Electrical Engineering graduate students. Topics include antenna circuits, radiation pattern, reciprocity, gain, receiving cross-section, scattering by antennas, mutual coupling, arrays; polarization; radiation from current distributions, equivalent aperture currents, dipoles, patch antennas, large phased arrays. Restricted to graduate students in electrical engineering. Prerequisite: ECE 6020. (Spring, odd years).

ECE 6720. Remote Sensing. 3 Credits.

Active and passive remote-sensing systems: scatterometers, real-aperture imaging, and synthetic-aperture radars. Sensing of surface, subsurface, and atmospheric parameters at microwave, infrared, and optical frequencies. Analysis of radiometric techniques using radiative transport theory, inverse scattering methods, profile inversion. The course is intended to provide graduate students and engineers with an in-depth understanding of the fundamentals of remote sensing at microwave, infrared and optical frequencies with emphasis on recent research innovations in these areas. Prerequisite: ECE 6020. (Spring, even years).

ECE 6725. Electromagnetic Radiation and Scattering. 3 Credits.

Alternative representations of solutions to Maxwell equations, Fourier transforms and spherical mode representations, field equivalence principle, dyadic Green's functions, radiation and scattering by simple shapes, geometrical theory of diffraction, integral equations and the moment method. Offered as arranged. Prerequisite: ECE 6020. (Fall and spring, Every Year).

ECE 6730. Waves in Random Media. 3 Credits.

Propagation and scattering of electromagnetic, optical, and acoustic waves in random media, scattering from rough surfaces and randomly distributed particles, turbulence. Applications to propagation through rain and fog. Laser beam scintillations, remote sensing, and communications channel modeling. Monte Carlo simulation. The course is intended to provide graduate students and engineers with an in-depth understanding of the fundamentals of wave propagation in complex media at microwave, infrared and optical frequencies with emphasis on recent research innovations in these areas. Offered As Arranged. Prerequisite: ECE 6725. (Summer, Every Year).

ECE 6735. Numerical Electromagnetics. 3 Credits.

Systematic discussion of useful numerical methods in computational electromagnetics including integral equation techniques and differential equation techniques, both in the frequency and time domains. Hands-on experience with numerical techniques, including the method of moments, finite element and finite difference time-domain methods, and spectral integral methods. Related numerical issues such as accuracy, stability and dispersion are discussed. Examples are drawn from various electromagnetic applications such as nanowires, waveguides, and antenna radiation. Prerequisites: ECE 6020, ECE 6025, and ECE 6800. (Fall, odd years).

ECE 6745. Analysis of Nonlinear and Multivalued Devices. 3 Credits.

Numerical techniques for modeling semiconductor and magnetic devices; modeling multivalued behavior of memory materials; optimization of geometry. Offered as arranged. Prerequisite: ECE 6020. (Fall and spring, Every Year).

ECE 6750. Modern Radar Systems. 3 Credits.

The radar range equation. Radar cross section of targets, target detection and parameter estimation, detection in clutter. Resolution, ambiguities, and signal design. Moving-target indicators. Pulse Doppler radar. Radar antennas, phased arrays. Synthetic aperture and space-based radar. The course is intended to provide graduate students and engineers with an in-depth understanding of the fundamentals of wave propagation in complex media at microwave, infrared and optical frequencies with emphasis on recent research innovations in these areas. Offered as arranged. Prerequisite: ECE 6015. (Fall and spring, Every Year).

ECE 6760. Propagation Modeling in Wireless Communications. 3 Credits.

Wireless communication channel modeling, propagation mechanisms, terrestrial fixed links, mobile satellite systems, macrocells, fading models, microcells, picocells, diversity, equalizers. Specific applications to 3G, 4G and 5G mobile systems. Prerequisite: ECE 6020. (Spring, odd years).

ECE 6765. Photonics and Fiber Optics. 3 Credits.

Concepts of opto-electronic devices; light-matter-interaction; absorption; device details and applications discussed: laser, photodetector, modulators, optical cavity, waveguides and optical fibers; device and link considerations include: energy-per-bit, modulation speed, and nano fabrication; plasmonics and nanophotonics; industry perspective. Recommended background: Students should have taken at least one prior course in electromagnetism and semiconductors at the undergraduate level. (Spring, even years).

ECE 6770. Applied Magnetism. 3 Credits.

Classification of magnetic materials. Magnetic measurements. Soft and hard magnetic materials. Applications to microwave, magnetic recording, permanent magnets, magneto-optics, magnetic refrigeration, sensors, magnetostrictive devices. Electric power. Superconducting devices. Offered as arranged. Prerequisite: ECE 6020. (Summer, Every Year).

ECE 6800. Computational Techniques in Electrical Engineering. 3 Credits.

Introduction to linear algebra and vector spaces as applied to networks and electrical systems. Orthogonal bases, projections, and least squares. Fast Fourier transforms. Eigenvalues and eigenvectors with applications. Computations with matrices. Constrained optimization in electrical systems. Network models and applications. Special relativity. (Fall, Every Year).

ECE 6810. Speech and Audio Processing by Computer. 3 Credits.

The objective of this course is to introduce computer processing of speech and audio. Topics include: acoustic sensor technologies and characteristics, direction finding, speech analysis and synthesis, audio formats and compression standards, time-varying autoregressive models, speech recognition, automatic target recognition. Restricted to graduate students. (Fall, Every Year).

ECE 6815. Multimedia Processing. 3 Credits.

Introduction to multimedia. Formats, conversion and combinations; delivery and trends; servers and networks; hardware and architecture; enduser devices; digital libraries, video conferencing and collaboration; and educational and health applications. Case studies and trials. Offered as arranged. Restricted to graduate students with programming experience in C, C++ or Java. Prerequisite: ECE 6005. (Fall and spring, Every Year).

ECE 6820. Real-Time Digital Signal Processing. 3 Credits.

Digital signals, binary number representation, fixed-point and floating-point DSP architectures. Q-format for data representation, bit allocation and arithmetic. Portability of arithmetic expressions: floating point vs. fixed point. Development of real-time signal processing software. Applications to signal parameter estimation, signal generation, filtering, signal correlation, spectral estimation (FFT). Offered as arranged. Prerequisite: ECE 6005. Recommended background: Students in this course should have taken at least one prior course in ECE 6005 Computer Architecture and Design and have a basic knowledge of computer architecture and DSP algorithms; Knowledge of C programming language, assembly language and MATLAB is desirable; If unsure, contact the instructor, and discuss the pre-requisite requirements. (Fall and spring, Every Year).

ECE 6825. Computer Control Systems. 3 Credits.

Analysis of automatic control systems in which the control procedure uses on-line digital computation. Topics include single- and multi-rate sampling, z-transforms, responses of discrete systems, stability criteria, and discrete control design. Prerequisite: ECE 6010. (Fall, odd years).

ECE 6830. System Optimization. 3 Credits.

Parameter optimization problems, theory of minima and maxima. Optimization problems for dynamic systems, calculus of variations, the maximum principle and the Hamilton-Jacobi equation. Optimization problems with constraints, optimal feedback systems. Numerical solution of optimal problems. Prerequisite: ECE 6010. (Spring, Every Year).

ECE 6835. Nonlinear Systems. 3 Credits.

Definition of linear and nonlinear systems; introduction to approximate analysis of nonlinear systems: describing functions, Krylov and Bogoliubov asymptotical method, and Tsytkin locus. Forced oscillations: jump resonance. Stability analysis: Liapunov criterion. Luré problem and Popov's method. Prerequisite: ECE 6010. (Fall, even years).

ECE 6840. Digital Image Processing. 3 Credits.

Properties of images and visual systems; image acquisition, sampling, quantization; one- and two-dimensional image transform techniques; enhancement and restoration; image coding and data compression; segmentation, representation, boundary and shape, texture, matching. Image understanding. Students should have completed at least one prior course in computational methods or signal processing, such as ECE 6800 or equivalent, prior to enrollment. Contact the instructor if uncertain as to whether this requirement has been met. Prerequisite: ECE 6800. (Spring, odd years).

ECE 6842. Image Engineering. 3 Credits.

Solid-state imaging devices and image engineering; basic understanding of the detection and noise processes underlying the sensing of optical radiation and the engineering and physics of image formation; radiometry, optics and image formation, and imaging devices; image quality metrics and system design trades. Students should have completed at least one course in linear systems and stochastic processes prior to enrollment. Contact the instructor if uncertain as to whether this requirement has been met. (Fall, even years).

ECE 6845. Image Synthesis. 3 Credits.

The objective of this course is to introduce techniques for synthesizing images using mathematical models and other reconstruction techniques. The course starts with introduction to image formation process, then other techniques for synthesizing color textures and three-dimensional scenes are covered. Prerequisite: ECE 6015. (Spring, Every Year).

ECE 6850. Pattern Recognition. 3 Credits.

Random vectors, transformations; hypothesis testing, error probability, sequential methods. Bayes, other linear classifiers; discriminant functions, parameter estimation, learning, and dimensionality reduction; nonparametric methods; clustering; feature selection and ordering; computer applications and projects. Students should have completed at least one prior course in probability and statistics, such as ECE 6015 or equivalent, prior to enrollment. Contact the instructor if uncertain as to whether this requirement has been met. Prerequisite: ECE 6015. (Fall, odd years).

ECE 6855. Digital Signal Processing Techniques. 3 Credits.

Signal and system representation, sampling and quantization, transform techniques. Recursive and nonrecursive digital filter design, recursive estimation, linear predictive filtering. Fast algorithms for signal processing. Current topics. Prerequisite: ECE 6015. (Fall, Every Year).

ECE 6860. Compression Techniques for Data, Speech, and Video. 3 Credits.

Lossless and lossy coding theorems, rate distortion bound. Data compression algorithms: Huffman coding, run-length coding. Differential coding. Transform coding. Voice, audio, image and video coding techniques: CELP, JPEG, MPEG, MP3. Data coding standards: G.722, G.726, G.728, H.261, H.323. Offered as arranged. Prerequisites: ECE 6015 and ECE 6025. (Fall and spring, Every Year).

ECE 6865. Statistical Signal Estimation. 3 Credits.

Minimum variance unbiased estimation. Cramer-Rao bound, statistical modeling, sufficient statistics, maximum likelihood estimation, efficient estimators, least squares. Bayesian estimators. Wiener and Kalman filters, complex data and parameters. Applications to radar, speech, image, biomedicine, communications, controls. Prerequisite: ECE 6015. (Fall, odd years).

ECE 6875. Wavelets and Their Applications. 3 Credits.

Time-frequency analysis. Multiresolution analysis. Continuous, discrete, and discrete-time wavelet transform. Multirate filter banks. Multiband wavelets, two-dimensional wavelets. Wavelet packets and matching pursuit. Wavelets in noise filtering, compression, modeling of fractals, communications, detection, adaptive systems, and fast computation. Prerequisites: ECE 6025 and ECE 6855. (Spring, odd years).

ECE 6880. Adaptive Signal Processing. 3 Credits.

Adaptation criteria. Least mean square and recursive least square. Convergence of adaptive algorithms and tracking. Linear and nonlinear Kalman filters. Blind source separation. Iterative (turbo) decoding and equalization. Nonlinear/non-Gaussian models: particle filtering. Machine learning: back propagation, support vector machines. Applications in system identification, adaptive channel equalization, interference cancellation and suppression, and adaptive antenna arrays. Prerequisite: ECE 6865. (Spring, even years).

ECE 6882. Reinforcement Learning. 3 Credits.

Semi-supervised learning, sequential and automated decision making, dynamic programming, Monte Carlo learning, temporal difference learning, off-policy and on-policy learning, deep reinforcement learning, inverse reinforcement learning. (Spring, Every Year).

ECE 6885. Computer Vision. 3 Credits.

Image processing; edge detection, segmentation, local features, shape and region description in 2D and 3D. Insights from human vision studies. Representation for vision: object models, synthetic images, matching, gaps, algorithms. Interference, production system, syntactic networks. Planning spatial reasoning for robot vision. Prerequisites: CSCI 6511; and ECE 6850. Recommended background: Students in this course should have taken at least one prior course in artificial intelligence and/or pattern recognition; Acceptable courses include ECE 6850 (Pattern Recognition), or an equivalent course; If unsure, contact the instructor, and discuss the prerequisite requirements. (Spring, even years) Same As: BME 6885.

ECE 6998. Thesis Research I. 3 Credits.

N/A.

ECE 6999. Thesis Research II. 3 Credits.

Thesis research.

ECE 8150. Advanced Topics in Computer Architecture. 3 Credits.

Examples of topics are interconnection networks, fault tolerance, load balancing, workload characterization, and performance modeling of advanced computer systems. Prerequisite: ECE 6120, ECE 6125.

ECE 8999. Dissertation Research. 12 Credits.

May be repeated for credit. Restricted to doctoral candidates. (Fall and spring, Every Year).

EMERGENCY HEALTH SERVICES (EHS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EHS 1002. CPR and First Aid. 1 Credit.

Development of the proper techniques of cardiopulmonary resuscitation and first aid. Nationally recognized certification provided.

EHS 1025. Introduction to Prehospital Care. 2 Credits.

Concepts of prehospital care, including terminology, basic emergency care, communication, and anatomy and physiology for emergency care; first aid and Basic Life Support (BLS) training. Restricted to students in the health sciences program. Prerequisites: HSCI 1101, HSCI 1102 and HSCI 1103.

EHS 1040. Emergency Medical Tech-Basic. 3 Credits.

EMT-Basic knowledge and skills. Includes basic life support, patient assessment, bleeding control, bandaging and splinting. Successful completion makes student eligible to sit for National Registry certification exam.

EHS 1041. EMT - Basic Lab. 1 Credit.

Application and practice of EMT-Basic skills.

EHS 1044. EMT - Basic Recertification. 3 Credits.

Prepares students to recertify as a National Registry EMT-Basic. Includes an "EMT Refresher" class and continuing education program. Laboratory fee.

EHS 1058. EMT Instructor Development. 2 Credits.

Students develop and deliver didactic and skill instruction. Students participate in the day-to-day teaching and management in an EMT-Basic program.

EHS 1101. Introduction to Emergency Health Services I. 2 Credits.

Introduction to concepts of emergency health services; medical emergency management in a prehospital environment and EMS operations. Criminal background check required. Prerequisite: EHS 1025.

EHS 1102. Introduction to Emergency Health Services II. 2 Credits.

Continuation of topics introduced in EHS 1101, including managing medical emergencies, trauma emergencies, and working with special patient populations. Restricted to students in emergency health services program. Prerequisites: EHS 1025 and EHS 1101.

EHS 2104. Legal Aspects in Emergency Management. 3 Credits.

Legal issues in the delivery of emergency medical services, including abandonment, malpractice, negligence, patient consent, the Freedom of Information and Privacy Acts, the Good Samaritan law, protocol deviation, record keeping, patient refusal of services, and medical control. Emergency medicine legislation and recent court decisions. Prerequisite: HSCI 2103.

EHS 2105. Drug Addiction and Pain Management in the Emergency Health Services. 1 Credit.

The science of addiction and pain with a focus on management and intervention strategies used in the provision of emergency health services in the prehospital setting. Prerequisites: EHS 1040 and EHS 1041.

EHS 2107. Theory and Practice of Research in a Clinical Setting. 4 Credits.

Fundamentals of clinical research methods, design, and analysis related to emergency medicine.

EHS 2108. Emergency Medicine Clinical Scribe. 3 Credits.

Fundamentals of emergency medicine clinical practice through documentation and management of clinical information. Students participate as members of an emergency medicine team and explore topics related to emergency health care, e.g., practical human anatomy, medical terminology, diagnosis, patient care, medical records, and practice management.

EHS 2109. Infectious Diseases and Bioterrorism. 3 Credits.

Examination of the basic principles of epidemiology, the growing problem of emerging infectious diseases, the threat of biological warfare, and emergency preparedness planning and response for large-scale biological events. Restricted to students in the health sciences program or with the instructor's permission. Recommended background: 4 credits in courses in the areas of biology or anatomy and physiology; or HSCI 2102.

EHS 2110. Emergency Department Critical Care Assessment and Procedures. 4 Credits.

Expansion of EMT-Basic knowledge and skills for independent performance as a hospital technician; emphasis on the Emergency Department and Intensive Care Units.

EHS 2131. History Taking and Physical Examination. 2 Credits.

Conducting an assessment of patients' health care needs and providing basic care during the patient intake process. Restricted to students in SMHS. Prerequisites: HSCI 1101, HSCI 1102 and HSCI 1103.

EHS 2160. Disaster Response Planning and Management. 3 Credits.

Planning for and management of mass-casualty incidents in the pre-hospital and hospital environments for all risks (attack, man-made, and natural), including development of response plans, triage, medical evacuation procedures, communications, roles of government and the private sector, terrorism, pandemics and epidemics, and medical care for mass gatherings. Restricted to students in the health sciences program or with the instructor's permission.

EHS 2161. Principles of Hazardous Materials and CBRNE Incident Management. 3 Credits.

Examination of hazardous materials and their risks, including chemical, biological, radiological, nuclear, and explosives (CBRNE). Identification of hazardous materials and related problems, precautions in approaching the contaminated patient, protective clothing, decontamination, and management of selected hazards, and countermeasures. Restricted to students in the health sciences program or with the instructor's permission. Recommended background: 4 credits in courses in biology or anatomy and physiology; or HSCI 2102.

EHS 2162. Introduction to the Principles of Tactical Medicine. 4 Credits.

The basics of tactical emergency medicine, such as acute care in tactical combat situations and medical operations support of tactical teams.

EHS 2166. Current Topics. 1 Credit.

Review of the current literature to identify clinical, operational, educational, and administrative issues important in the leadership of EMS.

EHS 2174. Foundations of Emergency Health Services Systems. 3 Credits.

An overview of the design and operation of Emergency Health Services (EHS) systems, delivery of services, and the echelons of care. The history of Emergency Medical Services (EMS), the interface of public and private organizations and review of the various personnel who comprise these systems is examined in relation to their impact on the health care delivery system.

EHS 2175. Community Risk Management and Safety in EHS. 3 Credits.

This course introduces the EHS professional to the benefits of community information and community relations. Students analyze strategies for introducing risk reduction programs and apply these concepts in the development of such programs.

EHS 2211. Introduction to Telemedicine. 3 Credits.

An introduction to the ethical, legal, and technical aspects of telemedicine, including, but not limited to, emerging technologies, planning and operational considerations. Students complete a number of practical exercises requiring direct application and utilization of Internet, video, audio, and other technologies.

EHS 3101. Leadership Concepts. 3 Credits.

Leadership topics in the context of emergency action and disaster response, including developing leadership skills, team and group dynamics, and contrasting military and civilian leadership structures. Restricted to students in the health sciences program or with the instructor's permission. Credit cannot be earned for this course and EHS 4111.

EHS 3103. Technology in Critical Incident Response. 3 Credits.

Examination of the role of technology in critical incident response through an assessment of domestic and international cases. Restricted to students in the health sciences program or with the permission of the instructor. Prerequisite: EHS 2160.

EHS 3105. Integrated Response to High Impact Violent Incidents. 3 Credits.

Examination of resources and response strategies needed to mitigate high impact, violent incidents involving an ongoing threat; evaluation of multiagency and multidiscipline integrated operations, mass casualty events, and terrorism. Restricted to students in the health sciences program or with the instructor's permission. Prerequisite: EHS 2160.

EHS 3107. Financial Management for the Disaster Cycle. 3 Credits.

Financial management, budgeting, and grants management in the emergency response and preparedness arenas. Restricted to students in the health sciences program or with the instructor's permission. Prerequisite: EHS 2160. Credit cannot be earned for this course and CML 2142.

EHS 4101. Humanitarian Relief Operations. 3 Credits.

An integrative approach to humanitarian relief operations, including factors that can influence relief delivery, field planning considerations, and the roles and limitations of non-governmental organizations, international organizations, local government, and various federal and civilian and military agencies. Emphasis on medical aspects of working with particular populations such as women, children, the elderly, and culturally underrepresented or persecuted population subsets.

EHS 4103. Advanced Topics in Leadership. 3 Credits.

Leadership topics for emergency managers and responders, including leadership in complex systems, change management, interagency collaboration, and leadership in domestic and international responses. Restricted to students in the health sciences program or with the instructor's permission. Prerequisite: EHS 3101. Recommended background: EHS 2160.

EHS 4105. Operations Management in Asymmetric Conditions. 3 Credits.

Application of operations management principles in asymmetric conditions, including multi-dimensional approaches and responses to attack, man-made, and natural disasters. Restricted to students in the health sciences program or with the instructor's permission. Prerequisites: EHS 2160 and EHS 3101. Credit cannot be earned for this course and EHS 4110.

EHS 4110. Operations Management in Emergency Health Services Systems. 3 Credits.

Applies principles of general management that contribute to the effectiveness of day to day operations within an Emergency Health Services Organization.

EHS 4111. Leadership Concepts in EHS. 3 Credits.

This course is designed to provide a basic introduction to leadership by focusing on what it means to be a good leader. Emphasis in the course is on the practice of leadership in the Emergency Health Services setting. The course examines topics such as: the nature of leadership, recognizing leadership traits, developing leadership skills, creating a vision, setting the tone, listening to out-group members, handling conflict, overcoming obstacles, and addressing ethics in leadership. The course provides a special focus on facilitating students' understanding of their own leadership vision.

EHS 4112. Special Operations and Disaster Management. 3 Credits.

This course is an introduction to Emergency Health Services (EHS) Special Operations. The student develops and applies a general understanding of what constitutes special operations and resources needed to mitigate special operations incidents, both small and large, in the twenty-first century. The student is able to evaluate local special operations incidents, major multi-agency operations, scheduled and unscheduled mass casualty events, terrorism and natural disaster.

EHS 4144. Seminar in EHS Leadership. 3 Credits.

A senior capstone course, integrating the theories and concepts covered in previous work, with a focus on the identification and resolution of problems and opportunities encountered by the health sciences manager. To be taken in the final semester of study or with the program director approval.

EHS 4160. Project Management and Leadership Capstone. 3 Credits.

Capstone course using challenges and opportunities encountered by emergency managers to apply and develop project management and leadership approaches. Restricted to students in the health sciences program or with the instructor's permission. Prerequisites: EHS 2160 and EHS 3101. Recommended background: completion of EHS 3107, EHS 4103, and EHS 4105.

EHS 4197. Clinical Internship. 1-6 Credits.

EHS 4198. Administrative Internship. 1-12 Credits.

EHS 4199. Independent Study. 1-3 Credits.

EHS 5099. Variable Topics. 1-99 Credits.

EHS 6115. Operational Leadership in a VUCA Environment. 3 Credits.

How leadership can operate most effectively within and meet the challenges of a VUCA (volatility, uncertainty, complexity, and ambiguity) environment using innovation, collaboration and cultural intelligence. Models, principles, and best practices for leaders. Restricted to SMHS students.

EHS 6201. Response to High Impact Emergencies. 3 Credits.

Strategies for an effective response to large-scale and high-impact emergencies examined as the managerial foundation for development of a response policy.

EHS 6203. Legal, Regulatory, and Ethical Issues in Emergency Medical Services Leadership. 3 Credits.

Laws, regulations, and standards pertaining to emergency services. Implications for organizational policy and response requirements for executives, managers, and supervisors.

EHS 6204. Public Information Management for Emergency Medical Services Leadership. 3 Credits.

Public information management for emergency services executives, managers, and supervisors.

EHS 6205. Strategic Emergency Response. 3 Credits.

Strategic analysis of counterterrorism response requirements for the emergency service organization. Determination of vulnerabilities and trends; development of operational doctrine.

EHS 6206. Case Studies in EMS Leadership. 3 Credits.

Integrative case-based approach to the analysis of complex problems in the management and leadership of emergency medical services. Same as CML 6205.

EHS 6210. EMS Systems Design and Analysis. 3 Credits.

System design characteristics of high-performance EMS systems based on excellence in emergency care, response-time reliability, economic efficiency, and customer service from a strategic perspective.

EHS 6211. Innovations in Telemedicine. 3 Credits.

Consideration of telemedicine in a multidisciplinary format toward innovation and entrepreneurship in the fields of medicine, public health, engineering, and business. Credit cannot be earned for this course and PUBH 6099.

EHS 6227. Introduction to Human Health in Space. 3 Credits.

Introduction to aerospace concepts in an interdisciplinary context for those interested in human spaceflight. Elements of physiology, medicine, law, policy, engineering, and history are incorporated.

EHS 6274. Health Economics and Finance. 3 Credits.

Issues of health care economics, financial management, and budgeting that relate to managerial decision making. Applied financial management, management control systems, budgeting, staffing, and cost accounting. (Same as CML 6274).

EHS 6275. Leadership and Change in Emergency Medical Services. 3 Credits.

The concept of leadership within the context of health professions, health systems, and health policy.

ENGINEERING MANAGEMENT AND SYSTEMS ENGINEERING (EMSE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EMSE 1001. Introduction to Systems Engineering. 1 Credit.

Core concepts in systems engineering; processes of system decomposition and integration; upfront conceptual design, rapid prototyping, structured testing, balanced work, lean processes, and design for manufacturability. Restricted to undergraduate systems engineering majors or with the permission of the instructor. (Fall, Every Year).

EMSE 1099. Variable Topics. 1 Credit.**EMSE 2705. Mathematics in Operations Research. 3 Credits.**

Linear algebra topics relevant for optimization methods and models; systems of linear equations, Gaussian elimination, matrix algebra, vector spaces, determinants, linear programming, orthogonality and least squares; mathematical foundations of optimization theory; linear algebra, advanced calculus, convexity theory; geometrical interpretations and use of software. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: MATH 2233. (Same as MATH 2184) (Spring, Every Year).

EMSE 2801. Fundamentals of Systems Engineering. 3 Credits.

The systems approach to designing, building, and operating complex engineering systems; requirements, functional decomposition, systems architecting, analysis of alternatives, project life cycle modeling, cost analysis, and technical performance measurement. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisites: EMSE 1001; and COMM 1040 or COMM 1041 or COMM 1042. (Fall and spring, Every Year).

EMSE 3740W. Systems Thinking and Policy Modeling. 3 Credits.

Introduction to systems thinking and system dynamics approach to policy analysis; applications to business management and public policy; key principles of systems; causal-loop and stock and flow models of business growth, technology adoption, and marketing. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisites: CSCI 1111 or CSCI 1121 or CSCI 1131. (Fall, Every Year).

EMSE 3741. Systems Thinking and Policy Modeling Recitation. 3 Credits.

The practical use of the simulation software. Individually and in groups, students review class material, work on in-class practice problems, enhancing their semester long projects, and prepare for the midterm and final examinations. Corequisites: EMSE 3740W.

EMSE 3760. Discrete Systems Simulation. 3 Credits.

Modeling of the operation of service systems using the discrete event simulation paradigm; theoretical topics including random variable sampling, input distribution fitting, model verification and validation, and aleatory and epistemic uncertainty in the simulation output analysis context. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: EMSE 3740W. (Fall, Every Year).

EMSE 3815. Requirements Analysis and Elicitation. 3 Credits.

The process of translating and decomposing systems engineering objectives into measurable and tractable requirements; how requirements analysis supports general processes and standards through elicitation methods, requirements decomposition, traceability matrices, and systems requirements specifications, and case studies that feature contemporary SE problems. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: EMSE 2801. (Spring, Every Year).

EMSE 3820. Project Management for Engineering Systems. 3 Credits.

Introduction to project management concepts, processes, tools, and techniques; activity planning, budgeting, scheduling, analyzing risk, monitoring and controlling, evaluation and terminating; challenges of uncertainty, risk, and behavioral factors. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisites: APSC 3115 and EMSE 3815. (Spring, Every Year).

EMSE 3850. Quantitative Models in Systems Engineering. 3 Credits.

Introduction to analytical models used in systems engineering to support decision making in business and government; applications to, for example, production planning, workforce scheduling, and network problems; formulating and solving models using spreadsheets. Corequisite: APSC 3115. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: EMSE 2705. (Fall, Every Year).

EMSE 3855W. Critical Infrastructure Systems. 3 Credits.

Topics in engineered infrastructure systems; asset management, environmental impact analysis, input-output life cycle analysis and inoperability modeling, infrastructure risk and reliability analysis, resilience and resistance to natural hazards or service disruptions, and development of infrastructure sustainability metrics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: UW 1020. (Spring, Every Year).

EMSE 4190. Senior Project in Systems Engineering I. 3 Credits.

First of a two-semester senior project to identify real world problems and assess applicable systems engineering methodologies. Project focus varies, but may include Washington, DC, area problems in public infrastructure or the private sector, including transportation, energy, environment, health care, telecommunications. Restricted to undergraduate students majoring in systems engineering. Prerequisites: EMSE 3820 and EMSE 4765. (Fall, Every Year).

EMSE 4191. Senior Project in Systems Engineering II. 3 Credits.

Second phase of a two-semester senior project. Field experience and systems engineering project completion in a team context. Each small group confronts an actual problem, conducts an analysis and formulates a solution using systems engineering methods and models. Oral and written reports demonstrate project management, effective teamwork, and the mastering of applied systems engineering concepts. Restricted to undergraduate students majoring in systems engineering. Prerequisite: EMSE 4190. (Spring, Every Year).

EMSE 4197. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Instructor's permission required prior to registration. (Spring and fall, Every Year).

EMSE 4198. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

EMSE 4410. Engineering Economic Analysis. 3 Credits.

How the concept of time value of money is used to make optimal engineering project investment choices in the face of competing alternatives; life-cycle financial analysis of engineering projects. Provides foundation knowledge for the National Council of Examiners for Engineering and Surveying Fundamentals of Engineering examination. Restricted to undergraduate SEAS students or with permission of the instructor. Prerequisites: ECON 1011 and MATH 1232. (Fall and spring, Every Year).

EMSE 4574. Introduction to Programming for Analytics. 3 Credits.

Introduction to programming using the R programming language. Functions, conditionals, loops, strings, file input/output, plotting, coding style, Monte Carlo methods, and packages. Recommended background: No prior programming experience is needed to succeed in this course. (Fall, Every Year).

EMSE 4575. Exploratory Data Analysis. 3 Credits.

Introduction to exploratory data analysis using the R programming language. Topics include data visualization, data wrangling, reproducibility, information communication, webscraping, github, and rmarkdown. Restricted to students in the data analytics program. Prerequisites: EMSE 4574 or equivalent. Recommended background: Experience with R is recommended but not essential.

EMSE 4710. Applied Optimization Modeling. 3 Credits.

Formulation and analysis of linear, network, and integer optimization models that arise in practice; optimization software to formulate and solve models. Linear optimization theory and algorithms: Simplex method, branch-and-bound, duality theory. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisites: EMSE 2705 and EMSE 3850. (Fall, Every Year) Credit cannot be earned for this course and EMSE 6710.

EMSE 4755. Quality Control and Acceptance Sampling. 3 Credits.

Survey of techniques in quality control, including acceptance sampling, capability analysis, control charts, and design of experiments. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: EMSE 4765. (Fall, Every Year).

EMSE 4765. Data Analysis for Engineers and Scientists. 3 Credits.

Inference methods in a single dimension: estimation, confidence intervals, hypothesis testing and goodness-of-fit testing; multivariate data analysis techniques using matrices and vectors: the Hotelling T-squared test, multiple linear regression and principle component analysis. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: APSC 3115. (Spring, Every Year).

EMSE 4770. Techniques of Risk Analysis and Management. 3 Credits.

Topics and models in current risk analysis; use of quantitative and qualitative methods in risk analysis; modern applications of risk-based planning and risk management. Restricted to undergraduate students majoring in systems engineering or with the permission of the instructor. Prerequisite: EMSE 4755. (Spring, Every Year).

EMSE 5099. Variable Topics. 1-99 Credits.

EMSE 6001. The Management of Technical Organizations. 3 Credits.

Introduction to management theory and practice for engineers advancing to leadership and engineering management roles. (Spring, Every Year).

EMSE 6005. Organizational Behavior for the Engineering Manager. 3 Credits.

Individual and group behavior in the context of technical organizations, focused on relationships and interactions within an organization's operating activities. Individual and group development and motivation. Organizational structures and cultures. (Spring, Every Year).

EMSE 6014. Management of Engineering Contracts. 3 Credits.

The total contracting process considered from the perspectives of the industrial and government buyer and the seller of technical materials and services. (Fall, even years).

EMSE 6018. Engineering Law. 3 Credits.

Legal principles and procedures of interest to engineers. The American legal system, contracts and specifications, liability of professional engineers, product liability, agency relationships, patent and proprietary rights, special problems in research and development contracts. (Fall, odd years).

EMSE 6020. Decision Making with Uncertainty. 3 Credits.

Problem formulation. Concepts and techniques used in analyzing complex decision problems. Modeling decision problems using decision trees, probability models, multi-objective models and utility theory. (Fall, Every Year).

EMSE 6023. Technology Issue Analysis. 3 Credits.

Contextual background and intellectual basis for addressing technology issues in the public and private sectors. Technology impact assessment, forecasting, and innovation; principles and practices of technology transfer as elements of a systematic approach to making technology decisions. (Fall, odd years).

EMSE 6025. Entrepreneurship and Technology. 3 Credits.

Concepts and methods associated with starting an entrepreneurial venture: organization design, team building, protection of intellectual property, strategies for developing and marketing a technology product; financial, legal, and market valuation issues and methods for a start-up venture. (Fall, even years).

EMSE 6026. Technical Enterprises. 3 Credits.

Essential features of technology-based companies from the entrepreneur's point of view. Team preparation of a simulated business plan for a technology-based company. Designed for those working in technical firms and for government personnel who depend on technical firms as suppliers. (As arranged).

EMSE 6030. Technological Forecasting and Management. 3 Credits.

Concepts and methods for understanding the dynamics of technological change. Issues in technology assessment, technology transfer, and strategic management of technology. (Spring, even years).

EMSE 6035. Marketing Analytics for Design Decisions. 3 Credits.

Analyzing data to inform design decisions in an uncertain, competitive, market, topics include consumer choice modeling, programming in R, survey design, conjoint analysis, optimization market simulation, and professional communication skills. (Fall, Every Year).

EMSE 6045. International Technology Commercialization. 3 Credits.

The process of moving ideas to commercial reality in an international setting. Interdisciplinary approach that weaves together study of international and organizational cultures and dynamics, with the disciplines of analytics, engineering management, entrepreneurship, marketing, and technology forecasting, to commercialize innovations in technology. (Spring, Every Year).

EMSE 6070. Management of Research and Development. 3 Credits.

Seminar on readings and classic and contemporary case studies in the strategic management of innovation and technology. (Fall and spring).

EMSE 6099. Problems in Engineering Management and Systems Engineering. 3 Credits.

Capstone project providing the opportunity to apply concepts and tools previously studied to the solution of a real-world problem. Students work in small groups on a problem proposed by students and approved by the instructor. Restricted to master's candidates in the department, preferably during the last semester of their program. (Spring, Every Year).

EMSE 6115. Uncertainty Analysis for Engineers. 3 Credits.

Basics of probability theory and statistics, with a focus on engineering applications, particularly in the realm of systems. Topics include simulation, uncertainty analysis, central limit theorem, systems examination and analysis, and application to systems design and management. (Fall, spring, and summer, Every Year) Credit cannot be earned for this course and APSC 3115.

EMSE 6200. Policy Factors in Environmental and Energy Management. 3 Credits.

Exploration of the policy development process from several different but integrated perspectives. Focus on areas of environmental and energy management and use of current case studies to develop a framework of understanding to support decisions in a broad variety of management settings. (Spring, odd years).

EMSE 6220. Environmental Management. 3 Credits.

Technical, economic, political, administrative, and social forces influencing the quality of the environment and the use of resources. Government and industrial programs to combat pollution of the air, soil, and water; existing and pending pertinent legislation; theoretical aspects of specific management problems. (Fall, odd years).

EMSE 6225. Air Quality Management. 3 Credits.

The nature of critical local, regional, continental, and global problems associated with air pollution and the historical evolution of such problems. The complex regulatory and institutional framework controlling air quality management in the U.S. Current air quality management concepts and processes. (Spring, odd years).

EMSE 6230. Hazardous Waste Management and Cleanup. 3 Credits.

Hazardous waste management and cleanup processes used in the U.S. and around the world. The roles of the relevant federal, state, and local government agencies; major hazardous waste laws and regulations. Planning, assessment, investigation, design, and construction phases of hazardous waste remediation projects. (Spring, even years).

EMSE 6235. Water Quality Management. 3 Credits.

The nature of point and non-point sources of surface and ground water pollution and the statutory, regulatory, and institutional framework controlling water quality management activities in the U.S. Current approaches to water quality protection and enhancement. The role of engineered treatment processes in water quality management. (Spring, even years).

EMSE 6240. Environmental Hazard Management. 3 Credits.

Causes and effects of extreme natural and technological hazards. Organizational responsibilities, management approaches, directed technologies, and social factors related to environmental hazard assessment. Cultural, institutional, and technical capacities bearing on environmental disaster management, national and international risk reduction, and mitigation measures. (Spring, Odd Years).

EMSE 6245. Analytical Tools for Environmental Management. 3 Credits.

A survey course in environmental management, focusing on tools to assess the environment: quantitative risk assessment, environmental valuation methodologies, Congressional activities, and environmental laws. The regulatory process as it relates to environmental management. Risk assessment and modeling approaches to solving environmental problems. (Spring, odd years).

EMSE 6260. Energy Management. 3 Credits.

Examination of the range of available energy resources, trends in their use, the programs and organizations that have developed and evolved to address problems associated with energy resource use. (Fall, even years).

EMSE 6285. Analytical Tools for Energy Management. 3 Credits.

Analytical tools needed to manage energy resources at the facility level. Energy technologies: instrumentation, measurement, and control. Energy auditing; conservation techniques, financial and economic analysis, and maintenance of energy budgets. Functions of an energy management office of a large organization. (Fall, even years).

EMSE 6290. Climate Change: Policy, Impacts, and Response. 3 Credits.

The known and unknown in climate change science; strategies and technologies for mitigation of and adaptation to the impact of climate change; international issues related to avoidance, challenges posed by as yet undefined effects, and responsibilities mandated by existing and proposed laws, executive orders, regulations, and court rulings. (Fall, odd years).

EMSE 6291. Greenhouse Gas Measurement and Reporting. 3 Credits.

Study of existing methodologies and standards for measuring and reporting greenhouse gas (GHG) emissions with particular emphasis on accepted environmental accounting frameworks for the business sector and regulatory schemes. (Fall and spring, Every Year).

EMSE 6292. Greenhouse Gas Mitigation. 3 Credits.

Conducting mitigation analyses, identifying, and analyzing projects to reduce greenhouse gas emissions with a focus on energy efficiency and renewable energy; monitoring and reporting emission reductions using accepted methodologies; use of carbon markets as a tool for cost-effective mitigation. This course is taught online. (Fall and spring, Every Year).

EMSE 6293. Greenhouse Gas Management Assurance and Information Systems Design. 3 Credits.

Design of information systems for management of greenhouse gas emissions. Assurance of greenhouse gas emissions assertions. This course is taught online. (Fall and spring, Every Year).

EMSE 6295. Environmental Security. 3 Credits.

Overview of potential terrorist attack vectors on government-owned and private sector assets most directly tied to environmental health and safety. Homeland security requirements for environmental infrastructure, water supplies, energy sources, nuclear waste, and other programs vulnerable to targeting. Courses of action designed to prevent attacks. (Fall).

EMSE 6300. Homeland Security: The National Challenge. 3 Credits.

Evolution of homeland security as a concept, legal framework, and redirection of national policies and priorities. Issues and problems of implementation. Evolution of terrorist threat and U.S. response. Fundamental policy legislation and documents. (Spring, Every Year).

EMSE 6305. Crisis and Emergency Management. 3 Credits.

Defining crises, emergencies, and disasters; developing crisis, business continuity, and incident management plans within robust emergency management programs; National Response Framework and National Incident Management System; organizing for response, managing the response organization, managing in a turbulent environment, and crisis decision making and communication. (Fall, Every Year).

EMSE 6310. Information Technology in Crisis and Emergency Management. 3 Credits.

The role of information in crisis and response management, determining disaster and crisis information requirements; information technologies applied to crisis, disaster, and emergency management; causes and effects of information breakdowns. (Spring, even years).

EMSE 6315. Management of Risk and Vulnerability for Hazards and Terrorism. 3 Credits.

Development of concepts required for risk-based planning and risk management. Objectives and methods for vulnerability assessment for natural disaster, technological hazards, and terrorist threats. Risk analysis, perception, communication, and mitigation. (Fall, odd years).

EMSE 6320. International Disaster Management. 3 Credits.

Guiding principles, key institutions, operational requirements, policy issues, and broad fundamentals associated with international disaster risk reduction and humanitarian response to natural and man-made disasters and complex emergencies. (Fall).

EMSE 6325. Medical and Public Health Emergency Management. 3 Credits.

Medical and public health management issues encountered in crises, emergencies, and disasters for non-medical emergency managers. The spectrum of medical, public health, psychological and behavioral problems; incident management organization and processes that address these concerns and integrate medical and public health assets into the response. (Spring).

EMSE 6330. Management of Terrorism Preparedness and Response. 3 Credits.

Terrorism, terrorist methods, and human/infrastructure vulnerability. Current preparedness and response programs. Mitigation, preparedness, and response requirements to manage mass terrorism incidents within the context of all-hazard emergency management. Case studies. (Fall).

EMSE 6345. Disaster Recovery and Organizational Continuity. 3 Credits.

Disaster recovery planning and business continuity. Recovery of information and communication systems. The role of the private sector in mitigation and recovery. Public/private partnerships in community reconstruction and recovery. (Spring).

EMSE 6350. Hazard Mitigation in Disaster Management. 3 Credits.

Risk reduction through hazard mitigation and its role in an emergency management program; analysis of past and current government and private-sector programs; examination of new approaches with case study examples; structural versus nonstructural actions; mitigation of the terrorism risk. (Fall). (Fall, Every Year).

EMSE 6410. Survey of Finance and Engineering Economics. 3 Credits.

Survey of material relevant to financial decision making for engineering activity; traditional engineering economy topics; fundamentals of accounting; financial planning, budgeting, and estimating applicable to management of technical organizations. (Fall, Every Year).

EMSE 6420. Uncertainty Analysis in Cost Engineering. 3 Credits.

Basic skills for building probability models to perform meaningful engineering economic studies, financial feasibility assessments, and cost uncertainty analysis in the planning phase of engineering projects; analytical and closed form equations from probability theory; simulation modeling for problems with structures without closed form equations. Prerequisite: EMSE 6410. (Spring, Every Year).

EMSE 6430. Financial Management for Engineers. 3 Credits.

Management of existing resources, including the use of financial statements and ratio analysis to assess a company's financial health, its strengths, weaknesses, recent performance, and future prospects; financial forecasting and planning with particular emphasis on managing growth and decline; financing of company operations, including a review of the principal security types, the markets in which they trade, and the proper choice of security type by the issuing company; the use of discounted cash flow techniques, such as the net present value and the internal rate of return, to evaluate investment opportunities. Prerequisite: EMSE 6410. (Fall, Every Year).

EMSE 6450. Quantitative Methods in Investment Engineering. 3 Credits.

Cash flow streams and the basic theory of interest; bond pricing and immunization of bond portfolios, the term structure of interest rates, mean-variance portfolio theory and the capital asset pricing model; value at risk. Restricted to SEAS Graduate students or permission of instructor. Recommended background: Technical background at the level of a bachelor's degree in engineering, mathematics, or science and working knowledge of Microsoft Excel. (Spring, Every Year).

EMSE 6505. Knowledge Management I. 3 Credits.

The foundations of knowledge management, including cultural issues, technology applications, organizational concepts and processes, management aspects, and decision support systems. Case studies. (Fall).

EMSE 6506. Knowledge Management II. 3 Credits.

A capstone course. Students work in teams, applying principles and processes of systems thinking, systems engineering, and integrative management in the design and implementation of a knowledge management system. Prerequisite: EMSE 6505.

EMSE 6507. Advanced Knowledge Management. 3 Credits.

Advanced study of contemporary knowledge management: cost estimating methods, development of enterprise-level strategies, structure of strategic leadership in managing intellectual capital and competitive intelligence. (Fall, spring, and summer, Every Year).

EMSE 6510. Decision Support Systems and Models. 3 Credits.

Theory of decision making—a cognitive view. Modeling decision maker heuristics and processes. Design, implementation, and evaluation of state-of-the-art DSS (hands-on). Assess impact of behavioral, situational, and organizational variables. (Fall).

EMSE 6537. Information Operations. 3 Credits.

National security concerns of governments and business about attacks across national borders and through physical protective mechanisms. The emergence of information technologies, from casual to full-fledged operational scale, to advance causes. Specific examples (e.g., attacks on Estonia, Palestinian conflict). (On demand).

EMSE 6540. Management of Information and Systems Security. 3 Credits.

Information and information security defense techniques and countermeasures with defense fundamentals; critical infrastructure protection; network defense techniques such as designing firewall systems and IDS, VPNs, cryptographic solutions, Internet security protocols, and cyber security and information assurance tenants such as confidentiality, Integrity, availability, authentication and non-repudiation. (Fall, Every Year).

EMSE 6542. Cybersecurity Risk Management and Compliance. 3 Credits.

Cybersecurity threats and other risks to an organization's core business; risk-based planning and risk management of cybersecurity at the enterprise level; risk assessment and modeling approaches to cybersecurity issues related to security structures, sustaining healthy cybersecurity posture, and satisfying compliance with risk frameworks. Prerequisite: EMSE 6540. (Fall, spring, and summer, Every Year).

EMSE 6543. Managing the Protection of Information Assets and Systems. 3 Credits.

Advanced topics in protection of information assets and systems, including authentication, asset control, security models and kernels, physical security, personnel security, operational security, administrative security, security configuration management, and resource control. Prerequisite: EMSE 6540.

EMSE 6544. Auditing, Monitoring, and Intrusion Detection for Information Security Managers. 3 Credits.

Methods for detecting problems with unauthorized activity in information systems and management challenges associated with those activities. Prerequisite: EMSE 6540.

EMSE 6545. Internet and Online Law for Security Managers. 3 Credits.

Legal issues regarding control of behavior, information security mechanisms, and information systems engineering in connected enterprises. Specific laws and regulations governing Internet and online activity, jurisdictional challenges associated with networked computing, and business law in cyberspace. (Fall and spring, Every Year).

EMSE 6546. Cybercrime for Information Security Managers. 3 Credits.

Information security actions related to and in response to criminal activity, including industrial espionage, back-hacking, cracking, and cyberterrorism. Transnational issues, cybercrime treaties and conventions, and cyberwar issues. (Fall, spring, and summer, Every Year).

EMSE 6547. Cyber Resilience. 3 Credits.

Resilience planning for cybersecurity; assessment and modeling approaches to limit system failure toward creating a cyber-resilient organization; recognition, resistance, recovery, reinstatement from the perspectives of information technologists and engineering managers; existing cybersecurity reliance frameworks; potential policies to sustain a healthy and robust security posture. (Fall, spring, and summer, Every Year).

EMSE 6549. Business and Competitive Intelligence. 3 Credits.

Discovery and analysis of competitive information from open-source intelligence. Sources and methods for data collection; legal issues and constraints; analysis processes; longitudinal aspects; inference. (Spring).

EMSE 6560. Open-source Intelligence Analysis. 3 Credits.

Data analytics tools and develop decision support frameworks to identify threats, evaluate capability of actors to exploit vulnerabilities, and evaluate the risk of damage. Overview of strategies for mining/aggregating data across multiple sources. Restricted to SEAS online students. (As arranged, Every Year).

EMSE 6570. Information Management and Information Systems. 3 Credits.

The use of information in organizations, the management of the information resource; the impact of information and communication technology. (Spring).

EMSE 6573. Managing E-Commerce Technologies. 3 Credits.

Principles of good e-business management. Methods of conducting e-commerce—major opportunities, limitations, issues, and risks. Popular technologies for building e-businesses, security authentication, privacy, acceptable use policies, and legal limits. (Fall, odd years).

EMSE 6574. Programming for Analytics. 3 Credits.

Introduction to programming for data analytics using the Python programming language. Prepares students for higher-level courses in data analytics. Recommended background: Some prior experience with programming. (Fall, Every Year).

EMSE 6575. Applied Machine Learning for Analytics. 3 Credits.

Methods and techniques for discovering patterns and relationships in aggregated data, with practical focus on engineering problems. Tools, techniques, and methods explored in the context of their application. Students are expected to have completed coursework in linear algebra and probability and statistics prior to enrollment. Prerequisite: EMSE 6574. (Spring, Every Year).

EMSE 6577. Data-Driven Policy. 3 Credits.

The application of data mining algorithms and other computational techniques to answer questions related to policy; problem formulation, tool selection, and interpretation of analysis results; volume, velocity, variety, veracity, and value. May serve as a capstone course in the data analytics sequence. Prerequisites: EMSE 6705, EMSE 6575 and EMSE 6765. (Spring, Every Year).

EMSE 6579. Applied Data Mining in Engineering Management. 3 Credits.

Methods and techniques for discovering patterns and relationships in aggregated data, with practical focus on engineering problems. Tools, techniques, and methods explored in the context of their application. Prerequisite: EMSE 6020, EMSE 6586.

EMSE 6580. Information and Software Engineering. 3 Credits.

Introduction to analysis and design of information systems including requirements analysis, project management, and software architectures. Introduction to CASE tools. Prerequisite: EMSE 6570 or permission of instructor.

EMSE 6582. Object-Oriented Analysis and Design. 3 Credits.

The object-relationship model and the object-behavior model. Managing complexity with views and high-level modeling in object-oriented systems analysis. The concepts, the method, and applications, including object-based and object-oriented languages. Prerequisite: EMSE 6580.

EMSE 6584. Fundamentals of Artificial Intelligence. 3 Credits.

History of AI, expert systems, knowledge representation, search and control techniques, natural language processing, computer vision, computer speech, knowledge-based systems, and evidential reasoning. Hands-on experience with a knowledge-based shell. (Spring).

EMSE 6586. Data Management Systems for Data Analytics. 3 Credits.

Study and design of database and data management systems for big data and data analytics; design of relational database systems and the SQL query language; NoSQL databases for unstructured data, including key-value, distributed table, graph databases, parallel processing databases. Prerequisite: EMSE 6574. (Spring, Every Year).

EMSE 6588. Software Project Development with CASE. 3 Credits.

Evaluation and selection of CASE tools, use of CASE tools in software design/project. Graphical user interface and re-engineering tools. Open only to master's candidates in the department during the last semester of their program. Prerequisite: EMSE 6580.

EMSE 6589. Data Communications and Networks. 3 Credits.

Technical and managerial aspects of data communications, with emphasis on communication networks. Methodologies used in data communications, communication networks, and distributed data processing. (On demand).

EMSE 6701. Operations Research Methods. 3 Credits.

Deterministic and stochastic methods. Optimization algorithms: Simplex method, Branch and Bound, combinatorial algorithms, heuristic methods. Optimization theory: convexity, duality, sensitivity analysis. Stochastic optimization: marginal analysis, Markov chains, Markov decision processes. Prerequisite: APSC 3115 or EMSE 6020, MATH 2233, or permission of instructor.

EMSE 6705. Mathematics in Operations Research. 3 Credits.

Mathematical foundations of optimization theory: linear algebra, advanced calculus, convexity theory. Geometrical interpretations and use of software. Prerequisite: MATH 2233.

EMSE 6710. Applied Optimization Modeling. 3 Credits.

Analysis of linear, integer, and nonlinear optimization models of decision problems that arise in industry, business, and government. Modeling techniques and applications; use of optimization software to solve models. Prerequisite: EMSE 6850 or permission of instructor.

EMSE 6715. Theory of Games. 3 Credits.

Mathematical models of conflict and cooperation with applications in economics, business, defense, transportation, and societal issues (voting schemes, fair division, auctions). Concept and computation of equilibrium in n-person games. Prerequisite: MATH 2233 or permission of instructor.

EMSE 6720. Topics in Optimization. 3 Credits.

Selected topics from the fields of linear programming, nonlinear programming, dynamic programming, heuristics, and constraint programming. May be repeated for credit provided the topic differs. Prerequisite: EMSE 6701 or permission of instructor.

EMSE 6730. Integer and Network Programming. 3 Credits.

Combinatorial optimization problems: algorithms and applications. Network problems: minimum spanning tree, shortest path, maximum flows, minimum cost flows, optimal matchings, routing problems. Complexity theory. Enumeration and cutting plane methods for solving integer programs. Prerequisite: EMSE 6701 or permission of instructor.

EMSE 6740. Systems Thinking and Policy Modeling I. 3 Credits.

Introduction to systems thinking and the system dynamics approach to policy analysis, with applications to business management and public policy. Causal-loop and stock and flow models of business growth, technology adoption, and marketing. Use of role-based games to explain key principles of systems. Use of simulation software to model problems and case studies.

EMSE 6745. Systems Thinking and Policy Modeling II. 3 Credits.

Case studies in dynamic policy analysis. Use of microcomputers in simulation. The class collectively models and simulates a social system to explore policy options. Prerequisite: EMSE 6740.

EMSE 6750. Stochastic Foundations of Operations Research. 3 Credits.

Topics in probability theory, stochastic processes, and statistical inference. Foundations of probability, conditional probability and expectation, Poisson processes, Markov chains, and Brownian motion. Prerequisite: APSC 3116 or permission of instructor.

EMSE 6755. Quality Control and Acceptance Sampling. 3 Credits.

Statistical approaches to quality assurance. Single and multivariate control charts, acceptance sampling by attributes and variables, process capability and design of experiments. Prerequisite: APSC 3115 or permission of instructor.

EMSE 6760. Discrete Systems Simulation. 3 Credits.

Analytical methods for the solution of problems in engineering using concepts from probability and statistics: probability modeling, random variables and their distributions, mathematical expectation, sampling, point and confidence interval estimation, hypothesis testing, correlation, regression, and engineering applications. Restricted to SEAS graduate students. Prerequisites: One of the following: CSCI 1121, CSCI 1041, CSCI 1111, or permission of instructor. (Spring, Every Year).

EMSE 6765. Data Analysis for Engineers and Scientists. 3 Credits.

Design of experiments and data collection. Regression, correlation, and prediction. Multivariate analysis, data pooling, data compression. Model validation. Prerequisites: APSC 3115 or permission of instructor. (Fall, spring, and summer, Every Year).

EMSE 6767. Applied Data Analytics. 3 Credits.

Applied and practical data analytics. High-level theory, with primary focus on practical application of a broad set of statistical techniques needed to support an empirical foundation for systems engineering and engineering management. A variety of practical visualization and statistical analysis techniques. Leveraging Minitab and Excel to examine raw data to arrive at insightful conclusions. (Fall, spring, and summer, Every Year).

EMSE 6770. Techniques of Risk Analysis and Management. 3 Credits.

Topics and models in current risk analysis; modern applications of risk-based planning and risk management; use of quantitative methods in risk analysis. (Spring).

EMSE 6790. Logistics Planning. 3 Credits.

Quantitative methods in model building for logistics systems, including organization, procurement, transportation, inventory, maintenance, and their interrelationships. Stresses applications. Prerequisite: APSC 3115, MATH 1232.

EMSE 6801. Systems Engineering I. 3 Credits.

Systems approach to the architecting and engineering of large-scale systems; elements of systems engineering; methods and standards; computer tools that support systems and software engineering; trends and directions; the integrative nature of systems engineering. (Fall, spring, and summer).

EMSE 6805. Systems Engineering II. 3 Credits.

Application of systems engineering tools to provide hands-on experience with essential elements of practice. Processes of requirements engineering, functional analysis and allocation, risk management, architecting; architectural heuristics, axiomatic design, analytical assessment of alternative architectures. Prerequisite: EMSE 6801.

EMSE 6807. Advanced Systems Engineering. 3 Credits.

Analysis of advanced systems engineering topics; system lifecycle models, INCOSE Vision 2025, requirements types and processes, architectural design processes and frameworks, DoDAF artifacts, enterprise architecture and enterprise systems engineering, complex adaptive systems (CAS), modeling languages and SysML, and Model Based Systems Engineering (MBSE). Applications of systems engineering tools and techniques. (Spring, Every Year).

EMSE 6810. Systems Analysis and Management. 3 Credits.

The systems or holistic approach as a methodology for making decisions and allocating resources. Analysis by means of objectives, alternatives, models, criteria, and feedback. (fall, spring, summer).

EMSE 6815. Requirements Engineering. 3 Credits.

Requirements in systems engineering, including requirement types, quality factors, elicitation methods, analysis, derivation of implicit requirements, management, traceability, verification, cross-requirement assessments, and validation. Focus on writing and managing quality requirements in complex systems. Prerequisite: EMSE 6801.

EMSE 6817. Model-Based Systems Engineering. 3 Credits.

Model-based systems engineering and its derivative, evidence-based systems engineering, as techniques with potential for improving the technical integrity of complex systems. The foundation to these model- and research-based techniques for system definition and analysis as applied to life-cycle systems engineering. Prerequisites: EMSE 6805 or permission of the instructor. (Fall, spring, and summer, Every Year).

EMSE 6820. Program and Project Management. 3 Credits.

Problems in managing projects; project management as planning, organizing, directing, and monitoring; project and corporate organizations; duties and responsibilities; the project plan; schedule, cost, earned-value and situation analysis; leadership; team building; conflict management; meetings, presentations, and proposals. (Fall).

EMSE 6825. Project Cost and Quality Management. 3 Credits.

Developing project cost and resource estimates during the planning stages. Monitoring, forecasting, and controlling cost throughout the project life cycle. Project quality planning, assurance, and control. Relationships among project scope, time, cost, quality, human resources, communications, procurement, and risk. Preparation for the Project Management Professional examination. Prerequisite: EMSE 6820.

EMSE 6830. Human Factors Engineering. 3 Credits.

Study of the human-machine interface applied to system design, job design, and technology management. Human sensory-motor, perceptual, and cognitive functions; task analysis and allocation; contextual aspects of human factors engineering. Modeling, design, and evaluation methodologies. Applications to user-centered industrial and information systems. (As required).

EMSE 6840. Applied Enterprise Systems Engineering. 3 Credits.

Applications of systems engineering in the U.S. Department of Defense and other federal government entities as well as commercial sectors; architectural frameworks and enterprise architecting concepts and practices, including JCIDS/DODAF, federal enterprise architecture framework, and Zachman Framework; enterprise architecting and advanced modeling tools. Prerequisite: EMSE 6801. (Fall, spring, and summer, Every Year).

EMSE 6845. Lean and Agile Systems Engineering. 3 Credits.

Lean and agile methods as applied to the engineering design and development of systems; review of contemporary implementation frameworks, methodologies, and the tools used to support them. Implications for traditional systems engineering; fundamental changes to the requirements processes; implications for engineering management. Prerequisite: EMSE 6805. (Spring, Every Year).

EMSE 6848. Systems of Systems. 3 Credits.

Complex systems engineering in terms of systems of systems (SoS); theoretical and practical instances of SoS; application of lifecycle systems engineering processes; various types of SoS and the challenges to be faced to ensure their acquisition and technical integrity. Prerequisite: EMSE 6805. (Spring, Every Year).

EMSE 6850. Quantitative Models in Systems Engineering. 3 Credits.

Quantitative modeling techniques and their application to decision making in systems engineering. Linear, integer, and nonlinear optimization models. Stochastic models: inventory control, queuing systems, and regression analysis. Elements of Monte Carlo and discrete event system simulation. Prerequisite: APSC 3115 or EMSE 6020.

EMSE 6855. Reliability Analysis and Infrastructure Systems. 3 Credits.

Modeling basic variables and defining the limit-state surface. Computing the reliability index of an infrastructure system by approximating the limit-state surface—FORM and SORM. Modeling an infrastructure system. Reliability analysis using branch and bound, failure paths and failure modes, identification of dominant failure paths. Case studies. (Fall).

EMSE 6991. Project for Professional Degree. 3 Credits.

Limited to students in the Applied Scientist or Engineer degree program.

EMSE 6992. Special Topics. 3 Credits.

Selected topics in engineering management and systems engineering, as arranged. May be repeated for credit. Permission of the instructor required prior to enrollment. (Fall and spring, Every Year).

EMSE 6995. Research. 1-12 Credits.

Basic or applied research in engineering management or systems engineering. Open to master's degree candidates in the department. May be repeated for credit.

EMSE 6997. Advanced Topics in Operations Research. 3 Credits.

Advanced topics from the literature of operations research for analysis, presentation, and discussion. Reading assignments from professional journals selected by the instructor and the student. May be repeated for credit. Prerequisite: permission of instructor.

EMSE 6998. Thesis Research. 3 Credits.

EMSE 6999. Thesis Research. 3 Credits.

EMSE 8000. Research Formulation in Engineering Management and Systems Engineering. 3 Credits.

First in a two-course sequence of doctoral seminars designed to give students their first exposure to the process of formulating and executing empirical research. Class format includes discussion, field experiments, data analysis, and theorizing. Study of core concepts in building theory from empirical data and classic works in technically-oriented management theory. Participants design and execute a research project. Restricted to EMSE PhD students. (Spring, Every Year).

EMSE 8001. Research Methods for Engineering Management and Systems Engineering. 3 Credits.

Second in a two-course sequence introducing doctoral students to the fundamentals of research design and methods. Introduction to a range of research methods relevant to the study of engineering management and systems engineering, reading, writing, and critiquing the elements of a research proposal. Restricted to EMSE PhD students. Prerequisite: EMSE 8000. (Fall, Every Year).

EMSE 8010. Advanced Topics in Optimization. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisite: EMSE 6701, EMSE 6705 or permission of instructor.

EMSE 8020. Advanced Stochastic Models in Operations Research. 3 Credits.

Applied probability models, including the Poisson process, continuous-time, denumerable-state Markov processes, renewal theory, semi-Markov regenerative processes. Applications to queues, inventories, and other operations research systems. Prerequisite: permission of instructor.

EMSE 8030. Risk Management Process for the Engineering Manager. 3 Credits.

Risk management process; individual and collaborative responsibilities of program and engineering managers; practical applications of risk-based planning and risk management tools essential to success of any program; communicating the process and its value in avoiding catastrophic outcomes. Case studies. (Fall, spring, and summer, Every Year).

EMSE 8099. Survey of Research Formulation for Engineering Management. 3 Credits.

Researching the praxis paper. Introduces the design of research studies in applied engineering management settings from a practical perspective. Fundamentals of applied research, formulating research questions/hypotheses and research designs from empirical data. Restricted to students in the DEng in the field of engineering management program. (Fall, spring, and summer, Every Year).

EMSE 8100. The Praxis Proposal. 3 Credits.

Overview of research methods; aims and purposes of the praxis; development of praxis research strategies; formulation and defense of a praxis proposal. Praxis proposal defense must be passed before the student is admitted to degree candidacy to undertake praxis work. Restricted to students who have completed all required coursework for the DEng in the field of engineering management degree. (Fall, spring, and summer, Every Year).

EMSE 8199. Praxis Research. 1-12 Credits.

Independent applied research in engineering management culminating in the final praxis report and final examination for the degree of doctor of engineering. May be repeated for credit. Restricted to students in the DEng in the field of engineering management program who have passed the praxis proposal defense. Prerequisite: EMSE 8100. (Fall, spring, and summer, Every Year).

EMSE 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates. (Fall and spring, Every Year).

EMSE 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates. (Fall and spring, Every Year).

ENGLISH (ENGL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ENGL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

ENGL 1050. Introduction to Literary Studies. 3 Credits.

How to read and interpret literature at the college level and beyond. Close readings of poetry, fiction, and drama, emphasizing genre and form.

ENGL 1099. Variable Topics. 1-36 Credits.**ENGL 111W. Preparation-Peer Tutors-Writing. 3 Credits.****ENGL 1210. Introduction to Creative Writing. 3 Credits.**

An exploration of genres of creative writing (fiction, poetry, and/or playwriting). Basic problems and techniques; examples of modern approaches; weekly writing assignments; workshop and/or conference discussion of student writing.

ENGL 1300. The Bible as Literature. 3 Credits.

The Bible in translation as a literary object; the historical context in which its many parts were composed and its literary themes, styles, and structures.

ENGL 1305. Colonial/Post-Colonial British Literature. 3 Credits.**ENGL 1315. Literature and the Financial Imagination. 3 Credits.**

Literary studies focused broadly on representations of business, finance, or commerce; the economics of literary production; and/or theories of economic class as they pertain to literary works. Topic, genre, and time period vary by instructor.

ENGL 1320. Literature of the Americas. 3 Credits.

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe. Same As: ENGL 1320W.

ENGL 1320W. Literature of the Americas. 3 Credits.

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1320.

ENGL 1330. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor. Same As: ENGL 1330W.

ENGL 1330W. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1330.

ENGL 1340. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world? Same As: ENGL 1340W.

ENGL 1340W. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world? Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1340.

ENGL 1351. Shakespeare Seminar. 3 Credits.

Seminar course for first-year students in the Dean's Scholars in Shakespeare Program. Literary study of Shakespeare's poems and plays along with those of his contemporaries. Topic, genre, and time period vary by instructor.

ENGL 1360. Fantasy and Speculative Fiction. 3 Credits.

General overview of fantasy and speculative fiction. Topics may vary.

ENGL 1365. Literature and the Environment. 3 Credits.

The depiction of the nonhuman world in literature and film; how natural and built environments are translated into narrative; the relationship between literary production and environmental action.

ENGL 1370. Topics in Global Cinema. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more details.

ENGL 1500. American Political Fictions. 3 Credits.

Examination of writing about U.S. politics and political figures through intensively subjective first-person points of view. Writers as influential diagnosticians of governance practices.

ENGL 1712W. Bollywood Cinema. 3 Credits.**ENGL 1830W. Tragedy. 3 Credits.**

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 1840W. Comedy. 3 Credits.

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

ENGL 2100. Introduction to Asian American Studies through Literature. 3 Credits.

Major topics in Asian American culture and history, including identity, crosscultural and gender norms, racial formation, and exclusion. Writing and film about Asian Americans of East Asian, Southeast Asian, South Asian, Filipino, and mixed ancestry. Recommended background: Prior completion of UW 1020 or equivalent is suggested but not required.

ENGL 2210. Techniques in Creative Writing. 3 Credits.

The craft and technique of creative writing and/or theories of creative writing. Topics vary by semester. Consult the Schedule of Classes for more information.

ENGL 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature. Literary and theatrical techniques used by playwrights. Same As: CTAD 2240. Credit cannot be earned for this course and TRDA 2240.

ENGL 2250. Dramatic Writing. 3 Credits.

Workshop in playwriting and screenwriting, with emphasis on dramatic structure. (Same as TRDA 2250).

ENGL 2410. Introduction to English Literature I. 3 Credits.

Study of British authors from the Middle Ages to the French Revolution. These may include Chaucer, Shakespeare, Donne, Milton, Swift, Gay, Johnson, and Gray.

ENGL 2410W. Introduction to English Literature I. 3 Credits.

Study of British authors from the Middle Ages to the French Revolution. These may include Chaucer, Shakespeare, Donne, Milton, Swift, Gay, Johnson, and Gray. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2411. Introduction to English Literature II. 3 Credits.

Surveys literature from two of the traditional period units in British Literature, the Romantic Period (roughly 1785 to 1832), and the Victorian Period (roughly 1832 to 1901), with some additional twentieth century texts.

ENGL 2411W. Introduction to English Literature II. 3 Credits.

Surveys literature from two of the traditional period units in British Literature, the Romantic Period (roughly 1785 to 1832), and the Victorian Period (roughly 1832 to 1901), with some additional twentieth century texts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2460. Fiction Writing. 3,4 Credits.

The writing of fiction. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2470. Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2510. Introduction to American Literature I. 3 Credits.

Historical survey of early American writing through Melville, Whitman, and Dickinson.

ENGL 2510W. Introduction to American Literature I. 3 Credits.

Historical survey of early American writing through Melville, Whitman, and Dickinson. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2511. Introduction to American Literature II. 3 Credits.

Reading of significant works by modern American authors such as Wharton, Chopin, Crane, London, Frost, Morrison. Hughes, and Faulkner.

ENGL 2511W. Introduction to American Literature II. 3 Credits.

Reading of significant works by modern American authors such as Wharton, Chopin, Crane, London, Frost, Morrison. Hughes, and Faulkner. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2560. Intermediate Fiction Writing. 3 Credits.

The writing of fiction. Prerequisite: ENGL 2460 .

ENGL 2570. Intermediate Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2610. Introduction to Black Literature of America I. 3 Credits.

Survey of significant works of black American literature from the late eighteenth century to the turn of the twentieth century, with a particular emphasis on the slave narrative.

ENGL 2610W. Introduction to Black Literature of America I. 3 Credits.

Survey of significant works of black American literature from the late eighteenth century to the turn of the twentieth century, with a particular emphasis on the slave narrative. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2611. Introduction to Black Literature of America II. 3 Credits.

Influential black writers and literary trends of the twentieth century. How the Great Migration altered black American life and how black literature registered the concerns of the Civil Rights, Black Power, feminist, and anti-war movements.

ENGL 2611W. Introduction to Black Literature of America II. 3 Credits.

Influential black writers and literary trends of the twentieth century. How the Great Migration altered black American life and how black literature registered the concerns of the Civil Rights, Black Power, feminist, and anti-war movements. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2710. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Same As: WGSS 2710.

ENGL 2710W. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2711. Postcolonialism and Migration in Global Anglophone Literature and Film. 3 Credits.

Migration and politics as represented in world Anglophone literature and film; theories and histories of migration, feminist theory, and ethnic studies engaged in conversation with cultural texts.

ENGL 2711W. Postcolonialism and Migration in Global Anglophone Literature and Film. 3 Credits.

Migration and politics as represented in world Anglophone literature and film; theories and histories of migration, feminist theory, and ethnic studies engaged in conversation with cultural texts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2712. Bollywood Cinema. 3 Credits.

Introduction to the history and aesthetics of popular Hindi film known as Bollywood from the 1950s through the present; gender identities, melodrama, nationalism, modernity, religion, family, sexuality, globalization, and diaspora. Same As: ENGL 1712W.

ENGL 2712W. Bollywood Cinema. 3 Credits.

Introduction to the history and aesthetics of popular Hindi film known as Bollywood from the 1950s through the present; gender identities, melodrama, nationalism, modernity, religion, family, sexuality, globalization, and diaspora. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1712W.

ENGL 2800. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies. Same As: ENGL 2800W.

ENGL 2800W. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 2800.

ENGL 2830. Introduction to Tragedy. 3 Credits.

Tragic works of literature from the Greeks to Beckett.

ENGL 2840. Introduction to Comedy. 3 Credits.

Introduction to comic masterpieces from Chaucer to Tom Stoppard.

ENGL 3099. Variable Topics. 1-12 Credits.

ENGL 3210. Readings in Creative Writing. 3 Credits.

Intensive reading of one to three texts selected by the instructor with the goal of learning to read as a writer and developing close reading skills. Authors and texts vary. May be repeated for credit provided course coverage differs.

ENGL 3240. Introduction to Dramaturgy. 3 Credits.

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as TRDA 3240.

ENGL 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as TRDA 3250. Prerequisite: ENGL 2250 . May be repeated for credit with departmental approval.

ENGL 3360. Advanced Fiction Writing. 3 Credits.

Further workshop study of the writing of fiction. Prerequisite: ENGL 2560 . May be repeated for credit with departmental approval.

ENGL 3370. Advanced Poetry Writing. 3 Credits.

Further workshop study of the writing of poetry. May be repeated for credit with permission of the department. Prerequisite: ENGL 2570.

ENGL 3380. Creative Writing Workshop. 3 Credits.

Taught by the Jenny McKean Moore Writer in Washington; for undergraduates and graduate students. May be repeated for credit if taught by a different instructor. Prerequisites: One of the following upper-level creative writing courses: ENGL 2210, ENGL 2240, ENGL 2250, ENGL 2460, ENGL 2470, ENGL 2560, ENGL 2570, ENGL 3210, ENGL 3240, ENGL 3250, ENGL 3360, ENGL 3370, or ENGL 3390.

ENGL 3385. American Memoir. 3 Credits.

Contemporary American memoir as a literary construct; the history of the genre, its relationship to other literary models, and recent developments. Prerequisite: None.

ENGL 3390. Topics in Creative Writing. 3 Credits.

Topics announced prior to the registration period; may be repeated for credit provided the topic differs. Topics may include poetry and poetics; forms and methods in fiction; forms and methods in poetry; memoir and personal narratives; creative nonfiction; "Literature, Live"; avant-garde and experimental writing.

ENGL 3400. Topics in Literature and Finance. 3 Credits.

Capstone course for English minors in the School of Business. Analysis of economic theories as they pertain to literary works. Topics may vary. Recommended background: Prior completion of English 1315.

ENGL 3410. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English.

ENGL 3410W. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3410.

ENGL 3420. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own.

ENGL 3420W. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3420.

ENGL 3430. The English Renaissance. 3 Credits.

Verse and prose written in the period 1515 to 1625, examined in relation to cultural practices and social institutions that shaped English life. More, Sidney, Spenser, Shakespeare, Donne, Jonson, Bacon, Herbert, many others.

ENGL 3440. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3440W. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3441. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3441W. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3445. Shakespeare on Film. 3 Credits.

Students learn in detail the history of a small but significant subset of American and European film production: adaptations of Shakespeare's plays using the original language.

ENGL 3446. Shakespearean London. 3 Credits.

Early modern London's emergence as a global capital and its influence on Shakespeare's plays. Instructor permission required.

ENGL 3450. Topics in Shakespeare Studies. 3 Credits.

Critical study of a particular aspect of Shakespeare's work, or of a distinctive approach to the plays. Projected topics: Shakespeare on film, the history plays and Elizabethan England, eighteenth-century rewritings of Shakespeare, Shakespeare as poet, cultural materialist readings of Shakespeare.

ENGL 3460. Milton. 3 Credits.

Study of the major works in verse and prose, following the course of Milton's career.

ENGL 3470. English Drama I. 3 Credits.

Shakespeare's contemporaries.

ENGL 3471. English Drama II. 3 Credits.

Continuation of ENGL 3470. Historical survey, 1660 to present.

ENGL 3480. Eighteenth-Century British Literature. 3 Credits.

Eighteenth-century British literature, including literature that reflects some of the upheavals of a period that produced the Enlightenment, the French Revolution, the United States of America, and the two-party system.

ENGL 3480W. The Eighteenth Century I. 3 Credits.

Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3481. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Same As: ENGL 3481W.

ENGL 3481W. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3481.

ENGL 3490. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others.

ENGL 3490W. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3510. Children's Literature. 3 Credits.

Nineteenth- and twentieth-century children's texts that illuminate the several worlds of childhood: the "small world" of childhood perception, the larger world of social and historical forces, and the "secondary world" of fantasy.

ENGL 3520. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others.

ENGL 3520W. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3530. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others. Same As: ENGL 3530W.

ENGL 3530W. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3530.

ENGL 3540. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens; Tennyson, Browning, Arnold; Darwin, Carlyle, Ruskin. Same As: ENGL 3540W.

ENGL 3540W. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens, Tennyson, Browning, Arnold, Darwin, Carlyle, Ruskin. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3540.

ENGL 3541. Victorian Literature II. 3 Credits.

Major writers between 1865 and 1900: Eliot, Hardy, Conrad, Swinburne, the Rossettis, Morris, Pater, and Wilde.

ENGL 3550. The English Novel I. 3 Credits.

The eighteenth century—Defoe, Richardson, Fielding, Sterne, and others.

ENGL 3551. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others.

ENGL 3551W. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3551.

ENGL 3560. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others.

ENGL 3560W. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3570. Nineteenth-Century Black Literature. 3 Credits.

Studies in nineteenth-century black literature of the Americas and the transatlantic. Writing from the United States, Latin America, the Caribbean, Britain, and Africa may be included. Topics and emphasis may vary.

ENGL 3610. Modernism. 3 Credits.

The emergence of modernist experimentation (and the sense of epistemological and moral crisis it expressed) in the poetry and prose of Pound, T.S. Eliot, Woolf, Kafka, and others.

ENGL 3620. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3620W.

ENGL 3620W. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3620.

ENGL 3621. American Poetry II. 3 Credits.

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery. Same As: ENGL 3621W.

ENGL 3621W. American Poetry II. 3 Credits.

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3621.

ENGL 3630. American Drama I. 3 Credits.

Nineteenth-century melodrama and the emergence of realism; works by O'Neill and other dramatists of the early twentieth century.

ENGL 3631. American Drama II. 3 Credits.

Continuation of ENGL 3630. Developments in modern American drama since World War II, including works by Williams, Miller, Albee, Shepard, Rabe, Guare, Mamet, Henley, Wasserstein, Shange, Hwang, Wilson, and others.

ENGL 3640. The American Novel I. 3-4 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others.

ENGL 3640W. The American Novel I. 4 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3641. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others.

ENGL 3641W. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3650. The Short Story. 3 Credits.

An extensive survey of short fiction by a wide variety of writers of the 19th and 20th centuries, about half of them American; readings on the art of the short story by writers and literary critics.

ENGL 3660. Twentieth-Century Irish Literature I. 3 Credits.

Irish writers from the time of the literary revival in the late nineteenth century to the present. Yeats and other Irish poets and playwrights of his time and after—Synge, O'Casey, Kavanagh, Heaney, and others.

ENGL 3661. Twentieth-Century Irish Literature II. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others.

ENGL 3661W. Twentieth-Century Irish Literature I. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3710. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience.

ENGL 3710W. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3710.

ENGL 3720. Contemporary American Literature. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres.

ENGL 3720W. Contemporary American Literature. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3720.

ENGL 3730. Topics in Global Postcolonial Literature and Film. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: WGSS 3730.

ENGL 3730W. Topics in Global Postcolonial Literature and Film. 3 Credits.

Representations of empire and culture in modern Anglophone literature and cinema from around the world; cross-cultural encounter, migration, identity, orientalism, gender, environment, conflict, and globalization. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See department for more details.

ENGL 3800. The Literature of Hawaii. 3 Credits.

The history, culture, and politics of the settlement of the Hawaiian Islands through depictions in literature, poetry, film, journalism, archeological excavation reports, and diaries; the diversity of inhabitants on the islands and hybrid communicative forms they have developed.

ENGL 3810. Selected Topics in Literature. 3-4 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Same As: ENGL 3810W.

ENGL 3810W. Selected Topics in Literature. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3810.

ENGL 3820. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs.

ENGL 3820W. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3820.

ENGL 3826. Toni Morrison and William Faulkner. 3 Credits.

Commonalities between the fictional and discursive practices of Toni Morrison and William Faulkner; specifically, how their texts reenact and resist racism and patriarchal structures, explore the ways in which memory and the past construct identity, experiment with style.

ENGL 3830. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided that topic differs. Same As: ENGL 3830W.

ENGL 3830W. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3830.

ENGL 3840. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs.

ENGL 3840W. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3850. Ethnicity and Place in American Literature. 3 Credits.

The relationships among ethnic identity, authorship, regional setting, and national consciousness. Differences in the literary culture of ethnically, racially, and regionally diverse American populations, and how considerations of ethnicity and place have been reshaping the American literary canon. Texts and emphases vary by instructor.

ENGL 3860. Topics in the History of the English Language. 3 Credits.

The cultural and literary functions of English across time and space. Scope and methodology vary by instructor. Topics may include language and identity, theoretical and linguistic approaches to language, multilingualism, diasporic writing, or history and periodization.

ENGL 3910. Disability Studies. 3 Credits.

Consideration of cultural texts that illustrate or illuminate issues of ability and disability—terms that extend the prism through which human experience may be understood.

ENGL 3912. Disability and the Holocaust. 3 Credits.

Investigating the question of direct links between the medical mass murder of disabled people in German psychiatric institutions to the Holocaust during World War II; studies of contemporary memorialization practices are examined.

ENGL 3915. Literature and Madness. 3 Credits.

A literary history of mental unrest; madness as a condition of culture, as an adaptive cognitive style, and as a cognitive challenge; descriptive, medical, historical, and socio-critical perspectives.

ENGL 3918. Literature and Medicine. 3 Credits.

The experience of illness as determined by historical, social, and psychological contexts; narrative as a mode of both understanding and managing illness, pain, loss, and the injustice of suffering.

ENGL 3920. U.S. Latina/o Literature and Culture. 3 Credits.

Introduction to the basic texts in the Chicana/o, Cuban-American, Dominican-American, and Puerto Rican literary and cultural traditions. Works by U.S. writers of Central American origin are discussed as well.

ENGL 3930. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness, and *latinidad*.

ENGL 3930W. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness and *latinidad*. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3940. Topics in African American Literary Studies. 3 Credits.

Intensive study of a single aspect of African American literature: major authors, genre, theme, movement. Substantial attention to the critical tradition.

ENGL 3945. African American Poetry. 3 Credits.

African American poetry from the Black Atlantic through contemporary spoken word and web-based experiments in hypertext composition. Topics vary and may include Langston Hughes, Gwendolyn Brooks, poetry manifestoes, poetry and social justice, or eco-poetics of the black experience.

ENGL 3950. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers. Same As: ENGL 3950W.

ENGL 3950W. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3950.

ENGL 3960. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn.

ENGL 3960W. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3960.

ENGL 3965. Topics in Asian American Cultural Studies. 3 Credits.

Literary and cinematic texts of Asian diasporic writers, with a focus on Asian American authors, history, and culture; the globalization of Asian American literature.

ENGL 3970. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing including fiction, nonfiction, autobiography, poetry, and drama. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition. Same As: ENGL 3970W.

ENGL 3970W. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing in fiction, autobiography, poetry, drama, and non-fictional prose. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3970.

ENGL 3980. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs. Same As: ENGL 3980W.

ENGL 3980W. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3980.

ENGL 3990. Literary Studies Workshop. 1 Credit.

Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated once for credit provided the topic differs.

ENGL 4020. Studies in Contemporary Literature. 1-3 Credits.

Theme-based studies of specific issues or figures in twenty-first-century literature.

ENGL 4030. Service Learning with the Pen/ Faulkner Foundation. 3 Credits.

The role of literature in public life; how nonprofits bridge literary citizenship and civic engagement. This course is offered in collaboration with the PEN/Faulkner Foundation, a nonprofit organization that promotes literary achievement and excellence through various events programs.

ENGL 4040. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English. Same As: ENGL 4040W.

ENGL 4040W. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 4040.

ENGL 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as HIST 4135/ FREN 4135.

ENGL 4220. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, students compose an original manuscript of poetry or short fiction accompanied by an essay situating their work in the contemporary context. Restricted to seniors in the BA in English and and BA in creative writing and English programs.

ENGL 4220W. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 4250. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English.

ENGL 4250W. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 4250.

ENGL 4360. Independent Study. 1-4 Credits.

For exceptional students, typically majors, whose academic objectives are not accommodated in regular courses. Students must obtain departmental approval and arrange for supervision by an appropriate member of the faculty.

ENGL 4470. Internship. 1-3 Credits.

Position of responsibility with a publication, educational project, firm, or cultural organization offering practical experience in research, writing, editing, etc. May be repeated for credit; a maximum of 3 credits may be counted toward the English major. Permission of the supervising faculty required prior to enrollment. P/NP grading only. Restricted to juniors and seniors in the English program.

ENGL 5099. Variable Topics. 1-99 Credits.**ENGL 6100. Introduction to Literary Theory. 3 Credits.**

An overview of methodologies for examining texts as linguistic and cultural productions. Methodologies explored may include structuralism, formalism, deconstruction, cultural materialism, postcolonial theory, feminism, gender studies, and queer theory.

ENGL 6120. Advanced Literary Theory. 3 Credits.

The course focuses on a major figure or topic in theory (e.g., Foucault, Lacan, Barthes, Kristeva, Bakhtin, post-Marxist theory, language and power, the canon).

ENGL 6130. Selected Topics in Criticism. 3 Credits.

Topics may include cultural studies, film, gay/lesbian studies, others.

ENGL 6220. Topics in Medieval and Early Modern Studies. 3 Credits.

Topics may include gender and body; postcolonial approaches to the period; surveys of poetry and/or prose with a special thematic coherence.

ENGL 6240. Literature of the British Archipelago. 3 Credits.

The literary and historical texts of early modern and medieval Britain within a pan-insular framework: England in conflict and coexistence with Ireland, Wales, Scotland.

ENGL 6250. Transnational England. 3 Credits.

The early literature of England within a global framework: England, Spain, France, Italy, Turkey, the Levant, the Americas, Africa, India, the Caribbean.

ENGL 6260. Seminar in Medieval and Early Modern Studies. 3 Credits.

Trends and cutting-edge research in medieval and early modern studies.

ENGL 6350. Nineteenth Century I. 3 Credits.

Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6351. Nineteenth Century II. 3 Credits.

Continuation of ENGL 6350. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6352. Nineteenth Century III. 3 Credits.

Continuation of ENGL 6351. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6353. Nineteenth Century IV. 3 Credits.

Continuation of ENGL 6352. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6450. Twentieth Century I. 3 Credits.

Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6451. Twentieth Century II. 3 Credits.

Continuation of ENGL 6450. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6452. Twentieth Century III. 3 Credits.

Continuation of ENGL 6451. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6453. Twentieth Century IV. 3 Credits.

Continuation of ENGL 6452. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6510. Writing, Race, and Nation. 3 Credits.

Literary culture as a basis for exploration of intersections of origins and evolution of racial and ethnic identities and national myths and political objectives.

ENGL 6520. Ethnicity and Identity. 3 Credits.

Literary culture is used to explore how individuals, communities, and societies construct self-awareness and knowledge about others for cultural exchange.

ENGL 6530. Conceptualizing Genders. 3 Credits.

Structures of sex and gender difference considered historically and theoretically, including masculinity/femininity, sexualities, and their textual representations.

ENGL 6540. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as WGSS 6251.

ENGL 6550. Studies in Genre I. 3 Credits.

Questions of genre, considered theoretically and practically. Content varies.

ENGL 6551. Studies in Genre II. 3 Credits.

Continuation of ENGL 6550. Questions of genre, considered theoretically and practically. Content varies.

ENGL 6560. Postcolonialism. 3 Credits.

Exploration of aesthetics and politics through global and postcolonial literature and cinema, primarily from the twentieth and twenty-first centuries. Includes legal, theoretical, literary, and film texts. Restricted to graduate students and junior and senior undergraduate students. Same As: WGSS 6560.

ENGL 6620. Medicine and Society. 3 Credits.

The interaction of medicine and society in ways that touch on philosophy, economics, sociology, and public policy, but that cannot be fully understood in terms of any single perspective. Society's effect on medicine and medicine's effect on society.

ENGL 6630. Literature and Medicine. 3 Credits.

Methods of critical theory applied to issues concerning the practice of medicine. The polar constructs of illness and health, life and death, and life's worth or its waste.

ENGL 6720. Independent Research. 3 Credits.

Written permission of the instructor required prior to enrollment. May be repeated for credit to a maximum of 9 credits.

ENGL 6740. Mastering the Canon. 3 Credits.

Independent reading under a faculty member.

ENGL 6810. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6811. Folger Institute Seminars II. 3 Credits.

Continuation of ENGL 6810. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6998. Thesis Research. 3 Credits.**ENGL 6999. Thesis Research. 3 Credits.****ENGL 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ENGL 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Must be taken as the final 12 credits of the degree. Restricted to doctoral candidates.

ENGLISH FOR ACADEMIC PURPOSES (EAP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EAP 1010. Oral Academic Communication for International Students. 3 Credits.

Preparation for oral communication expectations of the U.S. undergraduate curriculum. Targets a variety of oral genres including in-class discussions, team and individual presentations, and multimodal assignments requiring the use of technology. Restricted to international students.

EAP 1015. Academic Writing for International Students. 3 Credits.

Structured academic writing course with a thematic focus on Washington, DC, culture. Development of academic literacy skills, source-based writing in a variety of genres, and drafting and revising written work. Followed by UW 1020. Restricted to international students.

EAP 1016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. Same As: EAP 6016.

EAP 1046. Independent Study. 1-4 Credits.

Individualized instruction in specific skill areas. Program director approval required. Credit for this course cannot be applied toward a degree.

EAP 3200. Special Topics in English for Academic Purposes. 3 Credits.

This special topics course targets academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

EAP 6000. Academic Communication. 3 Credits.

Acclimation to the oral communication expectations of graduate school through developing listening and note-taking skills, expanding communicative vocabulary, leading and participating in class discussions, and preparing and delivering informal and formal presentations. Classroom activities directed toward scholarly and professional communication in students' fields of study whenever possible. Credit does not apply to any degree or certificate offered by GW.

EAP 6016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. (Same as EAP 1016).

EAP 6110. Academic Writing and Research for International Graduate Students I. 3 Credits.

An introduction to academic writing at the graduate level. Focus on developing rhetorical awareness, working with academic sources, drafting and revising academic writing assignments, using academic vocabulary, and improving grammatical accuracy. Credit for this course does not apply toward any degree or certificate offered by GW.

EAP 6111. Academic Writing and Research for International Graduate Students II. 3 Credits.

An academic writing and research course for international graduate students who demonstrate high proficiency in English. Focus on evaluating and using sources, reading and analysis of academic genres and discourse (including grammar and vocabulary), following appropriate process for writing and revising an independent research paper, small-group discussion, and oral presentations on research. Credit for this course does not apply toward any degree or certificate offered by GW.

EAP 6200. Special Topics in English for Academic Purposes. 3 Credits.

Academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

ENVIRONMENTAL RESOURCE POLICY (ENRP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ENRP 5099. Variable Topics. 1-99 Credits.**ENRP 6085. Topics in Environmental Resource Policy. 1-3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ENRP 6097. Practicum in Environmental Resource Policy. 0 Credits.

International students engage in an unpaid internship. Restricted to students enrolled in the MA in environmental resource policy program. Credit cannot be earned for this course and PPPA 6097.

ENRP 6101. Environmental Sciences I: Physical Sciences. 3 Credits.

Basic physical sciences crucial to environmental issues, including chemistry, geology, hydrology, climate science, and cross-media interactions; land, air, and water pollution, climate change, production and consumption of energy, sea level rise, and anthropogenic changes in the cryosphere. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6102. Environmental Sciences II: Life Sciences. 3 Credits.

Basic life sciences crucial to environmental issues, including biology, ecology, environmental health and toxicology, epidemiology, and agriculture; biodiversity, ecosystem services, habitat preservation, deforestation, conservation biology, nutrient cycling, and the impacts of climate change on living systems. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6145. Global Environmental Justice and Policy. 3 Credits.

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

ENRP 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.

May be repeated for credit to a maximum of 6 credits.

ENVIRONMENTAL STUDIES (ENVR)

ENVR 1098. Variable Topics - AP. 3 Credits.**ENVR 1099. Variable Topics. 36 Credits.****ENVR 4195. Environmental Studies Capstone. 3 Credits.**

This capstone seminar provides undergraduate environmental studies majors with the opportunity to build on coursework in disciplines relevant to the major. Course components include discussion of foundational texts in environmental studies and group work on a local environmental theme. Students work with the GW Career Center on professional presentation skills, resume and cover letter writing, and analysis and synthesis skills building.

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EPIDEMIOLOGY (EPID)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EPID 5099. Variable Topics. 1-99 Credits.

EPID 6295. Reading and Research. 1-12 Credits.

May be repeated for credit.

EPID 6998. Thesis Research. 3 Credits.

EPID 6999. Thesis Research. 3 Credits.

EPID 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

EPID 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

EXERCISE AND NUTRITION SCIENCES (EXNS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EXNS 1099. Variable Topics. 36 Credits.

EXNS 1103. Professional Foundations in Exercise Science. 1 Credit.

Introduction to the science and practice of exercise and human movement as they relate to public health; sub-disciplines of exercise science, research related to the field, and professional and career development. Credit cannot be earned for this course and EXNS 1109.

EXNS 1109. Professional Foundations in Nutrition Science. 1 Credit.

Overview of nutrition science and current challenges in the field. Sub-disciplines of nutrition science and the ways in which they work together to answer important research questions concerning human health. Credit cannot be earned for this course and EXNS 1103.

EXNS 1110. Applied Anatomy and Physiology I. 4 Credits.

Fundamentals of human anatomy and physiology for students preparing for health sciences professions. Emphasis on bones, joints, muscles, innervation, and blood supply. Laboratory fee.

EXNS 1111. Applied Anatomy and Physiology II. 4 Credits.

Continuation of EXNS 1110. Fundamentals of human anatomy and physiology for students preparing for health sciences professions. Emphasis on muscles, sensory and motor integration of the nervous system, function of the special senses, and the autonomic system. Laboratory fee. Prerequisites: EXNS 1110.

EXNS 1112. Current Issues in Coaching. 3 Credits.

Examination of current trends and issues in athletics, sport, and coaching from theoretical and applied perspectives. Study of a variety of timely topics using presentations, readings, videos, internet activities, and discussions.

EXNS 1113. Medical Terminology. 3 Credits.

Basic study of communication using medical and scientific language/terminology. Focus on the foundations of scientific and medical vocabulary including prefixes, suffixes, and stems used to form words.

EXNS 1114. Community Nutrition. 3 Credits.

Introduction to community nutrition and public health programs offered on the local, state, national, and international levels, targeting both individuals and groups. Topics include health policies, nutrition programs, nutrition assessment, and principles of nutrition education.

EXNS 1117. Principles of Coaching. 3 Credits.

Study of coach/athlete behavioral patterns and interactions, coaching methods, and interdisciplinary principles applicable to coaching.

EXNS 1118. Sport and Nutrition. 3 Credits.

Nutritional needs for recreational exercise and sports; skills in assessing nutritional needs; development of individual nutrition programs that are sport/activity-specific; and identification and correction of nutrition problems affecting sports performance. Prerequisites: EXNS 2119 or HLWL 1116.

EXNS 1119W. Children and Sport. 3 Credits.

Psychomotor, psychosocial, and physiological factors of children's participation in sports. The importance of sport to children, readiness to compete, adaptations to training, participation motives, social factors, fundamentals of training, nutrition, stress, and child protection. Theoretical aspects applied in a variety of sports settings. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

EXNS 1199. Topics in Exercise and Nutrition Sciences. 1-3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EXNS 2110. Injury Prevention and Control. 3 Credits.

Information and practical experience in the prevention, recognition, and/or treatment of injury, illness, and health conditions; anatomy review, injury recognition skills, and prevention, first aid, and treatment techniques. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 2111. Exercise Physiology I. 4 Credits.

Function of the human body under the influence of physical activity. Nutrition as a foundation for human performance, energy for physical activity, and comprehensive weight management. Laboratory fee. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 2112. Exercise Physiology II. 4 Credits.

Response of physiological systems of the body to acute and chronic exercise and neuromuscular adaptations to exercise. Exercise training program design, training in extreme environmental conditions, and training considerations for special populations. Laboratory fee. Prerequisites: EXNS 2111.

EXNS 2113. Kinesiology. 4 Credits.

How the human body functions as a mechanical movement generator; the design and function of joints and muscles and principles of mechanics applied to human movement. Common injuries to the musculoskeletal system, how these injuries might occur, and what effect they have on movement patterns. Laboratory methods including techniques for palpation and evaluation of movement. Laboratory Fees. Prerequisites: ANAT 2181 or BISC 2581 or EXNS 1110.

EXNS 2116. Exercise and Health Psychology. 3 Credits.

The psychological, social, and environmental factors that influence the adoption and maintenance of physical activity/exercise and other health behaviors. The role of physical activity/exercise in the prevention of chronic disease. Emphasis on prominent theories used to understand and predict behavior change towards the initiation and maintenance of health behaviors. Issues specific to public health and diversity such as race/ethnicity, socioeconomic status, and gender are also addressed. Restricted to majors only. Prerequisites: PSYC 1001.

EXNS 2117. Sport Psychology. 3 Credits.

Introduction to current research and theoretical perspectives on psychological and psychosocial components of sport participation and competition. Participation motives, motivation, confidence, anxiety, aggression, and other factors that influence individuals and teams or groups. Prerequisites: PSYC 1001.

EXNS 2117W. Sport Psychology. 3 Credits.

Introduction to current research and theoretical perspectives on psychological and psychosocial components of sport participation and competition. Participation motives, motivation, confidence, anxiety, aggression, and other factors that influence individuals and teams or groups. Students complete written assignments to hone writing skills and apply course material. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSYC 1001.

EXNS 2119. Introduction to Nutrition Science. 3 Credits.

Nutrition science as it relates to human growth and development; dietary guidelines, digestion and absorption of nutrients, appetite, body weight, and chronic disease; how the body uses vitamins, minerals, and energy provided by fats, carbohydrates, and proteins; assessing nutritional status; nutrition on an individual and population level. Prerequisites: BISC 1111; or BISC 1115 and BISC 1125.

EXNS 2120. Assessment of Nutritional Status. 3 Credits.

Methods of assessing dietary intakes, physical activity, anthropometry, body composition, and micronutrient status of individuals; factors affecting selection, reliability, and interpretation of various assessment methods in public health settings. Prerequisites: EXNS 2114 and EXNS 2115; or EXNS 2119.

EXNS 2121. Orthopedic Taping and Bracing. 1 Credit.

Advanced practical application of skills learned in EXNS 2110, including first aid techniques, injury recognition skills, taping, and treatment of injuries. Concurrent enrollment in EXNS 2110 is required for students in the pre-athletic training/sports medicine track.

EXNS 2122. Food Systems in Public Health. 3 Credits.

Systems thinking pertaining to agriculture and food. Defining sustainability in the context of the global food system; the current state of the global food system from farm to fork; effects on health. Creating a healthier, more sustainable system.

EXNS 2123. Nutrition and Chronic Disease. 3 Credits.

Address the relationships between nutrition and chronic disease; obesity, diabetes, hypertension, cardiovascular disease, cancer, inflammatory conditions, musculoskeletal disorders, and neurodegenerative diseases. Prerequisites: EXNS 2114 and EXNS 2115; or EXNS 2119.

EXNS 2124. Lifecycle Nutrition. 3 Credits.

Overview of the science of nutrition as it relates to health throughout the major phases of the human life cycle. Prerequisites: EXNS 2114 and EXNS 2115; or EXNS 2119. Credit cannot be earned for this course and EXNS 6242.

EXNS 3101. Independent Study. 3 Credits.

Outline of intended project must be approved prior to course registration. Restricted to students in the BS programs in exercise science and nutrition science.

EXNS 3102. Applied Sport Psychology. 3 Credits.

Theoretical perspectives and practical aspects of applied sport psychology. Psychological skills and peak mental performance. Development and practical application of mental skills programs for athletes and methods of assessing psychological skills in sports settings. Qualifications and training routes for becoming a sport psychologist and professional and ethical issues. Prerequisites: EXNS 2117.

EXNS 3110. Field Experience - Exercise and Nutrition Sciences. 1-9 Credits.

Application of classroom-based knowledge to practical experience within a professional setting. Permission of the instructor is required prior to enrollment. Restricted to students in the BS programs in exercise science and nutrition science. Prerequisites: EXNS 2112.

EXNS 3111. Exercise and Nutrition Science Research Methods. 3 Credits.

Approaches and techniques used in exercise and nutrition science research, with a focus on human studies; development and critique of study designs, commonly encountered measurement and analysis issues, and human research ethics. Prerequisites: EXNS 2114 and EXNS 2115; or EXNS 2119. Credit cannot be earned for this course and EXNS 6242.

EXNS 3111W. Exercise and Nutrition Sciences Research Methods. 3 Credits.

Approaches and techniques used in exercise and nutrition science research, with a focus on human studies; development and critique of study designs, commonly encountered measurement and analysis issues, and human research ethics. Prerequisites: EXNS 2114 and EXNS 2115; or EXNS 2119. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

EXNS 3117. Injury Assessment. 4 Credits.

Students gain skills and practical experience in the assessment of injuries. Includes anatomy review, evaluation techniques and procedures, referral skills, and appropriate documentation. Prerequisites: EXNS 2110.

EXNS 3118. Therapeutic Modalities in Sports Medicine. 4 Credits.

Explanation and demonstration of the use of therapeutic modalities on the healing process, including discussion of the use of therapeutic modalities to enhance the rehabilitation process after athletic injury. Laboratory fee. Prerequisites: EXNS 3117 or permission of instructor.

EXNS 3119. Therapeutic Exercise in Sports Medicine. 4 Credits.

Explanation and demonstration of the use of therapeutic exercise on the rehabilitation process. Discussion and development of practical skills in techniques of therapeutic exercise and equipment to enhance the exercise routine after athletic injury. Prerequisites: EXNS 3117 or permission of instructor.

EXNS 3121. Medical Issues in Sports Medicine. 3 Credits.

Topics in general medical issues and pharmacology as they relate to the athletic training profession. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 3123W. Psychology of Injury and Rehabilitation. 3 Credits.

Psychological, social, and environmental factors that influence injury susceptibility, reaction to injury, and adherence to rehabilitation; basic assessment and intervention techniques to promote and facilitate adherence to rehabilitation. Restricted to students in the BS and minor programs in exercise and nutrition sciences. Prerequisites: PSYC 1001. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

EXNS 3125. Athletic Training Practicum. 3 Credits.

Students gain practical/clinical experience in athletic training and medical skills.

EXNS 3199. Advanced Topics in Exercise and Nutrition Sciences. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more information.

EXNS 3995. Undergraduate Research. 1-3 Credits.

Students work under the mentorship of a faculty member to acquire knowledge and skills central to the design, conduct, and/or analysis of scientific research. Project proposal must be approved by the instructor and dean's office prior to enrollment. Credit cannot be earned for this course and PUBH 3995.

EXNS 4110. Current Issues in Exercise Science. 3 Credits.

Capstone course for senior exercise science majors in their final spring semester. Students are required to understand and apply identified competencies from the core exercise science curriculum. Restricted to seniors in the BS in exercise science program in their final spring semester.

EXNS 4112. Nutrition Science Senior Capstone Seminar. 1 Credit.

Students are required to understand and apply identified competencies from the core nutrition science curriculum. Restricted to seniors in the BS in nutrition science program in their final spring semester.

EXNS 4199. Advanced Topics in Exercise and Nutrition Sciences. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more details.

EXNS 6202. Advanced Exercise Physiology I. 3 Credits.

Examination of acute and chronic cardiovascular and pulmonary adaptations to exercise training. Focus on mechanisms that affect oxygen delivery and utilization during aerobic exercise. Responses to exercise in extreme environmental conditions.

EXNS 6203. Advanced Exercise Physiology II. 3 Credits.

Metabolic and neuromuscular adaptations that occur in response to acute and chronic exercise. Biochemical pathways responsible for energy production during rest and exercise, and how these pathways adapt with chronic training. Neural, hormonal, and nutritional factors that influence exercise performance. Laboratory fees. Prerequisites: EXNS 6202 or permission of instructor.

EXNS 6204. Biostatistical Methods and Research Design. 3 Credits.

Basic principles, concepts, and procedures of research, sampling, and statistical design. Probability, hypothesis testing, and application of basic statistical techniques using calculators and statistical software packages.

EXNS 6207. Psychological Aspects of Sport and Exercise. 3 Credits.

Psychological, sociological, and environmental factors related to the adoption of exercise behavior and maintenance and achieving peak sport performance. The influence of psychology on exercise and sport behaviors, and techniques for changing and/or optimizing such behaviors using a person-centered, individual approach. Issues specific to public health and diversity including race, socioeconomic status, ethnicity, and gender are emphasized throughout the course.

EXNS 6208. Physical Activity: Physiology and Epidemiology. 2 Credits.

Introduction to health issues resulting from physical inactivity (or disuse). Basic principles of energy metabolism and both basic and leading edge methods for physical activity assessment. Topics include major physiological systems' adaptation to exercise training and to de-training and how this adaptation may vary by age and sex; the relationship between disuse and major chronic diseases across the age spectrum; and individual and community-based intervention strategies to modify behavior and ameliorate the putative effects of a sedentary lifestyle. Study of the role of the built environment as an environmental "toxin" using the basic principles of environmental health risk assessment. Prerequisites: EXNS 2111.

EXNS 6209. Advanced Concepts in Nutrition Science. 3 Credits.

Topics in nutrition and public health. Emerging issues, challenges, and controversies in nutrition science; the role of diet composition and physical activity in the maintenance of health and the development of chronic disease; and effectively communicating scientific findings and identifying key knowledge gaps in nutrition science literature.

EXNS 6220. Power Training for Sports Performance. 2 Credits.

Effective training programs for sports that require explosive performance. Emphasis on training methods that develop speed and power, such as plyometrics and Olympic weightlifting. Provides information on specific competencies for students interested in pursuing certification as a strength and conditioning specialist. Prerequisites: EXNS 2111 or equivalent.

EXNS 6221. Science and Theory of Training. 3 Credits.

Physiological adaptations to resistance training, with a primary focus given to the neuromuscular system. Functional and structural changes that occur in skeletal muscle following strength and power training. Programmatic concerns when developing a resistance training regimen for an athletic population.

EXNS 6222. Current Topics in Strength and Conditioning. 1-2 Credits.

Current scientific findings related to the field of strength and conditioning. Examination of how resistance training programs affect athletic performance in terms of increased strength, power, endurance, and resistance to injury. The health benefits of resistance training in non-athletic populations. Prerequisites: EXNS 6202 or permission of the instructor.

EXNS 6223. Biomechanical Analysis. 3 Credits.

Application of mechanical analysis techniques to the human body in motion. Statics and dynamics with emphasis on the link segment model, incorporating angular velocity and angular acceleration. Motion analysis systems and computer systems. Prerequisites: (EXNS 1110 or BISC 2581) and EXNS 2113. Recommended background: PHYS 1011.

EXNS 6232. Independent Study. 1-3 Credits.

Students gain or enhance public health knowledge and explore an area of interest related to public health research or the delivery and/or administration of health services. Permission of instructor or advisor required. Restricted to students in the MS in exercise science program.

EXNS 6233. Graduate Internship. 1-6 Credits.

Fieldwork, internship, and/or instructional practice related to the field of study as pre-approved by the advisor. May be repeated for credit up to a maximum of 6 credits with prior permission of the advisor. Restricted to students in the MS in exercise science program.

EXNS 6242. Nutrition Throughout the Life Cycle. 2 Credits.

The science of nutrition as it relates to health throughout the human life cycle. Changes in human metabolic processes and nutrient needs during the course of the aging process. Nutrition-related disorders. Restricted to students in the MPH program. Prerequisites: PUBH 6619 or permission of the instructor.

EXNS 6261. Thesis Seminar. 3 Credits.

Required for students planning to write a thesis. Principles, concepts, and procedures of research design, including interpreting the scientific literature, designing a statistical plan, applying basic statistical techniques, and communicating scientific findings to professional and general audiences. Students develop a research protocol.

EXNS 6299. Topics in Exercise Science. 1-3 Credits.

Topic to be announced in the Schedule of Classes.

EXNS 6810. Advanced Metabolism. 3 Credits.

Regulation of metabolic pathways and energy metabolism; carbohydrate metabolism, lipid metabolism, and protein metabolism. Regulation of metabolic pathways to match energy demand and the role of metabolic dysregulation in metabolic disorders. Prerequisites: EXNS 6202 or PUBH 6619.

EXNS 6998. Thesis Research. 3 Credits.

Students work independently to conduct research under the oversight of a faculty research committee. Restricted to students in the MS in exercise science program.

EXNS 8102. Writing a Research Grant Application. 1 Credit.

Prepares students to complete a competitive research grant application. Introduction to different sources of funding and funding mechanisms as well as the different eligibility requirements for these funding mechanisms. Restricted to PhD students in GW SPH. Prerequisites: EXNS 6204 and PUBH 6003.

EXNS 8106. Advanced Concepts in Applied Human Physiology. 3 Credits.

Details of the major physiological systems: cardiovascular, respiratory, muscular, and neural systems. Integration and regulation of physiological systems to physiological demands and pathological changes in metabolic disorders.

EXNS 8108. Laboratory Techniques in Human Physiology and Nutrition. 3 Credits.

Introduction of lab techniques in human measurement and the scientific theory underlying their application. Focus on assessment of diet, body composition, calorimetry, cardiovascular homeostasis, muscular strength and endurance in human assessment. Prerequisites: EXNS 6202 or PUBH 6619 or with permission of the instructor.

EXNS 8110. Seminar in Exercise Physiology and Applied Nutrition. 2 Credits.

The ways in which exercise and diet aid in fighting chronic disease, with a focus on obesity treatment and prevention. Common weight loss strategies are analyzed for efficacy from nutritional and physical activity perspectives. Restricted to students in the PhD in exercise physiology and applied nutrition program.

EXNS 8999. Dissertation Research. 1-12 Credits.

Dissertation research.

FILM STUDIES (FILM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FILM 1099. Variable Topics. 1-36 Credits.**FILM 2151. Film Theory. 3 Credits.**

A reading-intensive immersion in classical film aesthetics and a survey of the theoretical and critical canon of cinema literature. Laboratory fee.

FILM 2152. Genres of Film. 3 Credits.

An exploration of the relationship between cinematic structure and narrative content in various types of film. Laboratory fee.

FILM 2153. History of World Cinema I. 3 Credits.

A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2154. History of World Cinema II. 3 Credits.

Continuation of FILM 2153. A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2155. Screenwriting. 3 Credits.

Introduction to the art and craft of screenwriting—concept, genre, character, structure, dialogue, scene/sequence construction, and, ultimately, the preparation of scripts and treatments for a variety of screen formats.

FILM 2156. Advanced Screenwriting. 3 Credits.

Advanced phases of screenwriting culminating in the preparation of a full-length screenplay, with contextual study of contemporary, international, and classical films toward a fuller appreciation of movies as a cultural whole.

FILM 3099. Variable Topics. 1-12 Credits.**FILM 3390. Screenwriting. 3 Credits.**

.

FILM 5099. Variable Topics. 1-99 Credits.

FINANCE (FINA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FINA 1099. Variable Topics. 1-36 Credits.**FINA 3001. Intermediate Finance. 3 Credits.**

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

FINA 3101. Investment and Portfolio Management. 3 Credits.

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

FINA 3201. Exploring Finance with Simulation. 3 Credits.

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

FINA 3201W. Exploring Finance with Simulation. 3 Credits.

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 3501.

FINA 3301. Money and Capital Markets. 3 Credits.

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

FINA 3401. A Brief History of Finance. 3 Credits.

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues. Same As: FINA 3401W.

FINA 3401W. A Brief History of Finance. 3 Credits.

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: FINA 3401.

FINA 4001. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. No alternative to this course will be accepted to fulfill the GWSB Signature course requirement. Prerequisite courses may be taken concurrently. Prerequisites: BADM 3501; and FINA 3301 or FINA 3001. Same As: FINA 4001W.

FINA 4001W. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. No alternative to this course will be accepted to fulfill the GWSB Signature course requirement. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite courses may be taken concurrently. Prerequisites: BADM 3501; and FINA 3301 or FINA 3001.

FINA 4101. Applied Financial Securities Analysis. 3 Credits.

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

FINA 4121W. Exploring Finance with Simulation. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

FINA 4201. Real Estate Investment. 3 Credits.

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

FINA 4301. Financial Derivatives. 3 Credits.

The defining properties of and uses for financial derivatives. Institutional features; forward and futures contracts, option contracts, and swap agreements; and valuation methodologies. The proper use of financial derivatives and the potential for unintended consequences. Prerequisites: BADM 3501. Recommended background: undergraduate students in finance with exposure to another discipline such as mathematics, physics, computer science, economics, or statistics.

FINA 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

FINA 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

FINA 4995. Independent Study. 1-15 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

FINA 5099. Variable Topics. 1-99 Credits.**FINA 6220. Business Financial Management. 3 Credits.****FINA 6221. Financial Decision Making. 3 Credits.**

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234 or MBAD 6235.

FINA 6222. Capital Formation. 3 Credits.

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6224. Financial Management. 3 Credits.

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6230. Urban Development Economics. 3 Credits.**FINA 6231. Seminar: Investment and Portfolio Management. 3 Credits.****FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.**

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6236. Options. 3 Credits.

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6237. Private Wealth Management and Personal Financial Advising. 3 Credits.

Income and estate taxation, retirement plans and pensions, life and disability insurance, investment portfolio management, and personal finances. Prerequisites: MBAD 6234 or MBAD 6235. Recommended background: ACCY 6401 and knowledge of Excel.

FINA 6238. Financial Engineering. 3 Credits.

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6239. Applied Portfolio Management. 3 Credits.

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

FINA 6240. Real Estate Development. 3 Credits.

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6241. Financing Real Estate. 3 Credits.

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6242. Real Estate Valuation and Investment. 3 Credits.

Understanding the valuation of different types of real estate from different viewpoints. Analysis of the risks and opportunities of investing. Solid theoretical framework is augmented with practical examples and applications. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6243. Strategic Planning for Walkable Urban Real Estate Companies. 3 Credits.

Introduction to the various facets of the real estate industry. Students gain practical training in strategic planning by conducting a consulting assignment for a DC-based real estate company.

FINA 6245. Land Development Law. 3 Credits.**FINA 6247. Urban Development Economics. 3 Credits.****FINA 6248. Real Estate Development Cases. 3 Credits.**

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

FINA 6250. Securities Regulation and Financial Scandals. 3 Credits.

Philosophy and framework of laws governing the sale of securities, including stocks, bonds, and investment contracts; financial scandals and the role that changes in securities law and housing policy has played in such events.

FINA 6271. Financial Modeling and Econometrics. 4 Credits.

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6272. Global Financial Markets. 4 Credits.

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6274. Corporate Financial Management and Modeling. 4 Credits.

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6278. Financial Theory and Research. 4 Credits.

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6280. Financial Institution Management and Modeling. 4 Credits.

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6282. Advanced Financial Econometrics and Modeling. 4 Credits.

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6290. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

FINA 6297. International Management Experience. 3 Credits.

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

FINA 6298. Directed Readings and Research. 2-4 Credits.**FINA 6299. Thesis Seminar. 3 Credits.****FINA 6999. Thesis Research. 3 Credits.****FINA 8311. Seminar: Public and Private Sector Institutions and Relationships. 3 Credits.**

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

FINA 8321. Seminar: Financial Markets Research. 3 Credits.

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

FINA 8322. Seminar: Corporate Finance Research. 3 Credits.

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

FINA 8397. Doctoral Seminar. 1-3 Credits.**FINA 8998. Advanced Reading and Research. 1-12 Credits.**

Doctoral candidates preparing for general examination.

FINA 8999. Dissertation Research. 1-12 Credits.

Doctoral candidates performing research. Restricted to doctoral candidates.

FORENSIC PSYCHOLOGY (FORP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FORP 5099. Variable Topics. 1-99 Credits.**FORP 6101. Psychology and the Legal System I. 3 Credits.**

Focuses on the paradigm differences in the mental health and legal systems and the challenges associated with integrating the two. Provides the students with an overview of the American legal system and the American mental health system. Discusses various areas of the intersection of the two systems in criminal, civil, juvenile, and family law settings. The role and ethics of the mental health professional in legal settings is addressed.

FORP 6102. Psychology and the Legal System II. 3 Credits.

Students are introduced to basic legal research with an emphasis on developing an ability to read and understand primary legal materials. Legal concepts of criminal competence and legal insanity are discussed. Constitutional notions of due process and fair treatment as they pertain to the mentally ill, developmentally disabled and children are reviewed with an emphasis on their evolution and current trends. The concept of dangerousness as it applies in both criminal civil commitment and sex offender commitment proceedings is reviewed. Prerequisite: FORP 6101.

FORP 6103. Theories of Criminal Behavior. 3 Credits.

Theories of criminal behavior; psychodynamic, biological, genetic, social learning, behavioral, and cognition; developmental and cultural issues in criminal behavior; sociological theories; violence and aggression; sex offenses and the role of substance abuse in criminal behavior. Restricted to students in the forensic psychology program.

FORP 6104. Psychopathology. 3 Credits.

The etiology and classification of mental disorders; manifestations, symptoms, and basic treatment issues within the framework of the DSM-5 diagnostic manual; disorders and categories that are a primary focus in forensic settings. Restricted to students in the forensic psychology program.

FORP 6105. Basics of Psychological Assessment. 3 Credits.

Introduction to the field of psychological assessment; test design, methodology, psychometrics, and report design; survey of frequently used objective and projective measures in the areas of cognitive, personality, and emotional functioning and their forensic application. Restricted to students in the forensic psychology program.

FORP 6106. Ethics in Forensic Psychology. 3 Credits.

Professional, ethical, and legal issues in forensic psychology practice; professional and ethical behavior as defined by applicable ethical codes; ethical dilemmas or conflicts between psychology and the law. Restricted to students in the forensic psychology program.

FORP 6107. Research and Statistics. 3 Credits.

Research methods, techniques, and implementation; basic descriptive and inferential statistics in psychology; interpreting published studies and normative data in assessments. Restricted to students in the MA in forensic psychology program.

FORP 6108. Consultation and Testimony. 3 Credits.

The role of the forensic practitioner in providing services within the legal system and other related organizations; evidentiary issues with regard to expert testimony; techniques for successfully presenting psychological testimony; effective consultation with other disciplines, including attorneys, mental health providers, and criminal justice personnel. Restricted to students in the forensic psychology program.

FORP 6109. Evaluation and Treatment of Offenders. 3 Credits.

Approaches to classification of offenders; dangerousness and psychopathy; treatment approaches in different settings within the criminal justice system; history of offender treatment and the relative merits of different treatment models. Restricted to students in the forensic psychology program.

FORP 6110. Forensic Psychological Assessment. 3 Credits.

Forensic evaluations, including competency to stand trial, criminal insanity defenses, pre-sentencing, and risk of dangerousness evaluations; communicating assessment results to the courts or other referral sources; selecting and administering specialized forensic assessment instruments; legal and ethical responsibilities. Restricted to students in the forensic psychology program. Prerequisites: FORP 6105.

FORP 6111. Evaluation and Treatment of Sex Offenders. 3 Credits.

Measures used in assessing sex offenders; predicting dangerousness and recidivism; theories concerning interpersonal and intrapsychic presentations in such areas as deviant arousal and cognitive distortions; treatment modalities; legal and ethical difficulties arising from mandatory treatment and long-term commitment. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6112. Substance Abuse Evaluation and Treatment. 3 Credits.

Underlying ideas of the pathology of addiction; psychodynamic, genetic and biological, and environmentally-focused theories; current assessment and intervention techniques; current treatments including psychopharmacological, psychodynamic and cognitive-behavioral approaches. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6113. Victimology. 3 Credits.

The psychology of the victim within social and cultural contexts; violent, sexual, and psychological victimization; relationship between prior victimization as a precursor in criminal behavior; prevention, intervention, and policy issues. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6114. Issues in Family Law. 3 Credits.

Psycho-legal issues concerning divorce, child custody, guardianship, and intrafamily violence and sex offending; dispute resolution methods as an alternative to litigation with a particular emphasis on divorce mediation; child custody evaluation and the evaluation of the elderly; ethical and legal difficulties. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6115. Children and Adolescents in the Legal System. 3 Credits.

The differences between the treatment of juvenile and adults offenders in the legal system; history and role of the juvenile justice system from both legal and mental health perspectives; developmental aspects of the offending juvenile; the role of the psychologist in court proceedings. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6117. Interrogation and Interviewing. 3 Credits.

Techniques of interrogation and interviewing in both criminal- and terrorism-related investigations. Cultural aspects of interviewing, the problem of false confessions, and the use of the polygraph. Legal and ethical issues surrounding interrogations, including the use of coercive techniques. Restricted to students in the MA in forensic psychology program. Prerequisites: FORP 6101, FORP 6103 and FORP 6104.

FORP 6118. Psychological Profiling. 3 Credits.

The strengths and limitations of psychological profiling in criminal investigations. The main psychological principles upon which criminal profiling is based and crime scene analysis and its relationships to both the demographic and psychological characteristics of a pool of unknown offender suspects. Methods to identify potential serial offenses. Legal and ethical issues with regard to the use of profiling. Restricted to students in the MA in forensic psychology program. Prerequisites: FORP 6101, FORP 6103 and FORP 6104.

FORP 6119. Police Psychology. 3 Credits.

Psychological aspects of working within or for police agencies; personality assessment for suitability for police work, the stress involved in the work with attendant adverse psychological consequences, and continuing assessment of police officers after critical incidents; ethical and practical problems for the mental health professional when working within or for a police organization and services available for troubled officers. Restricted to students in the forensic psychology program or with departmental permission.

FORP 6120. Counterintelligence. 3 Credits.

Counterintelligence considered from the perspectives of intelligence agencies, terrorist groups, and industry. The interconnection of psychological factors, motivations, strategic intent, and defense measures. Current and potential threats, including cybersecurity and cognition security. Restricted to Students in the MA in forensic psychology program or with permission of the department.

FORP 6128. Terrorism and Counterterrorism. 3 Credits.

Examination of the history and current status of terrorism and counterterrorism; psychological constructs motivating terrorist activity and countering the terror of terrorism; current scientific studies of the interplay between psychological factors, cultural norms, and religious ideations; and potential and future threats related to internet crime. Restricted to students in the MA in forensic psychology program.

FORP 6129. Investigative Psychology. 3 Credits.

The application of psychological research and principles to the processes for detecting, identifying, locating, apprehending, and bringing offenders to justice; various approaches to the field; relevant legal and ethical issues. Restricted to students in the forensic psychology program or with the permission of the department. Prerequisites: FORP 6101, FORP 6103 and FORP 6104.

FORP 6130. Practicum/Externship. 1 Credit.

Students undertake 250 hours of externship training tailored to their professional interests. The course may be completed over multiple semesters; students enroll for 1 credit in the semester in which they complete the required training hours, and for 0 (zero) credits in all other semesters during which they work toward, but do not complete, requirements. Restricted to students in the forensic psychology program. Prerequisites: FORP 6101, FORP 6103 and FORP 6104.

FORP 6131. Individuals with Mental Illness in the Legal System. 3 Credits.

Challenges presented when individuals with mental illness become involved with the criminal justice system; practical and aspirational goals the criminal justice system employs when addressing this population. Restricted to students in the forensic psychology program or with the permission of the department.

FORP 6150. Advanced Topics in Forensic Psychology. 12 Credits.

Current topics in forensic psychology. Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: FORP 6101, FORP 6103, and FORP 6104.

FORENSIC SCIENCES (FORS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FORS 2102. Introduction to Forensic Science I. 3 Credits.

The application of science to the criminal justice system; crime scene processing, crime scene reconstruction, investigation of fires and explosions, impression evidence, trace evidence, and computer forensics. Completion of two semesters of a laboratory science other than astronomy and permission of the instructor are required prior to enrollment.

FORS 2104. Introduction to Forensic Sciences II. 3 Credits.

The application of science to the criminal justice system; personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Prerequisites: two semesters of a laboratory science other than astronomy and permission of instructor.

FORS 2104W. Introduction to Forensic Sciences. 3 Credits.

Topics in the application of science to the criminal justice system, including personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and FORS 2104.

FORS 2151. Crime Scene Investigation. 4 Credits.

Examination, analysis, and reconstruction of crime scenes; principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence.

FORS 2190. Topics in Forensic Science. 3 Credits.

. Restricted to juniors. Prerequisites: BISC 1005 or BISC 1006; and CHEM 1003 or CHEM 1004.

FORS 5099. Variable Topics. 1-99 Credits.**FORS 6004. Fundamentals of Forensic Science I. 3 Credits.**

This course surveys crime scene investigation techniques, medicolegal death investigation, and patterned evidence examination. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of crime scene investigation, physical evidence concepts, and pattern evidence. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of firearms and toolmarks, fingerprints, and questioned documents. Lectures are given by faculty members and guest lecturers who are subject matter experts on the topic presented. This course includes a four hour laboratory (fingerprints). This is a required course for MFS and CSI students. This course, along with FORS 6005 Fundamentals of Forensic Science II, replaces FORS 6213, Elements of Forensic Science (3 Credits). Prerequisite: None.

FORS 6005. Fundamentals of Forensic Science II. 3 Credits.

This course surveys the traditional crime laboratory (criminalistics) disciplines—specifically forensic drug chemistry, forensic toxicology, trace evidence, fire debris, explosives, and forensic molecular biology. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of analytical chemistry and instrumental methods of analysis, drug chemistry/toxicology, microscopy and materials analysis, and forensic biology. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of forensic biology, trace evidence, fire debris, controlled substances, and toxicology/blood alcohol determinations.

FORS 6010. Bloodstain Pattern Analysis I. 3 Credits.

Human blood in flight and the patterns it makes on target surfaces. Crime scene investigation, crime scene analysis, and crime scene reconstruction. Laboratory fee. Restricted to graduate students. Recommended background: FORS 6251 and FORS 6256.

FORS 6011. Bloodstain Pattern Analysis II. 3 Credits.

Continuation of the concepts learned in FORS 6010. Serving as an expert witness; refining blood pattern analysis and documentation skills; effectively communicating observations, analysis, and conclusions in the courtroom. Laboratory fee. Restricted to graduate students. Prerequisites: FORS 6010. Recommended background: FORS 6251 and FORS 6256.

FORS 6020. Ethics, Professional Responsibility, and Quality Assurance. 2 Credits.

Issues of forensic science laboratory professional responsibility, including ethics, public policy, and quality assurance. Satisfies 10 hours of instruction for a Forensic Science Education Programs Accreditation Commission (FEPAC) accredited MFS degree in the core topics of ethics and professional responsibility and quality assurance; also assists in preparation for the American Board of Criminalistics examination in the area of ethics. Taken online during the summer session.

FORS 6201. Forensic Biology. 3 Credits.

Principles of the forensic analysis of blood and other biological materials. Specific procedures and techniques used in forensic biology and serology. Laboratory fee.

FORS 6203. Examination of Questioned Documents. 3 Credits.

Theory and principles of handwriting and handprinting, duplicating processes, paper manufacture and fiber analysis; studies of paper and methods of examining questioned documents. Laboratory fee.

FORS 6204. Firearms and Toolmark Identification. 3 Credits.

Methods for identifying firearms, bullet cartridge casings, toolmarks, gunshot residue, obliterated serial numbers, tire marks, and footprints. Laboratory fee.

FORS 6206. Trace Evidence Analysis. 3 Credits.

Principles that govern the analysis of trace evidence, including recovery, transference, interpretation, and comparison. Assessment of evidentiary value, reporting, and court testimony. Laboratory fee.

FORS 6207. Photography in the Forensic Sciences. 3 Credits.

Basic use of forensic photography, including selection and use of equipment, photographs as evidence, close-up work, and common misconceptions. Laboratory fee.

FORS 6210. Advanced Instrumental Analysis. 3 Credits.

Theory and practice of modern instrumental methods used in forensic laboratories, including mass spectrometry, optical spectroscopy, microscopy, chromatographic and electrophoretic separations. It is a required course for MFS students with concentration in Forensic Chemistry and Forensic Toxicology. Recommended background: undergraduate analytical methods.

FORS 6213. Elements of Forensic Sciences. 3 Credits.**FORS 6215. Science of Fingerprints. 3 Credits.**

A general overview of the history and biology of and principles underlying the science of fingerprints. Latent print development methods, recording, classification, and methodology of comparison of fingerprints and palm prints to include latent prints. Subject matter is covered at an introductory level; additional study is required to develop expertise as a latent fingerprint examiner.

FORS 6216. Development of Latent Prints. 3 Credits.

This Advanced Fingerprint Science Course provides the students an increased understanding of the main principles of fingerprint identification: uniqueness and persistence. The course is broken down into three main sections, which address the chemistry behind processing fingerprints, the anatomy and physiology of friction ridge skin and the extensive research that has been conducted in the field of fingerprint science. The students are required to complete a skills processing exam to assess their understanding and ability to develop latent prints on items of evidence. In addition, there is a written examination covering the topics of biology and development of friction ridge skin and a final comprehensive exam. Upon conclusion of this course, each student should have a firm grasp of why friction ridge skin can be used as a means of identification. Recommended background: FORS 6215.

FORS 6217. Fingerprint Comparisons. 3 Credits.

In-depth study of analysis, comparison, evaluation, and verification (ACE-V) methodology; assessing the quality and quantity of information and establishing a tolerance for comparison using the effects of distortion; uniqueness and persistence; anatomy and embryology of friction ridge skin. Laboratory fee. Prerequisites: FORS 6215.

FORS 6219. Digital Image Processing. 3 Credits.

Digital images of marginal value can be processed to reveal details which had been in the original, but were difficult to see. These changes must be done in ways to survive court challenges. Best practices for doing so are provided. Prerequisites: FORS 6207 or permission of the instructor. Recommended background: graduate level work in MS/CSI, MFS/FRA, MS/FRA or Grad Cert in Forensic Investigations; graduate-level work in crime scene investigation and/or friction ridge analysis, or in the graduate certificate program in forensics investigations.

FORS 6224. Criminal Law for Forensic Scientists. 3 Credits.

This course provides an overview of criminal law offenses, criminal law procedures, issues of evidence recovery, admissibility of scientific evidence, and expert testimony, with an emphasis on the interaction between the criminal process and forensic science. A moot court experience is integral to this course. (This course combines and replaces Crim Law I and III.).

FORS 6225. Statistics for Forensic Scientists. 3 Credits.

Statistics with a focus on forensic applications. Emphasis on the Bayesian approach. Logical, probabilistic statistical reasoning skills, and R software skills. Course content is the basis for an examination question on the comprehensive examination. Prerequisite: An undergraduate statistics course.

FORS 6231. Principles of Toxicology. 3 Credits.

Concepts of toxicology, including its historical development and modern applications, drug disposition, mechanisms of toxicity; factors that influence toxicity and toxicity evaluation.

FORS 6232. Analytical Toxicology. 3 Credits.

Principles and procedures used in the isolation, identification, and quantitation of drugs of abuse from human samples.

FORS 6234. Medicinal Chemistry I. 3 Credits.

Theory and principles of classification, synthesis, and structure activity relationships of drugs. Discussion of the complex chemical events that take place between administration of a drug and its action on the user, with emphasis on drugs of abuse.

FORS 6235. Medicinal Chemistry II. 3 Credits.

Chemical, pharmacological, toxicological, and pathological characteristics of commonly abused drugs, including ethanol, barbiturates, narcotics, stimulants, and hallucinogens.

FORS 6236. Forensic Toxicology I. 3 Credits.

Biological, chemical, and pharmacological principles that underlie forensic toxicology. Prerequisites: FORS 6235 or permission of the instructor.

FORS 6237. Forensic Toxicology II. 3 Credits.

Lectures, student seminars, and projects dealing with topics of current interest in forensic toxicology. Prerequisites: FORS 6236 or permission of the instructor.

FORS 6238. Forensic Chemistry I. 3 Credits.

Examination of glass and soils. Laboratory exercises include refractive index measurements using immersion methods; polarized light observations of minerals; x-ray diffraction analysis of minerals; and classical chemical and physical methods of analysis. Laboratory fee.

FORS 6239. Forensic Chemistry II. 3 Credits.

Examination of arson accelerants, textile fibers, plastics, and paints. Laboratory exercises include infrared spectrometry and pyrolysis-gas-liquid chromatography of polymeric materials, as well as classical chemical and physical methods of analysis. Laboratory fee. Prerequisites: FORS 6238 or permission of the instructor.

FORS 6240. Forensic Drug Analysis. 3 Credits.

Examination of dosage forms of drugs. Laboratory exercises include color spot tests, crystal tests, infrared spectrometry and gas chromatography-mass spectrometry. Laboratory fee.

FORS 6241. Forensic Molecular Biology I. 3 Credits.

Techniques of molecular biology applied to the collection, examination, analysis, and interpretation of biological evidence.

FORS 6242. Forensic Molecular Biology II. 3 Credits.

Advanced methods of forensic molecular biology. Laboratory examinations and classifications of dried blood and other biological materials through a variety of nuclear and mitochondrial markers. Laboratory fee. Prerequisites: FORS 6241 and permission of the instructor.

FORS 6243. Forensic Molecular Biology III. 3 Credits.**FORS 6246. Human Genetic Variation. 3 Credits.**

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as ANTH 6406.

FORS 6247. Population Genetics. 3 Credits.

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as BISC 6228.

FORS 6250. Crime Scene Investigation for Lab Personnel. 3 Credits.

A condensed offering of the subject matter of FORS 6251–FORS 6252. FORS 6250 cannot be taken for credit toward the crime scene investigation concentration. Laboratory fee.

FORS 6251. Crime Scene Investigation I. 3 Credits.

Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6252. Crime Scene Investigation II. 3 Credits.

Continuation of FORS 6251. Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6254. Forensic Psychiatry. 3 Credits.

Introduction to the constructs of dynamic psychiatry, psychiatric treatment, and the nomenclature of mental disorders. Consideration of expert testimony, direct examination, and cross-examination in hospitalization and criminal cases.

FORS 6255. Investigation of Child Abuse. 3 Credits.

This course integrates medical, scientific, psychological, sociological and legal information for investigators and professionals involved in the field of child abuse. Special emphasis is placed on the application of research-supported data to situations involving the murder, abuse and exploitation of children.

FORS 6256. Forensic Pathology. 3 Credits.

Terminology and scientific techniques used in medico-legal investigations, sudden or unexpected deaths, homicides, suicides, accidental deaths, and trauma.

FORS 6257. Medicolegal Death Investigation. 3 Credits.

Medical, scientific, sociological, and legal methodologies applied to forensic investigations. Aspects of death scene analysis by a medical examiner, including autopsy procedures, unidentified remains, child death investigations, and mass disaster investigations. Laboratory fee. Prerequisites: FORS 6256 and permission of the instructor.

FORS 6258. The Investigation of Sexual Assault and Other Sex Crimes. 3 Credits.

This course integrates medical, psychological, sociological and legal information for investigators and professionals involved in the field of sex crime investigation. Special emphasis is placed on the application of research-supported data to situations involving the sexual exploitation and victimization of adults.

FORS 6290. Selected Topics. 3 Credits.

Current issues in research, investigation, and law.

FORS 6291. Computer Forensics III: Advanced Techniques. 3 Credits.

Further examination of methods and techniques used to conduct and report high-technology crime investigations. Open only to students enrolled in the department or by approval of the program director. Laboratory fee. Prerequisite: FORS 6278.

FORS 6292. Graduate Seminar. 1 Credit.

Students in designated forensic sciences degree programs must register for this course in their first semester and again after completion of the required independent research project.

FORS 6295. Research. 1-12 Credits.

Research on problems approved by the department, under the supervision of an appropriate member of the program faculty. Admission by permission only.

FORS 6298. Forensic Sciences Practicum. 1-3 Credits.

Internship experience in a forensic science laboratory or criminal justice agency, under the supervision of an appropriate member of the program faculty. Students must preregister for this course. Admission by permission only.

FORS 6998. Thesis Research. 3 Credits.**FORS 6999. Thesis Research. 3 Credits.**

FRENCH (FREN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FREN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

FREN 1001. Basic French I. 4 Credits.

Handling the immediate context of daily experience in spoken and written French: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

FREN 1002. Basic French II. 4 Credits.

Speaking and writing in French about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Prerequisite: FREN 1001. Laboratory fee.

FREN 1003. Intermediate French I. 3 Credits.

Increasing active vocabulary, reinforcing mastery of basic grammar, dealing with more complex structures (verbal phrases, subordinate clauses), and using some patterns of indirect speech (e.g., repeating or relaying messages, giving reports, summarizing). Prerequisite: FREN 1002 . Laboratory fee.

FREN 1004. Intermediate French II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: FREN 1003 . Laboratory fee.

FREN 1006. French Language and Culture I. 3 Credits.

Offered through the GW Paris Business Studies Program.

FREN 1007. French Language and Cultures II. 3 Credits.

Continuation of FREN 1006. Offered through the GW Paris Business Studies Program.

FREN 1099. Variable Topics. 1-36 Credits.**FREN 2005. Language, Culture, and Society I. 3 Credits.**

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Laboratory fee. Prerequisite: FREN 1004.

FREN 2006. Language, Culture, and Society II. 3 Credits.

Continued expansion of the range and complexity of conversational skills and further development of the writing of effective expository prose on a broad range of contemporary subjects. Short texts serve as the basis for oral discussion, analytical reading, and writing brief critical essays. Laboratory fee. Prerequisite: FREN 2005.

FREN 2049. French for Graduate Students. 0 Credits.

No academic credit. Tuition is charged at the rate of 3 credits. Restricted to graduate students preparing for reading examinations.

FREN 2500. Cultural Politics of Food in France. 3 Credits.

The construction of French national identity through representations of food in literature and film. Taught in English.

FREN 3010W. Advanced French Language, Structure, and Composition. 3 Credits.

Refining rhetoric in French, integrating notions from linguistics. Improving written and spoken French through new perspectives into the language itself. Register, borrowings, idiomatic expressions, and stylistic variation between French and English. Prerequisites: FREN 2006. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

FREN 3020. Contemporary France. 3 Credits.

Emphasis on advanced oral work. Discussion of French culture and civilization, based on contemporary writings and video documents. Prerequisite: FREN 2006. Laboratory fee.

FREN 3030. Business and Commercial French. 3 Credits.

Structure and language of French economic institutions. Discussion of legal, financial, and administrative documents. Oral and written reports. Preparation for the certificate of the Paris Chamber of Commerce. Prerequisite: FREN 2006.

FREN 3099. Variable Topics. 1-12 Credits.**FREN 3100. Introduction to French Literature. 3 Credits.**

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods. French and Francophone literatures in their cultural contexts. Close reading approach and introduction to literary vocabulary. Prerequisite: FREN 2006.

FREN 3100W. Introduction to French Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods; close reading approach and introduction to literary vocabulary. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: FREN 2006.

FREN 3210. Medieval and Early Modern French Literature in Context. 3 Credits.

Texts of the Middle Ages to the seventeenth century studied in their historical, social, and cultural contexts. Topics may include feudal society and the literature of courtly love; humanism, Rabelais, and Renaissance poetry; women and salon writing; Versailles, absolutism, and classical theater. Prerequisite: FREN 3100W.

FREN 3220. Modern French Literature. 3 Credits.

Texts of the eighteenth century to the present in historical, social, and cultural contexts. Topics may include philosophes and the rise of social consciousness; the French Revolution and Romanticism; dada and surrealism; existentialism and World War II; decolonization and francophone literature. Prerequisite: FREN 3100W.

FREN 3290. Textual Analysis. 3 Credits.

Methodology and vocabulary of literary criticism. Application of various principles of textual analysis and critical approaches to literature. Prerequisite: FREN 3100W.

FREN 3300. Topics in French and Francophone Literatures and Cultures in Translation. 3 Credits.

Dynamics of French-speaking societies and their cultures studied through literature, art, or film. Topics vary. Readings and lectures in English. The course may be repeated for credit. A laboratory fee may be required.

FREN 3400. Studies in Genre. 3 Credits.

Study in narrative, dramatic, or lyric form. Topics vary by semester. May be repeated for credit provided topic differs. See department for details. Prerequisite: FREN 3100W.

FREN 3500. Race, Religion, and Identity in France. 3 Credits.

The intersection of race, religion, and identity in France from an historical perspective; key concepts of French universalism and secularism in relation to different minority groups. Resources may include literature, film, historical documents, and sociological studies. May be taught in French or English. Recommended background: Prior completion of FREN 3100W.

FREN 3520. The Age of Classicism. 3 Credits.

Drama, philosophy, criticism, poetry, and fiction of the seventeenth century. Topics may include préciosité, baroque, Jansenism, classicism, and rationalism in the context of the major social, political, and religious movements of the period. Prerequisite: FREN 3100W.

FREN 3530. The Age of Enlightenment. 3 Credits.

The major novelists, dramatists, and philosophes of the eighteenth century. The works of Montesquieu, Voltaire, Rousseau, and Diderot and their relationship to the social, political, and philosophical thought of the period. Prerequisite: FREN 3100W.

FREN 3550. Studies in Twentieth-Century French Literature. 3 Credits.

Major literary movements of the twentieth century: avant-garde, surrealism, existentialism, nouveau roman, and nouveau théâtre. Prerequisite: FREN 3100W.

FREN 3560. Topics in Contemporary Francophone Literature and Cinema. 3 Credits.

Analysis of relations between France and its former colonies as manifested in the literature and cinema of France and the Francophone world. Race and gender relations; exile; nationalism; and identity and place as seen through various literary and cinematic responses to the discourses of metropolitan France by its former colonies. Prerequisite: FREN 3100W.

FREN 3600. Special Topics in French Literature. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for details. Prerequisite: FREN 3100W.

FREN 3600W. Special Topics in French Literature and Culture. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: FREN 3100W.

FREN 3700. History of French Cinema. 3 Credits.

French cinema from its inception to the New Wave; the relationship of filmmaking and audience reception to the evolution of French society and political institutions; the language of cinema as it evolves according to periods and genres and as critics and filmmakers create a theoretical discourse specific to film.

FREN 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ HIST 4135. Prerequisite: FREN 3100W.

FREN 4470. Writing Women. 3 Credits.

Dynamics of gender in French literature and culture with emphasis on women as agents and objects of representation; gender roles in the formation of social biases, norms, and power structures. Texts range from the Middle Ages to the present. Prerequisite: FREN 3100W.

FREN 4500. Studies in Medieval French Literature. 3 Credits.

Readings and analysis of the major literary texts from the 11th through the 15th centuries. Chansons de geste, courtly literature, fabliaux, drama, lyric and didactic poetry. Prerequisite: FREN 3100W.

FREN 4510. French Literature of the Renaissance. 3 Credits.

Sixteenth century prose and poetry in the context of cultural and historical movements. Topics may include humanism; concepts of self and subjectivity; the wars of religion; the discovery of the New World; court and city life; the private and public spheres; religious and secular love. Prerequisite: FREN 3100W.

FREN 4540. Nineteenth-Century French Literature and Culture. 3 Credits.

Key aspects of nineteenth-century French literature in its historical, cultural, and political context. Major authors and literary movements studied through the lens of a particular theme, which varies from year to year. Prerequisite: FREN 3100W.

FREN 4600. Special Topics in French Literature. 3 Credits.

Examination of French and Francophone literature organized around a single theme. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisite: FREN 3100W.

FREN 4650. Lustful Women in French Medieval Literature. 3 Credits.

The representation of lustful women in French medieval texts and arts. We read some of the most important novels and short stories of the Middle Ages, such as *La Châtelaine de Vergy*, *Tristan et Yseut*, and *Les Lais de Marie de France*. Prerequisite: FREN 3100W.

FREN 4700. Race Matters: Literature, Culture, and Identity in Contemporary France. 3 Credits.

An interdisciplinary examination of cultural, political, and economic realities for Black populations in France. Prerequisite: FREN 3100W.

FREN 4800. Independent Study. 1-4 Credits.

Admission by permission of department chair and instructor. May be repeated for credit. Prerequisite: French 3100W.

FREN 4910. Proseminar: Readings for the Major. 3 Credits.
Required of all majors as preparation of the senior essay. Specific topic in the history of French literature varies by year. Restricted to French majors in their senior year. Prerequisite: French 3100W.

FREN 4920W. Proseminar II. 3 Credits.

Continuation of FREN 4910. Required of all majors; preparation of the senior essay. The specified topic in the history of French literature varies by year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

FREN 5099. Variable Topics. 1-99 Credits.

GENOMICS AND BIOINFORMATICS (GENO)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GENO 6223. Bioinformatics. 2 Credits.

The application of bioinformatics concepts and methods through the use of molecular biology databases and tools, covering molecular evolution, and protein sequence, structural, functional analysis. Recommended background: Prior completion of an undergraduate course in biochemistry. Same As: BIOC 6223.

GENO 6236. Medical Genomics. 2 Credits.

The structure and function of genes and genomes; genomic theories, methods, and data analysis including bioinformatics and database mining. Same As: BIOC 6236.

GENO 6237. Proteomics and Biomarkers. 2 Credits.

Experimental proteomics, protein/proteome analysis, bioinformatics of proteomics, systems biology, and structural genomics. Prerequisite: GENO 6236. Recommended background: Prior completion of a course in bioinformatics or one related to computer science. Same As: BIOC 6237.

GENO 8231. Introduction to Genomics, Proteomics, and Bioinformatics. 3 Credits.

Implementation of genomics, proteomics and bioinformatics approaches to biological systems. Students must have completed a course in biochemistry and molecular biology prior to enrollment. Prerequisites: BMSC 8210 and BMSC 8212. Credit cannot be earned for this course and BMSC 8231.

GENO 8234. Genomics and Precision Medicine Seminar. 1 Credit.

Current and emerging topics with presentations and discussions facilitated by leading experts from GW and outside institutions; student-led journal club and oral presentation opportunities. May be repeated for credit. Prerequisites: BMSC 8210, BMSC 8212 and BMSC 8230.

GENO 8998. Advanced Readings and Research. 3-12 Credits.

Restricted to doctoral candidates preparing for the qualifying examination. May be repeated for credit.

GENO 8999. Dissertation Research. 3-12 Credits.

Restricted to doctoral candidates. May be repeated for credit.

GEOGRAPHY (GEOG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOG 1000. Dean's Seminar. 3 Credits.

GEOG 1001. Introduction to Human Geography. 3 Credits.

A systematic survey of human geography; spatial perspectives on demographic, social, cultural, economic, and political changes around the world.

GEOG 1002. Introduction to Physical Geography. 4 Credits.

A systematic survey of environmental geography; perspectives on environments and human ecology, including ecosystems and their use, and resource geography. Laboratory fee.

GEOG 1003. Society and Environment. 3 Credits.

An introduction to the dynamic relationship between society and the physical environment, with focus on population, natural resources, environmental degradation, pollution, and conservation.

GEOG 1099. Variable Topics. 1-36 Credits.

GEOG 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

GEOG 2104. Introduction to Cartography and GIS. 3 Credits.

Fundamentals of cartography; geographic data structure and information systems. Laboratory fee.

GEOG 2120. World Regional Geography. 3 Credits.

Practical approach to the themes, concepts, and tools appropriate for in-depth examination of the geography of the world's. Historical and physical regional geographies; contemporary regional issues; and intra- and interregional issues.

GEOG 2124. Urban Transportation. 3 Credits.

The relationship between freight and passenger transportation systems and urban land use patterns and structure.

Prerequisite: GEOG 1001.

GEOG 2125. Transportation Systems and Networks. 3 Credits.

The structure and evolution of transportation networks and their impact on regional development.

GEOG 2127. Population Geography. 3 Credits.

Patterns of world population; factors contributing to population pressures, growth, and migrations.

GEOG 2129. Biogeography. 3 Credits.

The spatial and temporal patterns of biological diversity and the processes that cause those patterns. Combines ecology, evolutionary biology, paleontology, and climatology.

GEOG 2129W. Biogeography. 3 Credits.

The spatial and temporal patterns of biological diversity and the processes that cause those patterns. Combines ecology, evolutionary biology, paleontology, and climatology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GEOG 2133. People, Land, and Food. 3 Credits.

The relationship between humans and their food sources through exploration of nutritional dynamics, food sourcing, agricultural land use, and food markets.

GEOG 2134. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations.

Prerequisite: GEOG 1002.

GEOG 2134W. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1002.

GEOG 2136. Water Resources. 3 Credits.

Analysis of the global spatial patterns, development, use, and quality of water resources. Prerequisite: GEOG 1002.

GEOG 2137. Environmental Hazards. 3 Credits.

Examination of environmental hazards with an emphasis on physical geography, economics, and the basics of geographic information systems (GIS).

GEOG 2140. Cities and Societies. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change.

Prerequisite: GEOG 1001.

GEOG 2140W. Urban Geography. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

Prerequisite: GEOG 1001.

GEOG 2141. Cities in the Developing World. 3 Credits.

Urbanization processes, problems, and management in the developing world. Focus on urban location, politics, housing, services, employment, and environmental issues. Prerequisite: GEOG 1001.

GEOG 2144. Explorations in Historical Geography. 3 Credits.

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as AMST 2144.

GEOG 2147. Military Geography. 3 Credits.

An examination of environmental and locational factors and their impact on military planning and operations.

GEOG 2148. Economic Geography. 3 Credits.

Locational influences on and spatial variation of the development of manufacturing, services, trade, and finance.

Prerequisite: GEOG 1001.

GEOG 2196. Field Methods in Geography. 3 Credits.

For geography and environmental studies majors in their junior or senior year. Field research in human and physical geography. Students participate in several field exercises and develop their skills of observation, field mapping, repeat photography, and surveys. Laboratory fee.

GEOG 3099. Variable Topics. 1-12 Credits.

GEOG 3105. Techniques of Spatial Analysis. 3 Credits.

Quantitative methods, tools, and approaches in spatial analysis to describe and test hypotheses about observations that have a spatial component. Prerequisites: GEOG 2104; and STAT 1051 or STAT 1053.

GEOG 3106. Intermediate Geographic Information Systems. 3 Credits.

Principles of geographic information systems and their use in spatial analysis and information management. Prerequisites: GEOG 2104.

GEOG 3107. Introduction to Remote Sensing. 3 Credits.

Remote-sensing techniques using digital satellite imagery and aerial photography; application to rural and urban settings, vegetation, and environmental monitoring. Prerequisites: GEOG 3105.

GEOG 3108. Weather and Climate. 3 Credits.

Fundamental physical principles that govern the Earth's climate; the science of global climate change and the impact of anthropogenic and natural phenomenon on the climate. Prerequisite: GEOG 1002.

GEOG 3128. Geomorphology. 3 Credits.

The influence of landforms and landscapes on human activities and the impact of humans on landscapes throughout history. Prerequisites: GEOG 1002 or GEOL 1005.

GEOG 3132. Environmental Quality and Management. 3 Credits.

The evolution of environmental management philosophies and tools. The global distribution, utilization, and degradation of natural resources. Prerequisite: GEOG 1002.

GEOG 3133. Social-Ecological Systems. 3 Credits.

Exploration of social processes and ecological dynamics by using interdisciplinary approaches that borrow tools and techniques from the social and natural sciences, as well as traditional knowledge systems. Prerequisites: GEOG 1001; and GEOG 1002 or GEOG 1003.

GEOG 3143. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Prerequisite: GEOG 1001.

GEOG 3143W. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001.

GEOG 3145. Cultural Geography. 3 Credits.

Themes, concepts, and tools appropriate for an in-depth geographic examination of the Earth's cultural landscape and of culture as a process. Prerequisite: GEOG 1001.

GEOG 3145W. Cultural Geography. 3 Credits.

Themes, concepts, and tools appropriate for an in-depth geographic examination of the Earth's cultural landscape and of culture as a process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001. Same As: GEOG 3145.

GEOG 3146. Political Geography. 3 Credits.

The uneven distribution and exercise of political power in the world; interrelationships among the human and physical environment and political systems. Prerequisite: GEOG 1001.

GEOG 3154. Geography of the Middle East and North Africa. 3 Credits.

Cultural and physical regional patterns of the Middle East and North Africa. Prerequisites: GEOG 1001 or GEOG 1002.

GEOG 3161. Geography of Latin America. 3 Credits.

Examination of spatial characteristics of physical and cultural phenomena in Latin America.

GEOG 3164. The Geography of Africa. 3 Credits.

Human and environmental geography of Africa south of the Sahara desert, including study of patterns and processes, culture and environment, and development issues. Prerequisites: GEOG 1001 or GEOG 1002.

GEOG 3165. Geography of South Asia. 3 Credits.

An examination of the complex interplay of environmental, economic, sociocultural, and political factors in South Asia and their effects at the local and regional levels.

GEOG 3189. Readings in Geography I. 1-12 Credits.

. Prerequisites: 12 credits of geography and permission of the instructor.

GEOG 3190. Readings in Geography II. 1-12 Credits.

Continuation of GEOG 3189. Prerequisites: 12 credits of geography and permission of the instructor.

GEOG 3193. Environmental Law and Policy. 3 Credits.

An introduction to selected pieces of major environmental legislation. The role of the courts and bureaucracy in implementing and interpreting legislation and their impacts on decision making. Designed for students with no training in law. Prerequisites: None.

GEOG 3194. Special Topics in Physical Geography. 3 Credits.

Topics covering physical principles of the Earth's physical geography and natural environment including the hydrosphere, atmosphere, biosphere, and lithosphere. Enrollment requires permission of the instructor.

GEOG 3195. Special Topics in Human Geography. 3 Credits.

Topics in human geography including population, urban, cultural, political and economic issues amongst others. Enrollment requires permission of the instructor.

GEOG 3196. Special Topics in Techniques. 3 Credits.

Topics covering specific skills in geographic information systems and field methods. Enrollment requires permission of the instructor.

GEOG 3197. Special Topics in Regional Geography. 3 Credits.

Various topics in regional geography, including world regional geography as well studies of specific regions of interest. Enrollment requires permission of the instructor.

GEOG 3198. Special Topics. 3 Credits.

Consideration of geographic aspects of topical and future problems of society. May be repeated for credit provided that the topic differs. Prerequisite: GEOG 1001 or GEOG 1002.

GEOG 3218. Arctic Systems. 3 Credits.

Arctic regions examined from an interdisciplinary perspective, linking different elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; key issues involving interaction between humans and the environment; climate change and its effects in the Arctic. Prerequisite: GEOG 1002.

GEOG 3810. Planning Cities. 3 Credits.

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as AMST 3810. Prerequisite: GEOG 1001.

GEOG 4195. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Prerequisite: permission of the advisor.

GEOG 4195W. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Permission of the advisor required prior to enrollment.

GEOG 4199. Internship. 1-3 Credits.

Fieldwork, internship, or other controlled assignment with an agency or organization engaged in work in applied geography. May be repeated for credit to a maximum of 6 credits. Prerequisites: 12 credits of geography courses and permission of the instructor.

GEOG 4307. Digital Image Processing and Analysis. 3 Credits.

Land use/land cover change analysis using satellite and aircraft platforms. Digital image processing techniques, analysis, and applications. Prerequisites: GEOG 2104, GEOG 3105, and GEOG 3107.

GEOG 4308. Programming for Geospatial Applications. 3 Credits.

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, troubleshooting common errors, and using loops to test for conditions and execute different code based on the results. Prerequisites: GEOG 2104, GEOG 3105, and GEOG 3106.

GEOG 4309. GIS for Emergency Management. 3 Credits.

Introduction to the theoretical principles of geographic information systems and examination of its history, current uses, and potential for emergency management through case studies, guest lectures, and hands-on training on various GIS products. Prerequisites: GEOG 3106.

GEOG 4310. Geovisualization and Cartography. 3 Credits.

Introduction to cartographic design from gathering data to the final visualization; specific components involved in mapmaking, including purpose, generalization, and symbolization. Prerequisites: GEOG 2104 and GEOG 3106. Same As: GEOG 6310.

GEOG 4311. Open Source Solutions for Geospatial Project Management. 3 Credits.

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 3106. Same As: GEOG 6311.

GEOG 5099. Variable Topics. 1-99 Credits.**GEOG 6201. Geographic Thought. 3 Credits.**

For first-year master's students, a survey of geographic thought and theories. Emphasis on contemporary issues in geography and on the development of research.

GEOG 6207. Urban Planning and Development. 3 Credits.

Selected problems in urban and regional planning: applications of zoning, environmental controls, and other techniques for achieving sustainable urban development.

GEOG 6208. Land Use and Urban Transportation Planning. 3 Credits.

Relationships between land use and the movement of goods and people. Examination of land use and transportation planning principles, issues, and techniques. Roles of public and private interests in land use and transportation planning and management.

GEOG 6218. Arctic Systems. 3 Credits.

Aspects of Arctic regions from an interdisciplinary perspective that links elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; interaction between humans and environment; climate change. Prerequisite: GEOG 1002.

GEOG 6219. Seminar: Climatology. 3 Credits.

Inadvertent climate modification due to urbanization and impacts on environmental and human health.

GEOG 6220. Seminar: Climatic Change. 3 Credits.

Examination of natural and human-induced climatic change, at global, regional, and local scales.

GEOG 6222. Seminar: Resources and the Environment. 3 Credits.

Topics related to the spatial variations and interrelationships of resources and the environment; applications of geographic information systems and remote sensing. Prerequisite: permission of instructor.

GEOG 6223. Seminar: Population and Health. 3 Credits.

Interrelationships between population characteristics and dynamics and impacts on human health.

GEOG 6224. Seminar: Political Geography. 3 Credits.

Examination of political factors in location theory and analysis of the nature of political territories and conflict.

GEOG 6225. Seminar: Transportation and Development. 3 Credits.

Transportation and communication in the organization of space.

GEOG 6226. Water Resources Policy and Management. 3 Credits.

The history and practice of water resources policy and management in an integrated context; the impact of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation, and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation.

GEOG 6230. Seminar: Environmental Issues in Development. 3 Credits.

A consideration of the geographical dimensions of the links between development and the environment.

GEOG 6232. Migration and Development. 3 Credits.

Analysis of migration's impact on development at various scales for both the sending and receiving localities.

GEOG 6233. Social-Ecological Systems. 3 Credits.

Exploration of social processes and ecological dynamics using interdisciplinary approaches that borrow tools and techniques from the social and natural sciences and traditional knowledge systems.

GEOG 6243. Seminar: Urban Geography. 3 Credits.

Topics concerning social, political, economic, and environmental issues in U.S. cities.

GEOG 6244. Urban Sustainability. 3 Credits.

Urban sustainability and environmental issues in developed and developing cities.

GEOG 6245. Water Resources Policy and Management. 3 Credits.

This course examines the history and practice of water resources policy and management in the context of integrated water resource management. Thus, the course addresses management issues and policy responses to such topics as the impacts of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation. In addition, non-human water requirements: e.g. for fish and wildlife, as well as the need to preserve the natural ecosystems that provide and sustain water resources are central to each discussion. Management and policy issues in the United States and worldwide at a range of scales (local, state, federal and international) will be examined. In the course of these examinations, students gain an understanding of how current issues such as growing populations, increasing affluence, and climate change may impact water resource policy and management.

GEOG 6250. Geographical Perspectives on Development. 3 Credits.

Theory and debates surrounding economic development in a globalizing world, with case studies.

GEOG 6261. Geographical Perspectives on Latin America. 3 Credits.

Natural resources, the environment, and population dynamics through time.

GEOG 6262. Geographical Perspectives on the Middle East. 3 Credits.

Examination of selected topics related to political, economic, social, cultural, and geographic patterns and processes in the region.

GEOG 6265. Geography of Russia and Its Neighbors. 3 Credits.

A deeper understanding of Post-Soviet geography with a focus on the physical and environmental characteristics of the region, geography of natural and human resources, ethnic, cultural and religious diversity, characteristics of economic and political regions, and recent geopolitical developments.

GEOG 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ SOC 6290/ STAT 6290.

GEOG 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ SOC 6291/ STAT 6291.

GEOG 6292. Qualitative Methods in Geography. 3 Credits.

Qualitative research methods, including questionnaires, focus groups, in-depth interviews, repeat photography, observation, reflective mapping, coding, and map interpretation that help appreciate the human experience and build upon ways to produce knowledge.

GEOG 6293. Special Topics. 3 Credits.

Consideration of geographic aspects of topical social or environmental problems. May be repeated for credit provided the topic differs. Credit cannot be earned for this course and IAFF 6118.

GEOG 6295. Research. 1-12 Credits.

May be repeated for credit.

GEOG 6299. Internship. 1-3 Credits.

GEOG 6300. Geography Capstone Internship. 3 Credits.

This course provides hands-on experiential learning in a local government agency, NGO, or corporation while allowing the candidate to use his/her geographical skills in a real world setting. Restricted to graduate students in the geography program. Prerequisite: GEOG 6201.

GEOG 6303. Introduction to Remote Sensing. 3 Credits.

Theoretical, technical, and applied aspects of remote sensing as a tool for monitoring and managing Earth's resources.

GEOG 6304. Geographical Information Systems I. 3 Credits.

Fundamentals of cartography; geographic data structure and geographic information systems.

GEOG 6305. Geospatial Statistics. 3 Credits.

Nature of geographical inquiry and the analytical and statistical methods used in the study of spatial processes and patterns.

GEOG 6306. Geographical Information Systems II. 3 Credits.

Advanced principles of geographic information systems and their use in spatial analysis and information management. Prerequisites: GEOG 6304 and GEOG 6305.

GEOG 6307. Digital Image Processing. 3 Credits.

This course introduces students to the theoretical, technical and applied aspects of remote sensing as a tool for monitoring and managing earth resources. This course provides students with the knowledge for analyzing and applying remotely sensed data for problem solving as it applies to land cover. Prerequisite: GEOG 6304.

GEOG 6308. Programming for Geospatial Applications. 3 Credits.

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, techniques to troubleshoot common errors, and using loops to test for conditions and execute code based on results. Prerequisites: GEOG 6304 and GEOG 6305.

GEOG 6309. GIS for Emergency Management. 3 Credits.

This course introduces students to the theoretical principles of geographic information systems and examines its history, current uses and potential for emergency management through case studies, guest lectures and hands-on training on various GIS products. Prerequisite: GEOG 6304.

GEOG 6310. Geovisualization and Cartography. 3 Credits.

Introduction to cartographic design; components of mapmaking, including purpose, generalization, and symbolization; spatial thinking and effective audience-specific communication. Prerequisite: GEOG 6304.

GEOG 6311. Open Source Solutions for Geospatial Project Management. 3 Credits.

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 6304. Same As: GEOG 4311.

GEOG 6998. Thesis Research. 3 Credits.

GEOG 6999. Thesis Research. 3 Credits.

GEOLOGY (GEOL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOL 1001. Physical Geology. 4 Credits.

Lecture and laboratory. Introduction to the principal features of the composition and structure of the earth. The nature of minerals and rocks, surface and deep earth processes, mineral and energy resources, and plate tectonics. Credit cannot be earned for this course and GEOL 1005.

GEOL 1002. Historical Geology. 4 Credits.

Lecture and laboratory. Introduction to the history of the earth. Sedimentary environments, plate tectonics, origin of life, and evolution.

GEOL 1005. Environmental Geology. 4 Credits.

Lecture and laboratory. Introduction to the impact of geology on the environment, with emphasis on the relation of people and society to natural environments. Population evolution, natural hazards, and mineral resources.

GEOL 1099. Variable Topics. 1-36 Credits.

GEOL 2106. Oceanography. 3 Credits.

The ocean with its many environments represents the last largely unexplored frontier on earth. Origin of the ocean systems and plate tectonics, ocean habitats and their biota, marine hydrology and ocean currents; air-sea interaction and climate control; ocean mapping techniques; environmental regulations covering marine resources. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

GEOL 2111. Mineralogy. 4 Credits.

Lecture and laboratory. Introduction to the crystallography and chemical systematics of rock-forming and ore minerals. Exercises emphasize the analysis of mineralogic data and the paragenesis of mineral assemblages. Laboratory fee. Prerequisites: GEOL 1001 or GEOL 1005; or permission of the instructor.

GEOL 2112. Igneous and Metamorphic Petrology. 4 Credits.

Lecture and laboratory. Introduction to basic light theory and the identification and characterization of minerals through optical properties. Laboratory exercises provide an introduction to petrologic analysis of igneous and metamorphic mineral systems. Prerequisite: GEOL 2111 or permission of the instructor. Laboratory fee.

GEOL 2122. Structural Geology. 3 Credits.

Study of natural and experimental rock deformation and the relationships between stress and strain as recorded by geologic structures. Prerequisites: GEOL 1001 or GEOL 1002 or GEOL 1005.

GEOL 2151. Introduction to Paleontology. 3 Credits.

Review of the origin of life, the geologic record, and the evolutionary history of the major groups of organisms, including the origin of life and evolution of invertebrates, vertebrates, and plants. Prerequisites: GEOL 1002.

GEOL 2190. Special Topics in Geology. 1-3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

GEOL 2333. Evolution and Extinction of Dinosaurs. 3 Credits.

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1111 and BISC 1112; or GEOL 1001 and GEOL 1002; or GEOL 1002 and GEOL 1005. Credit cannot be earned for this course and BISC 2333.

GEOL 3099. Variable Topics. 1-12 Credits.**GEOL 3118. Volcanology. 3 Credits.**

Fundamental principles and geologic processes associated with volcanism. Eruptive styles, processes leading to magma production and transport, triggering mechanisms, plate tectonic settings, volcanic hazards, and disaster mitigation. Case histories of selected volcanic eruptions examined in detail. Laboratory fee. Prerequisites: GEOL 2111 or permission of the instructor.

GEOL 3119. Field Experience in Volcanology. 1 Credit.

Weeklong field exercise at a major volcanic center in the western United States; field-based interpretation and analysis of volcanic and related rocks. Classroom discussion focuses on the processes responsible for volcanism. Deposit for expenses is required. Recommended background: Prior completion or concurrent enrollment in GEOL 2112 and GEOL 3118.

GEOL 3123. Crustal Dynamics. 3 Credits.

Basic plate tectonic processes and features; the plate tectonic paradigm in historical evolutionary framework. Students present an original research project orally and in writing. Prerequisite: GEOL 2122. Laboratory fee.

GEOL 3128. Sedimentology and Stratigraphy. 3 Credits.

Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Prerequisite: GEOL 1001.

GEOL 3129. Sedimentology and Stratigraphy Lab. 1 Credit.

Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Prerequisite: GEOL 2112.

GEOL 3131. Global Climate Change. 3 Credits.

Fundamental causes and patterns of climate change. Methods of reconstruction of past climates; modeling and predicting climate change.

GEOL 3138. Hydrogeology. 3 Credits.

Principles and theory of basic and applied hydrology: surface water hydrology, geology of groundwater systems, groundwater flow, surface water-groundwater interactions, contamination and remediation technologies, conservation, management, and regulations. Laboratory fee. Prerequisites: GEOL 2111 and GEOL 2122; and MATH 1221 or MATH 1231; or permission of the instructor.

GEOL 3140. Geochemistry. 3 Credits.

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Prerequisites: GEOL 1001 or GEOL 1005; and CHEM 1111 and CHEM 1112. (Same as CHEM 3140).

GEOL 3189. Geophysics. 3 Credits.

Principles of magnetic, gravity, seismic and electrical methods applied to geological problem-solving. Prerequisite: GEOL 2122 or permission of instructor.

GEOL 3191. Geology of Energy Resources. 3 Credits.

Principles of geology applied in energy exploration, exploitation, and production; the geology of energy resources in ocean basins; borehole and surface geophysical applications and reconnaissance mapping techniques; management and regulation of energy resources; sustainability, efficiency, and conservation issues. Laboratory fee. Prerequisites: GEOL 2122 or permission of the instructor.

GEOL 4195. Geological Field Methods. 4 Credits.

Weekend field trips. Methods of outcrop analysis, geologic mapping, and data interpretation. The geological evolution of the central Appalachian mountains and the plate tectonic processes responsible for their formation emphasized. Field trip fee. Prerequisites: GEOL 2111 and GEOL 2122.

GEOL 4195W. Geological Field Methods. 4 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GEOL 4199. Undergraduate Research or Reading. 1-12 Credits.

Problems approved by the staff. May be repeated for credit.

GEOL 5099. Variable Topics. 1-99 Credits.

GERMANIC LANGUAGE AND LITERATURE (GER)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GER 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

GER 1001. First-Year German I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing German. Laboratory fee.

GER 1002. First-Year German II. 4 Credits.

Continuation of GER 1001. Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1001. Laboratory fee.

GER 1003. Second-Year German I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1002. Laboratory fee.

GER 1004. Second-Year German II. 4 Credits.

Continuation of GER 1003. Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1003. Laboratory fee.

GER 1005. Intensive Beginning German I. 8 Credits.

Intensive course in fundamentals of speaking, understanding, reading, and writing German (equivalent to GER 1001–GER 1002). Recommended for majors. Laboratory fee.

GER 1006. Intensive Beginning German II. 8 Credits.

Continuation of GER 1005. Intensive course in fundamentals of speaking, understanding, reading, and writing German (equivalent to GER 1003–GER 1004). Prerequisite: GER 1002 or GER 1005. Recommended for majors. Laboratory fee.

GER 1099. Variable Topics. 1-36 Credits.

GER 2009. Intermediate German I. 3 Credits.

Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisites: GER 1004 or GER 1006; or permission of the instructor.

GER 2010. Intermediate German II. 3 Credits.

Continuation of GER 2009. Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisites: GER 1004 or GER 1006; or permission of the instructor.

GER 2091. Introduction to German Literature—in English I. 3 Credits.

Survey of German literature 1700 to 1830, including the Enlightenment through Sturm und Drang, classicism, and romanticism.

GER 2092. Introduction to German Literature—in English II. 3 Credits.

Continuation of GER 2091. Survey of German literature 1830 to 1950, including Young Germany through realism, naturalism, expressionism, and the literature of the Third Reich years (exile literature and inner emigration).

GER 2101. Readings in Contemporary German I. 3 Credits.

Analysis of representative readings of expository prose from German newspapers, periodicals, and other publications. Prerequisite: for GER 2101, GER 1004 or GER 1006.

GER 2102. Readings in Contemporary German II. 3 Credits.

Continuation of GER 2101. Analysis of representative readings of expository prose from German newspapers, periodicals, and other publications. Prerequisite: GER 2101.

GER 2109. Advanced Conversation and Composition. 3 Credits.

Introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisites: GER 2010 or permission of the instructor.

GER 2109W. Advanced Conversation and Composition. 3 Credits.

An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisites: GER 2010 or permission of the instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and GER 2109.

GER 2110. Germany in the Age of Globalization. 3 Credits.

Continuation of GER 2109. An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisites: GER 2010 or permission of the instructor.

GER 2110W. Germany in the Age of Globalization. 3 Credits.

Continuation of GER 2109. An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: GER 2010 or permission of the instructor.

GER 2111. Business German. 3 Credits.

Introductory course preparing students to function in business-related communicative situations, with an emphasis on language skills necessary for work in areas such as marketing and finance. Prerequisites: GER 2010 or permission of the instructor.

GER 2161. German Culture—in English I. 3 Credits.

The central problems, issues, and events that have shaped the development of German culture from antiquity to the present. Emphasis on products and processes of German culture in social, historical, and political contexts.

GER 2162. German Culture—in English II. 3 Credits.

Continuation of GER 2161. The central problems, issues, and events that have shaped the development of German culture from antiquity to the present. Emphasis on products and processes of German culture in social, historical, and political contexts.

GER 2165. Twentieth-Century German Literature—in English. 3 Credits.

Survey of the major trends in the works by modernist, exile, postwar, and contemporary German writers such as Kafka, Thomas Mann, Duerrenmatt, and Grass.

GER 3099. Variable Topics. 1-12 Credits.**GER 3181. History of German Cinema—in English. 3 Credits.**

A detailed historical and cultural survey of German cinema from the first moving picture devices (1895) to the expressionistic classics of the 1920s and the collapse of the Nazi film industry in 1945. All films are subtitled.

GER 3182. The Fairy Tale from the Grimms to Disney. 3 Credits.

Survey of the changing form, structure, and meaning of the fairy tale in its traditional contexts, modern transformations and critical interpretations, with readings by nineteenth-century European collectors and twentieth-century critics. Taught in English.

GER 3183. Berlin Before and After the Wall. 3 Credits.

The political, social, and cultural developments in Berlin from 1945 to the present through a reading of selected primary documents, historical analyses, and short literary texts.

GER 3184. German Thought—in English. 3 Credits.

An overview of German ideas about culture, religion, society, and politics from the sixteenth century to the present. Readings from such writers as Luther, Leibniz, Kant, Schiller, Hegel, Marx, Nietzsche, Freud, Weber, Heidegger, Adorno, and Habermas.

GER 3185. Literary Voices and the Fascist Experience—in English. 3 Credits.

A survey of writers anticipating as well as reflecting on Germany's plunge into the totalitarian abyss of fascist politics, including H. Mann, Kafka, Juenger, Brecht, Werfel, Thomas Mann, Lenz, Frisch, Duerrenmatt, and various forms of Holocaust poetry.

GER 3186. German Women Writers of the 19th and 20th Centuries. 3 Credits.

The changing literary and social roles of German women of the 19th and 20th centuries, examined through selected readings of women's literary production and culture.

GER 3187. German Cinema after 1945. 3 Credits.

The evolution of German cinema after 1945 in relation to social and political developments in the two German states; the national and international influences on the development of East and West German film and on film since German unification. Taught in English.

GER 3188. The Lives of East Germans. 3 Credits.

Consideration of what it meant to grow up and live in the German Democratic Republic and the changes and challenges to East German identity since unification. The course draws upon historical, political, and sociological studies as well as literary and filmic representations of East German experience.

GER 3189. Dealing with the Communist Past in Germany and Eastern Europe. 3 Credits.**GER 4171. The Age of Goethe—in German. 3 Credits.**

Readings of major works of Weimar classicism in their historical and cultural context.

GER 4172. From Romanticism to Realism. 3,4 Credits.

Readings in German romanticism (Kleist, Hoffmann), literature of the "young Germany" movement (Büchner), and realism (Keller, Storm).

GER 4173. Naturalism to Expressionism. 3 Credits.

Study of various literary movements between 1880 and 1914: naturalism, impressionism, symbolism, and expressionism (Hauptmann, Hesse, Thomas Mann, Kafka).

GER 4174. Inside/Outside the Third Reich. 3 Credits.

Analysis of literary developments inside the Nazi state (propaganda literature, literature of resistance, and inner immigration) and the literature of exile (Seghers, Remarque).

GER 4175. Literature of two Germanies. 3 Credits.

Evolution of East and West German literatures after World War II, their separate developments and ultimate unification.

GER 4176. Contemporary German Literature. 3 Credits.

Analysis of works by former East and West German writers after unification as well as the generation of young German writers, who came of age after or around the time of unification. Emphasis on memoirs, family narratives, essays, and films examining Germany's transition from fascism and socialism to democracy.

GER 4195. Special Topics. 1-3 Credits.

May be repeated for credit provided the topic differs.

GER 4197. Senior Honors Thesis I. 3 Credits.

Senior honors thesis on a topic related to German language, literature, or culture. Required of and open only to honors candidates in the department.

GER 4198. Senior Honors Thesis II. 3 Credits.

Continuation of GER 4197. Senior honors thesis on a topic related to German language, literature, or culture. Required of and open only to honors candidates in the department.

GER 5099. Variable Topics. 1-99 Credits.

GOVERNMENT CONTRACTS (GCON)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GCON 6290. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details. Recommended background: GCON 6502 and GCON 6503.

GCON 6501. Capstone Research and Writing Project. 3 Credits.

Students produce an original project to demonstrate accumulated learning and professional development in the government contracts field. Course requirements are fulfilled through completion of either a research thesis of approximately 6,000 words or alternate projects determined in consultation with the program director. Restricted to For Master of Science in Government Contracts candidates.

GCON 6502. Formation of Government Contracts. 3 Credits.

Survey of the law pertaining to government procurement, including an analysis of the unique features of government contracting and a discussion of the functions of Congress, the executive branch, and the courts in the procurement process. Focus on the contract formation process, including techniques for awarding contracts and litigation and protests involving awards. (Same as LAW 6502).

GCON 6503. Performance of Government Contracts. 3 Credits.

Substantive problems that most frequently arise during the performance of government contracts. Interpretation of specifications and the most generally used contract clauses; analysis of the rights of the parties when performance in accordance with the terms of the contract is not obtained. Analysis of the methods that can be used by the parties to a government contract to obtain legal relief, including detailed coverage of the disputes procedure, actions for breach of contract, and forms of equitable and extraordinary relief. (Same as LAW 6503).

GCON 6504. MSGC Capstone Scholarly Writing. 1 Credit.

A research and writing project completed under the supervision of the law school that integrates students' cumulative learning experiences in and demonstrates their understanding of government contract law and business. The project addresses a current acquisition issue of interest to the student. Students are expected to produce a final paper for submission to a relevant scholarly journal for publication. Restricted to Master of Science in Government Contracts candidates.

GCON 6505. Marketing for the Government Marketplace. 3 Credits.

The key elements of the business environment that affect marketing for the federal government. Important characteristics of government versus consumer and business markets; segmentation, targeting, and positioning; brand equity and the importance of building strong brands. Key issues and decisions associated with the marketing mix (products, pricing, distribution, and promotion). Application of marketing principles and theories to federal government contracting opportunities.

GCON 6506. Pricing Issues in Government Contracts. 3 Credits.

Fundamentals of government contracts cost and pricing. The regulatory, accounting, estimating and financial foundations of cost and pricing, including Federal Acquisition Regulation ("FAR") Part 15, FAR Part 31, and Cost Accounting Standards ("CAS"). Topics examined from both contractor and government perspectives include evaluating cost and pricing of government contract proposals, negotiating fair and reasonable contract prices, evaluating requests for equitable adjustment and claims that arise in government contract performance, and settlement proposals in terminations for convenience. Case studies and class presentations allow students to practice and enhance their skills based on practical issues that arise in the cost and pricing arena.

GCON 6508. Comparative Public Procurement. 2 Credits.

Comparative study of laws, regulations, and procedures dealing with public procurement, with a focus on common issues and challenges facing government procurement systems throughout the world; approaches of the U.S. federal system compared to those of various international organizations. Restricted to students in the MS in government contracts program. Prerequisite: GCON 6515.

GCON 6509. State and Local Procurement. 2 Credits.

Common procurement methods and solutions used in state and local governments and comparison with those used in federal procurement systems; the distinct evolution of state and federal procurement legal systems and whether they should be more closely connected. Restricted to students in the MS in government contracts program. Prerequisite: GCON 6515.

GCON 6510. Foreign Government Contracting. 2 Credits.

Special legal and policy issues resulting from the emergence of a highly globalized public procurement market; export controls, anti-corruption requirements, and unique legal rules for certain types of foreign assistance. Restricted to students in the MS in government contracts program. Prerequisite: GCON 6515.

GCON 6511. Federal Grants Law. 2 Credits.

The federal financial assistance system and specific legal issues arising with respect to management of federal grants and cooperative agreements. Restricted to students in the MS in government contracts program.

GCON 6512. Government Procurement of Intellectual Property Seminar. 2 Credits.

Intellectual property law in terms of its challenges to federal government procurement rules; competing policy demands for innovation, transparency, and sound public investment in the intersection of intellectual property law and federal procurement rules. Restricted to students in the MS in government contracts program.

GCON 6513. Procurement Reform. 2 Credits.

Emerging issues in U.S. public procurement law; reforms regarding integrity, transparency, and competition; European procurement law as a comparative counter-example to U.S. law. Restricted to students in the MS in government contracts program. Prerequisite: GCON 6515. Credit cannot be earned for this course and GCON 6509.

GCON 6514. Anti-Corruption and Compliance. 2 Credits.

Domestic and international anti-corruption laws; traditional U.S. bribery and gratuity laws and the implementation and enforcement of these laws and programs; international anti-corruption efforts in enforcement and through international instruments. Restricted to students in the MS in government contracts program.

GCON 6515. Advanced Writing for Government Contracts. 2 Credits.

Understanding and analyzing the fundamental parts of the writing process to achieve greater mastery of written communication. Students reflect on their own writing process, identify areas for improvement, and develop advanced practical skills. Restricted to students in the MS in government contracts program. Prerequisites: GCON 6502 and GCON 6503.

GREEK (GREK)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GREK 1001. Beginning Classical Greek I. 4 Credits.

Study of the grammar, vocabulary, and structure of ancient Greek. Reading of selected ancient authors.

GREK 1002. Beginning Classical Greek II. 4 Credits.

Continuation of GREK 1001. Study of the grammar, vocabulary, and structure of ancient Greek. Reading of Homer and selected ancient authors. Prerequisite: GREK 1001.

GREK 1099. Variable Topics. 16 Credits.**GREK 2001. Intermediate Classical Greek I. 3 Credits.**

Reading of ancient Greek prose or poetic works (e.g., selections from Homer, Plato, Euripides). Review of grammar. Prerequisite: GREK 1002 .

GREK 2002. Intermediate Classical Greek II. 3 Credits.

Continuation of GREK 2001. Reading of ancient Greek prose or poetic works, such as selections from Homer, Plato, and Euripides. Review of grammar. Topics vary by year. Permission of the instructor may be substituted for the prerequisite. Prerequisite: GREK 2001.

GREK 2002W. Intermediate Classical Greek II. 3 Credits.

Continuation of GREK 2001. Reading of ancient Greek prose or poetic works, such as selections from Homer, Plato, and Euripides. Review of grammar. Topics vary by year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Permission of the instructor may be substituted for the prerequisite. Prerequisite: GREK 2001.

GREK 3001. Major Greek Authors I. 3 Credits.

Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 .

GREK 3001W. Major Greek Authors II. 3 Credits.

Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GREK 2002 .

GREK 3002. Major Greek Authors II. 3 Credits.

Continuation of GREK 3001. Selections from a wide variety of Greek drama and poetry, suited to the needs of the class. Topics vary by year. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 or permission of the instructor.

GREK 3002W. Major Greek Authors II. 3 Credits.

Continuation of GREK 3001. Selections from a wide variety of Greek drama and poetry, suited to the needs of the class. Topics vary by year. May be repeated for credit with permission of instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GREK 2002.

GREK 3099. Variable Topics. 1-12 Credits.**GREK 5099. Variable Topics. 1-99 Credits.**

GWTEACH (GTCH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GTCH 1001. GWTeach Step 1: Inquiry Approaches to Teaching. 1 Credit.

First experiential course in the GWTeach program. Introduces the basics of teaching, with a focus on using inquiry to teach lessons. Includes teaching experiences in a local elementary school.

GTCH 1002. GWTeach Step 2: Inquiry-based Lesson Design. 2 Credits.

Builds on the basics of teaching learned in GTCH 1001, with a focus on inquiry-based lesson design, teaching with technology, classroom management, and analyzing student performance data. Includes teaching experiences in a local middle school. Prerequisites: GTCH 1001.

GTCH 2003. Step 1 and 2 Hybrid: Inquiry Approaches to Teaching and Lesson Design. 3 Credits.

Combination of GTCH 1001 and GTCH 1002, with emphasis on inquiry lesson design, teaching with technology, classroom management, and analyzing student performance. Includes teaching experiences in a local middle school.

GTCH 3101. Knowing and Learning in Mathematics and Science. 3 Credits.

Introduction to models of knowing and learning for classroom practice. Focus on secondary mathematics and science.

GTCH 3102. Classroom Interactions. 3 Credits.

Use of curriculum and technology in the classroom. Interplay between teachers, students, content, and the world beyond schools. Design, implement, and evaluate outcomes of instructional activities. Includes local high school teaching experiences. Prerequisites: GTCH 1001 and GTCH 1002; or GTCH 2003.

GTCH 3103. Project-Based Learning. 3 Credits.

Design of full units of connected lessons. Integration of mathematics and science content. Intensive field-based high school teaching experiences in a local school are embedded into the course. Restricted to Students in the GWTeach program with junior or senior standing or with permission of the instructor. Prerequisites: GTCH 3102. Recommended background: This is a service learning course, for more information email gwteach@gwu.edu.

GTCH 3201. Perspectives on Math and Science. 3 Credits.

Topics and episodes in the history of science and math. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Same As: PHIL 3201.

GTCH 3201W. Perspectives on Mathematics and Science. 3 Credits.

Topics and episodes in the history of mathematics and science. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Prerequisites: GTCH 1001 or permission of the instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GTCH 3202. Research Methods in Mathematics and Science. 3 Credits.

Designing experiments to answer scientific questions and reduce systematic and random errors; using statistics to interpret experimental results. Application and implementation of science and math research in K-12 classrooms. Restricted to students in the GWTeach program with sophomore or higher standing and others with permission of the instructor. Prerequisites: GTCH 1001 and 1002; or GTCH 2003.

GTCH 3203. Functions and Modeling. 3 Credits.

Designed to strengthen and expand knowledge of secondary mathematics topics and address the unique needs of future math teachers. Explores models using linear, exponential, polynomial, and trigonometric functions. Euclidean geometry. Prerequisites: GTCH 1001 and MATH 1231 or permission of the instructor.

GTCH 3500. Topics in STEM Teaching. 1 Credit.

Issues in STEM research and education. Topics vary by semester. May be repeated for credit if topic differs. Consult the Schedule of Classes for more details. Restricted to GWTeach and minor in STEM teaching students with permission of the GWTeach Associate Director.

GTCH 3600. Pedagogy for Learning Assistants. 2 Credits.

For learning assistants in large undergraduate science courses. Integrating educational theory, pedagogy, and practice to facilitate productive classroom interactions. Credit cannot be earned for this course and CPED 6100.

GTCH 4000. Apprentice Teaching. 7 Credits.

Culminating experience for teacher certification. Twenty-five hours per week of field experience in a local school teaching in content certification area are required. Students attend a weekly seminar to discuss topics related to the profession of teaching. Restricted to GWTeach apprentice teachers with junior or senior standing. Prerequisites: GTCH 3101 and GTCH 3102; or GTCH 3103.

HEALTH AND WELLNESS (HLWL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HLWL 1099. Variable Topics. 1-36 Credits.

Variable topics.

HLWL 1101. Special Topics. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

HLWL 1102. Stress Management. 3 Credits.

A holistic view of stress management, including mind, body, spirit, and emotions; dominant stressors and how they affect health and wellness.

HLWL 1103. Issues in Men's Health. 3 Credits.

Issues in men's health ranging from the physical and emotional to the spiritual and occupational.

HLWL 1104. Outdoor and Environmental Education. 3 Credits.

A conceptual and experiential introduction to outdoor education, environmental education, wilderness travel, and outdoor leadership. Materials fee.

HLWL 1105. Yoga and the Meaning of Life. 3 Credits.

The historical teachings that have contributed to the physical, psychological, and spiritual practices of yoga.

HLWL 1106. Drug Awareness. 3 Credits.

Analysis of the complex role that drugs play in contemporary society and the ethical, legal, socioeconomic, and health issues that surround their therapeutic and recreational use.

HLWL 1108. Weight and Society. 3 Credits.

Background and concepts of body dissatisfaction, disordered eating, food preoccupation, and exercise obsession.

HLWL 1108W. Weight and Society. 3 Credits.

Background and concepts of body dissatisfaction, disordered eating, food preoccupation, and exercise obsession. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HLWL 1109. Human Sexuality. 3 Credits.

Biological and developmental aspects of human sexuality; psychological and emotional aspects of sexual behavior; sexual identity; social forces affecting sexual issues; and research trends in the area of human sexuality.

HLWL 1110. Issues in Alternative Medicine. 3 Credits.

Various modalities of alternative/complementary/integrative therapy; critical analysis and evaluation of the many dimensions of these approaches.

HLWL 1112. Issues in Women's Health. 3 Credits.

An introduction to health promotion and disease prevention pertaining especially to diseases, disorders, and conditions that are more prevalent among or unique to women or for which risk factors or interventions may differ for women and men. Topics are covered from epidemiological, sociocultural, historical, and behavioral perspectives.

HLWL 1114. Personal Health and Wellness. 3 Credits.

Survey of the various components involved in personal health and wellness, such as personal fitness, sexuality, mental health, and environmental health; application of knowledge through the use of decision making and behavior modification skills.

HLWL 1116. Lifestyle Nutrition. 3 Credits.

Introduction to nutrition that enables the student to make healthful food choices to enhance quality of life and prevention of chronic disease. Topics may include label reading, vegetarian diets, eating for exercise, and interpreting nutrient recommendations.

HLWL 1117. Lifetime Fitness. 3 Credits.

Core elements of personal fitness as applied to daily life. Emphasis on the development of functional fitness skills that can be practiced both in and out of the classroom.

HLWL 5099. Variable Topics. 1-99 Credits.

HEALTH CARE QUALITY (HCQ)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HCQ 5099. Variable Topics. 1-99 Credits.

HCQ 6200. Introduction to Health Care Quality. 3 Credits.

An overview of the US health care system and the influence of health policy development and implementation on health care quality. Introduction to fundamental concepts of health care quality, patient safety, leadership, and change management.

HCQ 6201. Building a Quality Culture. 3 Credits.

Application of leadership and organizational change theories and principles to the implementation of quality and patient safety initiatives. Focus on strategies for developing the culture and infrastructure needed to support patient safety and continuous quality improvement.

HCQ 6202. Health Care Quality Landscape. 3 Credits.

Analysis of quality and patient safety challenges in US health care with a focus on political and environmental influences.

HQC 6203. Quality Improvement Science. 3 Credits.

An introduction to quality improvement and patient safety theories, models, methods and tools and their application to quality and safety improvement challenges in health care.

HQC 6204. Health Care Quality Analysis. 3 Credits.

Application of measurement, data management and statistical analysis principles to quality improvement and patient safety challenges. Focus on the importance and design of effective measures and the selection of appropriate analysis tools.

HQC 6205. Patient Safety Systems. 3 Credits.

An examination of the epidemiology and sources of error in health care, risk assessment, and the design of processes and systems to improve patient safety. Focus on the application of process and technology-based systems to reduce the incidence of error.

HQC 6206. Health Information, Quality and Outcomes. 3 Credits.

Approaches to medical informatics to support managerial, patient care, and quality improvement decision making in clinical practice, considering ethical, legal, and social dimensions of health care.

HQC 6275. Leadership and Change. 3 Credits.

A capstone course focusing on the concept of leading change within the contexts of health professionals, health systems, and health policy. Organizational, management, and change theories as well as characteristics of personal and professional change leadership are explored in relation to expectations for successful executive leadership and performance in today's dynamic health care environments.

HEALTH CARE SCIENCE (HCS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HCS 1011. Applied Anatomy and Physiology. 4 Credits.

.

HCS 1012. Mathematics-Health Providers. 2 Credits.**HCS 1099. Variable Topics. 1-36 Credits.****HCS 2100. Clinical Medicine Review. 5 Credits.****HCS 2101. Environmental Biostatistics. 3 Credits.****HCS 2102. Food and Water Sanitation. 3 Credits.****HCS 2103. Academic Curriculum Tutorial. 1-12 Credits.****HCS 2135. Clinical Assessment II. 4 Credits.****HCS 2140. Clinical Decision Making. 2 Credits.****HCS 2153. Gynecology Outpatient: Nurse Practitioners. 1-12 Credits.**

.

HCS 2154. Clinical Geriatrics. 1-12 Credits.**HCS 2158. Cardiothoracic Med Elect-PA's. 4 Credits.****HCS 2159. Dermatology Elective for Physician Assistants. 4 Credits.**

.

HCS 2160. Medical Inpatient. 5 Credits.**HCS 2161. Sports Medicine for Physician Assistants. 1-12 Credits.**

.

HCS 2163. Medical Outpatient. 1-12 Credits.**HCS 2166. Surgical Inpatient. 1-12 Credits.****HCS 2168. Urology. 2 Credits.****HCS 2169. Obstetrics and Gynecology. 1-12 Credits.****HCS 2172. Pediatric Outpatient. 1-12 Credits.****HCS 2173. Special Project Elective - PA/MPH Students. 4 Credits.**

.

HCS 2175. Primary Care Preceptorship. 1-12 Credits.**HCS 2176. EMed Elective For PA's. 4 Credits.****HCS 2177. General Medicine Elective for Physician Assistants. 4-6 Credits.**

.

HCS 2178. Emergency Medicine. 1-12 Credits.**HCS 2180. Practicum in Environmental Health. 7 Credits.**

.

HCS 2186. Orthopaedics Elective for Physician Assistants. 4 Credits.

.

HCS 2187. Radiology Elective for Physician Assistants. 4 Credits.

.

HCS 2188. Shock Trauma Elective for Physician Assistants. 4 Credits.

.

HCS 2189. Alcohol Rehabilitation Unit. 2 Credits.

HCS 2190. Dermatology. 1,2 Credit.

HCS 2191. Eye, Ear, Nose, and Throat. 4 Credits.

HCS 2192. Orthopaedics. 4 Credits.

HCS 2194. Practicum in Gerontology and Geriatric Care. 1-12 Credits.

.

HCS 2195. Ophthalmology. 4 Credits.

HCS 2197. Current Topics in Bioethics. 1 Credit.

HCS 2198. Psychiatry. 4 Credits.

HCS 4199. Independent Study. 1-12 Credits.

HCS 5099. Variable Topics. 1-99 Credits.

HCS 6201. Practicum in Geriatric Care. 1 Credit.

HCS 6202. Introduction to Health Policy. 1 Credit.

HCS 6203. Spirituality, Healing, and Art in Medicine. 1 Credit.

.

HCS 6208. Clinical Experience in Urban Health Care. 1 Credit.

.

HCS 6228. Preclinical Primary Care Apprenticeship. 2 Credits.

.

HCS 6230. Statistical Applications for Health Professionals. 3 Credits.

.

HCS 6231. Research Design. 3 Credits.

HCS 6232. Methods in Reading Medical Literature. 1 Credit.

.

HCS 6233. Epidemiology/Med Decision Makng. 1 Credit.

HCS 6274. Graduate Clinical Practicum. 3 Credits.

HCS 6502. Organztn/Financing-Health Care. 3 Credits.

HCS 6504. Med Law-the Attending Physician. 3 Credits.

HCS 6505. Biomedical Ethics. 5 Credits.

HCS 6506. Medical Humanities. 1-12 Credits.

HCS 8360. Family Practice Preceptorship. 1-12 Credits.

HCS 8361. Rural Family Practice Precepтр. 1-12 Credits.

HCS 8362. Rural Family Practice Precepтр. 1-12 Credits.

HCS 8369. Issues in Health Care. 2 Credits.

HCS 8390. Extramural HCS Elective. 1-12 Credits.

HCS 8391. Extramural HCS Elective. 1-12 Credits.

HCS 8392. Extramural HCS Elective. 1-12 Credits.

HCS 8393. Extramural HCS Elective. 1-12 Credits.

HCS 8394. Extramural HCS Elective. 1-12 Credits.

HEALTH SCIENCES PROGRAMS (HSCI)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSCI 1101. Careers in Health Care. 1 Credit.

Introduction to health professions and an orientation to the U.S. health care system; training and educational pathways required for various health professions.

HSCI 1102. Medical Terminology I. 3 Credits.

First in a two-course series introducing medical vocabulary and terms related to the anatomy, physiology, pathology, and treatment of select systems; the gastrointestinal, respiratory, cardiovascular, blood, lymphatic, integumentary, skeletal, and muscular systems. Recommended background: Prior completion of a course in biology.

HSCI 1103. Medical Terminology II. 3 Credits.

Second in a two-course series covering medical vocabulary and terms related to the anatomy, physiology, pathology, and treatment of select systems; the nervous, urinary, reproductive, endocrine, ophthalmic, and otolaryngologic systems. Prerequisite: HSCI 1102. Recommended background: prior completion of a course in biology.

HSCI 1106. Introduction to Biotechnology for Health Sciences. 3 Credits.

Concepts in biotechnology with special emphasis on issues and advances in medicine and health care. Restricted to Students in SMHS.

HSCI 1107. Introduction to Sterile Processing. 3 Credits.

Concepts and terminology in perioperative care; basic surgical instrumentation, inventory control, and sterile processing standards. Restricted to SMHS students. Prerequisites: HSCI 1101, HSCI 1102 and HSCI 1103.

HSCI 1108. Introduction to Food and Nutrition. 3 Credits.

Introduction to food and nutrition and their impact on health and wellness; nutrients and metabolism, dietary and food practices, obesity, nutrient requirements across the lifespan, access to proper nutrition, and commercial messages in nutrition and advertising. Prerequisites: HSCI 1102 and HSCI 1103.

HSCI 1109. Introduction to Surgical Sciences. 3 Credits.

Introduction to surgical technology; terminology, sterilization processes, surgical instrumentation, techniques, and basic case management. Restricted to SMHS students. Prerequisites: HSCI 1102 and HSCI 1103.

HSCI 1110. Concepts of Pathophysiology and Health. 3 Credits.

Introduction to concepts of pathophysiology and health with special emphasis on issues and advances in nursing and health care. Restricted to students in the Health Sciences program. Prerequisites: HSCI 1102 and HSCI 1103.

HSCI 1114. Foundations of Nursing I. 3 Credits.

Fundamental concepts of nursing with perspectives on the nursing profession as a cornerstone of the contemporary healthcare landscape.

HSCI 1115. Foundations of Nursing II. 3 Credits.

Builds on material introduced in HSCI 1114. Application of nursing theory, assessment, and critical thinking to navigate common conditions and issues facing the contemporary healthcare landscape. Recommended background: Prior completion of HSCI 1114.

HSCI 2050. Foundations of Health Equity. 3 Credits.

The cross-cutting nature of the social determinants of health and clinical and biomedical implications in practice and research settings.

HSCI 2100. Writing and Composition in the Health Sciences. 3 Credits.

Basic writing mechanics and methods for developing paragraphs and essays; conceptualizing papers, such as crafting outlines and assessing sources; and basics of APA style. Students practice analyzing writing through peer review exercises.

HSCI 2101. Psychosocial Aspects of Health and Illness. 3 Credits.

Comprehensive introduction to the psychological and social aspects of health and wellness. Emphasis on the development of communication skills and the establishment of caring relationships. Discussions of special situations such as working with dying patients and patients with self-destructive behaviors.

HSCI 2102. Pathophysiology. 3 Credits.

Biomedical and scientific framework for the understanding of human disease mechanisms and biologic processes. Overview of infectious, immunologic, cardiovascular, genetic, respiratory, gastrointestinal, neoplastic, reproductive, renal, hematologic, neurologic, and musculoskeletal diseases.

HSCI 2103. Health Policy and the Health Care System. 3 Credits.

Incorporates economic theory and policy analysis methodology to analyze the impact of changes in the health care system on the practice of health sciences professionals and the quality and process of health care. Development of critical thinking skills through review of current medical literature.

HSCI 2104. Management of Health Science Services. 3 Credits.

Application of management and organizational principles to the delivery of services provided by health sciences disciplines. Issues addressed include information systems, leadership, team building, fiscal management, human resources management, quality improvement, and management of conflict and change.

HSCI 2105. Current Issues in Bioethics. 3 Credits.

Basic issues, approaches, and requirements of ethically acceptable decision making with patients, including patient confidentiality, conflicts of interest, allocation of scarce resources, occupational risks in health care, and professional responsibility for overall quality of care.

HSCI 2107. Health Care in Literature. 3 Credits.**HSCI 2108. Quality Improvement in Health Care. 3 Credits.**

Analysis of the structures in place to enhance the quality of health care delivery and political and economic influences that affect quality improvement programs. Assessment of specific interventions to enhance health care from the perspectives of providers and patients.

HSCI 2109. Trends and Innovations in Health Care. 3 Credits.

Examination of new technologies, health care delivery models, and the phenomenon of sophisticated consumers. Assessment of the impact of science, technology, ethics, and government on the provision of health care.

HSCI 2110. Disease Prevention and Health Promotion Concepts. 3 Credits.

Students create a proposal to engage a local community in program planning to achieve health equity. The emphasis is on achieving health equity through disease prevention and health promotion to advance community, population, and public health.

HSCI 2111. Development of the Health Care Professions. 3 Credits.

The evolution of the health care professions; basic information pertinent to all aspects of the support and delivery of health care services; and legal and professional considerations related to health occupations.

HSCI 2112. Writing in the Health Sciences. 3 Credits.

Introduction to the health sciences literature. Emphasis is on construction, evaluation and organization of written communication of health sciences information.

HSCI 2112W. Writing in the Health Sciences. 3 Credits.**HSCI 2113. Informatics in the HSCI. 3 Credits.**

Introduction to health care informatics, including management and clinical information systems and their role in administration, clinical, and research arenas in health care.

HSCI 2114. Health Care in Developing Nations. 3 Credits.

An introduction to health concerns in the developing world. Students explore interventional approaches for such issues as malaria, HIV/AIDS, clean water, maternal and women's health, and childhood mortality.

HSCI 2117. Introduction to Statistics for Health Sciences. 3 Credits.

Foundational concepts in descriptive and inferential statistics, including probability, sampling distribution, estimation, correlation, t-Test, simple linear regression, and chi-square. Application of statistical concepts and methods within the health sciences.

HSCI 2118. Global Women's Health. 1 Credit.

The social, cultural, and economic conditions affecting health outcomes for women and girls across the globe. Through a human rights lens, students explore the core women's health issues outlined by the World Health Organization (WHO).

HSCI 2130. Primary Care Skills Practicum. 2 Credits.**HSCI 2131. Adult Primary Care Practicum. 2 Credits.**

Clinical course on caring for adults with common primary care problems and understanding concepts of health promotion and disease prevention. Students conduct in-depth examinations of specific primary care problems; review current pathophysiology literature; explore pharmacologic and non-pharmacologic treatment modalities; and diagnose and manage acute and chronic problems prominent in ambulatory health clinics serving the general adult population. A minimum of 80 clinical hours is required.

HSCI 2132. Primary Care Mental Health Practicum. 2 Credits.

.

HSCI 2133. Specialized Clinical Experience. 2 Credits.

.

HSCI 2190. Independent Study in Clinical Health Sciences. 1-12 Credits.

Independent study and special projects involving student-defined learning objectives. Permission of the faculty member directing the study is required prior to enrollment.

HSCI 2195. Special Topics in Health Sciences. 1-3 Credits.

.

HSCI 2503. Survey of Medical Terminology. 1 Credit.

Basic medical terminology and vocabulary commonly used in health care. For pre-medical students and other pre-health professions. Restricted to SMHS students.

HSCI 3100. Applied Health Equity in Washington, DC. 1 Credit.

Introduction, through community engagement, to the historical health disparities and long-term health inequities faced by many low-income Black residents of Washington, DC. Recommended background: Prior completion of an introductory public health course.

HSCI 3101. General Chemistry I. 4 Credits.

First course in a two-course series in general chemistry with corresponding lab activities. Focus on fundamental laws, theories, and mathematical concepts of chemistry. Students must have program standing or permission of the instructor to enroll.

HSCI 3102. General Chemistry II. 4 Credits.

Second course in a two-course series in general chemistry with corresponding lab activities. Focus on fundamental laws, theories, and mathematical concepts of chemistry. Students must have program standing or permission of the instructor to enroll. Prerequisites: HSCI 3101 with a minimum grade of C-.

HSCI 3103. Organic Chemistry I. 4 Credits.

First in a two-course series. Introduction to the structure, reactivity, and properties of organic compounds. Includes corresponding laboratory activities. Restricted to students in the post-baccalaureate certificate in pre-medicine program. Prerequisites: HSCI 3101 and HSCI 3102 or equivalent with a minimum grade of C-.

HSCI 3104. Organic Chemistry II. 4 Credits.

Continuation of HSCI 3103. Metabolic pathways provide the cellular framework for energy acquisition and utilization in living systems. Emphasis on the critical role that organic compounds play in these processes. Restricted to students in the post-baccalaureate certificate in pre-medicine program. Prerequisites: HSCI 3101, HSCI 3102, and HSCI 3103 or equivalent with a minimum grade of C-.

HSCI 3105. Biochemistry. 3 Credits.

Concepts and principles of biochemistry applicable to health care. Methods and approaches are correlated with the biochemical basis of human disease. Prerequisite: HSCI 3103.

HSCI 3106. Microbiology for Health Sciences. 3 Credits.

Principles of microbiology with emphasis on microorganisms that impact health and cause human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Prerequisites: One course in biology or chemistry or anatomy and physiology; or MLS 2000 or MLS 2001.

HSCI 3107. Introduction to Biochemical Pharmacology. 1 Credit.

The theory of drug action; practical issues that must be addressed when translating knowledge from molecular and cellular research into drug discovery and development. Restricted to students in the post-baccalaureate pre-medicine certificate program. Recommended background: Concurrent enrollment in HSCI 3105.

HSCI 3108. Microbiology for Health Sciences Laboratory. 1 Credit.

Practical study of bacteria, yeasts, molds, protozoa, and viruses in relation to the health professions. Prerequisites: BISC 1111 and BISC 1112. Recommended background: Prior completion of 3 credits in microbiology lecture or concurrent registration in HSCI 3106.

HSCI 3117. Principles of Biostatistics for Health Sciences. 3 Credits.

Biostatistics for health science professionals. Concepts and methods, including confidence intervals, ANOVA, multiple and logistic regression, and non-parametric analyses. Scientific literature is used to provide a comprehensive context in which analytical evidence is employed to support practices in the health sciences. Prerequisites: HSCI 2117 or permission of the instructor.

HSCI 3201. Biology I. 4 Credits.

First course in a two-course series. Develops a foundation in cellular and molecular biology, metabolism, genetics, evolution, and population biology. Includes a corresponding laboratory component. Restricted to students in the post-baccalaureate certificate in pre-medicine program or approval of the instructor.

HSCI 3202. Biology II. 4 Credits.

Continuation of HSCI 3201. Develops a foundation in the principles of cellular communication and the form and function of the human body with a corresponding laboratory component. Restricted to students in the post-baccalaureate certificate in pre-medicine program or with the approval of the instructor. Prerequisites: HSCI 3201 or equivalent with a grade of C- or above.

HSCI 3301. Physics I. 4 Credits.

Classical physics, including mechanics, Newton's laws of motion, force, gravitation, equilibrium, work and energy, momentum, and rotational motion; periodic motion, waves, and sound; heat and thermodynamics. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3302. Physics II. 4 Credits.

Continuation of HSCI 3301 Physics I, including electrostatics, electromagnetism, direct and alternating current circuits, and electromagnetic radiation; geometrical and physical optics; special relativity; quantum theory; atomic physics; nuclear physics; particle physics; astrophysics and cosmology. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3401. Current Topics in Health Care I. 1 Credit.

First in a two-course sequence designed for students who plan to become health care professionals; issues in health care delivery, roles and scope of practice in health care professions, and current topics health care.

HSCI 3402. Current Topics in Health Care II. 1 Credit.

Second in a two-course sequence designed for students who plan to become health care professionals. Continuing coverage of health care delivery, current topics in health care, and how issues raised apply to the needs of a diverse population. Prerequisite: HSCI 3401.

HSCI 3501. Human Anatomy and Physiology I. 4 Credits.

First in a two-course sequence. The structure and function of cells, tissue, organs, and systems in the human body. Restricted to SMHS students.

HSCI 3502. Human Anatomy and Physiology II. 4 Credits.

Second in a two-course sequence. The structure and function of cells, tissue, organs, and systems in the human body. Restricted to SMHS students. Prerequisite: HSCI 3501.

HSCI 4102. Human Physiology in Extreme Environments. 3 Credits.

The course examines human physiology and the pathophysiology of acute illnesses and injuries, and evaluates appropriate mitigation strategies associated with living and working in extreme environments.

HSCI 4103. Health Care Law/Regulation. 3 Credits.**HSCI 4105. Case Studies in Health Care. 3 Credits.****HSCI 4106. Introduction to Epidemiology for Health Sciences. 3 Credits.**

An introduction to epidemiological methods and their applications in the prevention and control of illness, community and clinical interventions, and health services.

HSCI 4112. Research and Writing in Health Sciences. 3 Credits.

.

HSCI 4112W. Research and Writing in Health Sciences. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HSCI 4198. Mentored Research I. 3 Credits.

.

HSCI 4199. Mentored Research II. 3 Credits.

.

HSCI 5099. Variable Topics. 1-99 Credits.**HSCI 6212. Teaching Strategies in the Health Professions. 3 Credits.**

Application of teaching and learning principles in the design of education in health professions. Illustrates teaching and learning practices grounded in andragogy, contributing to curriculum program development and the enhancement of teaching and assessment skills.

HSCI 6213. Curriculum Development in the Health Professions. 3 Credits.

Curriculum design and assessment skills in medical and health science settings. Recommended background: prior completion of HSCI 6212 or experience with principles of adult learning.

HSCI 6223. Topics in Health Care Leadership. 3 Credits.

Theories and styles of leadership, including organizational management and values, strategic planning, communication strategies, managing change, and negotiating conflict in the context of the health care delivery system. Credit cannot be earned for this course and COHM 6235.

HSCI 6231. Advanced Pediatric Health Needs. 3 Credits.

Service delivery to children with disabilities from infancy through early schooling. Emphasis on learning disabilities, ADHD, sensory processing disabilities, and intellectual disabilities with co-occurring developmental and emotional disorders.

HSCI 6233. Pathology-Hlth Sci Students I. 1 Credit.**HSCI 6234. Pathology-Hlth Sci Students II. 3 Credits.**

Basic concepts and language of pathology, infectious diseases, and fundamental disease processes. Emphasis on pathogenesis and dynamics of disease. Causation, evolution, and morphology of pathological changes in the principal diseases of each organ system.

HSCI 6240. Issues and Trends in the Health Care System. 3 Credits.

Analysis of key contemporary issues in U.S. health and social policy that affect the design and structure of the health care system. The health policy process and initiatives that shape care delivery.

HSCI 6241. The Health Care Enterprise. 3 Credits.

An overview of global business principles related to health care systems: the management of patient-centered care delivery, marketing, finance and fiscal management principles, information technology, and quality improvement. Credit cannot be earned for this course and COHM 6245.

HSCI 6261. Foundations in Clinical and Translational Research. 3 Credits.

Overview and analysis of the translational research principles and practice through the application of basic, clinical, community health and health services research concepts.

HSCI 6262. Transdisciplinary Sem/Pract.. 3 Credits.

Transdisciplinary analysis of key translational research concepts delivered in a practicum and workshop framework. Individualized experiential practicum to address educational and experiential gaps.

HSCI 6263. Biostatistics Translational Research. 3 Credits.

Basic concepts and methods of biostatistics applied to translational research. Topics include distributions, populations and sample selection, variables, interaction and confounding, hypothesis formulation, correlation, t-tests, ANOVA, regression, and ch.

HSCI 6264. Epidemiology Translational Research. 3 Credits.

Basic concepts and methods of epidemiology and their application in measuring, studying and improving the health of populations applied to applications for translational research.

HSCI 6265. Grantsmanship in Translational Research. 3 Credits.

Writing grant proposals to fund clinical research, with an emphasis on translational research proposals. Emphasis is on persuasive communication, conceptually based hypotheses and research methods and the grant application process, including communicating.

HSCI 6270. Research Methods for the Health Professions I. 3 Credits.

Methodological issues of basic, applied, and clinical research. Students develop the knowledge and skills to critically appraise and synthesize research results, analyze qualitative and quantitative data, evaluate evidence-based methods, develop research questions, and identify appropriate inquiry methodologies. Students become familiar with all elements of a research proposal, including those relating to the use of human subjects and informed consent.

HSCI 6271. Research Methods for the Health Professions II. 3 Credits.

Methodological issues of basic, applied, and clinical research. Students develop the knowledge and skills to critically appraise and synthesize research results, analyze qualitative and quantitative data, evaluate evidence-based methods, develop research questions, and identify appropriate inquiry methodologies. Students become familiar with all elements of a research proposal, including those relating to the use of human subjects and informed consent.

HSCI 6273. Bioinformatics for Genomics. 3 Credits.

Bioinformatics tools for different analytical situations; strengths and limitations of the most common bioinformatics strategies. Generalizing acquired knowledge and its underlying principles and techniques to other types of big data applications for the purpose of interpretation of results.

HSCI 6275. Transdisciplinary Research Proposals. 3 Credits.

The integration of competencies acquired throughout the program. The development and submission of a transdisciplinary research proposal that responds to a Call for Proposals from an external sponsor, such as the National Institutes of Health.

HSCI 6285. Principles of Collaboration and Team Science. 3 Credits.

Approaching health, technology, social, and environmental problems with cross-disciplinary engagement and collaboration. Foundational and practical principles and their impact on collaborative and team science engagements. Restricted to PhD candidates in translational health sciences; permission of the instructor may be substituted.

HSCI 6287. Biology of HIV/AIDS. 3 Credits.

The basic science, pathogenesis, natural history, and laboratory identification of the human immunodeficiency virus.

HSCI 6291. Advanced Topics in Health Sciences. 1-3 Credits.

Topics vary depending on current issues of interest and faculty availability. Open to undergraduates with permission of the instructor.

HSCI 6297. Independent Study for Health Professionals. 1-5 Credits.

Independent study involving analysis of a clinical topic, a patient education project, or an on-site mentored clinical research practicum.

HSCI 8212. Teaching Strategies in the Health Professions. 3 Credits.

Application of teaching and learning principles in the delivery of education in health professions; practices grounded in andragogy, contributing to curriculum program development and the enhancement of teaching and assessment skills. Restricted to SMHS students. Recommended background: experience in health care or practice as a health care professional. Credit cannot be earned for this course and HSCI 6212.

HSCI 8213. Curriculum Development in the Health Professions. 3 Credits.

Curriculum development and assessment skills in medical and health science settings. Restricted to SMHS students. Recommended background: experience in health care or practice as a health care professional. Credit cannot be earned for this course and HSCI 6213.

HEALTH SERVICES MANAGEMENT AND LEADERSHIP (HSML)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSML 5099. Variable Topics. 1-99 Credits.**HSML 6202. Introduction to Health Services Delivery. 2 Credits.**

Introduction to the systems that define and shape delivery of health services in the United States. Case studies and presentations on major issues develop an appreciation of dilemmas confronting policymakers, providers, and patients: balancing cost, quality and access. Access and disparity, health care professions, facilities, managed care organizations and government health care programs. Policy changes that have had major impact on American health care in the past century. Fall.

HSML 6203. Introduction to Health Management. 2 Credits.

Introduction to management theory essential for those seeking management positions in organizations providing health care or public health services. Application of the problem-solving method; extensive use of cases.

HSML 6204. Quality and Performance Improvement. 2 Credits.

Theory of quality and performance improvement in health services organizations and systems. Emphasis on the Deming method of continuous quality improvement (CQI); Six Sigma; International Organization for Standardization (ISO) standards; Baldrige criteria; accreditation programs. Prerequisite: HSML 6203.

HSML 6206. Quality and Performance Improvement. 2 Credits.

Application of epidemiology and analytical methods to improve population health, enhance decision-making, and introduce operations management. The concepts and procedures complement HSML courses for information management and finance. Prerequisites: 2 or 3 semester hours in introductory statistics.

HSML 6207. Health Services Information Applications. 2 Credits.

Organization and management of information technology in modern health care organizations with an emphasis on the acute care hospital. Use of information technology in hospital clinical, support, and administrative departments.

HSML 6208. Medical Informatics. 2 Credits.

Comprehensive study of the role and impact of IT in health services organizations. Specific emphasis on the role IT plays from managerial and clinical perspectives. Topics include ROI, privacy, error reduction, change management, and decision support systems. Prerequisite: HSML 6207.

HSML 6209. Health Services Finance. 2 Credits.

Application of health finance theory to health services organizations and systems. Budgeting process, understanding profit and loss, managing resources including accounts receivable, labor and supplies. The budget as a tool for analyzing operational changes. Prerequisites: HSML 6209.

HSML 6210. Health Services Financial Applications. 2 Credits.

Application of health finance theory to health services organizations and systems. Budgeting process, understanding profit and loss, managing resources including accounts receivable, labor and supplies. The budget as a tool for analyzing operational changes. Prerequisites: HSML 6209.

HSML 6211. Health Economics. 2 Credits.

Economics of the health care sector. An economic analysis of public policy alternatives in the health industry. Roles of the physician, hospital, insurance, and other health care markets are examined.

HSML 6212. Community Health Management and Advocacy. 2 Credits.

Concepts and techniques to planning, managing, and advocating for community health programs and services. Focus on social contract, the Precede-Proceed Model and principles of community-oriented primary care. Students study or conduct a community health promotion project. Prerequisites: HSML 6202 and HSML 6203.

HSML 6213. Health Services, Marketing, and Planning. 2 Credits.

Concepts of strategic planning and marketing as they apply to health services organizations. Particular emphasis on uses of planning and marketing techniques in managing departments and individual health services programs. Prerequisites: HSML 6202 and HSML 6203.

HSML 6215. Health Law for Managers. 2 Credits.

Sources of law and legal processes affecting health services. Administrative law and agency processes. Legal aspects of torts and contracts for physicians, staff, patients, and health services organizations and systems. Trends in health services law. Prerequisites: HSML 6202 and HSML 6203.

HSML 6216. Human Resources Management and Organizational Behavior. 2 Credits.

Theory and application of human behavior, human resource management, and labor relations policies, concepts and practices as they affect health services organizations. Primary focus is on managing people at work and developing management skills. Prerequisites: HSML 6202 and HSML 6203.

HSML 6218. Seminar: Health Services Management and Leadership. 2 Credits.

Intensive qualitative and quantitative analyses of major problem areas in health system administration and planning using the case study method. Cases cover the broad spectrum of health policy, planning and management of the health services system. Serves as the capstone course for health services students. Taken in the last semester on campus.

HSML 6221. TransLdrshp/HealthServDelivery. 2 Credits.

Current leadership thought and competencies focusing on leadership styles, motivation, change management, innovation, creativity, emotional intelligence, organizational learning, and corporate culture. Prerequisite: HSML 6203.

HSML 6222. Group Leadership and Team Facilitation. 2 Credits.

Applies management and leadership theory to small groups, e.g. committees, patient care teams, process improvement groups, task forces, etc. Methods to establish, organize, develop, and manage teams for problem-solving. Students are assigned to interdisciplinary teams as facilitators and receive feedback on their performance. Part of medical Center's service learning program—ISCOPES (Interdisciplinary Student Community-Oriented Prevention Enhancement Service). Equivalent courses may be accepted for the prerequisite. Prerequisites: HSML 6204 and HSML 6212.

HSML 6231. Management of Acute Care Hospitals. 2 Credits.

Organizing and managing acute care hospitals. Relationships and procedures of clinical, support, and administrative departments. Process analyses and applications of the Deming method of continuous quality improvement. Requirements of the Joint Commission on Accreditation of Healthcare Organizations. Prerequisites: HSML 6202, HSML 6204 and HSML 6209; or permission of the instructor.

HSML 6232. Institution and Systems Management Applications. 2 Credits.

Readings and guest speakers. Focus on management theory applied in freestanding and multi-institutional health services units. Lessons learned by health services executives are shown through vignettes and presentation of experiences. Seminar Format. Prerequisites: HSML 6202 and HSML 6203; or permission of the instructor.

HSML 6233. Delivery of Behavioral Health Services. 2 Credits.

Study of the organizations and systems to deliver behavioral health services; emphasis on organizing, managing, and financing treatment and rehabilitation facilities. Fall Prerequisites: HSML 6202, HSML 6204 and HSML 6209.

HSML 6234. Physician Practice Management. 2 Credits.

Theory and principles of practice management. Emphasis on the fundamentals of organizing, staffing, and controlling a physician practice. Financial applications and resource consumption. Prerequisites: HSML 6202, HSML 6204 and HSML 6209.

HSML 6236. Post-Acute Care Management and Leadership. 2 Credits.

Overview of the ways in which different sectors/healthcare participants are reimbursed and regulated. The changing post-acute care industry as it evolves to handle increasing demands for services.

HSML 6237. Managing the Skilled Nursing Facility. 3 Credits.

Organizing, financing, and managing the skilled nursing facility. Determining residents' needs and developing appropriate services. Accreditation Standards. Government regulations and licensing requirements. Prerequisites: HSML 6202, HSML 6204, HSML 6209 and HSML 6236.

HSML 6238. Ambulatory Care Management. 2 Credits.

Organizing and managing ambulatory care. Models, financing, institutional affiliations, estimating and planning for ambulatory care, and using medical group practice as part of comprehensive services delivery. Prerequisites: HSML 6202, HSML 6204 and HSML 6209.

HSML 6239. Managed Care. 2 Credits.

Health maintenance organizations (HMOs), preferred provider organizations (PPOs), and utilization management (UM) in fee-for-service plans. Formation, organization, contractual arrangements, and medical management of managed care regarding costs, utilization, quality, and access are analyzed from the perspectives of managed care organizations, employers, providers, and public policy. Role of government in managed care, competition and marketing of managed care plans, and relationships between plans and providers. Efficacy of managed care in public and private sectors. Prerequisites: HSML 6202, HSML 6204 and HSML 6209.

HSML 6241. Compliance and Risk Management in Health Services Delivery. 2 Credits.

Application of concepts and techniques for organizing and implementing compliance, risk management, and patient safety programs within the context of quality and performance improvement. Emphasis on organizational values as a condition to success. Recent compliance requirements (e.g., HIPAA). Equivalent courses may be accepted for the prerequisites. Prerequisites: HSML 6202 and HSML 6203.

HSML 6244. Supply Chain Management in Health Services. 2 Credits.

Theory and application of distribution management of materials, services, and information in health services organizations. Suppliers, inventory control, negotiating and managing contracts, joint and shared purchasing. Prerequisites: HSML 6204 and HSML 6206.

HSML 6245. Disaster Management for Health Care Organizations. 2 Credits.

The role and importance of health care organizations in all four phases of the disaster management life cycle (i.e., preparedness, mitigations, response, and recovery).

HSML 6246. Service Line and Project Management. 2 Credits.

Theory and application of management science techniques to manage and improve effectiveness of service lines, programs, and projects in health services. Business case development, planning, project management tools, and program evaluation. Prerequisites: HSML 6204.

HSML 6247. Consulting in Health Care. 2 Credits.

Theory and practice of health care consulting – what it is, how it is practiced, how it operates as a business, and concepts of “best practices.” Prerequisites: HSML 6202 and HSML 6203; or permission of the instructor.

HSML 6254. Seminar: Ethics in Health Services Management. 2 Credits.

Managerial implications of ethical issues in health services delivery: administrative and institutional ethics; professional codes; conflicts of interest, impaired professionals, end-of-life decisions, experimentation, and new technology; resource allocation.

HSML 6255. Leadership and Ethics I. 1.5 Credit.

Using the Myers-Briggs Type Indicator (MBTI), students determine their leadership style and practice the skills of effective leadership. Consideration of ethical principles and practices and how those practices are used by leaders. Restricted to Executive Master of Health Administration degree candidates.

HSML 6256. Leadership and Ethics II. 3 Credits.

Using the Emotional Quotient Inventory (EQI), students continue to uncover their leadership style and practice the skills of highly effective leaders. Examination of ethical principles and practices, change management, and coping mechanisms used and managed by leaders. Restricted to Executive Master of Health Administration degree candidates. Prerequisites: HSML 6255.

HSML 6258. Health System Analysis. 3 Credits.

For MHA@GW students, a concentrated on-site study of either an exemplary health system in the United States or the national health system of another country. The objective is to use critical analysis to examine and assess the structure, function, and operations of the system. Restricted to For students in the Executive Master of Health Administration degree program. Prerequisites: HSML 6255.

HSML 6259. Organization Research Project and Portfolio Presentation. 1.5 Credit.

This immersion experience provides MHA@GW students with the opportunity to synthesize the content from the program's eight learning modules and three prior immersion experiences into a coherent whole, allowing students to critically assess their growth and development as a health care leader. Corequisite: HSML 6281 Restricted to students in the MHA@GW program. Prerequisites: HSML 6255, HSML 6256 and HSML 6258.

HSML 6263. Advanced Health Financial Applications. 2 Credits.

Advanced quantitative application of health care finance and current best practices as applied to the health care industry.

HSML 6264. Health Care Management and Strategy. 5 Credits.

Detailed examination of the core principles of management and strategy that are required by persons holding management and leadership roles in health care delivery organizations.

HSML 6265. Medical Informatics and Decision Management. 5 Credits.

Fundamental principles and concepts of health care informatics and decision management, with a primary focus on clinical applications within the framework of improving quality, productivity, and satisfaction. Taught online. Restricted to students in the executive master of health administration program. Prerequisite: HSML 6264.

HSML 6266. Health Care Financial Management. 5 Credits.

The financial operations of health care organizations, including financial reporting, cost management, sources of revenue, and budgeting. Restricted to students in the executive master of health administration program.

HSML 6267. Community and Population Health. 5 Credits.

Identification and analysis of the trends, policies, and practices that affect population and community health. The ways in which engagement with the community by healthcare organizations can address health needs. Prerequisites: HSML 6264, HSML 6265, and HSML 6266.

HSML 6268. Health Economics and Quantitative Methods. 5 Credits.

A multidisciplinary course designed around two important and closely related components: quantitative methods; and the key health economics concepts, applications, and tools relevant to health care managers who are seeking to better understand, respond to, and influence a constantly evolving health care marketplace. Restricted to For students in the executive MHA program. Prerequisites: HSML 6264, HSML 6265, HSML 6266 and HSML 6267.

HSML 6269. Quality and Performance Improvement. 5 Credits.

Theory of quality and performance improvement in health services organizations and systems. Emphasis on the Deming method of continuous quality improvement (CQI). Lean; Six Sigma; IHI quality improvement program; Baldrige criteria; patient safety; and quality tools Restricted to Limited to Master of Health Administration degree students. Prerequisites: HSML 6268.

HSML 6270. Research in Health Services Administration. 2,3 Credits.

Field research. Primarily for advanced students; open to others with consent of instructor. May be repeated for credit.

HSML 6271. Residency. 3 Credits.

Work experience guided by a qualified preceptor; periodic written progress reports and a written major report or selected field projects as required.

HSML 6273. Residency. 3 Credits.

Work experience guided by a qualified preceptor; periodic written progress reports and a written major report or selected field projects as required.

HSML 6274. Fellowship. 3 Credits.

Work experience guided by a qualified preceptor on selected management and planning issues and problems occurring in health services facilities, programs, and agencies. Primarily for advanced master's and doctoral students; open to other students by arrangement. May be repeated for credit.

HSML 6275. Fellowship. 3 Credits.

Work experience guided by a qualified preceptor on selected management and planning issues and problems occurring in health services facilities, programs, and agencies. Primarily for advanced master's and doctoral students; open to other students by arrangement. May be repeated for credit. Prerequisites: 6274.

HSML 6280. Health Law and Policy. 5 Credits.

The relationship between the federal legal system and health care system in the United States; the roles of federal, state, and private stakeholders. Restricted to students in the MHA@GW program. Prerequisites: HSML 6264, HSML 6265, HSML 6266, HSML 6267, HSML 6268 and HSML 6269.

HSML 6281. Systems Thinking and Learning. 4 Credits.

The concepts of systems thinking and learning and their application to the management of health care organizations; general systems theory, hard and soft systems, complexity and complex adaptive systems, change management, idealized redesign, design innovation, organizational resilience, high reliability organizations, and learning organizations. Restricted to students in the MHA@GW degree program. Prerequisites: HSML 6264, HSML 6265, HSML 6266, HSML 6267, HSML 6268, HSML 6269 and HSML 6280.

HSML 6282. Organizational Research Project I. 1 Credit.

The first of a two-course sequence required of all MHA@GW program students. Students prepare to undertake the organizational research project that is one of two program deliverables. Corequisite: HSML 6269. Restricted to students in the MHA@GW degree program.

HSML 6283. Organization Research Project II. 1 Credit.

The second of a two-course sequence required of all MHA@GW program students. Students prepare to undertake the organizational research project that is one of two program deliverables. Corequisite: HSML 6280. Restricted to students in the MHA@GW degree program. Prerequisite: HSML 6282.

HSML 6285. Readings in Health Services Management. 3 Credits.

Supervised readings in special areas of health services management. Primarily for advanced students; open to others by arrangement. May be repeated for credit.

HSML 6286. Readings in Health Services Management. 3 Credits.

Supervised readings in special areas of health services management. Primarily for advanced students; open to others by arrangement. May be repeated for credit.

HSML 6290. Health IT Project Management. 5 Credits.

Overview of the various knowledge areas of IT project management with a focus on health; fundamental principles and concepts; implementation; improving quality, productivity, and satisfaction. Restricted to students in the MS in management of health informatics and analytics program. Prerequisite: HSML 6265.

HSML 6291. Population and Community Health Analytics. 5 Credits.

Concepts of population and community health; informatics and analytics for assessing population health; and best approaches to using and communicating population and community health data for decision makers and policy makers. Restricted to students in the MHIA@GW program. Prerequisites: HSML 6264, HSML 6265 and HSML 6290.

HSML 6293. The Internet of Medical Things. 3 Credits.

Study of IoMT, an emerging field that leverages connected devices, data, and technology for broader impact on patient health; key components, stakeholders, business issues and opportunities; and impact on business, technology, security, analytics, innovation, and regulation. Restricted to students in the healthinformatics@GW program (MHIA). Prerequisites: HSML 6264, HSML 6265, HSML 6290 and HSML 6291.

HSML 6294. Research Analytics. 3 Credits.

Key concepts in research analytics; skills and experiences needed to leverage big data to improve public health through data integration. Restricted to students in the MHIA@GW program. Prerequisites: HSML 6292 and HSML 6293.

HSML 6295. Predictive Analytics. 3 Credits.

How clinical, claims, demographic, and community-level data can be used to inform decisions by patients, physicians, provider organizations, payers, and public agencies; common statistical learning methods used to predict quantitative and qualitative outcomes. Restricted to students in the MS in management of health informatics and analytics program.

HSML 6296. Health Innovations and Entrepreneurship. 5 Credits.

Introduction to emerging classes of health care information technologies and the unique challenges that the industry presents in terms of planning, implementation, and adoption of new technologies. Restricted to students in the MS in management of health informatics and analytics program. Prerequisite: HSML 6280.

HSML 6297. Health Informatics Simulation. 1.5 Credit.

Synthesis of program components into an operational application of a current health care issue from a health informatics perspective using fundamental principles and concepts of health care informatics and decision management. Restricted to students in the MS in management of health informatics and analytics program. Prerequisites: HSML 6255, HSML 6264, HSML 6265, HSML 6280, HSML 6290, HSML 6291, HSML 6293, HSML 6294, and HSML 6295.

HSML 6299. Topics in HSML. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated for credit.

HEBREW (HEBR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HEBR 1001. Beginning Hebrew I. 4 Credits.

Active presentation of Hebrew as it is spoken and written today. Emphasis on comprehension, speaking, reading, and writing skills.

HEBR 1002. Beginning Hebrew II. 4 Credits.

Continuation of HEBR 1001. An active presentation of Hebrew as it is spoken and written today. Comprehension, speaking, reading, and writing skills are stressed. Laboratory fee.

HEBR 1099. Variable Topics. 16 Credits.**HEBR 2001. Intermediate Hebrew I. 4 Credits.**

Further development of skills in speaking, reading, writing, and comprehension of modern Hebrew. Texts range from Israeli newspaper items to selections from classical materials. Prerequisite: HEBR 1001- HEBR 1002 . Laboratory fee.

HEBR 2002. Intermediate Hebrew II. 4 Credits.

Continuation of HEBR 2001. Further development of skills in speaking, reading, writing, and comprehension of modern Hebrew. Texts range from Israeli newspaper items to selections from classical materials. Prerequisite: HEBR 1001- HEBR 1002 . Laboratory fee.

HEBR 3001. Hebrew Conversation and Writing. 3 Credits.

Reading and writing at the intermediate to mid-high level, with stress on conversation and oral comprehension. Contemporary cultural and social aspects presented through selections from nonfiction and short fiction, films, and TV programs. Prerequisite: HEBR 2002 or permission of instructor.

HEBR 3099. Variable Topics. 1-12 Credits.**HEBR 3101. Modern Hebrew Literary Classics in Translation. 3 Credits.**

Hebrew prose and poetry from the beginning of the Hebrew literary renaissance to contemporary Israeli literature. Emphasis on authors' treatments of tradition and modernity, dynamics of gender and ethnicity, the representation of war and peace, and the construction of literary center and periphery. Same As: HEBR 3101W.

HEBR 3101W. Modern Hebrew Literary Classics in Translation. 3 Credits.

Hebrew prose and poetry from the beginning of the Hebrew literary renaissance to contemporary Israeli literature. Emphasis on authors' treatments of tradition and modernity, dynamics of gender and ethnicity, the representation of war and peace, and the construction of literary center and periphery. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HEBR 3101.

HEBR 3102. Israeli Society and Culture: Literary Perspectives. 3 Credits.

Study of literature reflecting contemporary issues such as the conflict between the Builders Generation and their children; cultural contacts of Ashkenazim and Sephardim; image of the Arab; impact of the Holocaust; and Zionist ideals.

HEBR 3103. Israeli Cinema (in English). 3 Credits.

Film considered as both an artistic and a historical medium that reflects and comments on the history, politics, and culture of Israel. The kinds of issues that Israeli films raise and the cinematic style that distinguishes them.

HEBR 3104W. Gender and Sexuality in Israel. 3 Credits.

The roles of gender and sexuality in shaping Zionist and Israeli culture, myths, and ideals through examination of cultural works ranging from twentieth-century Hebrew literature to Israeli queer and feminist cinema; the intersection of gender and sexuality with the major political and social issues of Israeli society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HEBR 3105. Special Topics. 3 Credits.**HEBR 3301. Modern Hebrew Fiction. 3 Credits.**

Study of selected modern Israeli short stories and poems. Prerequisites: HEBR 3001 or permission of the instructor.

HEBR 3301W. Modern Hebrew Fiction. 3 Credits.

Study of selected modern Israeli short stories and poems. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: HEBR 3001 or permission of the instructor.

HEBR 3302. The Israeli Media. 3 Credits.

Explores the Israeli press, television and radio news broadcasts in Hebrew; focuses on developing increasing proficiency in reading and aural comprehension through class discussions and written assignments in Hebrew. Prerequisites: HEBR 3001 or permission of the instructor.

HEBR 3302W. The Israeli Media. 3 Credits.

Explores the Israeli press, television and radio news broadcasts in Hebrew; focuses on developing increasing proficiency in reading and aural comprehension through class discussions and written assignments in Hebrew. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: HEBR 3001 or permission of the instructor.

HEBR 3901. Directed Project. 1-3 Credits.

Individual advanced reading or research, to be arranged with a member of the faculty. May be repeated for credit. Enrollment by permission of the instructor and department.

HEBR 4001. Advanced Hebrew Literature I. 3 Credits.

Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Prerequisites: HEBR 3301 or permission of the instructor.

HEBR 4001W. Advanced Hebrew Literature I. 3 Credits.

Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: HEBR 3301 or permission of instructor.

HEBR 4002. Advanced Hebrew Literature II. 3 Credits.

Continuation of HEBR 4001. Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Prerequisites: HEBR 3301 or permission of the instructor.

HEBR 5099. Variable Topics. 1-99 Credits.

HISTORY (HIST)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HIST 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

HIST 1011. World History, 1500-Present. 3 Credits.

An introduction to world history over the past half millennium, stressing themes of exchange and integration, tracing the ways various peoples of the world became bound together in a common system.

HIST 1020. Approaches to Women's History. 3 Credits.

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as WGSS 1020.

HIST 1099. Variable Topics. 1-36 Credits.**HIST 1110. Foundations of Europe to 1715. 3 Credits.**

Course examines more than 4,000 years of human history, and the processes, ideas, and events from ancient Mesopotamia to 1715 that formed European societies and culture, emphasizing primary sources and their interpretation.

HIST 1120. Europe in the World Since 1715. 3 Credits.

Introduction to the history of Europe from the early eighteenth century to the mid-twentieth century, emphasizing primary sources and their interpretation.

HIST 1120W. European Civilization in its World Context. 3 Credits.

European history from the early eighteenth century to the present; mutual influence and impact between Europe and the rest of the world. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 1121. The War of Ideas in European and International History, 1750-Present. 3 Credits.

The ideas that made people fight, from the French Revolution to the worldwide uprisings of the 1960s and beyond. Key texts whose ideas of freedom and slavery, tradition and progress, state authority and revolutionary violence changed the world. The political, economic, and social contexts and effects of these texts.

HIST 1310. Introduction to American History from the Pre-Columbian Era to 1877. 3 Credits.

The political, social, economic, and cultural history of the United States from pre-Columbian America to 1877.

HIST 1311. Introduction to American History since 1877. 3 Credits.

The political, social, economic, and cultural history of the United States. Since 1877.

HIST 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

HIST 2001. Special Topics. 3-4 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

HIST 2005. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Same As: HIST 2005W.

HIST 2005W. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 2005.

HIST 2006. Digital History. 3 Credits.

How the Internet and electronic technology have transformed the ways in which historians conduct research, present their work, and record, store, organize, and disseminate their findings; computational tools for data analysis.

HIST 2010. Early American Cultural History. 3 Credits.

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same As: AMST 2010.

HIST 2011. Modern American Cultural History. 3 Credits.

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as AMST 2011.

HIST 2015. Global Economic History From the Industrial Revolution to the Present. 3 Credits.

How governments and international organizations relied on market mechanisms and expert planning to spur economic growth, while at the same time creating new problems; Industrial Revolution, imperialism, Great Depression, postwar welfare state, economic development, and recent financial crises.

HIST 2016. Capitalism and Inequality from the Industrial Revolution to Present. 3 Credits.

History of global inequality and how it relates to capitalism. Introduces students to modern economic history through the lens of inequality.

HIST 2020. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same As: AMST 2020, AMST 2020W, HIST 2020W.

HIST 2020W. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2020, AMST 2020W, HIST 2020.

HIST 2050. History of Jewish Civilization: From the Bible to Modernity. 3 Credits.

Introduction to the richness and diversity of Jewish civilization from antiquity to the present. Examination of evolving notions of "who" or "what" is Jewish. Key concepts including "chosenness," community, peoplehood, diaspora, redemption, and Torah. How the boundaries of Jewishness have been formed, contested, and revised over time; how Jews managed to retain their identity throughout their millennial history of migration, dispersion, and persecution; what unites Jewish civilization; and whether a unified Jewish history over centuries and continents can be traced, as distinct from multiple "histories" of the Jews in the myriad times and places in which they lived. Emphasis on analysis of primary texts and cultural objects along with contextual understanding of Jews and Judaism.

HIST 2051. Antisemitism from Origins to the Present. 3 Credits.

Thematic and theoretical survey of the history of antisemitism from the late antique period to the twentieth century.

HIST 2060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community.

HIST 2061. Ghetto: History of a Concept. 3 Credits.

The history of the ghetto from the sixteenth century to the present. Case studies from Europe and the United States illustrate the different stages in the genealogy of the ghetto as a word, concept, metaphor, and place.

HIST 2105. Majors' Introductory Seminar: Europe. 3 Credits.

HIST 2105W. Majors' Introductory Seminar: Europe. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2112. History of Ancient Greece. 3 Credits.

A political and social survey of Bronze Age Minoan and Mycenaean civilizations, the Iron Age, Archaic Period, Classical Greece through Alexander the Great. (Same as CLAS 2112).

HIST 2113. The Roman World to 337 A.D.. 3 Credits.

Prehistoric Italy; rise and decline of the Roman Empire and Latin civilization; cultural, social, and political developments in the Greek world under Roman rule. Same As: CLAS 2113.

HIST 2114. Sport and Society in Ancient Greece. 3 Credits.

The place of athletics and sports in ancient Greek civilization. Religious, political, and economic contexts of athletics. Issues of class, gender, nationalism, and ethnicity.

HIST 2124. Nineteenth-Century Europe. 3 Credits.

Exploration of primary source documents and works of professional historians to introduce important issues of nineteenth-century European history.

HIST 2125. Twentieth-Century Europe. 3 Credits.

Diplomatic, political, and cultural developments from the turn of the century to the present.

HIST 2131. History of England Since 1689. 3 Credits.

Development of English civilization and its impact on Western culture.

HIST 2141. History of France Since 1789. 3 Credits.

Breaks and continuities in the succession of regimes; the interplay between revolution and tradition; the weakened international position of France; Gaullism and the survival of France; European Unity.

HIST 2160. History of Germany. 3 Credits.

Political, social, and cultural development.

HIST 2180. Russia to 1801. 3 Credits.

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power; political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

HIST 2181. Russia Since 1801. 3 Credits.

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era; contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

HIST 2301. Topics in U.S. History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

HIST 2305. Majors' Introductory Seminar: United States. 3 Credits.

HIST 2305W. Majors' Introductory Seminar: United States. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

The period 1824-1950 as a crucial era in American history; popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem.

HIST 2312. The American Civil War and Reconstruction, 1850-1877. 3 Credits.

Examination of the political crises of the 1850s to determine how and why the issue of slavery led to the American Civil War; the war's important battles, including how generals and common soldiers shaped outcomes; Reconstruction and the aftermath of the war, including how it shapes politics and race relations to the present day.

HIST 2313. History of the American West. 3 Credits.

A history of the trans-Mississippi West from first settlement by American Indians to the present; the pre-contact West, the coming of the Spanish, American settlement, the Indian Wars, women in the West, labor and racial conflict, and the West in the twentieth century.

HIST 2320. U.S. Media and Cultural History. 3 Credits.

History and analysis of twentieth-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. (Same as AMST 2320).

HIST 2321. U.S. History, 1890-1945. 3 Credits.

A survey of modern U.S. history from the late nineteenth century to the end of WWII. Emphasis on politics, public policy, and culture. Basic readings include biography, autobiography, and contemporary novels.

HIST 2322. U.S. History since 1945. 3 Credits.

Political, social, diplomatic, and intellectual developments, with particular emphasis on the Cold War, "silent" '50s, and disrupted '60s.

HIST 2340. U.S. Diplomatic History. 3 Credits.

American foreign relations in the twentieth century.

HIST 2340W. U.S. Diplomatic History. 3 Credits.

American foreign relations in the twentieth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2341. History of FBI Counterintelligence. 3 Credits.

The issues, controversies, and personalities that have played critical roles in the history of FBI foreign counterintelligence development.

HIST 2350. U.S. Religion and Politics. 3 Credits.

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as AMST 2350.

HIST 2367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

HIST 2380. Sexuality in U.S. History. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ WGSS 2380.

HIST 2410. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Same As: AMST 2410, AMST 2410W, HIST 2410W.

HIST 2410W. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2410, AMST 2410W, HIST 2410.

HIST 2440. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as AMST 2440.

HIST 2440W. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2440.

HIST 2490. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Same as AMST 2490.

HIST 2490W. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2490W).

HIST 2505. Majors' Introductory Seminar: Africa. 3 Credits.**HIST 2520. Africans in the Making of the Atlantic World. 3 Credits.**

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

HIST 2601. Topics: Asian History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

HIST 2605. Majors' Introductory Seminar: Asia. 3 Credits.**HIST 2605W. Majors' Introductory Seminar: Asia. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2610. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Same As: AMST 2610, AMST 2610W, HIST 2610W.

HIST 2610W. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2610, AMST 2610W, HIST 2610.

HIST 2630. History of Korea. 3 Credits.

An introduction to the history and culture of Korea from antiquity to the present.

HIST 2705. Majors' Introductory Seminar: Latin America. 3 Credits.

HIST 2705W. Majors' Introductory Seminar: Latin America. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2710. The United States in the World. 3 Credits.

U.S. cultural and political engagement with the rest of the world in the twentieth and twenty-first centuries. Global culture, transnational ideas and social movements, travel and tourism, and the impact of media. Same As: AMST 2710.

HIST 2730. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Same as AMST 2730.

HIST 2730W. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2730).

HIST 2803. The Ancient Near East and Egypt to 322 B.C.. 3 Credits.

Survey of Egyptian, Mesopotamian, Anatolian, West Semitic, and Iranian civilizations from the Neolithic period to Alexander's conquest. Credit cannot be earned for this course and CLAS 2803.

HIST 2804. History of Ancient Israel. 3 Credits.

The history of ancient Israel from the Patriarchs through the Romans. Topics include historical, archeological, political, social, cultural, religious, diplomatic, military, economic, and intellectual events, movements, and relationships. Same as CLAS 2804.

HIST 2805. Majors' Introductory Seminar: Middle East. 3 Credits.

HIST 2805W. Majors' Introductory Seminar: Middle East. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2809. Imperial Islam. 3 Credits.

The history of the Ottoman, Safavid/Qajar, and Mughal Empires from their formation and expansion as effective military and bureaucratic states until the late nineteenth century.

HIST 2810. Jihad: Love and War in Islamic History. 3 Credits.

The evolving justifications for war in Islamic history; close readings of classical (Qur'an and hadith), medieval (fatwas, legal treatises), and contemporary sources (writings of ISIS, Bin Laden, and others).

HIST 2811. The Formation of Islam to 1500. 3 Credits.

Political, social, and intellectual history of the Islamic world from the seventh to fifteenth centuries; cultural contexts of Southern Europe, North Africa, the Near East, Central Asia, South Asia, and across the Indian Ocean.

HIST 2812. History of Zionism. 3 Credits.

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948. Same As: JSTD 2812.

HIST 2850. Modernization in Russia, Turkey, and Iran. 3 Credits.

Interrelated aspects of modernization, such as social and cultural issues, issues of power, and national identity, in Russia, Turkey, and Iran.

HIST 3001. Special Topics. 4 Credits.

May be repeated for credit provided the topic differs. Credit cannot be earned for this course and AMST 2490.

HIST 3001W. Special Topics. 4 Credits.

May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AMST 2490W.

HIST 3030. Military History to 1860. 3 Credits.

The causes, conduct, and consequences of conflict in the ancient, medieval, renaissance, and early modern world. Examination of the Anglo-Dutch and Anglo-French wars leading to the Seven Years' War, American Revolution (including a "virtual staff ride" of the Saratoga Campaign), French Revolution, and Napoleonic Wars.

HIST 3031. Military History since 1860. 3 Credits.

Causes, conduct, and consequences of conflict from the American Civil War through the Austro- and Franco-Prussian Wars, Spanish-American War, Sino- and Russo-Japanese Wars, World Wars I and II (including a "virtual staff ride" of the Normandy Campaign), Korea, Vietnam, and modern "small wars".

HIST 3033. War and the Military in American Society from the Revolution to the Gulf War. 3 Credits.

Social and psychological dimensions of war and military service.

HIST 3035. The United States and the Wars in Indochina, 1945-1975. 3 Credits.

The American role in the Indochina Wars, emphasizing the period 1961 to 1975, and from the perspectives of the Vietnamese, French, and Americans in Vietnam. Related intellectual and political developments in the United States; Cold War relationships with China and the Soviet Union.

HIST 3038. Naval History to 1815. 3 Credits.

Causes, conduct, and consequences of war at sea from the Age of Reconnaissance and Conquest through the War of 1812 (including a "virtual staff ride" of the Battle of Trafalgar). Consideration of issues including technology, the impact of the environment, and theories of warfare associated with each period.

HIST 3039. Naval History since 1815. 3 Credits.

Causes, conduct, and consequences of war at sea in the Civil War, counterinsurgency operations of so-called small wars, World Wars I and II, and the post-Cold War period. The transition from sail to steam, asymmetric warfare, and the role of sea power in modern geopolitics. Students participate in a virtual staff ride of the Battle of Leyte Gulf.

HIST 3044W. The Price of Freedom: Normandy 1944. 4 Credits.

The causes, conduct, and consequences of warfare, considered through examination of the campaign in Normandy that began with the allied landings on D-Day. Assignments include researching and writing a biography of a member of the military who died in the campaign and presenting a eulogy at the soldier's graveside during a "staff ride" exploration of the battlefield conducted over spring break. The biography paper is submitted to and retained in the archives of the American Cemetery in Normandy. Permission of the Office for Study Abroad and interview with the instructor required prior to enrollment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3045. International History of the Cold War. 3 Credits.

Key events and themes of the Cold War, drawing on new evidence from U.S., Soviet, Chinese, German, East European, Vietnamese, Cuban, and other sources. Related historiographical controversies from multiple national perspectives. Why the Cold War began, why it lasted for 45 years, and why it ended.

HIST 3046. The Cold War in the Third World. 3 Credits.

The evolution of the Cold War in Asia, Africa, and Latin America. Decolonization and the response of the Great Powers, the political economy of the Third World, and American and Soviet interventions.

HIST 3047. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War.

HIST 3047W. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3061. The Holocaust. 3 Credits.

The origins, causes, and significance of the Nazi attempt to destroy European Jewry, within the context of European and Jewish history. Related themes include the behavior of perpetrators, victims, and bystanders; literary responses; contemporary implications of the Holocaust for religion and politics.

HIST 3062. War Crimes Trials. 3 Credits.

The Nuremberg trial and its legacy in subsequent international and hybrid tribunals. The need for judicial accountability for genocide, crimes against humanity, and war crimes.

HIST 3095. Internship. 1-3 Credits.

Study of history through internships in museums, libraries, the U.S. Congress, or other appropriate institutions and agencies. Prior approval of a departmental faculty member is required.

HIST 3097. Independent Study. 1-3 Credits.

Permission of instructor required.

HIST 3099. Variable Topics. 1-12 Credits.

HIST 3101. Topics: Europe. 3 Credits.

HIST 3101W. Topics: Europe. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3103. European Intellectual History I. 3 Credits.

The "Century of Genius" and the Enlightenment; God, nature, man, and society, from Descartes to the French Revolution.

HIST 3104. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy.

HIST 3104W. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3111. Topics in Ancient History. 3 Credits.

May be repeated for credit provided the topic differs. Same as CLAS 3111.

HIST 3116. Identity in the Greco-Roman World. 3 Credits.

Questions of identity surrounding the Romans and non-Romans who populated the ancient Mediterranean world in classical antiquity and whose culture is considered the cornerstone of Western civilization. (Same as CLAS 3116).

HIST 3117. Alexander The Great. 3 Credits.

Close reading of ancient primary sources reveal the complex personality and remarkable deeds of Alexander the Great (356-323 BCE); the nature of Alexander's military success, lasting effects of his conquests, and long-term impact on the varied people and lands of his empire. Prerequisites: AH 3101 or HIST 2112. (Same as CLAS 3117).

HIST 3118. The Middle Ages: 500-1500. 3 Credits.

The evolution of European society from the end of the Roman Empire to the Renaissance. The nature of political power, role of religion, place of gender, cultural production, and changing social structures.

HIST 3119. The Ancient Economy. 3 Credits.

Economic history of ancient Greece and Rome; environment and ecology of the Mediterranean region, trade and transport, the invention of coinage and monetization, taxation, food production, consumption, and slavery. (Same as CLAS 3119).

HIST 3126. European Integration: A History. 3 Credits.

An examination of the origins and development of the European Union.

HIST 3130. History of England I. 3 Credits.

Development of English civilization and its impact on Western culture. To 1689.

HIST 3132. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485-1603.

HIST 3132W. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485 to 1603. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3134. Stuart England. 3 Credits.

The civil wars, Restoration, and Glorious Revolution. Political, religious, socioeconomic, and intellectual developments in England, 1603-1714.

HIST 3135. Victorian Britain. 3 Credits.

Major themes in nineteenth-century British history: industrialism, democratization, urbanization, imperial expansion, class and gender schisms.

HIST 3137. The British Empire. 3 Credits.

The British Empire from its rise in the seventeenth century to its demise in the twentieth century.

HIST 3139. Twentieth-Century Britain. 3 Credits.

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe.

HIST 3139W. Twentieth-Century Britain. 3 Credits.

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3140. History of France. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon.

HIST 3140W. History of France to 1814. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3145. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789-1799. Attention to its structural consequences in France and in Europe at large.

HIST 3145W. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789 to 1799. Attention to its structural consequences in France and in Europe at large. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3148. El Camino de Santiago. 3 Credits.

Walking the Camino de Santiago is a cultural phenomenon that has lasted over a thousand years. An important part of Spain's cultural and political history, the Camino has affected the structures that form Spain's political and institutional systems, society, economy, and ideology as well as artistic forms of expression. Students may earn their Pilgrim's passport by walking the last 100 kilometers of the Camino after the formal classes have ended. Offered at GW Madrid Study Center.

HIST 3149. History of Spain. 3 Credits.

Familiarizes students with the important milestones of Spain's history. Discusses the regime of the 40-year dictatorship, concluding with the advent of democracy through an exemplary transition that has served as an example to other nations. Offered only at GW Madrid Study Center.

HIST 3150. Spain and Its Empire, 1492-1700. 3 Credits.

Major transformations of the period: from cultural pluralism to ethnic homogeneity, from medieval fragmentation to imperial expansion in Europe and America; from religious reform to Catholic Reformation, from global dominance to decline.

HIST 3168. Divided and United Germany Since 1945. 3 Credits.

Why was Germany divided after World War II? Why did it stay divided for 45 years? How was it reunited in 1990? This course examines developments in East and West Germany, relations between the two Germanys during the Cold War, their foreign policies, and how other countries treated them.

HIST 3173. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I.

HIST 3173W. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3178. The Making of the Modern Balkans. 3 Credits.

States of the Balkan peninsula—Slovenia, Croatia, Serbia and Montenegro, Bosnia, Albania, Macedonia, Greece, Bulgaria, and Romania—including developments since the decline of the Ottoman Empire and the emergence of Balkan nationalist movements, and continuing through the collapse of the Soviet bloc.

HIST 3180. Russia to 1801. 3 Credits.

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power. Attention is given to the political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

HIST 3181. Russia Since 1801. 3 Credits.

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era. Attention is given to the contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

HIST 3301. Topics: U.S. History. 4 Credits.

HIST 3301W. Topics: U.S. History. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3302. America Before 1764. 3 Credits.

An examination of prehistory, colonization, and the shifting dynamics among European Americans, African Americans, and Native Americans before 1764.

HIST 3303. Revolutionary America. 3 Credits.

The American revolutionary era from the movement for independence through the establishment of the new federal government under the Constitution. Emphasis on changes to the inhabitants of North America, including Native Americans, African Americans, and European Americans, as well as to the broader Atlantic world.

HIST 3304. George Washington and His World. 3 Credits.

George Washington's life as soldier, politician, entrepreneur, slave holder, and national icon. Emphasis on the interpretation of original sources, including historical documents and the material culture of Washington's Mount Vernon estate, with tours and lectures by curators and historians. Departmental permission is required for registration.

HIST 3311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Focus on 1824 to 1850 as a crucial era in American history. Popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem. Same As: HIST 3311W.

HIST 3311W. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Study of 1824 to 1850 as an era in American history marked by widespread change. Impact of social and political reforms caused by the growth of the market economy; emergence of two national political parties; and new reforms increasingly focused on slavery as America's greatest problem. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 3311.

HIST 3322. The Modern American Presidency. 3 Credits.

Development of the modern American presidency from Theodore Roosevelt to Barack Obama. Examination of the lives of the presidents, revealing the intersection of personal and impersonal forces in the creation of modern politics and modern America.

HIST 3324. U.S. Urban History. 3 Credits.

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same As: AMST 3324.

HIST 3332. History of American Foreign Policy Since World War II. 3 Credits.

Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. World War II to the Vietnam .

HIST 3333. History of American Foreign Policy Since World War II. 3 Credits.

Continuation of HIST 3332. Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. Vietnam to the "New World Order."

HIST 3334. The Nuclear Arms Race. 3 Credits.

Political, military, diplomatic, scientific, and cultural consequences of the advent of nuclear weapons. The development and uses of the atomic bomb during World War II and the course and legacy of the U.S.-Soviet nuclear arms race during the Cold War.

HIST 3351. U.S. Social History. 3 Credits.

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as AMST 3351).

HIST 3352. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352).

HIST 3352W. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352) Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3353. U.S. Women's History II. 3 Credits.

Continuation of HIST 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. Same as AMST 3353/WGSS 3353. (Same as AMST 3353, WGSS 3353).

HIST 3356. Epidemics in American History. 3 Credits.

Epidemics in American history.

HIST 3360. African American History to 1865. 3 Credits.

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as AMST 3360).

HIST 3361. African American History Since 1865. 3 Credits.

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as AMST 3361).

HIST 3362. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362W, WGSS 3362, WGSS 3362W).

HIST 3362W. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as AMST 3362W/WGSS 3362W.

HIST 3363. Race, Medicine, and Public Health. 3 Credits.

The experiences of African Americans as patients and health care providers; the history of the relationship between race, American medicine, and public health. Emphasis on the importance of understanding the historical roots of contemporary policy dilemmas such as racial and ethnic disparities in health and health care. Restricted to . Same As: AMST 4702W.

HIST 3366. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present. Focus on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree.

HIST 3366W. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present, focusing on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HIST 3366.

HIST 3367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

HIST 3370. U.S. Constitutional History. 3 Credits.

Examination of the text and interpretation of the document that is the foundation of the American government, with special attention to the changing character of race and gender as constitutional classes.

HIST 3501. Topics: Africa. 3 Credits.

A survey of African history from 1880 to the present.

HIST 3510. African History to 1880. 3 Credits.

Survey of the history of the African continent with emphasis on the history of sub-Saharan Africa.

HIST 3520. Africans in the Making of the Atlantic World. 3 Credits.

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

HIST 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as WGSS 3530.

HIST 3530W. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3530, WGSS 3530, WGSS 3530W).

HIST 3540. West Africa to Independence. 3 Credits.

A thematic survey of West African history, focusing on the diversity of African culture, West African kingdoms and empires, Islam, the trans-Saharan trade, African contact with Europe, slavery and the slave trade, and the colonization of Africa.

HIST 3601. Topics: Asian History. 3 Credits.

HIST 3610. China to 1800. 3 Credits.

Survey of Chinese civilization from its ancient beginnings to the last imperial dynasty.

HIST 3611. History of Modern China. 3 Credits.

China since 1840, with particular attention to political developments.

HIST 3614. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China.

HIST 3614W. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3615. History of Chinese Communism. 3 Credits.

Survey of the leadership, ideology, structure, and foreign and domestic policies of the Chinese Communist Party from its inception to the present.

HIST 3621. History of Modern Japan. 3 Credits.

Japan's dramatic transformation from an isolated island country to Asia's only modern colonial empire, from unprecedented defeat to postwar "economic miracle." Emphasis on historical, political, economic, and cultural trends.

HIST 3631. History of Modern Korea. 3 Credits.

Modern Korean history from 1876 to contemporary society. Emphasis on colonialism, nationalism, the division of peninsula, the Cold War, and globalization.

HIST 3640. History of Southeast Asia. 3 Credits.

An examination of Vietnam and its neighbors from the pre-colonial period to the present.

HIST 3650. Modern South Asia, 1750-Present. 3 Credits.

The South Asian subcontinent, including Afghanistan, Pakistan, India, and Bangladesh, since the mid-eighteenth century. The period of British rule, from the late eighteenth to the mid-twentieth century. The different trajectories of the independent nation-states of South Asia following decolonization.

HIST 3701. Topics in Latin American History. 3 Credits.

HIST 3710. History of Latin America I. 3 Credits.

Analysis of Spanish and Portuguese imperialism in the New World, 1492-1820.

HIST 3711. History of Latin America II. 3 Credits.

Continuation of HIST 3710. A problems approach to Latin America, 1820 to the present; thematic emphasis on neocolonialism, corporatism, liberalism, caudillismo, modernization, populism, and revolution.

HIST 3801. Topics in Middle Eastern History. 3 Credits.

HIST 3810. History of the Middle East to 1800. 3 Credits.

Byzantine, Arab, Persian, and Islamic backgrounds; rise and decline of the Ottoman Empire; action of European powers in the area; Ottoman breakup into the Turkish Republic and other states.

HIST 3811. The Emergence of the Modern Middle East. 3 Credits.

The state system established after World War I; effects of colonialism, the rise of nationalism, the Cold War, and the oil industry; modes of identification that accompanied these processes, including pan-Arabism and Islamism.

HIST 3820. History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present; Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state.

HIST 3820W. The History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present. Topics include Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HIST 3820.

HIST 3825. Land and Power in Israel/Palestine. 3 Credits.

Intensive reading seminar surveying key debates and turning points in the history of the Zionist-Palestinian conflict. Approach strikes a balance between structure and agency in understanding the ways in which people make their own history, but not under conditions of their choosing.

HIST 3830. History of Iraq. 3 Credits.

Modern Iraq's Ottoman background; its incorporation into a world market dominated by Europe, British influence and preconceptions in the creation of Iraq, and the emergence and survival of the Ba'ath dictatorship. Reforms in economic, political, and educational spheres.

HIST 3840. History of Central Asia. 3 Credits.

Introduction to the political, cultural, religious, and social history of the region, including Afghanistan, Kazakhstan, Tajikistan, Turkmenistan, and Uzbekistan.

HIST 3850. Modern Iran. 3 Credits.

Political, diplomatic, religious, and other developments in Iran from about 1800 to 1989.

HIST 4098. Thesis Seminar. 3 Credits.

For history majors only. Preparation of a research paper using primary sources.

HIST 4098W. Thesis Seminar. 3 Credits.

History majors identify an original research topic in an area of their interest and complete a major research paper based largely on primary sources. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 4098.

HIST 4099. Senior Honors Thesis Tutorial. 3 Credits.

Required of and restricted to undergraduate honors candidates in history. Prior approval of the instructor is required.

HIST 4099W. Senior Honors Thesis Tutorial. 3 Credits.

Required of and restricted to undergraduate honors candidates in history. Prior approval of the instructor is required. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ FREN 4135.

HIST 5099. Variable Topics. 1-99 Credits.**HIST 6001. Special Topics. 3-9 Credits.**

Open to doctoral and master's candidates and qualified undergraduates. May be repeated for credit provided the topic differs. Same As: SMPP 6290. Credit cannot be earned for this course and AMST 6190.

HIST 6005. History and Historians. 3 Credits.

Historiography and historical method for graduate students. Readings and discussions on major trends in history; selections from classics of historical literature.

HIST 6006. Teaching History. 3 Credits.

Pedagogic techniques and strategies particular to the discipline. Admission by permission of instructor.

HIST 6007. Writing History. 3 Credits.

Designed to improve graduate students' writing skills. Student strengths and weaknesses as writers are assessed through short assignments such as book reviews. Students prepare an article manuscript for submission to a refereed journal. Restricted to graduate students in history.

HIST 6011. Reading and Research in History and Public Policy. 3 Credits.

The use of historical insights and methods in policymaking, with emphasis on domestic issues.

HIST 6012. Internship in History and Public Policy. 3,6 Credits.

Supervised participation in an office or agency concerned with the formulation of public policy; terms of the internship are arranged with the director of the history and public policy program. Restricted to students in the history and public policy program.

HIST 6030. History and Its Uses in International Affairs. 3 Credits.

The multiple interconnections among history, politics, and international affairs, including how policymakers use or misuse "lessons" of history and how countries attempt to deal with difficult aspects of their past. Specific cases may vary.

HIST 6031. History of International Economic Systems. 3 Credits.

Development of arrangements and institutions designed to manage the international economy since the nineteenth century, with a focus on the period since World War II.

HIST 6032. Reading and Research Seminar: Strategy and Policy. 3 Credits.

A study of the historical development of strategy and the relationship of military thought to national policy.

HIST 6040. Topics in Modern Military and Naval History. 3 Credits.

Discussion, readings, and research in twentieth-century European and American military and naval history.

HIST 6041. The Age of the Battleship: An Introduction to Modern Naval History. 3 Credits.

The rich and varied literature of naval history, with emphasis on interactions among technology, nationalism, and domestic political/social developments in the late nineteenth and early twentieth century. The social history of navies is included.

HIST 6042. Seminar: World War II. 3 Credits.

Examination of statecraft and the management of force before, during, and after World War II. Special attention to broad aspects of military policy and strategy and their interaction with international politics and diplomacy.

HIST 6050. Modernization, Imperialism, Globalization. 3 Credits.

Readings seminar in classic and recent theories of modernization, imperialism, and globalization.

HIST 6051. Re-thinking Cold War History. 3 Credits.

A reading and research course that relies heavily on documents from formerly closed communist archives and recently declassified Western materials. Various issues and events of the Cold War; old and new historiographical controversies. Students write a primary-source research paper to elucidate one of the many aspects of the Cold War about which new evidence is available.

HIST 6097. Independent Readings and Research. 3 Credits.

Written permission of instructor required. May be repeated for credit with permission.

HIST 6101. Topics: Europe. 3 Credits.**HIST 6105. Seminar: European Intellectual History. 3 Credits.**

Topics in eighteenth- and nineteenth-century European thought, with an emphasis on France. Specific topic announced in the Schedule of Classes.

HIST 6120. Seminar: Early Modern European History. 3 Credits.

Topics selected from Western European history of the fourteenth through seventeenth centuries.

HIST 6121. Reading and Research Seminar: Modern European History. 3 Credits.

.

HIST 6122. Reading and Research Seminar: 20th-Century History. 3 Credits.

Research or readings on selected topics.

HIST 6128. Europe and the World, 1500-Present. 3 Credits.

An introduction to some of the key debates and scholarship concerning European imperialism.

HIST 6130. Early Modern Britain. 3 Credits.

Analysis of some current issues in early modern historiography; contextualization of recent works in the field; consideration of different methodologies and the types of evidence on which they rely or that they illuminate.

HIST 6133. English People and Institutions. 3 Credits.

Selected topics in the political, social, intellectual, and economic history of England. Focus upon one time period and special area of interest. May be taken for research credit with instructor's approval.

HIST 6135. British Imperialism. 3 Credits.

Research seminar. Major debates and schools of thought on the history of British imperialism.

HIST 6138. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6139. Folger Institute Seminars II. 3 Credits.

Continuation of HIST 6138. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6170. Eastern European History I. 3 Credits.
1772-1918.**HIST 6171. Eastern European History II. 3 Credits.**

Continuation of HIST 6170. 1919-1945.

HIST 6180. History of Modern Russia and the Soviet Union. 3 Credits.

Selected topics in the domestic history of modern Russia and Soviet Union. May be taken as a readings seminar or, with instructor's approval, as a research seminar.

HIST 6181. Research Seminar: Russian and Soviet Empires. 3 Credits.**HIST 6185. Seminar: Russian and Soviet Thought. 3 Credits.**

Selected topics in the intellectual and cultural history of eighteenth to twentieth-century Russia and Soviet Union. May be taken as a readings seminar or, with permission of the instructor, as a research seminar. Permission of the instructor required prior to enrollment.

HIST 6188. The Soviet Union and the World, 1917 to 1991. 3 Credits.

Concepts and perceptions guiding Soviet relations with the outside world. From the blockade and intervention, through years of isolation, World War II, the Cold War, to "peaceful coexistence."

HIST 6301. Topics: U.S. History. 3 Credits.**HIST 6302. Colonial North America. 3 Credits.**

The complex and turbulent world of colonial North America from the late sixteenth century to the late eighteenth century. Inter-cultural negotiations, Atlantic world connections, imperial conflict, gender construction, and race consciousness.

HIST 6303. Revolutionary America. 3 Credits.

The political and social conditions of the revolutionary era: the spiral of events that led to the American independence movement, the various meanings of the war to its participants, and the consequences of victory for the nation, its various subgroups, and other peoples of the colonial Atlantic world.

HIST 6304. American Indian History to 1890. 3 Credits.

North American Indian history from indigenous societies on the eve of first contact with Europeans until the conclusion of the Great Plains Wars of the late nineteenth century.

HIST 6310. Readings in Nineteenth-Century American History. 3 Credits.

Important trends in historical writing about nineteenth-century America.

HIST 6311. The Era of the Civil War, 1850-1877. 3 Credits.

Consideration of how and why the issue of slavery led to the American Civil War. Conflict on the battlefield and the political and social impact of the war in both the North and the South. Examination of the Reconstruction period as a means of understanding how the conflict and its aftermath continue to shape American politics and race relations to the present.

HIST 6312. The Law of Race and Slavery. 3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Admission by permission of instructor. Same as SOC 6286 and LAW 6596.

HIST 6320. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

HIST 6321. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Continuation of HIST 6320. Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

HIST 6322. American Business History. 3 Credits.

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention is given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. (Same as SMPP 6293).

HIST 6330. Modern U.S. Foreign Policy. 3 Credits.

Readings, lectures, discussion on major developments in the conduct of American diplomacy from 1898 to 9/11.

HIST 6350. American Social Thought Since World War II. 3 Credits.

Consideration of C. Wright Mills, Daniel Bell, Abraham Maslow, Christopher Lasch, Paul Goodman, Martin Luther King, Jr., Barbara Ehrenreich, and other major social critics.

HIST 6360. Immigration and Ethnicity in the United States. 3 Credits.

The history of immigrant life in the United States; focus on the mass migration from Europe that began with the Irish Potato Famine of the 1840s and ended with the immigration restrictions of the 1920s that created the concept of the illegal immigrant.

HIST 6370. U.S. Legal History. 3 Credits.

The legal history of the United States from the seventeenth century to the present. The course examines legal change within the broader context of political, social, and economic change. Permission of the instructor required prior to enrollment. (Same as LAW 6591).

HIST 6410. Readings in American Cultural History. 3 Credits.

Studies in the cultural history of the United States, focusing on major historiographic debates and interventions. Examples of possible topics include cultural contact, the public sphere, and systems of religious and political belief. Same as AmSt 6410.

HIST 6420. Religion and American Culture. 3 Credits.

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as AMST 6420.

HIST 6430. Gender, Sexuality, and American Culture I. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. (Same as HIST 6430, WGSS 6430).

HIST 6431. Gender, Sexuality, and American Culture II. 3 Credits.

Continuation of HIST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/WGSS 6431.

HIST 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST 6435/WGSS 6435.

HIST 6450. Race in America. 3 Credits.

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as AMST 6450.

HIST 6455. American Social Movements. 3 Credits.

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as AMST 6455.

HIST 6470. Cityscapes. 3 Credits.

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as AMST 6470.

HIST 6475. U.S. Urban History. 3 Credits.

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as AMST 6475.

HIST 6480. Theory and Practice of Public History. 3 Credits.

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as AMST 6480.

HIST 6485. Contemporary Jewish Life. 3 Credits.

The changing nature of Jewish life, domestically and transnationally, from the 1950s through the present; how contemporary Jews, especially those in the United States, reckon with rupture, dissent, and freedom. Restricted to graduate students. Prerequisite: None. (Same as AMST 6190, JSTD 6001).

HIST 6495. Historic Preservation: Principles and Methods. 3 Credits.

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6495.

HIST 6496. Historic Preservation: Principles and Methods. 3 Credits.

Continuation of HIST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6496.

HIST 6501. Topics: Africa. 3 Credits.**HIST 6502. Western Representations of Africa. 3 Credits.**

Representations of Africa by non-Africans from the earliest contact to more recent encounters.

HIST 6601. Topics: Asian History. 3 Credits.**HIST 6602. Asia: History, Memory, and Violence. 3 Credits.**

Violence has been a defining experience for many of the populations and polities of Asia over the past century and a half. Focusing on the themes of violence and historical memory, the course takes a comparative approach, looking at how these issues have played out in different arenas throughout East, Southeast, and South Asia.

HIST 6610. Readings Seminar: Late Imperial China. 3 Credits.

Selected topics in the history of modern China in the late imperial period, with a particular focus on the internal and external challenges to the last Chinese dynasty in the nineteenth century.

HIST 6611. Readings Seminar: Twentieth-Century China. 3 Credits.

Selected topics in the history of modern China from the 1911 Revolution to the Cultural Revolution.

HIST 6621. Readings Seminar: Modern Japanese History. 3 Credits.

Selected topics in modern Japanese history from the Meiji Restoration of 1868 to the present. Research or readings depending on students' interests. Emphasis on how interpretations of the past are shaped by the present.

HIST 6625. Japan's Empire and Its Legacies. 3 Credits.

History of modern Japan's overseas expansion and empire building. Focus on issues including colonial modernity, resistance and collaboration, and postwar legacies such as politics of memory and prospects of reconciliation.

HIST 6630. Special Topics in Korean History. 3 Credits.

Intensive exploration of the history of Korea in modern times (1850–present). Korean identity and the challenges of foreign imperialism, industrialization, modernization, and globalization.

HIST 6641. Modern Southeast Asia. 3 Credits.

The modern history of Southeast Asia from the 1800s to 1975. Colonialism, rise of postcolonial states, revolutions and persistence of the past.

HIST 6701. Topics in Latin American History. 3 Credits.**HIST 6801. Topics in Middle Eastern History. 3 Credits.****HIST 6805. The Modern Middle East in World History. 3 Credits.**

Draws on recent works that situate the social, economic, cultural, political, and environmental transformations that have swept the region over the past two centuries within broader global trends.

HIST 6811. Research Seminar: Modern Middle East. 3 Credits.

Readings, discussion, and research in selected political, economic, social, cultural, and intellectual trends.

HIST 6821. Islam and Social Movements. 3 Credits.

An examination of the relationship of religion and religious symbols to social and political movements in the Islamic world.

HIST 6822. Nationalism in the Middle East. 3 Credits.

Different interpretations of nationalism and their applicability to nationalism in the Middle East.

HIST 6823. Imperialism in the Middle East. 3 Credits.

An exploration of the process of European and American expansion in the Middle East.

HIST 6824. Reading/Research Seminar: Modern Iran. 3 Credits.**HIST 6998. Thesis Research. 3 Credits.****HIST 6999. Thesis Research. 3 Credits.****HIST 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

HIST 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

HOMINID PALEOBIOLOGY (HOMP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HOMP 5099. Variable Topics. 1-99 Credits.

HOMP 6201. Hominid Paleobiology. 3 Credits.

Study of human evolution through investigation of the fossil record; current research in reconstructing paleobiology. Adaptation, phylogeny and behavior reconstruction, site formation, and the taxonomy, site context, anatomy, behavior, and major issues surrounding each hominin taxon.

HOMP 6202. Lab Techniques: Paleoanthropology. 1-3 Credits.

.

HOMP 6203. Ethics and Professional Practice I. 1 Credit.

.

HOMP 6204. Ethics and Professional Practice II. 1 Credit.

.

HOMP 6995. Independent Research. 1-9 Credits.

Research on problems approved by the director of the program. Open to qualified students with advanced training. May be repeated for credit.

HOMP 6999. Thesis Research. 3-6 Credits.

Development of a thesis project and accompanying research. Restricted to graduate students in the MS in human paleobiology program.

HOMP 8301. Problem-Based Learning Seminar. 1-3 Credits.

Problem-based tutorial in hominid paleobiology. Development of research skills through problem-solving tasks in a small group. May be repeated for credit.

HOMP 8302. Public Understanding of Science Internship. 2-3 Credits.

Supervised participation in an institution that presents science to the public. Opportunity to participate in procedures and gain practical experience in disseminating scientific information to non-scientists.

HOMP 8303. Paleobiology Lab Rotation. 2-3 Credits.

Supervised participation in a relevant laboratory. Students learn analytical techniques, handle diverse types of data, and encounter a range of disciplines as preparation for later participation in interdisciplinary research projects. May be repeated for credit.

HOMP 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

HOMP 8999. Dissertation Research. 3-9 Credits.

May be repeated for credit. Restricted to doctoral candidates.

HONORS (HONR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HONR 1015. Honors Seminar: UW 1020: Origins and Evolution of Modern Thought. 4 Credits.

Exploration of significant exemplars, milestones, and developments of human thought. Foundational and representative thinkers and texts from Western and Eastern traditions provide an indication of the diversity and complexity of attempts to articulate responses to universal questions, problems, and aspirations. Credit cannot be earned for this course and UW 1020.

HONR 1016. Honors Seminar: Origins and Evolution of Modern Thought. 3 Credits.

Continuation of HONR 1015. Key developments and trajectories in human thought and inquiry into modern times.

HONR 1033. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.

Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 1034. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.

Continuation of HONR 1033. Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 1099. Variable Topics. 1-36 Credits.**HONR 1120. Introduction to Biomolecular Research. 2 Credits.**

Research methods in the studies of proteins and DNA; exploration of faculty research to help prepare students for conducting their own research. Prerequisite or concurrent registration: BISC 1115 and BISC 1125. Permission of the instructor is required. Laboratory fee.

HONR 2016. Enlightenment East and West. 4 Credits.

This course replaces HONR 1016 for students who enter the Honors Program as sophomores.

HONR 2043. Honors Microeconomics. 3 Credits.

An introductory microeconomics course that considers both the philosophical basis of economics as well as its methods and applications. Same as ECON 1011.

HONR 2044. Honors Macroeconomics. 3 Credits.

An accelerated introductory macroeconomics course that includes the study of special topics. (Same as ECON 1012).

HONR 2047. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2047W.

HONR 2047W. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2047.

HONR 2048. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credit provided the topic differs. See program for more details.

HONR 2048W. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See program for more details. Same As: HONR 2048.

HONR 2053. Arts and Humanities Seminar. 3 Credits.

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2053W.

HONR 2053W. Arts and Humanities Seminar. 3 Credits.

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HONR 2053.

HONR 2054. Arts and Humanities Seminar. 3 Credits.

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details. Credit cannot be earned for this course and HONR 2054W.

HONR 2054W. Arts and Humanities Seminar. 3 Credits.

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HONR 2054.

HONR 2175. Honors Special Topics. 6 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

HONR 2182. Honors Internship. 4 Credits.

The Honors Program allows credit to Honors students for academic work that puts an internship in a broader scholastic context. Each student must have a GW faculty member oversee his or her project. The Honors internship faculty member determines the student's grade. May be repeated for credit.

HONR 2184. Honors Undergraduate Research. 4 Credits.

Independent or faculty-mentored research resulting in a significant written or other product. May be repeated for credit.

HONR 2185. Honors Research Assistantship. 4 Credits.

Students provide substantive assistance to a faculty member engaged in scholarly or scientific research. May be repeated for credit.

HONR 4198. Honors Senior Thesis. 3-4 Credits.

One- or two-semester thesis under faculty guidance. May be repeated for credit.

HONR 4199. Honors Capstone Experience. 1 Credit.

Students re-engage with core questions and issues related to the Honors Program curriculum, reflecting on their learning in relation to enduring questions and challenges of our world.

HUMAN DEVELOPMENT (HDEV)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HDEV 5099. Variable Topics. 1-99 Credits.**HDEV 6108. Life Span Human Development. 3 Credits.**

Continuity and change in developmental attributes. The developing person in relation to social norms, roles, and stage-graded expectations from birth to death. Interaction between biogenetics and environment.

HDEV 6109. Child Development. 3 Credits.

Typical development and the familial and social antecedents of developmental risk. Environments that foster competent children and developmental sequelae of childhood vulnerability and trauma. For graduate students in counseling, psychology, and related disciplines.

HDEV 6110. Adolescent Development. 3 Credits.

Key attributes and problems in adolescent development. Typical adolescent development and contemporary social problems in relation to stress, risk, and resilience. For graduate students in counseling, psychology, and related areas.

HDEV 6129. Cultural Effects on Human Development. 3 Credits.

Effects of culture on the experience and expression of self, others, space, time, faith systems, norms, and other attributes. Egocentric and sociocentric effects, primitive and technological effects. Group immersion as the basis for prejudice. Developmental consequences as a consequence of cultural context.

HDEV 6161. Practicum in Human Development. 3 Credits.

Permission of the instructor required prior to enrollment.

HDEV 6162. Internship in Human Development. 3 Credits.

Permission of the instructor required prior to enrollment.

HDEV 6701. Adult Learning. 3 Credits.

Same as HOL 6701.

HDEV 8100. Issues and Special Topics in Human Development. 3-6 Credits.

Issues and special contemporary topics related to child, adolescent, and adult development. Applications for professional roles.

HDEV 8241. Emotional and Cognitive Development. 3 Credits.

Emotional and cognitive development as related to self-esteem, social cognition, and interpersonal skills. Relationships among cognitive development, intellectual reasoning, insight, and social development.

HDEV 8244. Adult and Aging Development. 3 Credits.

Theories and research on personality and intelligence in adulthood. Research designs and methods. Implications of developmental data for counseling and selected professional roles.

HDEV 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/ HOL 8742.

HUMAN FUNCTION AND REHABILITATION (HFR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HFR 1105. Survey of Human Anatomy and Physiology for Health and Rehabilitation. 2 Credits.

Survey of human anatomy and physiology with an emphasis on the movement systems. First aid and Basic Life Support (BLS) training included. Prerequisites: HSCI 1101, HSCI 1102 and HSCI 1103.

HFR 1107. Illness and Injury for Health and Rehabilitation. 2 Credits.

Survey of injury and illness with an emphasis on dysfunction impacting the movement systems; basic concepts of biomechanics for health and rehabilitation professionals. Prerequisite: HFR 1105.

HFR 1109. Exercise Science for Health and Rehabilitation. 2 Credits.

Basic concepts of exercise physiology; intervention, prevention, and assessment of injuries and conditions with special emphasis on musculoskeletal systems. Prerequisite: HFR 1107.

HFR 1111. Cases in Health and Rehabilitation. 2 Credits.

Continuation of HFR 1109. Topics and cases related to prevention, treatment, and management of injuries and conditions; discussion of career preparation for rehabilitation and exercise science careers. Prerequisite: HFR 1109.

HFR 8101. Interprofessional Collaboration in Practice. 3 Credits.

Core competencies and skills needed to participate effectively in team-based care for patients and populations. Emphasis on communication and flexible leadership strategies and the impact of interprofessional practice on health delivery practices and outcomes. Restricted to SMHS students.

HFR 8102. Health Professions Practicum I. 3 Credits.

Supervised integration and implementation of educational or clinical health professional leadership in the student's practice environment. Completion of 9 credits in HFR courses required prior to enrollment. Restricted to students in the doctor of health sciences program. Recommended background: Prior completion of HFR 8107.

HFR 8103. Health Professions Practicum II. 3 Credits.

Supervised integration and implementation of educational or clinical health professional leadership in the student's practice environment. Restricted to students in the doctor of health sciences program. Prerequisite: HFR 8102.

HFR 8107. Program Theory and Health Innovations. 3 Credits.

Program theory as the basis for designing health and educational innovations that can be tested using scientific methods, replicated in practice, and used to inform policy. Restricted to students in the doctor of health sciences program. Same As: THS 8107.

HFR 8116. Academic and Clinical Leadership in the Health Professions. 3 Credits.

Skills needed to serve as a clinical or academic leader in the health professions. Students learn how to think strategically and align goals and resources to prepare health care professionals to serve as effective providers in evolving contexts. Restricted to SMHS students.

HFR 8123. Qualitative Methods for the Health Professions. 3 Credits.

Introduction to qualitative methods used in the generation and analysis of data relevant to health professionals. Prerequisites: HFR 8270 or HSCI 6270 or the advisor's approval. Credit cannot be earned for this course and THS 8123.

HFR 8127. Systematic Reviews in Health Care Practice and Education. 3 Credits.

Students to refine their skills in developing a systematic review of the literature related to health care practice and education. Prerequisites: HFR 8270. Credit cannot be earned for this course and THS 8127.

HFR 8203. Bioethical Implications of Health Research. 3 Credits.

Critical roles of ethics theories and bioethics principles in the planning, conduct, and dissemination of scientific studies. Scientific and academic integrity, protection of human participants in research, conflicts of interest and commitment, ownership of data and intellectual property, whistleblowing and dispute resolution, and privacy and confidentiality. Restricted to students in the doctor of health sciences program. Credit cannot be earned for this course and THS 8203.

HFR 8212. Teaching Strategies in the Health Professions. 3 Credits.

Application of teaching and learning principles in the delivery of education in health professions; practices grounded in andragogy, contributing to curriculum program development, and the enhancement of teaching and assessment skills. Restricted to SMHS students. Recommended background: Experience in health care or practice as a health care professional. Same As: HSCI 8212.

HFR 8213. Curriculum Development in the Health Professions. 3 Credits.

Curriculum development and assessment skills in medical and health science settings. Restricted to SMHS students. Recommended background: experience in health care or practice as a health care professional. Same As: HSCI 8213.

HFR 8214. Assessment in Health Profession Education. 3 Credits.

Skills needed to effectively assess individual achievement of required clinical competencies and implement a comprehensive assessment of course and program goals. Prerequisites: HFR 8212 and HFR 8213.

HFR 8215. Technology and Education in the Health Professions. 3 Credits.

Students design, develop, implement and assess technology-based education approaches for the health profession. Prerequisites: HFR 8212 and HFR 8213.

HFR 8270. Research Methods in the Health Professions I. 3 Credits.

Students design research and study methods to address gaps in the body of health science knowledge. Restricted to students in the doctor of health sciences program.

HFR 8271. Research Methods in the Health Professions II. 3 Credits.

Continuation of HFR 8270. Students are prepared to manage data and conduct quantitative analyses to test hypotheses and support decision making. Restricted to students in the doctor of health sciences program. Prerequisite: HFR 8270.

HFR 8313. Knowledge Translation in Health Care. 3 Credits.

Examination of the emerging field of knowledge translation, which integrates knowledge across the domains of translational research, implementation and dissemination science, and collaboration and team science within the context of current health practice and legislation.

HFR 8314. Health Care Research. 3 Credits.

Skills needed for planning and implementation of health care research within clinical institutions; institutions and regulatory requirements for health care research including those involving human subjects. Prerequisites: CML 6203 and HFR 8116.

HFR 8996. Seminar I. 3 Credits.

First in a three-course series of scholarly inquiry. May be repeated for credit. Restricted to students in the doctor of health sciences program. Prerequisites: HFR 8270 and HFR 8271.

HFR 8997. Seminar II. 3 Credits.

Second in a three-course series of scholarly inquiry. May be repeated for credit. Restricted to students in the doctor of health sciences program. Prerequisite: HFR 8996.

HFR 8998. Seminar III. 3 Credits.

Third in a three-course series of scholarly inquiry. May be repeated for credit. Restricted to students in the doctor of health sciences program. Prerequisite: HFR 8997.

HUMAN ORGANIZATIONAL LEARNING (HOL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HOL 0920. Continuing Research - Master's. 1 Credit.**HOL 0940. Cont. Res. - Doctoral. 1 Credit.****HOL 5099. Variable Topics. 1-99 Credits.****HOL 6100. Special Workshop. 1-12 Credits.**

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 6101. Research and Independent Study. 1-3 Credits.

Preparation of an in-depth project under the guidance of a faculty member. The course is arranged individually with the program advisor.

HOL 6700. Human Behavior and Learning in Organizations. 3 Credits.

How individuals and groups learn and interact within organizations and how organizations function and learn. Motivation, group dynamics, leadership, systems theory, organizational culture, and change.

HOL 6701. Adult Learning. 3 Credits.

Premises and theories used to meet learning needs of adults. Overview of various learning theories and the impact of various stages of adult development on learners. Topics including self-directed learning, accommodating individual learning needs, and creation of effective learning techniques. Same as HDEV 6701.

HOL 6702. Organizational Change. 3 Credits.

Assessing organizational conditions; operations, problems (human, structural, and systemic), and the process of collecting and interpreting information.

HOL 6703. Consulting Skills. 3 Credits.

Concepts, methods, and skills required for effective consultation in organizations, as either an internal or an external consultant; meeting the human needs in organizations while improving performance and productivity. Students undertake a consulting project in an organization.

HOL 6704. Leadership in Organizations. 3 Credits.

Developments in theory and research centered on organizational leadership. Emphasis on various types of leadership including transformational, responsible, authentic, and ethical.

HOL 6705. Strategic Change. 3 Credits.

Overview of best practices for organizing and managing people and organizations to compete successfully. Leading an organization through a process of self-examination, redesign, and change that results in sustained effectiveness, learning, and high performance.

HOL 6706. Current Issues in Organizational Leadership. 3 Credits.

Current issues and future trends in organizational leadership. Students gather data and analyze key topics associated with areas such as talent management, leading through demographic shifts, leadership in a globalized world, leading global change, and developing new forms of leadership, ethics, and sustainability.

HOL 6707. Organizational Learning. 3 Credits.

Learning in an organizational context. Processes through which the organization as a system learns, unlearns, changes, and disseminates information. Organizational learning theories address the processes and barriers of gathering, using, developing, and retaining knowledge in organizations.

HOL 6708. Global Leadership. 3 Credits.

The changes taking place in organizations due to the process of globalization and the requirements for leadership. The changing global environment, how those changes influence operational and strategic issues within global organizations, and how a leader can better understand the global environment to help organizations meet these new challenges.

HOL 6709. Leadership Development. 3 Credits.

Theories of and processes used in leader/leadership development; effects of leadership development on the individual and its importance to organizations. Prerequisite: HOL 6704.

HOL 6710. Globalization, Change, and Learning. 3 Credits.

With learning as the coping strategy, focus on how policymakers and global leaders can be helped to take advantage of the opportunities and address the challenges that globalization presents.

HOL 6712. Diversity, Equity and Inclusion in Organizations. 3 Credits.

Developments in the theory of diversity, equity, and inclusion (DEI). Practice of diversity management as an integrative, structural, and social change effort within organizations. Prerequisites: HOL 6700, HOL 6702, HOL 6704, and HOL 6746.

HOL 6720. Advanced Strategies for Adult Learning. 3 Credits.

Theoretical and practical strategies of adult learning in various settings, including corporate environments. Learning strategies, such as creative thinking and self-directed learning. Critical adult learning issues.

HOL 6721. Assessing the Impact of Organizational Change Using Qualitative and Quantitative Methods. 3 Credits.

Knowledge and skills needed to evaluate the impact and return on investment of change efforts; planning and conducting systematic evaluations of change efforts, including the choice, development, and use of various tools for measuring individual, group, and organizational change; assessing the success of the planned change.

HOL 6724. Increasing the Capacity to Learn. 3 Credits.

Identification of actions that can help increase the capacity to learn. Emphasis on experimental learning and critical reflection.

HOL 6725. Internship in Organizational Leadership and Learning. 3-6 Credits.

Supervised experience in selected areas of leadership, learning, and/or change. Admission by permission of the program advisor.

HOL 6726. Curriculum Design for Adult Learners. 3 Credits.

Exploration of theories, methods, and models of curriculum design for adult learners. Application of major design steps. Restricted to students in the master teacher leadership development program. Prerequisite: HOL 6701.

HOL 6727. Assessment of Adult Learning. 3 Credits.

Exploration of the major methods used to assess adult learning in classroom and workplace environments; means of ensuring the validity and reliability of the major methods. Restricted to students in the master teacher leadership development program. Prerequisite: HOL 6701.

HOL 6742. Design of Adult Learning Interventions. 3 Credits.

Designing and implementing adult learning programs. Topics include instructional design techniques, designing effective programs, program planning and marketing techniques, and conducting needs assessments and evaluations of adult learning programs.

HOL 6743. Action Learning. 3 Credits.

Processes, principles, and skills necessary to participate in and lead both single- and multiple-problem action learning sets. The six dimensions of action learning; educational psychological, political, sociological, and management theories underlying action learning.

HOL 6744. Meaningful Workplaces. 3 Credits.

Characteristics of the humane organization and of meaningful work. Intrinsic motivation, work-life balance, and the workplace community.

HOL 6745. Technology and Human Resource Development. 3 Credits.

How technology can best be utilized in the HRD environment. Discussion of CBT, use of the Internet for instruction, and distance learning techniques.

HOL 6746. Work Groups and Teams in Organizations. 3 Credits.

Exploration of the nature of work groups and teams as they are utilized in organizational settings. Group and team dynamics, facilitating and leading skills, and group roles and culture.

HOL 6747. International and Multicultural Issues in Organizations. 3 Credits.

The impact of culture and globalization on U.S. and international human and organizational learning programs and practices. Adult learning and organizational change approaches that develop and utilize the synergy of a global workforce.

HOL 6998. Thesis Research. 3 Credits.

Thesis research.

HOL 6999. Thesis Research. 3 Credits.

Thesis research.

HOL 8100. Special Topics in Human and Organizational Learning - Doctoral Studies. 3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 8101. Research and Independent Study. 1-3 Credits.**HOL 8700. Foundations of Human and Organizational Learning. 3 Credits.**

The study of individuals and their interactions within an organizational context. Overview of key theories in leadership, systems theory, group dynamics, learning, organizational culture, and motivational theory. The use of research in human and organizational learning.

HOL 8701. Theory, Research, and Practice in Adult Learning and Development. 3 Credits.

Learning theories as applied to adults in individual and group learning transactions; effect of age on learning; psychological, physical, and social environments in adult education situations.

HOL 8702. Theory and Design of Organizational Diagnosis and Development. 3 Credits.

Focus on various paradigms through which organizations and their functions may be viewed; a variety of analytical models of organizations; techniques for assessing systems; application of analysis techniques.

HOL 8703. Human Systems Change. 3 Credits.

The classical and contemporary ideas related to social systems change; the relation of these ideas to current issues in organizations.

HOL 8704. Leadership Theory, Research, and Practice. 3 Credits.

Leadership in organizations with a focus on transformational leadership. Historical review of leadership theory and research; current developments in understanding leadership. Students examine their own leadership style and plan for continued development as a leader.

HOL 8705. Organizational Culture. 3 Credits.

Theory and research on organizational culture, from the multidisciplinary seminal works in anthropology, psychology, sociology, and management to current day theorizing and empirical research on culture. The rituals, values, and behaviors that differentiate cultural groups and the way cultural identities manifest themselves in organizational practices; and how organizational culture evolves and its relationship to other organizational phenomena such as innovation, strategy, sensemaking, and performance. Current trends in organizational culture theorizing.

HOL 8706. Interdisciplinary Readings in Human and Organizational Learning. 3 Credits.

Seminal works from various disciplines related to current research and practice.

HOL 8707. Advanced Organizational Learning. 3 Credits.

The psychological and sociological paradigms associated with the learning of a collective whole.

HOL 8708. Introduction to Doctoral Research. 3 Credits.

An introduction to scholarly inquiry for doctoral students. The role of the scholar-practitioner; types of scholarly inquiry and their components; diverse paradigms used to frame scholarly inquiry; and critical thinking skills for evaluating research in human and organizational learning.

HOL 8720. Seminar: Applied Research in Human and Organizational Learning. 3 Credits.

Identification of initial constructs and theories that support the identified research interest, with a problem statement and critical analysis of research reports and review of research literature.

HOL 8721. Practicum in Human and Organizational Learning. 3-6 Credits.**HOL 8722. Seminar: Advanced Issues in Human and Organizational Learning. 1-12 Credits.**

Forum in which candidates critically examine relevant classic and contemporary literature, with analysis and synthesis to defend their research questions and conceptual frameworks.

HOL 8723. Organizations and Strategy in Human Resource Systems. 3 Credits.

Overview of paradigms, theories, models, and constructs of organizations and strategy to understand organizations and their environments.

HOL 8724. Creating and Planning Doctoral Research. 3 Credits.

Students learn to develop an evidence-based problem statement, design a conceptual framework, craft a research question, and conduct a literature review. Fundamental principles of both qualitative and quantitative research and various research strategies and designs.

HOL 8725. Integration of Theory, Research and Practice. 3 Credits.

Provides students with the opportunity to apply adult learning principles explored in the curriculum towards an integration and synthesis of the knowledge base in human and organizational studies. Aids in preparation for the comprehensive examinations and subsequently, dissertation development.

HOL 8741. Managerial and Organizational Cognition. 3 Credits.

The emerging field of collective cognition in organizations, including theoretical foundations and seminal and current literature on knowledge structures and their role in strategy formation, organizational change, and sensemaking.

HOL 8742. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/HDEV 8253.

HOL 8746. Work Groups and Teams in Organizations. 3 Credits.

Theoretical understanding and practical considerations of working with groups and teams. Group dynamics, facilitating and leading groups, and member roles. Group facilitation techniques across different group settings and environments.

HOL 8997. Preparation and Delivery of Doctoral Research. 3 Credits.

Students develop and present a mock dissertation proposal, receiving feedback from faculty and colleagues in order to refine their proposal. Prerequisites: none. Recommended background: Students are expected to have developed a literature review, conceptual framework, and research question for their dissertation research prior to enrolling in this class.

HOL 8998. Predissertation Seminar. 3-6 Credits.

Platform for further development of the dissertation proposal.

HOL 8999. Dissertation Research. 3,6 Credits.

Prerequisite: HOL 8998.

HUMAN SERVICES AND SOCIAL JUSTICE (HSSJ)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSSJ 1099. Variable Topics. 1-36 Credits.

HSSJ 1100. Introduction to Human Services and Social Justice. 3 Credits.

Human services and social justice theory, research, and practice; historical and intellectual development, community-based scholarship, and the context of Washington, D.C.

HSSJ 1177. Organizing for Social Justice in Human Services. 3 Credits.

Theory in community organizing and social justice is connected with an opportunity to explore how it is applied directly in the field. Methods used by non-profit organizations and campaigns to address issues in human services.

HSSJ 2160. Role of NGOs in International Humanitarian Assistance. 3 Credits.

The increasing role of nongovernmental organizations (NGOs) as providers of service and care for vulnerable individuals and communities in need; development of NGOs, the place they hold in international interventions, and the types of services they provide.

HSSJ 2170. Interpersonal Relationships in Human Services. 3 Credits.

Exploration of the theories, principles, and practices of ethically sound professional interpersonal relationships in the context of human services. Topics include forming, bounding, maintaining, and ending relationships; basic helping skills; working in, through, and with difference; working with groups or teams; and self care. May involve fieldwork. Restricted to majors and minors in the field or with permission of the instructor.

HSSJ 2171. Human Interactions: Child and Adolescent Development. 3 Credits.

Human development from infancy to young adulthood. Dominant psychosocial, cognitive, and physical competencies; motivational changes; coping styles; and normative and non-normative behaviors. Three hours per week of service learning in an appropriate agency setting are required in addition to lectures.

HSSJ 2172. Human Interactions: Adult Development. 3 Credits.

Human development from young adulthood to old age. Dominant psychosocial, cognitive, and physical competencies; motivational changes; coping styles; and normative and non-normative behaviors. Three hours per week of service learning in an appropriate agency setting are required in addition to lectures.

HSSJ 2200. Principles of Ethical Leadership. 3 Credits.

The practices and commitments of ethical leaders to enhance organizational effectiveness, engage diverse perspectives, clarify values and mission, and promote commitment to shared purposes.

HSSJ 3100W. Program Planning & Evaluation. 3 Credits.

Program planning and development as essential aspects of human services agencies. Analysis through case studies and on-site field experience of processes by which agency needs are assessed and programs planned. Community-based research. Restricted to HMSR or HSSJ majors or minors or permission of the instructor. Prerequisites: PSC 2101 OR PSYC 2101 OR SOC 2101. Same as HSSJ 3100.

HSSJ 3110W. Nonprofit and Organizational Management. 3 Credits.

Organizational theory and program administration in community agencies; staff recruitment and development; fiscal operations including funding; facilities; and effective community relations. Community-based research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to human services majors or minors. Recommended background: SOC 2101.

HSSJ 3152. Fact/Field/Fiction: Intersections in HSSJ. 3 Credits.

Seminar taken in conjunction with an internship in SOC 3153. Critical analysis of literature, experiential learning, and community-informed research in the field of human services and social justice. Restricted to majors and minors in the human services and social justice program. Prerequisites: HSSJ 1000, HSSJ 1177 and SOC 2101.

HSSJ 3153. Internship in Human Services and Social Justice. 3 Credits.

Internship with an approved agency or organization in the criminal justice field taken in conjunction with HSSJ 3152. Restricted to majors and minors in the human services and social justice program. Prerequisites: HSSJ 1000, HSSJ 1177 and SOC 2101.

HSSJ 4133. Supervised Experience in HSSJ. 3-6 Credits.

Students deepen their theoretical, research, or practical knowledge and skills through instructor (and where appropriate community) supervised independent work on an issue within the field of Human Services for approximately 100 hours. Meet regularly with supervisor(s), readings, anecdotal records, and research paper. Permission of the program director and supervising instructor required prior to enrollment. Restricted to HSSJ majors and minors. Prerequisite: One HSSJ course beyond HSSJ 1100.

HSSJ 4193. Research and Independent Study. 1-6 Credits.

Students explore a topic relevant to human services in depth by designing, conducting, evaluating, and presenting original research. Required for honors in HSSJ.

HSSJ 4195. Capstone Seminar in Human Services and Social Justice. 3 Credits.

Culminating experience synthesizing the knowledge, skills, abilities, and attitudes needed to address complex real-world issues in socially just ways; integration and reflection on the key theories, research, practices, issues, and policies addressed throughout the program. Restricted to program majors in their final spring semester.

HSSJ 4198. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit provided topic differs.

HSSJ 5099. Variable Topics. 1-99 Credits.

INFORMATICS (INFR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

INFR 3101. Introduction to Bioinformatics. 3 Credits.

Basic principles of bioinformatics, including genome sequencing, models, and evolution and computational approaches for analyzing biological data. Four credits in general biology courses may be substituted for the prerequisite. Prerequisites: BISC 1111.

INFR 3102. Scripting. 3 Credits.

Basic concepts of scripting in bioinformatics, such as alignments, searches, and data manipulation for biological data. Four credits in general biology courses may be substituted for the prerequisite. Prerequisites: BISC 1111.

INFR 3103. Genomics. 3 Credits.

Genes and genomes; computational and statistical approaches for analyzing genomic and metagenomic data. Four credits in general biology courses may be substituted for the prerequisite. Prerequisites: BISC 1111. Recommended background: declared major in the bioinformatics or the medical informatics program.

INFR 3104. Human Genetics. 3 Credits.

The application of genetics to the understanding and treatment of human disease; basic methods for design, analysis, interpretation and follow-up of rare variant, candidate gene, and genome-wide association studies. Four credits in general biology courses may be substituted for the prerequisite. Prerequisites: BISC 1111.

INFR 4101. Introduction to Medical Informatics. 3 Credits.

Medical informatics applications and innovations in health care and the health care system; implications for health care delivery and patient outcomes, including electronic medical records, health system databases, and medical data analysis. Laboratory fee. Restricted to medical informatics program majors.

INFR 4102. Survey of Medicine for Informaticians. 3 Credits.

Survey of clinical medicine and basic concepts related to clinical process, medical vocabulary, anatomy, pathophysiology, and clinical disease management for selected organ systems and health care specialties; evaluation of medical records, clinical decision making, and health providers in the U.S. health care system. Laboratory fee. Completion of one course in general biology, anatomy, or physiology may be substituted for the prerequisite. Restricted to students in the medical informatics program or with permission of the instructor. Prerequisite: HSCI 2102.

INFR 4103. Programming for Informaticians. 3 Credits.

Programming (Java), databases, and data models in medical informatics. Laboratory fee. Restricted to medical informatics program majors; permission of the instructor may be substituted.

INFR 4104. Medical Informatics Terminology & Standards. 3 Credits.

Terminology and standards commonly used in clinical and public health systems; practical experience in selecting terminology, mapping concepts to standard terminologies, and creating and testing standardized messages. Laboratory fee. Restricted to medical informatics program majors. Prerequisites: INFR 4101.

INFR 4105. Consumer Health Informatics. 3 Credits.

Consumer health informatics as a field of research and development in the context of medical informatics, including patient and provider perspectives and technology innovations utilized by patients and health care systems. Laboratory fee. Restricted to medical informatics program majors. Prerequisite: INFR 4101.

INFR 4106. Population Health for Medical Informatics. 3 Credits.

Population health informatics, and informatics techniques used on population-level data to improve health. Laboratory fee. Restricted to medical informatics program majors. Prerequisites: INFR 4103 and INFR 4104.

INFR 4107. Clinical Decision Support. 3 Credits.

Examination of clinical decision support systems and associated quality improvement efforts. Laboratory fee. Restricted to students in the medical informatics degree program. Prerequisites: INFR 4103 and INFR 4104.

INFR 4108. Information Extraction for Medical Informatics. 3 Credits.

The automatic extraction of information from clinical text; specificities, information extraction methods, existing applications, and resources for information extraction. Laboratory fee. Restricted to students in the medical informatics degree program. Prerequisites: INFR 4103 and INFR 4104.

INFR 4109. Evaluation Methods in Medical Informatics. 3 Credits.

Evaluation methods associated with clinical information systems and informatics interventions; objective and subjective evaluation, design, measurement, and analysis of medical informatics cases. Laboratory fee. Restricted to students in the medical informatics degree program. Prerequisites: HSCI 3117 and INFR 4103 and INFR 4104.

INFR 4110. Biomedical Data Science. 3 Credits.

Principles of health analytic techniques, and implications associated with big data uses in clinical and health care settings. Laboratory fee. Restricted to students in the medical informatics degree program. Prerequisites: HSCI 3117 and INFR 4101 and INFR 4103.

INFR 4120. Bioinformatics Algorithms. 3 Credits.

Algorithmic foundations of bioinformatics; string, combinatorial, graph, and clustering algorithms. Restricted to bioinformatics majors. Prerequisites: HSCI 3117 and INFR 3101.

INFR 4121. High Performance Computing. 3 Credits.

Concepts and practice in high performance computing for scientists; systems, resource management, parallel programming, and nationally shared resources. Restricted to bioinformatics majors. Prerequisites: INFR 3101, INFR 3102 and HSCI 3117.

INFR 4122. Advanced Scripting. 3 Credits.

Advanced scripting skills in the context of computational biology problems. Restricted to bioinformatics majors. Prerequisites: INFR 3101 and INFR 3102.

INFR 4123. Statistical Genetics. 3 Credits.

Introduction to basic concepts in statistical genetics and molecular evolution. Restricted to bioinformatics majors. Prerequisites: INFR 3101, INFR 3102 and INFR 3103.

INFR 4197. Medical Informatics Internship. 12 Credits.

Supervised field work in medical informatics, arranged in consultation with the program director. May be repeated for credit. Restricted to students in the medical informatics program. Prerequisites: HSCI 2105.

INFR 4198. Medical Informatics Research Project. 12 Credits.

Supervised research project in medical informatics, arranged in consultation with the program director. May be repeated for credit. Restricted to students in the medical Informatics degree program. Prerequisites: HSCI 2105.

INFR 4203. Seminar in Computational Biology. 3 Credits.

Bioinformatics research across the fields of biology, computer science, and mathematics to address contemporary health science and basic science problems; career and research opportunities. Restricted to bioinformatics majors. Prerequisites: HSCI 4112W, INFR 3101, INFR 3102 and INFR 3103.

INFR 4204. Bioinformatics Internship. 3-12 Credits.

Supervised field work in bioinformatics, arranged in consultation with the program director. May be repeated for credit. Restricted to bioinformatics majors with program approval. Prerequisites: HSCI 2105.

INFR 4205. Bioinformatics Research Project. 3-12 Credits.

Supervised research project in bioinformatics, arranged in consultation with the program director. May be repeated for credit. Restricted to bioinformatics majors with program approval. Prerequisites: HSCI 2105 and HSCI 4112W.

INFR 6101. Principles of Medical Informatics. 3 Credits.

Analysis of medical informatics applications and innovations in health care and the health care system; implications for health care delivery and patient outcomes, including electronic medical records, health system databases, and medical data analysis. Restricted to graduate students. Recommended background: graduate enrollment in data science or related field. Credit cannot be earned for this course and INFR 4101.

INFR 6102. Principles of Medicine for Informaticians. 3 Credits.

Survey of clinical medicine and basic concepts related to clinical process, medical vocabulary, anatomy, pathophysiology, and clinical disease management for selected organ systems and health care specialties; evaluation of medical records, clinical decision making, and health providers in the U.S. health care system. Laboratory fee. Restricted to graduate students. Recommended background: graduate students in the data science program or those with prior undergraduate coursework in general biology or anatomy and physiology or pathophysiology. Credit cannot be earned for this course and INFR 4102.

INFR 6103. Advanced Computing Applications for Biomedical Informatics. 3 Credits.

The course examines advanced scripting skills in the context of biomedical informatics. This is an programming course utilizing current language for applied systems. Proctor fee. Prerequisites: HSCI 6263, INFR 6101 and INFR 6102. Recommended background: graduate students in biomedical Informatics programs. Credit cannot be earned for this course and INFR 4122.

INFR 6105. Health Care Quality for Informatics. 3 Credits.

Health care quality theory, principles, and practice for medical informatics professionals. Restricted to students in the biomedical informatics program.

INFR 6121. High Performance Computing. 3 Credits.

Applied contemporary concepts and practice in high performance computing for scientists; systems, resource management, parallel programming, and nationally shared resources. Proctor fee. Prerequisites: INFR 6101, INFR 6102, and HSCI 6263 (or equivalent statistics course). Recommended background: graduate students in biomedical Informatics programs. Same As: INFR 4121.

INFR 6197. Biomedical Informatics Practicum. 1-3 Credits.

Supervised field work in biomedical informatics arranged in consultation with the program director. Students must have completed 9 credits of graduate INFR coursework and have program approval in order to enroll. May be repeated for credit. Prerequisites: graduate students in biomedical Informatics programs.

INFR 6198. Biomedical Informatics Capstone. 3 Credits.

Capstone project for biomedical informatics arranged in consultation with the program director. Students must have completed 12 credits of graduate INFR coursework and have program approval in order to enroll. May be repeated for credit. Recommended background: graduate students in biomedical Informatics programs.

INFR 6540. Medical Decision Making and Decision Support Systems. 3 Credits.

Clinical decision support systems (CDSS) used in biomedical informatics to assist health care providers with decision making tasks related to patient care and associated quality improvement efforts. Artificial intelligence in medicine. Restricted to students in the biomedical informatics program. Prerequisite: INFR 6121.

INFORMATION SYSTEMS TECHNOLOGY MANAGEMENT (ISTM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ISTM 3119. Introduction to Programming. 3 Credits.

Introductory course in writing simple computer programs using Python; data-analytic thinking and business applications through hands-on practices. No prior knowledge or experience in programming is required.

ISTM 4120. Business Systems Development. 3 Credits.

Analysis, design, and implementation of management information systems (MIS). Structured methodologies and techniques for various stages of the MIS development process. Computer-aided software engineering tools. May be taken for graduate credit with permission of the program director and instructor and extra assigned work.

ISTM 4121. Database Principles and Applications. 3 Credits.

Theory, architecture, and implementation of database management systems in corporate and organization information systems; fundamental concepts of database management and processing; hands-on experience with database management packages.

ISTM 4123. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

ISTM 4123W. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 2301.

ISTM 4130W. Writing On The Ethics of Technology. 3 Credits.

Complex ethical dilemmas inherent in the introduction of new technologies and the influence human behavior asserts on these problems. Students write stories to explore and evaluate specific ethical problems relative to technology from various perspectives. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ISTM 4205. Web Applications Development. 3 Credits.

Concepts and practice necessary for creating Internet content. Technical overview of the Internet environment and the structure of the World Wide Web. Recommended background: Prior completion of ISTM 3119.

ISTM 4206. Foundations of Information Systems Security and Ethics. 3 Credits.

Computer security issues from the design, management, and business information system ownership perspectives. System security concepts, methods, and policies from design and planning to implementation. Risk assessment strategies. Recommended background: ISTM 4120.

ISTM 4209. Foundations of Web Analytics. 3 Credits.

Concepts, techniques and tools of reporting and analyzing web data to derive actionable customer intelligence, develop digital strategies and evaluate their impacts.

ISTM 4210. Information Systems Capstone. 3 Credits.

Application of conceptual and technical knowledge to analyzing, planning, and designing an online information system. Culminates with a system proposal and design presentations. Restricted to eligible students in their final semester. Prerequisites: ISTM 3119, ISTM 4120, ISTM 4121, ISTM 4205, ISTM 4206, and ISTM 4209.

ISTM 4212. Data Management for Analytics. 3 Credits.

Traditional and contemporary tools for data wrangling, databases, data warehousing. Focus on schema design and dimensional modeling; hands-on experience using these tools and other contemporary methods for managing and analyzing data at scale.

ISTM 4213. Foundations of Cloud Applications. 3 Credits.

Enterprise applications concepts, architecture, and technologies for emerging technologies and IT frameworks. The Internet as a major resource for globally distributed applications using grid and utility computing. Prerequisites: ISTM 3119.

ISTM 4214. Foundations of Artificial Intelligence. 3 Credits.

A comprehensive introduction to the recent developments in AI through the coverage of fundamental AI concepts, practical business applications and the hands-on experiences with modern deep learning frameworks such as Keras. Prerequisites: ISTM 3119.

ISTM 4215. Human-Computer Interaction. 3 Credits.

An introduction to and overview of the field of human-computer interaction (HCI), an interdisciplinary field that integrates theories and methodologies from computer science, cognitive psychology, design, and other areas. Readings cover current theory and practice in interface specification, design, and evaluation, and include current and classic research papers in the field.

ISTM 4216. Mobile Application Development. 3 Credits.

The creation of mobile solutions for various modern platforms, including major mobile operating systems, and how to program using Java and apply this knowledge to Android Platform in smart phones. Recommended background: prior completion of one of the following: ISTM 3119, ISTM 6200, or ISTM 6205.

ISTM 4217. Internet of Things Management. 3 Credits.

Apache Spark technology skills to analyze huge data sets. Taught in Python, continuing on to learning to use Spark DataFrames with the latest Spark 2.0 syntax; the MLlib Machine Library with the DataFrame syntax and Spark.

ISTM 4223. Innovation Ventures. 3 Credits.

Process of innovation entrepreneurship used to launch and build new ventures; technology ventures; organizing for innovation, raising venture capital, wealth creation, managing the growing innovation venture, marketing technology products and services. Students enrolled at the graduate level are expected to do additional work. (Same as ISTM 6223).

ISTM 4233. Emerging Technologies. 3 Credits.

New developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space; forecasting technological advances and assessing their economic and social effects. Students enrolled at the graduate level are expected to do additional work. (Same as ISTM 6233).

ISTM 4900. Special Topics. 3 Credits.

Topics vary by semester. May be repeated once for credit provided the topic differs. Consult the Schedule of Classes for additional information.

ISTM 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ISTM 4995. Independent Study. 3 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

ISTM 5099. Variable Topics. 1-99 Credits.**ISTM 6200. Python Program Database Applications. 3 Credits.**

Introduction to Python programming language, Structured Query Language (SQL), relational database design, data wrangling, and rudimentary data analysis.

ISTM 6201. Information Systems Development and Applications. 3 Credits.

The information systems life cycle evaluated in terms of technologies, impact, and management. Structured and object-oriented analysis, prototyping, software reuse, testing, life-cycle costs, software development environments, and organizational and behavioral aspects of development projects. Restricted to students in the MS in information systems technology program or with permission of the department.

ISTM 6202. Relational Databases. 3 Credits.

Introduction to the theory of relational databases and commences an in-depth discussion of Relational database theory and design at the conceptual, logical, and physical levels. Structured query language (SQL) is covered in depth. Restricted to Students in the MS in Information Systems Technology program or with permission of the department.

ISTM 6203. Managing Cloud Security. 3 Credits.

Enterprise data and telecommunications networks with emphasis on operations and security on the cloud; functional characteristics of network technologies, gateways, and configurations; operational best practices to enhance the security of data and systems.

ISTM 6204. Information Technology Project Management. 3 Credits.

Project and program management practices with an emphasis on information technology projects. The basic tools of project management: work breakdown structure, cost, schedule and performance goal setting, and risk analysis. Restricted to students in the MS in information systems technology program or with permission of the department.

ISTM 6205. Web Application Development. 3 Credits.

Concepts and practice for creating Internet content. Technical overview of the Internet environment and the structure of the World Wide Web. Design and implementation of an effective web site with HTML, CSS, and JavaScript. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 3119 or ISTM 6200.

ISTM 6206. Information Systems Security. 3 Credits.

Comprehensive examination of computer security issues from the design, management, and business information system ownership perspectives. System security concepts, methods, and policies from the design and planning stages to multi-level system implementation. Design of risk assessment strategies to achieve security goals. Restricted to students in the MS in information systems technology program or with permission of the department.

ISTM 6207. Information Resources Management. 3 Credits.

Information resources management strategically assesses and exploits information technology assets for competitive advantage. The CIO role in information resources management, planning, security, information integration, enterprise model development, and data administration.

ISTM 6209. Web and Social Analytics. 3 Credits.

Concepts, techniques, and tools of collecting, analyzing, and reporting digital data concerning how users interact with organizations through the Internet and social media; business intelligence; key performance indicators; new business models. Restricted to students in the MS in information systems technology program or with permission of the department.

ISTM 6210. Integrated Information Systems Capstone. 3 Credits.

Students apply conceptual and technical knowledge in analyzing, planning, and designing an online information system. Culminates with system proposal/design presentations. Restricted to students in their final semester in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 6201, ISTM 6202, ISTM 6204, ISTM 6205, ISTM 6206 and ISTM 6209.

ISTM 6211. Data Warehousing and Online Analytical Processing. 3 Credits.

Introduction to the theory of data warehousing, dimensional data modeling, and online analytical processing (OLAP) through case studies, technology, and a design project. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisite: ISTM 6202.

ISTM 6212. Data Management for Analytics. 3 Credits.

Relational databases, data warehousing, and dimensional modeling. Practical experience with these and other traditional and contemporary methods for managing and analyzing data at scale, including Unix command line and Apache Spark. Restricted to students in the MS in business analytics program.

ISTM 6213. Cloud Applications. 3 Credits.

Enterprise applications concepts, architecture, and technologies for emerging technologies and IT frameworks. The internet as a major resource for globally distributed applications. Prerequisites: ISTM 3119 OR ISTM 6200.

ISTM 6214. Foundations of Artificial Intelligence. 3 Credits.

Foundations of artificial intelligence. Introduction to advanced programming design and development of solutions to automate business processes. Prerequisites: ISTM 3119 OR ISTM 6200.

ISTM 6215. Human-Computer Interaction. 3 Credits.

Human-computer interaction as an interdisciplinary endeavor integrating theories and methodologies from computer science, cognitive psychology, design, and many other areas. Theory and practice in interface specification design and evaluation, and research.

ISTM 6216. Mobile Application Development. 3 Credits.

Creation of mobile solutions for various modern platforms, including major mobile operating systems. Programming using Java and applying this knowledge to Android platform in smart phones. Recommended background: Prior completion of one of the following: ISTM 3119, ISTM 6200, or ISTM 6205.

ISTM 6217. Internet of Things Management. 3 Credits.

Technology skills to analyze huge data sets using Apache Spark. Taught in Python, continuing on to learning to use Spark DataFrames. Using the MLlib machine learning library with the DataFrame syntax and Spark. Prerequisites: ISTM 3119. Recommended background: Prior completion of ISTM 6214.

ISTM 6218. Business Applications of Artificial Intelligence. 3 Credits.

Comprehensive introduction to recent developments in artificial intelligence (AI) through the coverage of fundamental AI concepts, practical business applications, and hands-on experiences with modern deep learning frameworks. Prerequisites: ISTM 3119 and ISTM 6214.

ISTM 6222. IS/IT Strategy and Implementation. 3 Credits.

The development and implementation of information systems and technology strategies designed to align with and maximize business strategy applications and approaches in a challenging and increasingly global business environment.

ISTM 6223. Technology Entrepreneurship. 3 Credits.

Case studies on the innovation-entrepreneurship processes used to launch and build new ventures based on information technology and on technology more broadly. Organizing for innovation, raising venture capital, managing the small technology-based venture, marketing technology products and services, intellectual property considerations, and new venture proposal development.

ISTM 6224. Management of Technology and Innovation. 3 Credits.

Business, technological, economic, and political factors that influence the development and deployment of new technology products, processes, and services. Managing technology, corporate innovation, alternatives, new approaches, sources of competitive advantages.

ISTM 6225. Cloud Foundations. 3 Credits.

Concepts of cloud managed enterprise architecture as a management tool to align information technology assets, people, operations, and projects with operational characteristics.

ISTM 6233. Emerging Technologies. 3 Credits.

Developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space. Forecasting technological advances and assessing their economic and social effects.

ISTM 6234. New Venture Financing. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Same as FINA 6234.

ISTM 6239. Seminar: Competitiveness/Technology. 3 Credits.

Capstone course integrating the field of management of science, technology, and innovation. Commercialization of technology in the private sector and the impact on competitiveness. Implementation of technology in the public sector. Technology development, from new product concept to utilization. Prerequisites: ISTM 6224 or MBAD 6253; and ISTM 6232 or ISTM 6233; or permission of the instructor.

ISTM 6243. Human Factors in Information Systems. 3 Credits.

The user-computer interaction, human factors of online dialogues, interfacing, and various approaches to user-system interaction; development and evaluation of user-computer interfaces.

ISTM 6290. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

ISTM 6298. Directed Readings and Research. 1-3 Credits.**ISTM 6500. Technology Skills for Managers. 1 Credit.**

Introduction to information technologies in multiple business domains for oversight by managers. The topics may vary. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more information. Restricted to MBA students.

ISTM 6502. Working with Databases Using SQL. 1 Credit.

Training in core SQL, especially data query language (DQL) and data manipulation language (DML). Concepts of SQL, including writing SQL statements and understanding of database operations.

ISTM 6514. Introduction to Artificial Intelligence. 1 Credit.

Decision making using artificial intelligence. Real-world examples from finance, health care, marketing, and operations illustrate applications of machine learning methods. Includes hands-on exercises with programming software (R and RStudio).

ISTM 6519. Health Care Analytics and Applications. 1 Credit.

Introduction to the basic analytics techniques and applications in health care and overview of the state of practice of the health care analytics ecosystem.

ISTM 6522. Digital Transformation. 1 Credit.

Use of information and digital technologies to restructure organizations and business processes and survive and thrive in an intensively digitized business world.

ISTM 8300. Thesis Seminar. 3 Credits.**ISTM 8333. Seminar: Management of Science, Technology, and Innovation. 3 Credits.****ISTM 8340. Philosophical Issues in Information Systems. 3 Credits.**

Seminar for doctoral students interested in information systems. Various philosophical traditions and insights from those traditions applied to problems in information systems.

ISTM 8341. Advanced Topics in MIS Research. 3 Credits.

For information systems doctoral students. Seminal papers and leading methods and instruments as applied to MIS research.

ISTM 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

ISTM 8390. Philosophical Foundations of Administrative Research. 3 Credits.

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

ISTM 8391. Advanced Problems in Research Methodology. 3 Credits.

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. For doctoral candidates who have completed the general examination and all courses and are preparing for their dissertation.

ISTM 8397. Doctoral Seminar. 1-3 Credits.

Current research and scholarly issues in management science.

ISTM 8398. Advanced Readings and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ISTM 8399. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

INTEGRATIVE MEDICINE (INTM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

INTM 5099. Variable Topics. 1-99 Credits.

Variable topics.

INTM 6101. Nutrition I: Assessment, Diagnosis, and Intervention. 3 Credits.

Risk factors for malnutrition in macronutrients (protein, fat, carbohydrates), micronutrients (fat versus water soluble vitamins), and those due to environmental exposures including medications. Nutrition, nutrition research, and their application to health care.

INTM 6102. Nutrition II: Life Cycle. 3 Credits.

Expands on foundational nutrition knowledge through evaluating and assessing nutrient requirements across the lifespan. Students develop a personalized, culturally appropriate integrative nutrition plan. Permission of the instructor may be substituted for the prerequisite course. Prerequisite: INTM 6101.

INTM 6105. Advanced Nutrition: Biochemistry. 3 Credits.

Nutrition science and metabolism through exploration of nutrient-oriented biochemical pathways. Prerequisites: INTM 6101 and INTM 6102.

INTM 6110. Food Technology and Health. 1 Credit.

The relationships among food, technology, and health. Food processing, health benefits of food, and novel food products and technology. Prerequisites: INTM 6101 and INTM 6102.

INTM 6111. Topics in Nutrition. 1 Credit.

Contemporary and emerging areas of interest in nutrition as they relate to research, policy, dietary guidelines, and clinical intervention. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisite: INTM 6201.

INTM 6120. Nutritional Immunology. 2 Credits.

The effects of nutrient deficiency in the function, or dysfunction, of immunity. Permission of the instructor may be substituted for the prerequisite courses. Prerequisites: INTM 6101 and INTM 6102.

INTM 6201. Foundations in Integrative Medicine. 3 Credits.

Developing a patient-centric integrative medicine approach to care. Historical, sociocultural, and legal aspects of the evolution of medicine in the United States. Focus on clinical domains of therapeutic relationships and motivational interviewing, lifestyle medicine, personalized medicine, and traditional medical systems.

INTM 6202. Self-Care Methods for Health Care Professionals. 2 Credits.

Health care provider wellness; strategies to address the biological and psychological domains of personal and clinical care.

INTM 6203. Nutritional Metabolism and Environmental Exposure. 3 Credits.

Diseases of the gastrointestinal, immune, and nervous systems and interconnectedness of these systems in the context of chronic disease states. Symptomatic, functional, and disease markers and the development of integrative treatment plans.

INTM 6204. Metabolic Networks in Integrative Medicine. 3 Credits.

Diseases of the gastrointestinal, immune, and nervous systems and interconnectedness of these systems in the context of chronic disease states. Symptomatic, functional, and disease markers and the development of integrative treatment plans.

INTM 6205. Clinical Genomics, Proteomics, and Metabolomics. 3 Credits.

Application of clinical genomics, proteomics, and metabolomics to clinical practice; isolating patterns of meaning within complex signals; developing clinical solutions; interpreting the omics literature; and engaging in omics-based research.

INTM 6206. Legal and Medical Ethics in Integrative Medicine. 1 Credit.

Students evaluate the legal and ethical considerations in decision making related to patient care. Students develop business strategies associated with running an integrative medicine practice.

INTM 6207. Business of Integrative Medicine and Health Care. 3 Credits.

Developing and growing a successful integrative medicine/health care enterprise; the integrative person-centered care concept; business principles, processes, and implementation methods.

INTM 6210. Practical Application of Integrative Medicine I. 3 Credits.

Integration of knowledge and practice of the integrative medicine curriculum into practical clinical skills in preparation for addressing core lifestyle topics with patients/clients. Restricted to students in integrative medicine programs.

INTM 6211. Practical Application of Integrative Medicine II. 3 Credits.

Incorporation of health promotion with disease prevention and advocating for healthy lifestyles and preventive medicine practices. Evidence-based clinical reasoning for the evaluation and management of problems common to outpatient care. Restricted to students in integrative medicine programs.

INTM 6212. Clinical Research in Integrative Medicine. 3 Credits.

Application of clinical knowledge and continued development of clinical reasoning through literature review, Good Clinical Practice (GCP), and peer review. Students develop a research protocol on a domain of integrative health care practice. Restricted to students in integrative medicine programs.

INTM 6213. Clinical Approaches in Integrative Medicine. 3 Credits.

Foundational understanding of complementary and integrative health (CIH); commonly used CIH approaches discussed within the larger framework of determinants of health. Restricted to students in integrative medicine programs with the permission of the instructor.

INTERIOR ARCHITECTURE (IA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IA 1099. Variable Topics. 1-36 Credits.

IA 2100. Studio 1. 6 Credits.

Introduction to design through study and application of fundamental design principles and elements to two- and three-dimensional projects. Restricted to undergraduate IA majors.

IA 2125. Introduction to Graphic Communications. 3 Credits.

Introduction to a variety of techniques used in communicating design ideas; image creation, logo design and branding, rendering, basic layouts, modeling, printed and digital presentation skills.

IA 2150. Beginning Sketching for Designers. 3 Credits.

Freehand sketching developed and applied as a tool in all phases of the creative design process.

IA 3200. Studio 2. 6 Credits.

All phases of design, from development of a concept through producing a complete presentation; implementing the different aspects of the design process. Restricted to undergraduate IA majors. Prerequisite: IA 2100.

IA 3225. Understanding Materials and Color. 3 Credits.

The visual perception and interaction of color; interior and exterior materials for use in residential and commercial environments.

IA 3250. Introductory Digital Design Tools. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting, and enhancement of presentations; using CAD for the production of construction drawings. Restricted to undergraduate IA majors.

IA 3300. Studio 3. 6 Credits.

Studio course emphasizing continued refinement of the design process as applied to multifaceted and complex problems in non-residential space. Restricted to undergraduate IA majors. Prerequisite: IA 3200.

IA 3325. Concepts in Modern Architecture. 3 Credits.

Introduction to the history and concepts of architecture, interiors, and furniture, from the Bauhaus movement to the present. Emphasis on creative thinking and cross-cultural perspectives. Credit cannot be earned for this course and CIAR 3325.

IA 3350. Basic Sustainability Design Strategies. 3 Credits.

Introduction to sustainable design and to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating Systems for Interior Design and Construction.

IA 4400. Studio 4. 6 Credits.

Continuation and refinement of the design process to further advance conceptual thinking for development of larger-scale and more complex design problems Restricted to undergraduate IA majors. Prerequisite: IA 3300.

IA 4425. Fundamentals of Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to undergraduate IA majors.

IA 4450W. Pre-Design for Studio 5. 3 Credits.

Research methodology applied to development of the senior project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors. Prerequisite: IA 4300.

IA 4500. Studio 5. 6 Credits.

Culmination of skills and knowledge gained through the program as demonstrated by the development of an interior design project covering all aspects from conception through presentation. Restricted to undergraduate IA majors. Prerequisite: IA 4400.

IA 4525W. Professional Practice and Internship. 3 Credits.

Industry professionals provide students with guidance concerning the roles and responsibilities of the professional interior designer; written business procedures and practices, legal implications, ethics, trade relations, and designer-client relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors.

IA 4550. Building Systems: Methods and Processes. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; building systems (mechanical, electrical, plumbing) relevant to function and design of interior spaces. Restricted to undergraduate IA majors.

IA 4560. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

IA 4570. Independent Study. 1-3 Credits.

Independent research and special projects. Students must submit a written plan of study and obtain approval of the faculty member directing the study prior to enrollment. Restricted to junior and senior IA majors.

IA 6100. Studio 1 Graduate. 6 Credits.

Introduction to the theory and application of design principles and elements in the built environment and to two- and three-dimensional projects; understanding the design process while adhering to a concept or parti. Restricted to graduate IA majors.

IA 6125. Graphic Communications. 3 Credits.

Concepts and techniques used successfully in communicating design; graphic design principles, including hierarchy, emphasis, balance, rhythm and contrast, tools used in creating two-dimensional communication ideas; image creation, logo design and branding, rendering, basic layouts, three-dimensional modeling, printed and digital presentation skills.

IA 6150. Sketching Architecture and Design. 3 Credits.

Three-dimensional mechanical drafting and free-hand sketching developed and applied as a tool in all phases of the creative design process; using line value, 2D and 3D representation of the built environment.

IA 6200. Studio 2 Graduate. 6 Credits.

Application of fundamental knowledge of design to complex three-dimensional projects and small scale interior projects. Restricted to graduate IA majors. Prerequisite: IA 6100.

IA 6225. Interior Materials and Color Theory. 3 Credits.

Visual perception and interaction of color; interior and exterior materials for residential and commercial environments; interior building methods and materials as they relate to interior build-outs, furniture grade materials, and construction; materials qualities, strengths, weaknesses, and appropriate usage.

IA 6250. Digital Drafting and Modeling. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Restricted to graduate IA majors.

IA 6300. Studio 3 Graduate. 6 Credits.

Continued exploration of the design process as applied to medium scale projects. Restricted to graduate IA majors. Prerequisite: IA 6200.

IA 6325. Case Studies: Bauhaus to Bilbao. 3 Credits.

Modern and contemporary architectural ideas and concepts explored through key buildings and interiors of the twentieth and twenty-first centuries; focus on modernist works in Washington, DC. Credit cannot be earned for this course and CIAR 6325.

IA 6350. Sustainability and the Built Environment. 3 Credits.

The application of sustainable design; introduction to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) rating system, the Living Building Challenge, and the WELL Building Standard.

IA 6400. Studio 4 Graduate. 6 Credits.

Continued refinement of the design process to further advance conceptual thinking for development of larger-scaled and more complex design problems. Restricted to graduate IA majors. Prerequisite: IA 6300.

IA 6425. Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to graduate IA majors.

IA 6450. Research Seminar for Studio 5. 3 Credits.

Students synthesize knowledge and define an area of interest that is well established or newly emerging within the discipline in preparation for the capstone project in Studio 5. Restricted to graduate IA majors. Prerequisite: IA 6300.

IA 6500. Studio 5 Graduate. 6 Credits.

Students create and design an individual capstone interior design project that meets the learning objectives, accreditation standards, and requirements of the program. Restricted to graduate IA majors. Prerequisite: IA 6400.

IA 6525. Practicum and Internship. 3 Credits.

Students work with professional interior designers, architects, or industry-related professionals participating in a project based setting. Roles and responsibilities of the professional interior designer; business procedures, legal-implications, ethics, trade relations, and designer-client-contractor relations. Restricted to graduate IA majors. Prerequisite: IA 6400.

IA 6550. Structures and Building Systems. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; mechanical, electrical, and plumbing building systems as related to function and design of interior spaces. Restricted to graduate IA majors.

IA 6560. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

INTERNATIONAL AFFAIRS (IAFF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IAFF 1001. First-Year Experience. 1 Credit.

First-Year Experience assists students in developing their personal, academic, and career goals. Restricted to students in the Elliott School.

IAFF 1005. Introduction to International Affairs. 3 Credits.

Introduction to the field of international affairs; the challenge of promoting cooperation and order in a world in which competition, conflict, and disorder are common; interstate relations, intrastate conflicts, regional problems, and old and new global challenges. Credit cannot be earned for this course and PSC 1003.

IAFF 1099. Variable Topics. 1-36 Credits.**IAFF 2040. Basic Topics in International Affairs. 3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Primarily for Elliott School freshmen and sophomores.

IAFF 2090. Latin America: Problems and Promise. 3 Credits.

An interdisciplinary course in Latin American studies designed to introduce undergraduates to the diverse, rich, and complex history, politics, economy, culture, and society of Latin America.

IAFF 2091. East Asia-Past and Present. 3 Credits.

An interdisciplinary course offering a comprehensive and integrated introduction to the civilizations and present problems of East Asia.

IAFF 2092. Russia and Eastern Europe: An Introduction. 3 Credits.

A multidisciplinary introduction to the lands and cultures of the former Soviet Union and Central and Eastern Europe. The main emphasis is on history and politics, with attention also given to economics, trade, geography, military matters, literature, and the media.

IAFF 2093. Africa: Problems and Prospects. 3 Credits.

Aspects of the environment, culture, and politics as they affect the present and anticipated future of Africa.

IAFF 2094. Europe: International and Domestic Interactions. 3 Credits.

A multidisciplinary view of contemporary Europe, including the E.U. states, other states of Eastern Europe, and Turkey. The widening processes of political, judicial, economic, cultural, and security integration. Prerequisites: IAFF 1005 and PSC 1001.

IAFF 2095. The Middle East in International Affairs. 3 Credits.

Multidisciplinary survey of social, cultural, political, historical, and religious issues in the Middle East with a concentration on the modern period.

IAFF 2101. International Affairs Research Methods. 3 Credits.

Overview of the variety of research methods, both qualitative and quantitative, used in international affairs research; theoretical groundings and approaches to research methods; the research process.

IAFF 2190. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

IAFF 2190W. Special Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

IAFF 2444. International Law. 3 Credits.

Overview of public international law. How public international law is established, implemented, interpreted, changed, and enforced; the legal structure underpinning international society; and the relationship between domestic and international law. Credit cannot be earned for this course and PSC 2444.

IAFF 3171. U.S. Foreign Policy Summer Program. 3-4 Credits.

The institutions and ideas that shape U.S. foreign policy, including the U.S. Congress and administration, foreign embassies, international organizations, think tanks, interest groups, and media outlets. A separate section of the course covers issues of reporting on foreign policy issues. The program has special admission criteria.

IAFF 3172. Conflict and Conflict Resolution. 3 Credits.

Introduction to the field of conflict analysis and resolution. Analysis of conflicts and their resolutions; major theories and driving causes of conflict; barriers to and mechanisms for resolving conflict; and applications to real-world conflicts.

IAFF 3177. Political Economy of Latin America. 3 Credits.

The politics of economic policymaking in Latin America. Successes and failures with policymaking ideas, political reasons for adopting different development models, and political and economic obstacles to prosperity. Restricted to juniors and seniors. Prerequisites: ECON 1011 and ECON 1012; or PSC 2439.

IAFF 3179. Special Topics in Science and Technology Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3180. Special Topics in Security Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3180W. Special Topics in Security Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3181. Special Topics in Conflict Resolution. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3182. Special Topics in Foreign Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3183. Special Topics in Development Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3184. Special Topics in Trade and International Economic Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3185. Special Topics in European and Eurasian Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3186. Special Topics in Asian Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3186W. Special Topics in Asian Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

IAFF 3187. Special Topics in Latin American and Hemispheric Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3188. Special Topics in Middle East Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3189. Special Topics in African Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3190. Special Topics in International Affairs. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisites: IAFF 1005 or PSC 1003.

IAFF 3190W. Special Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

IAFF 3191W. Latin American Populism in Global Context. 3 Credits.

Theoretical frameworks for thinking about classical and contemporary examples of Latin American populism in the twentieth and twenty-first centuries; examining these theories and interpretations as they pertain to the origins, process, and outcomes of selected cases. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to . Recommended background: Latin America, upper-level political science/ international affairs coursework, and writing experience.

IAFF 3192. ESIA Dean's Scholars Workshop. 1 Credit.

For Elliott School students who have applied and been accepted to the ESIA Dean's Scholars Program. Students fine-tune their research questions, conduct the bulk of their research, draft abstracts, and outline their papers. Visit the Elliott School website for more information.

IAFF 3193W. ESIA Dean's Scholars Seminar. 3 Credits.

For Elliott School students who have applied and been accepted to the ESIA Dean's Scholars Program. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Visit the Elliott School website for more information.

IAFF 3194W. Latin America's Violent Peace. 3 Credits.

The complex governability challenges facing Latin America; discussion of the historical evolution of conflict and contestation in Latin America through inquiry into patterns in state building, political violence, armed forces, insurgencies, and criminal gangs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Recommended background: Latin America, upper-level political science/international affairs coursework, and writing experience.

IAFF 3195. Internship. 3 Credits.

Internships in public, private, and nonprofit organizations concerned with international affairs. Students must meet selection criteria, find a sponsoring faculty member, and receive approval from the Elliott School Office of Academic Advising and Student Services. May be repeated for up to 6 credits with permission.

IAFF 3198. Independent Study and Research. 1-3 Credits.

For juniors and seniors with a minimum grade-point average of 3.0. Students must find a sponsoring faculty member and receive approval from the Elliott School Office of Academic Advising and Student Services. May be repeated for credit with permission of the dean.

IAFF 3210W. Migration, Gender, and International Development. 3 Credits.

The relationship between migration and international development as an established feature of social and economic life. Gender as a framework for analyzing elements of the migration-development nexus. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

IAFF 3501. International Development Theory, Policy, and Practice. 3 Credits.

Historical overview of theoretical approaches, policies, and practices associated with international development. Possible thematic foci include state-directed development approaches, environmentalist-influenced green development, or similar topics. Prerequisites: ANTH 1002 or ANTH 1002W; or ANTH 1004 or ANTH 1004W.

IAFF 3513. Human Rights and Ethics. 3 Credits.

Theoretical and empirical basis of human rights from a multi-disciplinary perspective. How rights have been conceptualized, envisioned, imagined, promoted, and asserted by philosophers, political scientists, anthropologists, and other scholars. Prerequisites: ANTH 1002 or ANTH 1002W; or ANTH 1004 or ANTH 1004W. Credit cannot be earned for this course and ANTH 3513.

IAFF 4191. Research Seminar. 3 Credits.

Intensive readings, discussion, research, and writing. Students must meet selection criteria and receive advisor approval. Restricted to juniors and seniors in the Elliott School.

IAFF 4191W. Research Seminar. 3 Credits.

Intensive readings, discussion, research, and writing. Students must meet selection criteria and receive advisor approval. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the Elliott School.

IAFF 4199. Senior Thesis. 3 Credits.

Students must meet selection criteria, find a sponsoring faculty member, and receive approval from the Elliott School Office of Academic Advising and Student Services. Restricted to seniors in the Elliott School.

IAFF 5099. Variable Topics. 1-99 Credits.**IAFF 6101. International Affairs Cornerstone. 3 Credits.**

Political, economic, and social theories of international relations and their applications to practice.

IAFF 6102. Global Gender Policy. 3 Credits.

An interdisciplinary and comparative approach to examination of policies targeted at achieving gender equality and of the costs of policies that are not gender-specific. Topics include poverty reduction, environmental sustainability, social justice, global and personal security, and prevention of and responses to extreme calamities and crises. How global gender policies are rationalized, adopted, implemented, and assessed. Focus on "what works" and why it works; gaps that remain in achieving global gender equality.

IAFF 6106. Nuclear Weapons. 3 Credits.

The technology and politics associated with nuclear weapons. Strategy and deterrence, force planning and operations, and the prospect of nuclear terrorism.

IAFF 6107. The Science of Nuclear Materials. 3 Credits.

Fundamental principles of nuclear materials, including the origins of radiation, manufacture and detection of nuclear materials, nuclear weapons and power issues, and medical uses and environmental issues related to nuclear materials.

IAFF 6108. International Development Policy. 3 Credits.

The changing scope and nature of international development and the challenges currently facing development agencies; how the mixed results of investment in development has brought methods and concepts into question and how agencies are responding to this challenge.

IAFF 6118. Special Topics in International Affairs. 3 Credits.
Topics announced in the Schedule of Classes.

IAFF 6121. International Development Studies Cornerstone. 3 Credits.

Introduction to the concepts and methods of international development. Prerequisite: students in the MA in international development studies program.

IAFF 6122. Development Policy and Practice. 3 Credits.

An overview of economic development in developing countries; key challenges of economic growth, poverty alleviation, and development.

IAFF 6136. Gender and Development. 3 Credits.

Theoretical approaches to gender and development and debates over how to promote gender equity and rights across the gender spectrum. Key issues in gender and development and the range of actors who are involved in promoting gender equality. General patterns, lessons with broader applications, and challenges and differences within and between societies.

IAFF 6137. Development Studies Pre-Capstone Workshop. 1 Credit.

Students work in teams to find a suitable client and negotiate a project, with detailed terms of reference and a work plan to be carried out in the spring semester. Restricted to students in the MA in international development studies program.

IAFF 6138. Special Topics in International Development Studies. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6139. International Development Studies Capstone. 3 Credits.

A project-oriented development course abroad, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Restricted to students in the MA in international development studies program.

IAFF 6141. International Science and Technology Policy Cornerstone. 3 Credits.

Introduction to the study of international science and technology policy; focus on policy issues that arise from interactions between scientific and technological developments and government activity.

IAFF 6142. Technology Creation/Diffusion. 3 Credits.

Examination of the relationship between invention (inception), innovation (first application), and dissemination (diffusion) of technological knowledge; focus on the technological environment prevailing in the major developed market economies.

IAFF 6143. Science and Technology Policy Analysis. 3 Credits.

The use of science by policy decision makers; the affects of policy on science and technology; issues of risk, uncertainty, regulation, democratization, and politics in science and technology policy.

IAFF 6145. U.S. Space Policy. 3 Credits.

Origins, evolution, current status, and future prospects of U.S. space policies and programs. U.S. civilian, military, and national security space programs and space activities of the U.S. private sector.

IAFF 6146. Space Law. 3 Credits.

The underlying principles of international space law, with emphasis on issues of particular concern as the uses of space increase for exploration, commerce, and security.

IAFF 6148. Space and National Security. 3 Credits.

Historic and current factors and emerging trends shaping the development and implementation of U.S. national security space policy and strategy, including the global security environment, domestic politics, and technology.

IAFF 6151. Environmental Policy. 3 Credits.

Examination of public policies designed to protect the human and physical environment; focus on the ways science and technology can simultaneously create new environmental problems and contribute to their mitigation and prevention.

IAFF 6153. Science, Technology, and National Security. 3 Credits.

The contributions of science and technology to U.S. security in military, intelligence, and homeland security activities.

IAFF 6157. International Science and Technology Policy Capstone Workshop. 1 Credit.

First course in a two-semester sequence. Second-year students in the MA in international science and technology policy program work in groups on a project addressing a policy problem or issue in international affairs. Restricted to students in the international science and technology policy program.

IAFF 6158. Special Topics in International Science and Technology Policy. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6159. ISTP Capstone Project. 3 Credits.

A seminar designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to MA candidates in science and technology policy.

IAFF 6160. Defense Policy and Program Analysis. 3 Credits.

Examination of how national security policy is formulated and translated into a defense budget, program priorities, and force structure. Focus on nuclear forces.

IAFF 6161. International Security. 3 Credits.

Survey of the field of international security studies; overview of key concepts, theories, and approaches; inter-state, intra-state, and transnational security problems and the interrelated nature of these categories; analysis of security topics such as great-power relations, arms racing and arms control, crisis management, civil wars, terrorism, and gender, combined with a review of regional developments; non-military issues that have major security implications, including poverty, health, population movements, energy consumption, and climate change; the role of international organizations in promoting international security, and prospects for the future. Restricted to students in the MA in security policy studies program.

IAFF 6162. Security Policy Analysis. 3 Credits.

Key components of security policy and the decision making behind them. Restricted to students in the MA in security policy studies program.

IAFF 6163. Transnational Security. 3 Credits.

Overview of security concerns that transcend state borders, including terrorism, drug trafficking, organized crime, weapons proliferation, migration, and environmental degradation.

IAFF 6164. Environmental Security. 3 Credits.

The relationship between conflict, environmental degradation, and natural resources, including how the environment, climate change, and natural resources influence national security. Theoretical security concepts and use of multidisciplinary academic literature to consider how environmental security can be integrated into future U.S. defense and foreign policy strategies and decisions.

IAFF 6165. Fundamentals of Intelligence. 3 Credits.

The institutional structure of the intelligence community; the intelligence production cycle, including tasking, collection, analysis, covert action, and counterintelligence; and relations between the intelligence and policy communities.

IAFF 6167. Defense Policy and Program Analysis II. 3 Credits.

Analysis of the development of national security policy and analytic techniques to derive a defense program and force structure from it. Special attention to general-purpose forces.

IAFF 6169. Homeland Security. 3 Credits.

The central missions of a homeland security agency: domestic security, emergency preparedness, technology policy, timely intelligence, counterintelligence, and preemptive actions. How the U.S. has dealt historically with internal security matters; contemporary approaches to security problems.

IAFF 6171. Introduction to Conflict Resolution. 3 Credits.

Interstate disputes, contemporary civil wars, complex political emergencies, and other forms of organized violence.

IAFF 6173. Security and Development. 3 Credits.

Consideration of the relationship between security and development reflecting the growing interest from the security field in issues that have traditionally been the purview of development, and vice versa.

IAFF 6186. Special Topics in Security Policy Studies. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6189. Security Policy Studies Capstone. 3 Credits.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Prerequisite: students in the MA in security policy studies program.

IAFF 6191. Financial Accounting. 3 Credits.

Basic concepts and methods used in financial reporting to understand content, context, and related processes. Income statement, balance sheet, and statement of cash flows. Detailed accounting procedures, calculations, and choices. Same As: ACCY 6101, MBAD 6211.

IAFF 6193. Finance. 3 Credits.

Financial management examined through financial analyses, fund sources, investing, capital planning/budgeting, dividend policy, and working capital management. Money and capital markets, primary and secondary markets, and cash and futures markets. Prerequisites: MBAD 6211, MBAD 6224 and MBAD 6242; or MBAD 6211, MBAD 6221, MBAD 6222 and MBAD 6242; or DNSC 6202, MBAD 6211 and MBAD 6242. Same As: MBAD 6235.

IAFF 6198. Special Topics in International Economic Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more information.

IAFF 6199. International Trade and Investment Policy Capstone. 1 Credit.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Restricted to students in the MA in international trade and investment policy program.

IAFF 6208. Special Topics in Global Communication. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6209. Global Communication Capstone. 3 Credits.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Restricted to students in the MA in global communication program.

IAFF 6211. Master of International Policy and Practice Leadership Practicum. 3 Credits.

Major issues in international affairs confronting policymakers in the United States and around the world; the evolving nature of international leadership; how diverse actors exercise power in the international realm. Restricted to MIPP degree candidates.

IAFF 6212. Strategy and Leadership. 3 Credits.

The evolving nature of international leadership in the twenty-first century; lateral leadership for managing expert, networked teams to address complex problems requiring adaptation and learning; strategic thinking and team leadership skills. Restricted to students in the MIPP program.

IAFF 6213. Leadership Capstone. 3 Credits.

Practical application of lateral leadership skills to researching and designing an individual leadership project addressing a critical issue in the student's professional field; qualitative research methods, program design and evaluation, coalition building, proposal writing, and oral presentation skills. Restricted to students in the MIPP program. Prerequisites: IAFF 6212.

IAFF 6216. Economic Tools for Global Policy. 3 Credits.

Analysis of economic issues and concrete policy problems related to globalization, trade, and technology.

IAFF 6222. Special Topics in International Policy and Practice. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See school for more details.

IAFF 6302. Taiwan: Internal Development and Foreign Policy. 3 Credits.

The social, political, and economic development in Taiwan since World War II; Taiwan's foreign affairs.

IAFF 6305. U.S.-South Asia Relations. 3 Credits.

The nature of challenges and opportunities facing the South Asia region and the U.S. policy response. The rise of India as a global actor; relations between India and Pakistan; political transformation in the countries of the region, including Nepal and Sri Lanka.

IAFF 6308. International Relations of South Asia. 3 Credits.

The foreign policy choices of South Asian countries and the domestic and international linkages that drive these decisions; the different patterns of state-society relationships and identity formations which determine a country's external alliances and partnerships; the changing nature of the Asian balance of power and roles of key Asian actors.

IAFF 6318. Special Topics in Asian Studies. 3 Credits.

Topics announced in Schedule of Classes.

IAFF 6321. European and Eurasian Studies Cornerstone. 3 Credits.

Survey of current research on Europe and Eurasia. Research paper required. Restricted to students in the MA in European and Eurasian studies program or with permission of the instructor.

IAFF 6338. Special Topics in European and Eurasian Studies. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6339. European and Eurasian Studies Capstone. 3 Credits.

Survey of current research on Europe and Eurasia. Research paper required. Restricted to students in the MA in European and Eurasian studies program or with permission of the instructor.

IAFF 6341. Latin American and Hemispheric Studies Cornerstone. 3 Credits.

Multidisciplinary foundation course for the Latin American and hemispheric studies program.

IAFF 6342. Drug Trafficking in the Americas. 3 Credits.

A historical, comparative, and contemporary picture of drug trafficking in the Americas and the anti-narcotics policies to combat this trade.

IAFF 6357. Latin American and Hemispheric Studies Pre-Capstone Workshop. 2 Credits.

First in a two-course sequence with IAFF 6359. Planning and preparation to undertake field-based research related to a specific problem or issue of interest to a sponsoring organization. Restricted to students in the MA in Latin American and hemispheric studies program.

IAFF 6358. Special Topics in Latin American and Hemispheric Studies. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6359. Latin American and Hemispheric Studies Capstone. 2 Credits.

Second in a two-course sequence with IAFF 6357. A project-oriented course, designed to apply the skills and synthesize the knowledge that students have acquired in their graduate study. Restricted to students in the MA in Latin American and hemispheric studies program.

IAFF 6361. Middle East Studies Cornerstone. 3 Credits.

Multidisciplinary foundation course for the Middle East studies program. Introduction to key issues.

IAFF 6362. Regional Security in Middle East. 3 Credits.

The nature, elements, and future of security in the Middle East region. Various analytical frameworks are examined to consider the interplay of national interests, ideology, and regionalism. Issues in regional security.

IAFF 6363. Political Economy of the Middle East. 3 Credits.

Current political economy of the Middle East, including an overview of Islamic economic concepts and political organizations.

IAFF 6364. Religion and Society in the Modern Middle East. 3 Credits.

Comparative overview, both historical and current, of religious and social trends in the Middle East.

IAFF 6377. Middle East Studies Program Capstone Workshop. 1 Credit.

First in a two-course sequence with IAFF 6379. Second-year students in the MA in the Middle East studies program work in groups on a project addressing a policy problem or issue in international affairs. Restricted to students in the MA in Middle East studies program.

IAFF 6378. Special Topics in Middle East Studies. 3 Credits.

Topics announced in the Schedule of Classes. Credit cannot be earned for this course and IBUS 4900, IBUS 6290.

IAFF 6379. Middle East Studies Capstone. 3 Credits.

Second in a two-course sequence with IAFF 6377. A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Restricted to students in the MA in Middle East studies program.

IAFF 6381. African Studies Cornerstone. 3 Credits.

Introduction to the broad historical and contemporary forces that have shaped and continue to affect Africa. Key concepts, theories, and analytic approaches that help deepen understanding of the region. Important challenges, as well as opportunities and innovations, shaping the region's future.

IAFF 6385. Special Topics in African Studies. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See the Schedule of Classes for more information.

IAFF 6501. Quantitative Analysis for International Affairs Practitioners. 3 Credits.

Overview of quantitative measurement, data summary, statistical inference, and elementary modeling such as linear regression.

IAFF 6502. Professional Skills I. 1 Credit.

Short courses that focus on developing specialized skills for international affairs professionals. Topics announced in the Schedule of Classes.

IAFF 6503. Professional Skills II. 1 Credit.

Continuation of IAFF 6502. Short courses that focus on developing specialized skills for international affairs professionals. Topics announced in the Schedule of Classes.

IAFF 6504. Intermediate Conversation. 1 Credit.

Short courses designed to develop professional language skills for international affairs students. Specific languages announced in the Schedule of Classes.

IAFF 6505. Elliott School Seminars. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See Schedule of Classes for more details.

IAFF 6515. Graduate Internship in International Affairs. 0 Credits.

Internship and research paper involving experience at an international organization or with international issues. Restricted to MA candidates in the Elliott School.

IAFF 6516. Independent Study and Research. 1-3 Credits.

Restricted to MA candidates in the Elliott School. Prerequisites: Written permission of the instructor.

IAFF 6517. Independent Study and Research. 1-3 Credits.

IAFF 6521. U.S. Foreign Policy Summer Program. 3-4 Credits.

The institutions and ideas that shape U.S. foreign policy, including the U.S. Congress and administration, foreign embassies, international organizations, think tanks, interest groups, and media outlets. A separate section of the course covers issues of reporting on foreign policy issues.

IAFF 6898. Capstone Workshop. 2 Credits.

First part of two-semester sequence that addresses a concrete policy problem or issue in international affairs. In small teams, students refine the policy question of the capstone project, develop a research strategy, select appropriate research methods, and begin research. Continued in IAFF 6899.

IAFF 6899. Capstone Course. 2 Credits.

Second part of a two-semester sequence. Completion of the capstone sequence by conduct of the group's research, completion of the capstone report, and oral presentation of research findings and recommendations. Prerequisite: IAFF 6898.

IAFF 6998. Thesis. 3 Credits.

Restricted to MA candidates in the Elliott School who have selected the thesis option.

IAFF 6999. Thesis. 3 Credits.

Open to Elliott School MA candidates who have selected the thesis option.

INTERNATIONAL BUSINESS (IBUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IBUS 1099. Variable Topics. 1-36 Credits.

IBUS 3001. Introduction to International Business. 3 Credits.

The international business environment, including social, cultural, political, technological, and institutional domains; multinational corporation strategic imperatives and organizational challenges, including financial, marketing, human resources, and other aspects of management. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Same As: IBUS 3001W.

IBUS 3001W. Introduction to International Business. 3 Credits.

The international business environment, including social, cultural, political, technological, and institutional domains; multinational corporation strategic imperatives and organizational challenges, including financial, marketing, human resources, and other aspects of management. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Same As: IBUS 3001.

IBUS 3101. Global Financial Environment. 3 Credits.

The international economic, trade, and financial environment in which global business operates and how developments in these areas affect business activity. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

IBUS 3201. International Marketing Management. 3 Credits.

Introduction to international marketing analysis and strategy, and the dynamic nature of international markets. Analysis of different types of international markets and formulation of strategies at the entry and global stages. Prerequisites: IBUS 3001.

IBUS 3301. International Business Finance. 3 Credits.

Analysis of the international economic environment and its influence on corporate financial management of international operations. Prerequisites: IBUS 3101 and BADM 3501.

IBUS 4202. Regional Strategy for Multinationals. 3 Credits.

The business, economic, investment, and market environments in different regions of the world; regional strategy framework for responding to business opportunities in regional markets. Prerequisites: IBUS 3001.

IBUS 4203. Foreign Market Analysis. 3 Credits.

Project course involving market research for target market selection, market entry strategy, in-country marketing plan, and recommendations for strategy implementation in the target country. Focus on consulting process as ancillary component. Prerequisite: IBUS 3001, except by permission of instructor, and IBUS 3201.

IBUS 4302. International Banking. 3 Credits.

Theory and practice of international banking; analysis of international commercial and investment banking from a management perspective; subjects include current international monetary and financial environment, money and capital markets, and topical problems of international banking from a management perspective. Prerequisite: IBUS 3001, except by permission of instructor, and IBUS 3301.

IBUS 4303. International Monetary and Financial Issues. 3 Credits.

Risks facing the global financial and the international monetary systems and their macro-economic framework; role of financial oversight institutions, the dollar and of central banks; old and new economic players in the global system. Prerequisites: ECON 1012 or permission of the instructor.

IBUS 4401. Managing the Multinational Enterprise. 3 Credits.

The changing nature of the international environment and the resulting effects on strategy of U.S. and foreign multinational corporations. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 4402. Managing in Developing Countries. 3 Credits.

Challenges of operating in developing countries; cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Prerequisites: IBUS 3001 or IBUS 3101. Credit cannot be earned for this course and IBUS 6402.

IBUS 4402W. Managing in Developing Countries. 3 Credits.

Challenges of operating in developing countries. Cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: IBUS 3001 or IBUS 3002; or permission of the instructor.

IBUS 4403. Oil: Industry, Economy, and Society. 3 Credits.

Multidisciplinary approach, related primarily to political economy and management, to oil and its effects on business, nation-states, and the world economy. Restricted to juniors and seniors who are familiar with economics measures and concepts at the level of ECON 1011 and ECON 1012.

IBUS 4404. Global Energy. 3 Credits.

Fundamental economics and politics of the energy business; effects on business decisions and strategies; conventional energy generation technologies and alternative technologies. Course equivalent or permission of the instructor may be substituted for the prerequisite. Restricted to juniors and seniors. Prerequisite: ECON 1012.

IBUS 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: IBUS 3001, except by permission of instructor. Credit cannot be earned for this course and IAFF 6378.

IBUS 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: IBUS 3001, except by permission of instructor.

IBUS 4995. Independent Study. 1-12 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 5099. Variable Topics. 1-99 Credits.

IBUS 6201. International Marketing. 3 Credits.

Methods and tools for analyzing world markets and their respective consumers and environments to develop marketing strategies for a global market. Selecting new international markets for entry and establishing a brand and strong regional presence. Prerequisites: MBAD 6245. Credit cannot be earned for this course and IBUS 3201.

IBUS 6202. Regional Strategy for Multinationals. 3 Credits.

Development of a framework to understand dynamic business, cultural, and economic environments in Asia and Latin America. Regional business strategies of multinational companies from outside and within Asia and Latin America that respond to business opportunities and challenges in these regions.

IBUS 6290. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: ACCY 6900. Credit cannot be earned for this course and IAFF 6378.

IBUS 6297. International Management Experience. 1-6 Credits.

May be repeated for credit. Same As: FINA 6297, MGT 6297, MKTG 6297, SMPP 6297.

IBUS 6301. International Business Finance. 3 Credits.

Analysis of major issues and developments in the international financial environment and their impact on multinational corporations and financial institutions. Credit cannot be earned for this course and IBUS 3301.

IBUS 6302. Seminar: International Banking. 3 Credits.

Evolution in international banking and other international financial institutions. Functioning of international banking operations, public policy issues and regulatory issues in international banking, and the effect of international banks on national monetary policies.

IBUS 6303. External Development Financing. 3 Credits.

Institutions, instruments, and theory of external development financing; financial flows to developing countries; development finance and the role of international and regional development banks; policies, methods, and practices of the World Bank, the IMF, and others; technical assistance, training, capacity building, and role of institutions in sustained development. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283 or ECON 6284.

IBUS 6304. Financial Crises and the Global Economy. 3 Credits.

The causes of a financial crisis and how various countries have responded to their specific crises; the relationship between financial crises and other economic developments, particularly in emerging market and developing economies; how global financial arrangements have evolved to help manage the risks of contagion. Recommended background: graduate-level study in macroeconomics.

IBUS 6305. Global Investment Banking. 3 Credits.

Examination of investment banking as practiced in a global context from a strategic perspective using case studies and readings. Topics covered include securities underwriting and derivatives instruments, risk management, and business development strategies. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283 or ECON 6284.

IBUS 6307. International Portfolio Management. 3 Credits.

Theory and practice of international investment. Portfolio construction and optimization. Effects of exchange rate changes on portfolio risk and return. International asset pricing models and trading institutions. Prerequisites: MBAD 6234; and MBAD 6243 or ECON 6284.

IBUS 6308. International Reporting and Control. 1.5 Credit.

. Credit cannot be earned for this course and ACCY 6110.

IBUS 6309. International Accounting. 1.5 Credit.

IBUS 6310. International Financial Reporting Standards. 1.5 Credit.

. Same As: ACCY 6112.

IBUS 6400. Oil: Industry, Economy, and Society. 3 Credits.

Multidisciplinary approach to the study of oil and its effects on business, nation-states, and the world economy, based primarily on political economy and management perspectives. Topics include the oil industry, the global oil environment, and the potential effects of oil on a society. (Same as IAFF 6378).

IBUS 6401. International Business Strategy. 3 Credits.

The changing nature of the international environment and the resulting impact on strategy of both U.S. and foreign multinational corporations. Marketing, production, and financial strategy. Focus of discussion is at the company level. Prerequisites: MBAD 6245. Credit cannot be earned for this course and IBUS 4401.

IBUS 6402. Managing in Developing Countries. 3 Credits.

Challenges of operating in developing countries. Cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Credit cannot be earned for this course and IBUS 4402.

IBUS 6403. International Business Negotiations. 3 Credits.

Theories and application in International Business Negotiations (IBN). Formulation of concepts and frameworks; development of systematic approaches to planning for and conducting IBN. Integration of functional, environmental, and institutional contexts facing negotiators internationally. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283 or ECON 6284.

IBUS 6404. New Global Competitive Framework. 3 Credits.

How industries develop sustained competitive advantages within the global framework. The European Union's "single market" and the Economic-Monetary Union; the transformation of formerly centrally planned economies; the changing Japanese economy and emerging Pacific Basin, with implications for the U.S. economy, industries, and firms. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283 or ECON 6284.

IBUS 6405. Legal Aspects of International and Multinational Business. 3 Credits.

Legal environment of international and multinational business including legal systems, antitrust laws, regulation of direct investment, international arbitration and expropriation; topics of current interest. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283 or ECON 6284.

IBUS 6500. Global Currency and Stock Trading. 1.5-3 Credits.

Linkages of global events and risks and their impact on financial markets; foreign exchange market trading philosophies, techniques, strategies, and rules. Real-time practical training in trading major currencies, stocks, and managing an emerging markets portfolio in the GWSB Capital Markets Trading Room.

IBUS 6995. Directed Readings and Research. 3 Credits.

Supervised readings or research in selected fields within business administration. Permission of the instructor required prior to enrollment. May be repeated once for credit.

IBUS 6999. Thesis Seminar. 3 Credits.

No fixed content.

IBUS 8311. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

IBUS 8361. Colloquium on International Business. 3 Credits.

Examination of selected topics in international business, with emphasis on major new theoretical and empirical developments. Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details.

IBUS 8397. Doctoral Seminar. 1-3 Credits.

No fixed content.

IBUS 8900. Thesis Research. 3 Credits.

No fixed content.

IBUS 8998. Advanced Readings and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

IBUS 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

ITALIAN (ITAL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ITAL 1001. Basic Italian I. 4 Credits.

Handling the immediate context of daily experience in spoken and written Italian: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

ITAL 1002. Basic Italian II. 4 Credits.

Speaking and writing in Italian about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Laboratory fee. Prerequisite: ITAL 1001.

ITAL 1003. Intermediate Italian I. 4 Credits.

Third-semester course designed for students with a basic overall knowledge of the Italian language; strengthens proficiency in listening, speaking, reading, and writing; enhances critical understanding of Italian culture. Course conducted in Italian. Prerequisite: ITAL 1002.

ITAL 1004. Intermediate Italian II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: ITAL 1003. Laboratory fee.

ITAL 1012. Beginning Intensive Italian. 8 Credits.

Basic skills in speaking, comprehension, reading, and writing in standard Italian. Covers an academic year of instruction in one semester.

ITAL 1099. Variable Topics. 1-36 Credits.**ITAL 2005. Language, Culture, and Society I. 3 Credits.**

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Laboratory fee. Prerequisite: ITAL 1004.

ITAL 2006. Language, Culture, and Society II. 3 Credits.

Continued expansion of the range and complexity of conversational skills and further development of the writing of effective expository prose on a broad range of subjects. Short literary texts serve as the basis for oral discussion, analytical reading, and writing brief critical essays. Laboratory fee. Prerequisite: ITAL 2005.

ITAL 3010. Advanced Italian Grammar and Style. 3 Credits.

Compositions, drills, dictations; translations into Italian; study of vocabulary and syntax with emphasis on stylistic devices. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 3099. Variable Topics. 1-12 Credits.**ITAL 3100. Introduction to Italian Literature. 3 Credits.**

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods; study of Italian literature in its cultural context; close reading approach and introduction to literary vocabulary. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 3100W. Introduction to Italian Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods; study of Italian literature in its cultural context; close reading approach and introduction to literary vocabulary. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Taught in Italian.

ITAL 3201. History of Italian Literature from the Middle Ages Through the Seventeenth Century. 3 Credits.

Development of genre and movements. Selected readings from the relevant periods, including complete texts of epics, essays, novels, and plays. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 3202. History of Italian Literature from the Eighteenth Through the Twentieth Century. 3 Credits.

Philosophical and literary movements of the modern period. Selected readings and reading of complete texts of novels and drama. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 3202W. History of Italian Literature from the Eighteenth Through the Twentieth Century. 3 Credits.

Philosophical and literary movements of the modern period. Selected readings and reading of complete texts of novels and drama. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Taught in Italian.

ITAL 3290. Textual Analysis. 3 Credits.

Close examination of critical methods and vocabulary used in literary study as applied to Italian Literature; linguistic and stylistic difficulties in textual analysis. Taught in Italian. Prerequisite: ITAL 3100.

ITAL 3300. Italian Literature and Culture in Translation. 3 Credits.

Dynamics of Italian-speaking societies and their cultures studied through literature, art, or film. Topics vary. Readings and lectures in English. The course may be repeated for credit. A laboratory fee may be required.

ITAL 3600. Special Topics in Italian Literature and Culture. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Taught in Italian.

ITAL 4100. The Italian American Experience. 3 Credits.

The dynamics of the Italian American experience from its origins to the present day; what it is to be American, how ethnic identity should be expressed, and who has the power to control a group's representation. Taught in English.

ITAL 4183. History of Italian Film. 3 Credits.

Study of Italian films, directors, and styles, with films examined as aesthetic objects in their own right and in relation to the wider social and cultural environment. The verbal and visual language necessary for decoding and describing film. The course is conducted in English.

ITAL 4184. Contemporary Italian Cinema. 3 Credits.

Contemporary Italian culture viewed through an examination of Italian cinema of the twenty-first century; diversity, immigration and integration; gender and sexuality; and the changes brought about by economic upheaval and the changing role of work. Taught in English.

ITAL 4200. L'Inferno di Dante. 3 Credits.

The medieval Italian context in which the *Inferno* was written; cultural and political developments that directly affected the author; key issues raised, from the nature and causes of political conflict to the role of morality in society; the history of the *Inferno*'s reception and its continuing importance in Italian political and cultural life. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 4300. Il Decamerone di Boccaccio. 3 Credits.

Study of Boccaccio's *Decameron* as a foundational text in the Italian literary canon and key work in Western cultural imaginary; historic and cultural context of the author's presentation of his social world, including issues of class structures, gender and family relations, religious and civic rituals, and dress. Taught in Italian. Prerequisite: ITAL 2006.

ITAL 4380. Italian Journeys Medieval to Postmodern. 3 Credits.

Italy's dual role as the home of legendary travelers and the destination for an endless stream of tourists. The reality and metaphor of travel viewed through travel diaries, ship logs, letters to patrons, maps, travel guides, poetry, and film. The course is conducted in English.

ITAL 4500. Studies in Medieval and Early Renaissance Literature. 3 Credits.

Works by Dante, Petrarca, and Boccaccio. Structure, rhetorical features, and problems of narrative organization; historical and ideological aspects of the works as well as to cultural influence. Taught in Italian. Prerequisite: ITAL 3290.

ITAL 4560. Modern Italian Novel. 3 Credits.

Reading of Manzoni, Verga, Bassani, Calvino, Eco, and Sanguinetti, the most important Italian novelists of the nineteenth and the twentieth centuries. The relationship of each work to its social and cultural context and to the novel as a genre. Prerequisite: ITAL 3290.

ITAL 4800. Independent Study. 1-4 Credits.

Permission of the department chair and instructor required prior to enrollment. May be repeated for credit. Taught in Italian.

ITAL 5099. Variable Topics. 1-99 Credits.

JAPANESE (JAPN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

JAPN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

JAPN 1001. Beginning Japanese I. 4 Credits.

Fundamentals of grammar and pronunciation, with graded reading and practice in writing. Laboratory fee.

JAPN 1002. Beginning Japanese II. 4 Credits.

Continuation of JAPN 1001. Fundamentals of grammar and pronunciation, with graded reading and practice in writing. Laboratory fee.

JAPN 1005. Intensive Beginning Japanese. 8 Credits.

Intensive beginning course equivalent to JAPN 1001- JAPN 1002. Laboratory fee.

JAPN 1099. Variable Topics. 1-36 Credits.

JAPN 2003. Intermediate Japanese I. 4 Credits.

Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee. Prerequisites: JAPN 1002 or JAPN 1005; or permission of the instructor.

JAPN 2004. Intermediate Japanese II. 4 Credits.

Continuation of JAPN 2003. Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee. Prerequisites: JAPN 2003 or permission of the instructor.

JAPN 2006. Intensive Intermediate Japanese. 8 Credits.

Intensive intermediate course equivalent to JAPN 2003 and JAPN 2004. Laboratory fee. Prerequisites: JAPN 1002 or JAPN 1005.

JAPN 3099. Variable Topics. 1-12 Credits.

JAPN 3105. Intermediate Japanese III. 3 Credits.

Continuation of reading of texts, writing of short pieces, conversation, systematic review of grammar. Laboratory fee. Prerequisites: JAPN 2004 or JAPN 2006; or permission of the instructor.

JAPN 3106. Intermediate Japanese IV. 3 Credits.

Continuation of JAPN 3105. Continuation of reading of texts, writing of short pieces, conversation, systematic review of grammar. Laboratory fee. Prerequisites: JAPN 3105 or permission of the instructor.

JAPN 3111. Japanese Literature in Translation I. 3 Credits.

An introductory survey of Japanese literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The pre-modern period.

JAPN 3112. Japanese Literature in Translation II. 3 Credits.

Continuation of JAPN 3111. An introductory survey of Japanese literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The modern period.

JAPN 3123. Introduction to Japanese Linguistics I. 3 Credits.

The structure of the Japanese language with focus on modern Japanese phonology, grammar, and pragmatics. Course is conducted in English.

JAPN 3124. Introduction to Japanese Linguistics II. 3 Credits.

Continuation of JAPN 3123. Focus on grammatical analysis of modern Japanese, the history of the Japanese language, and linguistic universals. Course is conducted in English.

JAPN 3132. Tale of Genji: Love and Politics. 3 Credits.

Social and aesthetic topics in Japanese culture and literature revealed in the story The Tale of Genji and examined in selected secondary sources.

JAPN 3162. Japanese Culture Through Film. 3 Credits.

Survey of the Japanese cultural heritage presented through films. Topics include literature, philosophy, art, religion, and social history from premodern times to the modern era. Lectures and discussion in English. (Same as ANTH 3709).

JAPN 4107. Readings in Modern Japanese I. 3 Credits.

Readings in selected modern literary works, social science materials, and documentary materials. Prerequisites: JAPN 3106 or permission of the instructor.

JAPN 4108. Readings in Modern Japanese II. 3 Credits.

Continuation of JAPN 4107. Readings in selected modern literary works, social science materials, and documentary materials. Prerequisites: JAPN 3106 or permission of the instructor.

JAPN 4109. Introduction to Bungo, Literary Japanese. 3 Credits.

Introduction to Bungo, the literary Japanese used in official government documents up to World War II, newspapers and journals through the Meiji period, and literature from the prose of the Tales of Ise to the poetry of Tawara Machi. Prerequisites: JAPN 3106 or permission of the instructor.

JAPN 4110. Readings in Classical Japanese. 3 Credits.

Readings in premodern texts in Japanese literature, history, and philosophy. Prerequisites: JAPN 4109 or permission of the instructor.

JAPN 4121W. Advanced Conversation and Composition I. 3 Credits.

Productive skills at the advanced discourse level, topic-specific practice of commonly used speech patterns and writing formats. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: JAPN 3106 to JAPN 4121.

JAPN 4122W. Advanced Conversation and Composition II. 3 Credits.

Continuation of JAPN 4121. Productive skills at the advanced discourse level, topic-specific practice of commonly used speech patterns and writing formats. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: JAPN 4121.

JAPN 4185. Directed Reading I. 3 Credits.

Reading of material in the student's field of interest. Permission of the instructor required prior to enrollment.

JAPN 4186. Directed Reading II. 3 Credits.

Continuation of JAPN 4185. Reading of material in the student's field of interest. Permission of the instructor required prior to enrollment.

JAPN 4198. Proseminar: Readings for the Major in Japanese Language and Literature. 3 Credits.

Recommended for all majors. Preparation for advanced research in Japanese sources. Practice in consulting Japanese reference material and translating sources for writing in English. Seminars on advanced reading, translation, and critical methodology. Prerequisite: JAPN 3106.

JAPN 4199. Proseminar: Readings for the Major in Japanese Language and Literature. 3 Credits.

Continuation of JAPN 4198. Recommended for all majors. Preparation for advanced research in Japanese sources. Practice in consulting Japanese reference material and translating sources for writing in English. Seminars on advanced reading, translation, and critical methodology. Prerequisite: JAPN 4198.

JAPN 5099. Variable Topics. 1-99 Credits.

JUDAIC STUDIES (JSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

JSTD 1099. Variable Topics. 1-36 Credits.**JSTD 2001. Topics in Judaic Studies: Pre-modern. 3 Credits.**

Focus on the pre-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 2002. Topics in Judaic Studies: Modern. 3 Credits.

Focus on the post-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 2060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community. Same As: HIST 2060.

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948. Same As: HIST 2812.

JSTD 3099. Variable Topics. 1-12 Credits.**JSTD 4018. Senior Thesis. 1 Credit.**

For Judaic studies majors. Students choose a topic in any major subfield of Judaic studies, select a faculty advisor who specializes in the subfield, conduct research, and produce an annotated bibliography and a proposal that previews the main arguments of the thesis.

JSTD 4019. Senior Thesis. 3 Credits.

Continuation of JSTD 4018. For Judaic studies majors. Completion of the thesis and oral presentation before Judaic studies students and faculty.

JSTD 5099. Variable Topics. 1-99 Credits.**JSTD 6001. Topics in Judaic Studies. 3 Credits.****JSTD 6097. Independent Readings/Research. 1-3 Credits.**

Written permission of the instructor required prior to enrollment. May be repeated for credit with permission.

JSTD 6154. Internship. 1-6 Credits.

Elective internship in areas related to Jewish cultural study.

JSTD 6201. Jewish Life in Contemporary America. 3 Credits.**JSTD 6211. Displaying Jewish Culture: Landmark Exhibitions on Judaism and the Jewish Experience. 3 Credits.****JSTD 6298. Capstone Seminar in Jewish Cultural Arts. 3 Credits.**

The culminating experience for graduate students in the Jewish Cultural Arts program, the capstone synthesizes the skills and knowledge gained in the course of the degree program. Students conceptualize, develop, and execute a public cultural event of their own devising. Taken in the final spring semester of the student's program.

KOREAN (KOR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

KOR 1001. Beginning Korean I. 4 Credits.

Fundamentals of grammar and pronunciation, with graded speaking, reading, and writing practice. Laboratory fee.

KOR 1002. Beginning Korean II. 4 Credits.

Continuation of KOR 1001. Fundamentals of grammar and pronunciation, with graded speaking, reading, and writing practice. Laboratory fee.

KOR 1099. Variable Topics. 1-36 Credits.**KOR 2003. Intermediate Korean I. 4 Credits.**

Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee.

KOR 2004. Intermediate Korean II. 4 Credits.

Continuation of KOR 2003. Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee.

KOR 3099. Variable Topics. 1-12 Credits.**KOR 3105. Intermediate Korean III. 3 Credits.**

Continuation of reading of texts, writing of short pieces, conversation, and systematic review of grammar, focusing on business Korean. Prerequisite: KOR 2004. Laboratory fee.

KOR 3106. Intermediate Korean IV. 3 Credits.

Continuation of KOR 3105. Continuation of reading of texts, writing of short pieces, conversation, and systematic review of grammar, focusing on business Korean. Laboratory fee. Prerequisite: KOR 3105.

KOR 3111. Korean Literature in Translation. 3 Credits.

An introductory survey of Korean literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The pre-modern period.

KOR 3112. Korean Literature in Translation. 3 Credits.

Continuation of KOR 3111. An introductory survey of Korean literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The modern period.

KOR 3123. Introduction to Korean Linguistics. 3 Credits.

The structure of the Korean language, including such topics as the structure of sounds and words, sentence meaning and structure, the writing system, adaptation of foreign vocabulary, pragmatics, variation, and change. Course conducted in English.

KOR 3124. Introduction to Korean Linguistics. 3 Credits.

Continuation of KOR 3123. The structure of the Korean language, including such topics as the structure of sounds and words, sentence meaning and structure, the writing system, adaptation of foreign vocabulary, pragmatics, variation, and change. Course conducted in English.

KOR 3162. Korean Culture through Film. 3 Credits.

The intersection of gender, class, and nation in contemporary society through the lens of Korean film. English subtitles; lectures and discussion in English.

KOR 3189. History of Korean Design, Decorative Arts, and Material Culture. 3 Credits.

How objects and environments such as architecture, domestic artifacts, gardens, food ways, vehicles, musical instruments, and clothing shape Korean life experience and forge personal and cultural identities.

KOR 3190. Korean Arts and Culture. 3 Credits.

Fundamentals of Korean arts and culture in interdisciplinary and comparative approaches; contrasts between other Asian nations and Korea.

KOR 4107. Readings in Modern Korean I. 3 Credits.

Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: KOR 3106 .

KOR 4108. Readings in Modern Korean II. 3 Credits.

Continuation of KOR 4107. Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: KOR 3106 .

KOR 4109. Introduction to the History of the Korean Language. 3 Credits.

Diachronic and synchronic descriptions of the Korean language. Conducted in English.

KOR 4121W. Advanced Korean Conversation and Composition I. 3 Credits.

Comprehensive study of advanced vocabulary and sentence structure through intensive reading, writing, speaking, and listening. Designed to improve proficiency, accuracy, and fluency in formal writing and oral communication skills. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: KOR 3106.

KOR 4122W. Advanced Korean Conversation and Composition II. 3 Credits.

Continuation of KOR 4121W. Comprehensive study of advanced vocabulary and sentence structure through intensive reading, writing, speaking, and listening. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: KOR 4121W.

KOR 4190. North Korean Society and Culture. 3 Credits.

Historical, political, social, and cultural transformations of North Korea from 1948 to present.

KOR 5099. Variable Topics. 1-99 Credits.

LATIN (LATN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LATN 1001. Beginning Latin I. 4 Credits.

Grammatical essentials of Latin, appropriate reading selections, development of English derivatives, introduction to Roman life and literature.

LATN 1002. Beginning Latin II. 4 Credits.

Continuation of LATN 1001. Grammatical essentials of Latin, appropriate reading selections, development of English derivatives, introduction to Roman life and literature.

LATN 1099. Variable Topics. 16 Credits.

LATN 2001. Intermediate Latin. 3 Credits.

Development of ability to read and understand Latin literature of moderate difficulty. Prerequisites: LATN 1001 and LATN 1002.

LATN 2002. Poetry of Empire. 3 Credits.

Study of selected Latin poets in the original including discussion of social and political context. Prerequisites: LATN 2001. Same As: LATN 2002W.

LATN 2002W. Poetry of Empire. 3 Credits.

Study of selected Latin poets in the original including discussion of social and political context. Prerequisites: LATN 2001. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: LATN 2002.

LATN 3001. Major Latin Authors I. 3 Credits.

Topics vary; selections from one or two major authors each semester. May be repeated for credit provided the topic differs. See department for more details. Prerequisites: LATN 2001 and LATN 2002; or permission of the instructor. Same As: LATN 3001W.

LATN 3001W. Major Latin Authors I. 3 Credits.

Topics vary; selections from one or two major authors each semester. May be repeated for credit provided the topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: LATN 2001 and LATN 2002; or permission of instructor. Same As: LATN 3001.

LATN 3002. Major Latin Authors II. 3 Credits.

Continuation of LATN 3001. Selections from one or two major authors are read each semester. May be repeated for credit. Prerequisites: LATN 2001, LATN 2002; or permission of instructor. Same As: LATN 3002W.

LATN 3002W. Major Latin Authors II. 3 Credits.

Continuation of LATN 3001. Selections from one or two major authors are read each semester. May be repeated for credit. Prerequisites: LATN 2001, LATN 2002; or permission of instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: LATN 3002.

LATN 3099. Variable Topics. 1-12 Credits.

LATN 5099. Variable Topics. 1-99 Credits.

LEADERSHIP EDUCATION AND DEVELOPMENT (LEAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LEAD 5099. Variable Topics. 1-99 Credits.

LEAD 6001. The Academy and the Brigade. 3 Credits.

Introduction to topical leadership issues, adult learning theory, and organizational psychology associated with service as a company officer at the United States Naval Academy. Analysis of the most effective means to produce highly capable Navy and Marine Corps officers and examination of principal institutional challenges. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEAD 6002. The Nature and History of Command. 3 Credits.

Study of evolving nature, imperatives, and unique demands of military leadership. Examination of the leadership styles of tactical/operational officers and strategic commanders. Illustration of principles of leadership through historical case studies. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEAD 6003. Foundations of Moral Reasoning. 3 Credits.

Introduction to professional ethics for military officers. Deliberative study of fundamental moral theory and case studies to enhance critical thinking and moral reasoning skills. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEAD 6004. LEAD Fellows Teaching Practicum. 4 Credits.

Seminar focused on the processes of teaching and learning at the United States Naval Academy. Designed to be taken concurrently with a field assignment to co-teach Midshipmen in a foundation course on the study of leadership. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEAD 6005. LEAD Fellows Counseling Practicum. 2 Credits.

Study and practice of counseling. Exploration of the academic counseling resources available at the United States Naval Academy, the difference between counseling and coaching, and the elements of constructive counseling/coaching sessions. Students will work directly with Midshipmen and engage in targeted counseling/coaching. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEAD 6006. LEAD Research Capstone. 3 Credits.

Students plan, implement, and present an individual, group, or faculty-designed research-based project. The final product should make defensible recommendations that can be showcased as the culminating experience of the student's time in the program. Restricted to US Naval Academy students in its Leadership Education and Development program.

LEGISLATIVE AFFAIRS (LGAF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LGAF 5099. Variable Topics. 1-99 Credits.

LGAF 6201. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis. Topics include political and policy decision making, actors, and process.

LGAF 6202. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

LGAF 6203. Executive-Legislative Relations. 3 Credits.

Political and institutional relationships between the executive and legislative branches of the federal government.

LGAF 6204. Research Methods for Legislative Affairs Specialists. 3 Credits.

Approaches to political analysis. Construction of research designs and problems of measurement.

LGAF 6212. Congressional Committees. 3 Credits.

Overview of the history, function, and influence of Senate and House committees in the U.S. Congress.

LGAF 6217. Budgetary Politics. 3 Credits.

Examination of federal budget policymaking and politics.

LGAF 6218. Judicial Politics. 3 Credits.

Role of the judiciary in policy formulation; emphasis on Congress and the Supreme Court.

LGAF 6219. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with emphasis on the politics of contemporary policymaking.

LGAF 6221. Executive Branch Decision Making. 3 Credits.

.

LGAF 6222. Parties and Elections. 3 Credits.

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

LGAF 6223. Public Opinion and Political Socialization. 3 Credits.

Sources and dynamics of public opinion and political socialization.

LGAF 6224. Interest Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

LGAF 6228. Media and Congressional Politics. 3 Credits.

Role of the media in American politics, with emphasis on news coverage, political debates, and political advertising, with their impact on the electorate.

LGAF 6233. Comparative Legislatures. 3 Credits.

Selected problems of legislative theory and behavior from a comparative perspective, with particular reference to the parliamentary systems of Germany, France, and Britain.

LGAF 6234. PACs and Congress. 3 Credits.

Examination of the structure and function of political action committees in the United States in the context of wider arenas of campaign finance, elections, and issue management.

LGAF 6235. Ethics and Congress. 3 Credits.

The role of ethics in the U.S. Congress.

LGAF 6240. Special Topics in Legislative Affairs. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics.

LGAF 6241. Legislative Writing and Research. 3 Credits.

Using specialized databases and policy journals and communicating research findings to a sophisticated, policy-driven audience.

LGAF 6242. Legislative Drafting. 3 Credits.

Introduction for non-lawyers to the process of legislative drafting in the U.S. Congress.

LGAF 6243. Advanced Legislative Procedure. 3 Credits.

Detailed study of the rules, procedures, traditions, and constitutional underpinnings that govern the work of the U.S. Senate and House of Representatives.

LGAF 6244. Running for and Serving in the U.S. Congress. 3 Credits.

Running for and serving in Congress from a member's perspective.

LGAF 6245. Congressional Committees. 3 Credits.

The lawmaking processes of the U.S. Congress. Focus on the legislative workshops of the House and the Senate. Committees and subcommittees.

LGAF 6246. Congress and Foreign Policy. 3 Credits.

The role of Congress in setting foreign policy.

LGAF 6247. Managing a Congressional Office. 3 Credits.

Practical consideration of the proper structure, organization, and management of a Congressional office.

LGAF 6248. Religion and Politics. 3 Credits.

The influence of religion on politics in the United States.

LGAF 6249. Congress and National Security Policy. 3 Credits.

The role of Congress in setting defense policy.

LGAF 6251. Budgetary Policy. 3 Credits.

Analysis of U.S. monetary and fiscal policy.

LGAF 6260. Special Topics: Domestic Policy. 3 Credits.

Analysis of U.S. policy on selected domestic problems.

LGAF 6261. Congress and Defense Policy. 3 Credits.

The role of Congress in U.S. defense policy.

LGAF 6262. Congress and Intelligence Policy. 3 Credits.

The role of Congress in U.S. intelligence policy.

LGAF 6263. Congress and Cybersecurity Policy. 3 Credits.

The role of Congress in U.S. cybersecurity policy.

LGAF 6264. U.S. Energy and Environmental Policy. 3 Credits.

An overview of energy and environmental policymaking in the United States.

LGAF 6266. Congress and Trade Policy. 3 Credits.

The role of Congress in setting U.S. trade policy.

LGAF 6267. Congress and Healthcare Policy. 3 Credits.

The role of Congress in U.S. healthcare policy.

LGAF 6270. Special Topics: Congress and Foreign Policy. 3 Credits.

Analysis of U.S. policy on selected issues, challenges, or world regions.

LGAF 6290. Independent Study. 1-3 Credits.

Directed readings in a topic related to Congress and public policymaking. Limited to Legislative Affairs degree candidates. Written permission of program director required.

LGAF 6299. Thesis. 3 Credits.**LGAF 6300. Thesis. 3 Credits.**

LIFESTYLE, SPORT, AND PHYSICAL ACTIVITY (LSPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LSPA 1011. Hiking. 1 Credit.

Introduction to hiking as an element of outdoor and environmental education and basic wilderness travel, incorporating elements of outdoor leadership. For beginners and experienced hikers. Visits to DC metropolitan area parks and surrounding regions.

LSPA 1012. Dance Conditioning. 1 Credit.

Dance techniques that develop and improve strength, endurance, flexibility, and coordination. Workouts include the use of the barre, floor mats, and movement across the floor.

LSPA 1013. Latin Dance Conditioning. 1 Credit.

Combines movement with discussion of the folkloric history of Afro-Brazilian/Cuban cultural dance. Strength, flexibility, and the ability to undulate the torso and hips fully and rapidly through dance styles including mambo, rumba, salsa, and samba.

LSPA 1014. Meditation. 1 Credit.

Introduction to and practice of basic meditation techniques and principles.

LSPA 1016. Running. 1 Credit.

Training methods and skills of running using a variety of local routes, terrain, and techniques to improve cardiovascular fitness and running form and speed. No prior experience or training is necessary.

LSPA 1017. Walking for Health. 1 Credit.

Walking for health.

LSPA 1018. Trail Running. 1 Credit.

Instruction in the proper techniques and equipment for trail running. Distance is increased progressively.

LSPA 1019. Outdoor Adventure. 1 Credit.

An introduction to various outdoor activities in and around Washington, DC.

LSPA 1020. Beginning/Intermediate Golf. 1 Credit.

Development of basic golf skills through lectures, demonstrations, drills, and game play. Topics include terminology, rules, and etiquette as well as game formats and strategies.

LSPA 1021. Introduction to Fencing. 1 Credit.

Foil or epee fencing skills for recreation and competition. Footwork, right of way, blade work, bouting, refereeing, and competition formats. For beginners and those looking to reenter the sport.

LSPA 1022. Basketball. 1 Credit.

Basic principles and skills of basketball through drills and practice play. Fundamentals, philosophies of team play, etiquette, and offensive and defensive strategies.

LSPA 1023. Shaolin Kung Fu. 1 Credit.

Training in the Southern Shaolin Kung Fu system to improve health and fitness. Participants build endurance, balance, and strength and learn practical self-defense techniques.

LSPA 1024. Volleyball. 1 Credit.

Skills, strategies, techniques, and rules of the game of volleyball. The values of teamwork and sportsmanship are reinforced through competition.

LSPA 1025. Thai Massage. 1 Credit.

Tradition, techniques, and practice of Thai massage.

LSPA 1026. Karate. 1 Credit.

History, terms, skills, and practice of the martial art karate.

LSPA 1027. Tennis. 1 Credit.

Participants learn a range of skills from basic strokes and terminology to advanced match play strategy.

LSPA 1029. Yoga. 1 Credit.

Introduction to basic poses as well as breathing techniques, deep relaxation, and meditation practices. Improving strength, flexibility, and balance. Using techniques learned in class to help manage stress.

LSPA 1030. Fitness. 1 Credit.

Defining fitness activities and practicing associated skills. Taking heart rate and describing rate of perceived exertion.

LSPA 1031. Weight Training. 1 Credit.

Resistance training for strength, power, and muscular endurance. Purpose and function of equipment, proper form, and development of a weight training program to meet fitness goals. Appropriate for students at all levels.

LSPA 1033. Swimming. 1 Credit.

Beginning students learn basics of the freestyle and butterfly strokes, backstroke, and breaststroke. Advanced students further develop their knowledge of the four strokes to improve swimming endurance.

LSPA 1035. Rock Climbing. 1 Credit.

Introductory level indoor climbing course designed to help participants become safe and knowledgeable climbers; safety systems of belaying, basic knot tying, and basic climbing movements; skills needed to climb independently. Meets off campus.

LSPA 1036. Triathlon. 1 Credit.

Training methods for and practice in the three events of a triathlon: running, cycling, and swimming.

LSPA 1037. Indoor Soccer. 1 Credit.

Basic concepts, rules, and skills as well as technical and tactical aspects of the game of indoor soccer.

LSPA 1038. Racquetball. 1 Credit.

History, rules, and vocabulary of the sport of racquetball. Practice in the skills and drills associated with the game.

LSPA 1039. Cardio Kickboxing. 1 Credit.

Workout based on boxing and martial arts movements designed to improve health and fitness, including endurance, balance, flexibility, and strength.

LSPA 1040. Self-Defense and Personal Safety. 1 Credit.

Participants develop an understanding of assault and the wide range of options of self-defense; drills in verbal assertiveness, concentration/relaxation, and physical defense; concepts of alignment, balance, and the mechanics of generating force.

LSPA 1041. Mat Pilates. 1 Credit.

Strengthening and toning all of the body's core muscles through targeted exercises, focusing on specific muscle groups to build core strength. Students bring their own mat.

LSPA 1042. Cardio Conditioning. 1 Credit.

Developing and improving cardiovascular endurance through a variety of aerobic activities.

LSPA 1043. Tai Chi. 1 Credit.

Basic principles of the Chinese internal martial art of tai chi chuan, which uses physical movement, energy awareness, and mental concentration for fun, relaxation, and to improve health.

LSPA 1044. Aikido Self Defense. 1 Credit.

Instruction in and practice of aikido, the Japanese art of self-defense employing locks and holds and using the principle of nonresistance to cause an opponent's own momentum to work against them.

LSPA 1045. Experimental Activities. 1 Credit.

Topics announced in the Schedule of Classes.

LSPA 1046. Taekwondo. 1 Credit.

History, tenets, and practice of the traditional Korean martial art taekwondo, characterized especially by the extensive use of kicks.

LSPA 1048. Horseback Riding. 1 Credit.

Theory and practice of horseback riding for beginning, intermediate, and advanced level students.

LSPA 1049. Boxing. 1 Credit.

Developing muscular strength, agility, and cardiovascular fitness using boxing skills and techniques; jumping rope, shadow boxing, and sparring; punching and kicking combinations.

LSPA 1050. Backpacking. 1 Credit.

Equipment associated with backpacking. Instruction in safety and first aid skills. Students practice backpacking in various outdoor settings.

LSPA 1052. Cross Training. 1 Credit.

Principles of lifetime physical fitness, using the five major components of fitness: cardio-respiratory endurance, muscular strength, muscular endurance, flexibility, and body composition.

LSPA 1053. Squash. 1 Credit.

Basic strokes, grips, and movement patterns used in the game of squash.

LSPA 1054. Metabolic Effect. 1 Credit.

High intensity-based circuits that combine anaerobic and aerobic training to increase calorie burn during and after the workout.

LSPA 1055. Barre. 1 Credit.

Barre cardio and Garuda barre movement repertoire; barre choreography and movement patterns for building strength and competence; barre cardio and the Lotte Berke method.

LSPA 1056. Scuba Diving Certification Course. 1 Credit.

Entry-level PADI (Professional Association of Diving Instructors) course, leading to international diver certification.

LSPA 1057. Zumba. 1 Credit.

Latin-inspired dance fitness class using Latin and international music and dance movements to create a dynamic, exhilarating, and effective cardio workout.

LSPA 1059. Cycling. 1 Credit.

High-intensity cardio class using stationary bikes to simulate real cycling experiences. Students adjust their own resistance and cadence so that beginners and experienced cyclists are challenged in the same class.

LSPA 1060. High-Intensity Interval Training. 1 Credit.

Training the aerobic and anaerobic energy systems and building muscular strength, power, and endurance with short periods of intensive activity followed by periods of rest.

LSPA 1061. Capoeira. 1 Credit.

Introduction to the Afro-Brazilian martial art encompassing elements of music, dance, acrobatics, and martial techniques. Includes interactive events with local Capoeira groups to help develop flexibility, strength, rhythm, and confidence.

LSPA 1063. Les Mills BODYPUMP. 1 Credit.

Use barbells to sculpt, tone, and strengthen the body. Low weight loads and high repetition movements are used in muscle group-specific sessions choreographed to sync with music.

LSPA 1065. Introduction to Therapeutic Massage. 1 Credit.

Fundamentals of Swedish massage, including basic techniques, strokes, draping, muscle anatomy, and body mechanics; holistic benefits of therapeutic touch; physiological effects of stress on the body and how massage is used to address these effects.

LSPA 1066. Sports Massage. 1 Credit.

Pre-activity techniques to help improve an athlete's flexibility and post-activity methods to alleviate injuries or keep muscles from tightening.

LSPA 1067. Group Fitness Instructor Training. 1 Credit.

Fundamentals of group exercise instruction geared toward those wishing to become certified group exercise instructors. Participants learn the skills and knowledge to teach a safe, enjoyable, and effective group exercise class.

LSPA 1068. Sports Clinic and Workshops. 1 Credit.

Topics of intensive study and skill development. Consult the Schedule of Classes for specific topics and possible associated fees.

LSPA 1081. Kendo I. 1 Credit.

Kendo I.

LSPA 1082. Kendo II. 1 Credit.

Kendo II.

LSPA 1083. Iaido I. 1 Credit.

Iaido I.

LSPA 1102. Personal Trainer Preparation. 1 Credit.

Students develop knowledge of exercise science, kinesiology, and physiology. Includes practical experience needed to prepare for the American Council on Exercise (ACE) personal trainer certification exam and to become an effective personal trainer.

LSPA 2001. Special Topics. 1-3 Credits.

Topics announced in the Schedule of Classes.

LINGUISTICS (LING)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LING 1099. Variable Topics. 1-36 Credits.

LING 3099. Variable Topics. 1-12 Credits.

LING 3601. Language, Culture, and Cognition. 3 Credits.

The role of language and culture in the organization of human experience. Beginning with debates about linguistic relativity, the course explores the way language use shapes cognition and practice in a variety of cultures and social contexts.

Prerequisites: ANTH 1004. (Same as ANTH 3601).

LING 3602. Ethnographic Analysis of Speech. 3 Credits.

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Same as ANTH 3602. Prerequisite: ANTH 1004. Laboratory fee.

LING 3603. Psycholinguistics. 3 Credits.

Language as species-specific property of the human mind. Psychological processes involved in the encoding and decoding of language; first and second language acquisition and bilingualism. Same as ANTH 3603.

LING 3691. Special Topics in Linguistic Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ANTH 1004 or permission of the instructor. (Same as ANTH 3691).

LING 5099. Variable Topics. 1-99 Credits.

MANAGEMENT (MGT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MGT 1099. Variable Topics. 1-36 Credits.

MGT 3201. Leadership in Action. 3 Credits.

Leadership in organizations and society. Consideration of whether leadership is a personal trait or a structured behavior and whether it is universal across domains or situation-specific. Modern and historical examples; issues of leadership in popular contexts.

MGT 3202. Managerial Negotiations. 3 Credits.

Negotiation concepts, strategies, and tactics as applied to managerial situations. The nature of interdependencies; competitive and collaborative negotiations; negotiations involving third-party dynamics, such as mediation and arbitration. Employee relations, including employee rights; the impact of unions and collective bargaining on management practices.

MGT 3203. Advanced Human Resource Management. 3 Credits.

The labor force and labor markets. The legal environment of human resource management. Human resource planning; employee recruiting, selection, training, development, compensation, motivation, discipline, health and safety. Prerequisite: BADM 3101.

MGT 3204. Contemporary Topics in Management. 3 Credits.

Contemporary practice in human resource planning, recruitment and selection, training and development, performance management, compensation and benefits, employee relations, and international human resource management. Interaction with practitioners through actual situations, case analyses, and presentations. Prerequisite: BADM 3101.

MGT 3300. Entrepreneurship. 3 Credits.

Students develop the knowledge and ability to launch their own venture. The entrepreneur and the process of entrepreneurship; key aspects of entrepreneurial success, from idea generation and development to launching a firm. Practical skills applicable to real-world scenarios.

MGT 3300W. Entrepreneurship. 3 Credits.

Students develop the knowledge and ability to launch their own venture. The entrepreneur and the process of entrepreneurship; key aspects of entrepreneurial success, from idea generation and development to launching a firm. Practical skills applicable to real-world scenarios. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: MGT 3300.

MGT 3301. Small Business Management. 3 Credits.

Theory and practice of entrepreneurship. How to start or acquire a new business; effective management, including the essentials of planning, organizing, financing, marketing, and controlling the smaller enterprise. Students consult with a small DC-area company as part of a team research project. Prerequisites: MGT 3300W or permission of the instructor.

MGT 3302. e-Entrepreneurship. 3 Credits.

The process of turning a web, mobile, or wearable business idea into a validated, repeatable, and scalable business model using lean startup methodologies; testing and user feedback, technology basics, promotions, and tracking core metrics. Permission of the instructor may be substituted for the prerequisite. Prerequisites: MGT 3300 or MGT 3300W.

MGT 3303. Women's Entrepreneurial Leadership. 3 Credits.

Students create and execute a business plan while developing essential skills, mentoring relationships, and self-confidence and self-insight.

MGT 3305. Human Capital Sustainability. 3 Credits.

Managerial challenges associated with creating sustainable employment relationships using concepts from human resource management, labor relations, organizational behavior, and entrepreneurship; how markets, management practices, collective bargaining, and public policy affect human capital sustainability.

MGT 4003. Management of the Growing Entrepreneurial Venture. 3 Credits.

Examination of the data, dilemmas, and decisions that can confront leaders of post-startup entrepreneurial ventures.

MGT 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

MGT 4900W. Special Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

MGT 4995. Independent Research. 1-6 Credits.

Assigned topics. Permission of the advisor required prior to enrollment. May be repeated once for credit.

MGT 5099. Variable Topics. 1-99 Credits.**MGT 6210. Leading Teams. 3 Credits.**

Knowledge and skills for effectively leading teams. Setting up teams for success, promoting effective team dynamics, and other leadership issues for contemporary teams that operate in a global, digital environment.

MGT 6213. Change Management. 3 Credits.

Behavioral and organizational components of individual, team, and firm-wide change. The dynamics that often accompany the change process.

MGT 6215. Conflict Management and Negotiations. 3 Credits.

The nature and sources of conflict and interdependence in social and organizational dynamics. Various means of resolving conflict, including the use of competitive and collaborative negotiations and mediation. Case discussion, exercises, role-playing, and simulation. Managers as mediators and negotiators.

MGT 6216. Cross-Cultural Management. 3 Credits.

The cultural foundations of organizations and institutions, with an emphasis on managerial behavior. Cross-cultural differences as they affect work-related behaviors, such as communication, attitude, teamwork, negotiation, and decision making.

MGT 6252. Strategic Human Resource Management. 3 Credits.

Strategic International and domestic applications of human resource management functions. Selection, preparation, compensation of managers and executives to think critically about HR in a global environment.

MGT 6253. Leadership and Executive Development. 3 Credits.

The required skills, knowledge, and abilities for effective executive leadership in organizations. Contemporary and classical leadership theories and research approaches.

MGT 6254. Negotiations and Labor Relations. 3 Credits.

Negotiation theory and practice in the context of labor-management relations in both union and nonunion settings. Emphasis on negotiation and conflict resolution skills, arbitration and grievance procedures, public-sector labor relations, labor laws and public policy, and global labor relations issues.

MGT 6257. Performance Management and Development. 3 Credits.

The design and implementation of effective and successful performance management systems; measuring and developing the performance of individuals and groups and aligning performance with an organization's strategic objectives.

MGT 6258. Applied Organization Leadership. 3 Credits.

In-depth studies of theories of leadership. Legal and ethical obligations of leadership. The leader in the process of assuming responsibility. Experiential exercises designed to develop the students' interpersonal abilities and leadership capacities.

MGT 6259. Employment Law and Ethics. 3 Credits.

An examination of the interaction of legal requirements and personal ethics and their influence on managerial decisions affecting the employment exchange. Special emphasis on equal employment opportunity and civil rights, workers' compensation, occupational health and safety, collective bargaining, and wrongful discharge.

MGT 6270. Consulting Processes. 3 Credits.

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process.

MGT 6271. Consulting Practicum. 3 Credits.

Instruction in and application of integrative problem solving, team work, client relationship, and communications skills required to be a successful management consultant. Students gain practical experience through a team-based assignment consulting for a client. Prerequisite: MGT 6270.

MGT 6277. Critical Thinking Skills for Executive Leadership. 3 Credits.

Theory and practice of critical thinking; how it differs from other types of thinking and other executive leadership competencies; approaches known to improve thinking skills.

MGT 6280. Entrepreneurship. 3 Credits.

The entrepreneur as a phenomenon. Theory and experiences associated with entrepreneurs, entrepreneurial acts, and entrepreneurship in all organizational settings—large, small, public, and private.

MGT 6281. Small Business Management. 3 Credits.

The start-up process and management of small firms. Field projects involve student teams as consultants to local businesses. Case studies. Emphasis on total customer service, international opportunities, and minority and women's issues.

MGT 6282. New Venture Initiation. 3 Credits.

Essentials of planning a new business venture. Sources of financing, evaluation of alternative new business ventures, and analysis of business functions. Creating and analyzing the business plan.

MGT 6283. Strategic Entrepreneurship. 3 Credits.

Capstone course for the small business/entrepreneurship concentration. Student teams assist companies in upgrading strategies. Prerequisites: MBAD 6265, MGT 6281, MGT 6282 and/or permission of instructor.

MGT 6284. Family Business Management. 3 Credits.

Challenges of managing a family business: risk strategies; successor development and succession planning; stages of family business growth; family motivations and goals. Field projects provide hands-on experience.

MGT 6285. Social Entrepreneurship. 3 Credits.

Theory and practice of social entrepreneurship. The power and limits of social entrepreneurship as a tool for creating sustainable and scalable social impact.

MGT 6286. Creativity and Innovation. 3 Credits.

How organizational culture encourages or discourages creativity in individuals and teams and how organizational policies support or undercut innovation. Methods for developing and strengthening creative ideas and innovative action. Factors such as breakthrough design that encourage creativity and support innovation. Students examine and assess, on both personal and organizational levels, the bases of and propensity for creativity and innovation.

MGT 6287. Women's Entrepreneurial Leadership. 3 Credits.

Students create and execute a business plan while developing essential skills, tools and mentoring relationships.

MGT 6290. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

MGT 6297. International Management Experience. 3 Credits.

Same as FINA 6297/ IBUS 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

MGT 6298. Directed Readings and Research. 1-6 Credits.**MGT 6299. Thesis Seminar. 3 Credits.****MGT 6301. Negotiations. 1.5 Credit.**

Major concepts and theories of negotiation; the dynamics of interpersonal and intergroup conflict and its resolution; skill development relevant to a broad range of applied contexts; reflective posture about negotiations specifically and social influence broadly. Restricted to students in the World Executive MBA program.

MGT 6999. Thesis Research. 3 Credits.**MGT 8382. Foundations of Organizational Behavior and Development. 3 Credits.**

The individuals and institutions central to the field of organizational behavior and development. Students read about, meet with, and discuss the work of persons central to the development of the field. Restricted to candidates in the PhD in organizational behavior and development program or with permission of the instructor.

MGT 8383. Field Research in Organizational Settings. 3 Credits.

Applications of field research techniques in formal organizational settings. Examination of the logic of inquiry and techniques of qualitative data collection. Intensive interviewing and participant observation in field settings are emphasized. Credit cannot be earned for this course and SOC 6240.

MGT 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

MGT 8386. Management Ideas in Progress. 3 Credits.

Doctoral students work with a variety of faculty members as they develop new ideas, research projects, and engage in seminal inquiry. The content and structure of the course depends based on the instructor. Restricted to students in the PhD in organizational behavior and development program or with permission of the instructor.

MGT 8390. Philosophical Foundations in Administration Research. 3 Credits.

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

MGT 8391. Adv Prob-Research Methodology. 3 Credits.

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. Restricted to doctoral candidates who have completed the general examination and all courses, and are preparing for their dissertation.

MGT 8397. Advanced Special Topics. 1-3 Credits.

Current research and scholarly issues in management science.

MGT 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

MGT 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

MARKETING (MKTG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MKTG 1099. Variable Topics. 16 Credits.**MKTG 3142. Consumer Behavior. 3 Credits.**

Social, cultural, and psychological factors influencing the behavior of consumers. Models of buyer behavior, consumption patterns, market segmentation, attitude formation and change, brand loyalty, adoption of innovations, and store choice decisions. Marketing management and public policy implications of consumer research. Same As: MKTG 3142W.

MKTG 3142W. Consumer Behavior. 3 Credits.

Social, cultural, and psychological factors influencing the behavior of consumers. Models of buyer behavior, consumption patterns, market segmentation, attitude formation and change, brand loyalty, adoption of innovations, and store choice decisions. Marketing management and public policy implications of consumer research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: MKTG 3142.

MKTG 3143. Marketing Research. 3 Credits.

Basic methods and techniques of market research; designing a marketing research project, including research questions, secondary and syndicated data, primary data collection approaches, data analysis, and report presentation; focus group interviews, questionnaire construction, and statistical software packages. Prerequisites: DNSC 1001 or equivalent approved by the instructor or department chair. Corequisites: MKTG 3142.

MKTG 4148. Advertising and Marketing Communications. 3 Credits.

Executing and measuring the effectiveness of advertising and integrated marketing communications campaigns. Methods for gathering research for a customer-based campaign, defining key target personas, developing a singular message strategy, and reaching consumers through media typically used in marketing communications.

MKTG 4149. Advanced Advertising Campaigns. 3 Credits.

Students conceptualize, support, and execute a marketing communications campaign for entry in the American Advertising Federation's National Student Advertising Competition. Interview and permission of the instructor required prior to enrollment. Prerequisites: MKTG 4148 or permission of the instructor.

MKTG 4150. Salesmanship and Sales Management. 3 Credits.

Development of personal selling and presentation skills; examination of types of selling situations. Organization of sales department, sales planning and forecasting, quotas, territories, performance standards, and analysis and control of distribution costs.

MKTG 4151W. Marketing Communications Planning. 3 Credits.

Components of a marketing communications plan; writing, development, and presentation, including executive summary, situation analysis (company, consumer, competitor), target market segmentation, consumer behavior analysis, positioning strategy, and tactics for implementation. Permission of the instructor is required prior to enrollment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BADM 3401, MKTG 3142 and 3143.

MKTG 4152. Retailing Management. 3 Credits.

A study of retailing management and strategy covering the current environment of retailing, retail market and financial analysis, store location and design, inventory management, and non-store and service retailing. Industry executive and student presentations; case analyses. Prerequisites: BADM 3401, MKTG 3142 and MKTG 3143.

MKTG 4154. Digital Marketing. 3 Credits.

Using the social Web to leverage a firm's marketing strategy; developing and improving a company's electronic marketing strategy for the next evolution in Web commerce. Prerequisites: BADM 3401, MKTG 3142 and MKTG 3143.

MKTG 4156. Integrated Marketing Communications. 3 Credits.

The ubiquity of advertising and promotion; fundamental shifts in how consumers get information and from whom, and how much trust they place in different sources; strategies to address a rapidly changing media environment; concepts, analyses, and activities that comprise advertising; assessing and solving advertising challenges. Prerequisites: BADM 3401, MKTG 3142 and MKTG 3143.

MKTG 4159. Marketing Strategy. 3 Credits.

The capstone course for marketing majors. Analytical integration of material covered in previous marketing courses. Marketing strategy literature, financial dimensions of marketing decisions, and comprehensive cases. Prerequisites: BADM 3401 or BADM 3401W; and MKTG 3142 and MKTG 3143.

MKTG 4161. Pricing Strategy: Competitive and Dynamic Pricing. 3 Credits.

Pricing decisions confronting marketers. Equips students with a comprehensive approach to managing pricing decisions. Prerequisites: BADM 3401; MKTG 3142 or MKTG 3142W; and MKTG 3143. Credit cannot be earned for this course and MKTG 6261.

MKTG 4162. Digital Marketing Analytics. 3 Credits.

Measuring, analyzing, and interpreting key behavioral and performance indices for digital marketing. Hands on experience working with data sets, and applying a range of techniques to extract insights from data used primarily in digital marketing. Credit cannot be earned for this course and MKTG 6262.

MKTG 4163. Applied Marketing Decision Analytics. 3 Credits.

Merging marketing and analytics using various tools, including statistical software, to analyze primary and secondary qualitative and quantitative data to support marketing decisions. Credit cannot be earned for this course and MKTG 6263.

MKTG 4164. Artificial Intelligence and Automated Marketing. 3 Credits.

Applying data collection, management, and analysis to address marketing problems from an artificial intelligence/machine learning (AI/ML) perspective and to automate models. Prerequisites: BADM 2301, BADM 3401, MKTG 3143, and MKTG 3142 or MKTG 3142W. Credit cannot be earned for this course and MKTG 6264.

MKTG 4165. Customer Relationship Management and Relational Databases. 3 Credits.

The development and implementation of methods and strategies for doing business on a more personalized, one-to-one basis. Devising targeted communications and promotions to individual customers based on their purchasing behaviors. Credit cannot be earned for this course and MKTG 6265.

MKTG 4900. Special Topics. 3 Credits.

Experimental offering: new course topics and teaching methods. Prerequisites: BADM 3401, MKTG 3142 and MKTG 3143.

MKTG 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BADM 3401, MKTG 3142 and MKTG 3143.

MKTG 4995. Independent Study. 1-12 Credits.

Assigned topics. Permission of the advisor required prior to enrollment. May be repeated once for credit. Prerequisite: BADM 3401.

MKTG 5099. Variable Topics. 1-99 Credits.

MKTG 6241. Advanced Marketing Management. 3 Credits.

MKTG 6242. Buyer Behavior. 3 Credits.

The buyer decision process model and how and why products and services are purchased; synthesis of behavioral sciences applied to understanding individual, family, and organizational decision processes; the impact of consumer decisions on the marketing strategies of business and public organizations; consumer marketing applications in high-tech and services industries and on a global scale.

MKTG 6243. Marketing Research. 3 Credits.

The marketing research process: designing, conducting, and using market research studies. Managing the market research project; qualitative research; survey and experimental designs; data analysis with statistical software packages. Prerequisite: MBAD 6221.

MKTG 6246. Marketing of Services. 3 Credits.

Services in a marketing context from the viewpoint of the customer; service quality, marketing analysis, consumer behavior, product analysis, channel distribution, pricing, and promotional decision making; business strategies examined in service trends, benefits of relationships for firms and for customers, service failure and recovery.

MKTG 6248. Advertising and Marketing Communications Strategy. 3 Credits.

Practical instruction in executing an advertising and integrated marketing communications campaign; strategic planning, communication theory, planning from a consumer attitudes and behavioral perspective, and campaign execution. Prerequisite: MBAD 6274. Recommended background: MKTG 6242.

MKTG 6250. Selling/Sales Management. 3 Credits.

MKTG 6251. Product Management. 3 Credits.

MKTG 6252. Digital Marketing. 3 Credits.

The impact of technology on sales and marketing strategy; e-branding, customer relationship management, permission e-mail, sales force technology enhancement, mobile commerce, online marketing research, and electronic channels of distributions. Prerequisite: MBAD 6274.

MKTG 6255. Strategic Brand Management. 3 Credits.

Theoretical foundation for branding and brand management and practical application of these concepts in marketing management. Prerequisite: MBAD 6274.

MKTG 6256. Integrated Marketing Communication. 3 Credits.

The ubiquitous nature of advertising and promotion; how and from whom consumers get information and their level of trust in different information sources; concepts, analyses, and activities related to advertising; assessing and solving challenges. Prerequisite: MBAD 6274.

MKTG 6259. Marketing Strategy. 3 Credits.

Required capstone course for marketing students. Analysis of complex marketing problems involving policy and operational decisions; emphasis on creative marketing strategy.

MKTG 6261. Dynamic Pricing Strategy. 3 Credits.

Fundamental theories and concepts that constitute the principles of pricing in marketing. Examples of topics covered include pricing and price promotions in distribution channels, product line pricing, and online pricing. Recommended background: Prior completion of a course in basic microeconomics. Credit cannot be earned for this course and MKTG 4161.

MKTG 6262. Digital Marketing Analytics. 3 Credits.

Applied data and analytics in the digital marketing space with hands on experience working with data sets, and applying a range of techniques to extract insights from data primarily used in digital marketing. Credit cannot be earned for this course and MKTG 4162.

MKTG 6263. Marketing Decision Analytics. 3 Credits.

Transforming data into actionable information, using various statistics tools and software to analyze primary and secondary data; identifying data nuances; and weaving qualitative and quantitative data into a story. Prerequisites: MKTG 6243. Credit cannot be earned for this course and MKTG 4163.

MKTG 6264. Artificial Intelligence and Machine Learning for Marketing Automation. 3 Credits.

Application of machine learning and artificial intelligence models to marketing-related data. Focus on automating procedures and communicating findings in a business environment. Recommended background: Basic statistics and some knowledge of R and Python. Credit cannot be earned for this course and MKTG 4164.

MKTG 6265. Marketing Relational Databases and Customer Relationship Management. 3 Credits.

Customer-centric concepts, metrics; and strategies; basic customer database organization and analytics; and predictive modelling of customer responses. Credit cannot be earned for this course and MKTG 4165.

MKTG 6290. Special Topics. 3 Credits.

Same As: FINA 6290, MBAD 6290.

MKTG 6297. International Management Experience. 3 Credits.

Same as FINA 6297/ IBUS 6297/ MGT 6297/ SMPP 6297. May be repeated for credit.

MKTG 6298. Directed Readings and Research. 1-3 Credits.**MKTG 6299. Thesis Seminar. 3 Credits.****MKTG 6999. Thesis Research. 3 Credits.****MKTG 8341. Seminar: Marketing. 3 Credits.****MKTG 8397. Doctoral Seminar. 3 Credits.****MKTG 8998. Advanced Readings and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

MKTG 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

MASTER OF BUSINESS ADMINISTRATION (MBAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MBAD 6202. Foundational Management Topics in Health Care. 3 Credits.

How prevailing health care business models serve as barriers to economic and business gains; environmental changes and future directions of health care delivery, practice, and policy that can to innovation and serving as drivers for thinking strategically about the business components of the health care sector. Restricted to students in the MBA in health care program.

MBAD 6203. Global MBA Career Roadmap. 0 Credits.

Career options; traditional and digital networking tools and techniques; resume, cover letter, and related correspondence writing; preparing for an interview. Restricted to students in the global MBA program.

MBAD 6205. Business Essentials for Dynamic Markets. 1.5 Credit.

Introduction to the foundations of business. Business models and design, dynamic capabilities, and strategy. Identify opportunities, lead individuals, groups, virtual teams, and organizations effectively.

MBAD 6206. Business Improv. 1 Credit.

Experiential learning exercises, case studies, interactive lectures, discussions, and custom simulations to real-world challenges. A practice field for communications skill building and adaptive problem solving.

MBAD 6207. Leadership Lab. 1 Credit.

Managerial soft skills in communications and leadership. Applications to challenges managers face with people and projects. Topics include personality, influence, social networks, and teams. Translating theory to practice and concept to action.

MBAD 6211. Financial Accounting. 3 Credits.

Basic concepts and methods used in financial reporting to understand content, context, and related processes. Income statement, balance sheet, and statement of cash flows. Detailed accounting procedures, calculations, and choices. Same As: ACCY 6101, IAFF 6191.

MBAD 6213. Accounting for Internal Decision Making. 1.5 Credit.

Effective use of internal generation, communication and interpretation of information for both operational and strategic decision-making purposes. Restricted to students in the MBA program. Prerequisites: MBAD 6211. Same As: ACCY 6201.

MBAD 6221. Judgment, Uncertainty, and Decisions. 1.5 Credit.

Classical theories of decision making; recent findings on human cognitive limitations and biases. Analytical approaches useful in cases involving uncertainty, multiple objectives, and multiple stakeholders.

MBAD 6222. Data Analysis and Decisions. 1.5 Credit.

Statistical analysis—how it is used, when it should be used, and what can be learned from it. Statistical inference, hypothesis testing, and regression analysis. Prerequisite: MBAD 6221.

MBAD 6223. Operations Management. 1.5 Credit.

Concepts and techniques related to manufacturing and service operations. Process mapping, capacity analysis, production control, quality management, and supply chains. Integration of operations with a firm's overall business strategy as a powerful competitive weapon. Prerequisites: MBAD 6221 and MBAD 6222; or MBAD 6224; or DNSC 6202.

MBAD 6224. Decision Making and Data Analysis. 3 Credits.

Elements of decision making that enable managers to characterize their strengths, assess the competition, and forecast the future. Deterministic and probabilistic decision models. Analytical approaches involving uncertainty, multiple objectives, and multiple stakeholders. Probability concepts are used to develop and apply statistical models, with both exploratory and inferential statistical techniques used, including sampling, estimation, and hypothesis testing.

MBAD 6233. Financial Markets. 1.5 Credit.

Sources of managerial information provided by money and capital markets, primary and secondary markets, and cash and futures markets. Money and capital market instruments, relevant return measures, risk metrics for bonds and equities. Prerequisites: MBAD 6211; and MBAD 6222 or MBAD 6224; and MBAD 6242.

MBAD 6234. Financial Management. 1.5 Credit.

Theory, policy, and practice in financial management. Financial analysis, sources of funds, investing, capital planning and budgeting, dividend policy, and working capital management.

MBAD 6235. Finance. 3 Credits.

Financial management examined through financial analyses, fund sources, investing, capital planning/budgeting, dividend policy, and working capital management. Money and capital markets, primary and secondary markets, and cash and futures markets. Prerequisites: MBAD 6211, MBAD 6224 and MBAD 6242; or MBAD 6211, MBAD 6221, MBAD 6222 and MBAD 6242; or DNSC 6202, MBAD 6211 and MBAD 6242. Same As: IAFF 6193.

MBAD 6240. Competition in the Global Economy. 3 Credits.

Analysis of political risk using insights from practice and political science. Introduces international macroeconomics, geopolitics, frameworks for analyzing firm-level investment, and trade decisions. Overview of the global business environment.

MBAD 6241. Global Perspectives. 1.5 Credit.

Differences between the domestic and international environments and their implications for management. Differences in the organization of institutions of capitalism across countries.

MBAD 6242. Microeconomics for the World Economy. 1.5 Credit.

The economics of supply and demand in product markets. Theory of the firm (production and cost structure) and its competitive environment (perfect competition, monopoly, oligopoly, and monopolistic competition).

MBAD 6243. Macroeconomics for the World Economy. 1.5 Credit.

How firms are affected by the performance of the macro economy and the macroeconomic variables that should be factored into managers' decision-making processes. The behavior of output, employment, interest rates, inflation, and exchange rates.

MBAD 6244. International Management. 1.5 Credit.

The challenges of operating in different cultures, implications of cross-national differences in institutional environments, and difficulties of designing effective organizational structures for coordination and control in multinational operations. Prerequisite: MBAD 6241.

MBAD 6245. Global Perspectives. 3 Credits.

How decisions and processes are modified for the complex global arena. Differences between the domestic and international environments and the implications for management; variations in the organization of institutions of capitalism across countries. Challenges of operating in different cultures, effects of national differences in institutional environments, and design of organizational structures for coordination and control in multinational operations.

MBAD 6246. Global Economy. 1.5 Credit.

Linkages within the global economy. International macro and micro economic and financial developments and trends in developed, emerging, and developing economies. Focus on understanding macroeconomic data, sources of long-term growth, critical global issues that impact long-term development, mega trends, globalization and technological advances, and cyber security issues. Restricted to students in the World Executive MBA program.

MBAD 6247. Consulting Practicum and International Residency. 3 Credits.

Students gain consulting experience with an actual company in areas including global economics, finance, and cyber-security. Combination of on-campus coursework and overseas travel. Restricted to students in the world executive MBA program.

MBAD 6250. Technology for Business in DC. 1.5 Credit.

Real-world applications and management of technology such as business-IT alignment, digital transformation, strategic IT, cloud outsourcing, digital platform strategy and big data analytics. Students work on projects from DC metro area organization.

MBAD 6252. Management of Information Systems. 1.5 Credit.

An introduction to bridging the gap between the decision-making needs of managers and the terminology of technical personnel within an organization. The transformation of organizations in the digital economy.

MBAD 6253. Management of Technology and Innovation. 1.5 Credit.

Business, technological, economic, and political factors that influence the development and adoption of new technology. Management concepts and practices useful in enhancing corporate innovation. Corporate venture divisions and organizational alternatives.

MBAD 6254. Database and Data Warehousing. 1.5 Credit.

An introduction to the model, design, and use of database and data warehousing systems for identifying, understanding, and designing database-centric solutions for business and organizations.

MBAD 6261. Organizations and Leadership. 1.5 Credit.

A behavioral perspective on core leadership concepts at the individual, team, and organizational level. Students apply these concepts to examine their own leadership qualities in organizations. Experiential exercises and participation in team projects.

MBAD 6262. Managing Human Capital. 1.5 Credit.

Issues of corporate culture, strategy implementation, growth management, employee recruitment and retention, organizational behavior, diversity, ethics, and legal aspects of business. How human resource policies and practices can become a source of competitive advantage.

MBAD 6263. Organizations and Human Capital. 3 Credits.

Formal and informal organizational dynamics related to leading and managing human capital. Motivation and compensation, managing diversity, power and employee relations, organizational culture and change, leadership and decision making, and staffing and performance management. Restricted to MBA students. Credit cannot be earned for this course and BADM 3103.

MBAD 6265. Entrepreneurship. 1.5 Credit.

Focus on the total enterprise creation process starting with an introduction to the creative and innovative practices, lifestyle commitment and the skills necessary for entrepreneurial success. Develop skills and knowledge to be effective as entrepreneurs, members of entrepreneurial teams, intra (entrepreneurs and managers of intrapreneurs. Explore how to identify and develop solutions to the most common leadership and personal challenges faced by entrepreneurs via a lean startup strategy.

MBAD 6272. Nature of Markets. 1.5 Credit.

Marketing as an organizational function as well as a set of processes for creating, communicating, and delivering value to customers and for managing customer relationships in ways that benefit the organization and its stakeholders.

MBAD 6273. Marketing Decisions. 1.5 Credit.

Formulation and implementation of marketing strategy, applying the analytic perspectives, decision tools, and concepts of marketing to the elements of marketing strategy. Prerequisite: MBAD 6272.

MBAD 6274. Marketing. 3 Credits.

Marketing as an organizational function creating, communicating, and delivering value to customers, while managing customer relationships in ways that benefit both the organization and its stakeholders. Formulation and implementation of the elements of marketing strategy through the application of concepts of marketing, analytic perspectives, and decision tools. Credit cannot be earned for this course and BADM 3401.

MBAD 6281. Business Ethics. 1.5 Credit.

Businesses are experiencing increasing challenges and opportunities to ensure that they demonstrate integrity in all of their activities, both internal and external to their operations. Perspectives, information, and skill development in advancing the value of integrity in business organizations.

MBAD 6284. Business and Public Policy. 1.5 Credit.

Provides a foundation for understanding business in its broader social context; emphasis on interaction of the market system and public policy process. Instructor's active guidance with students to develop a public policy strategy proposal for a live partner.

MBAD 6285. Business Law. 1.5 Credit.

The legal environment of business, with particular attention to the liability of organizations and their managers for contracts, torts, and crimes. Strategies for avoiding litigation, including the development of clear, concise, and accurate writing.

MBAD 6286. Strategic Management I. 1.5 Credit.

An introductory approach to strategic management, stressing the general concepts and methodologies used in strategic management and providing a foundation for the MBA learning experience.

MBAD 6287. Strategic Management II. 1.5 Credit.

An integrative approach to strategic management, stressing the general manager's perspective, strategy formulation, implementation of strategy and policy, and evaluation and control of strategy in various types of organizations.

MBAD 6288. Strategic Management. 3 Credits.

An integrative approach to strategic management; general manager's perspective, strategy formulation, implementation of strategy and policy, and evaluation and control of strategy in various types of organizations. MBAD 6235 may be taken concurrently. Prerequisites: MBAD 6211, MBAD 6235 and MBAD 6274.

MBAD 6289. Business Ethics and Public Policy. 3 Credits.

Political, legal, social, economic, and ethical forces acting upon business. Interaction of the market system and public policy process in the development of law and regulation.

MBAD 6290. Special Topics. 3 Credits.

May be repeated to a maximum of 3 times. Same As: FINA 6290, MKTG 6290.

MBAD 6291. Business Communications. 1.5 Credit.

Practical and effective written and oral communication skills for the business environment. Focus on developing and delivering messages clearly, concisely, and effectively, and on learning to write in plain English. The purpose and mechanics of different forms of business communications. Strategies for routine communications challenges.

MBAD 6292. Consulting I. 3 Credits.

See attached.

MBAD 6293. Consulting I. 3 Credits.

Instruction in and application of the integrative problem-solving, communications, and leadership skills required by the successful management consultant.

MBAD 6294. Consulting Abroad Project. 3 Credits.

Students gain practical experience in the global environment through engagement in projects provided by international or foreign companies. A representative of the company visits GW to work with students during the associated practicum. Students work on projects during the seven-week practicum prior to the international residency.

MBAD 6295. Interdisciplinary Projects. 1-6 Credits.

Project and experiential studies of an interdisciplinary nature involving student teams and faculty from more than one field of study. Permission of the MBA program director required prior to enrollment. May be repeated for credit.

MBAD 6296. Business Challenge. 1.5 Credit.

Students identify a business challenge in their own organization and formulate a proposal to address the challenge within the organization's social, political, and technical contexts. The problem and proposal are formally presented at the end of the course. Restricted to students in the World Executive MBA program.

MBAD 6297. Business and Innovation. 1.5 Credit.

Innovation as a core business process involving technological, market, and organizational change. Strategic decisions, capabilities, and moves made or developed in established firms to create, deliver, and capture value. Restricted to students in the World Executive MBA program.

MBAD 6298. Graduate Internship in Business and Management. 0 Credits.

Structured practical experience. Permission of the instructor required prior to enrollment.

MATHEMATICS (MATH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MATH 1220 and MATH 1221 each cover one-half the material of MATH 1231. Because MATH 1221, MATH 1231, and MATH 1252 are related in their subject matter, credit for only one of the three may be applied toward a degree. Information on the placement exam, which is an option for placing into MATH 1051, MATH 1220, MATH 1231, or MATH 1252 is at: <http://math.columbian.gwu.edu/gw-mathematics-placement-test>. (<http://math.columbian.gwu.edu/gw-mathematics-placement-test/>)

MATH 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

MATH 1007. Mathematics and Politics. 3 Credits.

A mathematical treatment of fair representation, voting systems, power, and conflict; impossibility theorems of Balinski and Young and of Arrow; the electoral college; the prisoner's dilemma.

MATH 1008. History of Mathematics. 3 Credits.

The history of mathematics, with emphasis on its importance in the evolution of human thought. Students learn some useful mathematics from areas such as geometry, number theory, and probability and develop an appreciation of the mathematical endeavor.

MATH 1009. Mathematical Ideas I. 3 Credits.

Elementary mathematical models of growth and decay, scaling, chaos, and fractals.

MATH 1010. Mathematical Ideas II. 3 Credits.

Continuation of MATH 1009. Elementary graph theory, scheduling, probability theory.

MATH 1051. Finite Mathematics for the Social and Management Sciences. 3 Credits.

Systems of linear equations, matrix algebra, linear programming, probability theory, and mathematics of finance. Restricted to students with a minimum score of 61 on the ALEKS placement examination.

MATH 1099. Variable Topics. 1-36 Credits.**MATH 1220. Calculus with Precalculus I. 3 Credits.**

An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisites: students with a minimum score of 61 on the ALEKS placement examination.

MATH 1221. Calculus with Precalculus II. 3 Credits.

Continuation of MATH 1220. An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisite: MATH 1220.

MATH 1231. Single-Variable Calculus I. 3 Credits.

Limits and continuity; differentiation and integration of algebraic and trigonometric functions with applications. Restricted to students with a minimum score of 76 on the ALEKS placement examination.

MATH 1232. Single-Variable Calculus II. 3 Credits.

The calculus of exponential and logarithmic functions. L'Hopital's rule. Techniques of integration. Infinite series and Taylor series. Polar coordinates. Prerequisite: MATH 1221 or MATH 1231.

MATH 1252. Calculus for the Social and Management Sciences. 3 Credits.

Differential and integral calculus of functions of one variable; applications to business and economics. Students who might wish to take MATH 1232 should take one of its prerequisites, MATH 1221 or MATH 1231, instead of this course. Prerequisites: A minimum test score of 61 on the ALEKS placement examination.

MATH 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small, seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. See department for more details.

MATH 2020. Joint Math and Physics Seminar. 1 Credit.**MATH 2184. Linear Algebra I. 3 Credits.**

Linear equations, matrices, inverses, and determinants. Vector spaces, rank, eigenvalues, and diagonalization. Applications to geometry and ordinary differential equations. Credit cannot be earned for both MATH 2184 and MATH 2185. Prerequisites: MATH 1221 or MATH 1231 or MATH 1252; or permission of the instructor.

MATH 2185. Linear Algebra I for Math Majors. 3 Credits.

For current or prospective math majors. Introduction to theory and computations involving linear equations, matrices, inverses, determinants, vector spaces, rank, eigenvalues, diagonalization, inner products, norms, and orthogonality. Credit may not be earned for both MATH 2185 and MATH 2184. MATH 2971 or MATH 2971W may be taken as a corequisite. Prerequisites: MATH 1221 or MATH 1231; and MATH 2971 or MATH 2971W.

MATH 2233. Multivariable Calculus. 3 Credits.

Partial derivatives and multiple integrals. Vector-valued functions. Line and surface integrals and the theorems of Gauss, Green, and Stokes. Prerequisite: MATH 1232.

MATH 2971. Introduction to Mathematical Reasoning. 3 Credits.

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. MATH 1232 may be taken as a corequisite. Prerequisites: MATH 1232 or permission of the department undergraduate advisor.

MATH 2971W. Introduction to Mathematical Reasoning. 3 Credits.

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. Math 1232 may be taken concurrently; permission of instructor or the departmental undergraduate advisor may substituted for the prerequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MATH 1232.

MATH 2991. Introductory Special Topics. 1-3 Credits.

Permission of the instructor required prior to enrollment. May be repeated for credit.

MATH 3099. Variable Topics. 1-12 Credits.**MATH 3120. Elementary Number Theory. 3 Credits.**

Divisibility of integers, prime numbers, greatest common divisor, the Euclidean algorithm, congruence, the Chinese remainder theorem, number theoretic functions, Möbius inversion, Euler's phi function, and applications to cryptography and primality testing. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3125. Linear Algebra II. 3 Credits.

Advanced topics in linear algebra; duality of vector spaces, normal and self-adjoint operators, the singular value decomposition theorem, the spectral theorem, bilinear and quadratic forms, the geometry of orthogonal operators, the Jordan canonical form, and minimal polynomials. Prerequisites: MATH 2971 or MATH 2971W and MATH 2185.

MATH 3257. Introduction to Complex Variables. 3 Credits.

Analytic functions and power series; contour integration and the calculus of residues; conformal mapping; physical applications. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

MATH 3342. Ordinary Differential Equations. 3 Credits.

A first course in ordinary differential equations, with an emphasis on mathematical modeling: solution curves, direction fields, existence and uniqueness, approximate solutions, first-order and second-order linear equations, linear systems, and phase portraits. Prerequisites: MATH 2233; MATH 2184 or MATH 2185.

MATH 3343. Partial Differential Equations. 3 Credits.

A first course in partial differential equations. Fourier series and separation of variables, vibrations of a string, Sturm-Liouville problems, series solutions, Bessel's equation, linear partial differential equations, wave and heat equations. Prerequisite: MATH 3342.

MATH 3359. Introduction to Mathematical Modeling. 3 Credits.

Introduction to the fundamental modeling ideas of dimensional analysis, scaling, and elementary approximations of curves and functions; applications to development of models from science and engineering. Prerequisites: CSCI 1011 or CSCI 1012 or CSCI 1041 or CSCI 1111 or CSCI 1121 or CSCI 1131; and MATH 3342.

MATH 3410. Mathematics of Finance. 3 Credits.

Mathematical development and analysis of realistic models for financial option pricing; mathematical underpinnings and financial concepts. Prerequisite: MATH 2233.

MATH 3411. Stochastic Calculus Methods in Finance. 3 Credits.

Review of probability theory, Brownian motion, Ito integrals, Ito's formula, martingales, stochastic differential equations, boundary value problems, the Dirichlet problem, the Black-Scholes equation, optimal stopping, and American options. Prerequisites: MATH 2184 or MATH 2185; and MATH 3410; or permission of the instructor.

MATH 3553. Introduction to Numerical Analysis. 3 Credits.

Accuracy and precision; linear systems and matrices; direct and iterative methods for solution of linear equations; sparse matrices; solution of nonlinear equations. Interpolation and approximate representation of functions, splines. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233; and CSCI 1011 or CSCI 1012 or CSCI 1041 or CSCI 1111 or CSCI 1121 or CSCI 1131.

MATH 3613. Introduction to Combinatorics. 3 Credits.

Introduction to combinatorial enumeration; basic counting techniques, inclusion-exclusion principle, recurrence relations, generating functions, pigeonhole principle, bijective correspondences. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3632. Introduction to Graph Theory. 3 Credits.

Fundamental concepts, techniques, and results of graph theory; connectivity, traversability, matchings, coverings, colorability, planarity, networks, and Polya enumeration. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3710. Introduction to Mathematical Logic. 3 Credits.

Symbolic logic as a precise formalization of deductive thought; logical correctness of reasoning; formal languages, interpretations, and truth; propositional logic and first-order quantifier logic suited to deductions encountered in mathematics; Goedel's completeness theorem; compactness. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3720. Axiomatic Set Theory. 3 Credits.

Cantor's theory of sets. Russell's paradox. Axiomatization of set theory as a framework for a contradiction-free mathematics. The Zermelo-Fraenkel axioms and the axiom of choice. Finite, countable, and uncountable sets; ordinal and cardinal arithmetic. The continuum hypothesis. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

MATH 3730. Computability Theory. 3 Credits.

The unlimited register machine as a model of an idealized computer. Computable and partial computable functions; Church-Turing thesis. Kleene's recursion theorem. Algorithmic enumerability. Unsolvability of the halting problem and other theoretical limitations on what computers can do. Discussion of Goedel's incompleteness theorem. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

MATH 3740. Computational Complexity. 3 Credits.

Automata and languages; deterministic and nondeterministic Turing machines; space and time complexity measures and classes; P-versus-NP problem; traveling salesman problem and other NP-complete problems; intractability; circuit complexity; introduction to probabilistic and quantum algorithms. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3806. Introduction to Topology. 3 Credits.

Metric spaces: completeness, compactness, continuity: Topological spaces: continuity, bases, subbases, separation axioms, compactness, local compactness, connectedness, product and quotient spaces. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3848. Differential Geometry. 3 Credits.

Curves in space, regular surfaces, tensors, fundamental forms of a surface, Gauss-Bonnet theory, minimal surfaces; the geometry of the Gauss map. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

MATH 4121. Introduction to Abstract Algebra I. 3 Credits.

Study of groups and associated concepts, including Lagrange's theorem, Cayley's theorem, the fundamental theorem of homomorphisms, and applications to counting. Prerequisites: MATH 2184 or MATH 2185; and MATH 2971 or MATH 2971W.

MATH 4122. Introduction to Abstract Algebra II. 3 Credits.

Study of rings, through maximal and prime ideals, and the study of fields, through Galois theory. Prerequisites: MATH 4121 or permission of the instructor.

MATH 4239. Real Analysis I. 3 Credits.

Rigorous study of differentiation, integration, and convergence; sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Prerequisites: MATH 1232 and MATH 2971 or MATH 2971W or permission of instructor. Same As: MATH 6201.

MATH 4239W. Real Analysis I. 3 Credits.

A rigorous study of differentiation, integration, and convergence. Topics include sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MATH 1232; and MATH 2971 or MATH 2971W. Same As: MATH 4239, MATH 6201.

MATH 4240. Real Analysis II. 3 Credits.

Continuation of MATH 4239. Topology of n-dimensional space, derivatives of functions of several variables, inverse and implicit function theorems, multiple integrals, generalized Stokes's theorem. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233; and MATH 4239 or MATH 4239W. Credit cannot be earned for this course and MATH 6202.

MATH 4981. Seminar: Topics in Mathematics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233.

MATH 4991. Special Topics. 1-12 Credits.

Permission of the instructor required prior to enrollment. May be repeated for credit.

MATH 4995. Reading and Research. 1-6 Credits.

Under the personal direction of an instructor. Limited to majors with demonstrated capability. May be repeated for credit. Restricted to permission from instructor.

MATH 5099. Variable Topics. 1-99 Credits.**MATH 6101. Algebra I. 3 Credits.**

Group theory including symmetric groups, free abelian groups, finitely generated abelian groups, group actions, Sylow theorems, solvable groups. Ring theory including factorization in commutative rings, rings of polynomials, chain conditions.

MATH 6102. Algebra II. 3 Credits.

Continuation of MATH 6101. Theory of modules, including modules over a principal ideal domain and tensor product of modules. Theory of fields, including finite fields and Galois theory.

MATH 6120. Topics in Algebra. 3 Credits.

Topics may include, but are not limited to, Lie groups and Lie algebras, non-associative algebras, abelian groups, classical groups, algebraic number theory, representation theory, algebraic geometry, and ring theory. May be repeated for credit with permission. Prerequisites: MATH 6101 and MATH 6102.

MATH 6201. Real Analysis I. 3 Credits.

A rigorous study of the real number system, metric spaces, topological spaces, product topology, convergence, continuity and differentiation. Topics include Dedekind's cuts, Tychonoff's theorem, sequences and series, Abel's theorem, continuity and differentiability of real-valued functions of a real variable. Credit may not be earned for both MATH 6201 and MATH 4239.

MATH 6202. Real Analysis II. 3 Credits.

Continuation of MATH 6201. Topics include Riemann-Stieltjes integrals, equicontinuity, Arzela-Ascoli theorem, Stone-Weierstrass theorem, derivatives of functions of several variables, contraction mapping theorem, inverse and implicit function theorems, differential forms, exterior differentiation, Stoke's theorem, differentiable manifolds. Credit may not be earned for both MATH 6202 and MATH 4240.

MATH 6214. Measure and Integration Theory. 3 Credits.

Lebesgue measure and integration in abstract spaces. Probability measures. Absolute continuity, the Radon-Nikodym theorem, measures on product spaces, and the Fubini theorem. LP spaces and their properties. Prerequisite: MATH 4239.

MATH 6215. Introduction to Functional Analysis. 3 Credits.

Topological and metric spaces; Tychonoff theorem; Banach spaces; linear functionals and operators; Hahn-Banach, closed graph, and open-mapping theorems; uniform boundedness; Hilbert spaces; eigenvalues, projections. Prerequisite: MATH 6214.

MATH 6225. Ergodic Theory. 3 Credits.

Ergodicity, mixing, the K-property and the Bernoulli property. Poincaré recurrence, the Rohlin lemma, the ergodic theorem, and entropy theory. Additional topics from isomorphism theory, spectral theory, the theory of joinings, and coding theory. Prerequisites: MATH 6214 or permission of the instructor.

MATH 6226. Dynamical Systems and Chaos. 3 Credits.

Linear and nonlinear systems, flows, Poincaré maps, structural stability. Examples of chaotic systems in the physical sciences. Local bifurcations, center manifold theory, normal forms, the averaging theorem. Hyperbolic invariant sets, strange attractors, the Smale horseshoe, symbolic dynamics. Prerequisites: MATH 2184 and MATH 4240; or permission of the instructor.

MATH 6230. Complex Analysis. 3 Credits.

Topology of the complex plane; complex differentiation and integration; Cauchy's theorem and its consequences; Taylor and Laurent series; classification of singularities; residue theory; conformal mapping; the Riemann mapping theorem. Prerequisite: MATH 4239.

MATH 6240. Topics in Real and Functional Analysis. 3 Credits.

Possible topics include Banach algebras, function algebras, spectral theory for bounded and unbounded operators, harmonic analysis on topological groups and semigroups, topological vector spaces and operator algebras. May be repeated for credit with permission. Prerequisites: Permission of the instructor.

MATH 6318. Applied Mathematics I. 3 Credits.

Boundary value problems in one dimension, first order equations, method of characteristics, shock waves, linear elliptic and evolution equations, calculus of variations. In addition to the specified prerequisites, students must have completed an undergraduate course in differential equations prior to enrollment. Prerequisites: MATH 2184 and Math 2233.

MATH 6319. Applied Mathematics II. 3 Credits.

Stability and bifurcation, perturbation methods, Sobolev spaces, wave equation, nonlinear partial differential equations. Students must have taken an undergraduate course in real analysis in addition to the specified prerequisites. Prerequisites: MATH 2184 and Math 2233.

MATH 6330. Ordinary Differential Equations. 3 Credits.

Existence and uniqueness of solutions, continuity and differentiability of solutions with respect to initial conditions. Properties of linear systems, phase portraits, planar systems and Poincaré-Bendixson theory. Prerequisite: MATH 4240.

MATH 6340. Modern Partial Differential Equations. 3 Credits.

Emphasis on modern theory and analytical techniques applied to the solution of partial differential equations. Topics include Sobolev spaces, generalized solutions, strong solutions and regularity; Sobolev imbedding theorem; Rellich-Kondrachov theorem; Leray-Schauder fixed-point theorems; nonlinear eigenvalue problems. Prerequisites: MATH 6319 or permission of the instructor.

MATH 6350. Topics in Applied Mathematics. 3 Credits.

Possible topics include, but are not limited to, the calculus of variations, control theory, nonlinear partial differential equations, and mathematical programming. May be repeated for credit with permission.

MATH 6441. Introduction to Financial Mathematics. 3 Credits.

Elementary finance. Basic probability. Discrete random variables. Forwards, futures, and options. Options and arbitrage. The binomial model. Cox-Ross-Rubenstein formula. Martingales. Continuous random variables. The continuous model as a limit of the binomial model. Prerequisites: MATH 2184 and MATH 2233.

MATH 6442. Stochastic Calculus Methods in Finance. 3 Credits.

Review of finance and probability theory. Brownian motion. Ito's formula. Martingales. Stochastic differential equations. The Black-Scholes equation. Optimal stopping. American options. Prerequisites: MATH 2184 and MATH 2233.

MATH 6522. Introduction to Numerical Analysis. 3 Credits.

Computer arithmetic and round-off errors. Solution of linear and nonlinear systems. Interpolation and approximations. Numerical differentiation and integration. Eigenvalues and eigenvectors. Prerequisite: MATH 1232 and MATH 2184 and knowledge of a programming language.

MATH 6523. Numerical Solution of Ordinary and Partial Differential Equations. 3 Credits.

Initial and boundary value problems for ordinary differential equations. Error propagation, convergence and stability. Finite difference and finite element methods for partial differential equations. Prerequisite: MATH 3342 and knowledge of a programming language.

MATH 6540. Topics in Numerical Analysis. 3 Credits.

Numerical methods and software. Introductions to the methods, tools, and ideas of numerical computation. Problem solving using standard mathematical software. Interpolation; linear and nonlinear equations. Differential equations. Prerequisites: MATH 3342 and knowledge of a programming language.

MATH 6610. Combinatorics. 3 Credits.

An introduction to fundamental methods and current research problems in partially ordered sets and enumeration. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

MATH 6620. Graph Theory. 3 Credits.

Graphical enumeration, factors, planarity and graph coloring, algebraic graph theory, extremal graph theory, applications. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

MATH 6630. Topics in Combinatorial Mathematics. 3 Credits.

Topics selected from a wide range of research subjects in combinatorics, its relations with other areas of mathematics, and applications. Recent selections have included matroid theory, topological methods in ordered sets, algebraic methods in combinatorics, fractional graph theory, combinatorics of polytopes, the symmetric group. May be repeated for credit with permission.

MATH 6710. Mathematical Logic. 3 Credits.

Model theory: the relation between a formal language (syntax) and its interpretations (semantics). Consistency, completeness, and compactness. Tarski's theorem on the inexpressibility of truth. Gödel's incompleteness theorem and its impact on mathematics.

MATH 6720. Topics in Logic. 3 Credits.

Topics selected from a broad spectrum of areas of logic and applications, based on students' suggestions and interests. Recent selections have included computable mathematics, computable model theory, computability theory, set theory, and algorithmic learning theory. May be repeated for credit with permission.

MATH 6810. General Topology. 3 Credits.

Topological spaces, bases and subbases, open sets and closed sets; continuous maps and homeomorphisms; connectedness and compactness; metric topology, product topology, and quotient topology; separation axioms; finite topological spaces, covering spaces, and fundamental groups.

MATH 6820. Algebraic Topology. 3 Credits.

Fundamental groups and the Van Kampen theorem; simplicial complexes, simplicial homology, and Euler characteristic; singular homology, Mayer-Vietoris sequences. Topics may include cohomology, cup products, and Poincaré duality; classification of surfaces; knots and their fundamental groups. Prerequisites: MATH 6810 or permission of the instructor.

MATH 6850. Knot Theory and Low Dimensional Topology. 3 Credits.

Introduction to fundamental methods and current research in knot theory and 3-dimensional topology. Topics include Reidemeister moves, Alexander invariants, Jones-type invariants, skein modules, Khovanov homology, incompressible surfaces, and torus decomposition. Prerequisites: MATH 6810 or permission of the instructor.

MATH 6860. Topics in Knot Theory and Low Dimensional Topology. 3 Credits.

Possible topics include, but are not limited to, topology of 3-manifolds and work of Perelman, quantum invariants and their categorizations, topology of 4-manifolds after Freedman and Donaldson, computational complexity in topology, and applications in biology, chemistry, and physics. May be repeated for credit with permission. Prerequisites: MATH 6850 or permission of the instructor.

MATH 6890. Topics in Topology. 3 Credits.

Topics may include hyperbolic structures on surfaces and 3-manifolds; knot theory; topology of 3-manifolds; topology of 4-manifolds. Prerequisite: MATH 6820 or permission of the instructor. May be repeated for credit with permission.

MATH 6991. Graduate Student Experience. 0 Credits.

Introduction to the experience of studying mathematics as a graduate student at GW. Understanding University rules and regulations, handling the literature in the subject, conducting research and delivering presentations, and pursuing a successful career as a mathematician. Restricted to graduate students in the department.

MATH 6995. Reading and Research. 12 Credits.

May be repeated for credit.

MATH 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

MECHANICAL AND AEROSPACE ENGINEERING (MAE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MAE 1001. Introduction to Mechanical and Aerospace Engineering. 1 Credit.

Careers in mechanical and aerospace engineering and the necessary academic program. Teamworking and problem-solving skills for solution of design problems. Analytical and design problems and correlations between academic skills and the mechanical and aerospace engineering professions. Basic aspects of engineering ethics. (Fall).

MAE 1004. Engineering Drawing and Computer Graphics. 3 Credits.

Introduction to technical drawing, including use of instruments, lettering, geometric construction, sketching, orthographic projection, section view, dimensioning, tolerancing, and pictorial drawing. Introduction to computer graphics, including topics covered in manual drawing and computer-aided drafting. (Fall and spring).

MAE 1099. Variable Topics. 1-36 Credits.

MAE 1117. Introduction to Engineering Computations. 3 Credits.

Foundations of computational thinking focusing on data practices and computational problem-solving; handling data programmatically, variables and their type, logical operations; reading data from files and cleaning and organizing text data; handling multi-dimensional arrays; basic plotting; linear regression; exploratory data analysis, handling labeled data, and data visualization. (Spring, Every Year).

MAE 2117. Engineering Computations. 3 Credits.

Computational thinking: modeling and simulation practices. Numerical derivatives. Initial-value problems. Solving differential equations, direction fields, the phase plane. Geometry of linear algebra; eigenvalues and eigenvectors. Fourier analysis. Prerequisites: MAE 1117 and MATH 1232. (Fall, Every Year).

MAE 2131. Thermodynamics. 3 Credits.

Fundamentals of equilibrium thermodynamics; Zeroth, First, and Second Laws. Work, heat, internal energy, enthalpy, thermodynamic potential functions; heat transfer mechanisms, phase diagrams, equations of state and property tables, power systems, refrigeration, heat pump systems. Reversible and irreversible processes, Carnot cycle, entropy, exergy. Prerequisite: PHYS 1021. (Spring, Every Year).

MAE 2170. History and Impact of the U.S. Patent System. 3 Credits.

Economic systems and emergence of the free market; role of the patent system in the industrial development of the United States; constitutional foundations; evolution of the U.S. patent system; landmark litigation; impact on future innovation; international aspects; the likely future of the patent system.

MAE 3120. Methods of Engineering Experimentation. 3 Credits.

Acquisition and analysis of experimental data. Laws of modeling and simulation. Report formulation and presentation. Basic principles of measuring instruments and sensors. Fundamentals of digital data acquisition and use of computer-based data systems. Strain gages, oscilloscopes, transducers, and computerized data systems. Prerequisite: MAE 2117.

MAE 3126. Fluid Mechanics I. 3 Credits.

Fluid properties, fluid statics, integral and differential formulations of conservation of mass, momentum, and energy. Bernoulli's equation. Dimensional analysis and similitude. Inviscid flow. Viscous flow. Experimental and computational methods in fluid mechanics. Prerequisite: APSC 2058. (Fall, Every Year).

MAE 3127. Fluid Mechanics Lab. 1 Credit.

Measurement and analysis of the behavior of fluids. Hydrostatic pressure, Bernoulli equation, conservation of momentum, pipe flow and open channel flow Comparison of experimental data with computational simulations. Prerequisites: APSC 2058. Corequisites: MAE 3126. (Fall, Every Year).

MAE 3128. Biomechanics I. 3 Credits.

Mechanical analysis of biological systems. Characterization of living tissue. Applications of statics, solid mechanics, kinematics, and elementary dynamics to the human musculoskeletal system. May be taken for graduate credit with permission of the department. Prerequisites: APSC 2057 and CE 2220. (Spring, Every Year).

MAE 3134. Linear System Dynamics. 3 Credits.

Modeling of linear mechanical, electrical, and fluid systems as transfer functions and in state space. Linearization, discretization. Laplace and z-transforms. Natural frequencies and damping, free vibration, forced vibration. Measurement techniques, parameter estimation, and computer simulation. Time and frequency domain analysis. Corequisite: APSC 2058. Prerequisite: APSC 2113. (Spring, Every Year).

MAE 3145. Orbital Mechanics and Spacecraft Dynamics. 3 Credits.

Coordinate systems and transformations, rocket equation, two-body problem, orbit transfers, orbit perturbations, attitude dynamics and stability of symmetric spacecraft, environmental and control torques. Prerequisite: APSC 2058. (Fall).

MAE 3155. Aerodynamics. 3 Credits.

Subsonic and supersonic aerodynamics: potential flow, lift and form drag, viscous effects, compressible flow. Prerequisite: MAE 3126.

MAE 3162. Aerospace Structures. 3 Credits.

Basic structural theory of lightweight aerospace structures; analysis of typical monocoque structures; load transfer in stiffened panel structures; virtual work and energy methods of structural analysis, bending of open and closed, thin walled beams, shear and torsion of beams, and structural idealization. Restricted to juniors and seniors; permission of the instructor may be substituted. Prerequisites: APSC 2057 and CE 2220. (Fall, Every Year).

MAE 3166W. Materials Science and Engineering. 3 Credits.

Mechanical properties, plastic deformation, dislocation, yielding, strengthening mechanisms, microstructure and properties, heat treatment steel, composites, amorphous materials, viscoelastic deformation, creep, fracture, fatigue, crack propagation. Prerequisites: CHEM 1111 and PHYS 1022. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

MAE 3167W. Mechanics of Materials Lab. 1 Credit.

Measurement of strains and study of failure resulting from applied forces in ductile, brittle, anisotropic, elastomeric, plastic, and composite materials. Tension, compression, bending, impact, and shear failures. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. MAE 3166W may be taken as a corequisite. Prerequisite: MAE 3166W. (Spring, Every Year).

MAE 3171. Patent Law for Engineers. 3 Credits.

Types of patents; international patents; inventorship; prosecution process; basic references for patents; detailed structure of a patent; patentability requirements; reexamination and reissue; litigation; infringement and invalidity; copyrights, trademarks, and trade dress. May be taken for graduate credit with approval of department. (Spring).

MAE 3184. Robotics Lab. 1 Credit.

Forward and inverse kinematics modeling of robots, control design, trajectory planning, and force rendering. Corequisite: MAE 3197.

MAE 3187. Heat Transfer. 3 Credits.

Steady- and unsteady-state heat conduction problems. Analytical and numerical solution methods. Convective heat transfer, boundary-layer approach, analogy between heat and momentum transfer. Thermal radiation; fundamental concepts and laws. Heat-exchanger design. Prerequisites: MAE 2131 and MAE 3126. (Spring, Every Year).

MAE 3191. Mechanical Design of Machine Elements. 3 Credits.

Strength of materials in a design context; stresses and deflections in engineering structures; theories of failure; design of mechanical components, such as fasteners, shafts, and springs; the use of computers in mechanical engineering design. Prerequisite: CE 2220. (Fall, Every Year).

MAE 3192. Manufacturing Processes and Systems. 3 Credits.

Introduction to manufacturing techniques for metals, polymers, ceramics, and composites. Relationships between properties of materials and techniques for processing them. Process selection, design, control, and integration. Computer-integrated manufacturing, robotics and assembly automation. MAE 1004 may be taken as a corequisite. Prerequisites: MAE 1004. (Fall, Every Year).

MAE 3193. Mechanical Systems Design. 3 Credits.

Creative engineering design, problem definition, and concept generation; design of mechanisms and mechanical systems; safety, reliability, manufacturability, material selections, cost, and integration in the design process; finite element analysis of mechanical systems, computer-aided design, and optimization. Prerequisite: MAE 3191. (Spring, Every Year).

MAE 3197. Robotic Systems Design and Applications. 3 Credits.

Modeling and analysis of robot designs. Kinematics, statics, and dynamics of linkages. Design and selection of mechanical structures, actuators, transmissions, and sensors. Design of robotic control systems. Relevant computer hardware and software. Industrial applications and limitations of robot systems. Lab experiments. Same as ECE 4730. Prerequisite: MAE 3134.

MAE 4129. Biomechanics II. 3 Credits.

Mechanical analysis of physiological fluid dynamics. Application of fluid flow analysis techniques to cardiovascular, pulmonary, respiratory, and phonatory flows. Introduction to biomedical devices that manipulate physiological flows. May be taken for graduate credit with approval of department. Prerequisite: MAE 3128.

MAE 4149. Thermal Systems Design. 3 Credits.

Completion of a thermal systems design project that requires integration of engineering science, economics, reliability, safety, ethics, professional responsibility, and social considerations. Development and use of design methodology, optimization, feasibility considerations, detailed system descriptions, and presentation of results. Prerequisites: MAE 3187. (Fall, Every Year).

MAE 4151. Capstone Design Project I. 1 Credit.

First in a two-course sequence. Students define objectives and an approach for a mechanical engineering project involving experimentation and apply mechanical engineering design, engineering, and laboratory skills in team project implementation. Prerequisites: MAE 3193. (Fall, Every Year).

MAE 4152W. Capstone Design Project II. 3 Credits.

Continuation of MAE 4151. Students define objectives and an approach for a mechanical engineering project involving experimentation and apply mechanical engineering design, engineering, and laboratory skills in team project implementation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Spring, Every Year).

MAE 4157. Aerodynamics Laboratory. 1 Credit.

Subsonic and supersonic wind tunnel experiments and simulations. Prerequisite: MAE 3155. (Fall).

MAE 4163. Airplane Performance. 3 Credits.

Lift and drag estimation methods. Airplane performance measures, such as range and endurance, turning flight, specific excess power and acceleration, takeoff and landing performance. Longitudinal and lateral-direction static and dynamic stability. Control surface effectiveness. Prerequisites: MAE 3126. (Fall, Every Year).

MAE 4168. Introduction to Biomaterials. 3 Credits.

Fundamentals of materials science and engineering applied to artificial materials in the human body. Biocompatibility, techniques to minimize corrosion or other degradation of implant materials, use of artificial materials in tissues and organs. Restricted to students who are not enrolled in the mechanical engineering program. Prerequisites: departmental permission. (Fall, Every Year).

MAE 4172. Engineering Design and the Patent System. 3 Credits.

Design experience in group projects involving following precisely the teachings of a licensed patent; or avoiding infringement of a provided patent while offering a competitive alternative; or evaluating a provided patent in light of prior art or by attempting to design a competitive product. May be taken for graduate credit with approval of department. Prerequisites: MAE 3171 and senior status. (Spring, Every Year).

MAE 4182. Electromechanical Control System Design. 3 Credits.

Application of control theory to the design of electromechanical systems. Transducers, valves, and other control components. Mathematical models of open- and closed-loop electromechanical systems. Root locus and frequency response methods; application to the synthesis of feedback systems by both manual and computer-aided techniques. Prerequisites: MAE 2117 and MAE 3134. (Fall and spring, Every Year).

MAE 4183. Controls Lab. 1 Credit.

Modeling, control design, simulation, implementation, tuning, and operation of a control system. Corequisite: MAE 4182.

MAE 4194. Mechatronics Design. 3 Credits.

Data acquisition and digital signal processing. Sensors and their characteristics—displacement, position/velocity, force/pressure, piezoelectric. Actuators—mechanical, electrical, pneumatic, hydraulic. Modeling and simulation of dynamic systems. Mechanism design. Digital control systems. Microprocessors, digital logic/circuits, motor drives. Lab experiments. Prerequisite: MAE 4182.

MAE 4195. Mechatronics Lab. 0 Credits.

Designing and building a mechatronic system based around a programmable microcontroller; using sensors and actuators to create devices capable of sensing their surrounding environment and reacting to stimuli from that environment. Corequisites: MAE 6194 for students enrolled in MAE 6195, MAE 4194 for student enrolled in MAE 4195. (Spring, Every Year) Same As: MAE 6195.

MAE 4198. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Restricted to juniors and seniors. (Fall and spring, Every Year).

MAE 4199. Student Design Project. 1-3 Credits.

Student projects involving extensive design of various mechanical engineering systems. May be taken for graduate credit with the expectation that additional work is required. Prerequisites: seniors. (Fall and spring, Every Year).

MAE 5099. Variable Topics. 1-99 Credits.**MAE 6194. Mechatronics Design. 3 Credits.**

Review of data acquisition and digital signal processing; mathematical models, design, and applications of sensors and actuators in mechatronic systems; theory and applications of mechanism design; microprocessor-based design integration, motor drives, and digital logic/circuits. Corequisite: MAE 6195. Restricted to graduate students. (Same as MAE 4194) (Spring, Every Year).

MAE 6195. Mechatronics Lab. 0 Credits.

Designing and building a mechatronic system based around a programmable microcontroller; using sensors and actuators to create devices capable of sensing their surrounding environment and reacting to stimuli from that environment. Corequisites: MAE 6194 for students enrolled in MAE 6195, MAE 4194 for student enrolled in MAE 4195. (Spring, Every Year) Same As: MAE 4195.

MAE 6204. Tissue Engineering. 3 Credits.**MAE 6207. Theory of Elasticity I. 3 Credits.**

Introduction to Cartesian tensors; deformation, stress, constitutive relations for linear elasticity; formulation of boundary value problems, variational principles, torsion and bending of prismatic rods, plane problems. Permission of the department required prior to enrollment. (Fall, Every Year) Same As: CE 6207.

MAE 6210. Continuum Mechanics. 3 Credits.

Tensor analysis; fundamental concepts of continuum mechanics; kinematics of continuum; derivation of balance laws of mass, linear momentum, angular momentum, energy and entropy; axioms of constitutive theory; formulation of constitutive theories; Onsager's principle; objectivity; representation theorem for isotropic functions; plasticity, including concepts of internal variables, yield surface, return mapping algorithm. Permission of the department required prior to enrollment. (Fall, Every Year).

MAE 6220. Applied Computational Fluid Dynamics. 3 Credits.

Basic principles of fluid dynamics and aerodynamics. Finite difference and finite volume methods. Fluid flow and heat transfer analysis of thermo-fluid mechanical systems. Computational aerodynamics codes. Individual hands-on experience with a commercial CFD code such as FLUENT. Permission of the department required prior to enrollment. (Fall and spring, Every Year).

MAE 6221. Fluid Mechanics. 3 Credits.

Continuum, kinematics of fluids; stress and strain rate tensors; fundamental equations of viscous compressible flows. Irrotational flows; sources, sinks, doublets, and vortices. Laminar flow of viscous incompressible fluids; boundary-layer concept. Permission of the department required prior to enrollment. (Fall, Every Year).

MAE 6223. Turbomachinery. 3 Credits.

Turbine, compressor, and pump types and uses; dimensional analysis of turbomachines; cycle analysis of gas and steam turbines; energy interchange in fluid machinery; design, characteristics, and performance of turbines, compressors, and pumps; comparison of types of turbines, compressors, and pumps. Prerequisite: MAE 6221.

MAE 6224. Viscous Flow. 3 Credits.

Exact solutions of Navier-Stokes equations; the laminar boundary-layer theory. Reynolds stresses and turbulence; internal, boundary-layer, and mixing flows. Applications to heat and mass transfer and to reacting flows. Prerequisites: APSC 6213 and MAE 6221. (Fall and spring, Every Year).

MAE 6225. Computational Fluid Dynamics. 3 Credits.

Theory of discrete methods for solving the governing equations of fluid dynamics. Potential flow, Euler equations, Navier-Stokes equations. Emphasis on algorithm development appropriate to modern supercomputers. Prerequisites: MAE 6221 and MAE 6286. (Fall and spring, Every Year).

MAE 6226. Aero- and Hydrodynamics. 3 Credits.

Inviscid flows in two and three dimensions and irrotational flow theory; conformal mapping and applications. Helmholtz theorems and vorticity dynamics. Applications such as airfoil theory, finite wing theory, panel methods, instabilities, free surface flow. Prerequisite: MAE 6221. (Fall and spring, Every Year).

MAE 6228. Compressible Flow. 3 Credits.

Thermodynamics and equations of compressible inviscid flow. One-dimensional flow. Isentropic flow. Normal and oblique shock waves. Quasi-one-dimensional flow. Unsteady one-dimensional and steady two-dimensional flow. Introduction to transonic flow. Prerequisites: APSC 6213 and MAE 6221. (As arranged, odd years).

MAE 6229. Propulsion. 3 Credits.

Basic concepts of propulsion: energy transformations in propulsive flows, gas dynamics of combustion. Thermal and propulsive efficiencies. Cycle and engine component analysis. Intake, nozzle performance. Drag and thrust generation. Augmentation. Propellers, turbojets, turbofans, ramjets, and rockets. Prerequisites: Graduate standing; or MAE 2131 and MAE 3126. (Spring, Every Year).

MAE 6230. Space Propulsion. 3 Credits.

Advanced chemical propulsion: dynamic combustion and instabilities in solid propellants. Injection, atomization, mixing in liquid propellant engine performance. Plasma propulsion: electrostatic, electromagnetic, and electrothermal instabilities (laser and microwave). Nuclear propulsion. Prerequisite: MAE 6229.

MAE 6232. Fracture Mechanics. 3 Credits.

Concepts, history, and recent developments of fracture mechanics. Singularity at the crack tip; solutions around crack tip; stress intensity factors; energy release rate; J-integral; direction of crack extension; Plasticity and slow crack growth; dynamic crack propagation; molecular dynamics simulation of fracture. Prerequisite: approval of department.

MAE 6234. Composite Materials. 3 Credits.

Principles of composites and composite reinforcement. Micromechanics and failure, interface reactions in various composites, reinforcing materials. Structure of composites: fiber-reinforced polymers, filler-reinforced polymers, fiber-reinforced metals, directionally solidified alloys, dispersion-strengthened metals. Permission of the department required prior to enrollment. (Fall and spring, Every Year).

MAE 6235. Deformation and Failure of Materials. 3 Credits.

Elastic and plastic deformation, yield, dislocation theory, strengthening mechanisms, creep, polymers, fracture, transition temperature, microstructure, fatigue. (Spring, odd years).

MAE 6238. Biomaterials. 3 Credits.

Applications of materials science and engineering to artificial materials in the human body with the objective of detailed understanding of synthetic materials and biopolymers. Biocompatibility and its consequences on tissue-implant interfaces. Design and development of new implant materials, drug delivery systems, and biosensors. Prerequisite: MAE 3166 or MAE 4168.

MAE 6239. Computational Nanosciences. 3 Credits.

Introduction to surface force measurements in nanosciences; continuum contact mechanics in nanoscience research; intermolecular forces; empirical potentials for transition metals; surface forces in liquids; large-scale atomic/molecular massively parallel simulator; force field development from quantum mechanical density-functional theory for organic/metal molecular systems. Prerequisites: departmental permission. (Fall, Every Year).

MAE 6243. Advanced Mechanical Engineering Design. 3 Credits.

Design of mechanical engineering components and systems emphasizing computer-aided engineering (CAE), including interactive computer graphics, finite element analysis, and design optimization. Creation of a complete design on an engineering workstation. Prerequisites: departmental permission. (Fall, Every Year).

MAE 6245. Robotic Systems. 3 Credits.

Classification, features, and applications of industrial robots. Spatial descriptions and transformations, forward and inverse kinematics. Jacobian matrix, velocities and static forces, manipulator dynamics and controls. Robot actuators, transmissions, sensors, end effectors, and programming. Prerequisite: MAE 4182 .

MAE 6246. Electromechanical Control Systems. 3 Credits.

State-space representations of dynamic systems; dynamics of linear systems; controllability and observability; linear observers; compensator design by separation principle; linear-quadratic optimal control; Riccati equations; random processes; Kalman filter; applications of optimal stochastic control theory to robotics and earthquake engineering. Prerequisites: departmental permission. (Fall, Every Year).

MAE 6247. Aircraft Design I. 3 Credits.

Conceptual design methods used in response to prescribed mission and performance requirements, alternate configuration concepts. Configuration general arrangement and empennage sizing. Estimation of aircraft size, weight, and balance; lift, thrust and drag; system level tradeoff and sensitivity studies. Prerequisites: Graduate standing or MAE 4163. (Spring, Every Year).

MAE 6249. Spacecraft Design. 3 Credits.

Computer-aided design of spacecraft and satellites to meet specific mission requirements. Environment, propulsion, structure, heat transfer, orbital mechanics, control considerations. Use of modern computer codes for design studies. Prerequisites: MAE 3145 or graduate standing. (Spring, Every Year).

MAE 6251. Computer-Integrated Manufacturing. 3 Credits.

Automation techniques for processing metals, polymers, and composites. Use of sensing and process modeling in process control. Numerical control and robot applications and limitations. Integration, scheduling, and tool management in the computer-integrated factory. Quality control. Social and economic considerations in CIM. Prerequisite: MAE 3192 .

MAE 6254. Applied Nonlinear Control. 3 Credits.

Dynamic characteristics of nonlinear systems. State stability and input-output stability. Lyapunov stability theory and invariance principle. Nonlinear control systems, including feedback linearization, back-stepping, sliding mode control, and passivity-based design. Applications to robotics, aircraft, and spacecraft control systems. Geometric controls and hybrid systems. Prerequisites: departmental permission. (As arranged, Every Year).

MAE 6255. Plasma Engineering in Aerospace and Nanotechnology. 3 Credits.

Plasma fundamentals, electromagnetic waves in plasma, plasma-wall interactions, modeling and experimental techniques in plasmas, electrical discharge, plasma propulsion, plasma-based nanotechnology. Prerequisite: MAE 3126. (Fall, Every Year).

MAE 6257. Theory of Vibration. 3 Credits.

Damped and undamped natural vibration, response of single- and multiple-degrees-of-freedom systems to steady-state and transient excitations, modal analysis, nonproportional damping and complex modes, variation formulation of equations of motion, discretization of structural systems for vibrational analysis. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 6258. Advanced Vibration Analysis and Control. 3 Credits.

Passive and active vibration control of discrete and continuous systems, dynamic vibration absorbers, random vibrations, failure analysis, modal analysis, nonlinear vibrations. Prerequisites: MAE 3134 and MAE 4182 or graduate standing. (Spring).

MAE 6260. Nanomechanics. 3 Credits.

Introduction to crystallography; interatomic potentials; phonon dispersion relations; molecular dynamics simulation; Nose-Hoover thermostat; coarse grained non-equilibrium molecular dynamics; multiple length/time scale theory of multi-physics; microcontinuum field theories; applications to nano materials/structures. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 6261. Air Pollution. 3 Credits.

Introductory course on the generation, monitoring, and control of air pollution. Atmospheric pollutants; current levels and health problems. Combustion chemistry and mixing. Photochemical processes; smog and measurements. Atmospheric dispersion; inversion and acid rain. Permission of the department required prior to enrollment. (Fall and spring, Every Year).

MAE 6262. Energy Systems Analysis. 3 Credits.

Analysis of energy resources and conversion devices. Statistical data analysis, forecasting, I/O, and net energy analyses, mathematical modeling. Prerequisites: departmental permission. (Fall, Every Year).

MAE 6263. Energy and Sustainability. 3 Credits.

Review of thermodynamics, heat transfer, fluid dynamics, and materials technology used in the energy industries. New energy-efficient technologies in transportation and buildings; renewable energy (wind, solar, and biomass). Climate change and sustainability issues, such as carbon capture, cap and trade, carbon sequestration. (Spring, Every Year).

MAE 6270. Theoretical Acoustics. 3 Credits.

Basic acoustic theory in stationary and uniformly moving media; waves in infinite space; sound transmission through interfaces; sound radiation from simple solid boundaries, source and dipole fields; propagation in ducts and enclosures; elements of classical absorption of sound. Prerequisites: APSC 6213 and MAE 6221. (Fall and spring, Every Year).

MAE 6274. Dynamics and Control of Spacecraft. 3 Credits.

Fundamentals of satellite attitude dynamics and passive stabilization. Spacecraft attitude representation, rotational kinematics and kinetics. External torques. Dynamics of gyroscopes. Gravity gradient stabilization. Effect of internal energy dissipation on stability of spinning bodies and methods of despin. Dual spin satellites. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 6275. Dynamics and Control of Aircraft. 3 Credits.

Derivation of equations of motion, Euler transformations and direction cosines, stability derivatives and linearization of equations of motion, stability of linear systems with application to longitudinal and lateral dynamics, Laplace transform techniques, and frequency-response analysis. Permission of the department required prior to enrollment. (Fall, even years).

MAE 6277. Spacecraft Attitude Control. 3 Credits.

Control of spinning and three-axis stabilized spacecraft. Elements of linear control theory for single-input, single-output systems and basic feedback control laws. Momentum management and actuator desaturation. Sensors for attitude determination. Application of modern control for multi-input, multi-output systems. Control system simulations using MatLab. (As arranged).

MAE 6280. Thermodynamics. 3 Credits.

Review of first and second laws of thermodynamics and combining the two through exergy; entropy generation minimization and applications. Single phase systems, exergy analyses, multiphase systems, phase diagrams and the corresponding states principle. Permission of the department is required prior to enrollment. (Fall, Every Year).

MAE 6282. Convective Heat/Mass Transfer. 3 Credits.

Heat and momentum transfer in laminar and turbulent flow. The laminar boundary-layer solution. Similarity and nondimensional parameters. Mass-momentum heat transfer analogy. Convective heat transfer at high velocity. Stability, transition, and turbulence. Free convection. Prerequisite: MAE 6221 .

MAE 6284. Combustion. 3 Credits.

Basic combustion phenomena. Rate processes and chemical kinetics. Chain reaction theory. Detonation, deflagration, diffusion flames, heterogeneous combustion. Experimental measurements. Impact of pollution regulations and alternate fuels. Permission of the department required prior to enrollment. (Fall, odd years).

MAE 6286. Numerical Solution Techniques in Mechanical and Aerospace Engineering. 3 Credits.

Development of finite difference and finite element techniques for solving elliptic, parabolic, and hyperbolic partial differential equations. (Fall, Every Year).

MAE 6287. Applied Finite Element Methods. 3 Credits.

Review of theory of elasticity. Basic aspects of theory and application of finite element methods. Utilization of MSC/NASTRAN for static, dynamic, linear, and nonlinear analyses of problems in mechanical, aeronautical, and astronautical engineering. Course emphasizes individual hands-on experience with the MSC/NASTRAN code. Permission of the department required prior to enrollment. (Fall and spring, Every Year).

MAE 6288. Advanced Finite Element Analysis. 3 Credits.

Review of variational formulation of the finite element method. Finite element analysis of large-strain thermomechanics. Applications to static and dynamic problems in finite elasticity, Fung elasticity (biomechanics), nonlocal theory, active stress in living biological tissues, biological growth, and large-strain plasticity. Recent developments in finite element methods. Permission of the department required prior to enrollment. (Fall and spring, Every Year) Credit cannot be earned for this course and CE 8330.

MAE 6291. Special Topics in Mechanical Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include tribology, power systems design, solar heating systems, HVAC, and plasticity theory. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 6292. Special Topics in Aerospace Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include environmental noise control, aeroacoustics, hypersonic flow, and flight vehicle aerodynamics. May be repeated for credit. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 6298. Research. 1-6 Credits.

Basic research projects as arranged. May be repeated for credit.

MAE 6998. MS Thesis Research. 3 Credits.

. (Fall and spring, Every Year).

MAE 6999. MS Thesis Research. 3 Credits.

. (Fall and spring, Every Year).

MAE 8350. Advanced Topics in Materials Science. 3 Credits.

Topics such as surface science that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 8351. Advanced Topics in Mechanical Engineering. 3 Credits.

Topics such as advanced analytical mechanics, advanced mechanics of continua, and advanced theory of elasticity that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 8352. Advanced Topics in Aerospace Engineering. 3 Credits.

Topics such as nonsteady flow, physical gas dynamics, turbulence, and nonlinear wave propagation that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: Permission of the department. (Fall and spring, Every Year).

MAE 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination. (Fall and spring, Every Year).

MAE 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates. (Fall and spring, Every Year).

MEDICAL LABORATORY SCIENCE (MLS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MLS 0190. Blood Banking Exam Review. 0 Credits.

Review of professional knowledge in all areas of blood banking.

MLS 1101. Introduction to Laboratory Medicine I. 4 Credits.

The first in a two-course sequence. Introduction to laboratory medicine, including quality assurance and quality control, laboratory safety, specimen collection, laboratory math, basic hematology, urinalysis, and clinical chemistry. Restricted to Students in SMHS. Prerequisites: HSCI 1101, HSCI 1102 and HSCI 1103.

MLS 1102. Introduction to Laboratory Medicine II. 4 Credits.

The second in a two-course sequence. Introduction to the clinical laboratory; immunology, basic microbiology and infectious disease testing, blood banking and transfusion services, molecular diagnostics, and professionalism in the clinical laboratory. Restricted to Students in SMHS. Prerequisite: MLS 1101.

MLS 2000. Biology for Health Sciences. 3 Credits.

This course covers key concepts in biology with an emphasis on the similarities and differences between organisms and how they interact with their environment and with each other.

MLS 2001. Chemistry for Health Sciences. 3 Credits.

An introduction to basic concepts in general, organic and biological chemistry, including the nature of matter, chemical reactions, stoichiometry, solutions, and the chemistry of biomolecules.

MLS 2005. Plagues, Pandemics, and Epidemics. 3 Credits.

The biological, historical, ethical, and social implications of various diseases that have caused plagues, pandemics, and epidemics.

MLS 3000. Clinical Laboratory Mathematics. 3 Credits.

Basic mathematical techniques used in the clinical laboratory, including exponential and logarithms, measurement systems, solutions and concentrations, proportionality, graphing, statistics and quality control, and method evaluation; practical applications of data analysis. An equivalent college-level mathematics course or permission of the program director may be substituted for the prerequisite. Restricted to students in the medical laboratory science program. Prerequisite: HSCI 2117.

MLS 3001. Professional Ethics for Medical Laboratory Scientists. 3 Credits.

Ethical and professional conduct of and dilemmas encountered by medical laboratory professionals. Restricted to students in the medical laboratory science program.

MLS 3001W. Professional Ethics for Medical Laboratory Scientists. 3 Credits.

Ethical and professional conduct of and dilemmas encountered by medical laboratory professionals. Restricted to students in the medical laboratory science programs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

MLS 3003. Biochemistry for Laboratory Science. 3 Credits.

Concepts and principles of biochemistry applicable to laboratory science; structure and function of biological molecules, cellular energetics, and cellular metabolism in relation to human physiology and health. Prerequisites: BISC 1111, CHEM 1111, and CHEM 1112.

MLS 4106. Urogenital System Cytology. 2 Credits.**MLS 4115. Parasitology and Mycology. 1 Credit.**

Principles and procedures involved in the diagnosis of parasitic and fungal infections; disease causation, specimen collection and handling, laboratory identification, and treatment of medically significant fungi and parasites. Proctor fee.

MLS 4116. Clinical Bacteriology I. 3 Credits.

Principles of clinical microbiology with emphasis on pathogenic characteristics, isolation, and identification of bacteria related to human disease; theoretical approach to the current diagnostic techniques and identification systems used in clinical practice. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111.

MLS 4117. Clinical Bacteriology II. 2 Credits.

The etiology of infectious diseases in different body sites with an emphasis on the epidemiology, pathogenic mechanisms, and laboratory identification of suspected etiologic agents; specimen collection and handling, diagnosis and treatment of medically significant bacteria. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111.

MLS 4119. Parasitology, Mycology, and Virology. 2 Credits.

Principles and procedures involved in the diagnosis of parasitic, fungal, and viral infections; disease causation, specimen collection and handling, laboratory identification and treatment of medically significant fungi, parasites, and viruses. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1112; or BISC 1116 and BISC 1126.

MLS 4121. Applied Microbiology. 4 Credits.

Physiology, metabolism and pathogenesis of medically important bacteria with an emphasis on their isolation and identification in the clinical microbiology laboratory. Restricted to students enrolled in the undergraduate certificate in clinical microbiology program or with the permission of the instructor. Prerequisites: BISC 1116 and BISC 1126.

MLS 4123. Clinical Microbiology I. 3 Credits.

Principles of clinical microbiology with emphasis on pathogenic characteristics, isolation, and identification of bacteria and viruses related to human disease; theoretical approach to the current diagnostic techniques and identification systems used in clinical practice; disease causation, specimen collection and handling, laboratory identification, and treatment of medically significant bacteria and viruses. For prerequisites BISC 1115/ BISC 1125 an equivalent biology course and for HSCI 3106 an equivalent general microbiology course may be substituted at the instructor's discretion. Proctor fee. Recommended background: BISC 1111 and HSCI 3106.

MLS 4124. Clinical Microbiology II. 2 Credits.**MLS 4128. Hematology I. 2 Credits.**

Blood and blood-forming tissues with emphasis on hematologic techniques and cell identification; anemias and non-malignant leukocyte disorders are also presented. Proctor fee.

MLS 4129. Hematology II. 2 Credits.

Some of the more common hematologic disorders with emphasis on the laboratory diagnosis of these disorders; disorders of the hemostasis system. Proctor fee.

MLS 4130. Hematology I. 3 Credits.

Study of the blood and blood-forming tissues with emphasis on hematologic techniques and cell identification; anemias and non-malignant leukocyte disorders. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111.

MLS 4131. Hematology II. 3 Credits.

Study of the blood and blood-forming tissues with emphasis on white blood cell disorders; introduction to the hemostatic system and associated coagulation disorders. Restricted to students in the medical laboratory science program. Prerequisites: MLS 4130.

MLS 4136. Clinical Experience I. 2 Credits.

Supervised clinical experience in clinical chemistry. Proctor fee.

MLS 4137. Clinical Experience II. 2 Credits.

Supervised clinical experience in microbiology. Proctor fee.

MLS 4138. Clinical Experience III. 2 Credits.

Supervised clinical experience in hematology, coagulation and urinalysis. Proctor fee.

MLS 4139. Clinical Experience IV. 2 Credits.

Supervised clinical experience in transfusion medicine and serology. Proctor fee.

MLS 4141. Immunology and Serology. 3 Credits.

Principles of the immune system's components, functions, interactions with microorganisms, and the clinical applications of immunologic assays to human health and disease.

MLS 4145. Clinical Biochemistry I. 3 Credits.

This course studies the methodologies employed in the chemical analysis of human blood and body fluids. This includes an examination of the fundamentals of measurement and the principles of instrumentation as they relate to the assay of each analyte studied. In addition, the laboratory results are correlated with the clinical significance and pathophysiology which may generate changes in the analyte. Throughout the course, the quality assurance measures required to ensure reliability and validity of the laboratory results are also emphasized. [add to end of description: Proctor fee.

MLS 4146. Clinical Biochemistry II. 3 Credits.

This second course in clinical biochemistry continues the study of the measurement and interpretation of chemical constituents in human blood and body fluids. The laboratory results of each analyte are correlated with the clinical significance and pathophysiology which may generate changes in the analyte. Throughout the course, the quality assurance measures required to ensure reliability and validity of the laboratory results are also emphasized.

MLS 4150. Immunohematology. 3 Credits.

The major blood group systems that affect the practice of transfusion medicine and examines the processing and distribution of blood products supplied by transfusion services. Proctor fee.

MLS 4151. Molecular Diagnostics. 3 Credits.

Introduction to the molecular techniques used to diagnose human disease; technology, theory, and methodology of specific molecular protocols that can be used within a clinical laboratory setting to aid in disease diagnostics including those of genetic, oncogenic, and infections origin. Proctor fee.

MLS 4158. Laboratory Management and Operations. 3 Credits.

Introduction to critical concepts of lab management, including leadership theory, management principles, human resource management, financial management, quality management, and laboratory operations. Proctor fee.

MLS 4159. Capstone Seminar. 1 Credit.

Comprehensive review of medical laboratory science, which prepares students to sit for the board of certification examination. Integration of knowledge gained in didactic and practicum courses within the various laboratory disciplines, including hematology, microbiology, chemistry, and immunohematology. Proctor fee.

MLS 4160. Blood Bank Practicum. 4 Credits.

Clinical practicum in which students apply medical knowledge and clinical skills gained in MLS 4150. Prerequisites: MLS 4150.

MLS 4161. Clinical Biochemistry Practicum. 4 Credits.

Application of the medical knowledge and clinical skills gained in the didactic clinical biochemistry I and clinical biochemistry II courses. Proctor fee.

MLS 4162. Hematology Practicum. 2 Credits.

Analyses and laboratory testing of human blood specimens.

MLS 4163. Immunology and Serology Practicum. 1 Credit.

Supplemental, hands-on clinical experience applying medical knowledge and clinical skills gained in the didactic Immunology and serology course. For students who need to meet additional requirements for state licensure as a medical laboratory professional. Restricted to students in the medical laboratory science program.

MLS 4164. Clinical Microbiology Practicum. 4 Credits.

Students apply medical knowledge and clinical skills gained in MLS 4123 (Clinical Microbiology I), MLS 4124 (Clinical Microbiology II), and MLS 4151 (Molecular Diagnostics). Proctor fee.

MLS 4165. Urinalysis Practicum. 1 Credit.

Active engagement in applying medical knowledge and clinical skills in the analysis of urine and body fluids.

MLS 4166. Coagulation Practicum. 1 Credit.

One-week required rotation for students in the Bachelor of Science in Health Science in Medical Laboratory Science (MLS), Post-baccalaureate MLS, or Post-baccalaureated in Hematology for MLS certificate programs. Focus on analyses and laboratory testing of human blood specimens.

MLS 4170. Introduction to Molecular Biology. 3 Credits.

Foundational course in molecular biology; DNA replication, DNA repair, transcription, translation and gene regulation. Prerequisites: BISC 1111.

MLS 4171. Human Genetics. 3 Credits.

Hereditary and molecular genetics as it applies to humans. Prerequisites: BISC 1111.

MLS 4172. Molecular Diagnostics Capstone. 3 Credits.

Culmination course for the BSHS in molecular diagnostic sciences program. Provides an overview of molecular diagnostics using a case-based approach. Students must have earned a minimum grade of C in all prerequisite courses in order to enroll in this course. Program director approval may be substituted for prerequisite courses. Proctor fee. Prerequisites: MLS 4170, MLS 4171, MLS 4217 and MLS 4242.

MLS 4179. Microbiology Laboratory Operations. 3 Credits.

Quality assurance, quality control, and regulatory requirements in a clinical microbiology laboratory, with particular emphasis on laboratory operations and management. Restricted to students enrolled in the undergraduate certificate in clinical microbiology program or with the permission of the instructor. Prerequisites: BISC 1116 and BISC 1126.

MLS 4216. Clinical Bacteriology Laboratory. 1 Credit.

Hands-on experience in current diagnostic techniques and identification systems used in clinical practice; principles, procedures, techniques and data interpretation for the isolation and identification of clinically significant bacteria. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111. Corequisites: MLS 4116.

MLS 4217. Molecular Techniques. 3 Credits.

Theory and processes of current molecular techniques used to diagnose human disease. Prerequisites: BISC 1111.

MLS 4219. Parasitology, Mycology, and Virology Laboratory. 1 Credit.

Principles and procedures involved in the diagnosis of parasitic, fungal, and viral infections; disease causation, specimen collection and handling, laboratory identification and treatment of medically significant fungi, parasites and viruses. Laboratory fee. Corequisite MLS 4119. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1112; or BISC 1116 and BISC 1126.

MLS 4230. Hematology Laboratory. 1 Credit.

Diagnostic analyses used to evaluate disease states associated with human blood cells; quality assurance in the hematology lab and on the evaluation of stained blood smears and microscopic differentiation of blood cells. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111. Corequisites: MLS 4130.

MLS 4242. Applications of Molecular Testing. 3 Credits.

Application of molecular testing to diagnose various human diseases and disorders. Prerequisites: BISC 1111; or BISC 1115 and BISC 1125.

MLS 4246. Clinical Biochemistry Laboratory. 1 Credit.

Practical laboratory course covering the principles and procedures of various diagnostic testing procedures performed in the clinical biochemistry laboratory; measurement and interpretation of chemical constituents in human blood and body fluids. Laboratory fee. Corequisite: MLS 4145. Prerequisites: CHEM 1111 and CHEM 1112. Recommended background: students in the medical laboratory science program.

MLS 4250. Immunohematology Laboratory. 1 Credit.

Performance of routine blood banking procedures, including blood group and Rh typing, antibody screens, antibody identification, cross matching, and elution and absorption techniques. Restricted to students in the medical laboratory science program.

MLS 4251. Molecular Diagnostics Laboratory. 1 Credit.

An introduction to the theory of and laboratory techniques in molecular biology with an emphasis on molecular and serological techniques, including DNA extraction and quantitation, restriction enzyme digestion, polymerase chain reaction, agarose gel electrophoresis, flow cytometry, and ELISA. Restricted to students in the medical laboratory science program.

MLS 4252. Applications of Molecular Testing Laboratory. 2 Credits.

Molecular-based testing to determine human disease causation. Prerequisites: BISC 1111.

MLS 4266. Molecular Diagnostics Practicum. 6 Credits.

Application of molecular techniques in a clinical setting to facilitate the diagnosis of human diseases. Students must have earned a minimum grade of C in all prerequisite courses. Instructor permission may be substituted for prerequisites. Prerequisites: MLS 4170, MLS 4171, MLS 4217 and MLS 4242.

MLS 5099. Variable Topics. 1-99 Credits.**MLS 6114. Advanced Clinical Microbiology I. 2 Credits.**

Pathogenic characteristics, isolation techniques, specimen collection and handling, laboratory identification, and treatment of medically significant bacteria and viruses with emphasis on current diagnostic techniques used in clinical practice.

MLS 6115. Advanced Clinical Parasitology and Mycology. 1 Credit.

Specimen collection, symptomology, pathology, diagnostic procedures, and treatment of the various parasites and fungi that cause human infections.

MLS 6116. Advanced Clinical Bacteriology I. 3 Credits.

Principles of clinical microbiology with emphasis on pathogenic characteristics, isolation, and identification of medically significant bacteria. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111.

MLS 6117. Advanced Clinical Bacteriology II. 2 Credits.

Etiology of infectious diseases in different body sites using a case study-based approach; epidemiology, pathogenic mechanisms, and laboratory identification of suspected etiologic agents; commonly encountered clinical bacterial species. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111 and MLS 6116.

MLS 6119. Advanced Parasitology, Mycology, and Virology. 2 Credits.

Provides a systematic approach to the biology and epidemiology of human parasitic, fungal, and viral diseases. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1112; or BISC 1116 and BISC 1126.

MLS 6123. Advanced Clinical Microbiology I. 3 Credits.

Pathogenic characteristics, isolation techniques, specimen collection and handling, laboratory identification, and treatment of medically significant bacteria and viruses; current diagnostic techniques used in clinical practice. Prerequisites: BISC 1111 and HSCI 3106 or equivalents.

MLS 6124. Advanced Clinical Microbiology II. 2 Credits.

The etiology of human infectious diseases using an organ system approach.

MLS 6130. Advanced Hematology I. 3 Credits.

Blood and blood-forming tissues with emphasis on hematologic techniques and cell identification; anemias and non-malignant leukocyte disorders. Proctor fee. Restricted to students in the medical laboratory science program. Recommended background: BISC 1111.

MLS 6131. Advanced Hematology II. 3 Credits.

Hematopoiesis and hemostatic disorders. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisite: MLS 6130.

MLS 6132. Molecular Epidemiology. 3 Credits.

The range of molecular and genetic techniques used and their applications in epidemiological investigations.

MLS 6141. Advanced Immunology and Serology. 3 Credits.

The immune system, various immune-related diseases, and the clinical applications of immunology related to the diagnosis and monitoring of human diseases.

MLS 6145. Advanced Clinical Biochemistry I. 3 Credits.

Methodologies employed in the chemical analysis of human blood and body fluids and the associated pathophysiology of each analyte measured; measurement of carbohydrates, proteins, lipids, and clinically significant enzymes. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisites: CHEM 1111 and CHEM 1112.

MLS 6146. Advanced Clinical Biochemistry II. 3 Credits.

Methodologies used in the chemical analysis of human blood and body fluids and the associated pathophysiology of each analyte measured; measurement of hormones, urinalysis and body fluids, biomarkers, and toxins. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisites: CHEM 1111, CHEM 1112 and MLS 6145.

MLS 6150. Advanced Immunohematology. 3 Credits.

Blood group systems that impact the practice of transfusion medicine; processing and distribution of blood products supplied by blood donor centers and transfusion services. Proctor fee. Restricted to students in the medical laboratory science program. Prerequisites: BISC 1111.

MLS 6151. Advanced Molecular Diagnostics. 3 Credits.

Overview of molecular biology and genetic concepts as well as molecular techniques used to diagnose human diseases. The technology, theory, and methodology of molecular protocols used within a clinical and research laboratory setting.

MLS 6158. Advanced Laboratory Management and Operations. 3 Credits.

An introduction to critical concepts of lab management, including leadership theory, management principles, human resource management, financial management, quality management, and laboratory operations. Prerequisites: HSCI 2100 and HSCI 2117; for HSCI 2100 an equivalent English course and for HSCI 2117 an equivalent college-level math course may be substituted at the instructor's discretion.

MLS 6159. Leadership in Laboratory Medicine. 3 Credits.

Leadership characteristics and styles and assessment of their strengths and weaknesses. Applying effective leadership strategies and decision making in the laboratory medicine setting.

MLS 6160. Data Analytics and Research Methods in Laboratory Medicine. 3 Credits.

Basic methods and practices for conducting valid and ethical research in the clinical laboratory. Literature review, research populations and designs, research ethics, data management and analytics, and research publication. Prerequisites: HSCI 6263.

MLS 6166. Molecular Diagnostics Practicum. 3 Credits.

During this practicum course, the student is actively engaged in applying molecular techniques to diagnose various human diseases.

MLS 6201. Advanced Clinical Biochemistry. 3 Credits.

The structure and function of biological molecules, including proteins, carbohydrates, lipids, nucleic acids, vitamins, hormones, and buffers as well as their anabolism, catabolism, and regulatory mechanisms. The role of these molecules with regard to human health and the manifestation of disease.

MLS 6203. Clinical Immunohematology I. 5 Credits.**MLS 6204. Clinical Immunohematology II. 5 Credits.****MLS 6207. Clinical Practicum: Blood Banking I. 5 Credits.**

.

MLS 6208. Clinical Practicum: Blood Banking II. 5 Credits.

.

MLS 6209. Clinical Pract: Blood Banking III. 5 Credits.**MLS 6210. Clinical Immun: Prin & Lab Diag. 4 Credits.****MLS 6211. Hematopoiesis & Blood Pathophys. 2 Credits.****MLS 6212. Organization and Management of Blood Banks. 3 Credits.**

.

MLS 6213. Seminar in Immunohematology. 2 Credits.**MLS 6214. Specialized Practicum. 4 Credits.****MLS 6215. Research Project. 3 Credits.****MLS 6216. Microbial Pathogenesis. 3 Credits.**

A comprehensive overview of the molecular basis of diseases caused by microbial pathogens with a focus on model microbial systems to illustrate mechanisms of the human infectious disease process.

MLS 6217. Medical Biotechnology. 3 Credits.

Comprehensive overview of current molecular technologies and how they are used in modern medicine.

MLS 6218. Genetics. 3 Credits.

This course covers hereditary and molecular genetics, with an emphasis on genomics and human diseases.

MLS 6219. Molecular Biology. 3 Credits.

This course emphasizes the molecular mechanisms of DNA replication, repair, transcription, translation and gene regulation in prokaryotic and eukaryotic cells.

MLS 6242. Molecular Pathology. 3 Credits.

This course investigates human disease processes with an emphasis on the molecular and genetic mechanisms of disease. The goal of this class is to advance students' understanding of how molecular, cellular and genetic approaches are used to investigate human diseases. Current knowledge of the molecular and cellular events which lead to various human diseases is covered, including cardiovascular, neurological and musculoskeletal abnormalities, autoimmunity, endocrine defects, infectious disease and cancer. Through lectures, assigned readings and discussions, current applications and limitations of modern diagnostic medicine and the importance of basic and applied research to further the understanding of human disease are addressed.

MLS 6243. Education and Assessment in MLS. 3 Credits.

This course studies the process of instructional design and applied to the education and training of MLS professionals. Topics include a fundamental review of instructional strategies, needs assessment, task analysis, analysis of subject-matter content, the development of goals and objectives, lesson design, and the assessment of instructional outcomes. This is a project-oriented course in which students design, develop, and evaluate a set of MLS instructional materials and assessment tools. In addition, current trends in instructional design as applied to the MLS field are also explored.

MLS 6244. Research Ethics and Integrity. 3 Credits.

This course addresses traditional and modern topics in research ethics and scientific integrity. The purpose of this course is to emphasize ethical theory and principles of bioethics while planning and conducting scientific studies. Through lectures, reading assignments, case studies and discussion sessions, the following topics are covered: ethical theory and principles, scientific and academic integrity, informed consent in research; Institutional Review Boards and the use of human subjects in research. IACUC and the use of animals in research, Institutional Biosafety Committees and the use of recombinant DNA in research; conflicts of interest and commitment; authorship and publication; the peer-review process; collaboration and mentoring; methodology, data reporting and data management; ownership of data and intellectual property; whistleblowing and dispute resolution; and privacy and confidentiality. Students learn to conduct unbiased peer-review, conduct research and report on an independent examination of a case of research misconduct or other ethical issue, and participate in oral scientific and ethical discussions.

MLS 6245. Current Topics in Medical Laboratory Science. 3 Credits.

Novel findings within each area of the medical laboratory science field, including hematology and hemostasis, immunology and serology, clinical microbiology, immunohematology, clinical chemistry, molecular diagnostics, and laboratory operations and management. The course is designed to enhance critical thinking and problem solving skills. Current topics are integrated into the development of a project proposal for the capstone research project that the student completes the following semester.

MLS 6246. Capstone Project. 3 Credits.

This course allows students to apply the knowledge gained throughout the program through the completion of an independent, mentored project. A proposal for the capstone project is developed by the student as a component of the Current Topics course of the previous semester.

MLS 6247. Advanced Clinical Biochemistry Practicum. 2 Credits.

Practical application of the medical knowledge and clinical skills gained in MLS 6145 and MLS 6146. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6145 and MLS 6146.

MLS 6248. Advanced Blood Bank Practicum. 2 Credits.

Application of the medical knowledge and clinical skills gained in the prerequisite courses. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6141 and MLS 6150.

MLS 6249. Advanced Coagulation Practicum. 1 Credit.

Practical application of the medical knowledge and clinical skills gained in MLS 6130 and MLS 6131. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6130, MLS 6131 and MLS 6141.

MLS 6250. Advanced Hematology Practicum. 1 Credit.

Practical application of the medical knowledge and clinical skills gained in the prerequisite courses. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6130 and MLS 6131.

MLS 6251. Advanced Clinical Microbiology Practicum. 2 Credits.

Practical application of the medical knowledge and clinical skills gained in ML 6116, MLS 6117, and MLS 6119. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6116, MLS 6117, MLS 6119 and MLS 6141.

MLS 6252. Advanced Urinalysis Practicum. 1 Credit.

Practical application of the medical knowledge and clinical skills gained in MLS 6145 and MLS 6146. Restricted to students in the medical laboratory science program. Prerequisites: MLS 6141, MLS 6145 and MLS 6146.

MICROBIOLOGY, IMMUNOLOGY, AND TROPICAL MEDICINE (MICR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MICR 1099. Variable Topics. 1-36 Credits.

Variable topics.

MICR 5099. Variable Topics. 1-99 Credits.**MICR 6220. Biology of Parasitism: Parasite Strategies of Infection, Survival, and Transmission. 2 Credits.**

A comprehensive course examining the strategies parasites use to infect their hosts, how they survive and thrive within their host, and the developmental adaptations they use to ensure transmission of their offspring to the next host. Prerequisites: BISC 2339 or permission of the instructor.

MICR 6236. Fundamentals in Geonomics and Proteomics I. 2-3 Credits.**MICR 6237. Fundamentals in Geonomics and Proteomics II. 2 Credits.**

. Credit cannot be earned for this course and BIOC 6237.

MICR 6292. Tropical Infectious Diseases. 2 Credits.

Lecture course. Pathogenesis, natural history, and epidemiology of the major infectious diseases that occur in developing countries.

MICR 8210. Infection and Immunity. 3 Credits.

An introduction to the fields of virology, bacteriology, and parasitology, as well as the main concepts of immune response.

MICR 8214. Microbiology and Immunology Seminar. 1 Credit.

Current and emerging topics with presentations and discussions facilitated by leading experts from GW and outside institution; student-led journal club and oral presentation opportunities. Prerequisites: BMSC 8210 and BMSC 8212.

MICR 8230. Molecular and Cellular Immunology. 3 Credits.

Major aspects of immunology, including T and B cell effector function, innate immune cell function, mucosal immunology, and immune regulation. Prerequisites: MICR 8210 or other similar introductory immunology course or with approval of staff.

MICR 8270. Advanced Topics in Immunology. 3 Credits.

Seminar series on topics chosen jointly by students and faculty; students present and critique original manuscripts. May be repeated for credit. Prerequisites: MICR 8210 and MICR 8230.

MICR 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

MICR 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

MOLECULAR MEDICINE (MMED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

NAVAL SCIENCE (NSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

NURSING (NURS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

NURS 3101. Ethical Foundations of Nursing. 3 Credits.

Ethical theory and principles as they relate to a variety of common ethical and moral dilemmas that challenge nursing professionals in their clinical practice.

NURS 3102. Nutrition for Health Professionals. 3 Credits.

Human nutrition fundamentals and the scientific foundation; nutritional requirements related to changing individual and family needs, food choices, health behaviors, food safety, prevention of chronic disease and nutrition-related public health in the United States and other countries.

NURS 3103. Human Anatomy and Physiology I. 4 Credits.

Fundamental structures and functions as they relate to the human body: homeostasis, anatomical language and body organization, tissues and histology, integumentary; skeletal; muscular; nervous, and endocrine systems. Students should have a basic background in introductory cell/molecular biology before enrolling.

NURS 3104. Human Anatomy and Physiology II. 4 Credits.

Fundamental structures and functions as they relate to the human body: homeostasis, anatomical language and body organization, tissues and histology, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Students should have a basic background in introductory cell/molecular biology before enrolling. Prerequisite: NURS 3103.

NURS 3105. Microbiology for Health Professionals. 4 Credits.

The structural and functional characteristics of microbes; prokaryotic, eukaryotic, and viruses, in the context of human health.

NURS 3106. Introduction to Statistics for Health Professionals. 3 Credits.

A concepts-based course introducing students to the theory, practice, and application of probability and statistics to health care research questions.

NURS 3110W. Transition into the Nursing Profession. 2 Credits.

Values and characteristics of the nursing profession in the context of history and current legal, regulatory, and ethical contexts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

NURS 3111. Health Assessment. 3 Credits.

Knowledge and skills necessary for conducting comprehensive and need-specific health assessments for individuals in both family and community contexts and determining areas in which health promotion activities should be implemented or reinforced. Corequisites: NURS 3112, NURS 3113, NURS 3118 and NURS 3119. Restricted to students enrolled in the bachelor of science in nursing program.

NURS 3112. Nursing Practice and Clinical Reasoning I: Adult and Aging Acute and Chronic Illness. 3 Credits.

Values, knowledge, and competencies at the foundation of safe, evidence-based, and professional holistic nursing care of adults with common medical and surgical needs. Restricted to students in the bachelor of science in nursing program.

NURS 3113. Clinical and Nursing Skills Lab: Adult Medical-Surgical I. 8 Credits.

Values, knowledge, skills, and competencies at the foundation of safe, evidence-based, professional, and holistic nursing care of adults with common medical and surgical needs; critical thinking and communication skills in clinical and laboratory environments. Corequisites: NURS 3111 and NURS 3118. Restricted to students in the bachelor of science in nursing program.

NURS 3114. Nursing Practice and Clinical Reasoning II: Advanced Adult Medical-Surgical. 3 Credits.

Builds on the basic concepts introduced in NURS 3112, incorporating complex, multi-system disease processes; assessing and managing clients/patients in a hospital environment; providing safe, evidence-based professional, and holistic nursing care related to the management of clients with advanced medical and surgical needs. Corequisite: NURS 3116. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3112 and NURS 3113.

NURS 3115. Clinical and Nursing Skills Lab: Adult Medical-Surgical II. 4 Credits.

Safe, evidence-based, professional, and holistic nursing care related to the management of clients with advanced medical and surgical needs; knowledge, skills, and competencies for assessing and managing clients/patients in a hospital environment. Restricted to students enrolled in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3118, NURS 3119 and NURS 3213.

NURS 3116. Nursing Practice and Clinical Reasoning III: Psychiatric Mental Health Nursing. 3 Credits.

Theoretical principles, concepts, and skills needed to provide safe and effective nursing interventions to clients across the lifespan who are experiencing psychiatric and mental health conditions. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3118 and NURS 3119.

NURS 3117. Nursing Practice and Clinical Reasoning IV: Maternity and Women's Health Care. 3 Credits.

Nursing interventions used in health promotion, risk reduction, clinical decision making and management of women's health issues, perinatal care of mothers and infants, gynecological health, and men's reproductive health. Includes clinical experiences. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3114, NURS 3115, NURS 3116, NURS 3118, NURS 3119 and NURS 4118.

NURS 3118. Pharmacology I. 2 Credits.

The underlying principles of pharmacology and medication administration. Restricted to students in the bachelor of science in nursing program.

NURS 3119. Pathophysiology. 3 Credits.

Pathophysiology and diagnostic assessments of common disease conditions affecting individuals across the lifespan. Restricted to students in the bachelor of science in nursing program.

NURS 3120. Foundations of Professional Nursing. 6 Credits.

Basic nursing concepts and skills the beginning nurse needs to provide client- and family-centered care to diverse client populations. Prepares students to use the nursing process. Restricted to students in the BSN program.

NURS 3121. Health Assessment and Promotion. 3 Credits.

The knowledge and skills needed to conduct comprehensive and need-specific health assessments. Concepts of health promotion and disease prevention. Restricted to students in the BSN program.

NURS 3122. Principles of Safe Client Care. 2 Credits.

Client safety core concepts and values of professional nursing. Restricted to students in the BSN program.

NURS 3123. Quality Interprofessional Care of the Client. 2 Credits.

Basic concepts of improvement science in nursing and interprofessional health care. Builds on concepts of safety learned in NURS 3122.

NURS 3124. Adult and Geriatric Nursing I. 6 Credits.

Didactic/clinical course focusing on primary, secondary, and tertiary care in the adult and geriatric client. Incorporates the nursing process into the provision of client- and family-centered care. Restricted to students in the BSN program.

NURS 3125. Mental Health Nursing. 3 Credits.

Didactic/clinical course focusing on the application of theories and implementation of evidence-based care for clients with psychiatric/mental health issues. Restricted to students in the bachelor of science in nursing program.

NURS 3213. Adult Medical-Surgical Lab I. 4 Credits.

Values, knowledge, skills, and competencies at the foundation of safe, evidence-based, professional, holistic nursing care of adults with common medical and surgical needs; critical thinking and effective communication skills used in clinical and lab environments to deliver safe, evidence-based care. Laboratory fee. Corequisites: NURS 3111 and NURS 3112.

NURS 4099. Variable Topics. 1-6 Credits.

Assigned topics determined by the School of Nursing. Restricted to students with prior permission of the undergraduate division of the School of Nursing.

NURS 4109. Introduction to Perioperative Nursing. 3 Credits.

The role of the perioperative nurse and the fundamental knowledge, skills, and competencies needed to deliver safe, evidence-based, holistic care within a perioperative setting. Includes clinical experiences. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3118, NURS 3119, NURS 3114, NURS 3115, NURS 3116 and NURS 4118.

NURS 4116. Children and Families. 3 Credits.

Focus on families with usual childhood issues and with children who require acute and chronic care. Working with persons of diverse backgrounds, nursing colleagues, and other members of the interdisciplinary team, students prioritize and provide nursing care in hospital and community-based settings. Includes clinical experiences. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3118, NURS 3119, NURS 3114, NURS 3115, NURS 3116 and NURS 4118.

NURS 4118. Pharmacology II. 1 Credit.

Principles of pharmacology and mechanisms of action of drug prototypes used in clinical practice. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3118 and NURS 3119.

NURS 4119. Patient Safety and Health Care Quality. 3 Credits.

Processes and skills needed to provide safe, quality nursing care, encompassing the five critical competencies: providing safe, patient-centered care; working in interdisciplinary teams; employing evidence-based practice; applying quality improvement; and using informatics. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3114, NURS 3115, NURS 3116 and NURS 4118.

NURS 4121. Nursing Advancement Portfolio. 15 Credits.

Collection of evidences to demonstrate student learning and competency throughout the curriculum as they relate to achievement of nursing baccalaureate program outcomes. The portfolio provides a means of organizing student accomplishments in their academic work and in their pursuit of professional career pathways.

NURS 4122. Capstone: Transition Into Professional Practice. 2 Credits.

Critically analyze, synthesize, and apply knowledge, theories, and concepts learned in the program to make the transition from nursing student to graduate nurse. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3114, NURS 3115, NURS 3116, NURS 3117, NURS 3118, NURS 3119, NURS 4116, NURS 4118, NURS 4119, and NURS 6203.

NURS 4123. Senior Practicum: Transition Into Clinical Practice. 5 Credits.

Students partner with a registered nurse in a clinical setting to synthesize and apply concepts and skills learned in previous coursework in professional practice. Restricted to students in the bachelor of science in nursing program. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3213, NURS 3114, NURS 3115, NURS 3116, NURS 3117, NURS 3118, NURS 3119, NURS 4116, NURS 4118, NURS 4119, and NURS 6203.

NURS 4203. Dynamics of Nursing Leadership and Management. 3 Credits.

Introduction to concepts of nursing leadership and management, showcasing the importance of each, while noting the crucial differences between them.

NURS 4205. Nurse's Role in Health Care Policy. 3 Credits.

Framework for understanding the social, political, economic, and population based dimensions of U.S. health care policy using the "triad" of quality, access, and cost.

NURS 4207. Principles of Nursing Research and Evidence-Based Practice. 3 Credits.

Development of student skills in research and practice-related knowledge necessary to implement evidence-based practice. May be repeated for credit.

NURS 4217. Community and Public Health Nursing. 4 Credits.

Introduction to the principles of community and public health nursing with an emphasis on vulnerable populations. Prerequisites: NURS 3110W, NURS 3111, NURS 3112, NURS 3212, NURS 3114, NURS 3115, NURS 3116, NURS 3118, NURS 3119 and NURS 4116.

NURS 4417. Community and Public Health Nursing. 3 Credits.

Roles and responsibilities of nurses in community and population-based health. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations locally, nationally, and globally. Identifying community health needs and appropriate primary, secondary, and tertiary prevention strategies. Restricted to students in the RN to BSN program.

NURS 6001. Clinical Experience in San Jose, Costa Rica. 0 Credits.

GW students work with nursing students and faculty from Universidad Hispanoamericana to provide basic health care, health screening, and patient education to children and adults in various community facilities and homes in San Jose, Costa Rica. Restricted to students enrolled in the School of Nursing.

NURS 6002. Clinical Experience in Quito, Ecuador. 0 Credits.

In collaboration with Universidad San Francisco de Quito, GW students work with local communities to provide basic health services and health education programs for adults and children in Quito and neighboring areas. Graduate students may have an opportunity to work with local physicians. Restricted to students enrolled in the School of Nursing who are fluent Spanish speakers.

NURS 6003. Clinical Experience in Mukono District, Uganda. 0 Credits.

In collaboration with GW partner Omni Med, students will focus on training volunteer community health workers to screen for hypertension and provide health education programs on topics such as maternal – child health, sanitation and nutrition in Mukono District, Uganda. Restricted to students enrolled in the School of Nursing.

NURS 6004. Clinical Experience in Thomonde, Haiti. 0 Credits.

Students and faculty from the GW's medical, physician assistant, and public health programs work in collaboration with partner organization Project Medishare to provide health services and education and disease prevention programs in rural clinics, schools, and villages in Thomonde, Haiti.

NURS 6005. Clinical Experience in Caracol, Haiti. 0 Credits.

In collaboration with health care providers from GW School of Nursing partner institution Pusan National University Yangsan Hospital, South Korea, and SAE-A Trading Company Ltd., students provide basic health services, health screening and education, and disease prevention programs to individuals and communities attending the medical mission clinic in Caracol, Haiti. Restricted to students enrolled in the School of Nursing.

NURS 6006. Clinical Experience in Maribor, Slovenia. 0 Credits.

In collaboration with the University of Maribor in Slovenia, GW students work with community health care workers to deliver basic nursing care to selected populations in the community. Students have opportunities to research selected health problems and their impact on the health of individuals and communities in Maribor.

NURS 6181. Creativity and Innovation in Health Care. 3 Credits.

The theoretical conceptualizations and practical applications to promote creativity and innovation in generating ideas, identifying opportunities, and solving problems.

NURS 6202. Concepts in Population Health. 3 Credits.

Students integrate and synthesize concepts associated with quality, health promotion, disease prevention, and chronic health problems within communities, the general population, and specific population groups; issues related to culturally diverse and vulnerable populations.

NURS 6203. Nursing Leadership. 3 Credits.

Evidence-based leadership skills as a core competency in nursing to improve patient care quality and strengthen nursing as a profession; theories of leadership, personal leadership, skill building, team building techniques, change, conflict resolution, motivation, and communication skills.

NURS 6204. Health Information and Technology. 3 Credits.

Key issues and concepts related to the use of technology and information management to support the provision of high quality health care and outcomes.

NURS 6205. Health Policy, Quality, and Political Process. 3 Credits.

Health policy process and analysis relevant to the three main components of policy: cost, quality, and access.

NURS 6207. Evidence-Based Practice for Health Care Researchers. 3 Credits.

Methodological issues of health care research; knowledge and skills needed to critically appraise and synthesize research results and evidence-based methods.

NURS 6208. Biostatistics for Health Care Research. 3 Credits.

Basic concepts and modeling approaches used in biostatistics through the use of health care research data.

NURS 6215. Pediatric Adversity and Early Childhood Development and Health. 3 Credits.

How major adversity in childhood can weaken developing brain architecture and impact physical and mental health; the impact of poverty and other social determinants of health on child well-being over the life cycle.

NURS 6220. Advanced Physiology and Pathophysiology. 3 Credits.

System-focused advanced physiology and pathophysiology for analysis of health deviations across the life span.

NURS 6222. Advanced Health Assessment and Diagnostic Reasoning. 4 Credits.

Nurse practitioner and nurse-midwifery students will acquire the knowledge, skills and clinical foundation for advanced health assessment and diagnostic reasoning in the ambulatory health care setting. This course is a prerequisite to all other clinical courses and includes a Campus Learning and Skills Intensive (CLASI).

NURS 6224. Adult/Gerontology Primary Care Nurse Practitioner I: Practice Introduction. 4 Credits.

First clinical practicum course in the adult-gerontology primary care nurse practitioner program; theoretical and practical foundations of common primary care conditions in the adult patient. Prerequisites: NURS 6220, NURS 6222, and NURS 6234.

NURS 6225. Adult/Gerontology Primary Care Nurse Practitioner II: Adolescent and Adult. 8 Credits.

Second clinical practicum course in the adult-gerontology primary care nurse practitioner program. Synthesis and integration of advanced decision making skills including diagnostic reasoning and clinical judgment, health assessment, health promotion, technology, and evidence-based practice. Prerequisites: NURS 6220, NURS 6222, NURS 6224, and NURS 6234.

NURS 6227. Family Nurse Practitioner Clinical Practicum. 1-7 Credits.

Clinical practicum providing foundations of family primary care; focus on chronic health problems faced by families from culturally diverse backgrounds. Corequisites: NURS 6250, NURS 6251 and NURS 6252 Prerequisites: NURS 6220, NURS 6222 and NURS 6234.

NURS 6229. Adult/Gerontology Primary Care Nurse Practitioner III: Adult, Older/Frail. 8 Credits.

Third clinical practicum course in the adult-gerontology primary care nurse practitioner program; theoretical and evidence-based practice foundations for assessment and management of the patient across the aging continuum. Prerequisites: NURS 6220, NURS 6222, NURS 6224, NURS 6225, and NURS 6234.

NURS 6230. Family Nurse Practitioner I: Lifespan Primary Care/Diagnosis/Management. 4 Credits.

First clinically-based course for family nurse practitioners. Didactic and clinical experiences in primary care focusing on common and chronic health problems across the lifespan. Prerequisites: NURS 6220, NURS 6222, and NURS 6234.

NURS 6231. Family Nurse Practitioner II: Lifespan Primary Care/Diagnosis/Management. 8 Credits.

Second clinically-based course for family nurse practitioners. Didactic and clinical experiences in primary care focusing on common and chronic health problems across the lifespan. Prerequisites: NURS 6230.

NURS 6232. Family Nurse Practitioner III: Professional Issues/Diagnosis/Management. 8 Credits.

Third clinically-based course for family nurse practitioner students. Didactic and clinical experiences in primary care focusing on common/chronic problems across the lifespan. Prerequisites: NURS 6220, NURS 6222, NURS 6223, NURS 6230 and NURS 6231.

NURS 6233. Genetics for Health Care Providers. 3 Credits.

Basic scientific principles of genetics and their clinical applications.

NURS 6234. Advanced Pharmacology for Nursing. 3 Credits.

Pharmacologic concepts commonly seen in advanced practice nursing; major pharmacological classes for selected disease states and application in therapeutic decision making to encounters across the lifespan. Prerequisite: NURS 6220.

NURS 6235. Adult-Gerontology Acute Care Nurse Practitioner I: Introduction to Practice. 4 Credits.

First clinical practicum course in the adult-gerontology acute care nurse practitioner program. Scientific underpinnings and practical management of complex acute and chronic conditions across a spectrum of care delivery situations from subacute rehabilitation, to urgent care, emergency department, hospital-based care, and critical care Prerequisites: NURS 6220, NURS 6222, and NURS 6234.

NURS 6236. Adult-Gerontology Acute Care Nurse Practitioner II: Complex and Acute Illness. 8 Credits.

Second clinical course in the adult-gerontology acute care nurse practitioner program. Management of complex, acute stable, and unstable conditions experienced by a variety of age groups from adolescents, to middle-aged adults, to the elderly. Prerequisites: NURS 6220, NURS 6222, NURS 6234, and NURS 6235.

NURS 6237. Adult-Gerontology Acute Care Nurse Practitioner III: Complex and Chronic Disease Mgt Adolesc/Elderly. 8 Credits.

Third clinical practicum course for the adult-gerontology acute care nurse practitioner program. Scientific underpinnings and practical management of complex acute and chronic conditions across a spectrum of care delivery situations from subacute rehabilitation, to urgent care, emergency department, hospital-based care, and critical care. Prerequisites: NURS 6220, NURS 6222, NURS 6234, NURS 6235, and NURS 6236.

NURS 6241. The Health Care Enterprise. 3 Credits.

Overview of general management business principles related to health care systems; strategic management of patient-centered care delivery and strategic health care leadership. Same As: HSCI 6241.

NURS 6242. Psychopharmacology. 3 Credits.

Overview of the neurobiological and psychopharmacological principles for the clinical management of psychotropic medications in the treatment of mental illnesses across the lifespan; integrates neuroanatomy, pharmacogenomics, neurophysiology, pathophysiology, biochemistry, pharmacology and behavioral science. Prerequisites: NURS 6220, NURS 6222 and NURS 6234.

NURS 6243. Addiction and Change. 3 Credits.

Principles of addiction and change with a focus on correlating how changes in behavior lead to recovery in addictions. Models of addiction and change, the neurobiology of addiction, behavior change theories and models, and treating addictions through behavioral mechanisms.

NURS 6244. Psychiatric/Mental Health Nursing with Families and Groups Across the Life Span. 3 Credits.

Theoretical and conceptual models related to the developmental and functional processes within family systems, therapy groups, and psychoeducation groups; the PMHNP's scope of practice as it relates to conducting family and group psychotherapy. Concurrent clinical practicum under preceptor and faculty supervision for a minimum of 75 hours over the course of the semester. Prerequisites: NURS 6242 and NURS 6245.

NURS 6245. Psychiatric/Mental Health Diagnostic Assessment Across the Lifespan. 4 Credits.

Theoretical and foundational knowledge for assessing, diagnosing, treating, and managing mental illnesses across the lifespan. Concurrent clinical practicum under the supervision of preceptors and faculty. Students must complete a minimum of 150 clinical hours. Prerequisites: NURS 6220, NURS 6222, and NURS 6234.

NURS 6246. Psychiatric/Mental Health Advanced Practice Nursing with Individuals Across the Life Span. 3 Credits.

Examines, analyzes, and evaluates treatment models and evidence-based interventions for the care of individuals living with acute and chronic mental illnesses across the lifespan. Concurrent clinical practicum under the supervision of preceptors and faculty. Students must complete a minimum of 75 clinical hours. Prerequisites: NURS 6242 and NURS 6245.

NURS 6247. Population-Based Psychiatric/Mental Health Advanced Practice Nursing Across the Life Span. 3 Credits.

Clinical practicum designed to build psychiatric mental health nurse practitioner skills in a variety of clinical settings. Students integrate foundational knowledge from coursework to provide safe and competent behavioral healthcare to individuals across the lifespan. Prerequisites: NURS 6242, NURS 6244, NURS 6245, and NURS 6246.

NURS 6248. Integrated Application of Psychiatric/Mental Health Advanced Practice Nursing. 3 Credits.

Clinical practicum. Students develop competency in the psychiatric-mental health nurse practitioner role; integration of foundational knowledge from coursework to provide safe and competent behavioral healthcare to individuals across the lifespan. Prerequisites: NURS 6242, NURS 6244, NURS 6245, NURS 6246, and NURS 6247.

NURS 6250. Family Nurse Practitioner I for Nurse Practitioners: Adult Primary Care Diagnosis Management. 2 Credits.

First clinically-based course for family nurse practitioners. Didactic and clinical experiences in primary care focusing on prevention and common/chronic health problems across the lifespan. Corequisite: NURS 6227.

NURS 6251. Family Nurse Practitioner II for Nurse Practitioners: Lifespan Primary Care Diagnosis Management. 4 Credits.

Second clinically-based course for family nurse practitioners. Didactic and clinical experiences in primary care focusing on common/chronic health problems across the lifespan. Corequisite: NURS 6227. Prerequisite: NURS 6250.

NURS 6252. Family Nurse Practitioner III for Nurse Practitioners: Lifespan Primary Care Diagnosis Management. 4 Credits.

Third theory course for family nurse practitioner students nationally certified in another APRN population. Covers common acute and chronic problems across the lifespan. Corequisite: NURS 6227. Prerequisites: NURS 6250, NURS 6251.

NURS 6258. Leadership Capstone Practicum I. 3 Credits.

First course in a two-semester mentored internship practicum. Students apply knowledge and refine abilities related to leadership in a setting and practice area mutually agreed upon by the student and instructor. Prerequisites: NURS 6202, NURS 6203, NURS 6204, NURS 6205, NURS 6207, NURS 6241, NURS 6274 and NURS 6295.

NURS 6259. Leadership Capstone Practicum II. 3 Credits.

Second course in a two-semester mentored internship practicum. Students apply knowledge and refine abilities related to leadership in a setting and practice area mutually agreed upon by the student and instructor. Prerequisite: NURS 6258.

NURS 6262. Leadership Coaching in Nursing. 3 Credits.

Client health coaching and leadership and management coaching; theoretical foundations, evidence for leadership coaching in nursing, and applications of coaching in nursing management.

NURS 6263. Teaching and Learning in Health Care. 3 Credits.

Application of instructional design methods to develop, deliver, and evaluate academic and professional health care curricula and education.

NURS 6274. Health Economics and Finance. 3 Credits.

Health care economics, finance, and policy for effective management in a complex health care environment.

NURS 6282. Teaching and Learning in Health Care I: Foundations of Instructional Design. 3 Credits.

Principles of instructional design. Active, authentic learning and assessment methods in academic and health care delivery settings; analyzing needs, defining objectives, and assessing outcomes for learning; strategies to support learner mastery.

NURS 6284. Teaching and Learning in Health Care III: Program and Curriculum Development. 3 Credits.

Design, development, implementation and evaluation of academic, clinical, and professional educational programs in nursing and other health professions; analysis and integration of national, professional and institutional policies, requirements, and standards to develop an outcomes-based curriculum.

NURS 6290. Global Health for Health Care Professionals. 3 Credits.

Global health problems and issues from interdisciplinary and comparative perspectives.

NURS 6291. Advanced Topics. 1-9 Credits.

.

NURS 6295. Health Care Quality Process. 3 Credits.

Application of change processes that are critical to improving health quality by integrating theory and implementation; the role of systems assessment and measurement as fundamental to quality improvement.

NURS 6297. Independent Study. 1-9 Credits.**NURS 6298. NP Clinical Completion. 1-5 Credits.****NURS 6299. Nurse Practitioner Technology Enhanced Community Health. 0 Credits.**

Prepares students to integrate social determinants of health while using telehealth and digital health technologies to improve care for people living in rural and urban underserved communities.

NURS 8400. Epidemiology and Population Health. 3 Credits.

Integration of population and determinants of health with epidemiological principles. Examination and application of biostatistical and epidemiological methods of analysis. Restricted to students in DNP program. Prerequisites: NURS 6208.

NURS 8401. Organizational Concepts in Nursing. 3 Credits.

Health care delivery systems, the nurse's role in interprofessional/interdisciplinary teams, and organizational development from a nursing perspective.

NURS 8402. Knowledge Management in Nursing. 3 Credits.

The use of knowledge management and information technology as it applies to health care; strategies to improve the efficiency and effectiveness of health care with the use of technology.

NURS 8403. Translating Research into Practice. 3 Credits.

Models and processes of evidence-based practice, strategies to translate evidence into practice, and tools useful for promoting practices in health care settings.

NURS 8405. Health Care Quality Improvement. 3 Credits.

Multidisciplinary background for the science of healthcare quality management; concepts, principles, and philosophy of quality improvement.

NURS 8407. Grant Writing. 3 Credits.**NURS 8409. Health Care Quality Practicum. 3 Credits.**

Quality improvement (QI) processes and patient safety theories, models, methods, and tools in health care settings and their application to conceiving and executing a QI project in an organizational setting.

NURS 8410. Executive Presence I. 2 Credits.**NURS 8411. Executive Presence II. 2 Credits.**

This is a continuation of Executive Presence I. In this course, the student will examine power shifts in leadership, revisit change as a stimulus for innovation, participate in an interactive session for individuals who can practice communicating their practicum proposals and receiving friendly feedback and constructive input from their peers, and re-evaluate the leadership development plan designed in Executive Presence I.

NURS 8412. HC Finance for Nurse Leaders. 3 Credits.**NURS 8413. Adult-Gerontology Acute Care Nurse Practitioner: Advanced Role Immersion. 3 Credits.**

Students develop and integrate bedside with systems and population level competencies; role development, leadership, interdisciplinary collaboration, systems management, and evidenced-based practice are discussed and applied to concurrent clinical experiences; independent practice skills in the context of interdisciplinary teams. Prerequisites: NURS 6235, NURS 6236 and NURS 6237. Recommended background: prior enrollment in NURS 6220, NURS 6234 and NURS 6222.

NURS 8414. DNP Residency. 3 Credits.

Seminar and clinical practicum that focuses on developing and integrating DNP competencies; role development, leadership, interprofessional collaboration, population health, and evidence-based practice; the development of independent practice skills and integration of DNP program outcomes. Prerequisites: NURS 6220, NURS 6222, NURS 6233 and NURS 6234; NURS 6224 or NURS 6230; NURS 6225 or NURS 6231; and NURS 6229 or NURS 6232.

NURS 8416. Entrepreneurship for Nurse Leaders. 3 Credits.

Various aspects of entrepreneurship in the context of the nursing profession.

NURS 8417. Health Policy and Analysis. 3 Credits.

Application of evidence based methods, policy frameworks, cost effectiveness, and cost benefit analysis related to current policy issues.

NURS 8418. Health Care Economics, Finance, and Reimbursement. 3 Credits.

Application of economic concepts to health care financing and reimbursement policy; the effects of historical, current, and emerging models of financing on quality, access, and cost.

NURS 8419. Analytical Methods and Appraisal for Evidence-Based Practice. 3 Credits.

Examination of the merits of common methods and designs for evidence-based practice and practice inquiry. Acquire skills in searching for, critically appraising and grading evidence. Synthesis of research findings to develop practice recommendations. Restricted to students in DNP program. Prerequisites: NURS 6208.

NURS 8420. The Health Policy Process. 3 Credits.

The impact of governmental structures and processes on health policy, access, quality, and cost; the role of nurses in shaping health system change.

NURS 8421. The Legislative and Judicial Processes and Health Policy. 3 Credits.

Health policy legislation and the role of the judiciary. Students develop briefing materials, provide verbal or written testimony, give public comments regarding proposed bills, and assess impact of policy-oriented boards. Includes visits to Capitol Hill or state capitals.

NURS 8422. Health Policy Practicum. 3 Credits.

Students collaborate with a policy expert in a professional organization, government agency, advocacy group, or other entity to develop policy on a specific issue related to cost, quality, or access relevant to patient experience of care.

NURS 8423. The Regulatory Process and Health Policy. 3 Credits.

Knowledge and skills for analyzing rulemaking and regulatory processes that affect health-related issues; workforce scopes of practice; safety of the public; and roles and influence of federal agencies and private organizations charged with implementing newly passed legislation.

NURS 8440. Philosophy of Science and Theories. 4 Credits.

Philosophy of science and scientific methodology in historical context; competing philosophical viewpoints about the nature of scientific knowledge and the implication for knowledge development in nursing science; theoretical foundations of research studies. Restricted to Majors Only.

NURS 8441. Statistics for Health Care Research I. 3 Credits.

Intermediate-level statistics applicable to the analysis of health care data.

NURS 8442. Statistics for Health Care Research II. 3 Credits.

Advanced statistical methods commonly used in health care research. Analysis and interpretation of healthcare data using a variety of statistical techniques, including simple and multiple linear, linear-mixed effects, logistic, and Poisson regression, repeated measures designs, and survival analysis.

NURS 8443. Research Program Development Seminar I. 2 Credits.

Foundational content related to the conduct of research, including research ethics, data management, and modes of new knowledge dissemination. Ethical and other influences that impact the development, implementation, and sharing of discovery science.

NURS 8444. Research Program Development Seminar II. 1 Credit.

Introduction to select professional roles and guidance on preparation for associated responsibilities; forming an effective research team; generating meaningful and impactful scholarship.

NURS 8445. Experimental and Quasi-Experimental Research Designs. 3 Credits.

Formulation of research questions, hypotheses, measurement, sampling, data collection, and statistical approaches for various experimental and quasi-experimental research designs.

NURS 8446. Qualitative Research Design. 3 Credits.

Qualitative methods and designs applicable to translational health science research problems; qualitative epistemology, methods, data collection, and data analysis. Credit cannot be earned for this course and THS 8123.

NURS 8447. Measurement for Health Care Research. 3 Credits.

Measurement theories, principles, and techniques essential for the development and analysis of assessment instruments used in health care research; reliability and validity analysis, generalizability theory, item analysis, linking and scaling procedures, and adjustments for measurement error.

NURS 8448. Systematic Review and Meta-Analysis. 3 Credits.

Systematic reviews and meta-analyses, and their relative utility in answering research questions; formulating questions, defining criteria for including or excluding studies, methods for data extraction, grading the risk for various kinds of bias, and performing a meta-analysis.

NURS 8449. Non-Experimental Research Design. 3 Credits.

Evaluation of secondary data analysis, surveys, case-control studies, cohort studies, and mixed methods approaches.

NURS 8450. Research Rotation. 2 Credits.

Participatory research experience where students and faculty members interact on research-related activities; data collection, data management, data analysis, table and figure preparation, and abstract development.

NURS 8451. Research Practicum. 3 Credits.

Practical experience in an area designated as necessary for additional content expertise, such as systematic review of the literature, survey development, secondary data acquisition and cleaning, or data collection. Student will conduct preliminary research activities in support of the dissertation research. Restricted to doctoral candidates.

NURS 8452. Team Science and Collaboration. 3 Credits.

Measuring team effectiveness by integrating team science, cross-disciplinary research, and methodology; developing research designs to address complex health science problems; and team science and science of team science approaches to promoting team effectiveness. (Same as THS 8103, HSCI 6285).

NURS 8453. Leadership and Health Policy. 3 Credits.

Introduction to integration of health policy and leadership concepts in the use and analysis of research affecting systems and populations; exploration of social, political, and economic principles and theories as they relate to the incorporation of policy analysis and implementation.

NURS 8454. Proposal Development Seminar. 2 Credits.

Faculty supervision and ongoing peer feedback for development of the dissertation proposal.

NURS 8455. Dissertation. 10 Credits.

Culminating research experience for students in the doctoral program in nursing. Following defense of the dissertation proposal, students work with the research advisor and dissertation committee to design and implement a research study, analyze data, and interpret and contextualize findings using the study framework and current state of the science.

NURS 8489. DNP Project Scholarly Inquiry. 3 Credits.

Development of scholarly writing skills, exploration of a phenomenon of interest, and development of skills needed for the responsible conduct of translation of research into practice. Students identify a scholarly topic addressing a practice issue. Restricted to students in DNP program.

NURS 8490. DNP Project Planning. 3 Credits.

Foundational knowledge to support the student in creating a DNP project proposal that includes a project plan, implementation, and evaluation plan. Students identify a practice issue, develop a DNP project plan, and formulate a scholarly project development process. Prerequisite: NURS 8403.

NURS 8491. DNP Project Implementation. 3 Credits.

Implementation of DNP project using leadership, project management, and team building skills. Restricted to DNP students. Prerequisite: NURS 8490.

NURS 8492. DNP Project Evaluation and Dissemination. 3 Credits.

Data collection and evaluation of results from the DNP project using rigorous evaluation criteria and outcome measures. Restricted to DNP students. Prerequisite: NURS 8491.

OCCUPATIONAL THERAPY (OT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

OT 5099. Variable Topics. 1-99 Credits.**OT 8214. Evidence-Based Occupational Therapy Practice. 3 Credits.**

Principles of evidence-based practice applied to clinical questions in the field of occupational therapy. Restricted to occupational therapy majors.

OT 8215. Quality Improvement through Translational Practices. 3 Credits.

Concepts in quality improvement and its connection with evidence-based practice and translational science. The development and validation of quality indicators, including both process and outcome indicators; tracking and monitoring quality improvement projects. Recommended background: Occupational therapy majors.

OT 8220. Measurement of Human Function and Learning. 3 Credits.

Selection, implementation, and evaluation of assessment tools. Changes in performance that occur in clinical environments, in adult educational settings, and in research programs. Levels and purposes of measurement; proximity of the measure to the "intervention;" utility, including reliability and validity; precision, including range, targeting, and sensitivity to change; efficiency and practicality. Recommended background: Occupational therapy majors.

OT 8261. Foundations in Team Science and Clinical and Translational Research. 3 Credits.

Overview and analysis of the translational research principles and practice through the application of basic, clinical, community health, and health services research concepts. Recommended background: Occupational therapy majors. (Same as HSCI 6261).

OT 8272. Mixed Methods in Translational Health Sciences. 3 Credits.

An introduction to mixed methods as a legitimate design tradition, with a unique set of procedures for data collection, analysis, and strategies to assure rigor and accuracy. Students design a mixed methods study to address a translational research question. Recommended background: occupational therapy majors.

OT 8274. Program Theory and Health Innovations. 3 Credits.

Program theory as the basis for designing health and educational innovations that can be tested using scientific methods, replicated in practice, and inform policy. Recommended background: occupational therapy majors.

OT 8275. Doctoral Capstone Preparation. 3 Credits.

Through a combination of didactic information, peer discussion, and advisor discussions, students are trained to communicate more effectively the purpose, rationale/theory, and design of their proposed doctoral capstone. Restricted to occupational therapy majors. Prerequisites: OT 8274.

OT 8276. Doctoral Capstone. 3 Credits.

Mentored doctoral capstone project representing the culmination of the post-professional OTD degree. The purpose of the project is for students to demonstrate advanced skills in evidence-based occupational therapy practice. Restricted to occupational therapy majors with permission of the instructor. Prerequisites: OT 8274.

OT 8448. Neurocognitive Disorders. 3 Credits.

Multifactorial etiology of neurocognitive disorders, including a range of diagnostic subtypes such as Alzheimer's disease, frontotemporal dementia, Lewy bodies dementia, vascular dementia, and Parkinson's disease dementia; effects on the biopsychosocial and occupational health of individuals with neurocognitive disorders and their families. Recommended background: Occupational therapy majors.

OT 8450. Cognition and Cognitive Rehabilitation. 3 Credits.

Advanced principles and theories of cognitive rehabilitation, emphasizing the latest research in information processing. Analysis of cognitive assessment instruments. Cognitive impairments are considered in terms of intervention for persons with stroke, traumatic brain injury, schizophrenia, substance abuse, and related conditions. Recommended background: Occupational therapy majors.

ORGANIZATIONAL SCIENCES (ORSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ORSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

ORSC 1109. Introduction to Organizational Sciences. 3 Credits.

Introduction to organizations, systems theory, and organizational characteristics; structure, leadership, culture, strategy, and organizational life cycles in the context of modern and dynamic environments. Organizational theory as a tool for developing strategic thinking.

ORSC 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. See department for more details. Restricted to CCAS sophomores.

ORSC 2046. Global Organizations. 3 Credits.

The globalization of organizations as the engine for the global movement of talented and skilled professionals; the increasing focus of organizations on attracting, utilizing, and developing such individuals. Issues related to the formulation of global strategy and the leadership of global talent. Prerequisites: ORSC 1109.

ORSC 2099. Variable Topics. 1-36 Credits.**ORSC 2116. Leading Change. 3 Credits.**

An in-depth introduction to and analysis of concepts and techniques of leadership, including motivation, goal alignment, incentives, teamwork, and communication. Conceptual and empirical background of the management of change. Prerequisites: ORSC 1109.

ORSC 2123. Negotiation and Conflict Resolution. 3 Credits.

Theories in psychology, management, and communication as applied to individual-, group-, and organizational-level contexts of negotiation and conflict resolution. Prerequisites: ORSC 1109.

ORSC 2143. Leadership and Performance. 3 Credits.

Leadership from an organization system perspective. Theory, research, and applications pertaining to how leaders can reduce uncertainty through appropriate adaptive change. Prerequisites: ORSC 1109.

ORSC 2544. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Prerequisites: ORSC 1109 or PSYC 1001. (Same as PSYC 2544).

ORSC 2560. Group Dynamics. 3 Credits.

Relationship of the individual to groups, collectivities, and larger social systems. Theory, research, and applications of group and organizational processes. Prerequisites: ORSC 1109 or PSYC 1001.

ORSC 3099. Variable Topics. 1-12 Credits.

ORSC 3141. Strategy in Organizations. 3 Credits.

Processes and theories of strategic management in the profit and nonprofit sectors. Analysis of behavioral, sociopolitical, and economic forces underlying strategy formulation. Strategic competitive advantage; corporate diversification; multinational corporations; evaluation and choice; and implementation of functional and corporate strategies. Prerequisites: ORSC 1109.

ORSC 3159. Extreme Decisions. 3 Credits.

Processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Prerequisites: ORSC 1109.

ORSC 3165. Organizational Network Analysis. 3 Credits.

A relational view of organizations, emphasizing the ways in which business, nonprofit, public, and governmental entities engage with a multitude of actors in pursuit of their goals. Organizational embeddedness and how an organization's position in a web of relations helps or hinders it. Prerequisite: ORSC 1109.

ORSC 3190. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ORSC 1109.

ORSC 3161. Research Methods in Organizational Sciences. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research design in organizational settings. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating results of a variety of research efforts. Prerequisite: STAT 1053 and ORSC 1109. Restricted to organizational science majors.

ORSC 4195. Independent Study. 1-3 Credits.

Opportunity for work on individual research projects. Open to qualified students by permission; arrangements must be made with the sponsoring faculty member prior to registration. A list of participating faculty members and their research specialties is available from the department. Prerequisites: ORSC 1109.

ORSC 4197. Senior Research Seminar. 3 Credits.

Capstone course limited to organizational sciences majors in their senior year. Real world applications of organizational research. Students work on an individually designed research project with results presented in a major paper. Restricted to seniors in the organizational science program. Prerequisites: ORSC 1109 and ORSC 4161. Same As: ORSC 4197W.

ORSC 4197W. Senior Research Seminar. 3 Credits.

Capstone course limited to organizational sciences majors in their senior year. Real world applications of organizational research. Students work on an individually designed research project with results presented in a major paper. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ORSC 1109 and ORSC 4161. Same As: ORSC 4197.

ORSC 5099. Variable Topics. 1-99 Credits.

ORSC 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.

Introductory study of statistical techniques for research problems. Restricted to graduate students in fields other than statistics who have no previous statistics training. Credit cannot be earned for this course and STAT 6104.

ORSC 6165. Organizational and Communication Networks. 3 Credits.

The application of tools of social network analysis to organizational settings and behavior as well as communication processes, both within and among organizations. Restricted to graduate students. (Same as COMM 6165).

ORSC 6209. Management Systems. 3 Credits.

An overview of theoretical frameworks, evolution, concepts, and methods of complex organizational systems. Modern organization theory using systems thinking and concepts. Organizational and management systems paradigm shifts. Problem solving and decision making, stakeholder theory, organizational environments, organizational effectiveness.

ORSC 6212. Current Issues in Personnel Testing and Selection. 3 Credits.

Psychometric, legal, and organizational issues in personnel employment testing and selection, reliability and validity of selection instruments, and the utility of selection systems. The legal environment, including test fairness in selection, adverse impact, and statistical models of test fairness and specific selection techniques. Prerequisite: STAT 2104.

ORSC 6214. Personnel Training and Performance Appraisal Systems. 3 Credits.

Management training programs and training evaluation techniques. Performance appraisal techniques, appraisal systems, relationship of rewards to performance and the appraisal interview. Training and rating systems that satisfy legal requirements and stimulate employee productivity.

ORSC 6216. Theories and Management of Planned Change. 3 Credits.

A systems view of organizational change and development, including intervention strategies, data collection, diagnosis, and the integration and management of system-wide organizational change.

ORSC 6217. Productivity and Human Performance. 3 Credits.

Definitions and measurement of individual, team, and organizational productivity, effectiveness, and efficiency. Models for the analysis of organizational and individual productivity and productivity growth in industrialized nations. Techniques for increasing productivity.

ORSC 6219. Managerial Economics. 3 Credits.

Intermediate microeconomic theory; production and costs, market structure and pricing, risk analysis, and investment theory and capital budgeting. Students who receive credit for this course can receive credit for only one of ECON 6217 or ECON 6219. Restricted to graduate students.

ORSC 6222. Theory and Practice of Compensation Management. 3 Credits.

Analysis of contemporary compensation systems from both theoretical and practical perspectives, including the latest decisions of courts and regulatory agencies. Examination of motivational theories of pay, determinants and effects of salary structures on performance, incentive plans, performance-based compensation, and managerial compensation systems.

ORSC 6223. Collective Bargaining. 3 Credits.

Analysis of federal and state employee relations laws and regulations. Topics include the bargaining environment, wage and benefit issues in arbitration, arbitration of grievances, employee relations in non-union organizations, and behavioral theories of labor negotiations.

ORSC 6224. Persuasion and Negotiation. 3 Credits.

Theories drawn from the psychology, management, and communication literature pertaining to core concepts of social influence, persuasion, and negotiation. Critical assessment of proposals within organizations that use these strategies.

ORSC 6241. Strategic Management and Policy Formation. 3 Credits.

Processes and theories of strategic management in the profit and not-for-profit sectors. Analysis of behavioral, sociopolitical, and economic forces underlying strategy formulation. Issues of strategic competitive advantage; corporate diversification; multinational corporations; evaluation and choice; and implementation of functional and corporate strategies.

ORSC 6242. Organizational Communication and Conflict Management. 3 Credits.

Theories drawn from the communication psychology and management literature pertaining to core concepts of social influence, persuasion, and negotiation. Critical assessment of proposals within organizations that use these strategies. (Same as COMM 6242).

ORSC 6243. Seminar: Leadership in Complex Organizations. 3 Credits.

The view of leadership taken in this seminar extends theories beyond the interpersonal, near-immediate time frame toward an organizational perspective in which cause-and-effect linkages are traced. The leadership role as an attribute of a system. How effective leaders reduce uncertainty through appropriate adaptive change.

ORSC 6245. Seminar: Organizational Behavior. 3 Credits.

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to graduate students. Same As: PSYC 8245.

ORSC 6246. Comparative Management. 3 Credits.

International dimensions of management over a broad spectrum of topics, including cross-national transfer and management practices in a global economy; cross-cultural interaction; business-government relations; expatriation and repatriation processes; international strategic management; technology transfer; globalization of human resources management.

ORSC 6248. Strategic Human Resource Planning. 3 Credits.

Overview of the principles of human resource planning. Model for determining human resource requirements, including forecasting, goal setting, human resource auditing, and environmental scanning. Analysis of the interfaces between human resource planning and personnel selection, job design, training, compensation, and related functions.

ORSC 6250. Leadership Coaching: Principles and Practices. 3 Credits.

An introduction to leadership coaching, including behavioral sciences roots: communication and conflict resolution skills, motivation, personality and performance assessments. Coaching vs. related practice areas; business coaching vs. personal coaching. Professional and ethical standards.

ORSC 6251. Team Coaching and Facilitation. 3 Credits.

Application of the fundamentals and governing values of leadership coaching to the development of productive work groups and communities. The art and practice of facilitation as applied to team learning and the encouragement of breakthrough thinking and team problem solving. Prerequisites: ORSC 6242 and ORSC 6250.

ORSC 6259. Psychology of Individual and Group Decision Making. 3 Credits.

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to graduate students. Credit cannot be earned for this course and PSYC 8259.

ORSC 6261. Research Methods in Organizational Sciences. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research designs. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating research results.

ORSC 6262. Action Research. 3 Credits.

A qualitative approach to action research problems. Students work with a client on an action research project and produce a research report.

ORSC 6295. Directed Research. 1-12 Credits.

Supervised research in selected fields within organizational sciences. Permission of the faculty advisor and instructor required prior to enrollment.

ORSC 6297. Special Topics. 3 Credits.

Special topics in human resource strategic planning, computer-based learning, human-computer interaction, management information technology, knowledge management, coaching, and organizational design.

ORSC 6298. Directed Readings. 1-12 Credits.

Supervised readings in selected fields within organizational sciences. Permission of the faculty advisor and instructor required prior to enrollment.

ORSC 8261. Research Methods in Organizational Sciences. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research designs. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating research results.

PATENT PRACTICE (PATN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PEACE STUDIES (PSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSTD 1010. Introduction to Peace Studies and Conflict Resolution. 3 Credits.

Major thinkers and themes in the field of peace studies and conflict resolution. Focus on philosophical and religious foundations of peace and justice movements in the twentieth century. Examination of peace and conflict through an interdisciplinary lens and on personal, local, and international levels.

PSTD 1099. Variable Topics. 1-36 Credits.**PSTD 3099. Variable Topics. 1-12 Credits.****PSTD 3190. Capstone Seminar. 3 Credits.**

Capstone seminar for peace studies majors and minors in their junior or senior year. Taken concurrently with a relevant internship or as part of a long-term research project to probe the relationship between peace studies and conflict resolution in practice and in theory. Offered in the fall semester only. Restricted to peace studies majors and minors.

PSTD 3191. Special Topics Peace Studies. 1-6 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

PSTD 3999. Independent Study. 1-3 Credits.

Tutorial designed by an undergraduate student under the guidance of a faculty member to pursue an academic topic in the area of Peace Studies and Conflict Resolution outside available course offerings.

PSTD 5099. Variable Topics. 1-99 Credits.

PERSIAN (PERS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PERS 1001. Beginning Persian I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing of Modern Standard Persian. Laboratory fee.

PERS 1002. Beginning Persian II. 4 Credits.

Continuation of PERS 1001. Fundamentals of speaking, understanding, reading, and writing of Modern Standard Persian. Laboratory fee.

PERS 1099. Variable Topics. 1-36 Credits.**PERS 2001. Intermediate Persian I. 4 Credits.**

Continuation of PERS 1001 and PERS 1002. Further development of speaking, understanding, reading, and writing skills of Modern Standard Persian. Laboratory fee. Prerequisites: PERS 1001 and PERS 1002.

PERS 2002. Intermediate Persian II. 4 Credits.

Continuation of PERS 2001. Further development of speaking, understanding, reading, and writing skills of Modern Standard Persian. Laboratory fee. Prerequisites: PERS 1001 and PERS 1002.

PERS 3001. Advanced Persian. 3 Credits.

Development of writing, reading, speaking, and listening skills at the advanced level of proficiency. Laboratory fee. Prerequisites: PERS 2001 and PERS 2002.

PERS 3002. Media Persian. 3 Credits.

Critical analysis of authentic news through the study of a variety of media sources, such as print, radio, and television.

PERS 3002W. Media Persian. 3 Credits.

Critical analysis of authentic news through the study of a variety of media sources, such as print, radio, and television. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PERS 3001.

PERS 3099. Variable Topics. 1-12 Credits.**PERS 3502. Post-Revolutionary Iranian Cinema. 3 Credits.**

Study of social, political, and cultural issues in contemporary Iran through an examination of the country's post-revolutionary cinema; gender dynamics, challenges faced by youth, and the role of art in society. This course is taught in English.

PERS 3502W. Post-Revolutionary Iranian Cinema. 3 Credits.

Study of social, political, and cultural issues in contemporary Iran through an examination of the country's post-revolutionary cinema; gender dynamics, challenges faced by youth, and the role of art in society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. This course is taught in English.

PERS 3901. Directed Project. 1-3 Credits.

Individual advanced reading or research, to be arranged with a member of the faculty. May be repeated for credit. Permission of the instructor and department required prior to enrollment.

PERS 5099. Variable Topics. 1-99 Credits.**PERS 702. Beginning Persian II. 3 Credits.**

PHARMACOGENOMICS (PHRG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHRG 1101. Introduction to Pharmacy Practice I. 2 Credits.

Applications of interpersonal communication and teamwork, basic pharmacology, medication-related mathematics, pharmacy technologies and pharmaceuticals, patient safety and quality, resource management, drug therapy-related legal and ethical standards, and principles of patient-centered care. Prerequisite: HSCI 1101. Recommended background: prior completion of a course in mathematics.

PHRG 1102. Introduction to Pharmacy Practice II. 2 Credits.

Continuation of topics introduced in PHRG 1101. Restricted to Students in SMHS. Prerequisite: PHRG 1101. Recommended background: Prior completion of a course in mathematics.

PHRG 2141. Mol. Bio for Pharmacogenomics. 4 Credits.**PHRG 2142. Molecular Technology for Pharmacogenomics. 2 Credits.****PHRG 4151. Introduction to the Pharmacy Profession. 1.5 Credit.**

The evolving role of the pharmacist in the health care system. Attributes, attitudes, and ethical standards expected of the profession. Concepts of patient-centered care, collaborative care, and the pharmacist as an advocate, educator and health promoter. Pharmacy career paths.

PHRG 4152. Pharmaceutics I. 2 Credits.**PHRG 4153. Pharmaceutics II. 4 Credits.**

The legal, practical, and scientific bases of drug products and pharmaceutical delivery systems. Physiochemical theories, terminology, pharmaceutical skills, and interpretation of the formulation and performance of pharmaceutical products. Laboratory component PHRG 4173.

PHRG 4154. Biomedical Sciences I. 2 Credits.

Advanced biomedical science topics, including biochemistry, molecular biology, and cell biology. Serves as a foundation for study of immunology, medical microbiology, pathophysiology, toxicology, pharmacogenomics, pharmacology, and pharmacotherapeutics.

PHRG 4155. Biomedical Sciences II. 3 Credits.

Advanced topics, including immunology, oncology, and medical microbiology. Serves as a foundation for the study of pathophysiology, toxicology, pharmacogenomics, pharmacology, and pharmacotherapeutics.

PHRG 4156. Integrated Pathophysiology I. 3 Credits.

Pathophysiology of the endocrine, nervous, GI, and musculoskeletal systems. Serves as a foundation for the study of pharmacology, therapeutics, and pharmacogenomics.

PHRG 4157. Integrated Pathophysiology II. 3 Credits.

The pathophysiology of the cardiovascular, renal, respiratory, and reproductive systems. Serves as a foundation for the study of pathophysiology, therapeutics, and pharmacogenomics.

PHRG 4160. Introduction to Physical Assessment. 1 Credit.

How pharmacists use physical assessment in the patient care process. The fundamentals of physical assessment necessary for the practice of pharmacy. Medical terminology, medical abbreviations, documentation of physical assessment findings, and wellness and preventive health. Taken as part of the sequence PHRG 4160-PHRG 4161.

PHRG 4161. Physical Assessment Lab. 1 Credit.

Practical experience in laboratory activities designed to introduce physical assessment and critical thinking skills necessary for the practice of pharmacy. Taken as part of the sequence PHRG 4160-PHRG 4161.

PHRG 4163. Pharmacogenomics Essentials. 2 Credits.**PHRG 4165. Communication in Pharmacy Practice. 2.5 Credits.**

Students develop and apply the communication, interpersonal, and psychosocial skills needed to interact effectively in a changing health care environment. Communicating with patients and health care providers. Cultural issues, psychological and sociological challenges, and health care disparities that affect communication with patients.

PHRG 4167. Intro. Pharm. Pract. Exp. I. 2 Credits.**PHRG 4168. Intro. Pharm. Pract. Exp. II. 2 Credits.****PHRG 4169. Nonprescription Products. 3 Credits.****PHRG 4170. Out. Pharm. Prac. Lab. 1 Credit.****PHRG 4171. Sterile Compounding Lab. 1 Credit.****PHRG 4172. Clin. Drug Info. Skills. 1 Credit.****PHRG 4173. Pharmaceutical Sciences II Laboratory. 1 Credit.**

Laboratory course to accompany PHRG 4153 Pharmaceutics II.

PHRG 5099. Variable Topics. 1-99 Credits.

PHARMACOLOGY (PHAR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHAR 5099. Variable Topics. 1-99 Credits.**PHAR 6116. Pharmacogenomics and Personalized Medicine. 3 Credits.**

Relationships between human genetic variability and drug responsiveness, susceptibility to disease, and disease severity. Scientific, clinical, legal, and ethical challenges in applying pharmacogenomics to drug discovery and clinical development. Application of pharmacogenomics to personalized medicine. Students who have not completed PHAR 6205 or its equivalent prior to enrollment must complete a pharmacology preparatory primer. Restricted to graduate students enrolled in the biomedical sciences program or in Year 2 of the anatomical and translational sciences program. Prerequisites: permission of the instructor.

PHAR 6205. Pharmacology. 5 Credits.

Basic principles of pharmacology, including receptor mechanisms, drug distribution and metabolism, and pharmacokinetics. The interactions of drugs and biological systems as a basis for rational disease therapy. Prerequisites: BMSC 8210 and BMSC 8212; or permission of the instructor. Recommended background: Enrollment in an MA or PhD program in medical-related sciences.

PHAR 6206. Advanced Pharmacology. 5 Credits.

The interactions of drugs and specific organ systems. Current research in pharmacology and toxicology. Prerequisite: PHAR 6205. Recommended background: Enrollment in an MA or PhD program in medical-related science program.

PHAR 6207. Basic Principles of Pharmacology. 2 Credits.

Drug disposition. Autonomic nervous system, cardiovascular and gastrointestinal drugs. Psychopharmacology. Analgesics, sedatives, anticonvulsants. Chemotherapy, toxicology, endocrinology.

PHAR 6208. Pharmacology in Disease Pathophysiology For Health Sciences Students. 2 Credits.

Rational background on which to base understanding of therapeutics in the context of clinical pathophysiology. Representative drugs from various classes are presented. Builds on concepts introduced in PHAR 6207. Restricted to Health Sciences Students. Prerequisite: PHAR 6207.

PHAR 6322. Advanced Professional and Communication Skills. 3 Credits.

Best practices and strategies for attaining success in MS and PhD graduate programs and in future professional career paths, both in and outside academia. Restricted to graduate students. Recommended background: graduate students in STEM fields.

PHAR 6501. Readings in Pharmacology. 1-12 Credits.

Readings, discussions, and/or preparation of report. Student can choose to work with one or more faculty members in the department on a topic of mutual interest.

PHAR 6502. Clinical Use of Drugs. 3 Credits.

Discussion of the rational use of drugs in the treatment of disease. Independent reading and study.

PHAR 8211. Physiology. 3 Credits.

Basic medical science examining the normal function of the body and the control systems that maintain its homeostasis, integrating biochemistry and anatomy at the organ and organismal level. Prerequisites: BMSC 8210 and BMSC 8212.

PHAR 8214. Physiology and Pharmacology Seminar. 1 Credit.

Current and emerging topics with presentations and discussions facilitated by leading experts from GW and outside institution; student-led journal club and oral presentation opportunities. May be repeated for credit. Prerequisites: BMSC 8210 and BMSC 8212.

PHAR 8281. Molecular Pharmacology and Neurobiology of Excitable Tissues. 3 Credits.

Basic principles of molecular pharmacology and neurobiology of excitable tissues, the methods used in these disciplines, and current and emerging research in the field. Prerequisites: BMSC 8210 and BMSC 8212.

PHAR 8998. Advanced Reading and Research. 1-12 Credits.

Restricted to doctoral candidates preparing for the qualifying examination. May be repeated for credit.

PHAR 8999. Dissertation research. 3-12 Credits.

Restricted to doctoral candidates. May be repeated for credit.

PHILOSOPHY (PHIL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHIL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PHIL 1051. Introduction to Philosophy. 3 Credits.

Readings from major philosophers and study of their positions on the most basic questions of human life. Topics include such issues as: What is justice? What is knowledge? What is reality? Does God exist? What is the mind? Do humans have free will?

PHIL 1062. Philosophy and Film. 3 Credits.

Philosophical problems and theories of perception, meaning, personal identity, and moral agency and their illustration in the context of cinema. Cinema and its derivatives (TV, video) as prime routes to experience of the natural and social worlds in an age of communication. Readings in classical and contemporary philosophy and in film theory; screening of a series of films.

PHIL 1099. Variable Topics. 1-36 Credits.**PHIL 1153. The Meaning of Mind. 3 Credits.**

Introductory course for students with no background in philosophy or the sciences of the mind. The central questions, assumptions, and hypotheses about the human mind. The nature of thought, consciousness, and self; knowledge of other minds; implications of the sciences of the mind for freedom of the will and responsibility; and the relationship between the mind and the brain.

PHIL 1193. Introduction to Existentialism. 3 Credits.

The philosophical themes of selfhood, mortality, authenticity, and ethical responsibility from an existentialist perspective, including the writings of Kierkegaard, Heidegger, Nietzsche, Camus, and Sartre. The place of existentialism in the history of philosophy.

PHIL 2045. Introduction to Logic. 3 Credits.

Introduction to informal logic, scientific argument, and formal logic. The informal logic component focuses on fallacies of reasoning and practical applications of logic. The formal logic component focuses on translation from English into propositional logic, truth tables, and proofs in propositional logic.

PHIL 2111. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2111W. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2112. History of Modern Philosophy. 3 Credits.

History of Western philosophy of the 16th through 18th centuries; Continental Rationalism and British Empiricism from the scientific revolution through the Enlightenment; major emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Prerequisite: PHIL 1051.

PHIL 2124. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights. Same As: PHIL 2124W.

PHIL 2124W. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 2124.

PHIL 2125. Philosophy of Race and Gender. 3 Credits.

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender.

PHIL 2125W. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2131. Ethics: Theory and Applications. 3 Credits.

Examination of leading ethical theories (e.g., utilitarianism, deontology, virtue ethics), and methodology in ethics. Engagement with contemporary problems.

PHIL 2132. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2132W. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2133. Philosophy and Nonviolence. 3 Credits.

Violence and nonviolence in the personal and social struggle for meaningful, just, and peaceful existence; philosophical foundations of pacifism and nonviolent resistance in the thought of Tolstoy, Gandhi, King, and others; philosophical inquiry into war, terrorism, genocide, and ethnic conflict, as well as human rights, humanitarian intervention, and just war theory.

PHIL 2134. Philosophy of Human Rights. 3 Credits.

Conceptual, ethical, and theoretical analyses of human rights with emphasis on the justification of human rights, the debate over cultural relativism, and the application of human rights norms in domestic and global contexts.

PHIL 2135. Ethics in Business and the Professions. 3 Credits.

Ethical theories and basic concepts for analysis of moral issues arising in business and in professional practice.

PHIL 2136. Contemporary Issues in Ethics. 3 Credits.

Introduction to a range of debates in applied ethics, including both classic debates concerning topics such as the permissibility of abortion, animal treatment, and suicide as well as more current debates concerning our interactions with the environment and our obligations to the poor in a global context.

PHIL 2140. Philosophy of Love, Sex, and Friendship. 3 Credits.

Introduction to the philosophy of love, sex, and friendship through historical and contemporary texts; the differences between love and friendship, whether love and friendship require an ethical justification, and feminist approaches to sex and sexuality.

PHIL 2281. Philosophy of the Environment. 3 Credits.

Three models of environmental sustainability: the current paradigm in economic and cultural thinking (neoclassical economics); redistribution of resources toward greater global equity (a macroeconomic perspective); and de-growth in the developed economies (ecological economics). The models offer different perspectives on what environmental sustainability means and how it can impact the cultural, religious, moral, metaphysical, and existential situation.

PHIL 3099. Variable Topics. 1-12 Credits.**PHIL 3100. Selected Topics. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3100W. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 3113. Nineteenth-Century Philosophy. 3 Credits.

European philosophy of the nineteenth century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051.

PHIL 3113W. Nineteenth-Century Philosophy. 3 Credits.

European philosophy of the 19th century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PHIL 1051. Same As: PHIL 3113.

PHIL 3121. Symbolic Logic. 3 Credits.

Analysis and assessment of deductive arguments, using propositional, predicate, and other logics; philosophical basis and implications of logical analysis; metatheory of logic; modal and non-standard logics. Prerequisites: Permission of the instructor.

PHIL 3142. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3142W. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 3151. Philosophy of Science. 3 Credits.

Philosophical issues raised by the sciences. The distinction between scientific and non-scientific explanations, the nature of causality and natural laws, the role of empirical evidence in science, the status of unobservable, theoretical posits in science, and the historical sources of scientific hypotheses. A 2000-level philosophy course may be substituted for the prerequisite. Prerequisite: PHIL 1051.

PHIL 3151W. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or two semesters of college-level science.

PHIL 3152. Theory of Knowledge. 3 Credits.

Inquiry into the basis and structure of knowledge, the problems of skepticism and justification, the relations between subjectivity and objectivity, and the contributions of reason, sense experience, and language. Prerequisite: PHIL 1051. Recommended background: PHIL 2112.

PHIL 3153. Mind, Brain, and Artificial Intelligence. 3 Credits.

Investigation of the nature of mind from a variety of perspectives, including neuroscience, cognitive psychology, and artificial intelligence, as well as traditional philosophy of mind. Possible additional topics include consciousness, mental disorders, animal minds, and the nature and meaning of dreams. Prerequisites: PHIL 1051 or PHIL 1153 or PHIL 2112 or permission of the instructor.

PHIL 3161. Philosophy and Literature. 3 Credits.

Critical investigation of the sociopolitical commitments that inform the practices of reading and writing as discussed by Sartre, Barthes, Foucault, and others. Focus on the development of existentialist themes, including authenticity, freedom, temporality, and death in the work of Kafka, Tolstoy, Mann, Woolf, and others.

PHIL 3162. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113. Same As: PHIL 3162W.

PHIL 3162W. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113. Same As: PHIL 3162.

PHIL 3172. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3172W. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late nineteenth through mid-twentieth centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 3172.

PHIL 3201. Perspectives on Math and Science. 3 Credits.

Topics and episodes in the history of science and math. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Same As: GTCH 3201.

PHIL 3251. Philosophy of Biology. 3 Credits.

An introduction to conceptual and methodological issues raised by contemporary biology, including teleology, reductionism, units of selection, the structure of evolutionary theory, genetics, taxonomy, and the nature of scientific explanation. Other issues may include the nature-nurture debate, creationism/intelligent design, the evolution of altruism, and the relevance of evolutionary theory to ethical questions.

PHIL 4000. Special Topics in the History of Philosophy. 3 Credits.

In-depth reading of two Kantian masterpieces, Critique of Pure Reason (1781; second edition 1787) and Groundwork for the Metaphysics of Morals. Restricted to juniors. Prerequisites: PHIL 2111, or PHIL 2112, or PHIL 3113 or PHIL 4193.

PHIL 4192. Analytic Philosophy. 3 Credits.

The dominant movements of twentieth-century Anglo-American philosophy, including logical positivism, British ordinary language philosophy, and neopragmatism, as represented by Russell, G.E. Moore, Wittgenstein, Ayer, Quine, Kripke, et al. Students must have completed one other upper-division philosophy course prior to enrollment. Recommended background: PHIL 2112 and PHIL 3121.

PHIL 4193. Twentieth-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisites: PHIL 2112 or PHIL 3113.

PHIL 4193W. Twentieth-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 2112 or PHIL 3113. Same As: PHIL 4193.

PHIL 4195. Topics in Value Theory. 3 Credits.

Variable topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4195W. Topics in Value Theory. 3 Credits.

Various topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy, such as contemporary philosophy of religion. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 4195.

PHIL 4196. Topics in Theory of Knowledge. 3 Credits.

Variable topics in epistemology, philosophy of science and mathematics, philosophy of mind, and similar subfields. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4198. Proseminar. 3 Credits.

Variable topics; preparation and presentation of a major research paper. May be repeated for credit. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

PHIL 4198W. Proseminar in Philosophy. 3 Credits.

Preparation and presentation of a major research paper. May be repeated for credit provided the topic differs. Topics vary by semester. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

PHIL 4199. Readings and Research. 1-3 Credits.

Independent study to be arranged with a faculty sponsor. Permission of the department required prior to enrollment.

PHIL 4199W. Readings and Research. 3 Credits.

Independent study to be arranged with a faculty sponsor. Departmental approval is required prior to enrollment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 5099. Variable Topics. 1-99 Credits.

PHIL 6000. Topics in Advanced Analytic Philosophy. 3 Credits.

The application of the methods and insights of twentieth and twenty-first century analytic philosophy to contemporary questions and/or social issues; philosophy of language, philosophy of mind, epistemology, and value theory. Topics vary by semester. See department for details. Restricted to graduate students; undergraduate students may enroll only with the permission of the instructor.

PHIL 6201. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6202. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6211. Topics in the History of Ancient Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6212. Topics in the History of Modern Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6221. Advanced Logic. 3 Credits.

Intensive reading of a difficult text in an advanced logical system or a series of logical systems. Focus on analyzing reasoning under partial information, using the formal system to analyze fallacies of reasoning and analyzing quantum phenomena using the formal system. Restricted to graduate students. Recommended background: Good formal training in logic - propositional logic: natural deduction, tables and trees; first-order logic: language (translation from English), trees and natural deduction; some limitative results, eg, decidability, compactness, completeness, Löwenheim-Skolem properties, soundness, etc.

PHIL 6222. Philosophy of Mathematics. 3 Credits.

Examination of several philosophies of mathematics, with in-depth concentration on Field's "fictionalism." A fictionalist believes that all of the ontology of mathematics is favorably compared to a fictional object, so it does not literally exist. Students develop reactions to Field's philosophical position using the resources of alternative philosophical positions. Restricted to graduate students. Recommended background: Basic understanding of first-order logic.

PHIL 6223. Philosophy of Logic. 3 Credits.

Central concepts in the philosophy of logic, including truth, reasoning, inference, deduction, induction, judgment, assertion, warrant, proof, demonstration, meaning, semantics, syntax, paradox, mathematical models, and the relationship between a formal representation of logical reasoning and the philosophical ideal of the practice of reasoning. Recommended background: Some grounding in first-order logic is presupposed.

PHIL 6225. Queer(ing) Philosophy. 3 Credits.

Examination of how queer theory, which emerged as a field in its own right in the early 1990s, has posed significant challenges to traditional, taken-for-granted understandings of time, space, the body, race, sexuality, normality, culture, violence, and disability. Restricted to graduate students.

PHIL 6230. Ethical Issues in Policy Arguments. 3 Credits.

Critical analysis of ethical foundations of public policy arguments, e.g., about protection of the environment or health and safety, equality of opportunity. Case studies of appeals to "welfare improvements," to norms of duty, to "the social contract," and to rights-claims. Attention to historical contexts and biases. May be taken for undergraduate credit with permission of the instructor.

PHIL 6231. Seminar: Economic Justice. 3 Credits.

Ethical and economic analysis of equity and efficiency of current U.S. income distribution patterns. Theories of justice; economic theories of distribution; assessment of redistribution policies. May be taken for undergraduate credit with permission of the instructor.

PHIL 6232. Topics in Contemporary Political Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6233. Contemporary Moral Philosophy. 3 Credits.

Investigation of contemporary debates in normative ethics and/or metaethics. Topics may include the virtue ethics revival in the twentieth century, the distinction between the right and the good, or important metaethical positions such as fictionalism, expressivism, and constitutivist accounts of moral principles. Restricted to graduate students.

PHIL 6234. Consequentialism and Its Critics. 3 Credits.

An overview of the debate over consequentialism, culminating in discussion of recent literature. Forms of consequentialism (act, rule, motive, cooperative); direct versus indirect; classic objections and replies; partiality; friendship; agent-relative considerations; doctrine of doing and allowing; doctrine of double effect. Restricted to graduate students.

PHIL 6236. Moral Status. 3 Credits.

Examination of the question of what sorts of beings matter morally in their own right and how much they matter. While the paradigm bearers of moral status are persons, the course considers competing ways of thinking about the possible moral status of human nonpersons, nonhuman persons, great apes, dolphins, other sentient animals, nonsentient lifeforms, the environment, future people, and advanced forms of artificial intelligence. Restricted to graduate students.

PHIL 6237. Animal Ethics. 3 Credits.

The moral status of animals and the ethics of human use of animals. Major topics include models of moral status, animals' mental life, and specific ethical issues associated with the eating of animal products, the use of animals in research, and the keeping of animals in homes and zoos. Restricted to graduate students.

PHIL 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems, such as respecting cultural differences, dependency, disability. Prerequisites: PHIL 2125 or PHIL 2131. (Same as WGSS 6238).

PHIL 6239. Virtue Ethics. 3 Credits.

Historical and/or contemporary approaches to virtue ethics and key readings in the virtue ethical tradition. Topics include empirical work on virtue in philosophy and psychology, the divide between "radical" virtue ethics and contemporary virtue ethics, "hybrid" approaches to virtue ethics (e.g., consequentialist virtue ethics), and meta-ethical issues relevant to the study of virtue. Restricted to graduate students.

PHIL 6242. Philosophy, Law, and Social Policy. 3 Credits.

Consideration of the relationship between legal interpretation and policy goals. Theories concerning the role of the judiciary in a constitutional democracy and methods of constitutional and statutory interpretation. Representative policy topics include capital punishment, pornography, affirmative action, welfare, property rights, racial gerrymandering, gun control.

PHIL 6245. Biomedical Ethics. 3 Credits.

An in-depth introduction to the field of biomedical ethics. Following a brief review of ethical theory, the course proceeds to several central topics in biomedical ethics before ending with students' presentations of their original research. The emphasis is on normative ethical reasoning, with considerable attention to the empirical assumptions underlying particular ethical judgments and to policy dimensions of several of the central topics.

PHIL 6250. Topics in Health Policy. 3 Credits.

Topics in health policy from the perspective of philosophical ethics, including human and animal research, the enhancement of human traits, justice and health care allocation.

PHIL 6251. Advanced Introduction to Philosophy of Mind. 3 Credits.

Critical examination of classical philosophical arguments pertaining to the mind/body problem, the problem of consciousness, the problem of intentionality, the problem of freedom of the will, and the problem of personal identity. Focus on careful analysis of classical philosophical writings on these topics. Restricted to graduate students.

PHIL 6252. Advanced Introduction to Philosophy of Cognitive Science. 3 Credits.

The emergence of cognitive phenomena in phylogeny and ontogeny, social cognition, nativist vs. empiricist approaches to cognition, models of reasoning and decision-making, representationalist vs. embodied/embedded/enactive approaches to cognition, and theories of perception, memory, and concepts. Restricted to graduate students.

PHIL 6253. Cognitive Science and Public Policy. 3 Credits.

The cognitive sciences are providing new insights into the nature of human decision making at an accelerating pace. Cognitive psychology, cognitive neuroscience, neuroeconomics, evolutionary psychology, and developmental and comparative psychology are rewriting theories about human nature with significant implications for public policy. The course examines recent work in the cognitive sciences with the intent of drawing out its public policy implications.

PHIL 6254. Mental Representation. 3 Credits.

Thoughts are like pictures of the world in that they represent the world. But thoughts sometimes represent the world in ways that don't correspond to the way it actually is. How do thoughts come to have representational content? Why do we have thoughts? Such questions are considered through the careful reading of recent work on the subject. Restricted to graduate students.

PHIL 6257. The Nature of Animal Minds. 3 Credits.

Do nonhuman animals have minds? If so, what are they like? How are they similar and how are they different from our minds? What might count as evidence that an animal has a mind? Consideration of some of the questions philosophers and scientists have been asking and issues these questions raise when we think about the possibility that nonhuman animals are thinking creatures. Restricted to graduate students.

PHIL 6262. Normative Issues in Foreign Policy. 3 Credits.

Selected issues on foreign policy from a normative perspective; emphasis on human rights, economic globalization, global poverty, sustainable development, and the ethics of military intervention.

PHIL 6281. Environmental Philosophy and Policy. 3 Credits.

Examination of philosophical frameworks for assessing policy approaches to environmental problems. Representative topics include duties to future generations, environmental justice, legal rights for natural objects, critiques of cost-benefit analysis, sustainability, risk measurement, the intrinsic value of nature.

PHIL 6290. Special Topics in Public Policy. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 6293. Contemporary Continental Philosophy. 3 Credits.

Focus on several powerful philosophical concepts introduced by late twentieth/early twenty-first-century continental scholars, and the influence these scholars have had upon one another. Critical examination of the theoretical resources the works provide in articulating some of the most urgent ethical, social, and political demands of contemporary human existence. Restricted to graduate students.

PHIL 6294. Special Topics in Continental Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6998. Thesis Research. 3 Credits.**PHIL 6999. Thesis Research. 3 Credits.**

PHYSICAL THERAPY (PT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PT 5099. Variable Topics. 1-99 Credits.**PT 8201. Functional Anatomy. 5 Credits.**

Human gross anatomy with cadaveric dissection. Clinical correlations. Normal structure and functional relationships. Common pathologies and individual and age-related differences examined.

PT 8202. Applied Physiology. 4 Credits.

Normal function of major organ systems of the human body and related rehabilitation concepts. Exercise testing, prescription, progression and expected outcomes examined. Effects of exercise in healthy individuals across the lifespan and in special populations.

PT 8203. Neuroscience in Rehabilitation I. 3 Credits.

Normal structure and function of the nervous system across the life span. Injury to neural structures and response to injury examined. Application of principles of neuroplasticity to clinical practice. Clinical correlations.

PT 8204. Movement Science I. 2 Credits.

Normal human movement, structure and function examined using biomechanics and kinesiology principles. Biomechanical function of musculoskeletal tissues explored with special emphasis on articular systems.

PT 8205. Movement Science II. 3 Credits.

Kinematics and kinetics of movement. Normal and pathological mechanics of functional movement, including deficits in musculoskeletal system, posture, and gait. Examination of complex activities such as locomotion.

PT 8206. Neuroscience in Rehabilitation II. 2 Credits.

Neurologic mechanisms of normal and impaired posture, mobility and extremity function examined. Application of motor learning and skill acquisition principles applied. Neurological examination using case studies and clinical correlates.

PT 8207. Clinical Medicine and Pharmacology. 4 Credits.

Systems approach to diseases requiring physical therapy. Pharmacological principles and impacts of certain pharmacological agents on physical therapy intervention. Drug interactions, systems review, and "red flags" requiring physician referral addressed.

PT 8208. Medical Imaging. 1 Credit.

Principles of medical imaging related to physical therapy management, including diagnosis and intervention planning.

PT 8271. Research in Practice. 3 Credits.

Critical appraisal of the literature related to the validity of research methods and interpretation of statistical results. Application of evidence to clinical practice as it relates to physical therapy examination, diagnosis, intervention, and prognosis.

PT 8272. Research Seminar. 3 Credits.

Evidence based analysis of physical therapy literature with application of principles of research design, data analysis and synthesis to evaluate outcomes within the context of patient management. Ethical considerations are addressed.

PT 8311. Foundations of Examination. 4 Credits.

Examination within the patient/client management model of physical therapy. Development of proficiency in basic systems review, selection and administration of tests and measurements, and diagnostic classifications.

PT 8312. Foundations of Interventions. 4 Credits.

Intervention within the patient/client management model of physical therapy. Development of proficiency in basic patient care skills and selection and administration of therapeutic exercise.

PT 8313. Therapeutic Modalities. 2 Credits.

Administration of physical, thermal, mechanical, and electrical interventions consistent with patient diagnosis and prognosis. Critical appraisal of the literature to apply best evidence to practice and clinical decision making.

PT 8314. Management of Cardiopulmonary Dysfunction. 4 Credits.

Physiology and pathophysiology of the cardiopulmonary system as basis for management of the patient/client with cardiopulmonary dysfunction. Examination, evaluation, diagnosis, prognosis and implementation of evidence-based interventions in all care settings. Focus on health promotion and wellness.

PT 8315. Management of Musculoskeletal Dysfunction I. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to the extremities.

PT 8316. Management of Musculoskeletal Dysfunction II. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to spinal dysfunction. Ergonomic principles used to address industrial health related issues.

PT 8317. Management of Integumentary Dysfunction. 1 Credit.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with integumentary impairments and functional limitations as well as peripheral vascular, metabolic, and immune system impairments.

PT 8318. Management of Neuromotor Dysfunction. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for adults with neuromotor impairments and functional limitations.

PT 8320. Management of the Pediatric Client. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions for the pediatric client. Selection and administration of outcome measures for children with neuromuscular and musculoskeletal dysfunction. Psychosocial, ethical and legal factors specific to the pediatric client.

PT 8321. Women's Health. 1 Credit.

Physical therapy for issues related to women's health within the patient/client management model.

PT 8322. Management of the Aging Adult. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for the geriatric population. Typical age-related changes in function. Outcome measures for neuromotor, musculoskeletal, and cardiopulmonary dysfunction in the aging population. Comorbidities, psychosocial, ethical, and legal factors.

PT 8323. Prosthetics and Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity of persons with functional limitations. Prescription, fabrication, and fitting of prosthetic and orthotic devices.

PT 8351. Professional Issues in Physical Therapy Health Care Management I. 4 Credits.

Professional practice expectations including legal and regulatory boundaries. Interdisciplinary health care team examined and significance of effective communication. Ethical issues related to physical therapy within the context of professional core values. Patient management models introduced along with evidence based practice.

PT 8352. Teaching in Physical Therapy Practice. 2 Credits.

Principles and strategies for effective teaching in academic and clinical environments. Patient/client, peer, and professional presentations.

PT 8355. Professional Issues in Physical Therapy Health Care Management II. 3 Credits.

Administration and practice management, including marketing, fiscal management, billing, reimbursement, and administrative procedures related to physical therapy practice. Introduction to health care policy as related to the profession of physical therapy. Policy development, macro and micro health policy and patient advocacy.

PT 8356. Health Promotion and Wellness. 1 Credit.

The role of the physical therapist in health promotion and disease prevention across the life span. Focus on screening, client education, and traditional and nontraditional strategies for the promotion of healthy lifestyles.

PT 8357. Capstone Seminar. 1 Credit.

Exploration of professional practice issues, including lifelong learning. Professional electronic portfolios presented. Assessment of educational experiences focusing on quality improvement and professional development.

PT 8361. Clinical Conference I. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8362. Clinical Conference II. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8363. Clinical Conference III. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8364. Clinical Conference IV. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8365. Clinical Conference V. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8366. Clinical Conference VI. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8383. Prosthetics and Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity of persons with functional limitations. Prescription, fabrication, and fitting of prosthetic and orthotic devices.

PT 8402. Exercise Physiology. 2 Credits.

Lecture/laboratory. Effects of exercise in healthy individuals and special populations, including aged and immobilized patients and those with neuromusculoskeletal deficits.

PT 8403. Functional Anatomy. 5 Credits.

Lecture/laboratory. Human gross anatomy with cadaveric dissection. Clinical correlations. Normal structures and functional relationships. Common abnormalities and individual and age-related differences.

PT 8404. Kinesiology. 4 Credits.

Kinematics and kinetics of movement. Normal and pathological mechanics of functional movement, including deficits in musculoskeletal system, posture, and gait. Interventions and functional outcomes.

PT 8407. Medical Imaging. 1 Credit.

Principles of medical imaging related to physical therapy management, including diagnosis and intervention planning.

PT 8416. Management of Musculoskeletal Dysfunction II. 3 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to spinal dysfunction.

PT 8417. Management of Integumentary Dysfunction. 1 Credit.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with integumentary impairments and functional limitations as well as peripheral vascul.

PT 8420. Pediatrics. 4 Credits.

Lecture/laboratory. Development issues related to pediatric impairments and functional limitations. Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for chi.

PT 8421. Women's Health. 1 Credit.

Lecture/laboratory. Physical therapy for issues related to women's health within the patient/client management model.

PT 8422. Geriatrics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for the geriatric population. Typical age-related changes in function. Outcome measures for neuromotor, mus.

PT 8423. Prosthetics and Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity (.

PT 8454. Health Promotion and Wellness. 1 Credit.

The role of the physical therapist in health promotion and disease prevention across the life span. Focus on screening, client education, and traditional and nontraditional strategies for the promotion of healthy lifestyles.

PT 8455. Administration and Management of Physical Therapy Practice. 2 Credits.

Administration and practice management, including marketing, fiscal management, billing, reimbursement, and administrative procedures related to physical therapy practice.

PT 8456. Health Policy and Advocacy. 1 Credit.

Introduction to health care policy as related to the profession of physical therapy. Policy development, macro and micro health policy.

PT 8457. Capstone Seminar. 1 Credit.

Exploration of professional practice issues, including lifelong learning. Professional electronic portfolios presented. Assessment of educational experiences focusing on quality improvement and professional development.

PT 8462. Clinical Conference II. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8463. Clinical Conference III. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8464. Clinical Conference IV. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8465. Clinical Conference V. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8466. Clinical Conference VI. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8481. Interprofessional Community Practicum. 1 Credit.

Students explore the concepts of community health, health prevention/wellness, cultural competence, continuous quality improvement, and team building through active participation in a university community health service learning project.

PT 8483. Integrated Clinical Experience I. 1 Credit.

Part-time physical therapy clinical experiences in a range of clinical settings. Supervised integration and implementation of components of the patient/client management model and professional practice expectations.

PT 8484. Integrated Clinical Experience II. 1 Credit.

Part-time physical therapy clinical experiences in a range of clinical settings. Supervised integration and implementation of components of the patient/client management model and professional practice expectations in preparation for full-time clinical in.

PT 8490. Externship Elective. 8 Credits.

Interested students can apply for consideration of an externship in advanced clinical practice, teaching, research, or governmental affairs. Credit varies based on the length of stay and demands of the externship.

PT 8491. Clinical Education Experience I. 5 Credits.

Full-time physical therapy clinical experience in various settings. Implementing all aspects of patient management and professional practice expectations for clients with non-complex/complex problems at advanced-beginner level. Prerequisites: PT 8483 and PT 8484 and successful completion of all comprehensive examinations.

PT 8492. Clinical Education Experience II. 8 Credits.

Full-time physical therapy clinical experience in various settings. Implementing all aspects of patient management and professional practice expectations for clients with non-complex/complex problems at advanced-intermediate/entry-level competence. Prerequisites: PT 8483, PT 8484, and PT 8491 and successful completion of all comprehensive examinations.

PT 8493. Clinical Education Experience III. 9 Credits.

Full-time physical therapy clinical experience in various settings. Implementing all aspects of patient management and professional practice expectations for clients of all ages with non-complex/complex problems at entry-level competence. Prerequisites: PT 8483, PT 8484, PT 8491, and PT 8492 and successful completion of all comprehensive examinations.

PHYSICIAN ASSISTANT (PA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PA 5099. Variable Topics. 1-99 Credits.**PA 6101. Clinical Assessment I. 4 Credits.**

Foundations of comprehensive history taking, physical exam assessments, and the proper documentation of these components in the medical record. Integrates concepts of effective communication and basic knowledge of human anatomy and physiology.

PA 6102. Clinical Assessment II. 1 Credit.

Builds upon Clinical Assessment I. Integration of effective communication and knowledge of human anatomy, physiology, clinical medicine, and pharmacology. Introduction to techniques to assess common abnormal physical exam findings. Development critical thinking skills in the areas of differential diagnoses and development of treatment plans.

PA 6103. Clinical Assessment III. 1 Credit.

Further development of clinical decision making skills and refinement of techniques involved in history taking and physical examinations. Integration of effective communication and knowledge of human anatomy, physiology, clinical medicine, and pharmacology.

PA 6104. Integration into Clinical Concepts I. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6105. Integration into Clinical Concepts II. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. Builds upon skills learned in Clinical Concepts I. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6106. Integration into Clinical Concepts III. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. Builds upon skills learned in Clinical Concepts I and II. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6109. Foundations of Medicine. 5 Credits.

The Foundations of Medicine course is designed to provide the first year physician assistant student with a baseline level of knowledge of the basic sciences (biochemistry, pathology, medical microbiology, genetics, and laboratory medicine) to the study of health and disease upon which studies in medicine further build.

PA 6110. Evidence Based Practice for PA Students. 3 Credits.

Introduction to research including methodology, statistical analyses, formulating research questions, and evaluating research designs with an emphasis on studies assessing therapeutic interventions, diagnostic testing, and prognostic indicators of health and disease as part of evidence-based clinical practice.

PA 6111. Evidence Based Practice for PA/MPH Students. 1 Credit.

Advanced application of research-, statistical-, and evidence-based medicine concepts presented in public health courses. Emphasis on studies assessing therapeutic interventions, diagnostic testing, and prognostic indicators of health and disease.

PA 6112. Clinical Medicine I. 7 Credits.

A systematic review and discussion of the epidemiology, pathophysiology, clinical manifestations, diagnosis, and management of the most common diseases in humans.

PA 6113. Clinical Medicine II. 7 Credits.

This course is a systematic review and discussion of the epidemiology, pathophysiology, clinical manifestations, diagnosis and management of the most common diseases in humans. It builds upon the foundation of basic science knowledge and clinical assessment skills.

PA 6116. Clinical Skills I. 2 Credits.

Development of diagnostic and therapeutic skills essential to clinical practice. Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films.

PA 6117. Clinical Skills II. 1 Credit.

Development of diagnostic and therapeutic skills essential to clinical practice. Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films.

PA 6118. Health, Justice, and Society I. 2 Credits.

Presentation and discussion of issues including social determinants of health, cultural competency, ethical principles, epidemiology, and patient safety. A related community service component is included in PA 6119.

PA 6119. Health, Justice, and Society II. 1 Credit.

Continuation of PA 6118. Students interact with community clinicians and/or members of communities with vulnerable populations, developing communication and team practice skills through participation in team projects. Prerequisites are PA 6118 for MSHS PA students; PUBH 6007 for joint degree PA/MPH students.

PA 6120. Human Behavior. 2 Credits.

Integration of concepts of behavioral health in patient-centered care; comprehensive overview of psychiatry. Restricted to students in the physician assistant program.

PA 6121. Clinical Specialties. 6 Credits.

Foundations of patient management in surgical, pediatric, and emergency medicine.

PA 6122. Role of PA in American Health Care. 2 Credits.

The history, development, and current status of the physician assistant profession within the context of the U.S. health system, such as practice roles, legal issues, and economic aspects of the profession.

PA 6259. Introduction to Clinical Education. 2 Credits.

Provides physician assistant students with the necessary knowledge and skills to facilitate the transition from the academic to the clinical environment and to promote high quality clinical education experiences. Prerequisites: successful completion of all components of the didactic phase of the program.

PA 6261. Inpatient Medicine Clinical Practicum. 5 Credits.

Clinical practicum for the second-year physician assistant students. Focus on the role of the PA in hospital based inpatient care. Using an evidence-based approach, students evaluate and manage problems encountered in inpatient settings. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6262. Primary Care Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in the care of pediatric patients. Using an evidence-based approach, students evaluate and manage pediatric medical problems. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6263. Surgical Inpatient Clinical Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in the care of the surgical patient and on the surgical patient management team. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6264. Women's Health Clinical Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in women's health. Using an evidence-based approach, students evaluate and manage women's health problems. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6265. Pediatrics Clinical Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in the care of pediatric patients. Using an evidence-based approach, students evaluate and manage pediatric medical problems. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6266. Emergency Medicine Clinical Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in emergency care. Using an evidence-based approach, students evaluate and manage emergency medicine problems. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6267. Behavioral Medicine Clinical Practicum. 5 Credits.

Clinical practicum for second-year physician assistant students. Focus on the role of the physician assistant in psychiatric and/or behavioral medicine. Using an evidence-based approach, students evaluate and manage psychiatric/behavioral problems. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6268. Elective Clinical Practicum. 5 Credits.

Clinical practicum providing students with an opportunity to develop additional competencies in one or more areas of medicine or a related field. Prerequisites: successful completion of all components of the didactic phase of the physician assistant program.

PA 6299. Independent Study. 1-12 Credits.

Faculty approved didactic or clinical coursework primarily used for remediation purposes.

PA 6300. Introduction to Professional Practice. 2 Credits.

Examination of contemporary issues in physician assistant practice as the student transitions to a professional role. By emphasizing continuous professional development; career trajectories; professional practice issues such as ethics, regulatory issues, credentialing, privileging, and malpractice; and maintenance of certification, the students is prepared to manage their emerging professional role and responsibilities.

PHYSICS (PHYS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHYS 1000. Dean's Seminar. 4 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. See department for more details Restricted to first-year students. Recommended background: Prior completion of courses in basic algebra and calculus and high school physics.

PHYS 1003. Physics for Future Presidents. 4 Credits.

A serious but accessible presentation of topics important for leaders to know—energy, global climate, high-tech devices, space travel, nuclear weapons, etc. Students possessing any level of scientific background are equipped with the concepts and analytical tools needed to make informed decisions and to argue their view persuasively. Laboratory fee.

PHYS 1003W. Physics for Future Presidents. 4 Credits.**PHYS 1005. How Things Work. 4 Credits.**

Primarily for non-science majors. Physical principles are introduced through a study of everyday objects to see what makes them tick. This unconventional approach is primarily conceptual in nature and intended for students seeking a connection between science and the world in which they live. Prerequisite: high school algebra and trigonometry. Laboratory fee.

PHYS 1007. Music and Physics. 4 Credits.

Primarily for non-science majors. A comparative study of music and physics, showing parallels in the history of the two fields and emphasizing those topics in physics related to the theory of music and the production of sound by musical instruments, particularly classical mechanics and wave motion. Prerequisite: high school algebra and geometry. Laboratory fee.

PHYS 1007W. Music and Physics. 4 Credits.

Primarily for non-science majors. A comparative study of music and physics, showing parallels in the history of the two fields and emphasizing those topics in physics related to the theory of music and the production of sound by musical instruments, particularly classical mechanics and wave motion. Laboratory fee. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: high school algebra and geometry.

PHYS 1008. Origin and Evolution of Ideas in Physics. 4 Credits.

Primarily for non-science majors. The evolution of ideas and their historical continuity in the search for basic physical theories. By presenting the world-views of great physicists of the past, the division of physics into many sub-disciplines is avoided and a humanistic approach is achieved. Prerequisite: high school algebra. Laboratory fee.

PHYS 1008W. Origin and Evolution of Ideas in Physics. 4 Credits.

Primarily for non-science majors. The evolution of ideas and their historical continuity in the search for basic physical theories. By presenting the world-views of great physicists of the past, the division of physics into many sub-disciplines is avoided and a humanistic approach is achieved. Laboratory fee. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: high school algebra.

PHYS 1011. General Physics I. 4 Credits.

Classical physics; mechanics, including Newton's laws of motion, force, gravitation, equilibrium, work and energy, momentum, and rotational motion; periodic motion, waves, and sound; heat and thermodynamics. Laboratory fee.

PHYS 1012. General Physics II. 4 Credits.

Classical and modern physics; electrostatics, electromagnetism, direct and alternating current circuits, and electromagnetic radiation; geometrical and physical optics; special relativity; quantum theory; atomic physics; nuclear physics; particle physics; astrophysics and cosmology. Prerequisites: PHYS 1011 or PHYS 1021 or PHYS 1025.

PHYS 1021. University Physics I. 4 Credits.

Classical mechanics and thermodynamics using calculus. Newtonian mechanics: force, momentum, work and energy, mechanical equilibrium, linear, and rotational motion. Gravitation and fields; atoms, physical properties of matter; energy transfer and waves, sound. Prerequisites: MATH 1220 or MATH 1221 or MATH 1231. Credit cannot be earned for this course and PHYS 1025.

PHYS 1022. University Physics II. 4 Credits.

Periodic motion, waves, and classical electromagnetism using calculus; waves and sound. Electrostatics, Gauss's law, capacitance; electric resistance, electric current; magnetism. Electrodynamics and electromagnetic induction; Maxwell's theory and electromagnetic radiation. Geometric and physical optics. Prerequisites: PHYS 1021 or PHYS 1025; and MATH 1232. Credit cannot be earned for this course and PHYS 1026.

PHYS 1025. University Physics I with Biological Applications. 4 Credits.

Classical mechanics and thermodynamics using calculus; Newtonian mechanics (force, momentum, work and energy, mechanical equilibrium, linear and rotational motion, fluids). Energy transfer, statistical models, and entropy. Credit cannot be earned for both PHYS 1025 and PHYS 1021. Prerequisites: MATH 1220 or MATH 1221 or MATH 1231. Credit cannot be earned for this course and PHYS 1021.

PHYS 1026. University Physics II with Biological Applications. 4 Credits.

Periodic motion waves, and classical electromagnetism using calculus; waves and sound. Electrostatics, Gauss's law, capacitance; electric resistance, electric current; magnetism; electrostatics in ionic solutions and cells, circuit models for nerves and ion channels; geometric and physical optics; physics principles and problem solving taught with examples and problems from the life sciences. Credit cannot be earned for both PHYS 1026 and PHYS 1022. Prerequisites: MATH 1232; and PHYS 1021 or PHYS 1025. Credit cannot be earned for this course and PHYS 1022.

PHYS 1099. Variable Topics. 1-36 Credits.**PHYS 2000. Sophomore Colloquium. 3 Credits.**

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

PHYS 2023. Modern Physics. 3 Credits.

Modern physics using calculus; relativity; wave-particle duality, quantum mechanics; the hydrogen atom, Pauli principle; quantum statistics and radiation; quantum theory of the condensed state, superconductivity; nuclear physics; applications to astrophysics and nucleosynthesis; general relativity; the big bang theory. Prerequisites: PHYS 1022 or PHYS 1026; MATH 2233.

PHYS 2151. Intermediate Laboratory I: Techniques and Methods. 3 Credits.

Experiments in electromagnetism, classical and quantum mechanics, atomic and nuclear physics with emphasis on experimental methods. Laboratory fee.

PHYS 2151W. Intermediate Laboratory I: Techniques and Methods. 3 Credits.

Experiments in electromagnetism, classical and quantum mechanics, atomic and nuclear physics with emphasis on experimental methods. Prerequisites: PHYS 2023. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHYS 2152. Intermediate Laboratory II: Instrumentation. 3 Credits.

Elementary electric and electronic analog and digital circuits. Topics include passive and active components in DC and AC circuits and operational amplifiers, with emphasis on measurement techniques. Laboratory fee.

PHYS 2183. Computational Modern Physics. 3 Credits.**PHYS 3099. Variable Topics. 1-12 Credits.****PHYS 3100. Math Methods for Physics. 3 Credits.**

Applications of infinite series, complex variables, linear algebra, vector analysis Fourier series, differential equations, probability theory, and calculus of variations in various physical contexts. Prerequisites: MATH 3342 and PHYS 2023.

PHYS 3127. Biophysics: Macroscopic Physics in the Life Sciences. 3 Credits.

Physical principles applied to biological systems and medicine; blood flow, ultrasonics, spectroscopy, radiation biology, bioenergetics, ordering theory, and neural networks. Prerequisites: MATH 2233; and PHYS 1022 or PHYS 1026.

PHYS 3128. Biophysics: Microscopic Physics in the Life Sciences. 3 Credits.

Physical principles applied to biological systems on the nanometer scale; intermolecular forces, statistical principles applied to biological microstates, determining protein and nucleic acid structures, operation of protein motors and transport systems, and nanotechnology and instrumentation. Prerequisites: PHYS 1022 or PHYS 1026; MATH 2233.

PHYS 3161. Mechanics. 3 Credits.

Mechanics of mass points and rigid bodies. Newton's laws, conservation laws, Euler's equations, inertia tensor, small vibrations, and elements of Lagrange's and Hamilton's equations. Prerequisites: MATH 3342 and PHYS 2023.

PHYS 3163. Physical and Quantum Optics. 3 Credits.

Wave motion, electromagnetic aspects of light, dispersion of light in media, geometrical optics, polarization and optical properties of crystals, interference, diffraction, lasers, holography; mathematical tools, including Fourier methods, developed as needed; the quantum description of light complements the classical description. Prerequisites: MATH 2233 and PHYS 2023.

PHYS 3164. Thermal and Statistical Physics. 3 Credits.

Principles and application of thermodynamics to reversible and irreversible processes, with derivation from statistical postulates applied to the microscopic behavior of large systems at or near equilibrium; equilibrium thermodynamics, statistical mechanics, and kinetic theory of gases. Prerequisites: MATH 3342 and PHYS 2023.

PHYS 3165. Electromagnetic Theory I. 3 Credits.

Electrostatics and magnetostatics, electric and magnetic fields in matter, scalar and vector potentials, electromagnetic induction. Maxwell's equations. Methods of vector and tensor calculus are developed as needed, as are the method of images, Fourier series, and some computational methods. Prerequisites: MATH 3342 and PHYS 2023.

PHYS 3166. Electromagnetic Theory II. 3 Credits.

Conservation laws, electromagnetic waves, radiation, relativistic formulation of electrodynamics and potential fields. Prerequisites: PHYS 2023, PHYS 3165, MATH 2184, MATH 3342 and MATH 3343; or permission of the instructor.

PHYS 3167. Principles of Quantum Physics. 3 Credits.

Conceptual framework and mathematical formalism of quantum mechanics; wave-particle duality, wave functions, and eigenvalues; Schrödinger equation and one-dimensional potential problems; angular momentum, central potentials, and the hydrogen atom; identical particles and spin; scattering theory; perturbation theory. Prerequisites: MATH 3342 and PHYS 2023.

PHYS 3181. Computational Physics. 3 Credits.

Numerical methods with physics, math, and engineering applications; numerical integration, ODE, PDE, Monte-Carlo methods, linear algebra, and other relevant numerical techniques. In addition to the course prerequisites, students must be familiar with a programming language. Prerequisites: MATH 3342 and PHYS 3161.

PHYS 4170. Solid-State Physics. 3 Credits.

Structure of solids, lattices and lattice defects, deformation, vibrational and electronic contribution to specific heats, binding energies, electronic states in metals and semiconductors, magnetic properties of solids, superconductivity. Prerequisites: MATH 2233 and PHYS 2023.

PHYS 4175. Nuclear Physics. 3 Credits.

Application of quantum physics to the description of nuclei and their interactions; properties of nuclei, nuclear models, nuclear forces, and nuclear reactions are considered. Includes the deuteron, n-p scattering, the optical model, the shell model, the liquid-drop model, beta decay, fission, and fusion. Prerequisites: MATH 2233 and PHYS 2023.

PHYS 4190. Special Topics. 1-4 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details.

PHYS 4192. Independent Study. 1-3 Credits.

Independent readings or directed study under the supervision of a faculty member. Credit varies, depending upon the nature of the work. May be repeated once for credit.

PHYS 4195. Physics Capstone. 3 Credits.

Students work in a mentored learning environment to design and conduct research in physics in an ethical manner, explore and prepare for various careers in physics, and disseminate research findings to different audiences. May be repeated for credit. Restricted to physics majors with junior standing.

PHYS 4195W. Physics Capstone. 3 Credits.

Students work in a mentored learning environment to design and conduct research in physics in an ethical manner, explore and prepare for various careers in physics, and disseminate research findings to different audiences. May be repeated for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to physics majors with junior standing.

PHYS 4196. Undergraduate Research in Biophysics. 3 Credits.

Research on problems in biophysics approved by the faculty. May be repeated once for credit.

PHYS 4197. Undergraduate Research in Nuclear Physics. 3 Credits.

Research on problems in nuclear physics approved by the faculty. May be repeated once for credit.

PHYS 4200. Physics Symposium. 1 Credit.

Culmination of physics undergraduate studies. Communication of physics research orally and in writing with peer review of presentations and reports. Restricted to physics majors with senior standing.

PHYS 5099. Variable Topics. 1-99 Credits.**PHYS 5701. Selected Topics. 4 Credits.****PHYS 6110. Mathematical Methods of Theoretical Physics. 4 Credits.**

Calculus of variations. Group theory. Tensor calculus. Review of techniques of linear algebra. Hilbert spaces and operator theory. Special functions and expansion in complete orthogonal sets of functions. Solutions of partial differential equations, Green's functions method and boundary-value problems. Integral equations. Complex analysis and theory of analytic functions. Permission of the department graduate advisor required prior to enrollment. Corequisite: PHYS 6130.

PHYS 6120. Advanced Mechanics. 4 Credits.

Analytic methods of mechanics as a basis for modern theory. Variational principles. Lagrange's equations. Hamiltonian formulation. Canonical transformations. Classical perturbation theory. Nonlinear systems. Special relativity. Permission of the department graduate advisor required prior to enrollment. Corequisite: PHYS 6130.

PHYS 6130. Computational Physics I. 1 Credit.

Taken in conjunction with PHYS 6110 and PHYS 6120.

PHYS 6210. Electrodynamics and Classical Field Theory. 4 Credits.

Principles of electro- and magneto-statics. Classical field theory. Maxwell's equations, least-action and symmetry principles. Time-varying fields and plane-wave propagation. Radiating systems and scattering of radiation, including multipole fields. Dynamics of relativistic particles and radiation from moving charges. Electrodynamics in media: relation between microscopic parameters and macroscopic observables. Permission of the department graduate advisor required prior to enrollment. Corequisite: PHYS 6230.

PHYS 6220. Quantum Mechanics I. 4 Credits.

General aspects of quantum mechanics with emphasis upon the developmental principles involved. Operators, representations, transformation theory. Schroedinger and Heisenberg pictures, angular momentum, perturbation and scattering theory. Introduction to relativistic quantum field theory, first-order electromagnetic processes. Many-body theory. Prerequisite: Consent of a departmental graduate advisor. Corequisite to PHYS 6220: PHYS 6230; to PHYS 6320: PHYS 6330.

PHYS 6230. Computational Physics II. 1 Credit.**PHYS 6310. Statistical Mechanics. 4 Credits.**

Classical and quantum statistics. Gibbs paradox, microscopic origins of entropy and other thermodynamic variables, fluctuations, ensemble theory, partition functions, distribution functions, density matrices. Applications include the harmonic oscillator, magnetic systems, ideal Fermi-Dirac and Bose-Einstein systems, blackbody radiation, phonons. Renormalization group, phase transitions and critical phenomena. Permission of the department graduate advisor required prior to enrollment. Corequisite: PHYS 6330.

PHYS 6320. Quantum Mechanics II. 4 Credits.**PHYS 6330. Computational Physics III. 1 Credit.****PHYS 6510. Communications in Physics. 3 Credits.**

Student presentations on advanced topics in physics. Permission of the department graduate advisor required prior to enrollment.

PHYS 6590. Seminar. 1 Credit.

Lectures on current topics in physics. Permission of the department graduate advisor required prior to enrollment. May be repeated for credit.

PHYS 6599. Advanced Study. 3 Credits.

For students who have completed three semesters of course work in the core graduate physics curriculum. Problem sets aimed at development of a deeper and more advanced understanding of physics.

PHYS 6610. Nuclear and Particle Physics I. 3 Credits.

Theory and experiment of the standard model of elementary particle physics of strong and electro-weak interactions. Emergence of nuclear interactions and pion physics. Effective field theory, non-perturbative methods, lattice simulations, nuclear models, nuclear reactions. Path integral, gauge fields, S-matrix theory, dispersion relations, renormalization program. Prerequisite: PHYS 6320 and permission of the graduate advisor.

PHYS 6620. Biophysics I. 3 Credits.

Topics include molecular biophysics, modern simulation methodologies and experimental methodologies for probing biological systems.

PHYS 6630. Astrophysics I. 3 Credits.

Astrophysical examination of stellar evolution, including properties of stellar matter, equations of state, nucleosynthesis, red giants, supernovae, white dwarfs, close binary stellar systems, gamma-ray bursts. Overview of observational techniques, including photometry; IR, UV, X-ray observation, gamma-ray frequencies; astrophysical data analysis; evidence for stellar and cosmological models. Permission of the department graduate advisor required prior to enrollment.

PHYS 6710. Nuclear and Particle Physics II. 3 Credits.

Theory and experiment of the standard model of elementary particle physics of strong and electro-weak interactions. Emergence of nuclear interactions and pion physics. Effective field theory, non-perturbative methods, lattice simulations, nuclear models, nuclear reactions. Path integral, gauge fields, S-matrix theory, dispersion relations, renormalization program. (Academic year) Prerequisite: PHYS 6320.

PHYS 6720. Biophysics II. 3 Credits.

Topics include theoretical and computational methods for genes, proteins, and bionetworks; models of biological complexity; applications of non-equilibrium statistical mechanics and combinatorial optimization. This course may be taken repeatedly for credit to a maximum of 15 credits. Prerequisite: PHYS 6310.

PHYS 6730. Astrophysics II. 3 Credits.**PHYS 6810. Hot Topics in Big Data Analytics. 3 Credits.**

This course will enhance students' big-data analysis and statistical skills, and is aimed at upper-level undergraduate and graduate students from the physical, biological and social sciences. In addition to overviewing standard tools using R, it will expose students to current thinking about real data, analysis and modeling in our 'non-normal' world where distributions are fat-tailed rather than approximately normal, and where processes are bursty rather than approximately Poisson. Its cross-disciplinary approach will also help address the likely challenge facing next-generation researchers and employees, to 'understand' real-world data not only through statistical tests, but also by building generative simulations (e.g. in C) that reproduce the statistical stylized facts of real-world data sets. Other topics to be discussed include networks, machine-learning, as well as web-scraping of data – e.g. from social media sources. Prerequisites: MATH 2184, MATH 2233, PHYS 1021 and PHYS 1022. Credit cannot be earned for this course and DATS 6450.

PHYS 6998. Thesis Research. 3 Credits.**PHYS 6999. Thesis Research. 3 Credits.****PHYS 8110. Selected Topics in Theoretical Nuclear Physics. 3 Credits.**

May be repeated once for credit with permission of the graduate advisor. Prerequisites: Permission of the department graduate advisor.

PHYS 8120. Selected Topics in Experimental Nuclear Physics. 3 Credits.

May be repeated once for credit with permission of the graduate advisor. Prerequisites: Permission of the department graduate advisor.

PHYS 8130. Selected Topics in Theoretical Biophysics. 3 Credits.

May be repeated once for credit with permission of the graduate advisor. Prerequisites: Permission of the department graduate advisor.

PHYS 8140. Selected Topics in Experimental Biophysics. 3 Credits.

May be repeated once for credit with permission of the graduate advisor. Prerequisites: Permission of the department graduate advisor.

PHYS 8150. Selected Topics in Astrophysics. 3 Credits.

May be repeated once for credit with permission of the graduate advisor. Prerequisites: Permission of the department graduate advisor.

PHYS 8998. Advanced Reading and Research. 1-4 Credits.

May be repeated once for credit. Restricted to doctoral candidates preparing for the general examination.

PHYS 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

PHYSIOLOGY (PHYL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHYL 1099. Variable Topics. 1-36 Credits.**PHYL 2111. Physiology for Health Sciences Students. 4 Credits.**

.

PHYL 5099. Variable Topics. 1-99 Credits.**PHYL 6201. Physiology. 6 Credits.**

Required for medical students, open to graduate students. Cellular, organ system, and applied human physiology. Prerequisite for graduate students: Anat 201 or Phyl 191, or equivalent; Bioc 221 or Phyl 205, or consent of department chair. Concurrent regis.

PHYL 6205. Regulatory Cell Biology. 2 Credits.**PHYL 6211. Physiology for Health Sciences Students. 3 Credits.**

Functional processes, including cellular, muscular, cardiovascular, renal, pulmonary, gastrointestinal, endocrine, and nervous systems.

PHYL 6253. Physiology: Fluid Balance and Hydrogen Ion Regulation. 2 Credits.

.

PHYL 6269. Topics in Neuro- and Psychophysiology. 2 Credits.

.

PHYL 6282. Experimental Physiology. 1-12 Credits.**PHYL 6290. Extramural Physiology Elective. 1-12 Credits.****PHYL 6291. Extramural Physiology Elective. 1-12 Credits.****PHYL 6295. Research. 1-12 Credits.**

By special arrangement with individual staff members. Approximately four hours per week in the laboratory for each credit. May be repeated for credit.

PHYL 6298. Comprehensive Physiology. 5 Credits.**PHYL 6502. Biomed Sci/Clin Corr inDisease. 1-12 Credits.****PHYL 8800. Summer Remedial: Physiology. 8 Credits.**

POLITICAL MANAGEMENT (PMGT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PMGT 1000. Dean's Seminar. 3 Credits.

PMGT 4101. Electoral and Legislative Processes. 3,4 Credits.

PMGT 4107. Practicum in Political Management. 3,4 Credits.

PMGT 4187. Professional Internship. 3-4 Credits.

PMGT 4192. Tutorial in American Electoral and Political Movements. 3-4 Credits.

PMGT 5099. Variable Topics. 1-99 Credits.

PMGT 6401. Fundamentals of Political Management. 3 Credits.

Main concepts, arenas, developments, roles, and practices in the field of political management. Assess rhetorical situations, write strategy memos, create and critique campaign messages, and engage citizens, professional colleagues and decision-makers. Taken in first semester of program. (Professors M. Cornfield and TBD.).

PMGT 6402. Applied Political Communications. 3 Credits.

Models and methods by which professionals plan, produce, and adjust strategic communication messages in democratic politics. Use a variety of communication forms and media, such as, fact sheets, blog posts, video releases, and public addresses, under typical constraints of time, money, information, reputation, talent, audience attentiveness, and institutional procedure. Students to enroll by their sixth course in the program. Core requirement. Must be completed before a student reaches 18 credits.

PMGT 6403. Political Data and Analytics. 3 Credits.

Introduction to the uses of quantitative data and statistics in politics. Learn to evaluate research designs, statistical associations, causal reasoning, methods for hypothesis testing, multivariate regression analyses, and data analytics. Consume and critique data and statistics for strategic purposes. Students to enroll by their sixth course in the program. Core requirement. Must be completed before a student reaches 18 credits.

PMGT 6404. Principled Political Leadership. 3 Credits.

Theory and practice of ethically grounded political leadership. Consideration of the recurrent dilemmas, philosophical principles, management techniques, codes of conduct, and professional norms in the political management field. Application through self-assessment exercises, case study analysis, and individual and group simulations. Students to enroll by their sixth course in the program. Core requirement. Must be completed before a student reaches 18 credits.

PMGT 6410. Grassroots Engagement. 3 Credits.

Strategies and techniques to build advocacy support among and across general civic populations. Identification of potential supporters through database targeting and individual outreach. Motivation and training of interested supporters for grassroots action in campaigns, at public forums, and before decision-makers. Coalition and protest options; analytics of ongoing efforts. (Professors E. Greffe, S. Gagen).

PMGT 6412. Issues Management. 3 Credits.

Track, influence, and alter politically significant issue-related discourses and policy developments. Legislative, executive, and judicial venues and processes for policymaking; state referendum, initiative, and recall ballot opportunities; organizational structures, including digital procedures, for issue management. (Professors M. Edwards, E. Greffe).

PMGT 6414. Lobbying. 3 Credits.

Survey of and training for lobbying in the U.S. federal system. Students design a detailed lobbying plan for implementation and practice a variety of influence techniques, including those associated with digital media and communications technologies. Legal compliance, organizational and public accountability, professional standards and practices. (Professor J. Hobson).

PMGT 6416. International Lobbying. 3 Credits.

Survey of international lobbying practices, analysis of strategic models and best practices in a variety of different countries and political systems (e.g., EU, China, Brazil, and Turkey). Trends and innovations in lobbying techniques and communications technologies. Investigation and application of appropriate research to improve practice. (Professor TBD by AGE program) (Same as PSAD 6240).

PMGT 6418. Budget Politics. 3 Credits.

Politics of the budget process, including formal and informal mechanisms of appropriating U.S. federal funds. Lobbying strategies and tactics employed by private and public organizations seeking to influence budgetary agenda-setting in the White House; decision-making in Congress; and funding negotiations within and between executive agencies. (Professor M. Edwards).

PMGT 6420. Corporate Public Affairs. 3 Credits.

Exploration of major functional areas in corporate public affairs with a focus on the political and policy dynamics operating in the United States and other democracies. Development and deployment of appropriate strategies, research, and tactics for corporations managing the complexities related to a global economy and shifting political alliances.

PMGT 6422. State and Intergovernmental Politics. 3 Credits.

Examination of the electoral pressures on state and local legislators. Methods and techniques for advocacy in various state capitals. The governing responsibilities of constitutionally-delegated to states and the ever-changing historical relationship between states and the federal government. (Professors C. Shank).

PMGT 6424. Comparative Political Management Environments. 3 Credits.

The operating rules, customs, and processes by which laws are enacted and regulations written in countries around the world; governance systems and the realm of influencers; systems within which legislators, administrators, bureaucracies, and stakeholder's work. Restricted to graduate students. Credit cannot be earned for this course and PSAD 6260.

PMGT 6428. Cultural Aspects of Global Engagement. 3 Credits.

Understanding multicultural communities and diverse institutions, customs, and practices; effective and ethical public engagement on behalf of global organizations; communicating issues and commitments to diverse audiences and the general market; engagement strategies and techniques. Restricted to graduate Students. Same As: PSAD 6250.

PMGT 6430. Campaign Strategy. 3 Credits.

Orientation to the basic systems and technologies that must be created and managed to produce electoral victory. The campaign plan and campaign budget as the foundation for management of campaigns. Focus on development of a campaign plan. (Professor M. Meissner).

PMGT 6432. Managing Campaigns. 3 Credits.

Understanding the role of a campaign manager in staffing and running a campaign, while executing the campaign plan. Candidate handling, fundraising, website and technology, geographic and demographic targeting, field organization, canvassing, get-out-the-vote, press operations, budget control, and liaison with the party and interest groups. (Professors TBD) Prerequisites: PMGT 6430.

PMGT 6434. Running for Office. 3 Credits.

Electoral politics from the perspective of the candidate, strategic and personal factors involved in the decision to run and the consequences of victory or defeat. (Professor R. Fauchaux).

PMGT 6436. National Campaign Dynamics. 3 Credits.

Examination of the historical and systematic patterns in national elections. Differences between presidential and midterm elections; House and Senate contests; party nomination races and general elections; primaries and caucuses; Democratic and Republican party delegate selection rules; causes for "wave" elections; effect of the economy on election outcomes; and standard vice presidential selection models. The political and partisan structural conditions that exist before any of the candidates or the campaigns get involved.

PMGT 6438. State and Local Campaigns. 3 Credits.

Application of campaign strategy and management principles to electoral races at the state and local levels. Staffing, budgeting, and strategic challenges for what are typically lower-visibility contests that involve state and local candidates. Coordinated campaigns and the impact of the national party's reputation on these down-ballot races. (Professor TBD).

PMGT 6440. Targeting and Voter Contact. 3 Credits.

How to find voters for electoral and advocacy campaigns and tailor communications to them. Database analytics, list management, questionnaire design, target weighting, predictive modeling. Review of randomized and natural experiments in light of theoretic principles and findings from public opinion research. Skill development in use of spreadsheets and basic statistical packages. Lab fee. (Professors B. Russell, A. Strauss) Prerequisites: PMGT 6403.

PMGT 6442. Campaigns Around the World. 3 Credits.

Comparative examination of national-level campaigns in democratic countries outside of the United States. Strategies, techniques, and practices used in multi-party and/or parliamentary systems. Professional conduct, consulting rules and norms.

PMGT 6450. Rules, Laws, and Strategy. 3 Credits.

U.S. federal and state laws and regulations governing recognition of political parties and political organizations, campaign finance, political broadcasting and cablecasting, lobbying registration. Ballot access and voter registration. Ethical and strategic considerations (opportunities and constraints; benefits and drawbacks) related to rule construction. (Professor M. Braden).

PMGT 6452. Digital Strategy. 3 Credits.

Development of an integrated digital strategy for use in advocacy and electoral campaigns. Introduction to the theoretical concepts, distinctive technologies, applied skills, and managerial challenges associated with digital campaigning. Search engine optimization, GPS, online payment systems, customizing back- and front-end systems to meet strategic goals and budget parameters, working with IT vendors and distance volunteers, legal and cultural considerations in US and other regimes, site rollout and scaling, security and privacy. (Professor TBD).

PMGT 6454. Fundraising and Budgeting. 3 Credits.

Raising and spending money in political campaigns, referendum contests, issue advocacy, and lobbying efforts. Budgeting process, standard controls to check expenditures, accounting procedures, and general strategies for use in effective fundraising. (Professor N. Bocskor).

PMGT 6456. Speechcraft. 3 Credits.

Analysis and techniques used in speechwriting and presentations for public officials and candidates. Managing the political optics and understanding a speech's visual context and non-verbal communication capabilities (Rose Garden, Oval Office, campaign stump speech, ceremonial occasion, congressional testimony). Modulating speaker style, tone, and pacing, and staging the speech for effect. (Professors D. McGroarty, R. Lehrman).

PMGT 6458. Crisis Management. 3 Credits.

Management of crisis situations and defining moments in electoral, legislative, and public policy campaigns. Exploration of the causes and consequences of political scandals. Professional responsibilities and ethical considerations of crisis management and rapid response decisions. (Professor M. Edwards).

PMGT 6460. Audience Research. 3 Credits.

Processes by which citizens acquire political information and make decisions in politics. Survey research uses in electoral campaigns and issue advocacy. Designing and drawing samples, constructing and pretesting questionnaires, modes of interviewing, financial implications, practical problems in selecting and monitoring polling organizations, and interpretation of data. Focus groups and small-sample interviews; relationship between qualitative and quantitative research; reliability and validity. (Professors R. Johnson, D. Cantor, B. Tringali, M. Ward) Prerequisites: PMGT 6403.

PMGT 6462. Opposition Research. 3 Credits.

Practices and techniques associated with investigative opposition research. Public document and website searches, candidate tracking, and methods for information dissemination. Changes in practice as a result of technological innovations and a changing media environment. Professional responsibilities and ethics expected from opposition researchers.

PMGT 6464. Influencing the Media. 3 Credits.

Organization, practices, and norms of the major media; media coverage of public officials, political campaigns, legislative battles, interest groups, and issues of public policy. Formulation of strategies for getting favorable news coverage for the issue or candidate and for ending a media crisis. (Professor L. Ellenbogen).

PMGT 6466. Political Advertising. 3 Credits.

Strategies and techniques for using the various media (print, radio, television, cable, Internet) in political and advocacy campaigns, with emphasis on the use of television. Impact and uses of paid advertising; development of campaign messages; production, timing, and placement of television advertising; explanation of media markets. Students design print ads and brochures and produce a 30-second television spot. (Professor P. Fenn).

PMGT 6468. Digital Advertising and Action. 3 Credits.

Strategies and techniques for developing and leveraging digital advertising for mobilization. Manage an effective online ad campaign from initial concept to creation and from targeting to measuring the results. Prepare, design, and launch a variety of online ad types, including search, social, display, and video. Analyze success or failure based on analytics and benchmarking. Prerequisite: PMGT 6452.

PMGT 6470. Digital Content Creation. 3 Credits.

Developing and creating effective digital content that promotes campaign narratives and furthers strategic messages. Construct portfolios of original and aggregated digital media content. Skill development in infographics, video, GPS, photo collage, page and site architecture, and texts from 140 characters to blog posts and file attachments. Versioning for different communities, functionalities, and channels including mobile applications. Prerequisite: PMGT 6452.

PMGT 6472. Maximizing Social Media. 3 Credits.

Creating and integrating owned digital platforms and social media assets for political persuasion and action. Cultivation of online political communities, moderating and curating outside-generated content, integration and alignment with campaign message; event, reputation and crisis management. Review of constraints and potentials intrinsic to specific social media sites (e.g. Facebook, Google, LinkedIn, Twitter). Prerequisite: PMGT 6452.

PMGT 6474. Stereotypes and Political Strategy. 3 Credits.

Accounting for psychological constructs, social stereotypes, media framing, and the impression formation process in developing a political strategy. Review of empirical research; investigation of effective techniques or postures for overcoming biases; self-assessment of perceptual assumptions.

PMGT 6476. Political Consulting. 3 Credits.

Management principles, technical procedures, and legal requirements for starting and running a political consulting business. Effective practices for gaining a positive reputation, sustaining profitability across the variable political environment, and engaging on the international front. Start-up funding, mergers and acquisitions, exit strategies. (Professors G. Nordlinger, L. Purpuro, M. Meissner).

PMGT 6478. Strategic Government Consulting. 3 Credits.

How government agencies are organized and funded, how they support national strategies set by the president and Congress, and how expert consultants work with government leaders to operate and organize agencies to adapt to changing requirements and administrations.

PMGT 6480. Washington Residency. 3 Credits.

Capstone experience equivalent to PMGT 6495 for students in the online political management program. Exposure to and interaction with political consultants, advocacy specialists, elected officials, and applied researchers in Washington, DC. Integration of program curriculum toward an understanding of the federal political ecosystem and development of a robust political network. Restricted to PMGT online students in their last or penultimate term, or students with permission of the instructor.

PMGT 6482. Applied Research Project. 3 Credits.

A research option for students in the online Political Management program. Development of a campaign-relevant research report and related communications on behalf of a mock political client. The report describes the status quo of a political situation, analyze the factors and actors sustaining that status quo, identify what and who is potentially moveable in the direction the client seeks to go, and outline practical first steps a campaign can take in that direction. Restricted to PMGT online students in their last or penultimate term in the program.

PMGT 6490. Special Topics. 3 Credits.

Topic to be announced in the Schedule of Classes.

PMGT 6495. Political Power and Practice. 3 Credits.

Capstone seminar that develops and integrates knowledge of political strategies, tactics, and situational considerations, and applies that knowledge to advanced political problems. Topics include: gaining and wielding power, the complexity associated with making democracy work, conflict resolution, negotiation and bargaining skills, grappling with the consequences of winning and losing. Students to enroll during their last or penultimate term. (Professor L. Brown).

PMGT 6496. Independent Study. 3 Credits.

Independent research with a Political Management faculty member. Registration must be approved in advance by the supervising faculty member and the director of the political management program.

PMGT 6497. Graduate Internship. 0 Credits.

Experience at an organization focused on applied politics. Restricted to students in the MPS in political management program.

PMGT 6498. Thesis I. 3 Credits.

Master's degree candidates must apply to the program committee for thesis approval and have completed 24 credits with a 3.3 GPA.

PMGT 6499. Thesis II. 3 Credits.

Master's degree candidates must apply to the program committee for thesis approval and have completed 24 credits with a 3.3 GPA. Prerequisite: PMGT 6498.

PMGT 6501. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis. Topics include political and policy decision making, actors, and process.

PMGT 6502. ConfrontManag&AllianceBldg. 3 Credits.**PMGT 6503. Communication Strategy. 3 Credits.**

Formulation of political communications strategies. Elements necessary to create, introduce, and maintain an effective political profile in issue advocacy campaigns, candidate elections, and legislative advocacy campaigns. Application of principles of research, advertising, and marketing to the political landscape.

PMGT 6504. Political Management and Strategic Governance. 3 Credits.**PMGT 6505. Politica de bases. 3 Credits.**

Use of microtargeting and database-layering technology to identify potential advocates. Motivational techniques to mobilize volunteers for political campaigns, lobbying efforts, and community advocacy. Techniques used by grassroots organizers to help corporations, unions, civic and nonprofit organizations, and special interest groups achieve strategic goals.

PMGT 6506. Practicum. 3 Credits.**PMGT 6507. Democracia y elecciones en LA. 3 Credits.**

This course focuses on the recent history of Latin America, underscoring the struggle to establish and consolidate democracy and the preeminence of elections as the legitimate process to select and replace authorities at the national, regional and local levels. The course provides the student with concepts to understand the different types of democratic settings that exist in the region, that is the coexistence of fairly established and solid democracies, with low intensity democracies, and semi-authoritarian regimes, all of which utilize electoral processes to select public authorities. The main message of this course is that campaign designers need to understand and take a strategic advantage of the political context and the rules governing the political competition in order to obtain the most effective results.

PMGT 6508. Estrategia de campana LA. 3 Credits.

Organization of political campaigns. Strategic decisionmaking. Formulation of political communications strategies. Aspects necessary to introduce and maintain an effective political profile in the electoral campaigns in Latin America, including the specialized forms of communication which political professionals use to win support for their candidates. This course is taught entirely in Spanish.

PMGT 6509. Las encuestas-America Latina. 3 Credits.

The use of survey research in campaigns. Quantitative and qualitative survey research for political management in Latin America. The proper use of polls; methodology and survey design; reviewing poll results; drawing conclusions and recommendations from polls; and the practical problems of administering and interpreting survey data of public opinion in Latin America. PMGT 6509 is taught entirely in Spanish.

PMGT 6510. Organizacion y ejecucion-LA. 3 Credits.

Organizational choices facing campaign management teams in Latin America as they attempt to combine the resources and activities of a modern campaign into a winning effort.

PMGT 6511. Propoganda politica, La campan. 3 Credits.

The strategies, techniques, design and impact of paid political communications directed toward target audiences in Latin America, focusing upon the role of political advertising in a campaign, including radio, direct mail, print and internet, but with specific emphasis on television commercials.

PMGT 6512. Los medios, la politica-LA. 3 Credits.

The role of the media in the politics of Latin America. Who the media are, how they make their decisions, and how they influence outcomes in campaigns and other political situations. Strategic planning in dealing with the media as well as the particular dynamics that surround electronic, print, and the new media. Effective practices of media engagement. This course is taught entirely in Spanish.

PMGT 6513. Comunicacion Politica,Gobernon. 3 Credits.

The course builds upon the Practicum course of the Certificate in Governance and integrates the two processes of politics: campaigning and governing. PMGT 6513 is taught entirely in Spanish.

PMGT 6514. Manejo de Crisis. 3 Credits.

Manejo de Crisis. Management of crisis situations and defining moments in electoral, legislative, and public policy campaigns. Exploration of the causes and consequences of political scandals. Professional responsibilities and ethical considerations of crisis management and rapid response decisions.

POLITICAL PSYCHOLOGY (PPSY)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PPSY 5099. Variable Topics. 1-99 Credits.**PPSY 6101. Fundamentals of Political Psychology. 3 Credits.**

A review of the interdisciplinary field of political psychology; examination of psychological influences on political behavior at the level of the individual and small group; the psychology of leader-follower relationships; crisis decision making.

PPSY 6102. Political Psychology Research Methods. 3 Credits.

Major research methods of political psychology, using classic articles in the field. Both quantitative methods, such as survey research and content analysis, and qualitative methods, such as personality profiling and comparative case studies, are considered. Prerequisite: PPSY 6101.

PPSY 6103. Political Violence and Terrorism. 3 Credits.

The origins and the sociopolitical and behavioral dynamics of political violence and terrorism. Major types of terrorism are differentiated. Implications for antiterrorist policy. The psychology of hostages.

PPSY 6104. Independent Study and Research. 1-3 Credits.

Supervised research in a special topic in political psychology. Preparation of major research paper. Prerequisites: PPSY 6101 and PPSY 6102.

POLITICAL SCIENCE (PSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PSC 1001. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1001W. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1002. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1002W. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1003. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues. Credit cannot be earned for this course and IAFF 1005.

PSC 1003W. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues. Credit cannot be earned for this course and IAFF 1005.

PSC 1011. Introduction to Politics I. 6 Credits.

Role of personal and social values in politics. Problems in the Western (especially American) tradition of political science. Admission by special selection process.

PSC 1012W. Introduction to Politics II. 6 Credits.

Continuation of PSC 1011. Role of personal and social values in politics. Thinking outside the Western state: culture, nationalism, ethnic conflict, democratization, international conflict. Admission by special selection process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1099. Variable Topics. 1-36 Credits.**PSC 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

PSC 2099. Variable Topics. 1-12 Credits.

Use denotes upper-level transfer credit in political science.

PSC 2101. Scope and Methods of Political Science. 3 Credits.

Nature of political inquiry, approaches to the study of politics and government, empirical methods of research.

PSC 2102. Visualizing and Modeling Politics. 3 Credits.

The class builds on PSC 2101, Scope and Methods of Political Science, with emphasis on working with data to examine political questions. Prerequisites: PSC 2101 or STAT 1051 or STAT 1053 or STAT 1111.

PSC 2105. Major Issues of Western Political Thought I. 3 Credits.

Foundations of Western political thought—Plato to Aquinas.

PSC 2106. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers.

PSC 2106W. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 2107. Twentieth-Century Political Thought. 3 Credits.

Recent Western political thought; analysis and critique of the legacies of modern political theories and ideologies.

PSC 2108. Freedom and Equality. 3 Credits.

Case analysis of major ideas related to freedom and equality in the Western political tradition.

PSC 2110. American Political Thought. 3 Credits.

Political thought in the U.S. from colonial times to the present as seen through major representative writings.

PSC 2120W. Freedom in American Thought and Popular Culture. 3 Credits.

An inquiry into definitions of freedom through examination of American political thought and popular culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement (Same as AMST 2120W).

PSC 2211. State and Urban Politics. 3 Credits.

Comparative analysis of context, institutions, processes, and policies of state and urban political systems. Prerequisite: PSC 1002.

PSC 2212. State and Urban Policy Problems. 3 Credits.

Selected issues in state and urban policymaking, with emphasis on urban and metropolitan settings. Prerequisite: PSC 1002.

PSC 2213. Judicial Politics. 3 Credits.

An examination of judicial process and behavior. Emphasis on judicial selection, decision making, interaction with the political environment, and impact and implementation of decisions. Prerequisite: PSC 1002.

PSC 2214. U.S. Constitutional Law and Politics I. 3 Credits.

Separation of powers, federal-state relationships, economic regulation. Prerequisites: PSC 1002.

PSC 2215. U.S. Constitutional Law and Politics II. 3 Credits.

Political and civil rights. Prerequisites: PSC 1002.

PSC 2216. The American Presidency. 3 Credits.

Examination of the politics of presidential selection, the authority of the contemporary institution, the mechanisms and processes for formulating public policy, and the influences of personality on performance in office. Prerequisite: PSC 1002.

PSC 2217. Executive Branch Politics. 3 Credits.

Basic concepts in public administration; influence of bureaucratic politics on policy formulation and implementation. Prerequisite: PSC 1002. Same as PPPA 2117.

PSC 2218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Prerequisite: PSC 1002.

PSC 2218W. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1002.

PSC 2219. Political Parties and Interest Groups. 3 Credits.

The emergence and evolution of political parties in the United States; role of parties as a linkage between mass preferences and government policies; organization, nominations, voting, and activities in legislative and executive branches. Prerequisite: PSC 1002.

PSC 2220. Public Opinion. 3 Credits.

How public opinion is measured, how it is shaped, and its consequences for policymaking. Prerequisite: PSC 1002.

PSC 2221. African American Politics. 3 Credits.

The evolution, nature, and role of African Americans within the U.S. political system. How the African American experience has shaped American politics (specifically public opinion, political behavior, political institutions, and salient public policy debates) and how black Americans have come to understand their position within the American political system. Prerequisites: PSC 1002.

PSC 2222. Science, Technology, and Politics. 3 Credits.

Multiple impacts of scientific and technological developments on the political systems. Discussion of public policies for support, use, and control of science and technology. Prerequisite: PSC 1002.

PSC 2223. Campaigns and Elections. 3 Credits.

Examination of the various forms of American political participation in electoral and governmental politics and their effects on the political process. Prerequisite: PSC 1002.

PSC 2224. Issues in Domestic Public Policy. 3 Credits.

Examination of the decision-making process and the substance of various issues in domestic public policy in such areas as crime, economics, education, energy, the environment, poverty, and health. Prerequisite: PSC 1002.

PSC 2225. Women and Politics. 3 Credits.

An examination of the role and impact of women in politics, including women's interests and access to the political system; specific public policy issues with a particular focus on the role of women. Prerequisite: PSC 1002.

PSC 2228. Media, Politics, and Government. 3 Credits.

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Instructor permission required. Same As: SMPA 3428.

PSC 2229. Media and Politics. 3 Credits.

The impact of the media on American politics, including the nature of coverage of political issues and campaigns, dynamics of selecting and presenting news stories, and consequences of media messages for public opinion and action. Prerequisite: PSC 1002.

PSC 2230. Law and Justice: The View from Hollywood. 3 Credits.

Analysis of films that focus on justice, the law, and the legal system. Consideration of what they tell us about political and legal culture and what messages they may have for contemporary legal issues. Focus on the relationship between law and justice, the practice of law, and the role of courts and trials in a political system. Prerequisites: PSC 1002.

PSC 2240. Poverty, Welfare, and Work. 3 Credits.

The elements and politics of America's welfare state. Social welfare policies and how they relate to work and poverty. Prerequisites: PSC 1002.

PSC 2330. Comparative Politics of Western Europe. 3 Credits.

Comparative political analysis with primary focus on the principal states of Western Europe. Prerequisite: PSC 1001.

PSC 2331. Comparative Politics of Central and Eastern Europe. 3 Credits.

Specific countries vary, to include nations of central and Eastern Europe and/or the newly independent states of the former Soviet Union. Prerequisite: PSC 1001.

PSC 2332. European Integration. 3 Credits.

The history of the European Union, its accomplishments as an international actor, and the vibrant debates over its future. Prerequisite: PSC 1001.

PSC 2334. Global Perspectives on Democracy. 3 Credits.

International experiences with the historical evolution and current nature of democratic political systems. Prerequisite: PSC 1001.

PSC 2336. State-Society Relations in the Developing World. 3 Credits.

Historically informed exploration of enduring issues of concern in state-society relations, with an empirical focus on selected countries and regions of the developing world. Prerequisite: PSC 1001.

PSC 2337. Development Politics. 3 Credits.

An examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions? Prerequisite: PSC 1001.

PSC 2338. Nationalism. 3 Credits.

Causes and the effects of nationalism, covering cases from around the world. Prerequisite: PSC 1001.

PSC 2339. Comparative Political Economy. 3 Credits.

The interaction of politics and economy from a comparative perspective. Prerequisite: PSC 1001.

PSC 2366. Russian Politics. 3 Credits.

An examination of political institutions, processes, and issues of Russian politics. Prerequisite: PSC 1001.

PSC 2367. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Prerequisite: PSC 1001.

PSC 2367W. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Writing intensive. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001. Credit cannot be earned for this course and CLAS 2105W, CLAS 3901W, HIST 3820W.

PSC 2368. Politics in the Two Koreas. 3 Credits.

An examination of political institutions, processes, and issues in South Korea and North Korea as well as in inter-Korean relations and major-power involvement in peninsular affairs. Prerequisites: PSC-1001 or PSC-001 or PSC-1001W or PSC-001W or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2369. Comparative Politics of South Asia. 3 Credits.

A comparative examination of colonialism, economic development, and identity politics in South Asia. Prerequisite: PSC 1001.

PSC 2370. Comparative Politics of China and Northeast Asia. 3 Credits.

Political institutions and processes of China (including Taiwan), Japan, and Korea since World War II. Influence of indigenous traditions and foreign contacts. Prerequisite: PSC 1001.

PSC 2371. Politics and Foreign Policy of China. 3 Credits.

An examination of political institutions, processes, history, and issues of Chinese politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

PSC 2373. Comparative Politics of Southeast Asia. 3 Credits.

Political forces, processes, and outcomes, using empirical examples from Southeast Asia. Prerequisite: PSC 1001.

PSC 2374. Politics and Foreign Policy of Japan. 3 Credits.

An examination of political institutions, processes, and issues of Japanese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2377. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Prerequisite: PSC 1001.

PSC 2377W. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001.

PSC 2379. Politics and Foreign Policy of Israel. 3 Credits.

Examination of the institutions, processes, and issues of Israeli politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

PSC 2381. Comparative Politics of Sub-Saharan Africa. 3 Credits.

Comparative analysis of political systems in selected countries of Sub-Saharan Africa. Prerequisite: PSC 1001.

PSC 2383. Comparative Politics of Latin America. 3 Credits.

Exploration of the democratic advances in Latin America in recent decades as well as the continuing severe social, economic, and political challenges to democracy. Prerequisite: PSC 1001.

PSC 2439. International Political Economy. 3 Credits.

Analysis of the political aspects of global economic relationships, focusing on such issues as economic hegemony, interdependence, trade relations, development assistance, multinational corporations, and the role of international organizations. Prerequisite: PSC 1003.

PSC 2440. Theories of International Politics. 3 Credits.

Exploration of alternative theoretical approaches to understanding world politics in its historical and contemporary dimensions. Prerequisite: PSC 1003.

PSC 2442. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Prerequisite: PSC 1003.

PSC 2442W. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 2444. Public International Law. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2446. U.S. Foreign Policy. 3 Credits.

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Prerequisite: PSC 1003.

PSC 2446W. U.S. Foreign Policy. 3 Credits.

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003 or IAFF 1005. Same As: PSC 2446.

PSC 2447. American Presidents at War. 3 Credits.

How American presidents have thought about and conducted wars using an analytical and historical approach. Prerequisites: PSC 1003 or IAFF 1005.

PSC 2449. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Prerequisite: PSC 1003.

PSC 2449W. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 2451. Theory of War. 3 Credits.

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency/counterinsurgency, and nuclear war. Prerequisites: PSC 1003. Same As: PSC 2451W.

PSC 2451W. Theory of War. 3 Credits.

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency and counterinsurgency, and nuclear war. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003. Same As: PSC 2451.

PSC 2453. U.S. Foreign Policy Perspectives. 3 Credits.

Examination of alternative historical and contemporary perspectives on U.S. foreign policy. Prerequisite: PSC 1003.

PSC 2454. Humanitarianism. 3 Credits.

Norms, principles, and institutions designed to alleviate suffering and improve the welfare of vulnerable populations. Prerequisite: PSC 1003.

PSC 2455. Global Governance. 3 Credits.

The creation, revision, and enforcement of the rules that are intended to govern the world. Prerequisite: PSC 1003.

PSC 2461. European-Atlantic Relations. 3 Credits.

International politics of the North Atlantic area, the European Union, and U.S.-European relations. Prerequisite: PSC 1003.

PSC 2468. Post-Soviet Foreign Policy. 3 Credits.

External problems and policies of Russia and the other successor states of the former USSR (especially the Baltics, Ukraine, and southern rim of the former Soviet Union). Prerequisite: PSC 1003.

PSC 2475. International Relations of East Asia. 3 Credits.

Analysis of the foreign policies of selected East Asian countries and the foreign policies of major powers toward the region. Prerequisite: PSC 1003.

PSC 2476. The Arab-Israeli Conflict. 3 Credits.

History and current state of the Arab-Israeli Conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Prerequisite: PSC 1003.

PSC 2476W. The Arab-Israeli Conflict. 3 Credits.

The history and current state of the Arab-Israeli conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003.

PSC 2478. International Relations of the Middle East. 3 Credits.

Analysis of the regional and international relations of the Middle East. Prerequisite: PSC 1003.

PSC 2482. African International Politics. 3 Credits.

Analysis of interstate relations in Africa and of selected aspects of African relations with the outside world. Prerequisite: PSC 1003. Recommended background: Prior completion of PSC 2381.

PSC 2484. International Relations of Latin America. 3 Credits.

Analyzes the trajectory of Latin America's role in the world, with particular focus on conflict and cooperation between Latin America and the United States. Prerequisite: PSC 1003.

PSC 2987. Internship: Political Science. 1-3 Credits.

Study of political behavior and institutions through internship experience. Open to departmental majors only. Admission requires departmental approval and junior standing.

PSC 2990. Selected Topics. 3 Credits.

.

PSC 2990W. Selected Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 2991. Special Topics in Political Thought. 3 Credits.

PSC 2992. Special Topics in American Politics and Government. 3 Credits.

Prerequisite: PSC 1002.

PSC 2993. Special Topics in Comparative Politics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisite: PSC 1001.

PSC 2994. Special Topics in International Relations. 3 Credits.

Prerequisite: PSC 1003.

PSC 2994W. Special Topics in International Relations. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 3099. Variable Topics. 1-12 Credits.

PSC 3192W. Proseminar: Political Science. 3 Credits.

Examination of selected problems in political science. May be repeated once for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the political science program.

PSC 3500. Advanced Topics in Political Science. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for details. Students must have completed four PSC courses at the 2000 level in addition to the prerequisite courses prior to enrollment. Prerequisites: PSC 1001, PSC 1002 and PSC 1003; and PSC 2101 or PSC 2102.

PSC 4991. Independent Study. 1-3 Credits.

Permission of the undergraduate program advisor and the faculty member who will direct the study required prior to enrollment. Restricted to seniors in the political science program. Prerequisite: 15 credits of upper-division political science courses.

PSC 5099. Variable Topics. 1-99 Credits.

PSC 6103. Approaches to Public Policy Analysis. 3 Credits.

Primarily for master's students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 6113. The Constitution: History and Ideas. 3 Credits.

With a focus on the history and ideas that influenced James Madison, consideration of ideas that formed the common heritage of all the framers of the Constitution. The separate traditions of liberty that were fused together in the Constitution. Early changes in American society that placed one of those traditions at the center of America's self-understanding.

PSC 6114. Theories of Judicial Review. 3 Credits.

How and why the U.S. Supreme Court interprets the Constitution. The theory behind the practice of judicial review. Consideration of such questions as whether the Constitution intended judicial review and how the two wings of today's Court justify their own position on judicial review.

PSC 6187. Selected Topics in Political Theory. 3 Credits.

In-depth study of significant issues in political theory. Topics vary by semester. Consult the Schedule of Classes for more details. For advanced students.

PSC 6330. Comparative Government and Politics. 3 Credits.

Examination of basic approaches to comparative politics. Restricted to students in the Elliott School.

PSC 6333. Comparative Politics of Russia and Eurasia. 3 Credits.

Comparative analysis of politics in the post-Soviet region. Theoretical and methodological approaches to understanding important issues, frequently including democracy/autocracy, ethnic conflict, political economy, center-periphery relations, and state building.

PSC 6336. The Political Economy of China, India, and Beyond. 3 Credits.

Comparative analysis of how development problems have been defined from both political and economic perspectives and the solutions proposed by outsiders and insiders. Emphasis on the rise, demise, and recovery of development orthodoxies.

PSC 6338. U.S. Foreign Economic Policy. 3 Credits.

Exploration of ideas and issues involved in U.S. foreign economic policy, including relationship of economic and security issues, interdependence, protectionism, role of the dollar, industrial policy, and the debt crisis.

PSC 6345. Comparative Foreign Policy. 3 Credits.

The relationship of international actors with one another and with their external environment analyzed in a comparative framework. Focus on nation-states as well as non-state actors, such as international organizations. Differences and similarities in policies on economics, diplomacy, security, and global issues.

PSC 6346. The Politics of U.S. Foreign Policy. 3 Credits.

Patterns and problems in contemporary U.S. foreign policy. Special attention given to the domestic political factors shaping foreign policy.

PSC 6347. U.S. Foreign Policy Traditions. 3 Credits.

Contemporary debate about the substance of American foreign policy through the lens of alternative theoretical approaches to the study of international relations. Classical realist (national interest), neorealist (balance of power), neoliberal (international interdependence and institutions), and constructivist (national identity) interpretations are compared.

PSC 6348. Politics of U.S. National Security Policy. 3 Credits.

Examines competing theoretical approaches to the study of national security policy and tests these on a variety of substantive issue areas in the United States. (May include such topics as nuclear non-proliferation, responses to regional conflicts, definition of new security goals, etc.).

PSC 6349. International Security Politics. 3 Credits.

Overview of the major theoretical debates in international security. How different theoretical approaches inform policy decisions and options.

PSC 6350. Foreign Policy Analysis–Selected Topics. 3 Credits.

Analysis of U.S. foreign policy toward selected world regions.

PSC 6351. Civil-Military Relations. 3 Credits.

Substantive and theoretical issues and debates in the study of civil-military relations.

PSC 6360. Western European Politics. 3 Credits.

Examination of the principal characteristics of the British, French, German, and Italian political systems, comparing their institutional and behavioral adaptations to the problems of advanced industrial democracies.

PSC 6361. Politics of European Integration. 3 Credits.

The origins, institutions, and politics of West European integration, with emphasis on theories of regional integration and the development of the European Union.

PSC 6362. Nation-Building in the Balkans. 3 Credits.

The various nation-building policies Balkan nation-states have pursued toward different non-core groups over the nineteenth and twentieth centuries.

PSC 6364. Comparative Governments and Politics of Central And Eastern Europe. 3 Credits.

Comparative analysis of domestic political processes and policies in Central and Eastern Europe.

PSC 6366. Government and Politics of Russia. 3 Credits.

The politics and development of the Russian state.

PSC 6367. Post-Soviet Politics. 3 Credits.

How the study of former Soviet countries contributes to major debates in comparative politics. Focus includes regimes, political economy, revolutions, ethnic politics, nationalism.

PSC 6368. Japanese Politics and Foreign Policy. 3 Credits.

Japan's path to modernity and the impact its pattern of development has had on the nation's democratization, political economy, and political institutions in the post-1945 period.

PSC 6370. Politics of China I. 3 Credits.

Readings and discussion of the political dynamics and policy process in contemporary China.

PSC 6371. Politics of China II. 3 Credits.

Research seminar on selected topics in Chinese politics, using official and other primary sources. Prerequisites: PSC 6370 or permission of the instructor.

PSC 6372. Foreign Policy of China. 3 Credits.

Readings and research on the main approaches to analyzing China's foreign policy and foreign relations.

PSC 6373. Political Economy of Industrializing Asia. 3 Credits.

Comparative analysis of the relationship between economic interests and politics in East and Southeast Asia. Emphasis on industrializing economies and their integration into global trade and investment networks.

PSC 6374. Korean Politics. 3 Credits.

An examination of Korean politics from the perspectives of four major research areas: authoritarian regime and economic growth; democratic transition and consolidation; the Asian financial crisis and its consequences; and the two Koreas and international relations.

PSC 6377. Comparative Politics of the Middle East. 3 Credits.

Readings and research on selected problems of the governments and politics of the Middle East.

PSC 6379. Government and Politics of Africa. 3 Credits.

Major theories and themes of African politics considering the context shaping political and economic reforms, formal and informal institutions, and prospects for political reform.

PSC 6383. Comparative Politics of Latin America. 3 Credits.

Exploration of the democratic advances in Latin America in recent decades as well as the continuing severe social, economic, and political challenges to democracy.

PSC 6388. Topics in Comparative Politics. 3 Credits.

PSC 6390. Politics and Culture. 3 Credits.

Study of the intersection of culture and politics.

PSC 6439. International Political Economy. 3 Credits.

Research seminar exploring alternative theoretical approaches to the study of international political economy and their application to the explanation and interpretation of historical and contemporary events in world political and economic affairs. Primarily for Elliott School degree candidates.

PSC 6440. Theory in International Relations. 3 Credits.

Theories of international relations. Restricted to students in the Elliott School.

PSC 6442. Politics and Practice of International Institutions. 3 Credits.

The politics of international institutions in the areas of collective security, peace keeping, trade, money, development, environment, human rights.

PSC 6444. Politics of International Law. 3 Credits.

The political sources and consequences of international law and norms.

PSC 6456. Origins of Major Wars and Terrorism. 3 Credits.

An examination of the origins of major wars, including terrorism, from the eighteenth to the twentieth centuries from the theoretical perspectives of realism, liberalism, and constructivism/identity.

PSC 6457. Arms Control and Disarmament. 3 Credits.

Major issues and trends in the postwar development of U.S. arms control and disarmament policy.

PSC 6465. The International Politics of Central and Eastern Europe. 3 Credits.

Major historical, political, social, and regional factors that have shaped the interwar, World War II, and postwar evolution of Eastern Europe; emphasis on foreign relations with outside powers and on regional East-West contacts.

PSC 6467. Asian Security. 3 Credits.

An examination of the major issues in Asian Security using various theoretical perspectives involving a mix of political science and policy analysis.

PSC 6475. International Politics of East Asia. 3 Credits.

Foreign policies and international behavior of the regional states (especially China, Japan, and Vietnam) and the extraregional powers (especially the U.S. and Russia).

PSC 6476. The Arab-Israeli Conflict. 3 Credits.

Readings and research on the origins, evolution, and issues of the Arab-Israeli conflict.

PSC 6478. International Relations of the Middle East. 3 Credits.

Readings and research on the regional and international relations of the Middle East.

PSC 6484. International Relations of Latin America. 3 Credits.

The trajectory of Latin America's role in the world, with a particular focus on conflict and cooperation between Latin America and the United States.

PSC 6489. Topics in International Relations. 3 Credits.**PSC 6987. Legal Internship. 3 Credits.**

Study of the interior workings of legal institutions and related organizations through an approved internship with a court, law firm, legal advocacy group, public defender's office, or legal think tank. A research paper is required.

PSC 6996. Reading. 3 Credits.

Written permission of the instructor required prior to enrollment. Restricted to graduate degree candidates.

PSC 6997. Research. 3 Credits.

Written permission of the instructor required prior to enrollment. Restricted to graduate students in the political science program.

PSC 6998. Thesis Research. 3 Credits.**PSC 6999. Thesis Research. 3 Credits.****PSC 8101. Introduction to Empirical Political Analysis. 3 Credits.**

Statistical foundations of empirical political analysis and computer applications. Basic probability theory, exploratory and descriptive data analysis, statistical inference, and introduction to linear regression.

PSC 8102. Empirical Political Analysis. 3 Credits.

Techniques of social science data analysis. Model building, estimation, and interpretation. Linear models and extensions. Introduction to discrete choice models. Prerequisite: PSC 8101 or permission of the instructor.

PSC 8103. Approaches to Policy Analysis. 3 Credits.

Primarily for doctoral students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 8104. Qualitative Research Methods. 3 Credits.

Theoretical, practical, and ethical aspects of conducting qualitative research.

PSC 8105. Readings in Political Theory. 3 Credits.

Selected major works, both ancient and modern, that illuminate basic problems and questions of political theory.

PSC 8106. Topics in Political Theory. 3 Credits.

Advanced readings and group discussions. Analysis and interpretation of selected concepts and schools of thought.

PSC 8107. Modern Political Thought and Ideologies. 3 Credits.

Analysis of some main currents in modern political thought and ideologies.

PSC 8108. Craft of Political Inquiry. 3 Credits.

Logic of inquiry in political science: theories of knowledge, inference, and research methods.

PSC 8109. Dissertation Development Workshop. 3 Credits.

Design and development of dissertation research proposal for political science PhD Students.

PSC 8120. Nonlinear Models. 3 Credits.

Introduction to maximum likelihood estimation interpretation of non-linear statistical models. Statistical inference, appropriate use, and presentation and interpretation of results.

PSC 8121. Causal Inference. 3 Credits.

Tools used in the social sciences to infer causation, including classical experiments, natural experiments, instrumental variables, regression discontinuity, and panel designs. Restricted to students in the PhD in political science program. Prerequisite: PSC 8101.

PSC 8122. Logitudinal Analysis. 3 Credits.

Examination of two classes of statistical models for longitudinal data—(1) models for time-series, cross-sectional and panel data and (2) modeling event history (i.e., duration, survival, hazard).

PSC 8124. Multilevel Modeling. 3 Credits.

Statistical issues and models for multilevel (hierarchical) data structures, including the variance components, random intercept, and random coefficient models. Handling cross-level interactions.

PSC 8128. Surveys and Experiments. 3 Credits.

Design and analysis of sample surveys and experiments, including lab, survey, and field experiments. Restricted to students in the PhD in political science program. Prerequisite: PSC 8101.

PSC 8130. Game Theory I. 3 Credits.

Introduction to the core elements of game theory and how it has been utilized in political science. Applications of formal models to political phenomena and the major insights that have come from this work. Restricted to graduate students in the political science program.

PSC 8131. Game Theory II. 3 Credits.

Builds on the introductory material in Game Theory I to focus on examples of formal work in political science. Students expand their knowledge of advanced games and learn the principles behind exemplary published research. Restricted to graduate students in the political science program.

PSC 8132. Network Analysis. 3 Credits.

Sociological and psychological foundations of network theory; network measurement and inferential tools; applications of these tools and concepts to political science. Restricted to graduate students in the political science program.

PSC 8185. Topics in Empirical and Formal Political Analysis. 3 Credits.

Selected topics in quantitative political methodology and formal political theory with varying emphasis on maximum likelihood estimation, nonlinear models, causal inference, formal theories, and mathematical/computational tools for the social sciences. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PSC 8187. Selected Topics in Political Theory. 3 Credits.

In-depth coverage of significant issues in political theory, including such topics as justice, toleration, and political community. For advanced students.

PSC 8210. American Political Process. 3 Credits.

A survey of American political institutions, processes, and behavior.

PSC 8211. Urban Politics. 3 Credits.

Comparative analysis of the context, institutions, processes, and policies of urban political systems.

PSC 8212. Urban Policy Problems. 3 Credits.

Analysis of public policy issues confronting urban governments; emphasis on the theoretical roots and empirical impact of past and present programs in such areas as housing, education, poverty, and crime.

PSC 8213. Judicial Politics. 3 Credits.

Introduction to the literature of judicial process and behavior studies; specific focus on selected topics. Emphasis on the major subfields of law, courts, and judicial process.

PSC 8215. Law, Politics, and Society. 3 Credits.

Role of the judiciary in policy formulation; emphasis on the U.S. Supreme Court and civil liberties issues.

PSC 8216. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with particular emphasis on the politics of contemporary policymaking.

PSC 8217. Executive Branch Politics. 3 Credits.

Structure and operation of governmental bureaucracy with particular emphasis on the politics of formulating and implementing public policy.

PSC 8218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

PSC 8219. Political Parties and Elections. 3 Credits.

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

PSC 8220. Public Opinion and Political Psychology. 3 Credits.

Sources and dynamics of public opinion and political socialization.

PSC 8221. Interest-Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

PSC 8226. Politics and Organizations. 3 Credits.

Theoretical approaches to understanding organizational behavior and change; applications to specific political problems in U.S., international, and comparative politics.

PSC 8229. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis.

PSC 8286. Selected Topics in American Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics. For advanced students. (Offered as the demand warrants).

PSC 8331. Advanced Theories of Comparative Politics. 3 Credits.

Major concepts, methods, and theoretical debates in comparative politics, including cultural, rational, and institutional approaches.

PSC 8333. Political Violence. 3 Credits.

Theoretical and methodological approaches to studying violence, such as civil wars, ethnic riots, suicide bombings, and genocide, and the impact of violence on societies and people. Restricted to graduate students in the political science program.

PSC 8334. Democracy and Democratization in Comparative Perspective. 3 Credits.

Theoretical approaches to processes of democratization. Evaluation of cultural, economic, institutional, and international-actor approaches. Case analysis of recently transitioned or transitioning nations. Primarily for PhD students in political science.

PSC 8337. Theories of Political Development. 3 Credits.

Examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions?.

PSC 8338. Nationalism and Nation-Building. 3 Credits.

Nationalism, ethnic conflict, and nation-building; the effects of nationalism on political identities, state formation, patterns of political violence, definitions of citizenship, migration policies, and voting behavior.

PSC 8340. Authoritarianism and Democratization. 3 Credits.

The political science scholarship on authoritarian regimes, including their institutional features, strategies for survival, and prospects for change.

PSC 8341. Theories of Ethnic Politics. 3 Credits.

Focus on cutting-edge interdisciplinary theories of ethnicity's role in politics. Ethnicity's relationship to democracy, economy, psychology, conflict, and solutions. Cases worldwide.

PSC 8388. Selected Topics in Comparative Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in comparative politics, including such topics as democratization, the politics of development, the role of the state in advanced industrial societies, gender and ethnicity, and the politics of nationalism. (Offered as the demand warrants).

PSC 8441. Advanced Theories of International Politics. 3 Credits.

Perspectives examined range from realism to critical theory and focus upon a variety of explanatory variables.

PSC 8450. Topics in International Relations. 3 Credits.

.

PSC 8452. Theories of International Security. 3 Credits.

Focus on conflict in different systems and scenarios and on causes and consequences of different strategies. The role of ethics in international security.

PSC 8453. Advanced Theories of Political Economy. 3 Credits.

Major theories of political economy, from classical perspectives on problems of international cooperation to modern treatments of trade, finance, investment, and regulation.

PSC 8454. Domestic Politics and International Relations. 3 Credits.

Theoretical and empirical approaches to exploring the relationship between domestic politics and international relations. Restricted to PhD students in the political science program and MA students with permission of the instructor.

PSC 8460. Military Intervention. 3 Credits.

Theoretical and empirical approaches to the study of military interventions. The challenges of designing political science research on a complex and policy-relevant topic like military intervention.

PSC 8461. Military Effectiveness. 3 Credits.

Theories of military effectiveness in conventional wars. Case studies of several conflicts and brief exploration of effectiveness in unconventional wars.

PSC 8462. Civil War. 3 Credits.

Theories of causes, conduct, and termination of civil wars. Consideration of violence against civilians, rebel recruitment, counterinsurgency, and civil war outcomes.

PSC 8489. Selected Topics in International Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in international politics, including such topics as comparative foreign policy, ethics and norms in international politics, the politics of military intervention, and theories of security in a post-Cold War environment. For advanced students. (Offered as the demand warrants).

PSC 8997. Advanced Reading. 1-3 Credits.

Advanced reading course. Restricted to doctoral candidates preparing for the general examination.

PSC 8998. Advanced Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

PSC 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

PORTUGUESE (PORT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PORT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PORT 1001. Basic Portuguese I. 4 Credits.

Handling the immediate context of daily experience in spoken and written Portuguese: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

PORT 1002. Basic Portuguese II. 4 Credits.

Speaking and writing in Portuguese about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Prerequisite: PORT 1001 . Laboratory fee.

PORT 1003. Intermediate Portuguese I. 3 Credits.

Increasing active vocabulary, reinforcing mastery of basic grammar, dealing with more complex structures (verbal phrases, subordinate clauses), and using some patterns of indirect speech (repeating or relaying messages, giving reports, summarizing). Prerequisite: PORT 1002 . Laboratory fee.

PORT 1004. Intermediate Portuguese II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: PORT 1003 . Laboratory fee.

PORT 1012. Intensive Basic Portuguese. 8 Credits.

Equivalent to PORT 1001 and PORT 1002. Laboratory fee.

PORT 1013. Portuguese for Heritage Speakers. 3 Credits.

Prepares heritage speakers of Portuguese for advanced study in the language beyond the third-year level, including content courses in literature and area studies. Restricted to students who grew up in a Portuguese-speaking environment but have language deficiencies. Prerequisites: Placement examination.

PORT 1099. Variable Topics. 1-36 Credits.**PORT 2005. Composition and Conversation. 3 Credits.**

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Prerequisite: PORT 1004. Laboratory fee.

PORT 2006. Applied Portuguese Grammar. 3 Credits.

Intensive study of Portuguese grammatical construction in oral and written form, including consideration of relationships across the history of the language and its grammar, linguistics, and dialectology. Prerequisite: PORT 2005.

PORT 2010. Accelerated Portuguese for Spanish Speakers I. 3 Credits.

First in a two-course sequence. Designed for speakers of Spanish who wish to develop competence in spoken and written Portuguese at an accelerated pace. Prerequisites: SPAN 1014 or SPAN 1034.

PORT 2011. Accelerated Portuguese for Spanish Speakers II. 3 Credits.

Second in a two-course sequence. Designed for speakers of Spanish who wish to develop competence in spoken and written Portuguese at an accelerated pace. Prerequisite: PORT 2010.

PORT 3100. The Lusophone Atlantic World. 3 Credits.

A wide-ranging cross-cultural examination of the Portuguese-speaking Atlantic world, which includes extensive areas of the Americas and West Africa. How Lusophone Atlantic populations relate to those of other areas, such as Mozambique and former Portuguese India, where Portuguese-based Creoles are or were spoken. Prerequisites: PORT 2006 or permission of the instructor.

PORT 3101. Culture and Civilization of the Sephardim. 3 Credits.

Focus on the cultural and religious background of the Jews of Spain and Portugal both before and since their expulsion/forced conversion in the late fifteenth century. Narrative and documentary histories from Sephardic cultures in the Iberian Peninsula and in the Diaspora are discussed. Prerequisites: PORT 2006 or permission of the instructor.

PORT 3600. Topics in Lusophone Literature and Culture. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisites: PORT 2006 or permission of the instructor.

PORT 4800. Independent Study. 1-3 Credits.**PORT 5099. Variable Topics. 1-99 Credits.**

PROFESSIONAL PSYCHOLOGY (PSYD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSYD 5099. Variable Topics. 1-99 Credits.**PSYD 6201. Multi-disciplinary LGBT Health. 2-3 Credits.**

An intersectional approach to examining LGBT health and well-being through exploring mechanisms by which social mistreatment of LGBT people affects health behaviors and outcomes; how health care setting affect LGBT health at population and individual levels and how providers can improve in this domain; and specific illnesses and medical processes that concern members of these groups.

PSYD 6202. LGBT Mental Health. 2-3 Credits.

Topics in LGBT psychological and identity development; mental health issues specific to LGBT communities; how LGBT identity can shape experiences of mental health services; effective approaches to LGBT mental health care; and mental health promotion in LGBT communities. Issues of the intersection between LGBT identity, other minority identities, and demographic variables.

PSYD 6203. LGBT Health Policy. 2-3 Credits.

LGBT health policy with a focus on skill-building in policy analysis, effective communication, and advocacy to explore ways in which advocates can shape experiences of the health system and related professional settings to better meet the LGBT community's needs.

PSYD 6210. LGBT Health Capstone Research. 0 Credits.

Students enrolling in PSYD 6211 in the spring semester of any academic year must enroll in this course in the immediately preceding summer session and fall semester. No academic credit is given for this course. Restricted to students in the graduate certificate in LGBT health policy and practice program.

PSYD 6211. LGBT Health Capstone. 3 Credits.

Students work with faculty mentors to conceive of, design, and develop an implementation and evaluation plan for a project, innovation, or work product in their place of employment, other sponsoring organization, or community setting with the purpose of advancing the health of LGBT persons in a real world context. Students work in consultation with mentors in summer and spring residency periods with distance and in-the-field completion of the project throughout the program year. The prerequisite courses may be taken as co-requisites. Restricted to students in the graduate certificate in LGBT health policy and practice program. Prerequisites: PSYD 6201, PSYD 6202 and PSYD 6203.

PSYD 6221. Topics in LGBT Health. 1-3 Credits.

Contemporary, trans-affirmative perspectives on the health, mental health, and policy needs of transgender persons and their communities. Topics vary by semester. May be repeated for credit provided topic differs. See program for details. Restricted to students in the graduate certificate in LGBT health policy and practice program or with the permission of the instructor.

PSYD 8201. Psychological Assessment. 3 Credits.

Cognitive and projective testing, focusing on core batteries used in intellectual and personality assessment. Laboratory fee.

PSYD 8202. Psychological Assessment. 3 Credits.

Continuation of PSYD 8201. Cognitive and projective testing, focusing on core batteries used in intellectual and personality assessment. Laboratory fee.

PSYD 8203. Practicum in Clinical Psychology. 3 Credits.

A continuing practicum, repeated in each semester and summer of the program's three years. In year one, focused on psychological assessment; in upper years, on psychological intervention related to the student's choice of area.

PSYD 8204. Biological Bases of Clinical Psychology. 3 Credits.

The structure and function of the nervous system and its application to understanding psychopathology. Development of the nervous system in interaction with learning and experience as a central basis of human growth and disability.

PSYD 8205. Psychodynamic Psychopathology. 3 Credits.

The developmental psychodynamic basis for understanding psychopathology, with comparisons to relevant biological and social explanatory factors.

PSYD 8206. Cognitive Bases of Clinical Psychology. 3 Credits.

The theoretical and experimental basis of learning, memory, and cognition. Cognitive growth, maturation, and learning. Cognitive processes in relation to the understanding of psychopathology.

PSYD 8207. Group and Organizational Dynamics. 3 Credits.

Social aspects of adaptive and maladaptive dynamic patterns; group structure and the individual; shared unconscious ideas in wish and defense; small, large, and intergroup (community) dynamics and intervention.

PSYD 8209. Statistics and Research Design. 3 Credits.

The role of measurement, design, and statistics in clinical psychological research; basic descriptive and inferential statistics; analysis of variance and multivariate designs; case study designs; clinical field research.

PSYD 8210. Professional Issues. 3 Credits.

The legal and ethical issues in the conduct of professional psychology, including confidentiality, ethical competence, privilege, expert testimony, malpractice, and the insanity defense. Business and ethical issues concerning private practice, licensing, certification, forensics, and insurance reimbursement.

PSYD 8220. Psychodynamic Psychotherapy I. 3 Credits.

Clinical theories, research, techniques, therapeutic action, and ethics. Ego supportive psychotherapy; psychodynamic formulations; object relational and self-psychological perspectives.

PSYD 8221. Psychodynamic Psychotherapy II. 3 Credits.

Continuation of PSYD 8220. Clinical theories, research, techniques, therapeutic action, and ethics. Exploratory psychotherapy; process and outcome; issues of race, class, ethnicity, gender, and sexuality.

PSYD 8222. Behavioral-Cognitive Therapies. 3 Credits.

Theoretical and clinical approaches to understanding and modifying behavior, affect, and thought from behavioral and cognitive perspectives. History and development of these perspectives; current work on psychotherapy integration across varying therapeutic approaches.

PSYD 8225. Theories of Mind. 3 Credits.

Consideration of several major contemporary schools of psychodynamic mental functioning, including ego psychology, self psychology, object relations theory, and relational perspectives. Formulation skills are built throughout the semester.

PSYD 8226. Ego Psychology/Object Relations Theory. 3 Credits.

Consideration of several major contemporary schools of psychodynamic mental functioning—ego psychology, self psychology, object relations theory, and relational perspectives.

PSYD 8227. History and Systems of Clinical Psychology. 3 Credits.

A review of the historical development of clinical psychology—its roots in mainstream psychology and psychiatry and its modern technical and theoretical systems.

PSYD 8231. Short-Term Psychotherapy. 3 Credits.

A study of brief psychodynamically oriented psychotherapy interventions. Focus on clinical vignettes.

PSYD 8240. Group Psychotherapy. 3 Credits.

Theory and technique in group psychotherapy; history of group therapy and group analysis; current controversies in the field.

PSYD 8244. Cultural Factors-Psychopath/Th. 3 Credits.**PSYD 8246. Community Intervention. 3 Credits.**

Consultation theory and practice related to social service, health, educational, and other not-for-profit organizations. Managing change and action plans.

PSYD 8250. Neuropsychological Assessment. 3 Credits.

Theory and practice of neuropsychological assessment. History and development of the field. Major batteries, individualized approaches, and specialized tests.

PSYD 8251. Advanced Psychodynamic Assessment. 3 Credits.

Recent trends in projective testing; Lerner and Lerner, Schafer, Allison and Blatt, Kwawer, Sugarman, Exner.

PSYD 8252. Child and Adolescent Assessment. 3 Credits.

Case seminar with clinical presentations, focused on the core clinical battery. Problems of differential diagnosis between neuropsychological hypotheses and conflict-based hypotheses.

PSYD 8255. Forensic Assessment. 3 Credits.

Overview of the professional standards and ethics guidelines for forensic evaluations. The psychological assessment of criminal cases, the role of the psychologist in expert testimony, and concepts and principles of law encountered in the forensic evaluation process. The role of theory and research in the criminal evaluation process.

PSYD 8256. Forensic Clinical Psychology. 3 Credits.

Overview of the intersection of American legal and mental health systems; legal and psychological concepts of competence, insanity and dangerousness to self and others; the role of the expert witness and ethics of the mental health professional in legal settings. Restricted to doctoral students in the psychology or professional psychology programs.

PSYD 8260. Child Development. 3 Credits.

Cognitive and emotional factors in the development of normal and abnormal personality dynamics in children and adolescents: experiential and maturational aspects, learning disabilities, the development of conflict and compromise formations; the relevance of child development to adult psychodynamics and psychotherapy.

PSYD 8261. Life Span Development. 3 Credits.

Survey of the study of human development. Major theories of human development, programs of developmental research, and perspectives on specific populations across the life span. Applications to clinical practice and issues pertaining to diversity.

PSYD 8262. Child and Adolescent Psychotherapy. 3 Credits.

Case seminar on child and adolescent treatment. Biological and psychological treatments; intensive vs. short term; conceptualizations of play therapy; differences from adult techniques.

PSYD 8264. Child and Adolescent Psychopathology. 3 Credits.

Theory and research on child and adolescent psychopathology. The development of diagnostic categories and their relevance to psychodynamic viewpoints.

PSYD 8265. Family Therapy. 3 Credits.

Survey of classical and modern theories of family structure and therapy. History and development of the field. Major schools and current controversies.

PSYD 8266. Clinical Intervention in Schools. 3 Credits.

Theory and practice of clinical psychological interventions in schools. Testing, observation, consultation.

PSYD 8267. Advanced Child Psychotherapy. 3 Credits.

Technical approaches to selected clinical problems and populations. Trauma, physical and sexual abuse, problems in learning and attention, gender identity disorder, behavior problems, adoption, and divorce. Coordination of developmental and therapeutic processes, and collateral work with parents.

PSYD 8270. Current Topics in Clinical Psychology. 12 Credits.

May be repeated for credit provided the topic differs.

PSYD 8271. Independent Study. 1-12 Credits.

PSYD 8273. Major Area Paper. 1 Credit.

Major Area Paper Research. May be repeated for credit. Restricted to graduate students in the professional psychology program.

PSYD 8280. Issues in Gender Development. 3 Credits.

Studies of similarities and differences in male and female gender development and sexual object choice. Recent theoretical and clinical contributions. Readings in Freud, Fast, Mayer, Stoller, Tyson and Tyson, Kleeman, Chassaguet-Smirgel, Kaplan, and Friedman.

PSYD 8281. Substance Use and Addiction. 3 Credits.

Examination of substance use disorder and behavioral addictions, such as gambling and pornography, viewed through the lens of relational psychoanalytic, attachment, and other theoretical orientations; therapeutic approaches with this population. Restricted to doctoral students in the psychology and professional psychology programs.

PSYD 8290. Clinical Procedures. 0 Credits.

PSYD 8291. Clinical Procedures. 0 Credits.

Practical application of clinical skills in the program clinic supervised by licensed clinical psychologists. Restricted to graduate students in the professional psychology program.

PROFESSIONAL STUDIES ADVOCACY IN THE GLOBAL ENVIRONMENT (PSAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSAD 5099. Variable Topics. 1-99 Credits.

PSAD 6200. Global Perspective Residencies. 3,6 Credits.

Residencies focused on understanding how successful approaches to advocacy vary around the world.

PSAD 6225. Fundamentals of Global Political Management. 3 Credits.

The theory, practice, and development of global political management. The impact on governance in regions and in nation states, including campaign strategy, issues development to impact election outcomes, impacting public opinion in regions and countries, beginning elements of building coalitions, and the global development of political management as a field and as a profession. The role of political managers in nation states and their insights from practical experience. Multinational corporations, NGOs, international governing bodies, and global activism.

PSAD 6240. Global Advocacy: Strategies, Tools, and Tactics. 3 Credits.

The current state of global advocacy and analysis of strategic models. Consideration of which advocacy tools are best used for specific tasks and how they can be applied around the globe. Specific advocacy tools and techniques that maximize success in regions and countries. Students choose either PSAD 6240 or PSAD 6270, depending on their chosen program emphasis; credit cannot be earned for both courses. Credit cannot be earned for this course and PSAD 6270.

PSAD 6250. Cultural Aspects of Global Engagement. 3 Credits.

Focus on understanding multicultural communities and diverse institutions, customs, and practices. The course is developed to prepare students for effective and ethical public engagement on behalf of global organizations, communicating issues and commitments to diverse audiences and the general market. From a base of cultural understanding, students consider effective engagement strategies and techniques. Global case studies with multicultural viewpoints.

PSAD 6260. Comparative Political Management Environments. 3 Credits.

The operating rules, customs, and processes by which laws are enacted and regulations written in countries around the globe. The multitude of governance systems and the realm of influencers around the globe. The varied systems within which legislators, administrators, bureaucracies, and stakeholder's work. Students are expected to master the rules and procedures of at least one government, understand basic negotiation, and draw comparisons between nations or regions.

PSAD 6270. International Public Relations and Global Advocacy. 3 Credits.

How global public relations strategies are developed and implemented to support advocacy efforts. Case studies of successes and failures. Consideration of communications theories that enable insight into challenges arising from differences in language, culture, politics, and economics worldwide. Students develop, implement, and assess a comprehensive global public relations strategy that includes social media technologies. Students choose either PSAD 6240 or PSAD 6270, depending upon their chosen program emphasis; credit cannot be earned for both courses. Credit cannot be earned for this course and PSAD 6240.

PROFESSIONAL STUDIES CYBERSECURITY STRATEGY AND INFORMATION MANAGEMENT (PSCS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSCS 2101. Writing and Communication in a Technical Field. 4 Credits.

The fundamentals of reading and writing with a clear sense of purpose and audience. How academic writing in virtually any subject area and on virtually any topic represents a formal engagement with larger scholarly debates. The writing process, including prewriting, drafting, and revision as well as basic research methods. Making clear oral presentations. (Same as PSIS 2101).

PSCS 2102. Fundamentals of Information Technology and Computing. 4 Credits.

Basic concepts of programming including elementary data types (numeric types, strings, lists, and files), control flow, functions, objects, loops, and methods are covered. Designing, maintaining, and implementing programs in a modern programming language. (Same as PSIS 2105).

PSCS 2301. Cyber Investigation. 4 Credits.

The investigative framework and tools needed for the investigation of cyber crime. Crimes that involve computer technology; procedural and tactical issues associated with the prosecution of cyber crime.

PSCS 2302. Digital Forensics. 4 Credits.

An introduction to digital forensic science and the systematic process of acquiring, authenticating, and analyzing digital evidence. Forensic methods and laboratories; tools, techniques, and methods used to perform computer forensics and investigation; and emerging technologies. Theoretical and practical experience using forensic equipment and software.

PSCS 2303. Compliance and Risk Management. 4 Credits.

Data protection from a risk management perspective. Data retention; security and protection technologies; technology requirements for compliance, governance, and data security; the importance of e-discovery for civil litigation; the impact of third-party services in conjunction with data protection; and data processing facets, such as the role of tiering and server and storage virtualization.

PSCS 2304. Incident Response. 4 Credits.

Principles and techniques for detecting and responding to current and emerging computer security threats. Data breaches, advanced malware, and targeted attacks. Law and policy related to incident response.

PSCS 2305. Practicum: Incident Response Techniques. 2 Credits.

Students integrate and apply acquired knowledge and technical skills in computer laboratory settings with a focus on cyber investigation and incident response techniques.

PSCS 3100. Principles of Cybersecurity. 4 Credits.

Basic principles and concepts in information security and information assurance; technical, operational, and organizational issues of securing information systems.

PSCS 3103. Ethics, Law, and Policy. 4 Credits.

Overview of ethical, legal and policy issues related to the impact of modern technology on society; ethical theories and decision making, professional responsibility and codes of ethics, copyright and intellectual property, information accountability, freedom of information and privacy, the Internet and considerations associated with information sharing and social networking.

PSCS 3107. IP Security and VPN Technology. 4 Credits.

Risks associated with an organization's network being connected to the public Internet; defensive technologies, types of encryption, enterprise firewalls, intrusion detection/prevention, and access control technologies; active threat agents and exploitation techniques used to compromise the digital infrastructure.

PSCS 3109. Network Security. 4 Credits.

Security aspects of networks and network technology; intrusion detection, virtual private networks (VPN), and firewalls; types of security threats, security policy design and management; and security technologies, products, and solutions.

PSCS 3111. Information Technology Security System Audits. 4 Credits.

Theory, methodology, and procedures related to IT system audits; proper audit procedures for discovering system vulnerabilities; documenting findings according to the standards of compliance based auditing.

PSCS 3113. Topics in IT Security Defense Countermeasures. 4 Credits.

Theory, methodology, and practical experience relating to IT defense countermeasures; system vulnerabilities and how adversaries can exploit them. Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

PSCS 3117. Project Management in Information Technology. 4 Credits.

Concepts and basic functions of the project management body of knowledge, including scope, quality, time, cost, risk, procurement, human resource, and communication management and integration of these functions into a project management system; roles and responsibilities of various project staff.

PSCS 4102. Intrusion Detection and Vulnerability Management. 4 Credits.

The use of intrusion detection systems (IDS) as part of an organization's overall security mechanisms; implementation and testing of IDS security plans, security monitoring, intrusion detection, alarm management, analysis of events and trends, and vulnerability management.

PSCS 4103. Securing Operating Systems. 4 Credits.

The security techniques and technologies integrated into Microsoft operating systems, which are a frequent target of attacks; primary threats and protection mechanisms developed by Microsoft and others; tools used to defend against known risks and vulnerabilities; client and server operating systems, OS hardening, application security, and Active Directory.

PSCS 4104. Securing Network Devices. 4 Credits.

Key network components and devices that need to be secured in order to protect networks from attack; practical and theoretical perspectives on network protection technologies; weaknesses and vulnerabilities; mitigation strategies; viruses, worms and other threats.

PSCS 4105. Cyber Defense Techniques Practicum. 2 Credits.

Working with cybersecurity experts and other qualified computer laboratory personnel, students integrate, apply, and strengthen acquired knowledge and technical skills in laboratory settings.

PSCS 4110. Data Communication and Networking Technologies. 4 Credits.

Overview of the networking technologies deployed by modern enterprises. Hardware and software used to transfer information from source to destination, including switches, routers, firewalls, Ethernet, and the TCP/IP protocols suite. (Same as PSIS 4141).

PSCS 4190. Capstone Project. 4 Credits.

Students use the knowledge and skills acquired throughout the program to conduct significant, independent research or work on a real-life project relevant to their interest in the security field. (Same as PSIS 4190).

PSCS 4201. Cyber Threats and Exploitations Analysis. 4 Credits.

This course will focus on identifying, managing and mitigating cyber threats that an organization could face at any given time. Current and emerging cyber threats will be discussed and examples from real cyber attacks will be analyzed. Students will use various threat modeling tools and cyber intelligence techniques to simulate real counter-threat designs.

PSCS 4202. Cyber Attack Tools and Techniques. 4 Credits.

Linux-based introduction to traditional and contemporary attack tools and technologies used by threat actors. Constructing an effective computer network defense.

PSCS 4203. Analysis of the Intelligence Cycle. 4 Credits.

The intelligence cycle and sources. Target modeling and organizational analysis; quantitative and predictive techniques. The role of intelligence collectors, consumers, and analysts in developing a conceptual model of the intelligence target.

PSCS 4204. Computer Network Attack and Exploitation. 4 Credits.

Cyber attacks orchestrated by computer networks to distract, deny, degrade, or destroy other computer networks or information within large computer systems. Developing standardized attack scenarios to be used against specific targets and providing operational planning to conduct network attacks.

PSCS 4205. Practicum: Cyber Attack Techniques. 2 Credits.

Students integrate and apply acquired knowledge and technical skills in computer laboratory settings. Various cyber attack tools and techniques, including penetration testing and ethical hacking.

PSCS 6244. Information Systems Protection. 3 Credits.

Major areas of information security, including risk management, cybercrime, cyber conflict, and the technologies involved in both cyber attacks and information systems protection; root causes of insecurity in information systems and the processes involved in creating, implementing, and maintaining an information security program. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6245. Cybersecurity Law and Policy. 3 Credits.

Law and policy perspectives on the federal government's response to cyber threats; legal concepts relating to investigation and enforcement activities; application of traditional laws of armed conflict in cyberspace; and national security concerns. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6246. Cyber Intelligence and Strategic Analysis. 3 Credits.

National and international cyber strategies, law, and policy as they relate to cyber intelligence efforts with a review of current cyber threats to national security; identification of strategic, operational, and tactical cyber intelligence efforts, the cyber threat landscape, and intelligence-led policing relative to cyber enforcement and investigation. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6247. Cyber Defense Strategy. 3 Credits.

The fundamentals of cyber defense strategy; understanding the organization's threatscape and building a threat matrix to prioritize and monetize cyber security defense needs; creating a sound cyber defense strategy through efficient use of known security management practices and establishing a management program to implement the defense strategy. Restricted to students in the MPS in CSIM program or with the permission of the instructor. Prerequisite: None.

PSCS 6248. Introduction to Cyber Conflict. 3 Credits.

The emerging concept of cyber conflict, its history over the last 25 years, and its integration into government and military strategies; technical, tactical, and strategic use of information technology between state and non-state actors; cyber conflict as an evolving phenomenon. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6255. Information Management for Justice and Public Safety Professionals. 3 Credits.

Application of information management techniques to justice and public safety fields; governance structure, emerging modes of communication within and outside organizations, and processes that enable managers to make timely decisions. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6256. Application of Technology to Data Analytics. 3 Credits.

Strategic application of technology to data analysis; introduction to leading edge software, including predictive and spatial analytics; principles of data visualization and application of analytics and visualization to solving justice and public safety problems; data collection, analysis, and production of usable information output. Restricted to students in the MPS in cybersecurity strategy and information management program.

PSCS 6257. Enterprise Architecture and Standards. 3 Credits.

Current and emerging trends in enterprise architecture domains; technology environments, including software, hardware, networks, applications, data, communications, and other relevant architecture disciplines; service-oriented architecture and similar innovations; conventions, principles, and practices for creating enterprise architectures; contemporary standards-based architectures for system development; industry guidelines and standards. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6258. Information Sharing and Safeguarding. 3 Credits.

Key principles of privacy and safeguarding of information; how information is shared among government agencies, outside the federal government, and between the government and the private sector. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6259. Strategic Information Technology Investment and Performance Management. 3 Credits.

The effective use of information technology within organizations; integration of IT in business processes, performance measurement, cost benefits analysis, and program evaluation; cross-disciplinary and comprehensive with examples from federal, justice and public safety, and industry organizations. Restricted to students in the MPS in CSIM program or with the permission of the instructor.

PSCS 6260. Methods of Analysis in Security. 3 Credits.

Methods and problems of data collection in security fields with a focus on cybersecurity related issues and readings; analytical design, instrument utilization, sampling, and measurement; data analysis techniques. Restricted to students in the MPS in CSIM program.

PSCS 6270. Capstone Project. 3 Credits.

Designed to help participants refine their conception of leadership in and knowledge of the cybersecurity field. Students must have completed the MPS in CSIM program curriculum before enrolling in this course. Restricted to students in the MPS in CSIM program.

PROFESSIONAL STUDIES HEALTH CARE CORPORATE COMPLIANCE (PSHC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSHC 5099. Variable Topics. 1-99 Credits.

PSHC 6201. Introduction to Health Care Corporate Compliance. 3 Credits.

PSHC 6202. Compliance with Laws and Regulations I. 3 Credits.

Issues of governance and corporate responsibility, anti-kickback and antitrust law, Civil False Claims Act, emergency medical treatment, and enforcement initiatives.

PSHC 6203. Case Studies in Health Care Corporate Compliance. 3 Credits.

Case study approach to investigation and analysis of compliance issues. Application of principles and diagnostic and remediation skills to real-world situations. Prerequisite: PSHC 6202.

PSHC 6204. Compliance with Laws and Regulations II. 3 Credits.

Issues of governance and corporate responsibility, HIPPA compliance and enforcement, federal tax law, Stark law, Sherman Act, Clayton Act, antitrust enforcement policy in health care. Corequisite: PSHC 6206. Prerequisites: PSHC 6201 and PSHC 6202.

PSHC 6206. Case Studies in Health Care Corporate Compliance. 3 Credits.

Case study approach to investigation and analysis of compliance issues. Application of principles and diagnostic and remediation skills to real-world situations. Corequisite: PSHC 6204. Prerequisites: PSHC 6201 and PSHC 6202.

PROFESSIONAL STUDIES HOMELAND SECURITY (PSHS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSHS 3150. Transnational Threats and Security. 4 Credits.

Understanding global threats to U.S. national security interests and potential responses. How criminal groups, terror organizations, and gangs operate on a global scale. Questions long-held legal norms such as the rule of law and sovereignty. Restricted to student in the BPS in homeland security program. Prerequisites: N/A.

PSHS 3151. Combating Domestic Terrorism. 4 Credits.

Provides an in-depth look at methods used to conduct attacks within U.S. borders. Topics include lone wolf, directed and coordinated attacks. Restricted to students in the BPS in homeland security program.

PSHS 3152. Cyber Terrorism. 4 Credits.

Analysis of tactics used effectively by cyber terrorists via the internet and social media platforms to spread propaganda and radicalize and recruit individuals to fight for their causes. Restricted to student in the BPS in homeland security program.

PSHS 3160. Crisis and Emergency Planning. 4 Credits.

Presents an all-hazards approach to crisis and emergency planning. Starting with the strategic assessment of common man-made and natural hazards, students examine planning strategies in the urban environment, the incident command system (ICS), and industry standards for response and recovery operations. Restricted to students in the BPS in homeland security program.

PSHS 3161. Intelligence Data Analysis. 4 Credits.

The intelligence cycle and explains many of the issues relating to the use of criminal intelligence for the purpose of securing the homeland. Restricted to students the BPS in homeland security program.

PSHS 3162. Crime Scene Investigation. 4 Credits.

Basic considerations, guidelines, and procedures that help investigating police officers avoid oversight, ensure thoroughness of the search, and comply with legal and scientific principles in the identification, collection, and transportation of physical evidence. Restricted to students in the BPS in homeland security program.

PSHS 3170. Infrastructure Protection. 4 Credits.

Specific security measures that may be used to protect critical infrastructure, public facilities, public gatherings, and open spaces. Restricted to students in the BPS in homeland security program.

PSHS 3171. Introduction to Forensic Science. 4 Credits.

Forensics and its role in criminal investigations. Physical evidence collection and preservation techniques; how different disciplines intersect with crime investigations; and courtroom procedures related to the legal use of scientific evidence. Restricted to students in the BPS in homeland security program.

PSHS 3172. Computer Crime Investigation. 4 Credits.

Introduction to the investigation of computer-based crimes and its importance to the law enforcement community on a transnational level. Review of the history of computer crime, associated terminology, and the types of crimes committed in cyberspace. Restricted to students in the BPS in homeland security and BPS in police and security studies programs.

PSHS 4180. Security Threat Assessments. 4 Credits.

Identification of security vulnerabilities of specific critical infrastructure. Identifying international, domestic, and cyber threats, analyzing intelligence data, and applying this information to a security threat assessment. Restricted to students in the BPS in homeland security program.

PSHS 4181. Incident Management. 4 Credits.

Introduction to basic concepts in management of critical incidents; its historical birth in wildland firefighting and its rebirth and reformation in the aftermath of 9/11 in Homeland Security Presidential Directive #5 (HSPD-5). Successes and failures in incident management and their implications in shaping future processes and procedures. Restricted to students in the BPS in homeland security and BPS in police and security studies programs.

PSHS 4182. Emergency Public Health Issues. 4 Credits.

Comprehensive introduction to public health emergency preparedness and response, including bioterrorism threats and events. Recognizing, responding to, and managing natural and unnatural public health emergencies. Restricted to students in the BPS in homeland security program.

PSHS 4190. Capstone Project. 4 Credits.

Application of the knowledge, skills, and abilities acquired in the BPS in homeland security program. Conduct case study involving a high-profile criminal case, perform independent analysis of the case, and prepare a written report and presentation. Restricted to student in the BPS in homeland security and BPS in police and security studies programs.

PSHS 4191. Ethical Dilemmas in Policing. 4 Credits.

Issues related to use of force, misconduct, and corruption. The historical foundation of ethics and moral philosophy. Restricted to students in the BPS in homeland security and BPS police and security studies programs.

PSHS 4192. Media, Public Relations, and Crisis Communication. 4 Credits.

Best practices for interacting with the media and other key stakeholders, spokesperson techniques for communicating during a crisis situation, and strategic messaging. Restricted to students in the BPS in homeland security program.

PSHS 6240. Political Violence and Terrorism. 3 Credits.

The evolution of terrorism and politically motivated violence; causes and origins in regional, national, and international terrorist and insurgent groups and so-called terrorist states; trends in terrorist modus operandi, including asymmetric attacks; formulating effective counterterrorist strategies. Restricted to students in the MPS in homeland security program.

PSHS 6241. Globalization of Threats and International Security. 3 Credits.

The intersection of globalization and national and international security; how globalization may create new threats while amplifying existing threats; the relationship of specific forms of globalized threat to globalization; responses of states and non-state actors to such threats; the role of international organizations. Restricted to students in the MPS in homeland security program.

PSHS 6242. Security and Civil Liberties. 3 Credits.

Examination of U.S. government activities designed to protect the security of American citizens while balancing those interests against citizens' civil liberties; limitations placed on government activities by the First and Fourth Amendments of the Constitution; complexities associated with the characterization of criminals and terrorists. Restricted to students in the MPS in homeland security program.

PSHS 6243. Intelligence and Strategic Analysis. 3 Credits.

The structure and components of the national intelligence community and law enforcement communities; international intelligence comparison; analysis of intelligence policies and strategies at the international, national, and regional levels. Restricted to students in the MPS in homeland security program.

PSHS 6244. Information Systems Protection. 3 Credits.

Exploration of the major areas of information security including risk management, cybercrime, cyberconflict, and the technologies involved in both cyberattacks and information systems protection; creating, implementing, and maintaining an information security program; root causes of insecurity in information systems.

PSHS 6250. Strategic Planning and Budgeting. 3 Credits.

The adaptation of strategic planning and performance measures beyond budgeting by government agencies dealing with long-term security issues; integrative approach to strategic planning and management, focusing on the implementation, evaluation, and oversight of strategy and policy; development of budgets, accountability plans, and risk management to ensure compliance with stated goals; analytical tools and techniques that inform organizational strategies and actions. Restricted to students in the MPS in homeland security program.

PSHS 6251. Inter-Agency Cooperation. 3 Credits.

In-depth study of interagency cooperation issues relevant to the U.S. Department of Homeland Security's organizational structure; cooperative initiatives through mutual assistance agreements and regional, national, and international structures; technology interoperability, legal, and interorganizational challenges. Restricted to students in the MPS in homeland security program.

PSHS 6252. Emergency Management and Crisis Communication. 3 Credits.

The role of crisis communications in the overall management of emergency operations; critical communications tasks, functions, and operations of the emergency operations center, incident command, and associated emergency personnel; strategies and tactics to enhance and promote effective crisis communications among government emergency managers. Restricted to students in the MPS in homeland security program.

PSHS 6253. Managing the Politics of Leadership. 3 Credits.

The role of power and influence in organizations; complexity and challenges of developing political strategies and mobilizing the political support and resources needed to implement objectives. Restricted to students in the MPS in homeland security program.

PSHS 6254. Strategic Change Management. 3 Credits.

The challenges, techniques, burdens, and successes associated with initiating and implementing major change within organizations; the process of organizational change from multiple theoretical perspectives. Restricted to students in the MPS in homeland security program.

PSHS 6260. Methods of Analysis in Security. 3 Credits.

Methods and problems of data collection in security fields; analytical design, instrument utilization, sampling, and measurement; data analysis techniques. Restricted to students in the MPS in homeland security program.

PSHS 6270. Capstone Project. 3 Credits.

Students refine their conception of leadership and knowledge of the homeland security field. Participants experience leadership in action and enhance independent learning while working in both small and large group dynamics. Restricted to students enrolled in the PSHS cohort. Prerequisites: All the curriculum in the PSHS must be completed before registering for this course.

PROFESSIONAL STUDIES INTEGRATED INFORMATION, SCIENCE, AND TECHNOLOGY (PSIS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSIS 2101. Writing and Communication in the IT Field I. 4 Credits.

Fundamentals of reading and writing with a clear sense of purpose and audience; how academic writing represents a formal engagement with larger scholarly debates; the writing process, including prewriting, drafting, and revision as well as basic research methods; making clear oral presentations.

PSIS 2102. Writing and Communication in the IT Field II. 4 Credits.

Continuation of PSIS 2101. The research and composition process; subject-specific citation style and research methodologies; and sustaining a cohesive argument over the course of an extended scholarly paper.

PSIS 2103. Statistical Sciences and Data Analysis I. 4 Credits.

Basic methods of descriptive statistics. Topics include displaying and describing data, the normal distribution, measure of center, simple linear regression, and probability theory.

PSIS 2104. Statistical Sciences and Data Analysis II. 4 Credits.

Advanced topics in statistics, including confidence intervals, hypothesis testing, inference, correlation, and multiple regression.

PSIS 2105. Programming and Computing Foundations I. 4 Credits.

Introduction to computer programming using Python. Elementary data types, control flow, assignments, functions, loops, conditionals, and methods.

PSIS 2106. Programming and Computing Foundations II. 4 Credits.

Advanced topics in computing using Python; object-oriented programming, class construction, working with APIs, text files, and databases.

PSIS 3122. Ethics in Science and Technology. 4 Credits.

Overview of contemporary ethical debates in the realm of science and information technology with a philosophically-informed logical framework for engaging with these debates.

PSIS 3123. Legislative Affairs and Governmental Procedures. 4 Credits.**PSIS 4131. Molecular Biology for Biotechnology. 4 Credits.****PSIS 4132. Phys Principles of Biotech. 4 Credits.****PSIS 4133. Bioinformatics. 4 Credits.****PSIS 4134. Biophysics in Life Sciences. 4 Credits.****PSIS 4135. Computational Modeling. 4 Credits.****PSIS 4136. Introduction to Biomedical Instrumentation. 4 Credits.****PSIS 4137. Alternative Energy Sources. 4 Credits.****PSIS 4138. Introduction to Health Information Technology. 4 Credits.**

Current and emerging health care information technologies, the policies involved in the delivery of health care and health IT, and the people and the processes that support the delivery of health care. Restricted to students in the BPS in integrated information science and technology program.

PSIS 4141. Computer and Telecommunication Networks. 4 Credits.**PSIS 4142. Relational Databases and Their Design. 4 Credits.**

PSIS 4143. Systems Integration. 4 Credits.

PSIS 4144. Information and Network Security. 4 Credits.

PSIS 4145. Software Systems Development Processes. 4 Credits.

PSIS 4151. Entrepreneurship and Communication Technology. 4 Credits.

PSIS 4152. Entrepreneurship and Technology Venture Creation. 4 Credits.

PSIS 4160. Introduction to Data Science. 4 Credits.

Techniques used to understand, process, represent, and interpret large sets of data; fundamental concepts and abstractions used in data analysis; practical techniques employed by data scientists on a daily basis. Restricted to program majors. Prerequisites: PSIS 2103 and PSIS 2105.

PSIS 4161. Data Visualization. 4 Credits.

Data visualization fundamentals; theoretical and practical concepts related to creating visually appealing graphics using data; current and emerging software and web development tools. Restricted to students in the BPS in IIST program. Prerequisite: PSIS 2105.

PSIS 4162. Data Mining and Web Analytics. 4 Credits.

Data mining techniques for structured and unstructured data; pattern discovery, text mining and natural language processing, cluster and sentiment analysis, and web scraping and analytics. Restricted to Major only. Prerequisites: PSIS 2105 and PSIS 2106.

PSIS 4190. Capstone Project and Senior Thesis. 4 Credits.

PSIS 4191. Capstone Project and Senior Thesis I. 2 Credits.

The capstone project allows either the conduct of significant independent research or the design and implementation of a real-world project. Either choice is a means for students to use the knowledge and skills they have acquired throughout the program. For most students, the capstone project can showcase their skills via a comprehensive written report or a portfolio that can be presented to future employers.

PSIS 4192. Capstone Project and Senior Thesis II. 2 Credits.

PSIS 4195. Undergraduate Research. 1-4 Credits.

PSIS 4199. Special Topics. 2-4 Credits.

PSIS 5099. Variable Topics. 1-99 Credits.

PROFESSIONAL STUDIES LANDSCAPE DESIGN (PSLD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLD 5099. Variable Topics. 1-99 Credits.

PSLD 6100. Landscape Graphics. 1 Credit.

PSLD 6201. Introduction to Design. 2 Credits.

PSLD 6202. Site Analysis. 2 Credits.

PSLD 6203. Site Engineering. 2 Credits.

PSLD 6204. Construction Methods and Materials. 2 Credits.

PSLD 6205. Digital Representation for Landscape Design. 2 Credits.

PSLD 6212. History of Landscape Design. 2 Credits.

PSLD 6213. Contemporary Themes in the Landscape. 1 Credit.

Current thinking and trends in shaping the landscape.

PSLD 6221. Landscape Plants for Fall. 2 Credits.

PSLD 6223. Landscape Plants for Spring. 2 Credits.

PSLD 6225. Landscape Plants for Summer. 2 Credits.

PSLD 6229. Herbaceous Plants. 1 Credit.

PSLD 6231. Site Design Studio. 4 Credits.

The interaction of the design concept and the various factors and circumstances that dictate or moderate that particular concept in the garden design process. The process that transforms abstract design principles, ordering principles, and spatial organizations previously learned into a specific garden design. Graphics demonstrations and exercises to further develop visual and graphic communication skills.

PSLD 6236. Planting Design Studio. 4 Credits.

PSLD 6240. Comprehensive Project. 2 Credits.

PSLD 6260. Introduction to Sustainable Design. 2 Credits.

PSLD 6261. Ecology of the Built Environment. 2 Credits.

PSLD 6262. Tools for Sustainable Design. 3 Credits.

PSLD 6264. Native Plants I. 2 Credits.

Identification and use of native plant species that are sustainable due to their evolution as part of its local ecosystem.

PSLD 6265. Native Plants II. 1 Credit.

Continuation of PSLD 6264. Identification and use of native plant species that are sustainable due to their evolution as part of its local ecosystem.

PSLD 6266. Ecological Restoration. 1 Credit.**PSLD 6268. Sustainable Design Methods. 2 Credits.****PSLD 6269. Sustenance and the Landscape. 2 Credits.****PSLD 6270. Sustainable Design Charrette. 3 Credits.**

PROFESSIONAL STUDIES LAW FIRM MANAGEMENT (PSLM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLM 5099. Variable Topics. 1-99 Credits.**PSLM 6201. Theories, Principles, and Practices of Law Firm Management. 6 Credits.****PSLM 6202. Applying Strategic and Business Planning. 3 Credits.**

Team projects using a simulated law firm case study, including practice group and office profitability analysis, market assessments, creation of strategic plans, and merger analyses. Prerequisite: PSLM 6201.

PSLM 6203. Practical Applications of Law Firm Management. 3 Credits.

Presentation of strategic plans, analyses, and recommendations developed in PSLM 6202 before a panel of faculty, managing partners, and law firm professionals. Prerequisite: PSLM 6202.

PSLM 6204. Principles of Leadership. 6 Credits.

An intensive course focused on theories and principles of leadership within firms, including leading organizational change. Prerequisite: PSLM 6203.

PSLM 6205. Application of Leadership Frameworks. 3 Credits.

Concepts and frameworks that highlight leadership roles in firms. Prerequisite: PSLM 6204.

PSLM 6206. Strategic Leadership for Sustainability and Change. 3 Credits.

Integration of the content of PSLM 6204 and PSLM 6205 through a focus on strategic leadership. Prerequisite: PSLM 6205.

PSLM 6207. Process Improvement in Law Firms. 3 Credits.

Development of charters for major projects in law firms, applying skills pertaining to managing change and conflict. Prerequisite: PSLM 6206.

PSLM 6208. Legal Technology and Knowledge Management. 3 Credits.

Key elements of knowledge management, including development of a knowledge management strategy. Prerequisite: PSLM 6207.

PROFESSIONAL STUDIES MOLECULAR BIOLOGY (PSMB)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSMB 4152. Entrepreneurship and Technology Venture Creation. 4 Credits.**PSMB 5099. Variable Topics. 1-99 Credits.****PSMB 6101. Introduction to Bioinformatics. 3 Credits.**

The basic principles of bioinformatics, including genome sequencing, models, and evolution; computational approaches for analyzing biological data. Prerequisites: BISC 1115 and 1125. Recommended background: 4 credits of general biology.

PSMB 6102. Scripting. 3 Credits.

Introduction to basic concepts of scripting in bioinformatics, such as alignments, searches, and data manipulation for biological data. Recommended background: .

PSMB 6103. Genomics. 3 Credits.

Introduction to genes and genomes. Computational and statistical approaches for analyzing genomic and metagenomic data, including genome sequencing and annotation; gene expression; transcriptome, proteomics, and functional genomics; and basic concepts in genetic variation and single nucleotide polymorphisms.

PSMB 6104. Research Orientation. 1-2 Credits.

Introduction to basic approaches to research and professional conduct as a graduate student; curriculum vitae development; scientific writing; human subjects training; biomedical lab safety training; introduction to library resources and literature searches; introduction to writing scientific papers, abstracts, grant applications; and presenting scientific research.

PSMB 6105. Seminar in Computational Biology. 1-2 Credits.

Practical experience in searching current literature, reviewing topics, and interacting in a scientific forum with other students, postdoctoral scholars, visiting faculty, and faculty.

PSMB 6251. A Primer on Computations. 1 Credit.

PSMB 6252. Biomolecular Modeling. 3 Credits.

Principles and practice of molecular simulation; principles of structural biology; principal experimental and computational techniques used to investigate the structure, dynamics, and function of biological systems; practical skills needed to perform and interpret molecular dynamics simulations of biological macromolecules.

PSMB 6253. Principles of Biomedical Instrumentation. 3 Credits.

PSMB 6261. Introduction to Quantitative Biotechnology. 3 Credits.

The study of biology from a physics perspective; quantitative biology; modeling and predicting an organism's reaction to the environment to enable new technologies for disease detection, prevention, and cure; application of mathematical and physical models to the understanding of cellular biology.

PSMB 6262. Bionanotechnology. 3 Credits.

Application of ideas from nanotechnology to solving biological and chemical problems and refining new methods and tools for health and medicine; overlapping, multidisciplinary activities at the intersection of photonics, chemistry, biology, biophysics, nano-medicine, and engineering. Laboratory experiments apply the fundamentals of nanotechnology to DNA and protein sensing. Laboratory fee.

PSMB 6263. Management of Biotechnology Innovation. 3 Credits.

New scientific and technical products, processes, and services related to biotechnology; scientific discovery, emerging technologies, and birth of the biotechnology industry; management concepts and practices to enhance corporate innovation; corporate venture divisions and new management approaches.

PSMB 6264. Entrepreneurship and Technology Venture Creation. 3 Credits.

The process of innovation-entrepreneurship used to launch and build new ventures, with emphasis on technology ventures; organizing for innovation, raising venture capital, wealth creation, managing the small technology-based venture, marketing information technology products and services.

PSMB 6265. Commercialization of Bioscience and Biotechnology. 2 Credits.

PSMB 6266. Capstone Project. 3 Credits.

Issues and standards for ethical conduct of research; career paths in biotechnology; career development tools; scientific written and oral communication, including developing proposals for research funding. Students are required to visit GW's Center for Career Services and to attend select seminars and colloquia.

PROFESSIONAL STUDIES PARALEGAL STUDIES (PSLX)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLX 3210. Introduction to the U.S. Legal System. 4 Credits.

Introduction to the U.S. legal system. Foundations of law, issue spotting and legal writing, the Federal Rules of Civil Procedure, rules of court, ethics and professionalism, and the unauthorized practice of law.

PSLX 5099. Variable Topics. 1-99 Credits.

PSLX 6210. American Jurisprudence. 3 Credits.

An introduction to the foundations, theories, history, and applications of the American legal system; local, state, and federal courts and sources of law; and ethics and professionalism issues of especial importance to paralegals.

PSLX 6211. Legal Research and Writing. 3 Credits.

Fundamentals of legal research using print and online tools.

PSLX 6212. Litigation. 3 Credits.

Legal technology and the rules of court, procedure, and evidence; technical and substantive skills necessary for effective litigation support.

PSLX 6213. Corporations and Contracts Law. 3 Credits.

PSLX 6214. Administrative Law. 3 Credits.

An introduction to administrative and regulatory law; history and development of administrative law; agency, due process, agency actions, administrative investigation and hearings, and judicial review.

PSLX 6215. Government Contracts Law. 3 Credits.

The law of procuring, forming, and executing government contracts, including drafting and litigation; competition requirements, contract changes, and contract terminations; researching and drafting documents common to a government contracts practice.

PSLX 6223. Contracts. 3 Credits.

Contract elements, their attendant legal ramifications, and the processes necessary to make such determinations. Development of legal reasoning skills in evaluating issues arising from contract law.

PSLX 6224. Advanced Legal Writing. 3 Credits.

Advanced legal writing techniques and drafting for legal practice. Legal writing in plain English; strategies for effective writing; emphasis on legal memoranda, legal correspondence, and preparing and drafting legal pleadings and documents for court. Refines and advances skills in written legal analysis and legal citation.

PSLX 6225. Business Entities. 3 Credits.

Overview of business organizations, including partnerships, limited liability companies, and corporations. Key concepts applicable to business organizations, including regulation, business formation, document preparation. Application of legal analysis within the context of business entities and other topics applicable to paralegals in all disciplines.

PSLX 6226. International Law. 3 Credits.

Introduction and survey of international law, including international trade law and litigation. Rules and principles governing relations among sovereign states, international organizations, and sources of international law. Analysis of the rules and customs for handling international trade. International courts and tribunals; overview of the treaties, customary principles, and institutional structures governing international human rights law.

PSLX 6227. Intellectual Property Law. 3 Credits.

Introduction to the legal structure of an intellectual property practice. Trademarks, copyrights, and patents and the supporting practice concomitant to each element. Analysis of the processes, supporting documentation, laws, and rules regarding patent prosecution and litigation. This course complements and builds upon the legal issues and analysis introduced in the courses on contracts, business entities, and litigation.

PSLX 6228. California Law and Practice. 3 Credits.

Overview of the state of California's government and court structures, rules of court, litigation support procedures and technology, and professional ethics. May be used to satisfy the California paralegal continuing legal education requirement.

PSLX 6294. Independent Research in Legal Studies. 2 Credits.

Guided, independent research to demonstrate the higher level of competency in research, analysis, writing, and oral presentation. Restricted to students in the MPS in paralegal studies programs.

PSLX 6298. Paralegal Practicum. 3 Credits.

Students work in legal environments while completing their studies, taking active roles to obtain, manage, and maximize the value of their positions. Restricted to students in the MPS in paralegal studies program.

PROFESSIONAL STUDIES PUBLIC LEADERSHIP (PSPL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPL 5099. Variable Topics. 1-99 Credits.**PSPL 6201. Mastering Multi-Sector Leadership. 3 Credits.**

There are a number of topics and areas where the interests of business, government, and the non-profit sectors overlap. Often, these areas of overlap highlight challenges and opportunities that cannot be fully addressed by one sector alone. Yet, the performance of each sector depends to some degree on the successful resolution of these issues. It is a situation that requires leaders who are able to engage and mobilize people and organizations across sectors. The purpose of this course is to introduce you to the multi-sector landscape and to provide you with an interdisciplinary framework you can use to effectively mobilize individuals and organizations across sectors. Using case studies and simulations the course will explore the core challenges and opportunities facing multi-sector leaders in business, government, and in the non-profit sector. The course will stress the need for you to look outside of your immediate organizational environment and to take a broader view on the identities, incentives, and social roles that influence attitudes and behavior across sectors. Restricted to Limited to PSPL students.

PSPL 6202. Policy Issues and Analysis. 3 Credits.

This course is intended to prepare leaders to effectively conduct and lead policy analysis efforts, and to be a more informed consumer of policy findings and recommendations prepared by others. As such, it will focus on the process of developing policy recommendations, and approaches and tools useful in implementing and evaluating public policy. A variety of approaches will be used to strengthen students' understanding of the foundational concepts of policy analysis, the analysis process, and the techniques and tools required to effectively implement that process. This will include readings, lecturettes, case studies, whole class/small group discussions, examination of current policy issues in the news, reflections on personal experience, and application of the policy analysis process to real world issues. There will also be exploration of some the critical competencies that today's leaders need to effectively contribute to the policy analysis process (e.g. critical thinking, executive perspective, team leadership/influence). Particular emphasis will be placed on understanding how these concepts apply in organizational situations.

PSPL 6203. Leading in a Digital Environment. 3 Credits.

.

PSPL 6204. Politics of Organizational Leadership. 3 Credits.

.

PSPL 6205. Intergovernmental Relations. 3 Credits.**PSPL 6206. Public-Private Partnerships and Contract Management. 3 Credits.**

.

PSPL 6211. Results-Based Performance Management Systems. 3 Credits.

.

PSPL 6212. Managing Multisector Workforce. 3 Credits.**PSPL 6213. Performance-Based Financial Management. 3 Credits.**

.

PSPL 6221. Organizational Process Improvement Methodologies. 3 Credits.

.

PSPL 6222. Organizational Process Analysis. 3 Credits.

.

PSPL 6223. Organizational Process Design. 3 Credits.

.

PSPL 6224. Process Improvement Research Project. 3 Credits.

.

PSPL 6301. Fundamentals of Organization Performance Improvement. 6 Credits.

In-depth instruction on the Lean Six Sigma approach to organization performance improvement and appropriate uses of a variety of its analytical methods and tools. Students are required to complete a Lean Six Sigma application project and pass all examinations with a score of 80% or better. Students completing all requirements earn a Green Belt Certificate for proficiency in Lean Six Sigma methods and applications. Recommended background: Currently working in an organization. Credit cannot be earned for this course and PSPL 6222, PSPL 6223.

PSPL 6302. Leading Organization Performance Improvement Initiatives. 3 Credits.

Approaches for designing organization performance improvement initiatives and criteria for selecting the most effective approach for the intended initiative. Organization dynamics and change processes considered toward crafting a strategy for leading the changes required by the initiative. Methods and tools for planning and managing each phase of the change initiative. Application of concepts and skills to the design and development of Lean Six Sigma Black Belt projects that are implemented in subsequent courses. Recommended background: currently working in an organization.

PSPL 6303. Advanced Methods for Organization Performance Improvement. 3 Credits.

Advanced methods for data gathering, analysis, problem definition, and conducting and documenting performance improvement experiments. Change management strategies, experimental process design and tests, use of pilots and "sandboxes," and user-centered design principles. Black Belt-level change initiatives, performance improvement design criteria, and change management and organization engagement strategies. Students are required to begin leading an initiative and implementing changes resulting in documented benefits as well as passing all examinations with a score of 80% or better. Prerequisite: PSPL 6301. Recommended background: Currently working in an organization.

PSPL 6304. Advanced Applications in Organization Performance Improvement. 3 Credits.

Students learn tools for pulsing the organization to test the effectiveness of their approaches and assess the degree of support from key leaders. Students are encouraged to adopt an evolutionary design perspective and modify their solutions continuously based on feedback and results achieved--documented benefits in cost savings, process speed increases, enhanced customer satisfaction, and revenue enhancements. All examinations must be passed with a score of 80% or better. Students present their final project reports and receive feedback from faculty and a team of peers. Those who complete all requirements with a grade of B or above will earn a Black Belt Certificate demonstrating proficiency in using advanced Lean Six Sigma methods and processes to lead organization performance improvement initiatives. Prerequisites: PSPL 6301 and PSPL 6303. Recommended background: Currently working in an organization.

PROFESSIONAL STUDIES PUBLIC RELATIONS (PSPR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPR 5099. Variable Topics. 1-99 Credits.

PSPR 6201. Strategic Public Relations: Principles and Practice. 3 Credits.

Basic rules and strategies in public relations. Major trends, major firms, and types of business and expertise. Digital media and integrated media communications.

PSPR 6202. Advanced Writing for Public Relations Professionals. 3 Credits.

The essentials of effective public relations and public affairs writing, emphasizing strategic thinking and compositional precision as the source of their efficacy and power.

PSPR 6203. Research Methods for Public Relations and Public Affairs Managers. 3 Credits.

PSPR 6204. Media Relations in a Digital World. 3 Credits.

Media relations from the perspective of public relations and public affairs; the state of contemporary media, both on- and offline, and its impact on commerce, politics, and the social contract; key factors influencing reportorial and editorial coverage of business, government, and nonprofit interests.

PSPR 6205. Fundamentals of Business and Management for Public Relations and Public Affairs. 3 Credits.

PSPR 6206. Ethical Standards in Public Relations and Public Affairs. 3 Credits.

PSPR 6207. Sustainability Communications Methods and Practices. 3 Credits.

PSPR 6208. Integrated Marketing Communications. 3 Credits.

The evolution of integrated marketing communications as a means by which for-profit and nonprofit enterprises extend the reach and influence of public relations and public affairs; traditional and non-traditional communications approaches and technologies. Recommended background: degree candidacy in the MPS in the Field of Strategic Public Relations program and/or graduate status in the School of Business or School of Media and Public Affairs.

PSPR 6210. Special Topics in Public Relations. 3 Credits.

PSPR 6211. Strategy and Practice for Nonprofit and Association Communications. 3 Credits.

This course is designed to help communicators currently working # or hoping to work # in trade associations and nonprofit organizations become more effective in the planning and execution of their programs. By its very nature, this course will be practical and reality#based, with guest speakers drawn from many organizations and communications backgrounds. In the context of this class, effective communications means understanding the goals, environments, structures, constraints, opportunities and challenges facing associations and nonprofit organizations, and developing and implementing communication plans to achieve those goals. Effective also means working within the limitations communicators often face, such as (but by no means limited to): dwindling budgets, divided membership, fragmented boards and hesitant leadership, the decline of traditional news media, the rise of blogs, the surge of social media and more. In short, "effective" means being strategic, proactive, and smart. But while these attributes are necessary, they are not sufficient. Effective communicators must understand the roles communications play - internal as well as external - for their organizations. They must know the organization's stakeholders and understand their "care and feeding." In short, they must understand their institutional roles - and the expectations of their internal and external stakeholders and audiences. Restricted to students in the MPS strategic public relations degree program; permission of the program director may be substituted. Prerequisites: PSPR 6201, PSPR 6202, PSPR 6203, PSPR 6204, PSPR 6205 and PSPR 6206.

PSPR 6221. Consumer Behavior. 3 Credits.

PSPR 6222. Multicultural Marketing. 3 Credits.

PSPR 6223. Public Opinion and Political Socialization. 3 Credits.

The process by which people become engaged in public debates and politics; how they acquire and maintain attitudes, biases, and beliefs, and the decisions they make as a result. Discussion centers on the forces that influence public opinion and political socialization, including the power of the press and its impact on our major institutions. Prerequisites: PSPR 6201 and PSPR 6202.

PSPR 6224. Global Public Relations and Public Affairs: Strategy and Practice. 3 Credits.

How global public relations strategies are developed and implemented to support advocacy efforts; communications theories that enable insight into challenges arising from differences in language, culture, politics, and economics worldwide Credit cannot be earned for this course and PSAD 6270.

PSPR 6225. Nonprofit and Association Communications Strategies. 3 Credits.

How communicators working in trade associations, nonprofit organizations, and labor unions become more effective in the planning and execution of their programs to achieve organizational goals.

PSPR 6226. Digital Communication Platforms and Strategies. 3 Credits.

Theories and approach to digital communications and review of major digital platforms used by companies, government agencies, nonprofits and associations to accomplish strategic communications goals and objectives.

PSPR 6227. Applied Digital Communications for Public Relations and Public Affairs Professionals. 3 Credits.

In-depth and holistic study of digital communications using case studies and collaborative exercises; how to blend creative writing with graphics production, social media management with audience segmentation, and digital advertising channels with analytics.

PSPR 6230. Crisis and Issues Management. 3 Credits.

The intersection of communications and policy disciplines, including environmental scanning, public policy analysis, public policy advocacy, strategic communications, media relations, grassroots mobilization, coalition management and corporate reputation management. How these issues work together to further the broad strategic goals of organizations.

PROFESSIONAL STUDIES PUBLISHING (PSPB)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPB 5099. Variable Topics. 1-99 Credits.

PSPB 6126. Children's Publishing and Media. 2 Credits.

Explores the children's media industry with a focus on book publishing. Overview of children's and YA print, digital, audio, and video segments. Reviews business opportunities, market analysis, trends, demographics, acquisition, and outreach.

PSPB 6201. Book and Journal Publishing. 3 Credits.

Fundamental aspects of the publishing industry, including business models, acquisitions, production, marketing, and sales for both books and journals. Challenges to the industry and strategic decisions formed and communicated by publishers.

PSPB 6203. Business of Publishing. 2 Credits.

Business operations in the publishing industry and how various business practices impact the publishing ecosystem. Book acquisitions, contracts, business plans, and distribution strategies.

PSPB 6205. Copyright Law in Print and Cyberspace. 3 Credits.

Foundations of copyright law for print and electronic media. History and development of copyright law and key concepts such as exclusive rights, fair use, remedies for infringement, and the overall challenges in application of the law to all media.

PSPB 6207. Marketing Strategies. 2 Credits.

Marketing and promotional strategies for print and digital book and journal publishing products. Decisions marketing departments must make to help increase the impact of publishing products.

PSPB 6213. Book Design. 2 Credits.

The role of design in the publishing process. How components of book design, such as typography, imagery, page layout, cover design, printing, and production, are affected by and affect content, tone, function, and intended audience.

PSPB 6214. Professional Editor. 3 Credits.

The editorial function and importance of editorial judgment as personified in the acquisitions, developmental, substantive, and copy editor roles. Freelance editing, editorial management, challenges facing the professional editor, and potential editorial career trajectories. Prerequisite: PSPB 6201.

PSPB 6215. Editing Special Projects. 1 Credit.

Practical experience editing special projects, which may include journals, open educational resources, monographs, and books. Restricted to students in the online MPS in the field of publishing program. Recommended background: prior completion of PSPB 6214.

PSPB 6221. Publishing Management, Organization, and Strategy. 2 Credits.

Publishing management, strategic planning, how publishers add value, and organizational change. How ethics, diversity, and social responsibility inform organizations. Issues that drive the strategic planning process, such as staff involvement, team building, and resource allocation.

PSPB 6222. Accounting and Finance for Publishers. 2 Credits.

Accounting and financial reporting for a publishing organization's operating results, with an emphasis on evaluating what these results mean in terms of financial success, new business ventures, and sustainability.

PSPB 6223. Global Publishing. 2 Credits.

Overview of the publishing industry around the world. National publishing industries and strategies for entering those markets. Global English language publishing. Acquisition, sales, and production strategies. Translation rights and global strategies. Recommended background: prior completion of PSPB 6203.

PSPB 6224. Budgeting, Fulfillment, and Distribution. 2 Credits.

PSPB 6232. Production Management. 3 Credits.

Publishing production and product life cycles. Students develop products, plan and specify requirements, select vendors, and learn about integrating digital products into print production processes.

PSPB 6251. Fundamentals of Electronic Publishing. 2 Credits.

Digital technologies and trends that have transformed the publishing industry in recent decades, including standards, business models, and technologies and approaches used in electronic publishing.

PSPB 6253. Electronic Publishing Practice. 2 Credits.

Pragmatic, economic, and ethical aspects of electronic publishing for responsible decision making. Prerequisite: PSPB 6251.

PSPB 6255. Electronic Publishing: Infrastructure and Architecture. 3 Credits.

Emerging content technologies, including software and hardware components of a typical publishing system, the enabling standards, and an introduction to publishing systems architecture. Prerequisite: PSPB 6251.

PSPB 6256. E-Publishing Technologies And Standards. 2 Credits.

Overview of current and emerging content technologies, software and hardware components of a typical publishing system, enabling standards, and publishing systems architecture. Restricted to students in the MPS in publishing program. Prerequisite: PSPB 6251.

PSPB 6257. Designing for E-Publishing Success. 2 Credits.

Principles of digital design, usability testing, search engine optimization, iterative design, and multiple presentational models. Information architecture, usability, and design. Prerequisite: PSPB 6251.

PSPB 6258. User-Centric Design for Print and Electronic Publications. 2 Credits.

PSPB 6259. E-Publishing Tools. 2 Credits.

Employs tools to produce both book and magazine page layouts, while delving into style sheets, master pages, importing different file types, and rendering on different platforms. Considers print-ready projects and ways to use multimedia. Prerequisite: PSPB 6251.

PSPB 6261. Editorial Content, Rights, and Permissions. 2 Credits.

Meaning and monetization of rights in the publishing world. What editors need to know to negotiate terms for rights that they wish to acquire. The effects of emerging electronic and digital marketplace on permissions and rights.

PSPB 6262. Editing for Books, Journals, and Electronic Products. 2 Credits.

Facets of editing related to books and journals and electronic editions and derivatives of both publication types, and born-digital information products.

PSPB 6265. Managing Editorial Staff. 2 Credits.

Roles and responsibilities, workflows, best practices, policies, and procedures within editorial offices and how these roles may vary from office to office. Tools and strategies for effectively managing an editorial department in scientific, technical, and medical (STM) journal publishing.

PSPB 6271. Sales Management, Strategy, and Positioning. 2 Credits.

Essentials of sales strategy and marketing for books, magazines, and e-content products.

PSPB 6272. Book Publicity and Promotion. 2 Credits.

Overview of strategies, objectives, and tactics for promoting and publicizing new books, monographs, and other publishing products, using examples from trade, academic, and electronic publishing.

PSPB 6273. Managing the Marketing Portfolio. 2 Credits.

PSPB 6280. Applied Ethics in Publishing. 1 Credit.

Students work with publishers, advocacy groups, or community groups on a project that applies ethical theories to real-world publishing situations.

PSPB 6281. Ethics in Publishing. 1 Credit.

Ethical issues in publishing, including censorship, intellectual property rights, plagiarism, open access, business practices, and environmentally-responsible publishing. Issues of diversity, inclusion, and accessibility. Restricted to second-year students in the MPS in publishing program.

PSPB 6298. Digital Publishing Special Projects. 2 Credits.
Students address a real-world problem using publishing theory and application and consideration of workflows, product life cycle, schedules, deliverables, and dissemination. Prerequisites: PSPB 6251; and PSPB 6256, or PSPB 6257, or PSPB 6259.

PROFESSIONAL STUDIES SECURITY AND SAFETY LEADERSHIP (PSSL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSSL 5099. Variable Topics. 1-99 Credits.

PSSL 6240. Political Violence and Terrorism. 3 Credits.

PSSL 6241. Globalization of Threats and International Security. 3 Credits.

PSSL 6242. Security and Civil Liberties. 3 Credits.

PSSL 6243. Intelligence and Strategic Analysis. 3 Credits.

PSSL 6244. Information Systems Protection. 3 Credits.

PSSL 6245. Cyber Security Law and Policy. 3 Credits.

PSSL 6246. Cyber Intelligence and Strategic Analysis. 3 Credits.

PSSL 6247. Cyber Defense Strategies. 3 Credits.

PSSL 6248. Introduction to Cyber Conflict. 3 Credits.

PSSL 6250. Strategic Planning and Budgeting. 3 Credits.

PSSL 6251. Inter-Agency Cooperation. 3 Credits.

PSSL 6252. Emergency Management and Crisis Communication. 3 Credits.

PSSL 6253. Managing the Politics of Leadership. 3 Credits.

PSSL 6254. Strategic Change Leadership. 3 Credits.

PSSL 6255. Information Management for Justice and Public Safety. 3 Credits.

PSSL 6256. Applied Technology to Data Analytics. 3 Credits.

PSSL 6257. Enterprise Architecture and Standards. 3 Credits.

PSSL 6258. Information Sharing and Safeguarding. 3 Credits.

PSSL 6259. Strategic IT Investment and Performance Management. 3 Credits.

PSSL 6260. Methods of Analysis in Security. 3 Credits.

PSSL 6270. Capstone Project. 3 Credits.

Development of a research project integrating theoretical and analytic perspectives applied to improving organizational effectiveness in public safety agencies.

PSSL 6401. National and International Security Threats. 6 Credits.

The evolution of terrorism and politically motivated violence. Shifts in the operational tactics of guerrilla, terrorist, and insurgent groups and rogue states. Approaches to the formulation of counter-terrorist strategies. The conduct of national and international threat assessment. The various international legal and strategic options available to public safety agencies. Credit cannot be earned for this course and PSSL 6240, PSSL 6241.

PSSL 6443. Intelligence and Information Systems. 6 Credits.

This course explores the principles of the structure and components of both the national intelligence community and law enforcement communities. It focuses on the analysis of intelligence policies and strategies at the international, national, and regional levels. This course will provide a general understanding of information security, recognize the different challenges, and acquire an awareness of the different cyber threats that today's organizations are exposed to. Credit cannot be earned for this course and PSSL 6243, PSSL 6244.

PSSL 6448. Introduction to Cyber Conflict, Cyber Intelligence, and Strategic Analysis. 6 Credits.

An exploration of cyber conflict, its history, and how it is being integrated into government and military strategies. The evolution of cyber intelligence and models for its collection and analysis. Technical, tactical, and strategic use of information technology between states and non-state actors; national and international cyber strategies, law, and policy as they relate to cyber intelligence efforts; advanced persistent threats; cyber threats to national security; strategic, operational, and tactical cyber intelligence efforts and countermeasures; and cyber weapons, actors, and methods of delivery. The current state and the future of cyber conflict as an evolving phenomenon. Restricted to students in the MPS in strategic cyber operations and management program.

PSSL 6450. Strategic IT Investment and Methods of Analysis. 6 Credits.

The effective use of information technology (IT) within public safety organizations. Integration of IT into business processes. Performance measurement, cost benefits analysis, and program evaluation. Methods and problems related to data collection in security fields, with emphasis on analytical design, instrument usage, sampling, and measurement. Credit cannot be earned for this course and PSSL 6259, PSSL 6260.

PSSL 6452. Strategic Planning and Emergency Response. 6 Credits.

The adaptation of strategic planning and performance measures beyond budgeting for the requirements of government agencies that deal with long-term security issues. Basic principles of emergency planning, including development of an across-the-board response plan involving all levels of government and the private sector, Strategies for ensuring that communication channels are open and secure during a crisis situation. Credit cannot be earned for this course and PSSL 6250, PSSL 6252.

PSSL 6453. Leadership and Change Management. 6 Credits.

An in-depth look at the role of power and influence in organizations. Case studies demonstrate the necessity of mobilizing the political support and resources needed to implement objectives. The challenges, techniques, burdens and successes associated with initiating and implementing organizational change from multiple theoretical vantages. Credit cannot be earned for this course and PSSL 6253, PSSL 6254.

PSSL 6455. Information Management and Data Analytics. 6 Credits.

Application of information management techniques to justice and public safety fields: governance structure, emerging modes of communication within and outside organization, processes that enable managers to make decisions. Strategic application of technology to data analysis. Introduction to cutting edge software including predictive and spatial analytics. Principles of data visualization. Application of analytics and visualization in solving justice and public safety problems. Credit cannot be earned for this course and PSSL 6255, PSSL 6256.

PSSL 6457. Enterprise Architecture and Information Sharing and Safeguarding. 6 Credits.

Overview of technology environments including software, hardware, networks, applications, data, communications, and other relevant architecture disciplines with a focus on service-oriented architecture and similar innovations applicable to the subject fields. Principles of privacy and safeguarding data in government owned or operated databases related to justice, public safety and homeland security. Credit cannot be earned for this course and PSSL 6257, PSSL 6258.

PROFESSIONAL STUDIES URBAN SUSTAINABILITY (PSUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSUS 5099. Variable Topics. 1-99 Credits.

PSUS 6201. Principles of Sustainable Urban and Regional Planning. 3 Credits.

The environmental, social, and economic elements of sustainability. Present and future challenges, including environmental management, energy policy, financial crises, global warming, inequality, public education, third and first world slums, the success and failure of nations, urban agriculture, urban economics, and more. The implications of sustainable development and conducting research based on evidenced-based policy. Students focus on the work of researchers outside of the planning field as they write a series of research essays containing reviews of relevant scientific literature.

PSUS 6202. Urban and Environmental Economics. 3 Credits.

The application of neoclassical economics to problems faced by practitioners of the field of sustainable urban and regional planning. Key economic concepts including supply and demand, consumption and production, markets and market failure, and measurement of environmental and other non-market commodities. An economist's perspective on the principals and methods for understanding urban and environmental challenges and solutions, urban growth, environmental quality, public policy, and other issues fundamental to contemporary development.

PSUS 6203. Research Methods: Geospatial and Econometric Analysis. 3 Credits.

Developing proficiency in geographic information systems (GIS) and econometric analysis; building and analyzing spatial datasets using ArcGIS and Stata statistical software.

PSUS 6204. Land Use Law. 3 Credits.

Understanding the legal context of land use planning as it applies to contemporary issues. The role of land use law in shaping the urban context and its implications for policy and practice.

PSUS 6210. Transportation Planning in City Systems. 3 Credits.

Transportation planning with long-run goals in mind, including reducing greenhouse gas emissions. The role of planning at local and regional scales within the broader framework of transportation engineering.

PSUS 6211. Regional Development and Agricultural Economics. 3 Credits.

The economics of land use patterns and development processes in the United States and elsewhere in the world. Introduction to the field of agricultural economics and examination of food deserts and other food-related problems relevant to the field of sustainable urban planning.

PSUS 6212. Sustainable Communities I: Housing and Design. 3 Credits.

Community development with a focus on policy and the various sectors of interest that affect contemporary urbanization. How policies, planning techniques, and implementation strategies form the core work of planning practitioners. Topics include water supply, food deserts, public health, and urban resilience. Pathways to more sustainable communities are explored through the policy arenas in which key decisions are made; key sectors that make up the fabric of communities; and special topics that have emerged as critical challenges for sustainable community development.

PSUS 6213. Advanced Research Methods Individual Mentoring. 3 Credits.

Builds on research skills learned in PSUS 6203. Students in the sustainable urban planning program work one-on-one with a faculty member of their choice on a project of joint design. Prerequisite: PSUS 6203.

PSUS 6214. Food and Cities. 3 Credits.

Examines agricultural systems, food production, consumption, and trade, and their links to urbanization, city growth, and public health, through lenses of history, technology, economic theory, geography, and public policy. The course explores the roles that food plays in the lives of urban inhabitants, and in shaping the urban landscape, and the role of cities in determining the geography, sustainability, and business of agriculture.

PSUS 6215. Urban Health Impact Assessment. 3 Credits.

Examines the relationship between the allied fields of urban planning and public health. Addresses the link between the built environment and various health outcomes and the value added incorporating health concerns into the planning and design processes.

PSUS 6216. Megacities in a Globalized World. 3 Credits.

Research-oriented course in which students identify, analyze, and recommend ways of addressing land use change and economic development within one of the world's megacities.

PSUS 6218. Urban Growth and Affordable Housing. 3 Credits.

Real estate economics, with an emphasis on urban growth and affordable housing; the process and outcome of economic development and the relationship between economic development and sustainable urban planning.

PSUS 6220. Planning Resilient and Low-Carbon Cities. 3 Credits.

International perspectives on urban planning, taking into consideration increased global temperatures resulting from greenhouse gas emissions-induced climate change. The course is taught with reference to the findings of the Intergovernmental Panel on Climate Change (IPCC) and considers how urbanization around the world must adapt to the reality of global warming and its consequences.

PSUS 6221. The Scientific Basis of Climate Change. 3 Credits.

The science underlying climate change policy and decision making. Earth systems, climate change projections, the need for mitigation, and impact assessment. Designed for non-scientists.

PSUS 6222. Climate Change Economics. 3 Credits.

Energy use in built environments with an emphasis on fundamental drivers of energy demand, strategies to promote energy efficiency, and essential features of energy supply; the relationship between energy demand and supply in development.; how advances in construction technology can help counter greenhouse gas emissions.

PSUS 6223. Sustainable Communities II: Tools for Assessment and Transformation. 3 Credits.

Builds on PSUS 6212 by further detailing the theory and tools relevant to the assessment and transformation of neighborhood and communities. Geospatial analysis explore the fundamental drivers of urban form, advanced transportation systems, theories of change, and various impact assessment tools used to inform policy implementation.

PSUS 6224. Sustainable Energy for Cities and the Environment. 3 Credits.

Resource management and renewable energy technologies. Vulnerabilities of existing urban structures, particularly the energy grid. Implications of and solutions to energy-related problems likely to arise in present and future cities.

PSUS 6228. Open Space and Public Facilities Planning. 3 Credits.

Relevant skills applicable to urban park planning. Students learn site assessment and analysis tools and produce a professional quality project.

PSUS 6230. Sustainable Community Design Studio. 3 Credits.

Students gain practical experience by applying research skills and creativity to analyze and resolve a real-world urban issue.

PSUS 6231. Practicum:ClimateChangeMgt&Pol. 3 Credits.

PSUS 6233. Capstone in Sustainable Urban Planning. 3 Credits.

The SUP Capstone is a self-paced project specific to individual students, conducted under the supervision of a faculty member/s of the student's choice. The capstone is a significant piece of research that ties the student's broader experience in the Sustainable Urban Planning Program together – and brings their cumulative learning to bear on a research question / topic / project of their choice and definition. The capstone is intended to be a piece of exemplary work that the student can use to help them get to the "next level." That is, the capstone is a project that demonstrates the students capabilities and ability to work independently – it might be used, for example, as a sample of work in the job application process. Capstone projects may take the form of academic research papers; applied policy briefs; posters; executive training courses; and more. The capstone is no less (and no more) than a full semester's worth of intensive work on a particular project; it is NOT a thesis, as defined by the George Washington University. Ideally, the capstone project is of sufficient quality that it is worth of being presented at a meeting of the American Planning Association (local chapter or national meeting) or other relevant professional context.

PSUS 6235. Advanced Topics in Urban Sustainability. 3 Credits.

PSUS 6236. International Studio in Sustainable Urban Planning. 3 Credits.

International immersion designed to promote an international exchange of research and scholarship on sustainable urban development and provide instruction on operating in a foreign setting.

PSUS 6260. Introduction to Sustainable Design. 2 Credits.

PSUS 6261. Ecology of the Built Environment. 2 Credits.

PSUS 6262. Tools for Sustainable Design. 3 Credits.

PSUS 6266. Ecological Restoration. 1 Credit.

PSUS 6269. Sustenance and the Landscape. 2 Credits.

PSYCHOLOGY (PSYC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSYC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PSYC 1001. General Psychology. 3 Credits.

Fundamental principles underlying human behavior.

PSYC 1099. Variable Topics. 1-36 Credits.

PSYC 2011. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001. Same As: PSYC 2011W.

PSYC 2011W. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSYC 1001. Same As: PSYC 2011.

PSYC 2012. Social Psychology. 3 Credits.

Social foundations of behavior: cognition, motivation, role behavior, communication, small-group processes, and attitudes. Prerequisite: PSYC 1001.

PSYC 2013. Developmental Psychology. 3 Credits.

Introduction to the study of human development; theory and research concerning changes in physical, cognitive, and social functioning and influences on the developing individual. Prerequisite: PSYC 1001.

PSYC 2014. Cognitive Psychology. 3 Credits.

Introduction to the study of cognition; review of data and theories on the topics of perception, attention, memory, language, reasoning, and decision making. Prerequisite: PSYC 1001.

PSYC 2015. Biological Psychology. 3 Credits.

Introduction to the biological basis of behavior; review of data and empirical methods on the topics of neural structure and function, brain damage, neuroanatomy, genes, hormones, and their influence on behavior. Prerequisite: PSYC 1001.

PSYC 2099. Variable Topics. 1-12 Credits.

PSYC 2101. Research Methods in Psychology. 3 Credits.

Survey of research designs (e.g., case studies, correlational designs, experiments), methods (e.g., questionnaires, observations), and measurement issues (e.g., reliability and validity). PSYC 1001 and STAT 1053 may be taken as a corequisite. Prerequisites: PSYC 1001 and STAT 1053.

PSYC 2199. Special Topics in Psychology. 3 Credits.

Special topics in psychology for students without advanced psychology background. Topics vary by semester. May be repeated once for credit provided the topic differs. See department for more details. Prerequisite: PSYC 1001. Credit cannot be earned for this course and PSYC 3199.

PSYC 2508. Humanistic Psychology. 3 Credits.

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. (Formerly PSYC 3108) Prerequisites: PSYC 1001.

PSYC 2514. Adult Development and Aging. 3 Credits.

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. (Formerly PSYC 3114) Prerequisites: PSYC 1001.

PSYC 2529. Theories of Personality. 3 Credits.

Survey of personality theories; emphasis on their application to problems of individuals. (Formerly PSYC 3129) Prerequisites: PSYC 1001.

PSYC 2531. Psychological Tests. 3 Credits.

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. (Formerly PSYC 3131) Prerequisites: PSYC 1001.

PSYC 2533. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind; broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment. Prerequisite: PSYC 1001. Same As: SPHR 2133.

PSYC 2541. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisites: PSYC 1001; and SPHR 1071 or SPHR 2135. Credit cannot be earned for this course and SPHR 2131.

PSYC 2544. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Formerly PSYC 2144. Prerequisites: ORSC 1109 or PSYC 1001. (Same as ORSC 2544).

PSYC 2550. Psychology of Sex Differences. 3 Credits.

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. (Formerly PSYC 3150) Prerequisites: PSYC 1001.

PSYC 2554. Psychology of Crime and Violence. 3 Credits.

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. (Formerly PSYC 3154) Prerequisites: PSYC 1001.

PSYC 2556. Psychology of Attitudes and Public Opinion. 3 Credits.

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. (Formerly PSYC 3156) Prerequisites: PSYC 1001.

PSYC 2570. Peer Education. 3 Credits.

This is a course designed to train George Washington University undergraduate students to be health peer educators. Students are trained in various topics related to mental health, physical health, and alcohol and/or other drugs, and gain the skills needed for outreach programming. Prerequisite: PSYC 1001.

PSYC 2571. Helping Skills. 3 Credits.

Training for undergraduate students preparing to be entry-level support professionals as a part of the GW Listens program or similar programs offering support to individuals who have mental and physical health issues. Prerequisite: PSYC 1001.

PSYC 2588. Attitudes Toward Death and Dying. 3 Credits.

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. (Formerly PSYC 3188) Prerequisites: PSYC 1001.

PSYC 2596. History and Systems of Psychology. 3 Credits.

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. (Formerly PSYC 4196) Prerequisites: PSYC 1001.

PSYC 2945. Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly PSYC 3945. Prerequisite: PSYC 1001.

PSYC 3099. Variable Topics. 1-12 Credits.**PSYC 3112. Psychology of Adolescence. 3 Credits.**

Psychological characteristics and problems peculiar to adolescence, with emphasis on application of psychology to the solution of such problems. Prerequisite: PSYC 2101 and PSYC 2013.

PSYC 3115. Developmental Psychopathology. 3 Credits.

The origins of child psychopathology, including developmental perspectives and the potential contributions of child-, family-, and community-based characteristics to the emergence of psychopathology. The development of specific childhood disorders. Prerequisites: PSYC 2011 and PSYC 2101; or PSYC 2013.

PSYC 3116. Brain and Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3118. Neuropsychology. 3 Credits.

Analysis of neural processes underlying behavior. Basic structure and functions of the nervous system, with emphasis on sensory processes, learning and memory, motivation, and emotion. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3119. Cognitive Science in the District. 3 Credits.

Study of cognitive psychology abilities (e.g., memory, attention, perception, decision making) through primary research articles and class discussion; firsthand experiences in the practical application of cognitive psychology through field trips in the DC area. Prerequisites: PSYC 2014 or PSYC 2015.

PSYC 3120. Neuroscience of Consciousness. 3 Credits.

The phenomenon of human consciousness using the methods and concepts of neuroscience. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015. Recommended background: psychology or cognitive neuroscience major.

PSYC 3121. Memory and Cognition. 3 Credits.

An examination of the psychological processes underlying human memory and cognition. Topics cover theoretical and experimental issues involving a range of cognitive function from attention and pattern recognition to learning and memory. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3122. Cognitive Neuroscience. 3 Credits.

How the structure and functions of the brain are related to cognitive processes and their associated behaviors. The biological bases of behavior and mental activity. Research and case studies by cognitive psychologists, neuroscientists, psychiatrists, and linguists, focusing on how the brain affects pattern recognition, attention, short-term and long-term memory processes, and language. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3124. Visual Perception. 3 Credits.

An overview of human perception, ranging from the detection of simple stimuli to the identification of objects and events; perceptions of color, motion, and spatial layout; research methodology, biological foundations, and theoretical issues. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2014 or PSYC 2015.

PSYC 3125. Cross-Cultural Psychology. 3 Credits.

Introduction to the theory, methods, and research of cross-cultural psychology, with emphasis on immigrants and ethnic minorities in the United States and on other cultures. Prerequisites: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisite: PSYC 2101 and PSYC 2011 or PSYC 2012. Same As: PSYC 3126W.

PSYC 3126W. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts. Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSYC 2011 or PSYC 2012; and PSYC 2101. Same As: PSYC 3126.

PSYC 3128. Health Psychology. 3 Credits.

Current research in the area of health psychology, with special attention to psychological factors related to health and illness, psychological intervention with medical patients, and psychological approaches to illness prevention and health promotion. Prerequisite: PSYC 2101.

PSYC 3132. Social and Personality Development. 3 Credits.

Examination of personal, emotional, and social development from infancy to adolescence and influences on that development. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 3170. Clinical Psychology. 3 Credits.

An exploration of the history, functions, and concerns of the clinical psychologist. Assessment, treatment, community approaches, ethics. Prerequisite: PSYC 2011 and PSYC 2101.

PSYC 3172. Psychopathology and the Media. 3 Credits.

How abnormal behaviors and mental disorders are portrayed in film and the media, including analysis of the accuracy of these portrayals, focusing on symptomatology, etiology, and treatment of adult psychopathology. Prerequisites: PSYC 2011 and PSYC 2101.

PSYC 3173. Community Psychology. 3 Credits.

Origins and current practice of community psychology, and comparison of community psychological approaches with traditional clinical perspectives; the role of psychology in addressing social issues facing communities; methods for research and intervention targeting communities. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 3180. Seminar in Cognitive Science. 3 Credits.

Advanced seminar for undergraduate students focusing on recent developments in cognitive science. Topics vary and may include perception, attention, memory, representation, and cognitive control, as well as neural bases of cognitive processes. Prerequisites: PSYC 3118 or PSYC 3121 or PSYC 3122 or PSYC 3124 or PSYC 4106W or PSYC 4107W.

PSYC 3193. Seminar in Industrial/Organizational Psychology. 3 Credits.

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. (Formerly PSYC 4193). Prerequisites: PSYC 1001 and PSYC 2544; or permission of the instructor.

PSYC 3198. Current Research Issues. 3 Credits.

Recent studies in psychology, including studies performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3199. Current Topics in Psychology. 3 Credits.

Topics vary. May be repeated once for credit provided the topic differs. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3591. Supervised Research Internship. 1-3 Credits.

Open to qualified students with permission of a supervising faculty member. Arrangements must be made with the faculty supervisor prior to registration; a list of participating faculty members and their research specialties is available from the department. May be repeated for credit; PSYC 3591 and PSYC 4591 combined may be taken for a total of 9 credits maximum. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3592. Field Internship. 3 Credits.

Advanced psychology majors spend a minimum of six hours per week in a supervised internship in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. May be repeated for credit, but the repeat enrollment does not count toward the major. Restricted to psychology majors. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 4106W. Research Lab in Sensation and Perception. 4 Credits.

Capstone course focused on the study of sensation and perception. Students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

PSYC 4107W. Research Lab in Cognitive Neuroscience. 4 Credits.

A capstone course focused on the study of cognitive neuroscience in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

PSYC 4201W. Research Lab in Clinical/Community Psychology. 4 Credits.

A capstone course focused on the study of clinical/community psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4202W. Research Lab in Applied Social Psychology. 4 Credits.

A capstone course focused on the study of topics in applied social psychology, such as discrimination and health, in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4203W. Research Lab in Developmental Psychology. 4 Credits.

A capstone course focused on the study of developmental psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4285. Foundations of Experimental Neuroscience. 3 Credits.

Current theories of cognitive neuroscience; the link between transduction of sensory input to behavior output, link between cortical circuits and complex cognition and behavior, and development of these circuits during embryonic, fetal, and early post-natal development. Prerequisites: BISC 2220 or BISC 2320 or PSYC 2015 or PSYC 3118 or PSYC 3122. (Same as NRSC 8285).

PSYC 4591. Independent Research. 1-3 Credits.

Open to qualified students by permission to pursue an independent research project with the supervision of a faculty member ; arrangements must be made with the sponsoring faculty member prior to registration. May be repeated for credit; PSYC 3591 and PSYC 4591 may be taken for a total of 9 credits maximum. (Formerly PSYC 4191) Restricted to . Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 4997. Honors Seminar. 3 Credits.

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101. (Formerly PSYC 4197).

PSYC 5099. Variable Topics. 1-99 Credits.

PSYC 6998. Thesis Research. 3 Credits.

PSYC 6999. Thesis Research. 3 Credits.

PSYC 8202. Psychological Research Methods and Procedures. 3 Credits.

Required in all graduate psychology programs. Includes philosophy of science, types of research design, and methods of data collection. Restricted to graduate students. Prerequisites: One laboratory course in psychology, and a course in statistics.

PSYC 8203. Experimental Foundations of Psychology: Learning, Memory, and Cognition. 3 Credits.

Current conceptions of learning, memory, and cognition; the research upon which these conceptions are based; applications to practical contexts. Restricted to graduate students.

PSYC 8204. Experimental Foundations of Psychology: Biological Basis of Behavior. 3 Credits.

Introduction to the structure and function of the nervous system. Topics include neural communication, sensory processes, memory, neuroendocrinology of sex differences and stress, psychiatric and neurodegenerative disorders. Restricted to graduate students.

PSYC 8207. Psychological Assessment I. 3 Credits.

Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory–diagnostic work at clinical facilities. Material fee. Restricted to students in the PhD in clinical psychology program.

PSYC 8208. Psychological Assessment II. 3 Credits.

Continuation of PSYC 8207. Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory–diagnostic work at clinical facilities. Material fee. Restricted to students in the clinical psychology program.

PSYC 8210. Developmental Theories and Issues. 3 Credits.

Orientation to the field of developmental psychology, with emphasis on traditional and contemporary theories, fundamental concepts and issues, and methodological approaches. Restricted to graduate students.

PSYC 8211. Community Psychology I. 3 Credits.

Survey of the history, theories, and values guiding community psychology; models of service delivery. Restricted to graduate students.

PSYC 8212. Community Psychology II. 3 Credits.

Continuation of PSYC 8211. Applications of the principles and theories of community psychology to interventions and research. Restricted to graduate students. Prerequisite: PSYC 8211.

PSYC 8218. Evidence-Based Interventions. 3 Credits.

Introduction to theory and technique of psychotherapeutic approaches of proven effectiveness. Restricted to graduate students.

PSYC 8219. Group Dynamics. 3 Credits.

PSYC 8220. Ethics and Professional Issues. 3 Credits.

The foundations of ethics and ethical decision making, with an emphasis on the APA Ethics Code. Ethical conflicts and issues in the areas of research and practice. Restricted to graduate students.

PSYC 8223. Seminar: Human Memory. 3 Credits.

Selected topics of current research interest in the area of human memory. Emphasis on encoding and retrieval processes, amnesia, and disorders of memory. Restricted to graduate students.

PSYC 8225. Behavioral Approaches to Child Assessment and Therapy. 3 Credits.

Child assessment and treatment from a behavioral viewpoint. The application of conditioning, reinforcement, and shaping principles with reference to specific disorders of childhood. Restricted to graduate students.

PSYC 8227. Seminar: Principles of Psychotherapy. 3 Credits.

For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8228. Seminar: Principles of Psychotherapy. 3 Credits.

Continuation of PSYC 8227. For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8231. Development of Psychometric Instruments. 3 Credits.

Quantitative techniques and principles used in construction, standardization, and evaluation of personality and ability measures for research and practice; quantification of human judgment for measurement purposes. Restricted to graduate students. Prerequisites: course in tests and measurements and an elementary course in statistics.

PSYC 8236. Ethnic and Racial Diversity in Psychology. 3 Credits.

Basic theoretical models of research in ethnic, racial, and cultural diversity and new directions in the field. The impact of being an ethnic minority in the United States. Restricted to graduate students.

PSYC 8237. The Practice of General Psychology I. 3 Credits.

Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

PSYC 8238. The Practice of General Psychology II. 3 Credits.

Continuation of PSYC 8237. Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

PSYC 8239. Lifespan Developmental Psychopathology I. 3 Credits.

Infancy, childhood, and adolescence. Restricted to graduate students.

PSYC 8240. Lifespan Developmental Psychopathology II. 3 Credits.

Continuation of PSYC 8239. Restricted to graduate students.

PSYC 8243. Seminar: Psychology of Leadership in Organizations. 3 Credits.

Theories and issues related to the emergence and effectiveness of leaders, with focus on leadership behaviors and processes in organizations. Restricted to graduate students.

PSYC 8244. Theories and Processes of Organizational Management. 3 Credits.

Basic functions and techniques of organizational management—design, control, direction, and decision making—examined from the viewpoint of behavioral science. Restricted to graduate students.

PSYC 8245. Seminar: Organizational Behavior. 3 Credits.

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to graduate students.

PSYC 8246. Seminar: Personnel Evaluation Techniques. 3 Credits.

Techniques of personnel selection and performance evaluation. Employment tests, personal data, assessment interviews, performance ratings, and assessment centers. Federal guidelines in employee selection. Includes practicum. Restricted to graduate students.

PSYC 8248. Research Applications to Organizational Intervention and Change. 3 Credits.

Emphasis on development of models of organizational effectiveness; design of valid diagnostic instruments; implementation of research strategies; establishment of program evaluation criteria. Restricted to graduate students.

PSYC 8250. Seminar in Cognitive Neuroscience. 3 Credits.

Advanced topics in the fundamentals of cognitive neuroscience; attention, memory, scene processing, space perception, decision making, and social and affective functioning. Restricted to graduate students. Recommended background: a working knowledge of cognitive psychology concepts and core neuronal physiology.

PSYC 8251. Behavioral Neuroscience. 3 Credits.

The neural basis of behavior, with special focus on the psychobiological determinants of learning, memory, and cognition. Methodologies used for different levels of analysis with normal and brain-impaired subjects. Restricted to graduate students.

PSYC 8253. Social Cognition. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Social cognition, person perception, attribution, information processing, attraction, stereotyping. Restricted to graduate students.

PSYC 8254. Social Influence. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Analysis of intentional and unintentional social influence processes and their effects on behavior. Current research on conformity, social power, social exchange, and impression management. Restricted to graduate students.

PSYC 8255. Attitudes and Attitude Change. 3 Credits.

Current theory and research on attitudes and attitude change. Restricted to graduate students.

PSYC 8256. Introduction to Survey Research. 3 Credits.

Theory and practice of face-to-face telephone and mail surveys. Practical experience with all stages from the formulation of research questions and hypotheses to questionnaire design, sampling, pilot, testing, interviewing, coding, and data cleaning. Prerequisite: STAT 2105.

PSYC 8257. Current Topics in Social Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas within field of social psychology. Topic changes each semester. Restricted to graduate students.

PSYC 8258. Qualitative Research and Analysis. 3 Credits.

Qualitative research and analysis with a focus on theory, didactic material relevant to qualitative methodologies, and applied qualitative research design and analysis. Restricted to graduate students.

PSYC 8259. Psychology of Individual and Group Decision Making. 3 Credits.

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to graduate students.

PSYC 8260. Psychology of Work Group Development. 3 Credits.

Examination of theory and research on groups as task performance systems. Approaches to team development as a means of improving work group effectiveness, including goal setting, role clarification, increasing interpersonal skills, and conflict resolution. Restricted to graduate students.

PSYC 8268. Seminar: Neuropsychology. 3 Credits.

Selected problems in research relating the brain and behavior. Independent topics each semester, such as sensory processing, brain development and behavior, clinical aspects of nervous system function. Restricted to graduate students.

PSYC 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Restricted to graduate students. (Same as WGSS 8275).

PSYC 8277. Health Psychology. 3 Credits.

Social psychological theories and research that relate to health and illness. Application of theories of social learning, attribution, attitude change, and social influence to topics such as health promotion and disease prevention, health compliance, and coping with illness and disability. Restricted to graduate students.

PSYC 8279. Special Topics in Health Psychology. 3 Credits.

May be repeated for credit provided the topic differs. Admission by permission of instructor. Restricted to graduate students.

PSYC 8280. Theories and Practice of Clinical Supervision. 0 Credits.

Theory and practice of clinical supervision through instruction and a supervision practicum in the clinical facilities. Restricted to clinical psychology graduate students.

PSYC 8283. First Year Seminar I: Motivational Interviewing. 0 Credits.

This course develops in clinical psychology doctoral students basic skills necessary for therapeutic effectiveness through motivational interviewing and familiarizes them with goals and values in their clinical training. Restricted to students in the clinical psychology program.

PSYC 8284. First Year Seminar II: Introduction to Therapy. 0 Credits.

Clinical psychology doctoral students gain basic familiarity with assessment and psychotherapy practices and understanding of the inner workings of the Meltzer Center clinic. Restricted to students in the clinical psychology program.

PSYC 8285. History and Systems of Psychology. 0 Credits.

Clinical psychology doctoral students engage in self-study of the history and systems of psychology. Restricted to students in the clinical psychology program.

PSYC 8286. Clinical Psychology Externship. 0 Credits.

Clinical psychology doctoral students participate in externship placements in clinical settings to develop their clinical skills and competencies. Restricted to students in the clinical psychology program.

PSYC 8287. Current Topics in Clinical Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8288. Current Topics in Industrial/Organizational Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to graduate students.

PSYC 8289. Seminar: Current Topics in Experimental Psychology. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to graduate students.

PSYC 8291. Theories of Organizational Behavior. 3 Credits.

Examination of current theoretical models and research. Restricted to graduate students.

PSYC 8295. Independent Research. 3 Credits.

Individual library or experimental research under supervision of staff member. Arrangements must be made with sponsoring faculty member prior to registration. May be repeated for credit. Restricted to Psychology graduate students only.

PSYC 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the major field examination.

PSYC 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to PhD students in the psychology program.

PUBLIC HEALTH (PUBH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PUBH 0920. Continuing Research - Master's. 1 Credit.

Continuing Research Credit- Master's Level.

PUBH 0940. Continuing Research - Doctoral. 1 Credit.

Continuing Research Credit- Doctoral.

PUBH 1010. First-Year Experience in Public Health. 1 Credit.

Designed to assist students in the transition to GW and the public health major by introducing skills and resources needed to succeed personally, academically, and professionally, particularly in a public health context.

PUBH 1099. Variable Topics. 1-36 Credits.

PUBH 1101. Introduction to Public Health and Health Services. 3 Credits.

Introduction to aspects of public health and health services, including health services administration and policy, maternal and child health, environmental health, and health promotion.

PUBH 1102. History of Public Health. 3 Credits.

Historical and philosophical development of public health and its contributions to understanding, preventing, and controlling disease and disabilities.

PUBH 1102W. History of Public Health. 3 Credits.

Social history of public health from the late nineteenth century to the present; historical context for contemporary public health problems. Includes a significant engagement in writing as a form critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: UW 1020.

PUBH 1299. Undergraduate Public Health Study Abroad. 1-6 Credits.

May be repeated for credit when multiple courses with distinct subject matter are taken as part of a study abroad program.

PUBH 2110. Public Health Biology. 3 Credits.

Basic scientific mechanisms, concepts, and principles in health and the pathogenesis of diseases; a foundation for applications to public health. Prerequisites: BISC 1005; or BISC 1111.

PUBH 2112. Principles of Health Education and Health Promotion. 3 Credits.

Social and behavioral theories underlying health promotion program development and evaluation. Practical applications in a variety of domestic and global public health settings. PUBH 1101 may be taken as a corequisite. Prerequisite: PUBH 1101.

PUBH 2113. Impact of Culture upon Health. 3 Credits.

Relationships between cultural values and the development of modern health systems based on Western models of health care practice. Reliance upon traditional forms of health care. Examples of successful incorporation of traditional practices into evolving health care systems.

PUBH 2114. Environment, Health, and Development. 3 Credits.

Survey of the relationship between health and development and environmental trends. Topics include deforestation, urban contamination, and desertification.

PUBH 2115. Health, Human Rights, and Displaced Persons. 3 Credits.

Concepts of health as a human right, ethics, and the participation of the international community in moving toward health for all. Civil and international conflict in the generation of displaced populations.

PUBH 2116. Global Delivery of Health Systems. 3 Credits.

Introduction to health systems and the basic concepts of health systems administration and financing and health care reform with examples from advanced, middle income, and poor countries.

PUBH 2117. Service Learning in Public Health. 3 Credits.

A service-learning course that combines classroom instruction with practical learning. Students are responsible for securing an approved service site before the beginning of the semester; the instructor is available to assist with this placement.

PUBH 3115. Global Health and Human Rights. 3 Credits.

Concepts of health as a human right and the impact of ethical violations on the mental and physical health of individuals; the efforts of the international community in addressing health consequences of vulnerable populations.

PUBH 3116. Global Health Systems Performance. 3 Credits.

Introduction to the U.S. and international health systems, both public and private, and the WHO Health Systems Framework; how environmental, ethical, cultural, and political actions shape health systems in different parts of the world. Restricted to juniors and seniors.

PUBH 3130. Health Services Management and Economics. 3 Credits.

Basics of management theory, finance, and economics as applied to managing in the public health and health services field. Prerequisite: ECON 1011.

PUBH 3131. Epidemiology: Measuring Health and Disease. 3 Credits.

Principles of epidemiology applied to disease surveillance, control of infectious and chronic diseases, and health services/health policy. Understanding the basic research designs and their relationship to establishing cause and effect and effectiveness of interventions to prevent and cure disease. Prerequisites: PUBH 1101 and STAT 1127.

PUBH 3132. Health and Environment. 3 Credits.

Introduction to environmental and occupational health and implications for individual and population health. Issues of clean water, environmental toxins, air pollution, and the environmental impact on infectious diseases.

PUBH 3133. Global Health and Development. 3 Credits.

Political, social, and economic determinants of health; how health status is measured with an emphasis on low-income countries, the health of the poor, and inequity and inequality; burden of diseases that impact development and their basic epidemiological characteristics, including who they affect, when they occur, and where risk is greatest.

PUBH 3135W. Health Policy. 3 Credits.

An introduction to the fundamentals of the health care system in the United States and strategies available to policymakers when addressing problems relating to access, financing, and delivery of health care. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PUBH 1101.

PUBH 3136. Health Law. 3 Credits.

Legal concepts related to individual health care and public health systems in the United States. Health care law, public health law, and bioethics.

PUBH 3137. Global Public Health Nutrition. 3 Credits.

Consideration of hunger and other nutrition issues globally, including food insecurity, under/over nutrition, and micronutrient deficiencies. Application of UNICEF malnutrition framework to describe vulnerable groups, critique program strategies, and identify multisectorial strategies to reduce hunger and malnutrition. Prerequisite: PUBH 3133.

PUBH 3142. Introduction to Biostatistics for Public Health. 3 Credits.

Applying biostatistical principles to analyze studies in health services literature. Selecting statistical methods based on research questions, calculating basic statistics for estimation and inference, interpreting results of statistical analyses.

PUBH 3150. Sustainable Energy and Environmental Health. 3 Credits.

Sustainability issues from the perspective of environmental health. Technical, social, and health implications of specific energy sources. Energy conservation and efficiency in the context of population growth, food and water resources, and maintenance of a healthy environment for future generations.

PUBH 3151. Current Issues in Bioethics. 3 Credits.

General and specific ethical questions and ethical decision making from both personal and organizational perspectives; right to health care, research with human subjects, reproductive technology, genetics, professional and student roles and responsibilities, and end-of-life issues.

PUBH 3151W. Current Issues in Bioethics. 3 Credits.

General and specific ethical questions and ethical decision making from both personal and organizational perspectives; right to health care, research with human subjects, reproductive technology, genetics, professional and student roles and responsibilities, and end-of-life issues. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PUBH 3152. Qualitative Research Methods in Public Health. 3 Credits.

Introduction to characteristics and methods relevant to the design and conduct of qualitative research in public health investigations; data collection methods, coding, data analysis, and reporting results.

PUBH 3199. Topics in Public Health. 1-5 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

PUBH 3201. Introduction to Bioinformatics. 3 Credits.

Introduction to bioinformatics, including biological concepts of molecular biology, genome organization, and evolution; computational concepts of alignment, database searching, phylogeny, and structural bioinformatics; and programming concepts in Unix and Python including the Unix environment, the shell, scripting, databases, regular expressions, and pipeline development. Prerequisites: BISC 1112 or BISC 1116 and BISC 1126; and STAT 1127. Credit cannot be earned for this course and BISC 2584, CSCI 3571.

PUBH 3202. Introduction to Genomics. 3 Credits.

Principles of genomics; genome projects, including the human genome, molecular techniques, analytical approaches, computational tools for genome research, and genomic data generation and analysis. Prerequisites: BISC 1111; BISC 1112.

PUBH 3299. Undergraduate Public Health Study Abroad. 1-6 Credits.

May be repeated for credit when multiple courses with distinct subject matter are taken as part of a study abroad program.

PUBH 3995. Undergraduate Research. 1-3 Credits.

Students work under the mentorship of a faculty member to acquire knowledge and skills central to the design, conduct, and/or analysis of scientific research. Project proposal must be approved by the instructor and dean's office prior to enrollment. Credit cannot be earned for this course and EXNS 3995.

PUBH 4140W. Senior Seminar. 3 Credits.

Students develop a public health intervention incorporating various domains of the discipline of public health. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to public health majors in their senior year. Prerequisite: PUBH 3130.

PUBH 4141. Senior Seminar Community Needs Assessment. 3 Credits.

Culminating experience for students in undergraduate public health programs. Restricted to seniors in the BS in public health program and students in the minor in public health.

PUBH 4199. Independent Study. 3 Credits.

Outline of intended project must be approved prior to registration by instructor and dean's office. Restricted to public health majors.

PUBH 4201. Practical Computing. 3 Credits.

Basic concepts of computer programming in biomedical sciences and health informatics; foundations of R and Python languages; best programming practices in health applications. Prerequisites: BISC 1111 and BISC 1115; or BISC 1112 and BISC 1116.

PUBH 4202. Bioinformatics Algorithms and Data Structures. 3 Credits.

Algorithmic foundations of bioinformatics, ranging from generic algorithmic techniques to specific algorithms used in various areas of bioinformatics. Prerequisite: PUBH 4201.

PUBH 6002. Biostatistical Applications for Public Health. 3 Credits.

Application of biostatistical principles to critical analysis of retrospective studies, prospective studies, and controlled clinical trials, as well as studies in the health services literature. Selection, basic calculations, and interpretation of statistical methods for detection of significant associations and differences.

PUBH 6003. Principles and Practices of Epidemiology. 3 Credits.

General principles, methods, and applications of epidemiology. Outbreak investigations, measures of disease frequency, standardization of disease rates, study design, measures of association, hypothesis testing, bias, effect modification, causal inference, disease screening, and surveillance. Case studies apply these concepts to a variety of infectious, acute, and chronic health conditions affecting the population.

PUBH 6007. Social and Behavioral Approaches to Public Health. 2 Credits.

Social and behavioral science theories, models, and concepts that can be applied to public health problems and interventions. The role of social and community factors, including race, ethnicity, and culture, in both the onset and solution of public health problems; the interrelationship between the social and behavioral sciences.

PUBH 6009. Fundamentals of Public Health Program Evaluation. 2 Credits.

Topics include designing program evaluation studies to produce and interpret evidence to improve public health; options for evaluation study design and evidence generation; and qualitative data collection and analysis methods. Prerequisites: PUBH 6007. Recommended background: Prior completion of PUBH 6002.

PUBH 6010. Independent Study. 1-6 Credits.

Designed to provide the student with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Permission of the instructor or advisor required prior to enrollment.

PUBH 6011. Environmental and Biological Foundations of Public Health. 3 Credits.

The connection between population health and exposures to chemical, physical, and biological agents in the environment; interconnection between dimensions of environmental systems and all living things; biological sciences as they relate to environmental impacts.

PUBH 6012. Fundamentals of Health Policy. 2 Credits.

Comparative study of the structure, financing, and delivery of public health and health care in the United States and abroad; core elements of policy analysis are used to develop skills in analyzing a public health problem and presenting possible solutions both orally and in writing.

PUBH 6013. Master's Thesis. 3 Credits.

See Advisor.

PUBH 6014. Practicum. 1-3 Credits.

This course provides the opportunity for MPH students to apply the knowledge and skills acquired through their programs of study. A planned, supervised and evaluated practice experience that is relevant to the student's program is an essential component of a public health professional degree program. These opportunities can take place in a variety of agencies or organizations. Each program customizes Practicum requirements to meet students' needs. (Credit/No Credit) [For 45-credit MPH students who started Summer 06 or after.].

PUBH 6015. Culminating Experience. 1-3 Credits.

Students synthesize and integrate knowledge acquired in coursework and other learning experiences and apply theory and principles to a situation that approximates some aspect of professional practice. Program faculty evaluate student's mastery of the body of knowledge and ability to demonstrate proficiency in the required competencies. Requirements evaluated are adapted to the degree program.

PUBH 6016. Field/Laboratory Experience. 2 Credits.

The overall purpose of the field/laboratory experience requirement is to introduce students in the MS-PHMEID degree program to a supervised practical experience in a Public Health Laboratory or other qualifying public health entity from the perspective of the actual wet laboratory operations. Students that already have this laboratory experience are introduced to epidemiologic research, particularly surveillance, and its tie-in with laboratories either in the United States or in an international setting.

PUBH 6021. Essentials of Public Health Practice and Leadership I. 1 Credit.

The skills necessary for being an effective practitioner and leader; optimizing self-management and contributions in teams as public health professionals.

PUBH 6022. Essentials of Public Health Practice and Leadership II. 1 Credit.

The development of organizations and systems in public health; organizational management tools and collaborative, outcome-oriented advocacy techniques. PUBH 6021 may be taken as a corequisite. Prerequisite: PUBH 6021.

PUBH 6023. Interprofessional Education Experience. 0 Credits.

Completion of an interprofessional education experience (IPE) is required for all MPH students. Maximizes the student's capacity for collaboration with others to better address public health and health care challenges. A variety of options are available for students to complete this requirement before graduation. Restricted to MPH students. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6007, PUBH 6011, PUBH 6012, and PUBH 6021.

PUBH 6050. Introduction to Health Services Delivery. 2 Credits.

Introduction to the systems that define and shape delivery of health services in the United States. Case studies and presentations on major issues develop an appreciation of dilemmas confronting policymakers, providers, and patients: balancing cost, quality and access. Access and disparity, health care professions, facilities, managed care organizations and government health care programs. Policy changes that have had major impact on American health care in the past century. Fall.

PUBH 6052. Practical Data Management and Analysis for Public Health. 2 Credits.

Practical aspects of dataset creation, data management, rudimentary statistical analysis, and tabular and graphical presentation of results. Creating codebooks, entering and cleaning data, deriving new variables from existing ones, choosing and implementing appropriate analytical techniques, graphing and tabulating results, and documenting and protecting work. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6054. Community Engagement and Advocacy. 2 Credits.

Tools and strategies for public health practitioners to understand, respect, organize, and collaborate with community groups and organizations for promotion of healthy behaviors. Development of practical skills to harness available resources in a community to advocate for healthy living and positive health outcomes.

PUBH 6056. Public Health Leadership Seminar. 1 Credit.

Leadership lessons taken from the careers of a diverse group of executives and entrepreneurs from the corporate, government, nonprofit, and art sectors. Leadership theory and styles. Building networks; skills for effectively engaging with peers, potential employers, and business partners.

PUBH 6058. Researching Violence Against Women and Girls. 2 Credits.

The intersection of violence against women and girls (VAWG) and public health; the impact that violence has on the health of the survivor, her current and future children, and communities; methods and best practices for designing applied research on VAWG. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6007, PUBH 6011 and PUBH 6012.

PUBH 6060. MPH@GW Culminating Experience I. 1 Credit.

Students integrate and apply the skills, knowledge, theories, principles, and methods of public health practice to a public health issue. Most students will have completed PUBH 6014 or PUBH 6022 and other MPH core coursework prior to enrollment. Restricted to students in the MPH@GW program. Prerequisites: PUBH 6002, PUBH 6003, and PUBH 6007; and PUBH 6004 or PUBH 6011; and PUBH 6006 or PUBH 6012; and PUBH 6009 or PUBH 6437.

PUBH 6061. MPH@GW Culminating Experience II. 1 Credit.

Students integrate and apply the skills, knowledge, theories, principles, and methods of public health practice to a public health issue. Students may already have completed PUBH 6060 or it may be taken as a corequisite. Restricted to students in the MPH@GW program. Prerequisites: PUBH 6060.

PUBH 6080. Pathways to Public Health. 0 Credits.

Introduces the 12 foundational public health learning objectives to GWSPH students in non-MPH graduate programs. Must be completed before the last day of classes in the student's first semester of matriculation.

PUBH 6090. Practicum/Culminating Experience. 4 Credits.

Individually tailored. Culminating Experience for the MPH program. Permission of the advisor required prior to enrollment.

PUBH 6091. Special Project. 1-4 Credits.

Under faculty supervision, the student undertakes an original project that applies the skills and knowledge gained in the chosen track and/or concentration within the MPH program. Prerequisite: Permission of the instructor. NOTE that credits vary by program; please consult your program plan to register for the appropriate number of credits. [For 36-credit MPH students only].

PUBH 6099. Topics in Public Health. 3 Credits.

In-depth examination of a particular facet of public health. Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

PUBH 6121. Environmental and Occupational Epidemiology. 3 Credits.

Demonstration and application of epidemiologic methods for the study of environmental and occupational health problems; epidemiologic exposure assessment methods and methods relevant to cohort, case-control, cross-sectional, and case cross-over studies; survey design and sources and evaluation of biases and confounding; emphasis on written and oral communication skills. Prerequisites: PUBH 6002 and PUBH 6003; and PUBH 6004 or PUBH 6011.

PUBH 6122. Protecting Public Health and the Environment: Policies, Politics, and Programs. 3 Credits.

The legislative, regulatory, judicial, and political system in the United States developed to protect human health and the environment. National and global public and environmental health agencies, policy development, and current topics. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6123. Toxicology: Applications for Public Health Policy. 3 Credits.

Toxicology as both a scientific discipline and a source of information for public health policy with respect to the regulation of foods, pesticides, drugs (pharmaceuticals), environmental chemical pollutants, and other chemicals that may affect human and environmental health. How chemicals interact with biological systems to produce adverse effects. The ways in which toxicologic information is developed and applied to regulatory decision making and the use of toxicology in regulatory risk assessment. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6124. Risk Management and Communication. 3 Credits.

Culminating course using problem-based learning methods to examine a variety of real-world environmental and occupational health issues in-depth. Students integrate cumulative knowledge across all required courses and demonstrate professional competencies. Prerequisites: PUBH 6121, PUBH 6123 and PUBH 6126.

PUBH 6126. Assessment and Control of Environmental Hazards. 3 Credits.

Introduces the anticipation, recognition, assessment, and control of hazards in the workplace and the ambient environment. It emphasizes an understanding of the characteristic features of specific hazards, which may be chemical, biological, or physical/ergonomic.

PUBH 6127. Introduction to Environmental Health Microbiology. 2 Credits.

Basics of public health microbiology as it relates to the environment, food, water, and bioterrorism. Examines from an environmental health perspective how the principles of microbiology are applied to current and emerging public health issues, whether from intentional or unintentional contamination of the environment. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6128. Global Environmental and Occupational Health. 2 Credits.

Examination of the global environmental and occupational health factors that contribute significantly to the global burden of disease, focusing primarily on low- and middle-income countries; principles from behavioral sciences, development economics, risk assessment, and epidemiology are included; potential solutions to environmental health problems, metrics used to measure impacts, and areas for future research. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6130. Sustainable Energy and the Environment. 2 Credits.

The sustainability of various energy strategies, including energy conservation, green building principles, renewable energy, and mitigation and adaption policies for climate change. Emphasis on the life cycle framework. Topics include natural resource depletion, water and energy consumption, and air, water, and solid waste pollutant emissions. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6131. Quantitative Methods in Environmental and Occupational Health. 3 Credits.

Application of biostatistical and epidemiologic concepts and methods to analysis of EOH data. Development and practice of skills needed for analyzing complex exposures and communicating environmental and occupational research findings. Prerequisites: PUBH 6002 and PUBH 6003; and PUBH 6004 or PUBH 6011.

PUBH 6132. Water, Sanitation, and Hygiene (WASH) in Low-Income Countries. 2 Credits.

Introduction to working in both disaster and development settings in countries where contaminated water, inadequate sanitation, and poor hygiene (WASH) cause serious health problems. Students gain practical experience applying WASH methods in the field. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6133. Social Dimensions in Climate Change and Health. 3 Credits.

The drivers of climate change and outcomes with particular focus on health dimensions; obstacles, vulnerabilities, inequality, and adaptation as well as technical and social solutions.

PUBH 6135. Researching Climate Change and Human Health. 3 Credits.

Study of the effects of climate change on human health using evidence compiled by the National Climate Assessment (NCA); widespread impacts, ecological context, oceans of change, infrastructure, water resources, energy, land use, heat, and air quality. Recommended background: PUBH 6003 and PUBH 6004.

PUBH 6136. Introduction to Environmental and Occupational Epidemiology. 3 Credits.

Epidemiologic research designs; methods for the study of environmental and occupational health problems; exposure assessment methods; design aspects of cross-sectional, case-control, cohort, and case cross-over studies; sources and evaluation of biases and confounding; survey and questionnaire design. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6011.

PUBH 6137. Environmental and Occupational Health Culminating Experience I. 1 Credit.

The first in a two-course sequence. The final, integrative learning experience for the MPH in environmental health science and policy or global environmental health. Students apply the skills and knowledge, theories, and principles learned in the MPH program to practical public health problems. Restricted to MPH students in the Department of Environmental and Occupational Health who have completed all core courses and at least 9 credits in program-specific courses. Prerequisites: PUBH 6002 and PUBH 6003; PUBH 6004 or PUBH 6011; PUBH 6006 or PUBH 6012; and PUBH 6007.

PUBH 6138. Environmental and Occupational Health Culminating Experience II. 1 Credit.

The second in a two-course sequence. The final, integrative learning experience for the MPH in environmental health science and policy or global environmental health. Students apply the skills and knowledge, theories, and principles learned in the MPH program to practical public health problems. Restricted to MPH students in the Department of Environmental and Occupational Health. Prerequisite: PUBH 6137.

PUBH 6140. Global Climate Change and Air Pollution. 2 Credits.

The state of the air in the Anthropocene epoch. Key concepts of atmospheric science, public health, and other societal impacts. Local and global policy frameworks. Prerequisites: PUBH 6004 or PUBH 6011.

PUBH 6144. Environmental Health Data Development and Modeling. 2 Credits.

Introduction to sources of environmental data, handling and cleaning of data, and using data in both statistical and environmental exposure models. Prerequisites: PUBH 6131 or PUBH 6853.

PUBH 6146. Microbiomes and Microbial Ecology in Public Health. 2 Credits.

Introduction to key concepts of environmental microbial ecology and the human microbiome. The roles of microbes in ecosystems' functions with a focus on climate change and the roles of microbes in human health and disease. Prerequisites: PUBH 6011.

PUBH 6199. Topics in Environmental and Occupational Health. 3 Credits.

Topics vary by semester. May be repeated for credit provided topics differ. Consult the Schedule of Classes for more details.

PUBH 6233. Epidemiologic Principles and Practice of Disease Eradication. 2 Credits.

The role of epidemiology, surveillance, research, and information technology in the eradication of vaccine preventable and parasitic human diseases. Prerequisites: PUBH 6003.

PUBH 6234. Epidemiologic Methods in Neglected Tropical Disease Control. 1 Credit.

Introduction to neglected tropical disease epidemiology providing a broad overview of select tropical medicine and public health issues; focus on applications of epidemiologic methods to the study of public health consequences of NTDs. Prerequisites: PUBH 6003. Corequisites: PUBH 6011.

PUBH 6235. Epidemiology of Obesity. 1 Credit.

Introduction to the epidemiology of obesity; descriptive epidemiology, measurement, consequences, and determinants of obesity; adiposity and body composition; obesity interventions and policy. Prerequisites: PUBH 6003.

PUBH 6236. Systematic Review of Public Health Literature. 1 Credit.

The process of conducting systematic reviews of literature in order to translate research into public health practice recommendations. Recommended for MPH candidates planning to conduct a systematic review of the literature for their culminating experience. Prerequisites: PUBH 6002 or EXNS 6204; and PUBH 6003 or EXNS 6208.

PUBH 6237. Chronic Disease Epidemiology. 2 Credits.

Overview of the epidemiology (descriptive, analytic, and etiologic) of chronic diseases. Emphasis on epidemiologic methods and study design in relation to chronic disease, as well as public health approaches to disease control including surveillance, screening, and interventions. Prerequisites: EXNS 6204 or PUBH 6002; and EXNS 6208 or PUBH 6003.

PUBH 6238. Molecular Epidemiology. 1 Credit.

Concepts, principles, and use of molecular methods in epidemiologic and clinical research. Common molecular measures and their interaction with environmental factors. Development of a framework for interpreting, assessing, and incorporating molecular measures in their area of research. Prerequisites: PUBH 6003.

PUBH 6239. Epidemiology of Foodborne and Waterborne Diseases. 1 Credit.

Foodborne and waterborne toxicants; diseases linked to eating and drinking and their prevention. Topics include transmission of disease and disease processes; microbial toxins, mycotoxins, chemical toxins, bacterial infections (e.g., salmonellosis, shigellosis, vibrio, listeria), virus and parasitic infections; issues in food and water safety. Prerequisites: PUBH 6003.

PUBH 6240. Pediatric HIV/AIDS. 1 Credit.

Comprehensive overview of HIV infection in children, with emphasis on the global pediatric HIV epidemic. Biological, epidemiological, clinical, and psychosocial issues; public health programmatic approaches to prevention, care, and treatment. The national and global experience with scaling up prevention services in the global effort to virtually eliminate HIV/AIDS in children. Prerequisites: PUBH 6003. Recommended background: PUBH 6250 and PUBH 6253.

PUBH 6241. Nutritional Epidemiology. 2 Credits.

Methodological issues related to dietary assessment, nutrition surveillance, and the epidemiology of obesity. Current trends, including the health impacts of vitamin D and sodium. Interpretation of the scientific literature in the field. Examples drawn from the National Health and Nutrition Examination Survey. Prerequisites: PUBH 6003.

PUBH 6242. Clinical Epidemiology and Public Health: Reading the Research. 2 Credits.

Methods for reading epidemiology and public health research including case-control, cohort studies, randomized controlled trials, meta-analysis, testing and screening, prediction rules, decision and cost-effectiveness analysis. Prerequisites: PUBH 6003 or equivalent.

PUBH 6243. Topics in Clinical Epidemiology and Public Health: Reading the Research. 1 Credit.

An evidence-based problem solving applications course utilizing methods taught in PubH 6242 Clinical Epidemiology and Public Health: Reading the Research Prerequisites: PUBH 6003. Credit cannot be earned for this course and PUBH 8242.

PUBH 6244. Cancer Epidemiology. 2 Credits.

Epidemiology of specific cancers, with an emphasis on molecular and genetic epidemiology. Current research in the field. Prerequisites: PUBH 6003.

PUBH 6245. Infectious Disease Epidemiology. 2 Credits.

The role and conduct of laboratory and field investigations in the epidemiology of infectious diseases. Prerequisite: PUBH 6003.

PUBH 6247. Design of Health Studies. 3 Credits.

Epidemiologic concepts and methods applied to specific research questions especially new types of public health problems. Recognition and development of the most appropriate study design for a specific health issue. Ecologic, cross-sectional, case-control, cohort studies and clinical trials. Sampling, measurement, questionnaire design, causality and causal criteria. Development of a research proposal. Prerequisites: PUBH 6003. Corequisites: PUBH 6002.

PUBH 6248. Epidemiology of Aging. 2 Credits.

The demographics, theories, and physiology of aging; descriptive and associative epidemiology of several common age-related diseases and disorders; implications for public health. Prerequisites: PUBH 6003.

PUBH 6250. Epidemiology of HIV/AIDS. 2 Credits.

Methodological issues central to HIV/AIDS research. Biases peculiar to HIV/AIDS epidemiologic studies (both observational and experimental designs). The natural history of HIV, diagnosis, surveillance, vulnerable subpopulations, behavioral facets, and evaluation of epidemiologic studies with an emphasis on methodological considerations. Prerequisites: PUBH 6003. Recommended background: PUBH 6002.

PUBH 6252. Advanced Epidemiology Methods. 3 Credits.

Advanced quantitative epidemiologic methods, with a focus on basic data analytic techniques, identifying and evaluating bias and adjusting for confounding. Dose-response, trend analysis, and multiple linear and logistic regression models. PUBH 6249 may be taken as a corequisite. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6247 and PUBH 6249.

PUBH 6253. Issues in HIV Care and Treatment. 1 Credit.

This course provides an overview and in depth consideration of some of the major issues in treatment of HIV disease, including the assessment of efficacy and effectiveness, drug resistance, monitoring of drug toxicity, special populations, the interrelationship between treatment and prevention, and quality of care. The course has been designed with an interdisciplinary audience in mind. In discussions and assignments, students are able to emphasize their own area of interest and/or expertise (e.g. epidemiology, policy, etc).

PUBH 6255. Organizational Responses to the Local, National, and Global HIV/AIDS Epidemics. 2 Credits.

This seminar focuses on the rapidly evolving responses of local, national and global governmental and non-governmental organizations to the HIV/AIDS epidemic. Inspirational leaders of selected HIV/AIDS organizations are invited to describe how their organizations contribute to fighting the epidemic; the leadership and management skills that they use in their daily work; and their strategic decision-making processes. Basic principles of epidemiology, leadership and organizational strategy and structure are addressed through didactic presentations and interactive faculty-student dialogue. Lessons learned through the lens of HIV/AIDS organizations are broadly applicable to other public health problems. Students learn about the strengths and challenges of different types of public health organizations as they make career decisions about their own transition to the public health work force. Prerequisites: PUBH 6003, HIV/AIDS experience, or permission of the instructor.

PUBH 6258. Advanced Topics in Biostatistical Consulting. 1 Credit.

Principles and practice of biostatistical consulting in public health and medical research environments.

PUBH 6259. Epidemiology Surveillance in Public Health. 2 Credits.

Focus on foundations of public health surveillance systems for communicable as well as chronic diseases. Outbreak investigation methods are included, as well as surveillance data sources, data management, data analysis, ethical issues, surveillance system evaluation, and use of information for prevention. Surveillance systems for reportable diseases, nosocomial infections, bioterrorism events, cancer, environmental disease, vaccine-related adverse events, bovine spongiform encephalopathy, and military personnel are discussed. Prerequisites: PUBH 6003.

PUBH 6260. Advanced Data Analysis for Public Health. 3 Credits.

Advanced data analysis using the SAS System to expand on the analytic techniques gained in PUBH 6002 and PUBH 6249 and to provide students with the applied statistical skills required to analyze various types of public health datasets. Prerequisites: PUBH 6002 and PUBH 6249.

PUBH 6262. Introduction to Geographic Information Systems. 1 Credit.

Geographic information systems (GIS) for mapping and display of health data. The course makes use of ArcGIS 8.3. The use of spatial statistics for the detection of clusters and patterns in the spread of diseases. Working with geodatabases, shape files, layers, query information from attribute tables, geocode addresses and customizing GIS applications.

PUBH 6263. Advanced GIS. 1 Credit.

Provides mid to advanced level training in GIS for display and analysis of health data. Use software ArcGIS 9.3 and additional extensions such as Spatial Analyst and Geostatistical Analyst. Also uses GeoDa software. Emphasizes benefits of using GIS to do more than simply manage and map data. GIS supports a range of spatial analysis functions that enable researchers to extract additional meaning from manipulating geographic data. Learn to work with raster datasets and geodatabases to build spatial models for analyzing health data and evaluating spatial patterns of health events based on notion of distance. Prerequisites: PUBH 6262.

PUBH 6264. Quantitative Methods. 3 Credits.

Introduces basic concepts in mathematical statistics. Topics include probabilities (unconditional and conditional), density and distribution functions of continuous and discrete random variables, including expected values. Specific distribution functions discussed are Binomial, Poisson, Hypergeometric, and Gaussian distributions. Additional topics include bivariable distributions, variance-covariance matrix, limiting theory, asymptotic results, and maximum likelihood estimation. Prerequisites: MATH 1231 and MATH 1232; and PUBH 6002 and 6249.

PUBH 6265. Design of Medical Studies. 3 Credits.

Design of medical investigations, including the randomized clinical trial, observational cohort study, and the retrospective case-control study. Specific methods regarding sample size, power and precision and statistical procedures for randomization and sa.

PUBH 6266. Biostatistical Methods. 3 Credits.

Biostatistical methods for asymptotically efficient tests and estimates of relative risks and odds ratios from prospective and retrospective matched and unmatched studies. Fixed and random effects models. Logistic regression, conditional logistic regression. Poisson regression. Maximum likelihood and efficient scores. Prerequisites: STAT 6201, STAT 6202 and PUBH 6264.

PUBH 6267. Time Series Applications in Public Health. 2 Credits.

Introduce basic concepts for the identification and modeling of time series in the time domain approach. Learn a new set of terminology standards and a different way to analyze these type of data and to forecast future values of a time series and its accuracy. Software used is SAS/ETS and 3 procedures: ARIMA, AUTOREG, FORECAST. New mathematical notation is used. Prerequisites: PUBH 6249.

PUBH 6268. Advanced SAS. 1 Credit.

Intensive in advanced programming using SAS. Expand technical skills to provide advanced SAS tools for data management and graphics. Topics to include Interactive Matrix Language (IML), SAS Macro facility language, and drill-down graphs using SAS/GRAPH. Prerequisites: PUBH 6002 and PUBH 6249; or permission of the instructor.

PUBH 6269. Reproductive Epidemiology. 1 Credit.

Current research, controversial issues, and methodological problems in epidemiology of reproductive and perinatal health. Present reproductive health issues such as conception and infertility; perinatal issues such as complications of pregnancy, infections in pregnancy, adverse pregnancy outcomes, and birth defects. Prerequisites: PUBH 6003.

PUBH 6270. HIV/AIDS Surveillance. 1 Credit.

Overview of surveillance methods used domestically and internationally to monitor HIV/AIDS epidemic. Surveillance systems including sentinel, population based, behavioral, and incidence surveillance are presented and discussed. Strengths and weaknesses of these various systems are discussed in addition to how data from these systems impact and inform HIV/AIDS related policies and programs. Prerequisites: PUBH 6003.

PUBH 6271. Disaster Epidemiology. 1 Credit.

Introduction to disaster epidemiology that elucidates the important role epidemiologists play in assessing the health and psychological effects of natural and man-made disasters and in identifying factors that contribute to these effects. Focus on applications of epidemiologic methods to the study of public health consequences of disasters, case studies from actual disasters used to illustrate various roles of epidemiologist in responding to these events and lessons learned. Highlight key skills that epidemiologists need to be part of a response and recovery. Identify methodological issues for future work. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6272. Epidemiology of Infectious Agents Associated with Human Cancer. 1 Credit.

Describes the role of infectious agents in the etiology of human cancer. Emphasis on differences between specific oncogenic viruses. Other oncogenic agents, bacterial and parasitic, are also discussed. Discuss laboratory approaches to the documentation of their pathogenicity, how behavior affects mode of transmission, and which types of data provide strongest support for documenting oncogenic potential for humans. Prerequisites: PUBH 6003.

PUBH 6273. Ethnographic Methods. 1 Credit.

Use ethnographic field methods in conjunction with epidemiological research. Introduction to specific methods used to examine health phenomena and determinants of disease. Learn specific applied skills that can be modified with socio-cultural modifications to evaluate urban sites and other settings. Basic skills in application of ethnographic methods, including recursive observations, participant observations, and variety of approaches to interviewing such as in-depth, structured and non-structured as well as conversational interviewing. Discuss use of multiple approaches in conjunction with ethnography, including focus groups, archival, document, statistical and secondary data analysis, and survey research methods. Course emphasizes use of ethnographic research methods in community-based health settings and evaluates issues in cultural competency and how to garner stakeholder support to conduct epidemiologic studies. Prerequisites: PUBH 6003.

PUBH 6274. Emerging Infectious Diseases for Public Health Professionals. 2 Credits.

Focus on epidemiology of emerging infectious diseases of public health importance, including factors leading to their development, management of emerging infectious diseases from a public health and laboratory standpoint, including biosafety, and strategies for emergency preparedness from a national and international perspective. Emphasis on the context of emerging infectious diseases and strategic approaches to their containment. Prerequisites: PUBH 6003 or MICR 6292; or permission of the instructor.

PUBH 6275. Essential Public Health Laboratory Skills. 2 Credits.

This course provides public health students with practical laboratory experience. Prerequisites: MICR 6239 or permission of the instructor.

PUBH 6276. Public Health Microbiology. 3 Credits.

Gain in-depth understanding of important non-viral pathogens pertinent to public health microbiology. Learn how to isolate and identify pathogens using critical thinking and problem solving skills.

PUBH 6278. Public Health Virology. 3 Credits.

In-depth understanding of viral pathogenesis by focusing on current research, controversial issues, and public health relevance. Survey of family of viruses most relevant to today's public health efforts, concentrating on virus-host interactions and therapeutic strategies.

PUBH 6280. Microbiology and Emerging Infectious Diseases Final Project. 2 Credits.

Focus on the synthesis and summary of data acquired through epidemiologic and/or public health laboratory research. Biosafety training, CITI training, HIPAA training and permission of the instructor are required prior to enrollment. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6292, and PUBH 6245.

PUBH 6281. Analysis of Complex Surveys Using SAS and Stata. 2 Credits.

Appropriate methods to analyze survey data collected using complex sampling methods are discussed and applied to national survey data to address provocative public health research questions. An equivalent Stata course may be substituted for prerequisite 6249. Prerequisites: PUBH 6003 and PUBH 6249.

PUBH 6282. Introduction to R Programming. 1 Credit.

R is an open source software environment for statistical computing and graphics. Data transfer between SAS and R, data manipulation and visualization within R, programming and debugging, R libraries, and graphics theory. Prerequisites: PUBH 6249. Recommended background: Programming experience in a statistical package such as Stata or in high level language such as C, Python, Perl.

PUBH 6299. Topics in Epidemiology. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PUBH 6305. Fundamentals for Health Policy: Public Health and Health Care. 2 Credits.

An overview of public health and health care in the United States as an introduction to the study and analysis of health policy. Presents the governmental framework, institutions, financing streams, workforce, constituencies, and interest groups engaged in the health sector to ensure that students begin their policy analytic training with grounding in the political, economic, and social realities of public health and health care.

PUBH 6310. Statistical Analysis in Health Policy. 3 Credits.

Quantitative and statistical methods of data analysis for health policy and health services research. Instruction in conducting data analyses using Stata statistical and data analysis software and application of acquired skills to health policy and health services research. Practical experience in programming and analysis of various health policy-related questions. Entering and importing data; creating, saving, and merging data sets; creating and modifying variables; labeling variables and values; and conducting analysis ranging from univariate to multivariate analyses, including multiple regression and logistic regression. The use of existing data sets to analyze health policy issues and interpret these analyses for policy purposes. Prerequisite: PUBH 6002.

PUBH 6315. Introduction to Health Policy Analysis. 2 Credits.

Core elements of health policy analysis: problem definition, background, the political, economic, and social landscape; development of policy options and recommendations. Written, graphic, and oral presentation skills associated with policy analysis. Summer, Fall, Spring. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6320. Advanced Health Policy Analysis. 3 Credits.

Practical applications of basic quantitative tools in health policy. Problem definition; political, social, and economic assessment of a problem; program evaluation and data analysis; development of policy options; and the written and oral presentation of findings and recommendations. Prerequisites: PUBH 6305 or PUBH 6012; and PUBH 6310 and PUBH 6315.

PUBH 6325. Federal Policymaking and Policy Advocacy. 2 Credits.

The federal health policymaking process, including an overview of the legislative, administrative, and judicial processes that affect policymaking; federal budget, authorization, and appropriation processes; common techniques and strategies used to advance legislative and regulatory policies, including coalition building and the use of policy studies and media relations. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6330. Health Services and Law. 3 Credits.

Examination of the ways in which the law and legal system in the United States influence and are influenced by the health care system. How judicial, statutory, regulatory, and constitutional sources of law embody health policy and affect access to and quality and financing of health care, as well as the regulation of patient rights.

PUBH 6335. Public Health and Law. 3 Credits.

How the law can both promote public health and conflict with the rights of individuals protected under the U.S. Constitution; legal concepts that underlie the public health system and inform public health policymaking; major areas of public health activity; the future of public health.

PUBH 6340. Health Economics and Finance. 3 Credits.

Examination of economic principles as they apply to health policy in the public and private sectors. The basic framework of economics is used to analyze the behavior of consumers, hospitals, physicians, and insurers, as well as pharmaceutical companies and long-term care providers. Overview of Medicare and Medicaid. Economic analyses of current issues in the marketplace, including rising health spending in the context of the national economy and the federal budget, insurance market dynamics, key issues in the long-term care industry, shifting market forces and power within the health care arena, and new payment initiatives and delivery system models. Prerequisites: PUBH 6352 or an undergraduate economics course.

PUBH 6345. Health Policy Research Design. 2 Credits.**PUBH 6350. Health Policy Capstone. 2 Credits.**

Required for MPH graduate students in the health policy concentration in the final semester before graduation. Students synthesize and integrate knowledge across multiple public health disciplines; apply theories, principles, and skills in ways that approximate professional practice in the field of health policy; and demonstrate mastery of the required knowledge and competencies addressed in the curriculum. Prerequisites: PUBH 6012 or PUBH 6305; and PUBH 6320.

PUBH 6352. Basics of Economics for Health Policy. 1 Credit.

An introduction to modern microeconomics -- the study of how consumers, firms, industries, and the public sector make decisions and allocate their resources in the economy. The principles of supply and demand and elasticity in both the private and public sectors are analyzed.

PUBH 6353. Child Health Advocacy. 1 Credit.

Introduction to child health advocacy. Affordable Care Act (ACA), preventive care, school health, environmental issues, and emergency care. The use of data for advocacy.

PUBH 6354. Mental Health/Substance Abuse Policy. 2 Credits.

Provides an overview of the U.S. mental health and substance abuse delivery system, its components, and the policy challenges created by the organization of this system. Considers the behavioral health care system from the perspective of several main "actors" in the system: patients, providers (primarily doctors and hospitals), health plans, and payers (public and private). Prerequisite: PUBH 6305.

PUBH 6355. Comparative Health Policy. 2 Credits.

Archetypical health care systems, financing, and reform efforts, with emphasis on the trade-offs between efficiency and equity. Comparison of current policy challenges and solutions faced by policymakers in the U.S. and in other countries. Prerequisites: PUBH 6012 and PUBH 6305.

PUBH 6356. State Health Policy. 2 Credits.

Students develop a briefing on health and health care for a new governor and health secretary in order to gain a practical understanding of state health policy and programs. The course is designed to replicate the experience of a newly hired policy staff member learning the requirements for the position in a particular state. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6357. Health Economics and Policy: Cost Containment Strategies. 2 Credits.

Health care cost containment in the context of the current implementation of national health reform. Cost containment strategies; economic underpinnings, anticipated impacts, perspectives of and implications for health care providers and systems, and political considerations. Prerequisite: PUBH 6340.

PUBH 6358. Vaccine Policy. 2 Credits.

The development of U.S. vaccine policy and the growth of various markets targeting routine vaccination of all populations; interactions among business, legal, political, public health, medical, federal/state/local government, and consumer communities that combine to influence vaccine delivery in a broad range of settings. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6359. Reproductive Health Policy. 1 Credit.

Overview of reproductive health policy at the federal and state levels. Balancing the interests of competing stakeholders; the fundamental underlying role of significant disparities in financing for and access to reproductive health services; and how policymaking can alleviate or exacerbate preexisting issues.

PUBH 6360. Advanced Maternal and Child Health Policy. 1 Credit.

In-depth exploration of maternal and child health policy in the U.S., with a particular emphasis on the role of personal and public health services for women, children, youth and their families in the context of health and human services system change. Prerequisite: PUBH 6561.

PUBH 6361. Health Workforce Policy. 2 Credits.

Strategies for the prevention and control of infectious diseases, focusing on low and middle income countries. Goals, strategies, and challenges of major global health intervention programs. Surveillance systems, vaccination programs, chemotherapy as a prevention and treatment tool, nutritional supplementation, environmental approaches, and potential benefits of integrating multiple interventions. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6363. The Health Care Legislative Process. 1 Credit.

How health care legislation is developed in and moves through the U.S. House of Representatives and Senate. The roles of the committees of jurisdiction in each house and how the rules of each house affect legislative outcomes.

PUBH 6364. Federal Budget Process for Health Policy. 1 Credit.

Focuses on how the Congressional budget process shapes the funding and design of federal health care programs, ranging from entitlement programs like Medicare to appropriated programs like community health centers. Discussions cover budget resolutions, appropriations bills, and budget reconciliation legislation, as well as Congressional procedures and committees through which they are considered. Prerequisite: PUBH 6305.

PUBH 6366. Health Care Corporate Compliance. 2 Credits.

The federal laws and regulations that affect U.S. health care industry participants, particularly those relating to the prevention of fraud and abuse, and the role of corporate compliance programs. Prerequisites: HSML 6215 or PUBH 6330.

PUBH 6367. Population Health, Public Health, and Health Reform. 2 Credits.

In-depth assessment of how a reforming health care system can be expected to change the policy landscape for population and public health in the United States; direct changes evolving at the state and local level and national payment and health system reforms. Prerequisites: One of the following: HSML 6202, PUBH 6006, PUBH 6012, or PUBH 6305.

PUBH 6368. Law, Medicine, and Ethics. 3 Credits.

Legal, ethical, and policy issues that arise in the biomedical arena; the definitions of life and death, the nature of personal identity, the requirements of justice, and the boundaries of liberty. Prerequisites: PUBH 6330 or PUBH 6335.

PUBH 6370. Medicare/Medicaid Law and Policy. 2 Credits.

Describes current legal and public policy issues in the Medicare and Medicaid programs, including the legal, operational, financial, and organizational rules for the two programs. Prerequisite: PUBH 6315.

PUBH 6372. Minority Health Policy. 2 Credits.

Introduces students to the concept of health disparities and the implications of disparities for health care practice and policy. Students will learn how disparities are defined and measured, as well as emerging approaches in practice and policy to reducing disparities. Fall. Prerequisite: PUBH 6315.

PUBH 6374. Pharmaceutical Policy. 2 Credits.

Legal and regulatory frameworks related to the demand for and supply / quality of pharmaceutical products. Policies specific to drug development, pricing, reimbursement, use, dissemination of information, and post-marketing surveillance. Prerequisite: PUBH 6315.

PUBH 6376. Primary Health Care Policy. 2 Credits.

Politics and policy behind the provision of primary health care in the United States. The rise of the field of primary care and how it is supported and financed; the role of insurers and government in regulation and oversight in the areas of access, cost, and quality. Prerequisite: PUBH 6315.

PUBH 6378. HIV Policy in the US. 2 Credits.

Examines the policy response to the HIV epidemic in the United States and how the epidemic itself has helped to shape U.S. policy. How and why HIV became a national policy issue; circumstances surrounding the discovery of and early response to HIV; and main policy and programmatic developments and key players over time. The role and implications of the Affordable Care Act for individuals with HIV, the future of the Ryan White HIV/AIDS Program, and the impact of new treatment and prevention strategies on the future course of the epidemic.

PUBH 6380. Bridging Health Policy and Health Information Technology. 2 Credits.

Basics of health care informatics policy and core technological components for health services managers, public health professionals, health policy analysts, and health information technology staff. Policy and legal frameworks, governance and financial issues, technological infrastructure, and business and technological operations. Concepts and roles of information and how information technology can support the health care industry in promoting quality improvement.

PUBH 6382. Community Health Center Policy. 2 Credits.

PUBH 6384. Health Care Quality and Health Policy. 2 Credits.

The role of quality in the U.S. health care delivery system from the perspective of multiple stakeholders, including public and private payers, providers, consumers, and employers. Defining and measuring quality; how quality information is used; and policy implications of quality improvement. Recent changes under health reform legislation. Prerequisites: PUBH 6012 or PUBH 6305.

PUBH 6386. Public Health Preparedness Policy. 2 Credits.

Issues in public health emergency preparedness and response at the nexus of homeland and national security. The relationship between public health and criminal investigation, forensic epidemiology, and surveillance; biodefense; and the role of the scientific community. Infrastructure, threat themes, and associated preparedness and response policy.

PUBH 6390. Prescription Drugs: Policy and Public Health. 3 Credits.

Key policies and public health programs related to each stage of a prescription drug's life cycle; Congressional funding focused on speeding the development and approval of needed drugs, public and private approaches to increase access to prescription drugs, and exceptions to international laws that allow some countries to violate prescription drug patents to improve the health of impoverished citizens.

PUBH 6399. Topics in Health Policy. 3 Credits.

In-depth examination of a particular facet of public health policy. Topics and prerequisites vary.

PUBH 6400. Global Health Frameworks. 2 Credits.

Overview of current issues in global public health with particular emphasis on low and middle-income countries. Serves as both an introductory course for students entering the field of global health, as well as an update on current technical and policy issues for advanced students who may have considerable experience.

PUBH 6410. Global Health Study Design. 1,2 Credit.

Tools necessary for designing and understanding the research that goes into developing good public health programs; basic elements for the planning and design phase of a research project. Prerequisite or corequisite: PUBH 6009 or PUBH 6501. Prerequisite: PUBH 6003.

PUBH 6411. Global Health Qualitative Research Methods. 2 Credits.

An introduction to qualitative data collection and analysis in global health settings. Methodologies include survey design, interviews, focus groups, and participant observation. Archival research and clinical trial research are also addressed. The set of methods most commonly used to collect qualitative data in global health settings. Students are enabled to prepare interview guides, conduct in-depth interviews, and analyze and document the results from a qualitative field project. Prerequisites: PUBH 6002 and PUBH 6410.

PUBH 6412. Global Health Quantitative Research Methods. 3 Credits.

Continuation of the series of global health methods courses. Examination of the fundamental concepts of empirical analysis and qualitative analysis, including open and axial coding, the basis of grounded theory, and regression analysis. Prerequisites: PUBH 6002 and PUBH 6410.

PUBH 6416. Ethical and Cultural Issues in Global Health Research and Programs. 1 Credit.

Examine procedures and concerns for protecting communities and human subjects involved in public health programs and research. Consider cultural considerations integral to ethical conduct of public health research and programming in the global context. Discuss history behind rules and regulations that govern ethical principles around conduct of research involving human subjects. Consider contribution that awareness of cultural contexts where we work makes to ethical nature of our work as global health professionals.

PUBH 6417. Cross-Cultural Approaches for Global Health Practice. 1 Credit.

How to communicate, negotiate, and be more effective across cultures; social aspects that affect communication within cultures and how to navigate communication in practical situations including in the work place and in risk and crisis situations. Corequisite: PUBH 6410. Prerequisite: PUBH 6416.

PUBH 6420. Understanding Commercial Determinants of Health. 1 Credit.

Conceptual understanding and frameworks for commercial determinants of health as key to improving public health.

PUBH 6421. Responsible Conduct of Research. 1 Credit.

Designed to raise awareness of the responsible conduct of research. Strategies for preventing irresponsible research practices, including unacceptable practices and research misconduct.

PUBH 6430. Theories for Global Health Communication Interventions. 2 Credits.

Use of communication theory and methods in health promotion. Integration of multidisciplinary approaches to public health communication. Prerequisites: PUBH 6007 and PUBH 6400.

PUBH 6431. Global Health Communication Strategies and Skills. 3 Credits.

Students conduct qualitative research to evaluate health communication programs, assess readability level and suitability of written health education materials, conduct content analyses, and review/critique current health communication literature. Prerequisites: PUBH 6430 or permission of the instructor; and PUBH 6007.

PUBH 6435. Global Health Program Development and Implementation. 2 Credits.

Basic concepts and principles of program development and implementation including data collection methods, decision making, and problem-solving techniques. Application of program development techniques to specific interventions. Prerequisite: PUBH 6400.

PUBH 6436. Global Health Program Management and Leadership. 2 Credits.

Essential tools for successful project, personnel, and program management. Leadership and management theory; key issues in managing global health programs and projects; leadership and management skills development; use of data in management decision making; and importance of quality, supply chain, and resource management. Restricted to students in the MPH in global health program design, monitoring, and evaluation program. Prerequisites: PUBH 6400 and PUBH 6435.

PUBH 6437. Global Health Program Evaluation. 3 Credits.

Fundamentals of program monitoring and evaluation; developing and using program theory in evaluation; impact evaluation and mixed-methods approaches; qualitative methods and statistical analysis for program evaluation. Prerequisites: PUBH 6002.

PUBH 6440. Global Health Economics and Finance. 2 Credits.

Examination of economics and finance principles as they apply to global health. Organization, delivery, and financing of health care in developing countries. Tools for analyzing issues related to global health economics and finance and application of those tools to a variety of a global health issues, including demand for health care, health care financing, social insurance, pharmaceuticals, and HIV/AIDS. Prerequisite: PUBH 6400.

PUBH 6441. Global Health Organizations and Regulations. 3 Credits.

The functions, capacities, and governance of international health organizations; the normative power of some international health organizations for regulatory processes; and evidence-based development of public health policies with attention to issues of global trade as it shapes worldwide and national health. Prerequisite: PUBH 6400.

PUBH 6442. Comparative Global Health Systems. 2 Credits.

Examination of national health systems, how they differ, and how they are performing. Health systems analyzed through four different lenses: health care organizations, health workforce development, health care financing, and health policy development. Comparison of health systems and health reforms in seven regions of the world and assessment of how health system performance might be improved. Course fee may apply. Prerequisite: PUBH 6400.

PUBH 6443. Global Health Agreements and Conventions. 2 Credits.

Explores the impact of regulations, trade and human rights on health by examining the relevant international declarations, agreements and conventions. This course examines a variety of topics including the impact of international trade agreements on health, the International Health Regulations and other regulations affecting global health, and the relationship between health and human rights. Prerequisite: PUBH 6400.

PUBH 6445. Quantitative Methods for Impact Evaluation. 2 Credits.

Learning to use and produce empirical research in the public health field; review of quantitative techniques and research designs used to uncover causal effects of policies and programs, with applications to public health topics. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6412.

PUBH 6450. Global Health Diplomacy. 2 Credits.

Introduction to the concept of global health diplomacy; how diplomacy has been used to advance health agendas and how health issues have been used to improve diplomatic relations between countries; formal health, multi-stakeholder health, and informal health diplomacy; comparative study of how different countries have devised health diplomacy strategies.

PUBH 6451. Monitoring/Evaluation of Sexual/Reproductive Health Programs in Low- and Middle- Income Countries. 2 Credits.

Overview of key sexual and reproductive health challenges in low- and middle-income countries; designing and measuring programs to address those challenges. Taught from the perspective of applied researchers working within an organization that implements sexual and reproductive health programs and services. Prerequisites: PUBH 6437, PUBH 6500 and PUBH 6503.

PUBH 6452. Social and Behavior Change Communication in Middle- to Low-Income Countries. 2 Credits.

The ways in which behavior change and sociocultural theories underpin the development of SBCC programs in politically, culturally, and socially diverse settings. Prerequisites: PUBH 6007 and PUBH 6503.

PUBH 6455. Global Vaccinology. 3 Credits.

Concepts, methods, and tools for making new and existing lifesaving vaccines more accessible to individuals in low- and middle- income country settings. Recommended for second-year MPH students. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6461. Ethics and Accountability in Humanitarian Settings. 1 Credit.

Principles and fundamentals of ethical approaches and accountability processes in the delivery of humanitarian services and possible solutions and interventions to address them. PUBH 6480 may be taken as a corequisite. Prerequisite: PUBH 6480.

PUBH 6462. Nutrition and Food in Large Humanitarian Emergencies. 1 Credit.

Fundamentals of food aid programs and nutritional issues in emergency humanitarian situations and appropriate local and international responses in lower-income countries. Field-based program responses in international, resource-scarce settings, as conducted by NGOs and UN agencies. PUBH 6480 may be taken as a corequisite. Prerequisite: PUBH 6480.

PUBH 6463. Communication Strategies and Planning in Humanitarian Settings. 2 Credits.

Principles of and major challenges in communication planning with wide range of stakeholders in humanitarian settings; solutions and interventions to identify related risks and appropriately respond to and effectively plan communication strategies. PUBH 6480 may be taken as a corequisite. Prerequisites: PUBH 6007 and PUBH 6480.

PUBH 6464. Mental Health in Humanitarian Settings. 1 Credit.

Principles of and fundamental challenges to mental health in humanitarian settings, including potential solutions and interventions; foundational knowledge and skills in mental health and psychosocial support services in such settings. PUBH 6480 may be taken as a corequisite. Restricted to PUBH 6480.

PUBH 6465. Reproductive Health and Gender-Based Violence in Humanitarian Settings. 1 Credit.

Key issues, challenges, policies, and interventions related to sexual and reproductive health and gender-based violence in humanitarian settings for persons affected by armed conflict and natural disasters. PUBH 6480 may be taken as a corequisite. Prerequisite: PUBH 6480.

PUBH 6469. Humanitarian Aid Seminar Series. 1 Credit.

Targeted talks and panel discussions with humanitarian aid workers from a variety of agencies addressing important or controversial contemporary topics in humanitarian settings. Corequisite or prerequisite: PUBH 6480.

PUBH 6480. Public Health in Humanitarian Settings. 2 Credits.

Technical aspects of high-priority public health interventions; consideration of how and why sound public health interventions should be implemented in both emergency and chronic humanitarian settings; the roles of diverse humanitarian actors.

PUBH 6481. Global Mental Health. 2 Credits.

Focus on global mental health knowledge and public health policy implementation skills regarding the integration of mental health, public health, and primary care in diverse health systems and challenging cultural contexts. Prerequisite: PUBH 6400.

PUBH 6482. International Food and Nutrition Policy. 2 Credits.

Major global food and nutrition issues, their determinants, and the strategies that in place to address them. Students identify major nutrition and food challenges in a country or region as well as the policies and programs that have proven successful in addressing those challenges. Prerequisite: PUBH 6400.

PUBH 6484. Prevention and Control of Vector Borne Diseases. 2 Credits.

Study of insects and other vectors responsible for transmission of diseases in developing countries, including plague, malaria, dengue fever, onchocerciasis (river blindness), and chikungunya virus. Special focus on developing countries, particularly in the Middle East, Africa, Asia, and Latin America. Diseases such as West Nile Virus and Lyme disease in the United States and elsewhere are also addressed. New methods for effective management and control.

PUBH 6486. Global Health Programs and Approaches to the Control of Infectious Diseases. 2 Credits.

Strategies for the control of infectious diseases with a focus on low and middle income countries; identifying and critiquing goals, strategies, and challenges of major global health intervention programs designed to prevent and control infectious diseases. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6487. Emerging Zoonotic Diseases and Global Food Production. 1 Credit.

Analysis of trends in emerging zoonotic diseases and their links to global food production. Case studies on the use of surveillance systems and outbreak detection techniques to monitor emerging zoonotic diseases. Development of skills to analyze surveillance systems, policy reports, and literature related to emerging zoonotic diseases and food-borne outbreaks within a global context. Prerequisites: PUBH 6003.

PUBH 6488. Cost-effectiveness Analysis in Public Health and Health Care. 2 Credits.

The application of cost-effectiveness analysis (CEA) to enhance the efficiency of programs and services both in the United States and developing countries. A variety of topics and related analytical tools such as cost benefit analysis, decision analysis, and sensitivity analysis are covered. Students learn to perform cost-benefit and cost-effectiveness analyses and understand the strengths and limitations of these methods and how to apply them to a broad range of health issues.

PUBH 6489. Evaluation of Food and Nutrition Programs and Policies. 1 Credit.

Introduction to major global food and nutrition issues, strategies used to address these problems, and commonly-used program impact theories and evaluation frameworks; application of evaluation methods and approaches to nutrition and food programs and policies. Prerequisite: PUBH 6437.

PUBH 6491. Public Health Leadership Seminar. 1 Credit.

Leadership lessons derived from the careers of a diverse group of successful executives and entrepreneurs from multiple sectors, including corporate, government, nonprofit, and the arts. Development of skills for effective engagement with peers, personal network, potential employers, and business partners. Permission of the faculty member required prior to enrollment.

PUBH 6492. Global Health Programs and Approaches to the Control of Chronic Diseases. 2 Credits.

Concepts, methods, and tools to address chronic non-communicable diseases (NCDs); global public health and development dimension of NCDs, their epidemiology and risks, and health systems approaches for their control with focus on low- and middle-income countries. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6400.

PUBH 6493. Fundamentals of Supply Chain Management in Developing Countries. 2 Credits.

Practical approaches used by government policymakers, essential drugs program managers, NGOs, donors, and others to ensure that high-quality essential drugs are available, affordable and used rationally; existing and potential challenges and workable solutions related to managing the drug supply in developing countries. Restricted to graduate students.

PUBH 6494. Population, Public Health Practice, and Sustainable Development. 2 Credits.

The reciprocal connections between the dynamics of population growth, distribution, and age structure to health, well-being, and socioeconomic development.

PUBH 6495. Field Trial Methods and Application. 2 Credits.

Concepts, methods, and tools necessary to conduct community-based randomized trials in low- and middle-income country settings; the process of running a randomized field trial from selecting a topic, through implementation, to analysis and reporting. Most appropriate for students in their second year of study. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6499. Topics in Global Health. 3 Credits.

Examination of a particular facet of public health. Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details.

PUBH 6500. Planning and Implementing Health Promotion Programs. 3 Credits.

Students develop skills to effectively plan, design, and implement programs that address public health problems for defined populations in a variety of settings. Prerequisite: PUBH 6007.

PUBH 6501. Program Evaluation. 3 Credits.

The knowledge, competencies, and skills needed to plan and implement evaluations of public health programs in a variety of settings; types of program evaluation, including needs assessment, process evaluation, quantitative and qualitative monitoring of outputs, outcomes, and impact. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6007; and PUBH 6435 or PUBH 6500.

PUBH 6502. Practical Data Analysis for Prevention and Community Health. 1 Credit.

Practical aspects of dataset creation, data management, rudimentary statistical analysis and tabular/graphical presentation of results in the user-friendly environments of PASW (formerly SPSS) and MS Excel. Students create codebooks, enter and clean data, derive new variables from existing ones, choose appropriate analytical techniques and implement them, graph and tabulate results, and document and protect work. Examples are drawn from commonly-encountered situations in prevention and community health, such as needs assessments and program evaluations. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6500.

PUBH 6503. Introduction to Public Health Communication and Marketing. 3 Credits.

The application of health communication theories, principles and techniques, as well as marketing constructs and concepts, to advancing public health through practitioner-oriented health communication and social marketing campaigns and programs.

PUBH 6504. Social and Behavioral Science Research Methods. 3 Credits.

The processes of study design, data collection, and analysis using SPSS for quantitative research in prevention and community health. All phases of the observational/survey research process considered sequentially, from formulation of research questions to preparation of the final report. Prerequisites: PUBH 6002 and PUBH 6007; or permission of the instructor.

PUBH 6508. Cost-Effectiveness Analysis of Health Promotion Interventions. 3 Credits.

Theoretical basis for and practical skills needed to estimate the effectiveness, population impact, and cost of health promotion interventions; application to policy and cost-effectiveness and cost-utility analyses. Familiarity with basic algebra and statistics is assumed. Prerequisites: PUBH 6002 and PUBH 6003; and PUBH 6006 or PUBH 6012.

PUBH 6510. Community-Oriented Primary Care Principles and Practice. 3 Credits.

Theory and practice of community-oriented primary care, including an extended small group exercise carrying out a COPC project with a simulated community using Web-based data sets.

PUBH 6512. Community-Oriented Primary Care Policy and Issues. 2 Credits.

Advanced work on COPC methods and policy, focusing on issues related to the provision of health care in underserved communities. Prerequisite: PUBH 6510.

PUBH 6513. Community Health Management. 2 Credits.

Management and development of community health services. Builds upon principles for management and community-oriented primary care. Prerequisites: PUBH 6003 and PUBH 6510.

PUBH 6514. Preventing Health Disparities. 2 Credits.

Provides students with an understanding of how social, political, and economic factors contribute to disparities (e.g. racial, ethnic, gender, and geographical) in health and health care and how to use evidence-based approaches to prevent or address health disparities.

PUBH 6515. High Risk and Special Populations. 2 Credits.

Provides students with an overview of the methods to plan, implement and evaluation health promotion and education programs targeted towards high risk and special populations. The course reviews the socioeconomic, political-economic, cultural and psychosocial factors of populations who are considered to be at high risk for specific health problems and efforts that have been addressed in current health promotion programs. Prerequisite: PUBH 6007.

PUBH 6516. Community Health Information Resources. 2 Credits.

COPC and community health promotion require diverse information skills in order to assess community needs and strengths, determine priority health issues, analyze data, plan interventions, and evaluate programs. This course introduces students to the information resources useful in planning and implementing COPC and community health projects that address racism. The selected resources support methods for defining a community, characterizing a community's social and health characteristics, investigating a prioritized problem, and developing programs and solutions. Students learn how to choose resources, search them, and consider bias in information sources.

PUBH 6530. Qualitative Methods in Health Promotion. 2 Credits.

Application of qualitative methods in the development of health promotion interventions, evaluations, and research. Collecting and analyzing qualitative data through participant observation, interviewing, group methods, and case studies. Prerequisite: PUBH 6007.

PUBH 6531. Health Promotion in Health Care Settings. 2 Credits.

Behavioral change counseling and training skills to improve health by changing individuals' behaviors and by developing training materials for use with providers, health professionals and high risk groups. This is an advanced course for second year students. Prerequisites: PUBH 6007 and PUBH 6500.

PUBH 6532. Community Organization, Development, and Advocacy. 3 Credits.

Educates health promotion practitioners in how to organize community groups to promote health. The focus is on learning how to use resources available in the community to advocate change. Prerequisite: PUBH 6007.

PUBH 6533. Design and Conduct of Community Health Surveys. 2 Credits.

This course teaches students how to frame questions in health promotion surveys using sound principles of questionnaire design with emphasis on reliability and validity. Students learn survey design principles and methods and how to analyze survey data.

PUBH 6534. Community-Based Participatory Research. 1 Credit.

Students learn how to conduct community research in collaboration with community leaders and residents. Emphasizes the principles of CBPR for addressing health promotion issues in communities including community needs and administrative and policy changes.

PUBH 6535. Promotion of Mental Health. 2 Credits.

Increases understanding about issues in mental health promotion. The emphasis is on mental health as a public health issue and linkages between individual mental health and the environment. Prerequisite: PUBH 6007.

PUBH 6536. Workplace Health Promotion. 2 Credits.

Planning, management and evaluation of programs designed to serve employees' needs, promotion of employee health and reduction of health care costs in the workplace. Prerequisite: PUBH 6007.

PUBH 6537. Health Promotion and Aging. 2 Credits.

Introduces students to the basic health aspects of the aging process and special health promotion needs for this group. Problems of aging and public health solutions for older Americans are examined. Students are able to define the public health concerns for aging Americans, how aging is affected by a multitude of factors, identify health promotion strategies to assist in reaching out to this population and develop methods of collaboration with agencies and organizations to improve the health of the aging population. Prerequisite: PUBH 6007.

PUBH 6550. Maternal and Child Health I. 3 Credits.

Public health issues affecting the health and well-being of women, children, and families. A multidisciplinary perspective that integrates the biological, demographic, epidemiological, economic, behavioral, social, cultural and environmental aspects.

PUBH 6551. Maternal and Child Health II. 3 Credits.

.

PUBH 6552. Women's Health. 2 Credits.

Issues of women's health through the life cycle. The process of critically evaluating women's health research and issues.

PUBH 6553. Adolescent Health. 2 Credits.

Issues of physical, mental, and social development and their bearing on the health of adolescents, with special emphasis on prevention.

PUBH 6554. Children and Youth with Special Needs. 2 Credits.

In order to place children and youth with special needs into a public health framework, this course presents an introduction to and an overview of children and youth with special needs due to a developmental disability. Many aspects of developmental disability are addressed including 'concept' and definitions of disability, causes, epidemiological considerations, and development of federal legislation. The scope and range of developmental disabilities are reviewed along with classification schemes. Both national and international distributions are considered from a sociopolitical viewpoint.

PUBH 6555. Reproductive Health: U.S. and Global Perspectives. 2 Credits.

Reproductive health from a variety of public health perspectives, from defining reproductive health, past perspectives, needed improvements, and the factors that influence reproductive health.

PUBH 6556. Maternal and Child Nutrition. 2 Credits.

Covers the nutritional needs of women during the child bearing years, infants, children and adolescents. The course emphasizes the life course approach to nutrition and has a special emphasis on the effects of diet during infancy on obesity and degenerative diseases in later life. Students examine the biological basis of nutrition, identify risk factors associated with poor nutrition in individuals and populations and evaluate domestic and international programs. Summer (1 credit) and Spring (2 credits).

PUBH 6557. Child Development and Public Health. 2 Credits.

Examination of the development of children from a public health perspective and provide a detailed examination of the indicators of children's health that are needed to assist public health professionals improve children's health.

PUBH 6558. Women, Gender, and Health. 2 Credits.

Focuses on gender as a social determinant of health. Emphasis placed on examining the frameworks that are used in public health research to understand gender-based issues and how these frameworks affect the types of programs and intervention efforts developed.

PUBH 6559. HIV Prevention: An Interdisciplinary Approach. 2 Credits.

Provides an interdisciplinary overview of HIV prevention research from the behavioral, biological and biomedical perspective. Students are encouraged to approach the assignments and discussions from their own particular expertise and career interests/goals.

PUBH 6560. School Health and Safety. 1,2 Credit.

Examines the history, organization, financing, and politics of school health programs. It provides an overview of the core components of school health as defined by the Center for Disease Control and Prevention: health services, health education, physical education, nutrition services, counseling or mental health, school environmental health, health promotion, and family/community involvement. Summer (1 credit); Spring (2 credits).

PUBH 6561. Maternal and Child Health Policy Analysis. 2 Credits.

Provides instruction in maternal and child health policy in the U.S. with a particular emphasis on policies related to the organization, financing, delivery, and quality oversight of personal health services for mothers and children.

PUBH 6562. Physical Activity and Obesity Interventions: From the Individual to the Environment. 2 Credits.

This course broadly examines the public health issues related to physical activity and obesity, particularly as they relate to solutions for addressing individual factors and the obesogenic environment. Students gain a further understanding of the social, physiological, behavioral, and environmental factors related to both obesity and physical activity. The course focuses on examining multiple levels of solutions, specifically: 1) individual and behavioral interventions; 2) school-based and community-level interventions; 3) environmental interventions; 4) policy-level interventions. Students are expected to critically evaluate the necessary components of interventions, and apply that knowledge to future programmatic efforts.

PUBH 6563. Global Child Health. 2 Credits.

Elements of science, policy, challenges, and successes of global child health; focus on low and middle income countries and children under five years of age. Learn the burden of disease and associated risk factors; cost-effective interventions and tools. Restricted to graduate students.

PUBH 6570. Advanced Public Health Communication: Theory and Practice. 3 Credits.

Focuses on the use of communication to positively influence people's - and population's - understanding of health information, decision-making, and health behavior. Students study, and in a group project apply, a range of theories and techniques germane to effective message design and delivery. Prerequisite: PUBH 6503.

PUBH 6571. Social Marketing: Theory and Practice. 3 Credits.

The use of marketing to change the behavior of people, populations, and policy makers in ways that are in their, and society's, best interests. Students in this skills-based course study and work in teams to apply a range of marketing strategies to a real-world situation. Prerequisite: PUBH 6503.

PUBH 6572. Marketing Research for Public Health. 3 Credits.

The use of marketing research techniques used to better understand customers of public health programs in order to improve program design, implementation, and effectiveness. A range of qualitative and quantitative techniques are studied for their relevance to program planning, development, and continuous improvement.

PUBH 6573. Media Advocacy for Public Health. 3 Credits.

Focuses on the use of communication to positively influence public policy and public opinion. In this skills-based course students study and apply a range of theories and techniques germane to the policy advocacy process. Prerequisite: PUBH 6503.

PUBH 6574. Public Health Branding: Theory and Practice. 2 Credits.

This course focuses on the use of branding in the public health and social sectors. Learning from the commercial sector, we examine how to brand behaviors as well as products and services. We review branding methods, examine research on branding and its effectiveness, and build skills in branding for public health objectives.

PUBH 6575. Communication Skills for Public Health Professionals. 1 Credit.

Helps students develop writing and oral presentation skills through intensive, interactive training, practice, and feedback. Provides participants with a solid foundation for all forms of public health and other scientific and technical written and oral communication.

PUBH 6590. Introduction to Social Entrepreneurship. 2 Credits.

Examine innovative organizations created to improve people's lives and contribute to improved social and economic conditions. Emphasis on how such organizations are started, how they are sustained, and the various business models that are adopted to achieve an organizational mission.

PUBH 6591. PA/MPH Clinical Leadership Seminar. 1 Credit.

For first-year physician assistant and master of public health program students, an orientation to their roles as health professionals. Special emphasis on preventive and community medicine.

PUBH 6599. Topics in Prevention and Community Health. 1-3 Credits.

In-depth examination of a particular facet of prevention and community health. Topics and prerequisites vary.

PUBH 6610. Public Health Nutrition Practice and Leadership. 1 Credit.

This course provides an overview of public health nutrition practice. Students develop communication, management and leadership skills necessary for successful careers. Students also explore potential practicum and culminating experience options, and how to use these experiences to achieve their career goals. This course is designed for first year students in the public health nutrition MPH program.

PUBH 6611. Nutrition Assessment. 2 Credits.

The anthropometric, biochemical, clinical, and dietary methods for assessing nutritional status in individuals. The process of conducting food and nutrition environment assessments. Prerequisites: EXNS 2119 or PUBH 6619; or other equivalent course with permission of the instructor.

PUBH 6612. Food Systems in Public Health. 2 Credits.

A systems approach to understanding food systems and associated public health issues. How the current food system evolved, and how issues such as climate change and population growth may affect food systems in the future. The role of public health practitioners in meeting the population's need for safe, sufficient, and nutritious food. Policies, programs, and proposals aimed at creating healthier, more sustainable food systems.

PUBH 6613. U.S. Food Policy and Politics. 2 Credits.

The programs, regulations, and legislation that pertain to food production, food safety, nutrition assistance, and dietary guidance in the United States at the federal, state, and local levels.

PUBH 6619. Fundamentals of Nutrition Science. 3 Credits.

The fundamental scientific principles of human nutrition; improving diet and nutritional status in the broader context of public health; nutrition assessment, study designs in nutrition science research, the role of nutrition in chronic disease, and current topics in nutrition science.

PUBH 6620. Designing Healthy Communities. 2 Credits.

Issues at the intersection of public health and planning; evaluating needs and creating change in communities facing food access, physical activity, and age related challenges; the built environment as a means of improving health and preventing chronic disease.

PUBH 6621. Applied Data Analysis in Exercise and Nutrition Sciences. 1 Credit.

Introduction to data management and data analysis using the SAS System; data analysis procedures for specific research questions and settings within the context of exercise and nutrition sciences. Restricted to students in the MPH in physical activity in public health program, program design and evaluation track, or with the permission of the advisor. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6682. Managing Natural Resources for Food Production. 3 Credits.

The relevance of natural resource conservation for ensuring healthy agricultural, food, and environmental systems; various approaches to achieving sustainable systems. Restricted to students in the graduate certificate in food policy leadership program.

PUBH 6683. Applied Food Policy Immersion Experience. 2 Credits.

Leadership theories and an opportunity to build leadership skills and engage with food policy and agriculture leaders from a variety of sectors. Includes site visits to public and private organizations significant in food policy. Restricted to students in the graduate certificate in food policy leadership program. Prerequisites: PUBH 6680 and PUBH 6682.

PUBH 6699. Topics in Nutrition Sciences. 3 Credits.

Examination of a particular facet of nutrition sciences. Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details.

PUBH 6704. Health Information Technology, Informatics, and Decision Making. 3 Credits.

Operationalizing fundamental technology, processes, policies and concepts of healthcare informatics and decision management to translate data into actionable information within the framework of improving quality, safety, productivity, and experience.

PUBH 6706. Population and Community Health Analytics. 3 Credits.

Overview of the concepts of population and community health, the informatics and analytics necessary to assess population health, and best approaches for decision makers and policy makers using and communicating population and community health data.

PUBH 6850. Introduction to SAS for Public Health Research. 1 Credit.

Conducting basic data management tasks with SAS software; creating libraries, data sets, and variables, and generating basic descriptive statistics and simple graphics of public health and biomedical data.

PUBH 6851. Introduction to R for Public Health Research. 1 Credit.

Read, clean, transform, tidy, and summarize public health data in R. Explore data and write R functions to make workflow more efficient.

PUBH 6852. Introduction to Python for Public Health Research. 1 Credit.

Introduction to the basic concepts of Python programming language, illustrated with applications in biomedical sciences and health informatics.

PUBH 6853. Use of Statistical Packages for Data Management and Data Analysis. 3 Credits.

Data management and data analysis using statistical software. Creating and manipulating variables, merging and concatenating data sets, and implementing common statistical methods such as Student's t-test, linear regression, and logistic regression. Prerequisites: PUBH 6002.

PUBH 6854. Applied Computing in Health Data Science. 3 Credits.

Concepts of computing in biomedical sciences and health informatics. Foundations of Unix shell, command line tools, R and Python programming languages, and their applications in public health. PUBH 6860 may be taken simultaneously. Prerequisites: PUBH 6860. Credit cannot be earned for this course and PUBH 4201.

PUBH 6856. Advanced SAS for Public Health Research. 1 Credit.

Advanced SAS programming. Interactive Matrix Language, SAS macro facility, Structured Query Language, and SAS/GRAPH options for creating drill-down graphs to analyze public health data sets. Prerequisites: PUBH 6002; and PUBH 6249 or PUBH 6853; or permission of the instructor. Credit cannot be earned for this course and PUBH 6268.

PUBH 6859. High Performance and Cloud Computing. 3 Credits.

Introduction to high performance computing and cloud computing, including issues such as data transfer, security, virtual machines, and containers. HPC at GW, Amazon Web Services, and Google Cloud for biohealth computing. Prerequisites: PUBH 6851 and PUBH 6852 or permission of the instructor.

PUBH 6860. Principles of Bioinformatics. 3 Credits.

Biological concepts of molecular biology, genome organization, and evolution; computational concepts of alignment, database searching, phylogeny, and structure; and basic programming concepts including the shell, scripting, and databases. Prerequisites: PUBH 6002 or equivalent.

PUBH 6861. Public Health Genomics. 3 Credits.

Molecular technology and its impact on public health practice and discourse in the post-genomic era. The use of genomics to solve or help alleviate public health challenges. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6862. Applied Linear Regression Analysis for Public Health Research. 3 Credits.

Review of basic statistical inference and an overview of the construction of linear regression models for application to public health and biomedical data sets. Prerequisites: Prior completion of a course in undergraduate statistics and one semester of calculus.

PUBH 6863. Applied Meta-Analysis. 1 Credit.

Examination of meta-analysis (MA) with case studies using R. Statistical methods, including fixed- and random-effects MA; MA for binary and continuous data; heterogeneity in MA; meta-regression; and publication bias. Recommended background: Prior completion of an introductory course in biostatistical methods, such as PUBH 6002 or PUBH 6003, or an equivalent, is strongly recommended.

PUBH 6864. Applied Survival Analysis for Public Health Research. 3 Credits.

Application of survival or time-to-event data in public health studies. Censoring, survival functions, Kaplan-Meier curves, log-rank tests, Cox proportional hazards regression, parametric survival models, recurrent events, and competing risks. Prerequisites: PUBH 6249 or PUBH 6853. Recommended background: undergraduate calculus.

PUBH 6865. Applied Categorical Data Analysis. 3 Credits.

Comprehensive overview of methods for analyzing binary and multicategory response data. Contingency table methods for assessing associations and logistic regression for binary, nominal, and ordinal outcomes, including models for matched data. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6866. Principles of Clinical Trials. 3 Credits.

Introduction to basic principles for design, conduct, analysis, and reporting of clinical trials. Developing a proposal for a clinical trial. Prerequisites: PUBH 6002 or equivalent.

PUBH 6868. Quantitative Methods. 3 Credits.

Basic mathematical statistics: probability, fundamental distributions including binomial, Poisson and normal, central limit theorem, consistency, basic point estimation, hypothesis testing, linear models, and maximum likelihood estimation. Prerequisites: PUBH 6002 and prior completion of at least two courses in single variable calculus. Corequisites: PUBH 6249 or PUBH 6853.

PUBH 6869. Principles of Biostatistical Consulting. 1 Credit.

Principles and practice of biostatistical consulting and related skills and knowledge for public health and medical research environments. Recommended background: Prior completion of at least two graduate-level courses in statistics and an introductory course that discusses common health research designs, such as PUBH 6003, or their equivalent is strongly recommended. Credit cannot be earned for this course and PUBH 6258.

PUBH 6879. Propensity Score Methods for Causal Inference in Observational Studies. 3 Credits.

Designing observational studies; drawing causal inferences using propensity score methods; and performing propensity score analysis using R with hands-on data. Prerequisites: PUBH 6851 and PUBH 6865 or permission of the instructor.

PUBH 6883. Biostatistics Consulting Practicum. 1 Credit.

Supervised experiences involving the synthesis of biostatistical skills with consultations in one or more areas of health research. Students in the MPH programs in biostatistics and in epidemiology may register with permission of the instructor. Restricted to students in the MS in biostatistics and MS in epidemiology programs. Recommended background: Prior completion of at least two graduate-level courses in statistics and an introductory course that discusses common health research designs, such as PUBH 6003, or their equivalent is strongly recommended.

PUBH 6884. Bioinformatics Algorithms and Data Structures. 3 Credits.

Algorithmic foundations of bioinformatics, ranging from generic algorithmic techniques to specific algorithms used in various areas of bioinformatics. Theoretical background is complemented with solving practical problems. Prerequisites: PUBH 6854 or equivalent. Credit cannot be earned for this course and PUBH 4202.

PUBH 6885. Computational Biology. 3 Credits.

Introduction to modern computational biology, including omics data science, high-throughput technologies, multi-omics data integration, and analytical methods with real-world applications. Permission of the instructor is required prior to enrollment.

PUBH 6886. Statistical and Machine Learning for Public Health Research. 3 Credits.

Application and evaluation of supervised and unsupervised statistical and machine learning algorithms in the context of biomedical and public health research. Permission of the instructor is required prior to enrollment.

PUBH 6887. Applied Longitudinal Data Analysis for Public Health Research. 3 Credits.

Introduction to commonly used methods for longitudinal data analysis including fixed effects models, linear and generalized linear mixed effects models, and generalized estimating equations. Missing data. Prerequisites: PUBH 6862 and PUBH 6965; and PUBH 6868, or PUBH 8364, or STAT 6201 and STAT 6202.

PUBH 6894. Research Analytics. 3 Credits.

Key concepts in research analytics; skills and experiences needed to leverage big data to improve public health through data integration.

PUBH 6897. Research in Biostatistics and Bioinformatics. 1-4 Credits.

Independent research. Must be approved in advance by advisor/instructor. Restricted to graduate students in the Department of Biostatistics and Bioinformatics.

PUBH 6898. Master of Science Thesis. 1-2 Credits.

Master's thesis.

PUBH 6899. Topics in Biostatistics and Bioinformatics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PUBH 6999. Master of Science in Epidemiology Thesis. 2 Credits.

Thesis research. Restricted to students in the MS in epidemiology program.

PUBH 8010. Doctoral Independent Study. 1-3 Credits.

Doctoral students complete an independent study plan to meet predetermined project and/or research work under the supervision of a faculty member. Restricted to GWSPH doctoral students.

PUBH 8110. Research Rotations. 2 Credits.

Students conduct formal rotations with a laboratory or research group to gain research and reporting experience with the mentorship of EOH faculty. Includes identification of an environmental health research problem, collection or analysis of data, and reporting on the results. May be repeated for credit. Restricted to students in the PhD in environmental program or with the permission of the instructor.

PUBH 8116. Communicating Research Results. 2 Credits.

The importance of strategic communication to public health progress. Students gain communication skills that help to transcend educational barriers and facilitate connections with peers, policymakers, and the broader public. Restricted to doctoral students who have satisfactorily completed the comprehensive examination or with the permission of the dissertation chair.

PUBH 8144. Advanced Environmental Health Data Development and Modeling. 1 Credit.

Advanced doctoral level material on environmental exposure assessment using methods covered in PUBH 6144. Restricted to doctoral candidates. Prerequisites: PUBH 6131 or PUBH 6853. Corequisites: PUBH 6144.

PUBH 8242. Advanced Topics in Clinical Epidemiology and Public Health: Reading the Research. 1 Credit.

Evidence-based problem-solving approach using methods covered in PUBH 6242. Restricted to doctoral students. Prerequisites: PUBH 6003 or equivalent. Corequisites: PUBH 6242. Credit cannot be earned for this course and PUBH 6243.

PUBH 8244. Doctoral Topics: Cancer Epidemiology. 1 Credit.

Course focuses on critical review and interpretation of cancer epidemiology literature as well as issues in research design in the field. Prerequisites: PUBH 6001 and PUBH 6003. Corequisites: PUBH 6244.

PUBH 8245. Doctoral Topics: Infectious Disease Epidemiology. 1 Credit.

Provides doctoral level material on the content of infectious disease epidemiology. The course focuses on critical review and interpretation of infectious disease literature as well as issues preparing an analytic research paper on an emerging infectious disease and the application of tools used to describe the epidemiology of those diseases. Spring Prerequisites: PUBH 6003. Corequisites: PUBH 6245.

PUBH 8250. Doctoral Topics: Epidemiology of HIV/AIDS. 1 Credit.

Students select specific topic within area of HIV/AIDS epidemiology. Options include responding to a data analysis problem; responding to a methodological problem found within HIV/AIDS research; or another topic approved by instructor. Prerequisites: PUBH 6001 and PUBH 6003. Corequisites: PUBH 6250.

PUBH 8259. Doctoral Topics: Epidemiologic Surveillance in Public Health. 1 Credit.

Course provides doctoral level material on the content of surveillance offered in PUBH 6259. Focus is on critical review and interpretation of surveillance literature as well as issues preparing an analytic research paper. Prerequisites: PUBH 6002 and PUBH 6003. Corequisites: PUBH 6259.

PUBH 8283. Doctoral Biostatistics Consulting Practicum. 2 Credits.

Working under supervision, students develop an experience-based understanding of how biostatistical skills are used in one or more areas of health research. Students must have completed at least 6 credits in any combination of general or specialized graduate-level statistics courses, such as PUBH 6202, PUBH 6260, STAT 6201, or STAT 6202, before enrolling in this course. Restricted to PhD students.

PUBH 8364. Quantitative Methods. 3 Credits.

Introduces basic concepts in mathematical statistics. Topics include probabilities (unconditional and conditional), density and distribution functions of continuous and discrete random variables, including expected values. Specific distribution functions discussed are Binomial, Poisson, Hypergeometric, and Gaussian distributions. Additional topics include bivariable distributions, variance-covariance matrix, limiting theory, asymptotic results, and maximum likelihood estimation. Prerequisites: MATH 1231 and MATH 1232; and PUBH 6002 and PUBH 6249.

PUBH 8365. Design of Medical Studies. 3 Credits.

Design of medical investigations, including the randomized clinical trial, observational cohort study, and the retrospective case-control study. Specific methods regarding sample size, power and precision and statistical procedures for randomization and sampling. Ethics of clinical trials and the intention-to-treat principle. Prerequisite: PUBH 6002.

PUBH 8366. Biostatistical Methods. 3 Credits.

Biostatistical methods for asymptotically efficient tests and estimates of relative risks and odds ratios from prospective and retrospective matched and unmatched studies. Fixed and random effects models. Logistic regression, conditional logistic regression. Poisson regression. Maximum likelihood and efficient scores. Prerequisites: STAT 6202 or permission of the instructor.

PUBH 8401. Foundations in Public Health Leadership. 3 Credits.

Course modules cover personal leadership; leadership models, theories, concepts, tools, and skills; and practical application of leadership to real world situations. Restricted to doctoral candidates.

PUBH 8402. Leadership and Decision Making: Skills Based Approach. 2 Credits.

Using leadership and decision making skills to solve complex health problems and implement successful solutions to improve population health in all communities; decision making, program management, quality and risk management, human resources and budget, governance, and change management.

PUBH 8403. Leadership in Public Health Policy and Practice. 2 Credits.

Students work in teams on projects for clients from public health-related agencies or organizations in the Washington, DC, area that address issues in environmental and occupational health, global health, health behavior, and health policy. Restricted to students in the DrPh program. Prerequisite: PUBH 8402.

PUBH 8404. Advanced Topics: Health Systems and Health Policy Research. 3 Credits.

Examination and assessment of issues related to the intersection of health care systems and health policy, and how health policy and health services research can inform the development and evaluation of health care systems and health policy. Restricted to doctoral candidates. Prerequisite: PUBH 6315.

PUBH 8405. Advanced Topics: Health Economics Research. 3 Credits.

Critical financing issues for U.S. public health and health care services and systems. The role of health services research in understanding the effects of these issues and informing the deliberations and decisions of policymakers.

PUBH 8406. Advanced Topics: Health Research in the Global Arena. 3 Credits.

Alternative field methods adopted from sociology, anthropology, economics, and political sciences for social sciences and policy research. Builds data collection, instruments, measurements, indicators, and data analysis and interpretation skills in specific socio-cultural contexts. Ethical issues in international research.

PUBH 8407. Advanced Topics: Health Leadership in International Settings. 3 Credits.

Doctoral students develop the tools and experiences needed to build capacity for leadership in global health. Prerequisite: PUBH 8406.

PUBH 8408. Advanced Topics: Health Behavior Research & Practice Applications. 3 Credits.

Advanced topics relating theory to practice in areas of health education and behavioral change. Application of qualitative and quantitative research to health related behavior at individual and community levels.

PUBH 8409. Advanced Topics: Health Communication Research. 3 Credits.

Methods of communications research designed to alter health behavior. Emphasis on critical analysis of communications research aimed at the mass public, groups, and interpersonal level.

PUBH 8411. Advanced Topics: Principles of Human Health Risk Science. 3 Credits.

This course provides the doctoral student with a comprehensive orientation to the frameworks, principles and issues involved in assessing, managing and communicating environmental health risks. This fundamental, interdisciplinary course is designed to foster dialogue and insights about contemporary risk science and management issues, including ethical concerns and technical issues that influence policy making. Restricted to students in the environmental and occupational health program, or with permission of the instructor.

PUBH 8412. Advanced Topics: Environmental and Occupational Health Research and Practice. 3 Credits.

This course exposes students to the theory and reality of both research and practice in environmental and occupational health. There is an emphasis on the use of public health science in policy and regulatory decisions. Prerequisites: PUBH 8411 or permission of the instructor.

PUBH 8413. Research Leadership. 1-10 Credits.

Students participate in a range of activities designed to develop and enhance their research methods and analytic skills. These activities include participating in the development and submission of sponsored research proposals; being formally affiliated with a research project, assuming responsibility for completing a real-world research project; engaging in empirical data collection and analysis efforts.

PUBH 8414. Policy and Management Leadership. 1-10 Credits.

Students develop and enhance their management, leadership, and policymaking skills for problem solving in real-world settings; public health departments, community health centers, legislative settings, and public or teaching hospitals.

PUBH 8415. Instructional Leadership. 1-10 Credits.

Students participate in a range of activities designed to develop and enhance their teaching skills. These activities include course development, teaching master's level courses, acting as TA for undergraduate courses, advising students about their class performance, evaluating student performance, and developing remedial programs for students.

PUBH 8416. Study Design & Evaluation Methods. 3 Credits.

Prepares doctoral students to design and conduct program and policy evaluation in public health. Intensive introduction to the principles of study program design and evaluation research emphasizing the ability to synthesize the population-based intervention literature, apply planning and management methods, describe and apply research methods from a range of disciplines, and prepare a program research proposal.

PUBH 8417. Qualitative Research Methods and Analysis. 3 Credits.

Techniques for designing and conducting qualitative research and for analyzing and reporting qualitative data relevant to program development and implementation, community assessment, and policy analysis. Prerequisites: PUBH 8416.

PUBH 8418. Applied Statistical Analysis. 3 Credits.

Intensive course in data management and data analysis using STATA®. Database management system techniques and data analytical strategies for the appropriate analysis of data sets obtained from a variety of studies will be presented. The student will manipulate national data sets from epidemiological studies as well as Demographic and Health Survey (DHS) data. Prereq: PubH 8416.

PUBH 8419. Measurement in Public Health and Health Services. 3 Credits.

Review principles of measurement and assessment as they apply to public health and health services research constructs, review existing state-of-the-art measures of individual and population health status (e.g., morbidity, mortality, functioning and health-related quality of life) and of individual and community health behavior. Explore current measurement issues in health research.

PUBH 8420. Advanced Analysis and Dissemination. 3 Credits.

Advanced multivariate data analyses of complex datasets and programs, including advanced cross-sectional techniques, time-series analysis, and the use of panel data. Evaluation of results, and dissemination of findings to relevant stakeholders. Fall. Prerequisites: PUBH 8417 and PUBH 8418.

PUBH 8422. Advanced Health Care and Public Health Research Design. 2 Credits.

Design of protocol suitable for implementation as part of DrPH dissertation requirement. Permission of the instructor, completion of required coursework, and successful completion of the comprehensive examination required prior to enrollment.

PUBH 8423. Dissertation Research. 1-12 Credits.

Dissertation research for DrPH. Prerequisite: PUBH 8422.

PUBH 8434. Behavioral Medicine and Public Health. 3 Credits.

Investigation into the field of behavioral medicine, which integrates behavioral, psychosocial, and biomedical sciences, with specific applications to public health. Restricted to PhD students in the social and behavioral sciences in public health program or with the permission of the instructor.

PUBH 8435. Dissertation Proposal Development for Social and Behavioral Sciences. 2 Credits.

Advise and assist doctoral students in developing and defending their dissertation proposal. Restricted to doctoral students who have successfully completed comprehensive examinations.

PUBH 8610. Statistical Methods for Health Policy. 3 Credits.

Application of statistical analysis in health policy and public health research using Stata® to analyze a variety of large public health data sets. Prior completion of at least one graduate-level statistics course is required. Restricted to doctoral students. Credit cannot be earned for this course and PUBH 6310.

PUBH 8620. Seminar: Foundations of U.S. Health Policy. 3 Credits.

Reintroduction to the basics of U.S. health policy, combining advanced legal, policy, and regulatory content acquisition with advanced health law and policy analysis skills. Restricted to doctoral students in health policy or with the permission of the instructor.

PUBH 8622. Health Care Payments, Systems, and Delivery Models. 3 Credits.

Survey of long-standing practices and recent developments in provider payment and the organization of health care delivery in the United States. Restricted to doctoral students in the health policy program or with the permission of the instructor.

PUBH 8875. Linear Models in Biostatistics. 3 Credits.

Introduction to the theory of linear models with applications to public health and biomedical data. Least squares, maximum likelihood, and distribution theory for linear regression. Prerequisites: PUBH 6862; and PUBH 6868 or PUBH 8364 or STAT 6201. Corequisites: STAT 6202. Recommended background: prior completion of coursework in linear algebra and multivariable calculus.

PUBH 8877. Generalized Linear Models in Biostatistics. 3 Credits.

Theoretical development of most commonly used methods for categorical and count data presented within the unified framework of the generalized linear model. Prerequisites: PUBH 6865; and PUBH 6868, or PUBH 8364, or STAT 6201 and STAT 6202. Recommended background: prior completion of coursework in linear algebra.

PUBH 8878. Statistical Genetics. 3 Credits.

Application of statistical concepts to family- and population-based genetic data. Human evolution, genome-wide association studies, gene-environment interactions, and genetic architecture with emphasis on applications to real data and analyses. Prerequisites: PUBH 6860.

PUBH 8999. Dissertation Research. 1-12 Credits.

Dissertation research.

PUBLIC POLICY AND PUBLIC ADMINISTRATION (PPPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PPPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PPPA 1099. Variable Topics. 36 Credits.

PPPA 2000. Justice and the Legal System I. 3 Credits.

The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country.

PPPA 2001. Justice and the Legal System II. 3 Credits.

Continuation of PPPA 2000. The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country. Prerequisite: PPPA 2000.

PPPA 2117. Executive Branch Politics. 3 Credits.

Contemporary concepts and issues in public administration and management. Major trends and approaches to governmental administration in the U.S., including the changing federal role, roles of the public sector in relation to the private sector, and managing public agencies at all levels. Same as PSC 2217.

PPPA 2701. Sustainability and Environmental Policy. 3 Credits.

A survey of the intersection of the principles of sustainability and the set of public policies that affect environmental management in the United States. Consideration of the idea that environmental policy is inevitably implemented in a complex interaction of both natural and human systems. Topics applicable to most environmental policy debates, such as the the balance between costs and benefits of environmental protection. Introduction to a "toolkit" of environmental policy instruments ranging from highly prescriptive command-and-control regulations to flexible market-based policies.

PPPA 5099. Variable Topics. 1-99 Credits.

PPPA 6000. Perspectives on Public Values. 1 Credit.

The underpinnings and skills necessary for a functioning democratic society; empathy and the ability to have civil discourse to create, analyze, pass, implement, and evaluate policy and programs.

PPPA 6001. Introduction to Public Service and Administration. 3 Credits.

Introduction to the discipline of public administration. The intellectual traditions and theoretical frames of reference that inform public administration as a field of professional practice and study. Current and continuing challenges and controversies.

PPPA 6002. Research Methods and Applied Statistics. 3 Credits.

Development of skills and knowledge for conducting original research and critically evaluating empirical studies. Various research designs and data collection techniques are examined. Focus on computerizing data sets for quantitative analysis, analyzing strength of relationships, selecting appropriate statistical techniques, and testing statistical hypotheses.

PPPA 6003. Economics for Public Decision-Making. 3 Credits.

The basic tools and concepts in microeconomic analysis and how these tools can be useful in public decision-making.

PPPA 6004. Managing Public Organizations. 3 Credits.

Organizational dynamics, management approaches, and workplace relationships that affect behavior in public organizations. Prerequisite: PPPA 6001.

PPPA 6005. Public Budgeting, Revenue, and Expenditure Analysis. 3 Credits.

Survey of institutions and analytical tools associated with raising revenue and allocating/managing resources at all levels of government. Hands-on budgeting skills and communication of analysis to decision-makers.

PPPA 6006. Policy Analysis. 3 Credits.

Development of skills in conducting and critiquing policy analyses. Application of methodologies used in analyzing possible consequences of specified alternatives as applied in the public policy decision-making process. Appropriate applications and limitations of policy analysis and its relationship to politics and the policy process.

PPPA 6007. Microeconomics for Public Policy I. 3 Credits.

Intermediate microeconomics with a focus on policy-related topics and examples. Restricted to students in the MA in environmental resource policy, public affairs, and public policy programs.

PPPA 6008. MPA/MPP Capstone. 3 Credits.

For MPA and MPP students completing their degree program at the end of the fall semester. This course substitutes for PPPA 6009 and PPPA 6019, respectively.

PPPA 6009. MPA Capstone Seminar. 3 Credits.

Integration and synthesis of the knowledge and skills acquired during the MPA program. Analysis and integration of ethical, political, economic, managerial, and personal values and issues in the field. Prerequisites: Completion of all core courses in the MPA curriculum.

PPPA 6010. Politics and The Policy Process. 3 Credits.

The role of policy analysts in public policymaking. The impact that the political, economic, cultural, and bureaucratic context has on the policymaking process and outcomes. Political and ethical issues raised by the intricate interface of the private, not-for-profit, and public sectors in public policy formulation and implementation.

PPPA 6011. Politics and Policy Analysis. 3 Credits.

Foundations of the public policy field; the role of policy analysts in the policy making process; agenda setting, decision making, policy implementation, program evaluation, and policy feedback.

PPPA 6013. Econometrics for Policy Research I. 3 Credits.

Multivariate research methods in policy analysis.

PPPA 6014. Microeconomics for Public Policy II. 3 Credits.

The application of intermediate microeconomic theory to the study of public policy; models of individual choice in policy analysis, policy aspects of models of the firm, theory of market failure and welfare economics, and resource allocation decisions in the public sector. Credit cannot be earned for both PPPA 6014 and SMPP 6206. Prerequisite: PPPA 6007.

PPPA 6015. Benefit-Cost Analysis. 3 Credits.

The application of microeconomic theory and welfare economics to the empirical evaluation of public policies and programs. Applied welfare economics as a framework for policy analysis; empirical measures of welfare change; techniques of benefit-cost analysis. Prerequisite: PPPA 6014.

PPPA 6016. Public and Nonprofit Program Evaluation. 3 Credits.

Theory and practice of program evaluation and evaluative research. Exploration of scope and limitations of current practice in evaluation, considering economic, political, social, and administrative factors. Examination of methodological considerations for design, data collection, analysis, and dissemination. Prerequisite: PPPA 6002 .

PPPA 6017. Introductory Microeconomics for Public Policy. 3 Credits.

Intermediate microeconomics with a focus on policy-relevant topics and examples. Restricted to MPA and MPP degree candidates.

PPPA 6018. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets, and globalization. The evolution of national, transatlantic, and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization, and industry standards.

PPPA 6019. MPP Capstone. 3 Credits.

Policy theory and typologies; policy formulation, implementation, and evaluation; ethics and practice in policy analysis, processes, content, and contexts; policy linkages to multiple disciplines. Students submit an analysis of a substantive policy primarily utilizing resources in the DC region.

PPPA 6020. Decision Modeling for Public Policy. 3 Credits.

Practical modeling approaches used by policy analysts to explain and assess complex problems, bound a solution space, or determine what data is needed to support policy decisions; using spreadsheets (specifically, Microsoft Excel) to begin modeling policy problems. Prerequisite: PPPA 6002.

PPPA 6021. Data Visualization. 3 Credits.

How graphics can be used to obfuscate, illuminate, and compel. Focusing on the programming language R, includes working with large-scale data and distilling such data into pictures that communicate. Prerequisite: PPPA 6013.

PPPA 6024. Leadership in Complex Organizations. 3 Credits.

What the manager must know and do to provide leadership and guidance in large, complex organizations. An exploration of leadership theories and the factors and processes that condition effective leadership.

PPPA 6025. Ethics and Public Values. 3 Credits.

Ethical dimensions of personal and professional judgments of public officials. Cases are used to consider the ethos of public organizations and the moral foundations of public policy.

PPPA 6027. Program Management. 1 Credit.

Program management as a basis for developing policy and evaluating programs; how managers look at problems, the competing demands they face, what (and who) influences their decisions and actions, and how they get things done.

PPPA 6031. Governing and Managing Nonprofit Organizations. 3 Credits.

Historical, legal, and social foundations of the nonprofit sector. Developing organizational strategy and capacity; managing staff, boards, and volunteers; financial management; fund raising, marketing, public advocacy, and other external relations; partnerships and entrepreneurial activities; measuring performance; and policy issues.

PPPA 6032. Managing Fund Raising and Philanthropy. 3 Credits.

Fund-raising for nonprofit organizations and the management of relationships between donors and recipient organizations. Positioning the organization for fund raising; roles of staff and volunteers; principal techniques for identifying, cultivating, and soliciting donors; ethical principles; emerging trends; and relevant policy issues.

PPPA 6033. Nonprofit Enterprise. 3 Credits.

The use of business methods by nonprofit organizations, commercialization in the nonprofit sector, and the relationship between nonprofit and for-profit entities in pursuing social purposes. Case studies.

PPPA 6034. Managing Nonprofit Boards. 3 Credits.

Overview of the responsibilities, roles, and management of nonprofit boards. The emphasis is on governing boards, but advisory councils and boards of other types are also considered.

PPPA 6042. Managing State and Local Governments. 3 Credits.

Examination of state and local governmental structures and functions, their place within the federal system, their revenue sources, their limitations, and the alternatives available to encourage more effective administration to meet public and private demands.

PPPA 6043. Land Use Planning and Community Development. 3 Credits.

Theory and practice of land use planning. Issues of competing land uses in an era of increased sprawl, population pressure, and environmental threat. Growth management techniques and practices in states and localities; the use of various regulatory controls and economic incentives to achieve desired outcomes. The idea of “sustainable community.”

PPPA 6044. State Politics and Policy. 3 Credits.

Important concepts of state politics and government with emphasis on how those concepts affect the formulation and implementation of policy. The functions of state government and the political, economic, and legal factors that shape state public policies.

PPPA 6048. Financing State and Local Government. 3 Credits.

Analysis of the theory and practice of public finance in state and local governments. Includes the financing of services through municipal taxation, intergovernmental funds, debt instruments, and other revenue sources. Review of expenditures as well as financial management practices.

PPPA 6049. Urban and Regional Policy Analysis. 3 Credits.

Examination of selected national policies and their effects on urban areas and governments. Emphasis on policy dimensions of urban systems and their relationship to the social, political, and economic context. Against the background of urban politics and administration, areas of health, education, welfare, manpower, transportation, and housing are addressed.

PPPA 6051. Governmental Budgeting. 3 Credits.

Survey of the actors, institutions, and processes in the federal budgeting system. Executive budget preparation/execution, legislative review and approval of budget requirements, and independent audit of government spending.

PPPA 6052. Tax Policy Analysis. 3 Credits.

This course provides a guided, critical study of budgeting by the U.S. Government: its conceptual foundations, structure, processes, accounting, scoring, and results. This process is evaluated, as a system and by its component elements, using the criteria of performance with respect to its fundamental objectives; fiscal and economic stability and efficiency, including for those programs aimed at promoting equity. Because of the dominant role of the Congress in the budget process, attention is focused on the system and process created by the Congressional Budget Act of 1974.

PPPA 6053. Financial Management for Public and Nonprofit Organizations. 3 Credits.

Intensive analysis, using the case study approach, of concepts and principles used in the not-for-profit sector for financial management purposes. Disciplines of accounting, budgeting, operations control, management, and auditing are integrated into comprehensive management control systems and include issues of system design and implementation.

PPPA 6054. Issues in Federal Budgeting. 3 Credits.

Policy tools available to pursue social objectives, including grants, loans, contracting out, regulation, tax credits, and tax expenditures. Focus on criteria such as effectiveness, efficiency, equity, legitimacy, and administrative ease.

PPPA 6055. Contracting Out and Public-Private Partnerships. 3 Credits.

Contracting out and public-private partnerships as methods of delivering government goods and services. Policy and implementation issues, including when and how contracting out may provide a more efficient and effective method of delivering government goods and services.

PPPA 6056. Regulatory Comment Clinic. 3 Credits.

Survey of regulatory theories, institutions, policies, and procedures. Application of economic tools to analyze the effect of existing and proposed regulations on social welfare. Communication of analysis to decision makers and the public.

PPPA 6057. International Development Administration. 3 Credits.

An institutional and policy context for work in the international development industry. Mainstream policies, reform efforts, and alternative approaches. Major actors, selected policy areas, and regional and comparative perspectives.

PPPA 6058. International Development NGO Management. 3 Credits.

Provides an understanding of the primary implementers of international development assistance. Overview of NGO management, highlighting those features that are particular to NGOs active in international development, including NGO relations with government and donors. Recommended background: PPPA 6057 or permission of the instructor.

PPPA 6059. International Development Management Processes and Tools. 3 Credits.

Training in development management tools and processes; application of international development approaches specific to the development management profession. Key theories and perspectives of community development and development management. Recommended background: PPPA 6057 or permission of the instructor.

PPPA 6060. Policy Formulation and Administration. 3 Credits.

Impact of economic and political factors on public policy formulation and implementation; intensive analysis of the analytical, normative, and decision-making models of the policy process with special emphasis on their relationship to current policy problems.

PPPA 6061. Banking and Financial Institutions Policy. 3 Credits.

This course examines the broad range of policy issues applicable to banking and financial institutions – including those related to monetary policy, financial stability, consumer protection, and community reinvestment. This area includes a number of questions that are at the forefront of the current national policy debate about the appropriate role of government and how best to regulate financial institutions and financial markets.

PPPA 6062. Community Development Policy and Management. 3 Credits.

This course examines the policy and practice of community development, including how private sector developers and lenders work with nonprofits, foundations, and the public sector to promote sustainable affordable housing, economic development, and other community-based projects that meet both financial as well as social impact criteria. This category of finance and development is intended to help people and communities just outside the margins of conventional, mainstream finance join the economic mainstream – and to help the economic mainstream enter emerging opportunity markets. The course explores different types of community development opportunities, including affordable housing, charter school, community facility, small business lending, and nonprofit real estate projects. The course also addresses emerging trends that are likely to affect community development policymakers and practitioners, including transportation oriented development, “green” development, use of technology, comprehensive community initiatives, and new ways of raising capital for community development projects.

PPPA 6063. Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing. 3 Credits.

This course examines the role of the public and nonprofit sectors in supporting corporate and investor activities that are intended to have social and environmental, in addition to financial, benefits. These activities – often referred to as “corporate Social Responsibility” (CSR) and “impact investing” – have been described as having significant potential to create social benefits in addition to being in the financial best interests of the corporation or investor. At the same time, some critics of these activities have said that they are less about producing social benefits and more about marketing private sector activities that are primarily designed to produce corporate financial gains. The course explores what is meant by these two terms, what steps the public and nonprofit sectors have taken to support the wide range of activities that these terms encompass, and what have been the results of this work both in the United States and in other countries. The course also addresses emerging trends that are likely to affect the public and nonprofit role in CSR and impact investing in the future.

PPPA 6065. Federalism and Public Policy. 3 Credits.

PPPA 6066. U.S. Environmental Policy. 3 Credits.

Current issues in environmental policy; biodiversity, land use including wilderness protection, climate change, environmental justice, economic growth, and ecological sustainability.

PPPA 6067. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as SMPP 6207.

PPPA 6068. Leading Diverse and Inclusive Organizations. 3 Credits.

Organizational leadership, decision-making, and communications skills necessary for leading in a diverse, multicultural, multi-generational environment.

PPPA 6072. Legislative Management and Congress. 3 Credits.

Analysis of Congress as a management system; examination of its internal administration and its role in formulating policy through legislation. Staffing practices, leadership, rules and procedures, oversight functions, and coalition building.

PPPA 6075. Law and the Public Administrator. 3 Credits.

Exploration and analysis of the functions of law in a democratic society. Emphasis is placed upon the procedural, historical, and jurisprudential dimensions of American law. This broad perspective seeks to convey understanding of the law as a legal and moral force guiding and constraining public decision making.

PPPA 6076. Federal Government Regulation of Society. 3 Credits.

Analysis of the federal regulatory process as it affects the public and private sectors. The regulatory process from legal, economic, administrative, and political perspectives.

PPPA 6077. Case Studies in Public Policy. 1-3 Credits.

Critical analysis of topical issues in public policy, using a case-study approach. Specific issues covered vary.

PPPA 6081. Poverty and Social Policy. 3 Credits.

Introduction to analytical and political issues surrounding the ongoing American and British debates on poverty and social policy; evaluating social assistance programs; the complementary roles of policy analysis and public management.

PPPA 6085. Special Topics in Public Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more information.

PPPA 6097. Practicum in Public Policy and Public Administration. 0 Credits.

PPPA 6098. Independent Research. 1-12 Credits.

Permission of the instructor and program director required prior to enrollment.

PPPA 6140. Introduction to Environmental Law. 3 Credits.

Federal environmental statutes, implementing regulations, state regulatory programs, international environmental agreements; environmental governance tools; strengths, weaknesses of legal, administrative, private approaches to environmental threats; the role of federal courts, administrative law in environmental protection.

PPPA 6145. Global Environmental Justice and Policy. 3 Credits.

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

PPPA 6198. Environmental Resource Policy Capstone. 3 Credits.

Team development of a project sponsored by an external entity, such as a government or nongovernmental agency, or participation in an aspect of a research project directed by a faculty member. The student team functions as an external consultant tasked with analysis of the chosen issue.

PPPA 6207. Program Management. 1 Credit.**PPPA 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.**

May be repeated for credit to a maximum of 6 credits.

PPPA 8022. Econometrics for Policy Research II. 3 Credits.

For doctoral students who wish to use econometric tools in their research. An equivalent course in introductory econometrics may be substituted for the prerequisite with permission. Prerequisite: PPPA 6013.

PPPA 8023. Mixed Methods in Research Design. 3 Credits.

The historical and philosophical foundations of mixed method research design; review of canonical designs; developing and honing skills to implement mixed methods research designs.

PPPA 8085. U.S. Social Policy. 3 Credits.

Development and implementation of social welfare policy in the United States. Introduction to welfare state theory and different welfare models. Critical interrogation of the values and ideologies underlying the policy formulation process. Restricted to doctoral students. Recommended background: A general understanding of the public sector is helpful.

PPPA 8100. Seminar: Literature of Public Administration. 3 Credits.

Contemporary and historical literature in the institutional and intellectual development of public administration.

PPPA 8101. Research Methods. 3 Credits.

Doctoral seminar on theory and practice in research methodology. Data sources and gathering, research models and designs. Critical evaluation of research studies. Emphasis on application of research methods to policy questions.

PPPA 8105. Public Finance and Human Capital. 3 Credits.

The many facets of budgeting and finance and the research approaches used to study issues in this field.

PPPA 8111. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Restricted to doctoral candidates. Credit cannot be earned for this course and SMPP 8311.

PPPA 8123. Seminar: The Policy Organization. 3 Credits.

Unique problems of complex organizations: public, private, and mixed. Emerging concepts and theories. Selected issues.

PPPA 8164. Seminar on Program Evaluation. 3 Credits.

Doctoral seminar on theory and practice in public and nonprofit program evaluation. The broad range of approaches undertaken, current controversies in the field, and the political and ethical context for evaluators.

PPPA 8174. Seminar: Public Management. 3 Credits.

Public organization theory and behavior. Organizational behavior, organization theory, and public management. Key traditions of inquiry in the study of public organizations.

Restricted to students in the PhD in public policy and administration program.

PPPA 8183. Current Topics and Research. 1 Credit.

Current scholarship discussed in a seminar setting. The conduct of research and presentation of research findings. May be repeated for credit.

PPPA 8190. Philosophical Foundations of Policy and Administrative Research. 3 Credits.

Philosophy of science as applied to research in public policy and public administration. The nature of and current problems related to epistemology, development and role of theories, and relationships among theory, methodology, and empirical data.

PPPA 8191. Dissertation Workshop. 3 Credits.

Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

PPPA 8197. Doctoral Seminar: Special Topics. 1-3 Credits.

.

PPPA 8998. Advanced Reading and Research. 1-12 Credits.

Restricted to doctoral candidates preparing for the general examination.

PPPA 8999. Dissertation Research. 3-12 Credits.

Doctoral candidates in dissertation research. Restricted to doctoral candidates.

REGULATORY AFFAIRS (RAFF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

RAFF 5099. Variable Topics. 1-99 Credits.

RAFF 6201. Introduction to Global Regulatory Affairs. 3 Credits.

Foundations of regulatory affairs, including U.S. and international legislation and regulatory processes guidelines. Roles of leaders of regulatory affairs in developing products, navigating the regulatory review and approval process, and contributing to keeping products on the market.

RAFF 6202. Regulatory Drug Biologics. 3 Credits.

Development and evaluation of the regulatory affairs strategies that support drug and biologic development. Research science, study design, master file, risk/benefit analyses, product specifications and milestone identification, IND and NDA.

RAFF 6203. Regulatory Device Diagnostics. 3 Credits.

Development and evaluation of the regulatory affairs strategies that support device and diagnostics development. Research science, study design, master file, risk/benefit analyses, product specifications and milestone identification, IDE, 510K, PMA.

RAFF 6204. Clinical Research for Regulatory Affairs. 3 Credits.

The planning and conduct of clinical trials. Topics include protocol development, study design, post-marketing surveillance, and evaluation and assessment of regulatory submissions. Strategies for achieving clinical development goals.

RAFF 6205. Regulatory Affairs Compliance. 3 Credits.

Analysis and evaluation of regulatory affairs compliance strategies and guidelines. Pre and post marketing compliance of medical products, oversight, labeling, advertising and use.

RAFF 6275. Leadership in Regulatory Affairs. 3 Credits.

Theories of leadership and change are integrated in the development of change proposals for the regulatory affairs field. The development of leadership solutions to problems in leading regulatory strategic change; integration of all field coursework into implementation plans for health care system changes.

RELIGION (REL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

REL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

REL 1003. Introduction to World Religions. 3 Credits.

Introduction to the major religions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Daoism. Examination of the central aspects of these religions including the doctrinal, ethical, ritual, experiential, and social dimensions. Exploration of similarities and differences between these religious traditions.

REL 1009. The Hebrew Scriptures. 3 Credits.

The literature, history, and religious thought represented by the Hebrew Scriptures (Old Testament). Continuities and contrasts between Israel and the ancient Near East are considered through study of the world view, oral and literary tradition, main religious ideas, and chief figures and movements of the biblical literature.

REL 1010. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 1010W. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 1099. Variable Topics. 1-36 Credits.**REL 2165. The Gospels. 3 Credits.**

Study of the four canonical gospels (traditionally those of Matthew, Mark, Luke, and John) in terms of each presenting a distinct literary portrait of Jesus of Nazareth and each being the product of a religious community that shared at least some beliefs and practices with surrounding "pagan" and Jewish communities.

REL 2169. Lost Gospels. 3 Credits.

Examination of some of the gospels not included in the Christian canon. These include, among others, Q, the Gospel of Thomas, the Gospel of Mary, and the Gospel of Judas. These lost gospels provide a fresh perspective on the development and diversity of early Christianity.

REL 2201. Judaism. 3 Credits.

A survey of Jewish thought and practice from the biblical to the modern period; introduction to the Hebrew Bible, rabbinic Judaism, Jewish philosophy and mysticism, Judaism in the modern period; an examination of the central rituals in Judaism, including Sabbath, dietary laws, and major festivals.

REL 2211. Rabbinic Thought and Literature. 3 Credits.

The thought-world of rabbinic Judaism in its formative period, 100 to 500 CE, through a close reading of primary texts in translation selected from Mishnah, Talmud, and Midrash. Topics include Oral Torah, the mechanics of rabbinic law, conceptions of God, views on suffering. The influence of rabbinic Judaism on modern Jewish ethics and thought.

REL 2301. Christianity. 3 Credits.

Typical themes, patterns, and points of diversity within the Christian religion; commonly shared and contested features and complex relationship with broader culture.

REL 2314. Contemporary Philosophy of Religion. 3 Credits.

The arguments of major figures in contemporary schools of thought within the philosophy of religion, including analytic, continental, deconstructionist, and process philosophy.

REL 2401. Islam. 3 Credits.

Islam as both a religion and a civilization. The basic Islamic beliefs and practices: the Qur'an, Hadith, and Islamic intellectual legacy; and the history of Islam from 632 to the present with particular attention to its encounter with the West.

REL 2501. Hinduism. 3 Credits.

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

REL 2506. Religion, Myth, and Magic. 3 Credits.

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious processes and change. (Same as ANTH 2506).

REL 2562. Mythologies of India. 3 Credits.

The lore of Indian gods (Vedic, Puranic), heroes (epics), and holy men (Hindu, Buddhist, Jain, Tantric); ties with Indian art, caste, cult, cosmology, and spiritual ideals.

REL 2601. Buddhism. 3 Credits.

Consideration of the Buddhist tradition both thematically and historically, focusing on topics such as Buddhist doctrine, meditation, and rituals. The lived tradition in the pre-modern and modern periods.

REL 2802. Introduction to Chinese Religions. 3 Credits.

General introduction to Chinese religions focusing on religious doctrines and institutions; religious practices, including ancestor worship, family and communal rituals, spirit possession, fengshui theories, pilgrimage, popular worship of ghosts and gods. (Same as EALL 2802).

REL 2811. Confucian Literature in East Asia. 3 Credits.

Introduction to Confucian literature in China and other parts of East Asia, from its beginnings to the present day. The various historical, philosophical, and religious dimensions of Confucian texts and practices; the role of Confucianism in the formation and development of Chinese and East Asian political systems, family systems, and gender relationships; recent intellectual debates on Confucianism in East Asia. (Same as EALL 3811, EALL 6811).

REL 2814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions how these traditions evolved over time, and the way each cultures assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. (Same as EALL 3814, REL 3814).

REL 2831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Those who take it for graduate credit will have extra assignments. (Same as EALL 3831, EALL 6831).

REL 2921. The Religions Wage Peace. 3 Credits.

Resources in various world religions that contribute to peacemaking in interpersonal relations and in domestic and international politics. Consideration of ways in which religions contribute to intolerance and violence. Case-based approach to religions as related to peace and conflict resolution.

REL 2922. Ethics and World Religions. 3 Credits.

Modern concepts of ethics and their relation to major world religions, religion as stimulus and barrier to moral change, and modern moral issues ranging from bioethics to war.

REL 2945. Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly REL 3945. Recommended background: Prior completion of a religion (REL) course. Same As: PSYC 2945.

REL 2981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity; special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. Same as WSTU 3981.

REL 2990. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

REL 3099. Variable Topics. 1-12 Credits.**REL 3141. Second Temple/Hellenistic Judaism. 3 Credits.**

History of Judaism from the time of Ezra through the destruction of Jerusalem in 70 CE—canonization of the Pentateuch, Hellenism, Maccabean revolt, growth of sectarian movements, Herod, ferment against Rome in context of Eastern and Western political currents. Use of primary sources, especially the Bible, Josephus, and noncanonical writings.

REL 3151. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus. Same As: REL 3151W.

REL 3151W. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: REL 3151.

REL 3161. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3161W. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3221. Issues in Jewish Ethics. 3 Credits.

Exploration of current debates about major ethical issues among Jewish thinkers in the Orthodox, Conservative, and Reform denominations; issues in bioethics, feminism, attitudes towards non-Jews, social action, the ethics of war.

REL 3291. Modern Jewish Thought. 3 Credits.

Jewish thought from 1800 to the present through an exploration of six preeminent Jewish theologians: Moses Mendelssohn, Hermann Cohen, Martin Buber, A.J. Heschel, J.B. Soloveitchik, and Mordecai Kaplan. The relationship between these thinkers and the major Jewish denominations: Orthodox, Conservative, Reform, and Reconstructionist.

REL 3310. Apocalypse and Social Change. 3 Credits.

Investigation of typical ideas, patterns, and areas of social engagement associated with the genre of religious literature known as apocalypse. Why and how diverse groups within Jewish, Christian, and Muslim traditions crafted apocalypses that have shaped cultures across the globe from past to present.

REL 3321. Christian Ethics and Modern Society. 3 Credits.

Nature and principles of Christian life as developed by the Christian community; problems of personal conduct; application to various social institutions.

REL 3341. Christianity in the Ancient World. 3 Credits.

Rise and development of Christianity in relation to the culture, philosophy, mystery religions, and general religious life of the Greco-Roman world to A.D. 500.

REL 3342. Medieval Faith and Symbolism. 3 Credits.

Christian life and thought in the Middle Ages; mystics, saints, popes, and philosophers.

REL 3343. Religion in the Renaissance and Reformation. 3 Credits.

Transformation of the Western understanding of human identity and destiny from the end of the Middle Ages to the Age of Reason.

REL 3344. Christianity in the Modern World. 3 Credits.

Changes in Christian life and thought since 1700, as seen in theology, literature, political life, and religious institutions.

REL 3405. Shi'ite Islam. 3 Credits.

This course examines the emergence and development of Shi'ism as a branch of Islamic orthodoxy with particular emphasis on its doctrine, practices, theology, the law, politics, and the geographical and political context within which a distinct Shi'i identity developed.

REL 3414. Islamic Philosophy and Theology. 3 Credits.

Major schools of Islamic philosophy and theology considered in morphological and historical contexts. Relation between revelation and reason, determination and free will, and divine and human knowledge, and among science, philosophy, and religion. Recommended background: REL 2401 or basic knowledge of Islam. Same As: REL 6414.

REL 3419. Islamic Civilization and the West. 3 Credits.

Interaction between Islamic and Western civilization during the past fourteen centuries. Christian contact with and development of views about Islam; formation of Islamic civilization and the influence of Islamic ideas upon the West; encroachment upon and subsequent colonization of the Islamic world by the West; the spread of Western ideas among Muslims; and Islamic responses to the advent of modernism coming from the West. Present day relations.

REL 3425. Islamic Political Thought. 3 Credits.

Islamic political thought from inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists and its encounter with political thought from the Western world in the modern period. Same As: REL 6425.

REL 3431. Sufism/Islamic Mysticism. 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Same As: REL 6431.

REL 3432. Persian Sufi Literature East and West. 3 Credits.

The teachings of Sufism as reflected in the history of Persian Sufi literature. The influence of that literature on literary figures outside of the Islamic world, especially in the West, but also in India and China, from the 18th to the 20th centuries.

REL 3475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design. Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same As: REL 6475.

REL 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as WGSS 3481).

REL 3482. Gender and Piety in Islam. 3 Credits.

Issues related to gender, sainthood, and piety in Islam. Reading of classical primary texts and historical, ethnographic, and philosophical works. Focus on mysticism and metaphysics in Sufi and Shi'i traditions. Final projects are creative or research oriented.

REL 3566. Dharma in Hinduism and Buddhism. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3612. Buddhist Ethics. 3 Credits.

Introduction to basic concepts in Buddhist ethics. Exploration of the unique landscape of Buddhist moral psychology. Analysis of the moral thought of leading contemporary Buddhists Thich Nhat Hanh and the Dalai Lama. Prerequisites: .

REL 3614. Buddhist Philosophy. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3615. Buddhist Contemplative Traditions in Theory and Practice. 3 Credits.

Exploration of Buddhist meditation. The meditation movement in the West and the emerging science of meditation. Includes discussion of and practicing different styles of Buddhist meditation.

REL 3666. The Book of Revelation and Other Apocalypses. 3 Credits.

Examination of the Book of Revelation in its original historical context. This includes investigation of the origins of apocalyptic thought within Judaism and comparison of the Book of Revelation with other apocalypses such as Daniel, 1 Enoch, and 4 Ezra.

REL 3701. Religion in the United States. 3 Credits.

Growth of religious groups and institutions in relation to American culture, development of religious thought, and analysis of the contemporary religious scene.

REL 3711. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3711W. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3814W. Religion and Philosophy in East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3814).

REL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3831).

REL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage. Same As: EALL 3832.

REL 3841. Religion and Politics in China. 3 Credits.

The changes, destructions, and reconstructions of Chinese religions from the late nineteenth century to the present. The relationship between the (re)making of Chinese religions and the making of a modern Chinese nation state. Same As: CHIN 3841.

REL 3881. Women, Gender, and Religion in China. 3 Credits.

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. Same as EALL 3881/WGSS 3811. (Same as EALL 3881, WGSS 3881).

REL 3901. Thinking About Religion: Classic and Contemporary Approaches. 3 Credits.

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 3910. Perennial Philosophy. 3 Credits.

The meaning of the concept of 'perennial philosophy' as understood by various scholars of thought throughout Eastern and Western history, including its contemporary significance. Perennial philosophy as it concerns the nature of the 'divine reality,' the human state, the cosmos, the arts, and relations between religions.

REL 3912. Religion and Science. 3 Credits.

The relationship between religion and science globally and over time. Egypt, Greece, the Far East, India, and the Islamic world; the West during the Renaissance, with a focus on alchemy and the hermetical tradition; and the Scientific Revolution in the 17th century and biological revolution in the 19th century. Issues and various currents of thought in the contemporary world.

REL 3915. Islam and Hinduism in South Asia. 3 Credits.

Investigation of the historical development and contemporary practice of Islam in South Asia (India, Nepal, Pakistan, Bangladesh, and Afghanistan). Particular attention to devotional traditions within Sufism and Bhakti Hinduism.

REL 3923. Violence and Peace in Judaism, Christianity, and Islam. 3 Credits.

Historical analysis of the violent and peaceful dimensions of the three Abrahamic faiths, with focus on the relationship of the scriptures of each of the three traditions to the later interpretations that supported both violent and peaceful readings of those texts.

REL 3930. Mysticism East and West. 3 Credits.

Mysticism and its various meanings in Eastern and Western religious and spiritual traditions. Comparative study of major figures and works. What schools of mysticism teach about the nature of God and the world and the human state. The rapport between mysticism and various forms of sacred and traditional art.

REL 3931. Interfaith Dialogue in World Religions. 3 Credits.

Comparison of certain families of religions and the doctrinal debates in which they have engaged, including Hindu-Buddhist, inter-Hindu, inter-Buddhist, Buddhist-Confucian, Jewish-Christian, inter-Christian (Catholic-Protestant), Christian-Islamic, and inter-Islamic debates.

REL 3989. The Goddess in India and Beyond. 3 Credits.

The goddess traditions of Hinduism, with some attention to goddess traditions in the ancient Near East and the Mediterranean. Classical Sanskrit, Tantric, and popular expressions of Hindu goddess worship. Comparative studies and issues of gender.

REL 3990. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3990W. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3999. Readings and Research. 2-3 Credits.

REL 4101W. Senior Capstone Seminar. 3 Credits.

Required of religion majors. Students refine and consolidate what they have learned over the course of their studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 4191W. Senior Honors Thesis. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 5099. Variable Topics. 1-99 Credits.

REL 5701. Selected Topics. 4 Credits.

REL 6201. Special Topics in Religion. 3 Credits.

May be repeated for credit provided the topic differs.

REL 6401. Islamic Historiographies. 3 Credits.

Muslim historiographic traditions from the 7th to 15th centuries, including what they looked like and how they developed; the development of scholarly methods used to evaluate the source materials for these traditions in the formative and classical periods of Islam; key developments in postclassical, non-Arabic Muslim historiographic traditions in the Indian Subcontinent, Ottoman Turkey, and the Persian lands.

REL 6402. Qur'an and Hadith. 3 Credits.

The structure, major themes, and literary aspects of the twin sources of Islam. Commentaries written by Muslim scholars and their part in spreading the teachings of the sacred book of Islam. The general principle elements of Islamic theology, law, politics, ethics, philosophy, and art and architecture. The science of Hadith, its types, its relation to the Qur'an, and methods used for authentication of the sayings of the Prophet. The historical role of the Qur'an and Hadith both in classical as well as modern period with particular emphasis on its part in forming Muslim perception of society, history, and politics.

REL 6412. Shi'i Thought. 3 Credits.

Introduction to Shi'i Islam, with a particular focus on the integration of textual, rational, polemical, and philosophical sources in the development of the fundamental doctrines of Twelver, Isma'ili, and Zaydi (Imami) Shi'ism. Restricted to MA students in Islamic Studies.

REL 6413. Philosophy and Mysticism in the Shi'i World. 3 Credits.

Major figures and concepts in philosophy and mysticism in the Shi'i world, including Sufism and the 'irfān tradition, with a focus on ethics. Parallel phenomena in Judaism and Christianity. Restricted to students in the MA in Islamic studies program.

REL 6414. Islamic Philosophy and Theology. 3 Credits.

Major schools of Islamic philosophy and theology considered in morphological and historical contexts. Relation between revelation and reason, determination and free will, and divine and human knowledge, and among science, philosophy, and religion. Recommended background: REL 2401 or basic knowledge of Islam. Same As: REL 3414.

REL 6420. Shi'i Political Thought. 3 Credits.

Survey of contemporary Twelver Shi'i political thought, focusing on scholars from Lebanon, Iraq, and Iran, during the twentieth and twenty-first centuries. Restricted to students in the MA in Islamic studies program.

REL 6425. Islamic Political Thought. 3 Credits.

Islamic political thought from inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists and its encounter with political thought from the Western world in the modern period. Same As: REL 3425.

REL 6431. Sufism/Islamic Mysticism. 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Same As: REL 3431.

REL 6441. Islamic Law. 3 Credits.

Islamic positive law in the contemporary context. The family law of Islam (marriage, dowry, custody, guardianship and various forms of divorce); the law of inheritance and public trust (waqf) as two selected topics of Islamic private law. Examination of theories of jihad and siyar in the contemporary context of nation-state systems of international relationships. Islamic rituals ('ibadat) whose spirituality prevails the totality of the Islamic set of laws and regulations.

REL 6442. Principles of Shi'i Jurisprudence. 3 Credits.

Islamic legal theory in the Shi'i tradition. Topics include sources of Shi'i law; resolving contradictory reports from divinely-inspired sources; authentic vs. inauthentic evidence; distinguishing which actions are obligatory, forbidden, and permissible; and parallels with secular legal systems. Restricted to students in the MA in Islamic studies program.

REL 6460. Topics in the Study of Islam. 3 Credits.

Study of topics in Islam, as selected by the instructor, that may include philosophy, theology, mysticism, law, and/or literature. Prerequisites: A course on Islam or permission of the instructor.

REL 6461. Topics in Islamic Thought. 3 Credits.

Perennial major issues in Islamic theology, philosophy, and Sufism such as Divine Unity, prophetology, eschatology, religious knowledge, sacred law, and ethics. Prerequisites: A course on Islam or permission of the instructor.

REL 6475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design. Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same As: REL 3475.

REL 6481. Global Islamic Feminisms. 3 Credits.

History and current trajectory of Islamic feminism, beginning with various debates over understandings of its meanings and manifestations. Introduction to multidisciplinary methods of analysis for national and global contexts. Recommended background: Previous knowledge of or coursework in Islam.

REL 6511. Currents of Modern Hinduism. 3 Credits.

Hinduism since the early seventeenth century. Colonialism, the impact of missionaries, orientalism, reform, relations between Brahmanical and popular Hinduism, Sanskrit and vernacular traditions, regionalism, communalism, nationalism, fundamentalism, politicized "syndicated" Hinduism, and secularism.

REL 6557. India's Great Epics. 3 Credits.

The Mahabharata and the Ramayana are treated in alternate offerings of the course. These founding epic texts of devotional (bhakti) Hinduism are taught in English translation. Vernacular and performative versions of the epics and Western adaptations.

REL 6771. American Religion to 1830. 3 Credits.

Religious thought and life during the Colonial and early National periods.

REL 6773. American Religion Since 1830. 3 Credits.

Religious thought and life from the Civil War to the present.

REL 6831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Students taking the course for graduate credit must complete additional work. (Same as EALL 3831W, EALL 6831, REL 3831W).

REL 6901. Thinking about Religion: Classic and Contemporary Approaches. 3 Credits.

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 6911. Myth, Ritual, and Language. 3 Credits.

Method and theory in the interpretation of myth and narrative, ritual and sacrifice, and symbolism, with primary reference to the history of religions.

REL 6997. Readings and Research. 2-3 Credits.

Investigation of special problems.

REL 6998. Thesis Research. 3 Credits.

REL 6999. Thesis Research. 3 Credits.

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT (SEHD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SEHD 0940. Continuing Doctoral Research. 1 Credit.

Continuous enrollment for doctoral students working toward completion of their dissertation. Credit cannot be earned for this course and CNSL 0940, CPED 0940, EDUC 0940, HOL 0940, SPED 0940.

SEHD 5099. Variable Topics. 1-99 Credits.

SEHD 8100. Special Topics. 12 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Same As: CPED 8100. Credit cannot be earned for this course and CNSL 8100, EDUC 8100, HOL 8100, SPED 8100.

SEHD 8101. Research and Independent Study. 1-3 Credits.

Students work under the supervision of a faculty member to complete an approved project. May be repeated for credit. Same As: CNSL 8101, CPED 8101, EDUC 8101, HOL 8101, SPED 8101.

SEHD 8998. Pre-Dissertation Seminar. 3 Credits.

Required of all GSEHD doctoral candidates. Approval of the dissertation research proposal by the dissertation committee is necessary for successful completion of the seminar. Permission of the instructor is required prior to enrollment. Same As: EDUC 8998. Credit cannot be earned for this course and CNSL 8998, HOL 8998.

SEHD 8999. Dissertation Research. 3-6 Credits.

Doctoral candidates work with dissertation committee members to complete their research and prepare to defend their dissertation. Prerequisite: SEHD 8998. Same As: CNSL 8999, CPED 8999, EDUC 8999, HOL 8999, SPED 8999.

SCHOOL OF ENGINEERING AND APPLIED SCIENCE (SEAS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SEAS 0920. Continuing Research - Master's. 0 Credits.

Continuing research. (Fall, spring, and summer, Every Year).

SEAS 0930. Examination Preparation. 0 Credits.

Provides continuous enrollment for graduate students who are studying for a comprehensive or qualifying examination for the current or following semester but are not enrolled in any courses.

SEAS 0940. Continuing Research - Doctoral. 0 Credits.

Continuing research.

SEAS 1001. Engineering Orientation. 1 Credit.

Introduction to careers in engineering and computer science, University resources, and computer skill development. Emphasizes teamwork skills by applying them to several design projects. (Fall).

SEAS 1099. Variable Topics. 1-36 Credits.

SEAS 1800. Special Topics in Engineering. 1-3 Credits.

Experimental offerings on introductory-level topics and applications related to various disciplines in engineering. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Open both to GW undergraduate students and to high school students. (Fall, spring, and summer).

SEAS 4800. Special Topics. 1-3 Credits.

Special topics related to new technology and advances, experimental offering on new course topics and applications. Topic to be announced in the schedule of classes. May be repeated for credit provided the topic differs. Recommended background: Undergraduate student. (Fall, spring, and summer).

SEAS 5099. Variable Topics. 1-99 Credits.

SEAS 6014. Introduction to Software and Hardware Security. 3 Credits.

Fundamental principles of designing secure software and hardware systems and the range of attacks that seek to compromise them. Overview of computer architecture and present attacks targeting the hardware, operating system, and application layers. Restricted to SEAS online students only. (As arranged, Every Year).

SEAS 6100. Innovation and Technology. 3 Credits.

Introduction to design and management of technology; Law of Diffusion of Innovation; identification of fundamental engineering design limits; sustained vs. disruptive engineering and technology, best practices from innovators and visionaries; engineering solutions at the prototype state; benefits of intellectual property protections; transformative technology and assessment from a holistic and global view point; application of the lean start-up approach to real-world challenges including sustainability. Restricted to SEAS students or with the instructor's permission. (Fall and spring).

SEAS 6200. Launching Technical Ventures. 3 Credits.

Fundamentals of building an organization and the capabilities necessary to launch and nurture early-stage ventures. Lean start-up management practices, with insights and lessons learned to avoid common mistakes associated with launching new businesses. (Spring).

SEAS 6300. Climate Change Policy and Regulation. 3 Credits.

Past and present policies, regulations, and standards at the local, national, and international levels addressing climate change-related challenges facing society; creating and guiding policy that is scientifically sound and resonates with the public; technological, institutional, and political infrastructures of air-land-water interactions; regulation of technologies at the forefront of climate action policy. (Fall, spring, and summer, Every Year).

SEAS 6303. Climate Change Capstone. 3 Credits.

Case studies suggested by examination of NASA's Soil Moisture Active Passive (SMAP) satellite mission; the Department of Energy's Innovation Hub (JCAP); federal climate change policy with regard to the Paris Agreement; Intended Nationally Determined Contributions; and other topics. (Fall, spring, and summer, Every Year).

SEAS 6401. Data Analytics Foundations and Practicum. 3 Credits.

Introduction to concepts and techniques in data analytics. Basic techniques of data science; algorithms for data mining; basics of statistical modeling and their "Big Data" applications. Concepts, abstractions, and practical techniques. Restricted to students in the MS in data analytics program. (Fall, Every Year).

SEAS 6402. Data Analytics Capstone. 3 Credits.

Students apply previously learned data analytics concepts and tools to the solution of practical problems in a year-long project. Planning, design, and construction of the project, including project demonstration, project specifications, report writing, and presentations. Restricted to students in the MS in data analytics program. Prerequisites: CSCI 6362 or EMSE 6765; CSCI 6441 or EMSE 6586; and CSCI 6444 and EMSE 6574. (Spring, Every Year).

SEAS 6410. Security Data Visualization. 3 Credits.

Visualization aspect of security data, including study of data analytics and scaling up information security, security metrics and security monitoring techniques focusing on industry applications. Tools for security data visualization and analytics. Restricted to online program students. Prerequisites: EMSE 6767. (As arranged, Every Year).

SEAS 6411. Management and Compliance in Cloud Computing. 3 Credits.

Maintaining compliance in the cloud. Theory, methodology, and procedures related to cloud computing; proper audit procedures for discovering system vulnerabilities; documenting findings according to the standards of compliance-based auditing. Restricted to SEAS online students. Prerequisites: ECE 6132. (As arranged, Every Year).

SEAS 6412. Cloud Migration Strategy. 3 Credits.

Migrating traditional IT services to a cloud-based environment. Technical and business considerations necessary to develop an effective cloud migration strategy for an organization. Decision analysis framework to prioritize migration applications. Restricted to SEAS online students. Prerequisites: ECE 6132. (As arranged, Every Year).

SEAS 6800. Special Topics. 1-3 Credits.

Experimental offering of new course topics and applications related to advances in technology. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. (Fall, spring, and summer).

SCHOOL OF MEDIA AND PUBLIC AFFAIRS (SMPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SMPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SMPA 1050. Media in a Free Society. 3 Credits.

The role of mass communication in democratic political systems: informational requirements of democracy, sources of political information and the role of news media and other channels in creating and disseminating it; issues relating to propaganda and public information; and the interaction between information flows and democratic political culture. Not open to SMPA majors.

SMPA 1099. Variable Topics. 1-36 Credits.**SMPA 1225. Forensics Practice (Debate). 1 Credit.****SMPA 2101. Journalism: Theory & Practice. 3 Credits.**

Overview of theories and key issues in journalism in the United States. News and democracy, the historical and social evolution of journalism, news values, journalism as occupation/profession, technologies, and changes in journalistic practices. Restricted to SMPA students.

SMPA 2102. Introduction to Political Communication. 3 Credits.

Basic concepts and theories of political communication; development of a framework for analyzing political communication; applications in the United States, other countries, and the international system. Open only to SMPA majors. Prerequisite: PSC 1002.

SMPA 2110W. Introduction to News Writing and Reporting. 3 Credits.

Fundamentals of news reporting and writing, with emphasis on print media; news judgment, information gathering skills, and crafting news and feature stories. Directly admitted freshmen may enroll in their second semester; all other freshmen require departmental permission. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 2111W. Advanced News Reporting. 4 Credits.

Reporting, writing, and computer skills for covering beats and developing in-depth news stories. Techniques in researching, observing, and interviewing to frame stories of public interest; outside and in-class reporting and writing assignments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Restricted to journalism and mass communication majors, or students with permission of the instructor. Prerequisite: SMPA 2110W.

SMPA 2112. Digital Media I: Introduction to Video Production. 3 Credits.

Foundational introduction to digital media production. Videography and non-linear editing, with emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

SMPA 2113. Digital Media II: Introduction to Web Production and Social Media. 3 Credits.

Foundational introduction to digital media production. Web content and design; photography and audio applied to the web; and using social media. Emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

SMPA 2120. Public Opinion. 3 Credits.

Key aspects of the literature on public opinion, with emphasis on the role of media in opinion formation and change. Topics include the meaning of public opinion in a democratic society, a review of methods used to measure opinions, and media effects on opinion.

SMPA 2151. Research Methods. 3 Credits.

Processes of inquiry within mediated communication. The concepts of framing research questions, conducting literature reviews, developing a research design, and interpreting results of cultural and social science research within a societal framework. Prerequisites: STAT 1053 or STAT 1051 or STAT 1111 or STAT 1127.

SMPA 2152. Data Analysis for Journalism and Political Communication. 3 Credits.

Understanding, critiquing, and performing analysis of data sets with applications to journalism and political communication; using data to tell stories and answer questions. Analyzing A/B tests and field experiments; basics of visualizing data; regression. Laboratory fee. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

SMPA 2173. Media Law. 3 Credits.

Freedom of the press. Changing laws of journalism and mass communication, including defamation, privacy, reporting access, obscenity and indecency, media ownership, intellectual property, advertising, and electronic communication.

SMPA 2177. Media History. 3 Credits.

American media from colonial times to the present, set against a backdrop of ongoing political, social, and economic developments. The development of press, radio, television, cable, satellite, and the Internet; government regulation and media relations; journalistic rights and responsibilities.

SMPA 3099. Variable Topics. 1-12 Credits.**SMPA 3150. Journalism Ethics. 3 Credits.**

Principles of media ethics; application to contemporary and developing issues and challenges in journalism. Restricted to juniors and seniors only. Prerequisite: SMPA 2111W.

SMPA 3193. Selected Topics in Journalism and Mass Communication Skills. 3-4 Credits.

Topics announced in Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3194. Selected Topics in Political Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated if the topic differs, but may only count once toward the political communication major.

SMPA 3195. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3195W. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 3196. Independent Study. 1-3 Credits.

Students pursue a program of directed reading, research, and writing under the direction of a faculty advisor. Restricted to seniors.

SMPA 3197. Internship. 1-3 Credits.

Students spend at least five hours per week per credit with an approved news organization, agency, or office under the general guidance of a faculty advisor. Guidelines are available in the SMPA office and online. May be taken P/NP only. Restricted to SMPA majors and minors in the junior and senior year. May be repeated for up to 6 credits.

SMPA 3230. Reporting in the Digital Age. 3 Credits.

Understanding the emerging tools and developing the technological skills needed to analyze data for news. Students learn to find reliable information through social media and other online tools, use spreadsheets as a reporting tool, and download data for analysis, to create graphics, and to report and write stories based on the analysis. Laboratory fee. Prerequisite: SMPA 2110W.

SMPA 3232. Online Journalism Workshop. 4 Credits.

Capstone production experience for SMPA majors. Provides advanced journalism and multimedia production skills needed to produce and report for a news website. Laboratory fee. Prerequisites: SMPA 2110W and SMPA 2112.

SMPA 3233. Photojournalism. 3 Credits.

Elements of effective news and feature photos, including study and evaluation of slides taken by students. Picture selection, cropping, captions. Student costs include film and developing. Laboratory fee.

SMPA 3234. Editing and Design for Print and Web. 3 Credits.

Editing, design, layout, and photo selection for newspapers, magazines, and web. Selecting and editing stories; writing headlines and photo captions; sizing and cropping graphic materials; laying out pages. Ethics of editing. Prerequisites: SMPA 2110W.

SMPA 3235W. Broadcast News Writing. 3 Credits.

Introduction to writing television news scripts based on actual events. Using workshop techniques, scripts are evaluated for content, structure, and use of words, pictures, and sound. Extensive writing and rewriting using streaming video from professional newscasts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3236W. Broadcast News Reporting. 3 Credits.

Advanced techniques in television news reporting and editing. Students produce, shoot, and edit news packages by teaming up to report in the field. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SMPA 2110W and SMPA 2112.

SMPA 3239. Television News Practicum. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcast. Laboratory fee. Prerequisites: SMPA 3235W and SMPA 3236W.

SMPA 3240W. Washington Reporting. 3 Credits.

Examination of reporting and writing techniques employed in news coverage of the national government, with an emphasis on serving a regional readership or audience. Using Washington as a laboratory, students focus on contemporary issues and news makers in the legislative and executive branches of government. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3241W. Campaign Reporting. 3 Credits.

Development of news gathering and writing skills needed for the coverage of political campaigns. Using in-class exercises and outside assignments, students acquire reporting and writing proficiency to illuminate how campaigns work and how politics affects the lives of citizens. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3242. Investigative Reporting. 3 Credits.

Hands-on intensive training in reporting and writing in-depth enterprise news stories that expose hidden problems or wrongdoing. Prerequisite: SMPA 2110W.

SMPA 3243W. Feature Writing. 3 Credits.

Learn to frame, research, and write a wide range of feature articles, including profiles, interviews and personal memoirs. Weekly writing assignments and a major final project are discussed and scrutinized in a workshop setting. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3244W. Narrative Journalism. 3 Credits.

The narrative or story-telling tradition in journalism. Students experiment with narrative techniques in a series of written exercises and a final project. Enrollment limited to 15 students with preference given to upper-class SMPA majors and graduate students. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

SMPA 3245W. Editorial and Persuasive Writing. 3 Credits.

Techniques of editorial and column writing; editorial page and public affairs programming; function of commentary in a free press. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

SMPA 3246. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Prerequisite: SMPA 2110W.

SMPA 3246W. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3247. Documentary Production. 4 Credits.

Advanced techniques in writing, researching, producing, and editing long-form documentaries. Prerequisites: SMPA 2112 and SMPA 3479; or permission of the instructor.

SMPA 3333. Media Organizations and Audiences. 3 Credits.

Organizations and economic relationships in the U.S. entertainment industry, particularly television and film; relationships within and between organizations, how media industries operate, and how media professionals carry out their work.

SMPA 3350. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 3352. Principles of Public Relations. 3 Credits.

Principles, problems, ethics, and law of public relations for government, private concerns, educational and other public institutions.

SMPA 3353. Strategic Political Communication. 3 Credits.

Origins of strategic approaches to political communication; techniques. Use of strategic communication by individuals, groups, organizations, and governments in both domestic politics and policymaking and in the international system. Prerequisites: SMPA 2102 or permission of the instructor.

SMPA 3354. Political Campaign Communication. 3 Credits.

Communication aspects of political campaigns for candidates and ballot issues. Examination of techniques and channels of communication, role of communication in campaign strategy, ethics and implications of campaign decision making.

SMPA 3355. Campaign Advertising. 3 Credits.

Introduction to the theory and practice of campaign advertising. Emphasis on televised political campaign spots, but a range of campaign advertising media are included: radio, direct mail, and the Internet. Prerequisite: SMPA 2112.

SMPA 3357W. Political Speech Writing. 4 Credits.

Theory and practice of public speaking in the context of mediated political communication. Students analyze, write, and give speeches. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 3358. Strategic Practicum. 3 Credits.

Working in small groups, students research and develop full-scale plans for hypothetical, reality-based, strategic communication campaigns that test and apply theoretical advances in the field. Prerequisite: SMPA 3353.

SMPA 3428. Media, Politics, and Government. 3 Credits.

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Instructor permission required. Same As: PSC 2228.

SMPA 3450. Social Media. 3 Credits.

Practical and theoretical implications of social media; what it means to be social and how social media has changed how individuals interact and do business; birth and history of social media and why certain forms of social media flourish while others fail.

SMPA 3459. Language and Politics. 3 Credits.

Connections between language and the political world. Theory and practice of language in politics and the impact on the creation and consumption of politics.

SMPA 3460. Race, Media, and Politics. 3 Credits.

Examination of the place of race in American society and politics, with attention to the role of media reporting in helping to shape understanding of race and racial matters, public opinion about race, and race and electoral politics.

SMPA 3461. Campaigns and Elections. 3 Credits.

The role of the news media in campaigns and elections. Offered in even-numbered years.

SMPA 3463. Media Bias. 3 Credits.

Exploration of empirical and theoretical understanding of media bias, its effects on power, and implications for democracy.

SMPA 3467. Globalization and Media. 3 Credits.

The media have played a central role in shaping the rapidly changing international scene –both its new global connectedness and its intensifying tribal impulses. At the same time, a new category of media has emerged which is truly global in scope, even while national and regional media have retained their own distinctive characteristics. The great challenges confronting media in a time of technological revolution and cultural tension are sometimes broadly shared across national frontiers and sometimes sharply differentiated. These themes are explored in this course which includes a short term abroad component in Paris over spring break. Students meet with journalists, executives, government officials and scholars who bring both an international and European perspective on major media issues.

SMPA 3468. Communication and Global Social Change. 3 Credits.

The study and practice of communication, development, and social change; theories and arguments informing debates and communication programs, merits and impact of various approaches, and design and implementation of communication programs.

SMPA 3469. International Communication. 3 Credits.

A survey of theoretical themes in international communication and their practical applications: information production and circulation, global media industries, and cultures.

SMPA 3470. Comparative Media Systems. 3 Credits.

In-depth study of the developmental, regulatory, political, economic, and cultural dimensions of selected foreign communication systems.

SMPA 3471. Media in the Developing World. 3 Credits.

Contemporary views of media roles in developing nations. The role of the press and electronic media in economic, social, and national development, including media as agents of modernization, development journalism, and post-colonial responses to Western "cultural imperialism." Media and Islam; role of the Internet; and theories of media and globalization.

SMPA 3472. Media and Foreign Policy. 3 Credits.

The emerging role of news media in international affairs and diplomacy. Globalization of news media advances in digital information and communication technologies and consequences for the international system and diplomacy.

SMPA 3475. Media Management. 3 Credits.

Decision making, strategic planning, and daily operations of all types of media organizations. Sales strategies, promotion, and research.

SMPA 3476. Media, Technology, and Culture. 3 Credits.

Concepts, principles, and socio-political implications of new and changing media and related technologies. Focus on intersection of new technologies and the anthropology of everyday life, in particular self-governance, policy development, cultural rupture and cohesion, the tension between national security and individual privacy rights, and First Amendment issues.

SMPA 3477. Information Technology and Politics. 3 Credits.

The effect of new information technologies on the media, public discourse, and political life; ways in which politics has shaped the development of technology.

SMPA 3479. Documentary. 3 Credits.

Origins, genres, and analysis of documentary film. Power, reach, and conceptual frameworks of documentary filmmaking.

SMPA 3480. The Future of Journalism. 3 Credits.

Reasons behind the decline of traditional newspaper and broadcast journalism; the impact of the web and other digital tools on traditional journalism values; new business models for news.

SMPA 4180. Online Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. Advanced journalism and multimedia production skills needed to produce and report for a news website. Prerequisites: SMPA 2112 and SMPA 2113; and SMPA 2111W. (Same as SMPA 3232).

SMPA 4181. Television News Workshop. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcasts. Laboratory fee. Prerequisites: SMPA 2111 or SMPA 2111W; and SMPA 2112, SMPA 2113 and SMPA 3236W. (Same as SMPA 3239).

SMPA 4182. Specialized Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. In-depth study of advanced journalism skills or specific topic areas. Laboratory fee. Prerequisites: SMPA 2111W; and SMPA 2112 and SMPA 2113.

SMPA 4198. Special Honors Research Seminar. 3 Credits.

. Restricted to senior special honors candidates in political communication. Prerequisites: SMPA 4199 and permission of the department.

SMPA 4199. Senior Seminar. 3 Credits.

Capstone course limited to SMPA majors.

SMPA 5099. Variable Topics. 1-99 Credits.**SMPA 6201. Strategic Communications Skills. 1.5 Credit.**

Specialized skills, such as crisis communication, political uses of social media, digital PR, web development and strategy, and speechwriting. Topics vary by semester. May be repeated for a maximum of 6 credits provided the topic differs. See department for more details.

SMPA 6202. Media Effects, Public Opinion, and Persuasion. 3 Credits.

Theories of media effects and persuasion. Institutional functions and individual effects of mediated communication. Impacts of different textual content and format on individual thinking and emotion; forces that shape content production.

SMPA 6203. Information, Technology, and Political Communication. 3 Credits.

Issues pertaining to the political uses of the Internet, social media, and other new media; the effect that new information technologies have on political life and the ways in which politics shape technology development.

SMPA 6204. Strategic Political Communication. 3 Credits.

Theory, techniques, and implications of strategic communication as employed by individuals, groups, organizations, and governments to advance their interests; applications to non-electoral politics and policymaking; use of political, psychological, sociological, and other processes; methodological considerations; domestic and international applications.

SMPA 6205. Media, Development, and Globalization. 3 Credits.

Theories of media and globalization. The changing role of communication media, including the Internet and other newer technologies as well as traditional books, film, newspapers, telephone, and satellite in establishing closer relationships and interdependencies among people, their cultures, and their organizations in various countries.

SMPA 6206. Advocacy Communication and Political Networks. 3 Credits.

Cross-disciplinary approaches to global changes in the nature of governance and collective action. The role of new technology, social movements, NGOs and transnational advocacy networks. Information campaigns and advocacy communication.

SMPA 6207. Political Persuasion and Public Opinion. 3 Credits.

Major theories and perspectives in public opinion and persuasion research. Information processing, psychological models applied to politics and media research (cognition, attitudes, resistance, heuristics), public opinion dynamics.

SMPA 6208. Politics and Public Relations Fundamentals. 3 Credits.

Basic knowledge of the skills to design, implement, and evaluate public relations activities. Case studies of public relations applied to politics. Techniques and tactics used by public relations professionals.

SMPA 6210. Media and Foreign Policy. 3 Credits.

The effects of U.S. media on U.S. and foreign governments, and of foreign media on the U.S.; effects of other countries' media on each other; the impact of the Internet, inexpensive global phoning, CNN, al Jazeera, and other newer technologies and networks on the stuff of international relations: diplomacy, military operations, trade negotiations.

SMPA 6220. Strategic Practicum. 3 Credits.

Design of strategy for an information and influence campaign. Research on issues and actors, identification of critical decision-making points and key constituencies, development of communication strategies more likely to achieve stated objectives of a campaign. Prerequisite: SMPA 6204. For students doing a strategic communication capstone project, this course replaces SMPA 6297.

SMPA 6230. Principles and Methods of Documentary Filmmaking. 6 Credits.

Analytical and practical exploration of the elements of documentary filmmaking. The genres of nonfiction filmmaking; fundamentals of film conceptualization, documentary screenwriting, story structure, and production theory; and basic practical elements of production. Permission of the instructor required prior to enrollment.

SMPA 6231. Documentary Filmmaking Practicum. 3 Credits.

Intensive practical experience in documentary film production. Students produce a 10 to 15-minute documentary film on a selected topic. Emphasis on major markers in film production: treatment and script writing, location shooting, Final Cut Pro editing, graphics, music, and final sound mix. Prerequisites: SMPA 6230 and permission of the instructor.

SMPA 6241. Research Design. 3 Credits.

Design, applications, and limitations of quantitative research as applied to the field of media and strategic communication. Framing of research questions, identification of variables and formulation of hypotheses, measurement, sampling, data gathering techniques, and preparation of research reports. Brief exposure to qualitative research.

SMPA 6242. Analytics and Data Analysis for Strategic Communication. 3 Credits.

Familiarity with major data analytic and analysis techniques used by strategic communication practitioners. Topics covered include basic statistical analysis, multivariate regression, experiments, focus groups, and survey research. Prerequisite: An undergraduate statistics course.

SMPA 6250. Topics in Media Processes and Institutions. 3 Credits.

Topics address such issues as the history of media content, institutions, and process; impact of changing communication technology on culture; history and development of mass-produced culture; and professional ideology and practice of journalism. May be repeated for credit provided the topic differs.

SMPA 6270. Special Topics in Media and Public Affairs. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more details.

SMPA 6272. Media Bias, Power, and Democracy. 3 Credits.

Consideration of the available scholarly evidence in order to develop a more sophisticated empirical and theoretical understanding of what constitutes media bias. How do we recognize and measure bias? Are there patterns in decisions about news coverage that indicate bias? Which political parties and economic interests benefit from patterns of news coverage?.

SMPA 6274. Media and War. 3 Credits.

Historic and contemporary examination of the media's role in wartime. Topics include covering war, the role of the media in generating support for foreign intervention, propaganda, effects of war coverage on public opinion, media and genocide, and public diplomacy. Ethical, philosophical and political implications of the media's role.

SMPA 6275. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 6295. Internship. 3 Credits.

Students identify a suitable employer for an internship relevant to program themes and goals. Permission of the director of graduate studies required prior to enrollment.

SMPA 6296. Directed Readings and Research. 3 Credits.

Independent research with SMPA faculty member. Must be approved in advance by supervising professor and director of graduate studies.

SMPA 6297. Capstone Project. 3 Credits.**SMPA 6298. Capstone Project. 3 Credits.****SMPA 6998. Thesis Research. 3 Credits.****SMPA 6999. Thesis Research. 3 Credits.**

SLAVIC LANGUAGES AND LITERATURE (SLAV)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SLAV 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SLAV 1001. First-Year Russian I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing Russian. Heritage speakers require permission to register. Laboratory fee.

SLAV 1002. First-Year Russian II. 4 Credits.

Continuation of SLAV 1001. Fundamentals of speaking, understanding, reading, and writing Russian. Prerequisite: SLAV 1001. Heritage speakers require permission to register. Laboratory fee.

SLAV 1003. Second-Year Russian I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing Russian. Heritage speakers require permission to register. Prerequisite: SLAV 1002.

SLAV 1004. Second-Year Russian II. 4 Credits.

Continuation of SLAV 1003. Fundamentals of speaking, understanding, reading, and writing Russian. Heritage speakers require permission to register. Prerequisites: SLAV 1003 or placement test.

SLAV 1012. Intensive Basic Russian I. 8 Credits.

Intensive course in fundamentals of speaking, understanding, reading, and writing Russian (equivalent to SLAV 1001- SLAV 1002). Recommended for majors. Heritage speakers require permission to register. Laboratory fee.

SLAV 1013. Russian for Heritage Speakers I. 3 Credits.

Prepares heritage speakers of Russian for advanced study in Russian at the third-year level and beyond, including content courses in literature and area studies. Prerequisite: a placement test.

SLAV 1014. Russian for Heritage Speakers II. 3 Credits.

Continuation of SLAV 1013. Prepares heritage speakers of Russian for advanced study in Russian at the third-year level and beyond, including content courses in literature and area studies. Prerequisite: a placement test.

SLAV 1017. Russian Rock Music: A Cultural History. 3 Credits.

Russian rock and its role in the cultural and political history of the Soviet Union and modern-day Russia. Emphasis on the role of rock music in the time leading up to the disintegration of the Soviet Union, as well as current-day trends. In English.

SLAV 1034. Intensive Basic Russian II. 8 Credits.

Continuation of SLAV 1012. Intensive course in fundamentals of speaking, understanding, reading, and writing Russian (equivalent to SLAV 1003- SLAV 1004). Recommended for majors. Prerequisite: SLAV 1002 or SLAV 1012. Heritage speakers require permission to register. Laboratory fee.

SLAV 1099. Variable Topics. 1-36 Credits.**SLAV 1391. Introduction to Russian Literature I. 3 Credits.**

Russian literature and society from 1800 to the 1860s, with a focus on the Golden Age of Russian literature; poems and stories by Pushkin, Lermontov, Gogol, and Turgenev.

SLAV 1391W. Introduction to Russian Literature I. 3 Credits.

Russian literature and society from 1800 to the 1860s, with a focus on the Golden Age of Russian literature; poems and stories by Pushkin, Lermontov, Gogol, and Turgenev. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SLAV 1392. Introduction to Russian Literature II. 3 Credits.

Continuation of SLAV 1391. Russian literature and society on their way to modernity; great works of prose and drama by Dostoevsky, Tolstoy, Chekhov, and Bunin.

SLAV 2005. Intermediate Russian I. 5 Credits.

Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisites: SLAV 1004 or SLAV 1034; or permission of the instructor.

SLAV 2006. Intermediate Russian I. 5 Credits.

Continuation of SLAV 2005. Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisites: SLAV 1004 or SLAV 1034; or permission of the instructor.

SLAV 2007. Russia Today: Topics in Advanced Russian I. 3 Credits.

Practice in speaking, listening, reading, and writing at the advanced level. Prerequisites: SLAV 2006 or permission of the instructor.

SLAV 2008. Russia Today: Topics in Advanced Russian II. 3 Credits.

Continuation of SLAV 2007. Practice in speaking, listening, reading, and writing at the advanced level. Prerequisites: SLAV 2006 or permission of the instructor.

SLAV 2015. Readings in the Russian Press I. 3 Credits.

Reading and analysis of current Russian periodicals. For departmental majors and graduate students with a reading-language proficiency requirement.

SLAV 2016. Readings in the Russian Press II. 3 Credits.

Continuation of SLAV 2015. Reading and analysis of current Russian periodicals. For departmental majors and graduate students with a reading-language proficiency requirement.

SLAV 2310. The Russian Media Since Communism. 3 Credits.

The Russian media as a prototype for media in a totalitarian state (the Soviet Union), an emerging democracy (1987 to 2000), and an authoritarian state (2000 to present). Taught in English. Prerequisite for students seeking to satisfy Russian major program requirements: SLAV 2006.

SLAV 2320. The Social History of Modern Russian Music. 3 Credits.

The development of Russian modern music from the 1960s to the present and its cultural, political, and social consequences. Origins as a protest phenomenon and government efforts to co-opt the movement. Taught in English with translated materials.

SLAV 2361. Russian Culture. 3 Credits.

Survey of Russian cultural heritage from its ancient origins through the early nineteenth century. Architecture from the medieval period through the end of the Empire style. Iconography, the influence of the Church, and effects of the West on Russian culture.

SLAV 2362. Russian Culture. 3 Credits.

Survey of Russian culture from the nineteenth century through the present, including intellectual movements; realism in music, art, and theatre; ballet; avant-garde painting; and effects of Soviet policies and of Perestroika.

SLAV 2365. Twentieth-Century Russian Literature to World War II. 3 Credits.

Russian literature and culture of the first half of the twentieth century: the impact of the revolution on writers and literature; avant-garde, socialist realism, and emigre literature (Nabokov)—in English.

SLAV 2366. Russian Literature from World War II to the Present. 3 Credits.

Literature in wartime and in postwar years from Solzhenitsyn to the latest trends: the "thaws," village and urban prose, post-Soviet literature, Russian postmodernism—in English.

SLAV 2471. Nineteenth-Century Russian Prose. 3 Credits.

Reading and discussion of selected prose texts of the nineteenth century from Pushkin to Chekhov—in Russian. Prerequisites: SLAV 2006 and SLAV 1391 and SLAV 1392.

SLAV 2472. Nineteenth-Century Russian Poetry. 3 Credits.

Reading and discussion of selected poetry of the nineteenth century (Pushkin, Lermontov, Nekrasov, and others)—in Russian.

SLAV 2473. 20th-Century Russian Prose. 3 Credits.

Reading and discussion of selected prose of the twentieth century from Bunin to Solzhenitsyn—in Russian.

SLAV 2474. Twentieth-Century Russian Poetry. 3 Credits.

Reading and discussion of selected poetry of the twentieth century from Blok to Brodsky—in Russian. Prerequisites: SLAV 2006 and SLAV 2365 and SLAV 2366.

SLAV 2785. Introduction to Russian Cinema I. 3 Credits.

(In English; all films subtitled.) From Russian silents to the introduction of sound and color (1896-1946). The great revolutionary directors—Eisenstein, Pudovkin, Dovzhenko.

SLAV 2786. Introduction to Russian Cinema II. 3 Credits.

Continuation of SLAV 2785. (In English; all films subtitled.) From post-war to post-perestroika cinema (since 1946): war films, adventure, films about youth.

SLAV 3099. Variable Topics. 1-12 Credits.

SLAV 4595. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs.

SLAV 4595W. Special Topics. 3 Credits.

SLAV 4597. Senior Honors Thesis I. 3 Credits.

Senior honors thesis on a topic related to Russian language, literature, or culture. Required of honors students in the Russian languages and literature program. Restricted to honors students in the Russian languages and literature program.

SLAV 4598. Senior Honors Thesis II. 3 Credits.

Continuation of SLAV 4597. Senior honors thesis on a topic related to Russian language, literature, or culture. Required of honors students in the Russian languages and literature program. Restricted to honors students in the Russian languages and literature program.

SLAV 5099. Variable Topics. 1-99 Credits.

SOCIOLOGY (SOC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SOC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SOC 1001. Introduction to Sociology. 3 Credits.

A broad overview of the "sociological imagination" as a way of understanding social issues and personal experience; sociology's place among the social sciences; basic elements of sociological perspectives. Credit will not be given for both SOC 1001 and SOC 1002. Same as SOC 1002.

SOC 1002. The Sociological Imagination. 3 Credits.

Definition and application of the concept of the sociological imagination; the connection between personal troubles and public issues; race, gender, inequality, and education. Credit will not be given for both SOC 1002 and SOC 1001. Same as SOC 1001.

SOC 1003. Introduction to Criminal Justice. 3 Credits.

The formal institutions that structure criminal justice systems viewed in a sociological and political context. Contemporary American practices and policies that define crime and responses to it, including criminal law, criminology, policing, and penology.

SOC 1099. Variable Topics. 1-36 Credits.

SOC 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

SOC 2101. Social Research Methods. 3 Credits.

Introduction to basic research methods in sociology. Topics include research design, sampling, measurement, and analysis of survey data via computer application. Prerequisites: SOC 1001 or SOC 1002.

SOC 2102. Techniques of Data Analysis. 3 Credits.

Continuation of SOC 2101. Statistical analysis of sociological data with a strong emphasis on computer applications. Prerequisites: SOC 1001 or SOC 1002; and PSC 2101 or PSYC 2101 or SOC 2101.

SOC 2103. Classical Sociological Theory. 3 Credits.

Analysis and critique of the development of Western European and North American social thought in the period of modernity. Consideration of the development of classical theoretical statements and the emergence of topics of sociological inquiry globally. Prerequisites: SOC 1001 or SOC 1002.

SOC 2103W. Classical Sociological Theory. 3 Credits.

Analysis and critique of the development of Western European and North American social thought in the period of modernity. Consideration of the development of classical theoretical statements and the emergence of topics of sociological inquiry globally. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SOC 1001 or SOC 1002.

SOC 2104. Contemporary Sociological Theory. 3 Credits.

A systematic evaluation of the work of selected social theorists of the post-World War II era. Emphasis on application of theoretical concepts to matters of present-day concern. Prerequisites: SOC 1001 or SOC 1002. Same As: SOC 2104W.

SOC 2104W. Contemporary Sociological Theory. 3 Credits.

A systematic evaluation of the work of selected social theorists of the post-World War II era. Emphasis on application of theoretical concepts to matters of present-day concern. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SOC 1001 or SOC 1002. Same As: SOC 2104.

SOC 2105. Social Problems in American Society. 3 Credits.

Introduction to critical social problems (e.g., unemployment, poverty, crime, discrimination) in the United States and how they are, and have historically been, researched and understood by the academic and non-academic worlds. Concepts, theories, and methods of sociological research; examination of the field of social problems generally, emphasizing contemporary social problems. Prerequisites: SOC 1001 or SOC 1002.

SOC 2111. Field Research. 3 Credits.

Examination of the logic of qualitative inquiry and techniques of qualitative data collection and analysis. Various research methods are covered, with an emphasis on intensive interviewing, participant observation in field settings, and focus groups. Prerequisites: SOC 1001 or SOC 1002.

SOC 2112. Evaluation Research. 3 Credits.

Introduction to the evaluation of public programs designed to address the impact of social problems on individuals, households, and larger collective groups. Application of social science theory and research methods to the assessment of impact benefits and costs of such programs. Prerequisites: SOC 1001 or SOC 1002.

SOC 2135. Youth and Delinquency. 3 Credits.

Analysis of historical, economic, and social conditions affecting both difficulties in socializing youth and the evolution of the state's formal systems of control. Prerequisites: SOC 1001 or SOC 1002.

SOC 2136. Criminology. 3 Credits.

Nature and distribution of crime as related to the development and operation of criminal law and various social and legal institutions. Analysis of the historical, social, legal, and cultural conditions affecting the nature of crime, criminality, and the development of state responses made to it. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2137. Transnational Crime. 3 Credits.

Violation of laws across national boundaries in an environment of increased globalization; causation, victimization, and control. Examination of transnational crime as a social problem rooted in global inequality and disparate levels of development, not simply as a security or crime problem. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2139. Alternatives to Imprisonment. 3 Credits.

Incarceration as a prominent feature of formal social control in the United States; the efficacy of strategies to reduce reliance on prisons; historical use of imprisonment and alternatives; the recent increase in correctional control and its social, cultural, and economic costs; the impact of incarceration on reducing crime; obstacles to reforming current incarceration policies; and the effectiveness of front-end and back-end strategies to reduce reliance on imprisonment. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2145. Criminal Law. 3 Credits.

Introduction to the sources and fundamental principles of criminal law and procedure using major sociological perspectives as interpretive tools. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2146. The Bill of Rights and Criminal Justice. 3 Credits.

Examination of the powers of law enforcement and how they relate to the rights conferred upon suspects and defendants by the U.S. Constitution.

SOC 2150. Sociology of Sports. 3 Credits.

Sport as a social institution; the role, consequences, and functions of sport in U.S. society; relationship between sport and institutions including education, mass media, economics, and politics.

SOC 2151. Jackie Robinson: Race, Sports, and the American Dream. 3 Credits.

How Jackie Robinson's struggles and accomplishments can help in understanding current issues in race, sport, and U.S. society. The background leading to, and the impact emanating from, Robinson's entry into major league baseball.

SOC 2152. Media, Class, Race, and Family. 3 Credits.

The reciprocal influences of mass media content and social structure, with particular attention to dominant media narratives. Methodologies for identifying and deconstructing media messages, marketing strategies, and entertainment themes, and how these align or conflict with social circumstances. Prerequisites: SOC 1001 or SOC 1002.

SOC 2161. Sociology of Complex Organizations. 3 Credits.

Review of sociological approaches to the study of complex organizations. Selected and comparative emphasis on bureaucratic organization in both government and private sectors. Prerequisites: SOC 1001 or SOC 1002.

SOC 2162. Sociology of the Family. 3 Credits.

An examination of the stages of family life: birth, childhood, premarital relationships, marriage and sex roles in marriage, retirement and old age. Special emphasis on development and maintenance of interpersonal relations. Prerequisites: COMM 1025 or SOC 1001 or SOC 1002. Same as COMM 2162.

SOC 2163. Sociology of Education. 3 Credits.

Analysis of educational systems from historical-comparative, institutional, and micro-sociological perspectives. Emphasis on educational systems in relation to the religious, cultural, economic, and political forces shaping their character; the role of formal education in modern society. Prerequisites: SOC 1001 or SOC 1002.

SOC 2164. Sociology of the Holocaust and Genocide. 3 Credits.

An interdisciplinary approach to the study of genocide from historical, anthropological, and sociological perspectives. The centrality of ideologies of power and race to acts of genocide. Genocides of the past century are examined to deepen students' understanding of the crime and its aftermath. Prerequisites: SOC 1001 or SOC 1002.

SOC 2165. Sociology of Religion. 3 Credits.

Analysis of the relationships between religion and society. Topics include the contribution of religion to social integration, social change, and social inequality; the nature of religious experience; religious symbolism; the basis of religious communities. Prerequisites: SOC 1001 or SOC 1002.

SOC 2167. Sociology of Law. 3 Credits.

Law as a social phenomenon and agency of social control; study of judicial process and the sources of and challenges to the legitimacy of law. Prerequisites: SOC 1003; and SOC 1001 or SOC 1002.

SOC 2168. Economic Sociology. 3 Credits.

Sociological approach to the study of microeconomic and macroeconomic behavior. Historical and comparative analyses informed by the literature of sociology and other social sciences. Critical review of economic policy in developing, post-communist, and advanced market societies. Prerequisites: SOC 1001 or SOC 1002.

SOC 2169. Urban Sociology. 3 Credits.

Analysis of the city from a sociological perspective. Topics include the social change and inequality associated with urban growth, neighborhood change, and suburbanization; residential segregation; the issue of whether community exists in cities; urban poverty and homelessness. Prerequisites: SOC 1001 or SOC 1002.

SOC 2170. Class and Inequality in American Society. 3 Credits.

Analysis of distribution of resources and opportunities for participation, education, and social mobility; international comparisons; analysis of public policies that affect these distributions. Prerequisites: SOC 1001 or SOC 1002. Same As: SOC 2170W.

SOC 2170W. Class and Inequality in American Society. 3 Credits.

Analysis of distribution of resources and opportunities for participation, education, and social mobility; international comparisons; analysis of public policies that affect these distributions. Prerequisites: SOC 1001 or SOC 1002. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: SOC 2170.

SOC 2172. Institutional Racism: Policies and Prescriptions. 3 Credits.

Institutional policies and practices in the United States that yield racially disparate outcomes. The origins of such policies and practices, potential changes, and how such changes can be achieved. Prerequisites: SOC 1001 or SOC 1002.

SOC 2173. Social Movements. 3 Credits.

General survey of the various forms of collective behavior (fads, panics, riots, social movements, etc.), and a more detailed study of the genesis, development, and decay of social movements and social revolutions. Prerequisites: SOC 1001 or SOC 1002.

SOC 2174. Sociology of Immigration. 3 Credits.

Theoretical and policy debates surrounding immigration in contemporary America and beyond; historical patterns of immigration, including the demographics of immigration and contexts of reception; immigration policy; and pathways of incorporation for immigrants and their children. Prerequisites: SOC 1001 or SOC 1002.

SOC 2175. Sociology of Sex and Gender. 3 Credits.

The consideration of gender and sex as organizing principles of social relations. Analysis of the dynamics of inequality in such areas as families, the workforce, culture and mass media, politics, sexual relationships, law medicine, religion, and education. Prerequisites: SOC 1001 or SOC 1002.

SOC 2177. Sociology of the Sex Industry. 3 Credits.

Sociological examination of sex workers and businesses in the United States and other nations. Analysis of major theoretical perspectives and research on the social organization of sex work, the experiences of participants, issues of gender and sexuality, and alternative policy frameworks regarding prostitution, pornography, and commercial stripping. Prerequisites: SOC 1001 or SOC 1002; and SOC 2175 or SOC 2178.

SOC 2178. Deviance and Control. 3 Credits.

Examination of deviant behavior and its control. Topics include theoretical perspectives, changing societal conceptions of deviance, deviant behavior and identity, and the dynamics of control agencies. Prerequisites: SOC 1001 or SOC 1002.

SOC 2179. Race and Minority Relations. 3 Credits.

Analysis of relationships between dominant and minority groups in society; nature and range of problems; analysis of the phenomenon of prejudice. Prerequisites: SOC 1001 or SOC 1002.

SOC 2181. Special Topics in Sociology. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisite: SOC 1001 or SOC 1002.

SOC 2181W. Special Topics. 3 Credits.

Topics vary by semester. May be repeated once for credit. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SOC 1001 or SOC 1002. Credit cannot be earned for this course and UW 2020W.

SOC 2183. Summer Study Abroad. 1 Credit.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Instructor approval required prior to registration.

SOC 2184. Violence and the Family. 3 Credits.

Comparative approach to power and violence in family systems. Analysis of devaluation of family relations. Critical survey of explanations of violence and responses made to it. Prerequisites: SOC 1001 or SOC 1002.

SOC 2185. Victims, Victimization, and the System. 3 Credits.

The history of the victim and their role in the story of their own victimization, from the past when victims had no role in recovering from damage done to modern-day active participation in the courtroom. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2189. Special Topics in Criminal Justice. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of classes for more details. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2189W. Special Topics in Criminal Justice. 3 Credits.

Topics vary by semester. May be repeated once for credit provided the topics differs. Consult department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003.

SOC 2988. Internship in Law and Society. 3 Credits.

Study of the American legal system and its effects on individuals and society through practical experience. Students must have a confirmed and approved internship involving substantive work within the legal system. The internship should be appropriate for an undergraduate student and require a minimum work commitment of 15 hours per week. SOC 2167 and UW 2031/2031W may be taken concurrently. Restricted to students in the minor in law and society program. Prerequisites: SOC 2167; and UW 2031 or UW 2031W.

SOC 3099. Variable Topics. 1-12 Credits.

SOC 3195. Research. 1-3 Credits.

Independent study and special projects. Open only to selected undergraduates with promising academic records. Students must submit a written proposal of their plan of study for the approval of the member of the department who directs the research. Permission of the department required prior to enrollment. Prerequisites: SOC 1001 or SOC 1002.

SOC 4192. Advanced Seminar in Criminal Justice. 3 Credits.

Capstone seminar taken in conjunction with an internship in SOC 4193. Core issues and contemporary topics In-depth examination of the three branches of the criminal justice system. Restricted to seniors in the BA in criminal justice program. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003; and SOC 2136 or SOC 2145.

SOC 4193. Internship in Criminal Justice. 3 Credits.

Internship with an approved agency or organization in the criminal justice field taken in conjunction with SOC 4192. Restricted to seniors in the BA in criminal justice program. Prerequisites: SOC 1001 or SOC 1002; and SOC 1003; and SOC 2136 or SOC 2145.

SOC 4195. Senior Research Seminar. 3 Credits.

Directed research and writing on sociological topics. Preparation of a research proposal and a literature review. Restricted to seniors in the BA in sociology program. Prerequisites: SOC 2101 or SOC 2102; and SOC 2103 or SOC 2104. Same As: SOC 4195W.

SOC 4195W. Senior Research Seminar. 3 Credits.

Directed research and writing on sociological topics. Preparation of a research proposal and a literature review. Restricted to seniors in the BA in sociology program. Prerequisites: SOC 2101 or SOC 2102; and SOC 2103 or SOC 2104. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: SOC 4195.

SOC 5099. Variable Topics. 1-99 Credits.

SOC 6230. Sociological Research Methods. 3 Credits.

Survey of the procedures, methods, and problems of contemporary sociological data collection, with an emphasis on survey methods. Major topics include research design, instrument construction, survey sampling, and measurement.

SOC 6231. Data Analysis. 3 Credits.

Intensive study of quantitative data analysis techniques, with strong emphasis on computer applications. Prerequisite: SOC 6230.

SOC 6232. Qualitative Methodology: Doing Field Research. 3 Credits.

Practical application of data collection methods in natural settings; observation, participant observation, and field experience. Emphasis on implementing research projects by using these methods for purposes of developing empirically grounded theory.

SOC 6238. Development of Sociological Theory. 3 Credits.

Development of sociology from the early 1800s to the 1920s. Intensive analysis of the classical theoretical statements.

SOC 6239. Contemporary Sociological Theory. 3 Credits.

Intensive examination and evaluation of contemporary schools of sociological theory in Europe and America. Advanced analysis of theoretical perspectives.

SOC 6240. Field Research in Organizational Settings. 3 Credits.

Applications of field research techniques in formal organizational settings. Examination of the logic of qualitative inquiry and techniques of qualitative data collection. Intensive interviewing and participant observation in field settings are emphasized. Credit cannot be earned for this course and MGT 8383.

SOC 6242. Housing and Homelessness. 3 Credits.

The causes, history, and experiences of homelessness and existing programs and affordable housing policies to address the problem. Restricted to graduate students.

SOC 6244. Sociology of Families and Kinship. 3 Credits.

A systematic introduction to recent theoretical perspectives and empirical research on family patterns. The course combines a focus on how and why societal family patterns vary and change over time with an examination of how individuals vary in their experience of life course transitions, such as marriage, childbirth, employment, divorce, and retirement.

SOC 6245. Race Relations. 3 Credits.

Systematic analysis of race relations and inequality, primarily in the United States. Topics include current status and recent trends in inequality, the institutional and organizational patterning of discrimination, the structure of racial attitudes, theoretical perspectives on race relations, and selected policy issues.

SOC 6246. Comparative Race and Ethnicity. 3 Credits.

Examination of race and ethnic relations in comparative, international perspective. Selected societies are analyzed in terms of patterns of racial and ethnic inequality, intergroup relations, institutional foundations of discrimination, social control systems, and sources of social change.

SOC 6248. Race and Urban Redevelopment. 3 Credits.

An examination of sociological forces shaping the development of metropolitan areas, racial inequality, and the intersections of urban development and race relations. Major theories of urban and metropolitan development and causes of racial inequality; major past and current public policies.

SOC 6250. Urban Sociology. 3 Credits.

Systematic analysis of urbanization and life within urban areas, primarily in the United States. Topics include theoretical perspectives on urban growth and neighborhood change, housing, the community question, neighborhood effects on individuals within the metropolis, and selected policy issues.

SOC 6252. Selected Topics. 3 Credits.

Examination of selected topics of general importance to sociology. May be repeated once for credit.

SOC 6254. Evaluation Research. 3 Credits.

Systematic survey of the conceptualization, design, and practice of evaluation research. Prerequisite: SOC 6230.

SOC 6255. Practicum in Applied Sociology. 3,6 Credits.

Supervised sociological research through an internship in a local organization (e.g., a government agency, a non-governmental organization, or a research firm). The internship must be for at least 10 hours a week. Weekly seminar; final paper. Prerequisites: completion of all methodology requirements for the MA degree.

SOC 6257. Criminal Law for Forensic Scientists. 3 Credits.

An overview of criminal law offenses and procedures, evidence recovery, admissibility of scientific evidence, and expert testimony. Emphasis on the interaction between the criminal process and forensic science. Instruction includes a moot court exercise. (Same as FORS 6224).

SOC 6258. Deviance and Control. 3 Credits.

Examination of major theories and research in the field of deviance and social control, with special emphasis on recent empirical advances and comparative perspectives.

SOC 6259. Criminology. 3 Credits.

The status of various criminology theories. Theories of crime causation and crime control; cross-cultural research on crime.

SOC 6260. Special Topics in Criminal Justice. 3 Credits.

Examination of selected topics in criminal justice. May be repeated once for credit if the topic differs.

SOC 6261. Sociology of Law. 3 Credits.

The development and use of law in complex societies, including the different roles of civil and criminal law. The role of the sociology of law within the discipline of sociology.

SOC 6262. Corrections. 3 Credits.

Analysis of adult and juvenile correctional systems, including probation, parole, jails, and prisons. Topics include theoretical perspectives, the impact of corrections on crime rates, and evaluations of sentencing and other reforms.

SOC 6263. Race and Crime. 3 Credits.

Examination of race, crime, and punishment in American society. Analysis of competing theoretical explanations for interracial differences in crime rates, and racial patterns in the apprehension, adjudication, and punishment of offenders.

SOC 6264. Organized Crime. 3 Credits.

The role of organized crime in the political economy of different countries, with emphasis on the development of organized crime networks in the United States.

SOC 6265. Women, Welfare, and Poverty. 3 Credits.

How the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. (Same as WGSS 6265).

SOC 6266. Gender and Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. (Same as WGSS 6266).

SOC 6268. Race, Gender, and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience; the intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. (Same as WGSS 6268).

SOC 6271. Gender and Society. 3 Credits.

Current empirical and theoretical work on gender as an organizing principle of social relations; the relationship of gender to sex and sexuality. Same As: WGSS 6271.

SOC 6272. Theoretical Perspective-Gender. 3 Credits.**SOC 6273. The Sex Industry. 3 Credits.**

Sociological examination of prostitution, pornography, and other forms of sex work in the United States and internationally. Topics include theoretical perspectives, structure of the sex industry, workers' experiences, gender issues, political conflicts, and policy implications.

SOC 6286. The Law of Race and Slavery. 3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Permission of the instructor required prior to enrollment. Same as HIST 6312 and LAW 6596.

SOC 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ GEOG 6290/ STAT 6290.

SOC 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ GEOG 6291/ STAT 6291.

SOC 6295. Research. 1-12 Credits.

Independent study and special projects. Before permission is granted to register for SOC 6295, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. May be repeated once for credit but to no more than a total of 6 credits.

SOC 6998. Thesis Research. 3 Credits.**SOC 6999. Thesis Research. 3 Credits.**

SPANISH (SPAN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPAN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SPAN 1001. Elementary Spanish I. 3 Credits.

Development of basic functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence.

SPAN 1002. Elementary Spanish II. 3 Credits.

Continuation of SPAN 1001. Development of basic functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. SPAN 1001 is prerequisite to SPAN 1002. Laboratory fee.

SPAN 1011. Intensive Beginning Spanish: the Spanish-speaking world. 6 Credits.

Development of functional and communicative proficiency in Spanish; listening and speaking skills, reading and writing abilities, and intercultural competence. Prior study of the language is not required. Language Center fee. Restricted to undergraduate students.

SPAN 1012. Intensive Elementary Spanish: the Spanish-speaking world. 6 Credits.

Development of functional and communicative proficiency in Spanish; listening and speaking skills, reading and writing abilities, and intercultural competence. Some study of the language and achievement of the appropriate placement test score are required prior to registration. Language Center fee. Restricted to undergraduate students.

SPAN 1013. Intermediate Spanish I: the Spanish-speaking world. 3 Credits.

Development of intermediate functional and communicative proficiency in Spanish; listening and speaking skills, reading and writing abilities, and intercultural competence. Achievement of the appropriate GW placement test score may replace the prerequisite. Language Center fee. Restricted to undergraduate students. Prerequisites: SPAN 1011 or SPAN 1012.

SPAN 1014. Intermediate Spanish II: the Spanish-speaking world. 3 Credits.

Continuation of SPAN 1013. Development of intermediate functional and communicative proficiency in Spanish; listening and speaking skills, reading and writing abilities, and intercultural competence. Achievement of the appropriate GW placement test score may substitute for the prerequisite. Language Center fee. Restricted to undergraduate students. Prerequisite: SPAN 1013.

SPAN 1034. Intensive Intermediate Spanish. 6 Credits.

Equivalent to the two-semester sequence SPAN 1013-SPAN 1014 that constitutes second-year instruction in Spanish language and cultures. Focus on developing language proficiency and cross-cultural competence and awareness through a task-based approach. Restricted to undergraduate students. Prerequisites: SPAN 1012. Credit cannot be earned for this course and SPAN 1013, SPAN 1014.

SPAN 1095. The Spanish-Speaking World: Spain, Latin America, and the United States. 3 Credits.

The cross-cultural and cross-continental encounters and exchanges that produced and continue to shape the Spanish-speaking world. Themes include encounters, empire, revolution/independence, nation-building, and Latinxs in the United States. Prerequisites: None. Recommended background: None.

SPAN 1099. Variable Topics. 1-36 Credits.

SPAN 1134. Intensive Intermediate Spanish for Heritage Learners. 6 Credits.

Development of reading and writing skills and knowledge of formal aspects of Spanish; cultural topics related to Hispanics/Latinos in the United States. An appropriate score on the Spanish for Heritage Learners Placement Test may substitute for the prerequisite courses. Restricted to undergraduate students. Prerequisites: SPAN 1011 and SPAN 1012.

SPAN 2005. Advanced Spanish I. 3 Credits.

Development of advanced Spanish proficiency; argumentative speaking, and writing. Cross-cultural competence and analysis of historical, social, and cultural practices and perspectives of Spanish-speaking societies. Restricted to undergraduate students. Prerequisites: SPAN 1034.

SPAN 2006. Advanced Spanish II. 3 Credits.

Continuation of SPAN 2005. Development of advanced Spanish proficiency; argumentative speaking, and writing. Cross-cultural competence and analysis of historical, social, and cultural practices and perspectives of Spanish-speaking societies. Restricted to undergraduate students. Prerequisites: SPAN 2005. Credit cannot be earned for this course and SPAN 2026, SPAN 2156.

SPAN 2026. Advanced Spanish for Heritage Learners. 3 Credits.

Advanced course for heritage speakers. Development of advanced Spanish writing, reading and oral abilities with a focus on argumentative speaking and writing. Focus on linguistic and cultural diversity of Spanish-speaking countries and communities. Prerequisites: SPAN 1014 or SPAN 1034 or SPAN 1134 or a score on the placement examination in the 96-110 range. Credit cannot be earned for this course and SPAN 2006, SPAN 2156.

SPAN 2056. Intensive Advanced Spanish. 6 Credits.

Development of advanced Spanish proficiency. Equivalent to the combination of SPAN 2005 and SPAN 2006. Restricted to undergraduate students. Prerequisites: SPAN 1014 or SPAN 1034. Credit cannot be earned for this course and SPAN 2005, SPAN 2006.

SPAN 2156. Intensive Advanced Spanish for Heritage Learners. 6 Credits.

Advanced course for students who grew up in a home in which Spanish was spoken regularly. Students develop reading, writing, and oral abilities and build awareness of linguistic and cultural diversity of Spanish-speaking societies. An appropriate score on the placement examination may replace the prerequisite courses. Restricted to undergraduate students. Prerequisites: SPAN 1014 or SPAN 1034 or SPAN 1134.

SPAN 3005. Experiencing Cuba: Past and Present. 2 Credits.

SPAN 3010W. Advanced Spanish Writing. 3 Credits.

Designed to develop writing skills within the fields of Spanish literature and culture. Students read and discuss literary and media texts while analyzing essential features and themes of Spanish/Hispanic cultures. Cultural and literary topics are used as basis for process-writing assignments (production, correction, revision). Students develop a writing portfolio. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SPAN 2006 or SPAN 2056.

SPAN 3011. Spanish for Development Studies. 6 Credits.

SPAN 3012. Spanish for Development Studies in Chile. 3 Credits.

Critical analysis of development issues in the context of Chile's political aspiration to be seen as a developed country; integrates language and culture components in the Chilean environment through presentation of grammatical, lexical, and pragmatic tools. Restricted to students in the GW Chile program.

SPAN 3020. Spanish for Oral Communication. 3 Credits.

Development of effective strategies for oral communication and argumentation; expansion of vocabulary and register. Prerequisites: SPAN 2006 or SPAN 2056.

SPAN 3021. Advanced Spanish for Oral Communication—Latin America. 3 Credits.

For students enrolled in programs in Latin America. Prerequisite: SPAN 2006 or SPAN 2056.

SPAN 3022. Advanced Oral Proficiency: Environmental and Social Sustainability in Latin America. 3 Credits.

Development of advanced Spanish oral proficiency, critical content knowledge, terminology, and concepts through content-based coursework in the areas of environmental and social sustainability in Latin America. An appropriate placement test score may be used in place of the course prerequisite. Prerequisites: SPAN 2006 or SPAN 2506.

SPAN 3035. Spanish Language and Culture: Advanced. 3 Credits.

SPAN 3040. Advanced Spanish Service Learning. 3 Credits.

Advanced oral and written work through community engagement, with consideration of social change and reflection on civic engagement, leadership, and service. Students work on local community service projects. Laboratory fee. Prerequisites: SPAN 2006 or SPAN 2056.

SPAN 3099. Variable Topics. 1-12 Credits.

SPAN 3100. Texts and Contexts of the Spanish-Speaking World. 3 Credits.

Readings, textual analysis, writing and oral practice on a broad selection of texts and other cultural production from Spain and Latin America. Prerequisites: SPAN 2006 or SPAN 2056 or SPAN 2156. Same As: SPAN 3100W.

SPAN 3100W. Texts and Contexts of the Spanish-Speaking World. 3 Credits.

Readings, textual analysis, writing and oral practice on a broad selection of texts and other cultural production from Spain and Latin America. Prerequisites: SPAN 2006 or SPAN 2056 or SPAN 2156. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: SPAN 3100.

SPAN 3150. Hispanic Outreach and Education Practicum. 1 Credit.

Students serve as tutors and mentors to Latino students in local area schools, learning to interact effectively with members of Spanish-speaking communities in educational contexts while improving their own language skills and cultural awareness. An appropriate GW Spanish placement test score may substitute for the prerequisite. Prerequisite: SPAN 1014.

SPAN 3200. Bilingualism in the Spanish-Speaking World. 3 Credits.

Bilingualism as both individual and social phenomena in Spain, Latin America, and the United States. Analysis of language attitudes and policies and their role in the promotion of bilingualism. Restricted to undergraduate students. Prerequisites: SPAN 2006 or SPAN 2056 or SPAN 2156 or a minimum score of 111 on the Spanish placement examination.

SPAN 3400. Theatre of Spain and Latin America. 3 Credits.

Theatrical representation: presence and performance, body, voice, dialogue, and the unfolding of conflict. Theatrical traditions and movements may include Golden Age drama; neo-Classical and Romantic drama of the nineteenth century; drama of political protest; existentialist drama and the theater of the avant-gardes. Prerequisite: SPAN 3100.

SPAN 3410. Latin American Short Fiction. 3 Credits.

Short prose narratives as agents of questioning textual meaning and subverting former literary traditions. Writers may include Arenas, Borges, Cortázar, Fuentes, García Márquez, Quiroga, Peri Rossi, Ana Lydia Vega, Zapata Olivella. Prerequisite: SPAN 3100.

SPAN 3420. The Essayist Tradition in Latin America. 3 Credits.

Relations between state and nation in post-independence literary and political polemics of nineteenth-century Latin America. Topics may include the essay as a new genre for a new age; the figure of the public intellectual vis-à-vis the processes of state and nation formation; the post-colonial state and its imagined national, ethnic, racial, and economic communities. Prerequisite: SPAN 3100.

SPAN 3430. Afro-Latin America in the Diaspora. 3 Credits.

Major issues related to the diaspora of people of African descent in Latin America; racial-ethnic identity and nation, the myth of racial democracy, ties with the motherland, links with other diaspora communities, emigration, the role of the arts in these questions. Taught in Spanish. Prerequisite: SPAN 3100.

SPAN 3440. Caribbean Literature and Culture. 3 Credits.

Literary and cultural trends emanating from the Spanish-speaking Caribbean, focusing on Cuba, the Dominican republic, and Puerto Rico, with some attention to the circum-Caribbean regions of Central and South America. Taught in Spanish. Prerequisite: SPAN 3100.

SPAN 3500. Medieval Iberia in the Modern World. 3 Credits.

The presence of the Middle Ages in the modern world through study of texts and other cultural products. Topics may include multilingualism, contact and conflict between the three faiths of medieval Spain, creation of heroes, women, and sex. Prerequisite: SPAN 3100.

SPAN 3510. Heresy and the Other in Early Modern Iberia. 3 Credits.

The early modern period in Spain through the Inquisition and other related institutions as well as through artistic production. Prerequisite: SPAN 3100.

SPAN 3520. Latin American Colonial Literature. 3 Credits.

Analysis of chronicles, essays, memoirs, epistolary exchanges, and poetry contextualized vis-à-vis the medieval and Renaissance values of Imperial Spain. Authors may include Cabeza de Vaca, Bartolomé de las Casas, Colón, Cortés, Díaz del Castillo, El Inca Garcilaso de la Vega, Sor Juana Inés de la Cruz, Rodríguez Freile, Sepúlveda. Prerequisite: SPAN 3100.

SPAN 3530. Enlightenment Spain. 3 Credits.

Analysis of chronicles, essays, memoirs, epistolary exchanges, and poetry contextualized vis-à-vis the medieval and Renaissance values of Imperial Spain. Authors may include Cabeza de Vaca, Bartolomé de las Casas, Colón, Cortés, Díaz del Castillo, El Inca Garcilaso de la Vega, Sor Juana Inés de la Cruz, Rodríguez Freile, Sepúlveda. Prerequisite: SPAN 3100.

SPAN 3540. Major Authors of Spain and Latin America. 3 Credits.

Close readings of the work of a major author and application of related critical and theoretical material. Authors may include J.L. Borges, G. Garcia Marquez, Clarice Lispector, M.L. Bombal, Juan Goytisolo, Juan Rulfo, Alejo Carpentier, Mañuel Puig. Prerequisite: SPAN 3100.

SPAN 3550. Queer Latin America. 3 Credits.

Examination of queerness in Latin American as both theory and practice; how sexual and gender practices inform Latin American cultural production. Readings may include José Donoso, Manuel Puig, Pedro Lemebel, Sylvia Molloy, Gabriela Cabezón Cámara. Prerequisite: SPAN 3100.

SPAN 3570. Women Writers of Spain and Latin America. 3 Credits.

Works of well-established and more recent women writers in Spain and Latin America discussed in relation to feminist principles of criticism. Prerequisite: SPAN 3100.

SPAN 3600. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisite: SPAN 3100 .

SPAN 3650. Literature and Dictatorship. 3 Credits.

Study of the dynamic relationship between literature and politics during periods of intense social repression and censorship in Spain and/or Latin America. Issues raised in and by literature when discourse is controlled, censored, and repressed by military dictatorships. The role of culture in understanding traumatic historical events. Prerequisite: SPAN 3100 .

SPAN 3700. Cinema of Spain and Latin America. 3 Credits.

Film as a language of cultural and historical testimony in Spanish America and Spain. Topics may include the Silent Era, Surrealism, the Mexican Golden Age of the '40s, the New Cinema of the '50s, Peronist cinema in Argentina, socialist film in Cuba, and postmodern production. May be repeated for credit. Laboratory fee. Prerequisite: SPAN 3100 .

SPAN 3800. Fundamentals of Spanish Teaching and Learning. 3 Credits.

Development of skills and knowledge in teaching Spanish as a foreign language; key factors in the acquisition of a second language in the classroom setting; practical and functional aspects of the second language acquisition process. Designed primarily for future Spanish majors and minors with an interest in language teaching, but open to others. Permission of the instructor is required prior to enrollment.

SPAN 4200. Spanish Applied Linguistics. 3 Credits.

Principles and aspects of the Spanish language, as well as relevant notions of second language acquisition, technology, and assessment as applied to Spanish language teaching and learning. Taught in Spanish.

SPAN 4410. Contemporary Narrative in Latin America. 3 Credits.

Experimental fiction in Latin America, with focus on literature of the mid-1960s through the present. Authors may include Alejo Carpentier, Julio Cortázar, Diamela Eltit, Carlos Fuentes, Cabrera Infante, Lezama Lima, García Márquez, Octavio Paz, Ricardo Piglia, Elena Poniatowska, Mario Vargas Llosa. Prerequisite: SPAN 3100 .

SPAN 4450. Mexican Literature and Culture. 3 Credits.

Study and analysis of Mexico's most significant intellectual, historical, and cultural events from the Spanish Conquest of the Aztec empire to the present. Topics include the Spanish appropriation of the Aztec Empire, literature and cultural phenomena during the colonial period, the age of independence, the Mexican revolution, and contemporary Mexico. Prerequisite: SPAN 3100.

SPAN 4460. Southern Cone Literature and Culture. 3 Credits.

Study and analysis of some of the most significant writers, ideas, texts, and films of Argentina, Chile, and Uruguay. Issues of tradition, identity, representation, modernity, gender and sexuality, and literature and politics as seen in historical context. Prerequisite: SPAN 3100 .

SPAN 4480. Studies in Latinx Cultural Production. 3 Credits.

The cultural production of Latina/o ("Latinx") communities in the United States from the comparative perspective of Latin America and Spain. How a variety of linguistic, social, political, and intellectual experiences are reflected in the literary and cultural production of Latinx communities. The notion of Latinx and its application as an analytical framework. Taught in Spanish. Prerequisites: SPAN 3100 or equivalent with permission of the instructor. Recommended background: ENGL 3920 or AMST 2750W.

SPAN 4510. Cervantes Don Quixote. 3 Credits.

Issues raised in the text of Don Quijote: literature and life, words and deed, the fashioning of self, the structures of narrative, the limits and possibilities of representation, and the relation between appearance and reality, knowledge and understanding, fiction and truth. Cervantes' "invention" of the novel. Prerequisite: SPAN 3100 .

SPAN 4520. Topics in the Avant-garde. 3 Credits.

Study of the literary and artistic avant-gardes of Spain and Latin America in relation to the dialectic of enlightenment. Consideration of the avant-gardes as successful interpretations of modernity and as movements that anticipate, and in some instances instigate, the "post-modern" end of modernity. Prerequisite: SPAN 3100 .

SPAN 4540. The Myth of the Two Spains. 3 Credits.

Literature as an expression of the institutionalization of liberalism in nineteenth-century Spain and of official and popular resistance to this modernizing credo. Topics may include the romanticism of Quintana, Espronceda, Blanco-White and Becquer; the costumbrismo of Castro and Larra; the realism of Galdós; and the naturalism of Pardo Bazán and Clarín. Prerequisite: SPAN 3100.

SPAN 4550. 1898 to 1998: Spain's First Century without Empire. 3 Credits.

Spain's imperial crisis and its persistence throughout the twentieth century as a central theme in Spanish literary and intellectual culture. Decadence and regeneration; modern Spanish nationalism and cultural imperialism; Hispanicism and pan-nationalism; the Spanish Civil War, fascism, and liberalism; and the transition from fascism to democracy. Prerequisites: SPAN 3100.

SPAN 4560. Modern Poetry of Spain and Latin America. 3 Credits.

Poetry after modernism; forms and themes that characterize the work of authors such as Agustini, Guillén, Huidobro, Lezama, Mistral, Neruda, and Palés. Prerequisite: SPAN 3100 .

SPAN 4600. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs.

SPAN 4650. Literary Translation. 3 Credits.

Combination literary translation workshop and seminar on translation theory. Study of the main issues of literary translation between Spanish and English, in both directions, as seen in different writers and genres. Translation of writings on cultural, philosophic, and political issues. Prerequisite: SPAN 3100 .

SPAN 4700. Film as Text in Latin America. 3 Credits.

Filmic analysis of Latin American cinema; film as a genre of art in its own right; the particular language of cinema; relationships between written text and film; and other interdisciplinary aspects of narrative. Taught in Spanish. Prerequisite: SPAN 3100.

SPAN 4800. Independent Study. 1-4 Credits.

Permission of the department chair and instructor required prior to enrollment. May be repeated for credit. Prerequisite: SPAN 3100.

SPAN 4910W. Proseminar I. 3 Credits.

Required of all majors; preparation for the major field examination. Literature in relation to the other arts and the social sciences. Textual analysis, literary criticism, theory, and methods. Prerequisite: SPAN 3100 .

SPAN 4919. Honors Thesis Research. 1 Credit.

Students choose a topic in Spanish and Latin American literature, select a faculty advisor with specialization in the subfield, conduct research, and produce an annotated bibliography and a proposal that previews the main arguments of the thesis. Restricted to program majors with senior standing who meet the criteria for Special Honors. Prerequisites: SPAN 3100.

SPAN 4920W. Honors Thesis. 3 Credits.

Continuation of SPAN 4919. Completion of the thesis and oral presentation before Spanish program students and faculty. Approval of the Program Director is required. Restricted to Spanish majors who meet the criteria for special honors in Spanish and Latin American languages, literatures, and cultures. Prerequisites: SPAN 4919. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SPAN 5099. Variable Topics. 1-99 Credits.

SPECIAL EDUCATION (SPED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPED 0920. Continuing Research - Master's. 1 Credit.

.

SPED 0940. Continuing Research - Doctoral. 1 Credit.

.

SPED 5099. Variable Topics. 1-99 Credits.

SPED 6100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes. Credit cannot be earned for this course and CNSL 6100, CPED 6100, CPED 6199.

SPED 6101. Research and Independent Study. 1-3 Credits.

Individual study or research under guidance of staff member. Permission of the advisor required prior to enrollment. May be repeated for credit.

SPED 6201. Overview and Legal Issues in Educating Exceptional Learners. 3 Credits.

Survey course to acquaint prospective teachers with special education and to help them become aware of the various educational modifications necessary to accommodate children with special needs in a school program.

SPED 6202. Research and Current Trends in Special Education: Teacher Decision Making. 3 Credits.

Using a data-driven framework for assessing evidence-based practices in special education and competency in understanding, collecting, analyzing, and communicating relevant data.

SPED 6203. Research and Practice: Diagnostic Reading for Exceptional Learners. 3 Credits.

Understanding the reading process and knowledge of diagnostic measures and instructional interventions to promote reading competency for students with disabilities.

SPED 6210. Universal Design for Learning and Assessment. 3 Credits.

Overview and introduction to universal design for learning, including contemporary issues, applications of digital and assistive technologies, and tools for developing a comprehensive plan for implementation.

SPED 6214. Applied Research in Secondary Transition Practices. 3 Credits.

Students develop applied research knowledge and skills in the field of secondary transition; evaluate evidence-based transition practices to ensure positive post-school outcomes of youth with disabilities; and conduct, evaluate, and use inquiry to guide professional practices and interventions.

SPED 6221. Accessing Community Systems for Individuals with Disabilities. 3 Credits.

Overview of access to community systems and service delivery for individuals with special needs and their families. Material fee.

SPED 6222. Legal Issues and Public Policy for Individuals With Disabilities. 3 Credits.

Examination, interpretation, and analysis of legislation and policies affecting the education and career development of individuals with disabilities. Emphasis on federal legislation in the context of national policy reform in disability services. Material fee.

SPED 6223. Introduction to Brain Injury: Programs, Policies, and Resources. 3 Credits.

An overview of acquired brain injury and its effects; current trends in the field, related policy, research, and development of new resources.

SPED 6224. Brain Function and Impact of Brain Injury on Learning and Education. 3 Credits.

Provides an in-depth understanding of neuroanatomy related to the impact of brain injury on child and adolescent development and learning to prepare educators to participate in educational assessment and planning.

SPED 6227. Technology in Vocational Evaluation. 3 Credits.

Introduction to an array of assistive technology services and products facilitating professional interventions and vocational evaluation procedures; application to the assessment of persons with disabilities. Material fee.

SPED 6228. Community-Based Assessment and Work Sample Development. 3 Credits.

Introduction to community-based vocational appraisal methods; development of job training analysis skills, labor market surveys, work samples; requirements of The Americans with Disabilities Act; incorporation of assistive technology; classroom theory and field work. Material fee.

SPED 6229. Interpretation and Application of Academic and Vocational Assessment Information. 3 Credits.

Specific strategies and techniques to analyze, interpret, and synthesize assessment information for the development of comprehensive academic/vocational profiles for adolescents and adults with disabilities. Observation and recording procedures, report development, and postassessment conferencing are emphasized. Material fee.

SPED 6230. Vocational Assessment of Individuals with Disabilities. 3-6 Credits.

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as CNSL 6130.

SPED 6231. Curriculum and Instructional Methods in Special Education and Transition. 3 Credits.

Techniques and processes used in programming for the needs of individuals with disabilities as they prepare for inclusion at the secondary level, transition to postsecondary programs, and employment; skills related to professional liaison and support roles in the design of curriculum and instructional strategies for students with disabilities. Material fee.

SPED 6232. Foundations in Special Education, Career Development, and Transition. 3 Credits.

Overview of historical, theoretical, and philosophical foundations of career development and transition. Explores directions for career development/transition practices in the context of educational reform and social and political change. Material fee.

SPED 6233. Curriculum in Special Education. 3 Credits.

Theory and practice in planning, implementing, and evaluating curriculum for individuals with disabilities; techniques for modifying curriculum and materials for individualized programming. Field-site curriculum implementation is required. Materials fee.

SPED 6234. Seminar in Advanced Writing and Professional Presentation. 3-6 Credits.

Analysis and development of advanced professional writing skills, including literature synthesis, persuasive writing, and proposal writing. Material fee.

SPED 6235. Employment Models for Individuals with Disabilities. 3 Credits.

Rationale, occupational resources, and programming strategies for job placement and the development and coordination of employment programs for individuals with disabilities. Material fee.

SPED 6236. Introduction to Career and Career-Technical Education and Transition Services. 3-6 Credits.

Introduction to programs and services that provide career development and transition planning for individuals with disabilities. Material fee.

SPED 6237. Learning Strategies, Assessment, and Instruction for Individuals with Learning Disabilities. 3-6 Credits.

Theory and practice in evidence-based reading interventions. Learning strategies; content enhancement focused on literacy and self-determination. Material fee.

SPED 6238. Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

Introduction to the academic, cognitive, social, and emotional characteristics of individuals with learning disabilities; etiological theories; educational service delivery models, with particular emphasis on the adolescent with learning disabilities. Policy issues, continuum of services, and the transition from school to post-school environments. Material fee.

SPED 6239. Teaching and Collaboration for Professionals Working with Students with Disabilities. 3 Credits.

Attitudes and beliefs regarding team teaching, collaboration, and inclusionary environments; interpersonal communication, the dynamics of collaborative teams, and environments in which special educators work. Materials fee.

SPED 6240. Family Support and Guidance in Special Education. 3 Credits.

The developmental process of parenting and how that process is affected by having a child with developmental delay or disability. Family systems theory, stress and coping mechanisms, and communication and support strategies. Material fee.

SPED 6242. Neurodevelopmental Assessment and Programming for Infants and Toddlers with Disabilities. 3 Credits.

Application of the neurodevelopmental model to techniques for developing and implementing educational programs for infants and toddlers with disabilities. SPED 6263 or SPED 6268 may be taken as a corequisite. Material fee. Prerequisites: SPED 6263 or SPED 6268; or permission of the instructor.

SPED 6243. Developmental Assessment of Infants. 3 Credits.

Theory and current practice in the assessment of infants with or at risk for developmental disabilities. Material fee.

SPED 6244. Ethical Considerations in Neonatal and Infant Intervention. 3 Credits.

Overview of the major ethical issues involved in neonatal and infant intervention. The impact of recent and emerging technological innovations considered from medical, legal, ethical, and psychosocial perspectives. Material fee.

SPED 6245. Developmental Implications of Prematurity and Risk. 3 Credits.

Causes of prematurity. Conditions that place children at developmental and educational risk.

SPED 6253. Introduction to Autism Spectrum Disorders. 3 Credits.

Overview of autism spectrum disorders with a focus on etiology, characteristics, and evidence-based practices. Topics include defining, assessing, accommodating, and instructing students with autism spectrum disorders.

SPED 6254. Autism Spectrum Disorders and Transition to Employment and Post-Secondary Life. 3 Credits.

The policies, principles, models, and processes involved in job development, job accommodations and modifications, and employment and post-secondary placement services for individuals with autism and related disabilities. Legislation is reviewed in terms of its impact on placement of persons with autism who transition into the workplace and/or post-secondary education.

SPED 6255. Collaboration with Systems and Families. 3 Credits.

Overview of models and strategies for coordinating services across disciplines and among school and community agencies for special populations. Emphasis on interdisciplinary team coordination, communication, decision making, planning, and follow-up for individuals with disabilities. Material fee.

SPED 6260. Developmental Assessment in Special Education. 3 Credits.

Key issues of effective collaboration, culture, and school-family partnerships in special education explored through a framework of educational research best practice.

SPED 6261. Practicum: Methods and Materials for Young Children with Disabilities. 3,6 Credits.

Implementation of educational strategies and materials, including designing and developing teaching materials, classroom teaching, feedback and evaluation with professor. A seminar accompanies this clinical experience.

SPED 6262. Formal Assessment of Young Children with Disabilities. 3 Credits.

Weekly seminar designed to prepare early childhood special educators to translate formal assessment data into instructional programming. Requires fieldwork with children. Material fee. Prerequisite: SPED 6260 .

SPED 6263. Development of the Infant with Special Needs. 3 Credits.

The processes of normal infant development and interrelationships among areas of development; relationship of these processes to the growth and development of infants with or at risk for developmental disabilities. Material fee.

SPED 6264. Medical and Genetic Conditions of Infants and Children with Developmental Disabilities. 3 Credits.

Introduction to medical and genetic conditions that affect the cognitive, language, and social development of infants and children with developmental disabilities.

SPED 6266. The Development of Language and Literacy. 3 Credits.

Within the context of typical and atypical development, the impact of various disabilities on language and literacy development. Material fee.

SPED 6267. Instructional and Assistive Technology in Early Childhood Special Education. 2,3 Credits.

Instructional strategies and assistive technology and their implications and uses for young children (0 to 5 yrs) in a wide variety of environments. Lectures, laboratory, and demonstrations. Material fee.

SPED 6268. Development of Children and Youth with Disabilities. 3 Credits.

Theories of human growth and development are considered as a framework for examination of typical and atypical development of children and youth. Material fee.

SPED 6269. Etiology, Symptomatology, and Approaches to Intervention with Children with Disabilities. 3 Credits.

An in-depth examination of the causes and characteristics of various disabilities. Current principles and approaches to intervention are examined. Material fee.

SPED 6272. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as CPED 6172. Material fee.

SPED 6273. Impact of Culture on Education. 3 Credits.

The impact of culture and ethnicity on educational experiences. The relationship between school culture in the United States, one's own culture(s), and the cultures of diverse populations existing within our schools. Values, norms, rules, ethics, beliefs, attitudes, expectations, and assumptions of various cultures. Material fee.

SPED 6274. In-Service Planning/Programmng. 3 Credits.

SPED 6275. The Culturally and Linguistically Diverse Student with Disabilities: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Same as CPED 6175. Material fee.

SPED 6276. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Same as CPED 6176. Material fee.

SPED 6277. Teaching Culturally and Linguistically Diverse Students with Disabilities. 3 Credits.

Methods and materials for teaching students with disabilities who are English language learners. Classroom management, instructional and assessment strategies, materials and curricula, and collaborating with families and communities to meet the cultural, linguistic, academic, social, and emotional needs of students in various settings. Material fee.

SPED 6280. Developmental Assessment of Adolescents. 3 Credits.

Formal and informal psychoeducational assessment; assessment instruments commonly used with upper-elementary, junior, and senior high school students; the writing of psychoeducational reports. Material fee.

SPED 6283. The Urban Impact on Children and Youth with Disabilities. 3 Credits.

Effects of the total environment in which inner-city children live on their ability to learn and their cognitive, social-behavioral, and physical/health development. Material fee.

SPED 6288. Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

An in-depth examination of typical and atypical growth and development, psychiatric diagnosis and psychosocial development issues, and general and specific characteristics of the student with serious emotional disabilities. May be repeated for credit. Material fee.

SPED 6290. Affective Development and Behavior Management in Special Education. 3 Credits.

Theory, programming, and behavior management strategies from theoretical and practical points of view. Material fee.

SPED 6299. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6990. Internship in Teaching Children with Emotional and Behavioral Disabilities: Assistant Teacher. 3-6 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6991. Internship in Teaching Children with Emotional and Behavioral Disabilities: Co-Teacher. 3-6 Credits.

Continuation of SPED 6990. Graduate students become the primary teaching team in the classroom with ongoing supervision. Graduate students plan and apply psychoeducational teaching strategies with children with emotional and behavioral disabilities. Refinement of instructional and behavior management strategies. Weekly seminar continues. Material fee.

SPED 6992. Behavior Management Practicum: Adolescents with Disabilities. 3 Credits.

Field-based examination of theory of behavior development and techniques for classroom management. Material fee.

SPED 6993. Internship: Teaching Young Children with Disabilities. 3,6 Credits.

Supervised internship in early childhood special education. Weekly seminar. Material fee.

SPED 6994. Internship: Early Intervention. 3-6 Credits.

Supervised internship in early intervention. Weekly seminar. Material fee.

SPED 6995. School- and Community-Based Internship in Special Education and Transition. 1-9 Credits.

A 50- to 450-hour supervised internship in school- and community-based settings involved in career, vocational, and transition services.

SPED 6996. Teaching Internship in Transition Special Education. 3-6 Credits.

Supervised teaching internship; seminar required. Permission of the instructor required prior to enrollment. Material fee.

SPED 6997. Internship in Teaching Culturally and Linguistically Diverse Students with Disabilities. 3-6 Credits.

Supervised internship and weekly seminar. A full-time, field-based teaching experience working with students with disabilities who are English language learners. Writing an appropriate IEP, interacting with families and communities, and planning and implementing instructional approaches and strategies. Material fee.

SPED 8100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

SPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with program advisor.

SPED 8301. Research Seminar in Special Education. 1-12 Credits.

Participation in a small group with a selected faculty member; research on and discussion of an area of common interest. Permission of the instructor required prior to enrollment.

SPED 8303. Administration and Supervision of Special Education. 3 Credits.

Philosophy and nature of special education; program organization, administration, and development. Surveying local needs; program evaluation and supervision. Permission of the instructor required prior to enrollment. Material fee.

SPED 8304. Research and Trends in Special Education. 3 Credits.

Emphasis on topical research issues, problems of conducting research, and research syntheses. Material fee.

SPED 8305. Foundations of Neuroscience in Special Education. 3 Credits.

Develops understanding of the neurological bases of sensation and perception, object recognition, control of motor action, learning and memory, emotion and language, attention, consciousness and cognitive control, and social cognition.

SPED 8306. Advanced Study in Development Science and Variance I: The Early Years. 3 Credits.

Consideration of cognitive neuroscience research on developmental issues of infancy and early years; assessment, identification, and related prevention and intervention. Prerequisite: SPED 8305.

SPED 8308. Preparation for the Professoriate in Special Education. 3 Credits.

Philosophical, ethical, and methodological aspects of personnel preparation in university and field-based programs; opportunities for practice in pedagogical design and delivery. Material fee.

SPED 8310. Advanced Study in Development Science and Variance II: The Later Years. 3 Credits.

Consideration of cognitive neuroscience research on adolescent development, including executive functioning, self-regulation, atypicality in learning, social and emotional behavior, motivation, and attention. Prerequisite: SPED 8306.

SPED 8311. Doctoral Proseminar: Scholarly Writing in Applied Settings. 3 Credits.

Professional writing enrichment course that builds upon recent approaches to scholarly writing instruction and adapts them to the level of skill required of graduate and advanced graduate students. Prerequisite: SPED 8310.

SPED 8343. Psychoeducational Diagnosis in Special Education. 3 Credits.

The range of diagnostic and intervention strategies applicable to the student who presents psychosocial and related learning difficulties. Permission of the instructor required prior to enrollment. Material fee.

SPED 8345. Consultation and the Change Process. 3 Credits.

Consultation models from organizational development, organizational psychology, and mental health applied to professional practice in education and special education. Material fee.

SPED 8352. Disability and Public Policy. 3 Credits.

Overview of current legislation and public policy affecting education, employment, and civil rights of individuals with disabilities. The evolution of disability policies and their relationship to principles of social justice. Material fee.

SPED 8353. Post-Master's Internship in Special Education. 1-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, or policymaking. Internships are individually arranged. Permission of the instructor required prior to enrollment.

SPED 8354. Doctoral Internship: Special Education. 1-6 Credits.

Supervised professional internship in research college teaching, administration, policymaking, or private agency function. Permission of the advisor required prior to enrollment.

SPED 8360. Interdisciplinary Techniques in the Diagnostic Process in Special Education. 3 Credits.

Application of theoretical concepts of assessment; development of assessment programs; interpretation and application of interdisciplinary diagnostic evaluations. Material fee. Prerequisites: SPED 6260 and permission of the instructor.

SPED 8998. Doctoral Seminar in Special Education. 3-6 Credits.

Review of literature in a topical area; preparation of a dissertation proposal and a manuscript of publishable quality. Permission of the instructor and major advisor required prior to enrollment. Material fee.

SPED 8999. Dissertation Research. 3,6 Credits.

Prerequisite: SPED 8998.

SPEECH AND HEARING SCIENCE (SPHR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPHR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SPHR 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance. Laboratory fee.

SPHR 1071. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1071W. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SPHR 1072. Multicultural Issues in Human Communication. 3 Credits.

The influences of culture and bilingualism on language development and use, and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

SPHR 1081. American Sign Language I. 3 Credits.

Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills.

SPHR 1082. American Sign Language II. 3 Credits.

Continuation of SPHR 1081. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1081.

SPHR 1084. Perspectives in Deaf Culture. 3 Credits.

Introduction to the Deaf community as a linguistic and cultural minority group. The roles of deaf people in the larger society, including political activism. Generational differences concerning education, socioeconomic status, medical issues, and language.

SPHR 1099. Variable Topics. 1-36 Credits.

SPHR 2083. American Sign Language III. 3 Credits.

Continuation of SPHR 1082. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1082.

SPHR 2101. Research Methods. 3 Credits.

Introduction to fundamental research principles (e.g., hypothesis testing, sampling, validity and reliability), designs (e.g., experiments, case studies), and methods (e.g., behavioral observations, acoustic and physiologic measurements, neuro-imaging) used in the study of speech, language, and hearing. Prerequisites: SPHR 1071.

SPHR 2102. Neural Substrates-SpHr & Lang. 3 Credits.

SPHR 2104. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2104W. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SPHR 2105. Anatomy and Physiology for Speech and Hearing. 3 Credits.

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; cranial nerves.

SPHR 2106. Neural Substrates of Speech, Language, and Hearing. 3 Credits.

Neuroanatomy and neurophysiology for speech, language and hearing. Anatomy of the auditory and vestibular systems; physiology of hearing.

SPHR 2107. Acoustics. 3 Credits.

This course focuses on speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. Recommended background: Prior or concurrent registration in SPHR 2105 and SPHR 2136. Credit cannot be earned for this course and SLHS 2107.

SPHR 2108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. SPHR 2106 may be taken as a corequisite. Laboratory fee. Prerequisites: SPHR 2106 and SPHR 2107.

SPHR 2117. Hearing and Perception. 3 Credits.

Consideration of the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Topics in speech perception that build upon psychoacoustics and speech acoustics. Prerequisite: SPHR 2108.

SPHR 2130. Phonetics and Phonological Development. 3 Credits.

Detailed study of English phonetics and phonology; prespeech vocalization and phonological development; multicultural issues in phonological development; intensive practice in phonetic transcription. SPHR 2105 may be taken as a corequisite. Laboratory fee. Prerequisite: SPHR 2105.

SPHR 2131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisite: SPHR 2135.

SPHR 2132. Literacy. 3 Credits.

An overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Prerequisites: SPHR 1071 or SPHR 1071W.

SPHR 2133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SPHR 2135. Language: Structure, Meaning, and Use. 3 Credits.

A survey of basic linguistic terminology and the components of language structures. Major topics include language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics). Credit cannot be earned for this course and LING 3603.

SPHR 3099. Variable Topics. 1-12 Credits.

SPHR 3109. Auditory Learning/Aural Rehabilitation. 3 Credits.

Introduction to theories and procedures used to provide aural and audiological (re)habilitation to children and adults who have hearing loss and to provide concomitant services to their family members; assessment and prosthetic management of children and adults with hearing loss; effects of hearing loss on conversational fluency and everyday speech communication; and means for developing aural rehabilitation plans and assessing their effectiveness. Corequisite: SPHR 2108. Prerequisite: none. Recommended background: major in speech, language and hearing sciences.

SPHR 3116. Brain and Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. SPHR 2106 may be taken as a corequisite. Prerequisite: SPHR 2106.

SPHR 3199. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

SPHR 4118. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Laboratory fee. Prerequisite: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4118W. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4119. Principles and Methods in Speech-Language Pathology. 3 Credits.

Survey of evaluation and treatment of communication disorders across the lifespan, including: ethics, test administration, interpretation, intervention procedures, and clinical writing. Emphasis on clinical scenarios and practice. Restricted to seniors majoring in speech, language and hearing sciences. Laboratory fee. Restricted to seniors majoring in speech, language and hearing sciences.

SPHR 4120. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

SPHR 4120W. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

SPHR 4196. Independent Study. 1-6 Credits.

Independent research and special projects. Before students are permitted to register for SPHR 4196, they must submit a written proposal of the plan of study and obtain approval of the staff member who directs the study and of the department chair.

SPHR 4201. Early Social and Cognitive Development. 3 Credits.

Infants' understanding of social concepts and how these concepts influence the development of memory, attention, and executive functions; children's ability to imitate across different domains and how children's social concepts and social learning abilities underlie language and culture. Prerequisites: SPHR 1071 or SPHR 1071W.

SPHR 4221. Language and Communication in Aging. 2 Credits.

Communication and swallowing abilities in older adults; distinguishing the normal changes of aging from pathological symptoms to better assess older patients' capabilities and provide more effective intervention.

SPHR 5099. Variable Topics. 1-99 Credits.

SPHR 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated for up to 6 credits.

SPHR 6202. Clinical Practicum in Audiology. 1-6 Credits.

Supervised clinical practice in behavioral and electrophysiologic assessment of hearing, hearing aid assessment and fitting, and aural rehabilitation; counseling clients and families; writing evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated, but may not be taken for more than 6 credits.

SPHR 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.

SPHR 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions.

SPHR 6210. Research in Communication Sciences and Disorders. 1,3 Credit.

Fundamental issues and methods in clinical research; group and single-subject experimental designs; application of clinical research methodology and findings to assessment and treatment. Non-thesis students register for 3 credits; thesis students register for 1 credit concurrent with SPHR 6211. Restricted to graduate students in the speech and hearing science program.

SPHR 6211. Preparing the Thesis Prospectus. 2 Credits.

For first-year graduate students. Introduction to the fundamentals of quantitative research design and procedures in the speech and hearing sciences. Critical evaluation of research in speech and hearing sciences; scientific writing skills; the process and expectations for conducting thesis research. Students register for SPHR 6210 for 1 credit. Restricted to speech and hearing sciences master's thesis students.

SPHR 6220. Disorders of Articulation and Phonology. 3 Credits.

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Laboratory fee.

SPHR 6221. Neurodevelopmental Disorders of Speech Production. 2 Credits.

Evaluation and treatment of infants and children with neurodevelopmental speech disorders, including cerebral palsy. Emphasis on management of prespeech oral motor and feeding impairments. Laboratory fee.

SPHR 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Laboratory fee.

SPHR 6230. Pediatric Language and Speech Disorders I. 3 Credits.

Survey of current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Review of standardized, observational, and ethnographic approaches used in language assessment; current models of intervention and service delivery. Laboratory fee.

SPHR 6231. Pediatric Language and Speech Disorders II. 3 Credits.

SPHR 6240. Neurogenic Communication Disorders. 3 Credits.

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasia acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Laboratory fee.

SPHR 6241. Applied Neuroanatomy. 3 Credits.

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Laboratory fee.

SPHR 6250. Eval/Treatment-Speech Disorder. 3 Credits.

SPHR 6251. Seminar: Speech Fluency Disorders. 3 Credits.

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial points of view. Investigation of evidence-based approaches to assessment and treatment.

SPHR 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Laboratory fee.

SPHR 6261. Seminar: Voice Disorders. 2 Credits.

SPHR 6276. Aural Rehabilitation. 3 Credits.

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Laboratory fee.

SPHR 6277. Psychoeducational Management of Children With Hearing Impairment. 3 Credits.

SPHR 6281. Dysphagia. 2 Credits.

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination and radiologic methods; treatment. Laboratory fee.

SPHR 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.

Principles of assessment, development, and selection of augmentative and alternative communication systems; application through case studies. Computer applications, including review of selected hardware and software and selection criteria. Laboratory fee.

SPHR 6283. Multicultural Perspectives in Communication Development and Disorders. 2 Credits.

Application of culturally appropriate and theoretically based speech and language procedures to clinical assessment and intervention with multilingual/multicultural populations.

SPHR 6284. Autism. 2 Credits.

The various facets of Autism Spectrum Disorder (ASD); clinical aspects and how speech-language pathologists are involved in the assessment, diagnosis, and treatment of ASD; the relationship between typical cognitive and brain development throughout the lifespan and how it is manifested in ASD. Restricted to graduate students.

SPHR 6290. Selected Topics in Clinical Audiology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues. May be repeated, but may not be taken for more than a total of 6 credits.

SPHR 6291. Selected Topics in Speech-Language Pathology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues regarding various aspects of practice in speech-language pathology. May be repeated but not for more than a total of 6 credits.

SPHR 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.

SPHR 6998. Thesis Research. 2 Credits.

SPHR 6999. Thesis Research. 2 Credits.

SPEECH, LANGUAGE, AND HEARING SCIENCE (SLHS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SLHS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SLHS 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance.

SLHS 1071. Foundations of Human Communication. 3 Credits.

Fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SLHS 1071W. Foundations of Human Communication. 3 Credits.

Fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and SLHS 1071.

SLHS 1072. Multicultural Issues in Human Communication. 3 Credits.

The influences of culture and bilingualism on language development and use, and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

SLHS 1081. American Sign Language I. 3 Credits.

The purpose of this course is to enable students to begin acquiring proficiency in American Sign Language (ASL) through a linguistic, communicative, and cultural approach to language learning. Emphasis is placed on the development of receptive and expressive signing skills and on the acquisition of the fundamentals of applied grammar.

SLHS 1082. American Sign Language II. 3 Credits.

The purpose of this course is to enable students to enhance proficiency in American Sign Language (ASL) through a linguistic, communicative, and cultural approach to language learning. There is a continued emphasis on the development of receptive and expressive signing skills and on the acquisition of the fundamentals of applied grammar; cross-cultural understanding is fostered and real-life applications are emphasized throughout the course. Prerequisites: SPHR 1081.

SLHS 1084. Perspectives in Deaf Culture. 3 Credits.

Analysis and evaluation of the roles and impact of deaf people in various spheres, including history, education, communication, technology, political activism, and current events. Credit cannot be earned for this course and SPHR 1084.

SLHS 2083. American Sign Language III. 3 Credits.

We will focus mainly on grammatical features including non-manual signals (i.e., facial expression and inflection), semantics, and syntax. Through assignments inside and outside of classroom, cultural perspectives of the Deaf Community will be examined and discussed; this class is taught primarily in ASL. Prerequisites: SPHR 1082.

SLHS 2101. Research Methods. 3 Credits.

Introduction to fundamental research principles, designs, and methods used in the study of speech, language, and hearing. A related course in anthropology or psychology may be substituted for the prerequisite. Prerequisites: SPHR 1071 or SLHS 1071.

SLHS 2104. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SLHS 2104W. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SLHS 2105. Anatomy and Physiology for Speech and Hearing. 3 Credits.

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; cranial nerves.

SLHS 2106. Neural Substrates of Speech, Language, and Hearing. 3 Credits.

Neuroanatomy and neurophysiology for speech, language and hearing. Anatomy of the auditory and vestibular systems; physiology of hearing.

SLHS 2107. Acoustics. 3 Credits.

Speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. The prerequisite courses may be taken concurrently. Recommended background: Prior completion of SLHS 2105 or SPHR 2105; and SLHS 3136, or SPHR 2136, or SPHR 3136. Credit cannot be earned for this course and SPHR 2107.

SLHS 2108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. SPHR 2106 may be taken as a corequisite. Laboratory fee. Prerequisites: SPHR 2106 and SPHR 2107.

SLHS 2131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Prerequisite: SPHR 2135.

SLHS 2133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SLHS 2135. Language: Structure, Meaning, and Use. 3 Credits.

Survey of basic linguistic terminology and the components of language structures. Language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics).

SLHS 2136. Phonetics. 2 Credits.

Overview of phonetics of American English and an introduction to sounds of languages of the world. General principles of phonetic description and analysis, speech production mechanisms, classification of consonants and vowels of English and other languages, suprasegmental aspects of speech, and acoustic characteristics of speech sounds. Allophonic variation and phonetic characteristics of connected speech and social and regional phonetic variation. Instruction and practice in transcription using the International Phonetic Alphabet.

SLHS 3108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, nature and causes of hearing impairment, hearing aids, and habilitation/rehabilitation of the hearing impaired. Corequisites: SLHS 2016.

SLHS 3109. Auditory Learning and Aural Rehabilitation. 3 Credits.

Introduction to the theories and procedures used to provide aural and audiological (re)habilitation to children and adults who have hearing loss, and to provide concomitant services to their family members. Credit cannot be earned for this course and SPHR 3109.

SLHS 3116. Brain and Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Prerequisites: SLHS 2106 or SPHR 2106. Corequisites: SLHS 2106 may be taken concurrently. Credit cannot be earned for this course and PSYC 3116, SPHR 3116.

SLHS 3117. Hearing and Perception. 3 Credits.

Acoustics and anatomy/physiology of auditory mechanism and the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Psychoacoustics and speech acoustics and speech perception. Prerequisites: SLHS 2108 or SPHR 2108. Credit cannot be earned for this course and SPHR 2117.

SLHS 3131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Prerequisites: One of the following: SLHS 1071, SLHS 1071W, SPHR 1071, SPHR 1071W, SLHS 2135, or SPHR 2135.

SLHS 3132. Literacy. 3 Credits.

Overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Prerequisites: SLHS 1071 or SLHS 1071W or SPHR 1071 or SPHR 1071W. Credit cannot be earned for this course and SPHR 2132.

SLHS 3133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SLHS 3136. Phonetics. 2 Credits.

Overview of phonetics of American English and an introduction to sounds of languages of the world. General principles of phonetic description and analysis, speech production mechanisms, classification of consonants and vowels of English and other languages, suprasegmental aspects of speech, and acoustic characteristics of speech sounds. Allophonic variation and phonetic characteristics of connected speech and social and regional phonetic variation. Instruction and practice in transcription using the International Phonetic Alphabet.

SLHS 3199. Selected Topics. 3 Credits.

Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

SLHS 4118W. Senior Research Seminar in Communication Sciences and Disorders. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Restricted to students majoring in speech, language and hearing sciences with a concentration in communication sciences and disorders. Prerequisites: One of the following: SPHR 1071, SPHR 1071W,, SPHR 2104, or SPHR 2104W. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SLHS 4119. Principles and Methods in Speech-Language Pathology. 3 Credits.

Assessment of speaker-listener behavior; acoustic, behavioral, and linguistic properties of speaker intelligibility and credibility; observation, analysis, and modification of speech and language comprehension and expression. Restricted to department majors in their senior year.

SLHS 4196. Independent Study. 1-6 Credits.

Independent research and special projects. Prior to enrollment, students must submit a written proposal of the plan of study and obtain the approval of the staff member who directs the study and of the department chair.

SLHS 4201. Social Communication Development. 3 Credits.

Infants' understanding of social concepts such as agency, belief, goals, and relationships. How these social concepts develop in relationship with and independently of children's learning and communication skills. Children's ability to imitate across many different domains and tasks. Prerequisites: One of the following: SPHR 1071, SPHR 1071W, SLHS 1071, or SLHS 1071W.

SLHS 4221. Language and Communication in Aging. 2-3 Credits.

Aging from a variety of perspectives, including demographic descriptions of aging, the physiological and functional changes that happen as part of the aging process, considerations of end-of-life issues, and counseling the elderly. Same As: SLHS 6292. Credit cannot be earned for this course and SPHR 4221.

SLHS 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Permission of the instructor is required prior to enrollment. Restricted to graduate students in the speech-language pathology program.

SLHS 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.

Current professional issues and leading edge research topics in the speech and hearing science field. Professional and clinical issues in the assessment and treatment of speech-language functioning relevant to a range of disorders across the life-span. Communication, ethics, and multicultural issues in communication and service delivery. Restricted to graduate students in the speech-language pathology program.

SLHS 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions. Restricted to graduate students in the speech-language pathology program.

SLHS 6210. Research in Communication Sciences and Disorders. 1,3 Credit.

Fundamental issues and methods in clinical research; group and single-subject experimental designs; application of clinical research methodology and findings to assessment and treatment. Students who are not writing a thesis register for 3 credits. Students who are writing a thesis register for 1 credit and register concurrently in SPHR 6211 for 2 credits. Restricted to graduate students in the speech-language pathology program.

SLHS 6211. Preparing the Thesis Prospectus. 2 Credits.

The fundamentals of quantitative research design and procedures in the speech and hearing sciences. Critical evaluation of research in speech and hearing sciences; scientific writing skills; process and expectations for conducting research. Restricted to graduate students in the speech-language pathology program. Corequisites: SPHR 6210 for 1 credit.

SLHS 6220. Disorders of Articulation and Phonology. 3 Credits.

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Restricted to graduate students in the speech-language pathology program.

SLHS 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Restricted to graduate students in the speech-language pathology program.

SLHS 6230. Pediatric Language and Speech Disorders I. 3 Credits.

Current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Standardized, observational, and ethnographic approaches used in language assessment and current models of intervention and service delivery. Restricted to graduate students in the speech-language pathology program.

SLHS 6231. Pediatric Language and Speech Disorders II. 3 Credits.

Advanced study of selected theoretical and clinical issues relevant to various aspects of practice in speech-language pathology involving pediatric populations. Medically complex acquired and developmental school age and adolescent language disorders and their educational and life care planning impacts. Restricted to graduate students in the speech-language pathology program.

SLHS 6240. Neurogenic Communication Disorders. 3 Credits.

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasia acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Restricted to graduate students in the speech-language pathology program.

SLHS 6241. Applied Neuroanatomy. 3 Credits.

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Restricted to graduate students in the speech-language pathology program.

SLHS 6251. Speech Fluency Disorders Seminar. 3 Credits.

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial perspectives. Investigation of evidence-based approaches to assessment and treatment. Restricted to graduate students in the speech-language pathology program.

SLHS 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Restricted to graduate students in the speech-language pathology program.

SLHS 6276. Aural Rehabilitation. 3 Credits.

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Prerequisites: graduate students in the speech-language pathology program.

SLHS 6281. Dysphagia. 2 Credits.

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination, and radiologic methods. Treatment. Restricted to graduate students in the speech-language pathology program.

SLHS 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.

Overview of augmentative and alternative communication systems (AAC) and the process of selecting and implementing these systems for children and adults. Basic processes; issues related to individuals with developmental disabilities who require AAC services; and AAC for those with acquired communication disabilities.

SLHS 6284. Autism. 2 Credits.

The various facets of Autism Spectrum Disorder (ASD); clinical aspects and how speech-language pathologists are involved in the assessment, diagnosis, and treatment of ASD. The relationship between typical cognitive and brain development throughout the lifespan and how it is manifested in ASD. Restricted to graduate students in the speech-language pathology program.

SLHS 6291. Special Topics in Speech-Language Pathology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues related to aspects of practice in speech-language pathology. Topics vary by semester. May be repeated for a maximum total of 6 credits provided the topic differs. Consult the Schedule of Classes for more details.

SLHS 6292. Language and Communication in Aging. 2-3 Credits.

Aging from a variety of perspectives, including demographic descriptions of aging, the physiological and functional changes that happen as part of the aging process, considerations of end-of-life issues, and counseling the elderly. Same As: SLHS 4221. Credit cannot be earned for this course and SPHR 4221.

SLHS 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.

Independent study under the guidance of a faculty advisor. May be repeated for credit.

SLHS 6998. Thesis Research. 2 Credits.

May be repeated for credit. Restricted to graduate students in the speech-language pathology program.

SLHS 6999. Thesis Research. 2 Credits.

May be repeated for credit. Restricted to graduate students in the speech-language pathology program.

SLHS 8100. Communication Disorders Across the Lifespan. 3 Credits.

The study of communication disorders across the lifespan. Communication, language, speech, cognition, and swallowing in developmental and acquired disorders. Restricted to doctoral students in the speech, language, and hearing sciences program.

SLHS 8200. Research Methods and Ethics and Grant Writing. 3 Credits.

Knowledge and skills related to development and dissemination of research and to grant writing and development in communication sciences and disorders.

SLHS 8201. Research Rotation. 2 Credits.

Students gain experience working in another laboratory and establish and cultivate professional collaborations. Students become involved in one of the research projects in the lab, playing a role in the research process. The expected outcome of the rotation is participation in a research project and submission of a presentation or paper on the project, as agreed upon by the research mentor and student, and approved by the student's advisory committee. Restricted to doctoral students in the speech, language, and hearing sciences program.

SLHS 8202. Teaching Rotation. 2 Credits.

Mentored teaching experience under the direction of faculty member in the Department of Speech, Language, and Hearing Sciences. Students give lectures, evaluate student performance, attend periodic discussions on pedagogy, and write a teaching philosophy. Restricted to doctoral students in the speech, language, and hearing sciences program.

SLHS 8203. Doctoral Seminar Leadership. 2 Credits.

Students are provided with opportunities for leadership within the department's research community. Students plan and carry out the department's monthly research seminar series, including inviting speakers, coordinating speaker visits, and advertising the presentations to the greater GW and DC communities. Students participate in faculty-led discussions on leadership topics and make presentations. Restricted to doctoral students in the speech, language, and hearing sciences program.

SLHS 8300. Statistical Applications for Translational Research. 3 Credits.

Interactive statistical analyses in the R programming environment with focus on research problems with psycholinguistics, speech perception, speech productions, language, and neuroimaging data, using approaches that include mixed models, generalized mixed models, nested model testing, and visualization through graphical facilities.

SLHS 8999. Dissertation Research. 3-9 Credits.

For students who have progressed to candidacy. Restricted to doctoral students in the speech, language, and hearing sciences program.

STATISTICS (STAT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

STAT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

STAT 1051. Introduction to Business and Economic Statistics. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, probability distributions, sampling, estimation, tests of hypotheses, regression and correlation, with applications to business. Credit cannot be earned for this course and STAT 1053, STAT 1111, STAT 1127.

STAT 1053. Introduction to Statistics in Social Science. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, sampling, estimation, tests of hypotheses, regression and correlation, with applications to social sciences. Credit cannot be earned for this course and STAT 1051, STAT 1111, STAT 1127.

STAT 1099. Variable Topics. 1-36 Credits.**STAT 1111. Business and Economic Statistics I. 3 Credits.**

Descriptive statistics, graphical methods, probability, special distributions, random variables, sampling, estimation and confidence intervals, hypothesis testing, correlation and regression. Credit cannot be earned for this course and STAT 1051, STAT 1053, STAT 1127.

STAT 1127. Statistics for the Biological Sciences. 3 Credits.

Introduction to statistical techniques and reasoning applicable to the biomedical and related sciences. Properties of basic probability functions: binomial, Poisson, and normal. Data analysis, inference, and experimental design. Credit cannot be earned for this course and STAT 1051, STAT 1053, STAT 1111.

STAT 1129. Introduction to Computing. 3 Credits.

Introduction to elements of computer programming and problem-solving using a computer programming language. Hands-on experience is acquired through computer programming projects, including some simple statistical applications.

STAT 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

STAT 2112. Business and Economic Statistics II. 3 Credits.

Continuation of STAT 1111. Emphasis on techniques of regression, chi-square, nonparametric inference, index numbers, time series, decision analysis, and other topics relevant to economics and business. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111.

STAT 2118. Regression Analysis. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Simple and multiple linear regression, partial correlation, residual analysis, stepwise model building, multicollinearity and diagnostic methods, indicator variables. Prerequisites: STAT 1051, 1053 and STAT 1111.

STAT 2123. Introduction to Econometrics. 3 Credits.

Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231; and STAT 1051 or STAT 1053 or STAT 1111. Same As: ECON 2123.

STAT 2183. Intermediate Statistics Lab/Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisites: An introductory statistics course.

STAT 2183W. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: An introductory statistics course.

STAT 3099. Variable Topics. 1-12 Credits.**STAT 3119. Analysis of Variance. 3 Credits.**

Lecture (3 hours), laboratory (1 hour). Introduction to the design of experiments and analysis of variance; randomized block, factorial, Latin square designs, and analysis of covariance. Prerequisite: STAT 2118.

STAT 3187. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051 .

STAT 3187W. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: STAT 1051. Same As: STAT 3187.

STAT 4157. Introduction to Mathematical Statistics I. 3 Credits.

Basic concepts of probability theory, including random variables, independence, distribution theory, and sampling theory. Prerequisite: MATH 1232 .

STAT 4158. Introduction to Mathematical Statistics II. 3 Credits.

Continuation of STAT 4157. Inference procedures, including estimation, hypothesis testing, regression analysis, and experimental design. Prerequisite: MATH 1232 .

STAT 4181. Applied Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate time series. Estimation of spectral density functions, white noise tests, and tests for periodicities. Theory and applications using statistical software. Prerequisites: STAT 4157 and STAT 4158 or STAT 2118.

STAT 4188. Nonparametric Statistics Inference. 3 Credits.

Statistical inference when the form of the underlying distribution is not fully specified. Nonparametric procedures for estimation and testing hypotheses. An introduction to robust procedures. Prerequisite: STAT 1051.

STAT 4189. Mathematical Probability and Applications I. 3 Credits.

Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4190. Mathematical Probability and Applications II. 3 Credits.

Continuation of STAT 4189. Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4195. Reading and Research. 1-12 Credits.

May be repeated once for credit. Permission of the department chair required prior to enrollment.

STAT 4197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing; data modification, programming, file handling, and macro writing. Students are expected to have knowledge of computer programming and to have completed an introductory statistics course. Credit cannot be earned for both STAT 4197 and STAT 6197.

STAT 4198. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

STAT 5099. Variable Topics. 1-99 Credits.**STAT 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.**

Introductory study of statistical techniques for research problems. For graduate students in fields other than statistics who have no previous statistics training. May not be taken by graduate students in statistics.

STAT 6197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing. Data modification, programming, file handling, and macro writing. Recommended background: An introductory statistics course and knowledge of computer programming. Credit cannot be earned for this course and STAT 4197.

STAT 6201. Mathematical Statistics I. 3 Credits.

Basic Probability theory, Random variables and transformations, Common families of distribution, Conditional expectations and distributions, Bivariate and Multivariate distributions and transformations, Sampling distributions. Prerequisites: MATH 2233 and MATH 2184.

STAT 6202. Mathematical Statistics II. 3 Credits.

Continuation of STAT 6201. Order Statistics, Convergence concepts, Sufficient and Complete statistics, Likelihood Principle, Point and Interval Estimation, Hypothesis Testing, Bayesian Tests and Intervals. Prerequisites: MATH 2233, MATH 2184 and STAT 6201.

STAT 6207. Methods of Statistical Computing I. 3 Credits.

Error analysis, computational aspects of linear models, sweep operator, random number generation, simulation, resampling. Optimization, numerical integration (Gaussian quadrature, Simpson's rule); E-M algorithm. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

STAT 6208. Methods of Statistical Computing II. 3 Credits.

Numerical linear algebra, matrix decomposition and eigenvalue problems. Smoothing and density estimation. Graphics, interactive and dynamic techniques for data display. Object-oriented programming. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

STAT 6210. Data Analysis. 3 Credits.

Review of statistical principles of data analysis, using computerized statistical procedures. Multiple regression and the general linear model, analysis of contingency tables and categorical data, logistic regression for qualitative responses. Prerequisites: STAT 2118 or STAT 4157 or STAT 6201; and STAT 2183.

STAT 6213. Intermediate Probability and Stochastic Processes. 3 Credits.

Discrete and continuous random variables and their distributions, conditional distributions and conditional expectation, generating functions and their applications, convergence of random variables; introduction to Brownian motion, homogeneous and nonhomogeneous Poisson processes and martingales. Prerequisites: STAT 6201 and STAT 6202.

STAT 6214. Applied Linear Models. 3 Credits.

Introduction to regression techniques for discrete and continuous response variables. The course includes a computing component using SAS and S> Prerequisite: MATH 2233 and MATH 2184.

STAT 6215. Applied Multivariate Analysis I. 3 Credits.

Statistical analysis of several variables, possibly dependent, following a joint normal distribution. matrix algebra and random vectors, multivariate sample geometry, multivariate normal distribution, inferences about a mean vector, and comparisons of several population means. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 4157 and STAT 4158; and MATH 2184.

STAT 6216. Applied Multivariate Analysis II. 3 Credits.

Continuation of STAT 6215. Statistical analysis of random vectors, following a multivariate normal distribution. multivariate linear regression models, principal components, factor analysis, inference for structured covariance matrices, canonical correlations, discrimination and classification, clustering and distance methods. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 3119, STAT 4157 and STAT 4158; and MATH 2184.

STAT 6217. Design of Experiments. 3 Credits.

Design and analysis of single- and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, response surface experimentation. Prerequisites: STAT 4157 and STAT 4158; and MATH 2184.

STAT 6218. Linear Models. 3 Credits.

Theory of the general linear parametric model. Includes least squares estimation, multiple comparisons procedures, variance components estimation. Prerequisites: STAT 6201, STAT 6202, STAT 2118 and MATH 2184.

STAT 6223. Bayesian Statistics: Theory and Applications. 3 Credits.

An overview of Bayesian statistics, including its foundational issues, decision under uncertainty, linear models, expert opinion, and computational issues. Prerequisites: STAT 6201 and STAT 6202.

STAT 6225. Longitudinal Data Analysis. 3 Credits.

Introduction to the statistical models, estimation methods, and inferences for the analysis of longitudinal data; modern methods for the analysis of repeated measures as well as parametric and nonparametric regression models for longitudinal analysis. Restricted to master of science and doctoral program candidates. Prerequisites: Stat 2118, Stat 6201 and Stat 6202.

STAT 6227. Survival Analysis. 3 Credits.

Parametric and nonparametric methods for the analysis of events observed in time (survival data), including Kaplan-Meier estimate of survival functions, logrank and generalized Wilcoxon tests, the Cox proportional hazards model and an introduction to counting processes. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

STAT 6231. Categorical Data Analysis. 3 Credits.

A study of the theoretical bases underlying the analysis of categorical data. Measures and tests of association; Mantel-Haenszel procedure; weighted least squares and maximum likelihood estimators in linear models; generalized linear models including Poisson and logistic regression models, generalized estimating equations; random effects models. Prerequisites: Graduate level mathematical statistics courses - STAT 6201 and STAT 6202. Recommended background: Courses in Mathematical Statistics and Linear Models.

STAT 6233. Questionnaire Design. 3 Credits.

Questionnaire development from the perspective of cognitive techniques. Questionnaire issues range from choosing the mode of data collection (mail, telephone, or in-person) to selecting the respondent to the differences between asking attitude and factual questions. Pretesting the instrument chosen.

STAT 6234. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. This course is specifically designed for SDDA program
Prerequisites: An introductory statistics course.

STAT 6236. Applied Sampling Techniques. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistage designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051.

STAT 6238. Survey Management. 3 Credits.

Tools used in the management of a survey operation from the initial customer contacts through training, fieldwork, data processing, data analysis, report writing, and presentation of results. Issues in budgeting, staffing, and scheduling, with emphasis on quality management.

STAT 6240. Statistical Data Mining. 3 Credits.

Introduction to basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Students are expected to be familiar with R programming. Restricted to statistics majors or with the permission of the instructor. Prerequisites: STAT 6201, STAT 6202, and STAT 6214 or equivalents. Recommended background: coursework in mathematical statistics, applied linear models, and multivariate statistics.

STAT 6242. Modern Regression Analysis. 3 Credits.

Methodology, major software tools and applications of modern nonparametric methods. Regularized regression: shrinkage, ridge and lasso; nonparametric regression: kernels and splines; nonparametric classification: K-Nearest Neighbors and Decision Trees; resampling methods: bootstrap, boosting and bagging. Prerequisites: STAT 6201 or STAT 6202 or STAT 6214 or STAT 6218.

STAT 6245. Statistical Consulting. 3 Credits.

This course focuses on the following themes: (i) understanding the statistical consulting process; (ii) developing effective verbal and written communication skills; (iii) comprehending consulting environments in different industries; and (iv) obtaining consulting experience through case studies. Prerequisites: STAT 6201, STAT 6202, STAT 6214 and STAT 6215. Recommended background: second-year status in the graduate statistics or biostatistics program.

STAT 6252. Statistical Methods in Bioinformatics and Computational Biology. 3 Credits.**STAT 6253. Legal Statistics. 3 Credits.****STAT 6254. Statistical Genetics. 3 Credits.**

Theories of population genetics and Mendelian genetics, Hardy-Weinberg equilibrium and linkage disequilibrium, statistical software (R or SAS) for linkage analysis and association analysis, research in statistical genetics. Prerequisites: STAT 6201 and STAT 6202.

STAT 6255. Clinical Trials. 3 Credits.

Introduction to the design and analysis of clinical trials. Clinical trials as a tool for medical research; phases and endpoints; the role of randomization, power, and sample size; statistical analysis of data; interim analysis and data monitoring. Recommended background: Knowledge of basic design of experiments, mathematical statistics (probability and inference), and familiarity with R and SAS.

STAT 6287. Sample Surveys. 3 Credits.

Application of statistical theory to the sampling of finite populations. Simple, stratified, cluster, double and subsampling. Special topics, including super-populations and randomized response. Prerequisites: STAT 4157 and STAT 4158.

STAT 6289. Topics in Statistics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

STAT 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290.

STAT 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291.

STAT 6295. Reading and Research. 3 Credits.

May be repeated once for credit.

STAT 6298. Seminar: Special Topics. 3 Credits.**STAT 6998. Thesis Research. 3 Credits.****STAT 6999. Thesis Research. 3 Credits.****STAT 8226. Advanced Biostatistical Methods. 3 Credits.**

Statistical methods for the analysis of longitudinal data: nonparametric, fixed effects, mixed effects, generalized estimating equations. Methods for the analysis of emerging data: group sequential analysis, Brownian motion, Bayesian methods, and stochastic curtailment. Other advanced topics of current research in biostatistics. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

STAT 8257. Probability. 3 Credits.

Probabilistic foundations of statistics, probability distributions, random variables, moments, characteristic functions, modes of convergence, limit theorems, probability bounds. Prerequisites: STAT 6201 and STAT 6202; and knowledge of calculus through functions of several variables and series.

STAT 8258. Distribution Theory. 3 Credits.

Special distributions of statistics, small and large sample theory, order statistics, and spacings. Prerequisite: STAT 8257.

STAT 8259. Advanced Probability. 3 Credits.

Conditional expectation and martingales; weak convergence in general metric spaces and functional central limit theorems for i.i.d. random variables and martingales; applications to biostatistics. Prerequisite: STAT 8257 or an equivalent measure-theoretic introduction to probability.

STAT 8262. Nonparametric Inference. 3 Credits.

Inference when the form of the underlying distribution is unspecified. Prerequisites: STAT 6201 and STAT 6202.

STAT 8263. Advanced Statistical Theory I. 3 Credits.

Decision theoretic estimation, classical point estimation, hypothesis testing. Prerequisites: STAT 6201 and STAT 6202.

STAT 8264. Advanced Statistical Theory II. 3 Credits.

Asymptotic theory, hypothesis testing, confidence regions. Prerequisites: STAT 8257 and STAT 8263.

STAT 8265. Multivariate Analysis. 3 Credits.

Characterization and properties of the multivariate normal distribution, conditional distributions, multiple correlation, partial correlation, estimation of the mean vector and the covariance matrix, Wishart and Hotelling distributions and applications to hypothesis testing, discrimination, classification, and principle component analysis. Prerequisites: STAT 6201 and STAT 6202.

STAT 8266. Topics-Multivariate Analysis. 3 Credits.

Multivariate analysis of variance, principal component analysis, canonical correlation, factor analysis. Prerequisites: STAT 6201, STAT 6202 and STAT 8265.

STAT 8271. Foundational and Philosophical Issues in Statistics. 3 Credits.

Axiomatic underpinnings of Bayesian statistics, including subjective probability, belief, utility, decision and games, likelihood principle, and stopping rules. Examples from legal, forensic, biological, and engineering sciences. Students are expected to have a background in computer science, economics, mathematics, or operations research. Prerequisites: STAT 6201 and STAT 6202.

STAT 8273. Stochastic Processes I. 3 Credits.

Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

STAT 8274. Stochastic Processes II. 3 Credits.

Continuation of STAT 8273. Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

STAT 8281. Advanced Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate and multivariate time series. Statespace or Kalman filter models, spectral analysis of multiple time series. Theory and applications using the University computer. Prerequisites: MATH 2233, STAT 6201 and STAT 6202.

STAT 8288. Topics in Sample Surveys. 3 Credits.

Advanced topics and research in sample surveys. Prerequisite: STAT 6287.

STAT 8289. Seminar. 3 Credits.

Admission by permission of instructor. May be repeated for credit provided the content differs.

STAT 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as ECON 8375.

STAT 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as ECON 8376. Prerequisite: STAT 8375.

STAT 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

STAT 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

STRATEGIC MANAGEMENT AND PUBLIC POLICY (SMPP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SMPP 1099. Variable Topics. 1-36 Credits.**SMPP 4900. Special Topics. 1-3 Credits.**

Experimental offering; new course topics and teaching methods.

SMPP 4900W. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided topics differ. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPP 4995. Independent Study. 1-12 Credits.

Assigned topics. Permission of the advisor required prior to enrollment. May be repeated once for credit.

SMPP 5099. Variable Topics. 1-99 Credits.**SMPP 6201. Business and Public Policy. 3 Credits.****SMPP 6202. Business-Government Relations. 3 Credits.**

Historical and philosophical foundations of the business-government relationship. Regulation, international trade, and corporate political activities. Public policy issues facing business and the business community's political response.

SMPP 6203. Federal Government Regulation in Society. 3 Credits.**SMPP 6205. Business Representation and Lobbying. 3 Credits.**

Strategies, tactics, and techniques used by business in representing itself to the legislative and executive branches and regulatory agencies of the federal government. Legal and practical constraints. Ethical considerations.

SMPP 6206. Applied Microeconomics. 3 Credits.

Applications of economic theory to public and private decisions with emphasis on public policy analysis. Focus on market structure and its implications. Imperfect information, common property, public goods and externalities. Economic analysis of government behavior and legal institutions. Prerequisites: ECON 6217 or ECON 6219; and MBAD 6222.

SMPP 6207. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as PPPA 6067.

SMPP 6208. Macroeconomic Policy and Business. 3 Credits.

Determination of national income, employment, inflation, and interest rates. The role of expectations in the economy. Impact of government purchases, tax policy, and deficits. Monetary policy institutions. The global economy and exchange rates. Prerequisites: ECON 6218 or ECON 6219; and MBAD 6222.

SMPP 6209. Seminar: Business Economics and Public Policy. 3 Credits.

Analysis and discussion of selected issues by students and representatives of government and business. Prerequisite: SMPP 6202 or MBAD 6284.

SMPP 6210. Strategic Environmental Management. 3 Credits.

Examination and analysis of the orientation and actions of private, public, and nonprofit sectors in relation to their natural environments. Emphasis on organizational interaction and effectiveness, particularly regarding business firms and industry, on issues of environmental quality and sustainability.

SMPP 6211. Corporate Environmental Management in Developing Nations. 3 Credits.**SMPP 6212. Business Law: Enterprise Org. 3 Credits.****SMPP 6213. Management of Strategic Issues. 3 Credits.**

The body of management theory and practice that has evolved to identify, analyze, and resolve strategic organizational issues. Methodology of the field; applications to critical issues in labor relations, energy and pollution, marketing and consumerism, business-government relations, and the global economy.

SMPP 6214. Consultative Processes. 3 Credits.

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process. Same as TSTD 6214.

SMPP 6215. Corporate Governance and Ethics. 3 Credits.

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as ACCY 6801.

SMPP 6216. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets and globalization. The evolution of national, transatlantic and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization and industry standards. (Same as PPPA 6018).

SMPP 6218. Topics in Business and Society. 3 Credits.

Business engagement in policy making bodies through business organizations. Topics vary by semester. See department for more details.

SMPP 6241. Global Corporate Responsibility. 3 Credits.**SMPP 6271. Corporate Environmental Management and Policy. 1.5 Credit.****SMPP 6290. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit. Same As: ACCY 6900.

SMPP 6291. Ethics and Business. 3 Credits.

An in-depth, comprehensive exploration, analysis, and evaluation of specific for profit and nonprofit organization values, approaches, and outcomes related to multiple ethical ideals, systems, and practices.

SMPP 6292. Co-Curricular Activities in Responsible Management. 0 Credits.

Required for students in the graduate certificate in responsible management program. Students complete a project or case study on a relevant topic with an organization or faculty member; attend and submit written reports on a series of seminars, panel discussions, or other pre-approved events related to responsible management; and complete designated community service hours. Restricted to students in the graduate certificate in responsible management program.

SMPP 6293. American Business History. 3 Credits.

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention is given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. (Same as HIST 6322).

SMPP 6295. Intern Qual&Quant Analysis. 3 Credits.**SMPP 6297. International Management Experience. 1.5-4.5 Credits.**

Same as FINA/IBUS/Mgt/Mktg 6297. May be repeated for credit.

SMPP 6298. Directed Readings and Research. 1-6 Credits.

Supervised readings or research. Admission by prior permission of instructor. May be repeated once for credit.

SMPP 6299. Thesis Seminar. 3 Credits.**SMPP 6999. Thesis Research. 3 Credits.****SMPP 8311. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.**

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Restricted to doctoral candidates. Credit cannot be earned for this course and PPPA 8111.

SMPP 8321. Seminar in Strategic Management. 3 Credits.

Develops understanding of the major research streams in strategic management; exposure to theoretical research frameworks and methodological issues and approaches.

SMPP 8331. Doctoral Seminar. 3 Credits.

Designing sound theory-based, empirical research projects for the study of questions relevant to the field of strategic management.

SMPP 8391. Seminar: Business Management. 3 Credits.

Examination of major current issues, both theoretical and empirical, affecting the development of the business enterprise. Topics to be announced. Emphasis on policy and strategic issues affecting the total enterprise. (Offered as the demand warrants).

SMPP 8998. Advanced Readings and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

SMPP 8999. Dissertation Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

SUSTAINABILITY (SUST)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SUST 1001. Introduction to Sustainability. 3 Credits.

The concept of sustainability is both broad and specific as it is applied to areas ranging from social systems to law, engineering, public health, and natural systems. The course considers goals, principles, and practical applications, with a multidisciplinary perspective on major environmental and social issues growing out of these concerns.

SUST 1099. Variable Topics. 1-36 Credits.**SUST 2002. The Sustainable City. 3 Credits.**

This course explores the connection between cities and sustainability. We consider sustainability from a variety of theoretical and practical perspectives and examine some of the most pressing and critical issues that must be addressed in order to create a sustainable city.

SUST 3003. World on a Plate. 3 Credits.

How dietary choices affect not just health, but the environment and those involved in the production of food as well; interdisciplinary perspective on the impact of food on the future of the environment, the economy, and society. Recommended background: Prior completion of SUST 1001.

SUST 3096. Research in Sustainability. 1-3 Credits.

Directed research under faculty supervision. The faculty member directing the research assigns work, such as papers and assigned reading, as appropriate. Prerequisites: SUST 1001.

SUST 3097. Culminating Experience in Sustainability. 3 Credits.

A paid or unpaid internship, fieldwork, directed research, or community service with an organization engaged in two or more of the three major goals of sustainability: economic development, social equality, or environmental protection. Students complete a series of reflection essays, career preparations, and other assignments throughout the semester. Some study abroad programs and some research or service courses at GW can be used to fulfill the outside work requirement for SUST 3097, but students may still be asked to register for 1 credit of SUST 3097 to complete the reflective essays, career preparations, and/or outreach assignments. These special arrangements must be approved in advance by the director of the minor. Prerequisites: SUST 1001.

SUST 5099. Variable Topics. 1-99 Credits.

TOURISM STUDIES (TSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TSTD 1099. Variable Topics. 1-36 Credits.**TSTD 3001. Introduction to Tourism and Hospitality Management. 3 Credits.**

Historical overview and survey of the tourism and hospitality industry, with emphasis on the travel market, delivery of hospitality services, professional roles, and emerging trends.

TSTD 3002. Passenger Transportation System. 3 Credits.

Survey of passenger transportation modes. Emphasis on airline operations, marketing communications, and distribution channels.

TSTD 3101. Sport and Event Business Management. 3 Credits.

An overview of business opportunities related to sport and events. Emphasis on sport and event facilities and event management; product manufacturing, merchandising, and licensing; media and publications; and athlete representation.

TSTD 3102. Sport and Event Marketing. 3 Credits.

Application of marketing theories and practices to sport and events. Sponsorship, endorsement proposals, public relations, and promotional campaigns. Prerequisite: BADM 3401. Same As: TSTD 3102W.

TSTD 3102W. Sport and Event Marketing. 3 Credits.

Application of marketing theories and practices to sport and events. Sponsorship, endorsement proposals, public relations, and promotional campaigns. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 3401. Same As: TSTD 3102.

TSTD 3301. Hospitality Industry Management. 3 Credits.

Overview of the basic principles and practices involved in the management, operation, marketing, and financing of hotels, restaurants, and other hospitality goods and services.

TSTD 3302. Financial Management in Tourism and Hospitality. 3 Credits.

Basic principles of planning and managing tourism resources, developments, and facilities in relation to investment constraints and opportunities. Financial monitoring and control of hospitality facilities and related leisure services. Prerequisite: BADM 3501.

TSTD 3303. International Experiences. 1-6 Credits.

Travel to another country for study of a specific topic. May be repeated for credit with permission of the advisor.

TSTD 4101. Issues in Sport and Event Management. 3 Credits.

A discussion of policies, procedures, organizational structures, issues, and trends in sport and events, from amateur to professional.

TSTD 4102. Practicum. 1-3 Credits.

Fieldwork, internship, and/or instructional practice, including conference and/or seminar. Admission by permission of instructor. May be repeated once for credit with permission of advisor.

TSTD 4301. Travel Marketing Communication. 3 Credits.

Review of basic advertising, public relations, and sales techniques, applied to the tourism and hospitality industry. Current practices and case studies.

TSTD 4301W. Travel Marketing Communications. 3 Credits.

Introduction to current marketing communication theories and strategies used by destination marketing organizations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

TSTD 4900. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

TSTD 4995. Independent Study. 1-3 Credits.

Assigned topics. Permission of the advisor required prior to enrollment. May be repeated once for credit.

TSTD 5099. Variable Topics. 1-99 Credits.**TSTD 6214. Consultative Processes. 1-6 Credits.**

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process. Same as SMPP 6214.

TSTD 6220. International Hospitality Management. 3 Credits.

The study of multinational hospitality operations, with emphasis on U.S. corporate involvement in and planning for overseas expansions. Political, economic, cultural, financial, and legal aspects inherent in the international business environment.

TSTD 6221. Hospitality Market Analysis. 3 Credits.

Analysis of market demand and industry supply for accommodation in a tourism destination; valuation methods for determining market value of hospitality projects; project management for hospitality development.

TSTD 6230. Organization and Management of Airlines. 3 Credits.

Overview of domestic and international passenger air transportation systems. Analysis of planning, financing, operating, marketing, and evaluating airline transportation systems. Legal and regulatory aspects of airline operations. Development of infrastructure and related support services.

TSTD 6249. Sustainable Destination Development. 3 Credits.

Relationship of tourism and sustainable development; specific emphasis on cultural, environmental, and economic impacts and trends.

TSTD 6250. Destination Management. 1.5 Credit.

Organization and management concepts, theory, and issues, stressing application of theory through analysis of case examples drawn from the tourism and hospitality industry. Prerequisite: TSTD 3001 .

TSTD 6251. Applied Quantitative Methods. 3 Credits.

Application of quantitative methods to tourism, hospitality, sport, event, or related management. Procedures and methodology for collecting data, summarizing, analyzing, interpreting, drawing conclusions and making decisions based on data.

TSTD 6260. Tourism Economics. 3 Credits.

Tourism development approaches, contexts, and consequences for local, regional, and national destinations; evaluation of tourism as an economic activity; and economic aspects of strategic options in tourism development. Recommended background: Basic understanding of macroeconomics and microeconomics.

TSTD 6261. Tourism Policy and Planning. 3 Credits.

Critical analysis and evaluation of tourism policy and planning globally using perspectives of public and private sector stakeholders; historical review, case studies, and recent examples of destination and national developments. Recommended background: Prior coursework in business, tourism, international affairs, or hospitality management is beneficial, but not required.

TSTD 6262. Tourism Policy Analysis. 1.5 Credit.

Components of tourism policy, including development of tools for tourism policy analysis and description of tourism organizations in the government and private sector.

TSTD 6263. Destination Marketing. 3 Credits.

Concepts and techniques employed in marketing tourism industry services and development of the annual marketing plan.

TSTD 6264. Sport Marketing. 3 Credits.

Application of marketing theories to sport and events; case examples of marketing athletes, teams, facilities, sport products and organizations, as well as using sport or events as a marketing tool for products; writing sponsorship and endorsement proposals and incorporating sport into an integrated marketing plan.

TSTD 6265. Sport Law: Contracts and Negotiations. 3 Credits.

Examination of legislation and specific case law as related to professional and amateur athletes, sport events, licensed merchandise, broadcast and sponsorship rights. Topics include labor and anti-trust law; contract negotiation, specifications, and interpretation.

TSTD 6266. Sport and Event Facility Management. 3 Credits.

Financing, market analysis, design, operations, and marketing of sport and event facilities from stadiums and arenas to amphitheaters and convention centers.

TSTD 6267. Sport Media and Communications. 3 Credits.

Concepts and practices of sport public relations, media relations and management, the Internet, and other media utilized in sports. Press releases, publications, crisis management, and press operations.

TSTD 6270. Research Methods and Applications. 3 Credits.

Survey research methods and qualitative research methods and their applications to tourism, hospitality, sport, event, or related management. Previous coursework in business, tourism, development, or hospitality management; prior completion of TSTD 6251 also is useful.

TSTD 6276. Risk Management for Events and Meetings. 3 Credits.

Risk and liability issues that may arise in the planning and management of events, meetings, conventions, and exhibitions. Preventative and responsive measures designed to minimize adverse impacts on event stakeholders.

TSTD 6277. Event Management. 3 Credits.

An introduction to the theoretical and practical foundations of event management. Fundamentals of planning, budgeting, and evaluating events. Restricted to students in the MTA program or with permission of the instructor.

TSTD 6278. Conference and Exposition Management. 3 Credits.

Site selection, program planning and management, exhibits, selection and use of facility, volunteers, and budget management.

TSTD 6279. Event Entertainment Management. 3 Credits.

Event entertainment, including designing and planning the entertainment component of an event, as well as managing and marketing entertainers in an event context.

TSTD 6280. Advanced Workshop. 1-6 Credits.

Workshops with emphasis on contemporary issues and opportunities; development of advanced professional competencies. May be repeated for credit with permission of advisor.

TSTD 6282. International Experiences. 1-6 Credits.

Travel to another country for study of specific topics. May be repeated for credit with approval of advisor.

TSTD 6283. Practicum. 1-3 Credits.

For graduate students enrolled in a degree program or field offered through the department. Fieldwork, internship, and/or instructional practice, including conference and/or seminar. May be repeated once for credit with permission of advisor.

TSTD 6290. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

TSTD 6293. Independent Study. 1-6 Credits.**TSTD 6296. Hospitality Digital Marketing Strategies. 3 Credits.**

Current digital marketing strategies including social media marketing, search engine optimization, email marketing, and paid search marketing.

TSTD 6297. Advanced Topical Studies. 3 Credits.

Required capstone experience for tourism administration students who do not select the thesis option. Analysis of case situations involving policy formulation or management decision making; emphasis on applied strategic planning and management approaches.

TSTD 6298. Directed Reading and Research. 1-3 Credits.

Supervised readings or research. Permission of the instructor required prior to enrollment. May be repeated for credit.

TSTD 6998. Thesis Research. 3-6 Credits.**TSTD 6999. Thesis Research. 3 Credits.**

TRANSLATIONAL HEALTH SCIENCES (THS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

THS 6101. Survey of Advanced Quantitative Methods for Health Services and Outcomes Research. 3 Credits.

Introduction of advanced quantitative methods frequently adopted for health services and outcomes research. Restricted to students in the graduate certificate in health services and outcome research program or with permission of the instructor. Prerequisites: HSCI 6263 and HSCI 6270.

THS 6102. Decision Making and Economic Evaluation in Health Care. 3 Credits.

Basic principles of economic evaluation methods. Familiarity with basic algebra is assumed. Restricted to students in the graduate certificate in health services and outcome research program or with the permission of the instructor. Prerequisites: HSCI 6263 and HSCI 6270.

THS 8101. Foundations in Translational Health Sciences. 3 Credits.

The study of translational research, implementation and dissemination science, and collaboration and team science within the context of current health legislation. Restricted to students in the PhD in translational health sciences program or with permission of the instructor.

THS 8103. Principles of Collaboration and Team Science. 3 Credits.

Foundational and practical principles of collaboration and team science. Restricted to students in the doctorate in occupational therapy and the PhD in the field of translational health sciences degree programs or with instructor's permission. Credit cannot be earned for this course and HSCI 6285.

THS 8105. Translational Health Sciences in Complex Health Systems. 3 Credits.

An analysis of health systems as complex adaptive systems, including barriers, facilitators, and opportunities for change and innovation. Restricted to PhD in the field of translational health sciences degree candidates; instructor's permission may be substituted.

THS 8107. Program Theory and Health Innovations. 3 Credits.

Program theory as the basis for designing health and educational innovations that can be tested using scientific methods, replicated in practice, and used to inform policy. Restricted to students in the PhD in translational health sciences degree program in good standing or with instructor's permission. Credit cannot be earned for this course and OT 8274.

THS 8109. Implementation Science and Innovation Leadership. 3 Credits.

Introduction to implementation science, the study of processes affecting uptake of evidence into healthcare, with emphasis on innovation leadership for systemic change. Restricted to students in the PhD in translational health sciences degree program in good standing or with instructor's permission.

THS 8121. Advanced Study Design for Translational Research. 3 Credits.

Advanced measurement and design topics needed for translational health science research. Restricted to students in the PhD in translational health sciences degree program in good standing or with the permission of the instructor.

THS 8123. Qualitative Methods in Translational Health Sciences. 3 Credits.

Qualitative methods and designs applicable to translational health science research problems; qualitative epistemology, methods, data collection, and data analysis. Restricted to students in the PhD in translational health sciences degree program in good standing or with instructor's permission.

THS 8125. Advanced Statistical Methods for Clinical and Translational Research. 3 Credits.

Advanced data management and analytic techniques required for testing hypotheses in translational health research. Restricted to students in the PhD in translational health sciences degree program in good standing or with the permission of the instructor. Recommended background: Completion of graduate-level courses in epidemiology and biostatistics.

THS 8127. Systematic Reviews of Health Care Innovations. 3 Credits.

Students refine skills in developing a systematic review of the literature for healthcare innovations, including interventions, educational programs, and products. Restricted to students in the PhD in translational health sciences program or with permission of the instructor. Recommended background: Experience in quantitative research design.

THS 8201. Learning Theory and Models for Knowledge Translation in Health Systems I. 3 Credits.

Introduction to the theories and models of learning and knowledge translation to facilitate behavior change. Restricted to students in the PhD in translational health sciences degree program in good standing.

THS 8202. Knowledge Translation in Complex Health Systems. 3 Credits.

Theories, frameworks and models of knowledge translation used to facilitate knowledge use and change in complex health systems. Prerequisites: students in the PhD in translational health sciences program or with the approval of the instructor.

THS 8203. Bioethical Implications of Health Research. 3 Credits.

Role of ethics theories and bioethics principles in health research. Restricted to students in the PhD in translational health sciences degree program in good standing or with instructor's permission. Credit cannot be earned for this course and MLS 6244.

THS 8205. Learning Theory and Models for Knowledge Translation in Health Systems II. 3 Credits.

Application of theories and models of learning and knowledge translation to the design and evaluation of interventions for learning and behavior change. Restricted to students in the PhD in translational health sciences degree program in good standing. Recommended background: Completion of THS 8201.

THS 8206. Translating Literature for Interdisciplinary Scholarship. 3 Credits.

The processes and methods for translating scholarly research to an interdisciplinary stakeholder group. Restricted to students in the PhD in the translational health sciences program or with the instructor's approval.

THS 8212. Teaching Strategies in the Health Professions. 3 Credits.

Teaching skills pertinent to the delivery of education in health professions. Course design illustrates teaching and learning practices grounded in andragogy, contributing to curriculum program objectives of enhancing teaching skills. Permission of the instructor is required prior to enrollment. Restricted to SMHS students. Credit cannot be earned for this course and HSCI 6212.

THS 8214. Information Literacy for Health Professionals. 3 Credits.

Enhancement of critical thinking abilities related to use of the literature to engage in a rigorous review of knowledge and evidence in self-identified translational health topic area. Permission of the instructor is required prior to enrollment. Restricted to students in the PhD in translational health sciences degree program or with the permission of the instructor. Recommended background: Basic skills in literature review.

THS 8221. Mixed Methods Research in Translational Health Sciences. 3 Credits.

Use of mixed methods as a legitimate design tradition to address translational research questions. Restricted to students in the PhD in translational health sciences degree program in good standing or with instructor's permission. Credit cannot be earned for this course and OT 8272.

THS 8223. Advanced Qualitative Methods. 3 Credits.

Data collection, management, analysis, and interpretation. Practical skill building in qualitative methods, with a particular focus on participatory action research and discourse analysis. Restricted to doctoral students in good standing in the translational health sciences program or in other GW doctoral programs with the instructor's approval. Prerequisites: Prior completion of 3 credits in an introductory qualitative methods course.

THS 8225. Grounded Theory Research. 3 Credits.

Introduction to grounded theory research, a qualitative research method reflected in social constructivism. Application of methods and techniques frequently used in such research; designing elements of a grounded theory study. Restricted to doctoral students in good standing in the translational health sciences program or in other GW doctoral programs with the instructor's approval. Prerequisites: Prior completion of 3 credits in an introductory qualitative methods course.

THS 8227. Survey Methods for Translational Health Sciences. 3 Credits.

Theory and practices behind survey research design, and application of this methodology to translational health science. Restricted to students in the PhD in translational health sciences program or with the instructor's approval.

THS 8961. Proposal Defense Preparation. 3 Credits.

PhD students prepare for successful completion of the proposal defense and dissertation process. Restricted to Candidates who have successfully passed comprehensive examinations.

THS 8992. Directed Study. 1 Credit.

May be repeated for credit. Restricted to students in the PhD in translational health sciences degree program.

THS 8996. Dissertation Seminar I. 3 Credits.

First in a three-course series. Candidates for the PhD in translational health sciences degree begin work on their dissertation. Restricted to those who have successfully passed comprehensive examinations and defended their dissertation proposal. Prerequisites: THS 8961.

THS 8997. Dissertation Seminar II. 3 Credits.

Second in a three-course series. Candidates for the PhD in translational health sciences degree continue work on their dissertation. Restricted to those who have successfully passed comprehensive examinations and defended their dissertation proposal. Prerequisites: THS 8996.

THS 8998. Dissertation Seminar III. 3 Credits.

Third in a three-course series. Candidates for the PhD in translational health sciences degree continue work on their dissertation. Restricted to those who have successfully passed comprehensive examinations and defended their dissertation proposal.

TURKISH (TURK)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TURK 1001. Beginning Turkish I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing of Modern Standard Turkish. Laboratory fee.

TURK 1002. Beginning Turkish II. 4 Credits.

Continuation of TURK 1001. Fundamentals of speaking, understanding, reading, and writing of Modern Standard Turkish. Laboratory fee.

TURK 1099. Variable Topics. 1-36 Credits.**TURK 2001. Intermediate Turkish I. 4 Credits.**

Further development of speaking, understanding, reading, and writing skills of Modern Standard Turkish. Laboratory fee. Prerequisites: TURK 1001 and TURK 1002.

TURK 2002. Intermediate Turkish II. 4 Credits.

Continuation of TURK 2001. Further development of speaking, understanding, reading, and writing skills of Modern Standard Turkish. Laboratory fee. Prerequisites: TURK 1001 and TURK 1002.

TURK 3001. Advanced Turkish. 3 Credits.

This course is designated to develop proficiency in Turkish at the advanced level. Instruction and class activities are oriented toward proficiency goals. In-class practice requires extensive student involvement in interactive activities with peers as well as preparation and homework assignments outside of class. Students in this class are afforded the opportunity to improve their writing skill, learn and use Turkish connectors, to construct cohesive paragraphs. They are also able to practice, speaking, listening, and reading Turkish in a variety of contexts and situations that they likely encounter in Turkey.

TURK 3099. Variable Topics. 1-12 Credits.**TURK 3302. Media Turkish. 3 Credits.**

This course exposes students to various types of mass media available in Turkey. Through this exposure, students learn to analyze and use the Turkish language in step with the linguistic realities of contemporary Turkey. Newspapers and magazine articles are read and analyzed for style and organization, and their contents are debated and scrutinized for hidden biases. Newscasts include current events, news bulletin, interviews, and documentaries.

TURK 5099. Variable Topics. 1-99 Credits.

UNIVERSITY COURSES (UNIV)

UNIV 1005. Social Interactions. 3 Credits.

This interdisciplinary course uses the methods of inquiry and analysis from the social science disciplines in order to interrogate key issues of political behavior, cultural formation, human interaction and communication, as well as historical change. While specific topics will vary each semester, in all cases this course will require that students engage scholarly literature on the topic, conduct guided research on the topic, and write several papers. Restricted to First year students. Prerequisite: no. Recommended background: none.

UNIV 1006. Questions of Culture. 3 Credits.

This interdisciplinary course uses the methods of inquiry and analysis from the disciplines of the arts and humanities in order to interrogate key issues of artistic and symbolic expression, religious beliefs, philosophy, and historical change. While specific topics will vary each semester, in all cases this course will require that students engage scholarly literature on the topic, conduct guided research on the topic, and write several papers.

UNIVERSITY WRITING (UW)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

UW 1010. College Academic English. 3 Credits.

UW 1015. Writing Seminar Summer Scholars. 3 Credits.

UW 1020. University Writing. 4 Credits.

University-level, independent research and writing. Learning to frame research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Developing strategies to draft and revise clear, engaging prose for a variety of purposes and audiences. Thematically oriented seminars; texts and course topics vary among instructors. For topics see <https://writingprogram.gwu.edu/uw1020-courses>. Credit cannot be earned for this course and HONR 1015.

UW 1099. Variable Topics. 1-36 Credits.

UW 2020. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

UW 2020W. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

UW 2031. Equality and the Law. 3 Credits.

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms.

UW 2031W. Equality and the Law. 3 Credits.

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms. Include a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

UW 2111. Preparation for Peer Tutors in Writing. 3 Credits.

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

UW 2111W. Preparation for Peer Tutors in Writing. 3 Credits.

For undergraduate students accepted as tutors in the Writing Center. Study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Corequisite: UW 2112. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

UW 2112. Preparation for Peer Tutors in Writing Lab. 1 Credit.

Through required hours scheduled at the Writing Center, students observe and interview peer tutors and conduct peer tutoring sessions to gain experience working with a range of student texts from multiple disciplines across the University, assist peer writers working on a variety of genres, and develop writing consulting techniques from best practices in the field. Concurrent enrollment in UW 2111W is required. Restricted to undergraduate students accepted as tutors in the Writing Center.

UW 6213. Theory and Practice of Teaching Writing. 3 Credits.

VIETNAMESE (VIET)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

VIET 1001. Beginning Vietnamese I. 4 Credits.

Fundamentals of grammar and pronunciation, with an introduction to reading and writing.

VIET 1002. Beginning Vietnamese II. 4 Credits.

Continuation of VIET 1001. Fundamentals of grammar and pronunciation, with an introduction to reading and writing.

VIET 1003. Intermediate Vietnamese I. 4 Credits.

Continuation of grammar, with emphasis on speaking, reading, and writing.

VIET 1004. Intermediate Vietnamese II. 4 Credits.

Continuation of VIET 2003. Continuation of grammar, with emphasis on speaking, reading, and writing.

VIET 1099. Variable Topics. 1-36 Credits.

VIET 3099. Variable Topics. 1-12 Credits.

VIET 5099. Variable Topics. 1-99 Credits.

WOMEN AND LEADERSHIP PROGRAM (WLP)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

WLP 1020. Writing, Literature, and Society. 3 Credits.

Critical reading skills, concepts of disciplinary, and processes of producing and legitimating knowledge. Writing intensive. Texts and emphasis vary according to cohort. Restricted to students in the women's leadership program with the permission of the instructor.

WLP 1110. Women and Leadership Symposium (I). 1 Credit.

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

WLP 1111. Women and Leadership Symposium (II). 1 Credit.

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

WLP 4198. WLP Independent Study. 3 Credits.

WOMEN'S, GENDER, AND SEXUALITY STUDIES (WGSS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

WGSS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

WGSS 1020. Approaches to Women's History. 3 Credits.

Introduction to major methodological and conceptual debates in women's and gender history, focusing on the United States. (Same as HIST 1020).

WGSS 1099. Variable Topics. 1-36 Credits.

WGSS 2120. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.

Key concepts, theories, and perspectives in women's studies, placing women's experiences at the center of interpretation; historical and contemporary perspectives on women's lives, experiences, and thoughts and how gender interacts with race, class, religion, sexual orientation, culture, and politics. Same As: WGSS 2120W.

WGSS 2120W. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women, gender and sexuality in different cultures. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: WGSS 2120.

WGSS 2121. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. (Same as ANTH 2501).

WGSS 2125. Varieties of Feminist Theory. 3 Credits.

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Prerequisites: WGSS 1020 or WGSS 2120. Same As: AMST 2125.

WGSS 2135. A Study of Women and Media. 3 Credits.

The role media plays in women's lives; limits and effects of a "dominant" media; representations of women in print media and television, especially advertising, and in books and film; how women have attempted to articulate a culture that serves their personal, political, and social interests.

WGSS 2145. Space, Place, and Gender Identity. 3 Credits.

Space and place as socially-constructed structures; politics of space and bodies from the perspective of gender and sexual minorities; analysis of gender relations through spatial practices; identity-based inequality in the use of space and place.

WGSS 2225. Philosophy of Race And Gender. 3 Credits.

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender. (Same as PHIL 2125).

WGSS 2380. Sexuality in U.S. History. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. (Same as AMST 2380, HIST 2380).

WGSS 2385. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Same As: AMST 2385.

WGSS 2385W. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2385W. Same As: AMST 2385W.

WGSS 2710. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Same As: ENGL 2710.

WGSS 3099. Variable Topics. 1-12 Credits.

WGSS 3136. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Conducted in English. (Same as CHIN 3136).

WGSS 3136W. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Taught in English. (Same as CHIN 3136W, WGSS 3136).

WGSS 3170. Special Topics in Women's, Gender, and Sexuality Studies. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

WGSS 3170W. Selected Topics. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3195. Undergraduate Research. 1-3 Credits.

A written proposal approved by the faculty member who supervises the research is required prior to registration.

WGSS 3235. Women and the Law. 3 Credits.

Contemporary legal issues that affect women in the United States; theories and documents relevant to issues such as violence against women, marriage and divorce, employment, immigration, and reproductive rights.

WGSS 3352. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352).

WGSS 3352W. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352) Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3353. U.S. Women's History II. 3 Credits.

Continuation of WGSS 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. (Same as AMST 3353, HIST 3353).

WGSS 3362. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362, HIST 3362W, WGSS 3362W).

WGSS 3362W. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3362W, AMST 3362W).

WGSS 3410. Lesbian History and Culture. 3 Credits.

Examination of lesbian identity, community, and legal rights from a scholarly feminist perspective.

WGSS 3435. Queer Politics. 3 Credits.

The history of lesbian, gay, bisexual, transgender, and queer (LGBTQ) politics in the United States; influences and intersections of race and ethnicity, class, gender identity and expression, sexuality, sex, and age; contemporary policy debates relevant to queer politics.

WGSS 3470. Sexuality and the Law. 3 Credits.

Exploration of the ways in which the law has affected individuals' ability to express their sexuality, with a primary focus on sexual orientation and issues such as marriage, adoption, voting rights, sexual harassment, and military service.

WGSS 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as REL 3481).

WGSS 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. (Same as WGSS 3530W, HIST 3530, HIST 3530W).

WGSS 3530W. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as WGSS 3530, HIST 3530, HIST 3530W).

WGSS 3730. Topics in Global Postcolonial Literature and Film. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: ENGL 3730.

WGSS 3820. Global Domestic Labor. 3 Credits.

Consideration of women's paid and unpaid domestic labor, including care work, in the context of global and globalizing political and cultural economies.

WGSS 3845. Global Women's Prison. 3 Credits.

Examination of women's confinement and incarceration in the context of global and globalizing political and cultural economies.

WGSS 3881. Women, Gender, and Religion in China. 3 Credits.

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. (Same as EALL 3881, REL 3881).

WGSS 3890W. Black Women in the Twenty-First Century. 3 Credits.

An interdisciplinary approach to critical inquiry into the scholarship on, and status of, Black women in North America, the Caribbean, Latin America, and Africa in the twenty-first century; historical, national, and transnational linkages between Black women; responses to intersectionality; analyses, strategies, and actions being deployed by and about Black women in action and scholarship. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity. Special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. (Same as REL 2981).

WGSS 4183. Practicum in Women's, Gender, and Sexuality Studies. 3 Credits.

Study of the changing status of women, gender, sexuality and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Usually for seniors. Placement arrangements must be made the semester prior to registration; departmental permission is required.

WGSS 4199. Senior Seminar. 3 Credits.

Examination and analysis of the writings of contemporary scholars and writers whose work provides critical frameworks for feminist scholarship and research. Restricted to juniors and seniors.

WGSS 5099. Variable Topics. 1-99 Credits.

.

WGSS 6220. Fundamentals of Feminist Theory. 3 Credits.

Historical theories significant to feminist thought, such as liberalism, socialism, evolution, psychoanalysis, and gendered spheres of social action; how these theories were revived and revised by the second wave of feminism since the 1960s; brief examination of postmodernist and third-wave feminist theorizing.

WGSS 6221. Research Issues in Women's, Gender, and Sexuality Studies. 3 Credits.

The contribution of feminist or gender-relations perspectives from humanities and social science disciplines to the issues and methods of social research, policy, and practice; feminist frameworks; critique and re-evaluation of traditional academic disciplines; and analysis of current research on women, gender, and sexuality.

WGSS 6225. Contemporary Feminist Theory. 3 Credits.

Recent developments in feminist theory, with a primary focus on feminism in the United States and its relationship to queer theory and sexuality studies.

WGSS 6230. Global Feminisms. 3 Credits.

The individuals, groups, and policies that shape global agenda for women; local and international fora in which global feminisms are forged.

WGSS 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Prerequisites: PHIL 2125 or PHIL 2131. (Same as PHIL 6238).

WGSS 6240. Gender and Public Policy. 3 Credits.

Analysis of gender-related policy issues, primarily in the United States, such as domestic violence, military service, abortion rights, equal employment opportunity, child and dependent care, welfare, social security, and international development assistance.

WGSS 6241. Gender, Law, and Politics. 3 Credits.

The treatment of gender in U.S. law and its implications for public policy; factors that influence the ways in which individuals view and encounter the law; discrimination in the workplace and educational institutions, single-sex education, domestic violence, same-sex marriage, and reproductive rights and responsibilities; legal analysis, and public policy writing. Restricted to graduate students; open to upper-level undergraduates on a case-by-case basis.

WGSS 6251. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture.

WGSS 6257. Gender and Sexuality. 3 Credits.

Study of new theoretical and methodological approaches developed in the anthropology of gender; postcolonialism, sexuality, and literary representations of gender. (Same as ANTH 6501).

WGSS 6265. Women, Welfare, and Poverty. 3 Credits.

How the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. (Same as SOC 6265).

WGSS 6266. Gender and Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. (Same as SOC 6266).

WGSS 6268. Race, Gender, and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience; the intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. (Same as SOC 6268).

WGSS 6270. Seminar: Selected Topics. 3 Credits.

Investigation of a current policy issue of particular concern to women, or consideration of women's status in a particular social system. Topics have included women and health; sexualities; women and Judaism; black women; gender, race, and class. May be repeated for credit. Credit cannot be earned for this course and AMST 6190, PSYC 8279.

WGSS 6271. Gender and Society. 3 Credits.

Current empirical and theoretical work on gender as an organizing principle of social relations; the relationship of gender to sex and sexuality. (Same as SOC 6271).

WGSS 6280. Independent Study. 3 Credits.

May be repeated for credit. Arrangements must be made with sponsoring faculty member prior to registration.

WGSS 6283. Practicum in Women's, Gender and Sexuality Studies. 3,6 Credits.

Study of the changing status of women, gender, sexuality, and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Placement arrangements must be made the semester prior to registration; departmental permission is required. Graduate students may take the course for either 3 or 6 credits, with substantial additional research and writing of a case study required for 6 credits. (Same as WGSS 4183).

WGSS 6295. Independent Research in Women's Studies. 1-3 Credits.

Individual library or field research. Arrangements must be made with the sponsoring faculty member prior to registration; a written proposal is required.

WGSS 6299. Capstone Research Seminar. 3 Credits.

Designed primarily to ready students for their next pursuit, whether it is academic or non-academic. Assists students in making progress on theses and/or develops a case study related to practicum placement. Restricted to graduate students in the women's, gender, and sexuality studies program. Prerequisites: successful completion of all WGSS core courses and degree requirements.

WGSS 6430. Gender, Sexuality, and American Culture I. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. (Same as HIST 6430, WGSS 6430).

WGSS 6431. Gender, Sexuality, and American Culture II. 3 Credits.

Continuation of WGSS 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/ HIST 6431.

WGSS 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST6435/HIST 6435.

WGSS 6560. Postcolonialism. 3 Credits.

Exploration of aesthetics and politics through global and postcolonial literature and cinema, primarily from the twentieth and twenty-first centuries. Includes legal, theoretical, literary, and film texts. Restricted to graduate students and junior and senior undergraduate students. Same As: ENGL 6560.

WGSS 6998. Thesis Research. 3 Credits.

.

WGSS 6999. Thesis Research. 3 Credits.

.

WGSS 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. (Same as PSYC 8275).

Courses

WGSS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

WGSS 1020. Approaches to Women's History. 3 Credits.

Introduction to major methodological and conceptual debates in women's and gender history, focusing on the United States. (Same as HIST 1020).

WGSS 1099. Variable Topics. 1-36 Credits.

.

WGSS 2120. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.

Key concepts, theories, and perspectives in women's studies, placing women's experiences at the center of interpretation; historical and contemporary perspectives on women's lives, experiences, and thoughts and how gender interacts with race, class, religion, sexual orientation, culture, and politics. Same As: WGSS 2120W.

WGSS 2120W. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women, gender and sexuality in different cultures. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: WGSS 2120.

WGSS 2121. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. (Same as ANTH 2501).

WGSS 2125. Varieties of Feminist Theory. 3 Credits.

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Prerequisites: WGSS 1020 or WGSS 2120. Same As: AMST 2125.

WGSS 2135. A Study of Women and Media. 3 Credits.

The role media plays in women's lives; limits and effects of a "dominant" media; representations of women in print media and television, especially advertising, and in books and film; how women have attempted to articulate a culture that serves their personal, political, and social interests.

WGSS 2145. Space, Place, and Gender Identity. 3 Credits.

Space and place as socially-constructed structures; politics of space and bodies from the perspective of gender and sexual minorities; analysis of gender relations through spatial practices; identity-based inequality in the use of space and place.

WGSS 2225. Philosophy of Race And Gender. 3 Credits.

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender. (Same as PHIL 2125).

WGSS 2380. Sexuality in U.S. History. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. (Same as AMST 2380, HIST 2380).

WGSS 2385. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Same As: AMST 2385.

WGSS 2385W. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same AMST 2385W. Same As: AMST 2385W.

WGSS 2710. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Same As: ENGL 2710.

WGSS 3099. Variable Topics. 1-12 Credits.

.

WGSS 3136. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Conducted in English. (Same as CHIN 3136).

WGSS 3136W. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Taught in English. (Same as CHIN 3136W, WGSS 3136).

WGSS 3170. Special Topics in Women's, Gender, and Sexuality Studies. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

WGSS 3170W. Selected Topics. 1-3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3195. Undergraduate Research. 1-3 Credits.

A written proposal approved by the faculty member who supervises the research is required prior to registration.

WGSS 3235. Women and the Law. 3 Credits.

Contemporary legal issues that affect women in the United States; theories and documents relevant to issues such as violence against women, marriage and divorce, employment, immigration, and reproductive rights.

WGSS 3352. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352).

WGSS 3352W. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352) Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3353. U.S. Women's History II. 3 Credits.

Continuation of WGSS 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. (Same as AMST 3353, HIST 3353).

WGSS 3362. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362, HIST 3362W, WGSS 3362W).

WGSS 3362W. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3362W, AMST 3362W).

WGSS 3410. Lesbian History and Culture. 3 Credits.

Examination of lesbian identity, community, and legal rights from a scholarly feminist perspective.

WGSS 3435. Queer Politics. 3 Credits.

The history of lesbian, gay, bisexual, transgender, and queer (LGBTQ) politics in the United States; influences and intersections of race and ethnicity, class, gender identity and expression, sexuality, sex, and age; contemporary policy debates relevant to queer politics.

WGSS 3470. Sexuality and the Law. 3 Credits.

Exploration of the ways in which the law has affected individuals' ability to express their sexuality, with a primary focus on sexual orientation and issues such as marriage, adoption, voting rights, sexual harassment, and military service.

WGSS 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as REL 3481).

WGSS 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. (Same as WGSS 3530W, HIST 3530, HIST 3530W).

WGSS 3530W. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as WGSS 3530, HIST 3530, HIST 3530W).

WGSS 3730. Topics in Global Postcolonial Literature and Film. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: ENGL 3730.

WGSS 3820. Global Domestic Labor. 3 Credits.

Consideration of women's paid and unpaid domestic labor, including care work, in the context of global and globalizing political and cultural economies.

WGSS 3845. Global Women's Prison. 3 Credits.

Examination of women's confinement and incarceration in the context of global and globalizing political and cultural economies.

WGSS 3881. Women, Gender, and Religion in China. 3 Credits.

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. (Same as EALL 3881, REL 3881).

WGSS 3890W. Black Women in the Twenty-First Century. 3 Credits.

An interdisciplinary approach to critical inquiry into the scholarship on, and status of, Black women in North America, the Caribbean, Latin America, and Africa in the twenty-first century; historical, national, and transnational linkages between Black women; responses to intersectionality; analyses, strategies, and actions being deployed by and about Black women in action and scholarship. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

WGSS 3981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity. Special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. (Same as REL 2981).

WGSS 4183. Practicum in Women's, Gender, and Sexuality Studies. 3 Credits.

Study of the changing status of women, gender, sexuality and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Usually for seniors. Placement arrangements must be made the semester prior to registration; departmental permission is required.

WGSS 4199. Senior Seminar. 3 Credits.

Examination and analysis of the writings of contemporary scholars and writers whose work provides critical frameworks for feminist scholarship and research. Restricted to juniors and seniors.

WGSS 5099. Variable Topics. 1-99 Credits.

.

WGSS 6220. Fundamentals of Feminist Theory. 3 Credits.

Historical theories significant to feminist thought, such as liberalism, socialism, evolution, psychoanalysis, and gendered spheres of social action; how these theories were revived and revised by the second wave of feminism since the 1960s; brief examination of postmodernist and third-wave feminist theorizing.

WGSS 6221. Research Issues in Women's, Gender, and Sexuality Studies. 3 Credits.

The contribution of feminist or gender-relations perspectives from humanities and social science disciplines to the issues and methods of social research, policy, and practice; feminist frameworks; critique and re-evaluation of traditional academic disciplines; and analysis of current research on women, gender, and sexuality.

WGSS 6225. Contemporary Feminist Theory. 3 Credits.

Recent developments in feminist theory, with a primary focus on feminism in the United States and its relationship to queer theory and sexuality studies.

WGSS 6230. Global Feminisms. 3 Credits.

The individuals, groups, and policies that shape global agenda for women; local and international fora in which global feminisms are forged.

WGSS 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Prerequisites: PHIL 2125 or PHIL 2131. (Same as PHIL 6238).

WGSS 6240. Gender and Public Policy. 3 Credits.

Analysis of gender-related policy issues, primarily in the United States, such as domestic violence, military service, abortion rights, equal employment opportunity, child and dependent care, welfare, social security, and international development assistance.

WGSS 6241. Gender, Law, and Politics. 3 Credits.

The treatment of gender in U.S. law and its implications for public policy; factors that influence the ways in which individuals view and encounter the law; discrimination in the workplace and educational institutions, single-sex education, domestic violence, same-sex marriage, and reproductive rights and responsibilities; legal analysis, and public policy writing. Restricted to graduate students; open to upper-level undergraduates on a case-by-case basis.

WGSS 6251. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture.

WGSS 6257. Gender and Sexuality. 3 Credits.

Study of new theoretical and methodological approaches developed in the anthropology of gender; postcolonialism, sexuality, and literary representations of gender. (Same as ANTH 6501).

WGSS 6265. Women, Welfare, and Poverty. 3 Credits.

How the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. (Same as SOC 6265).

WGSS 6266. Gender and Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. (Same as SOC 6266).

WGSS 6268. Race, Gender, and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience; the intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. (Same as SOC 6268).

WGSS 6270. Seminar: Selected Topics. 3 Credits.

Investigation of a current policy issue of particular concern to women, or consideration of women's status in a particular social system. Topics have included women and health; sexualities; women and Judaism; black women; gender, race, and class. May be repeated for credit. Credit cannot be earned for this course and AMST 6190, PSYC 8279.

WGSS 6271. Gender and Society. 3 Credits.

Current empirical and theoretical work on gender as an organizing principle of social relations; the relationship of gender to sex and sexuality. (Same as SOC 6271).

WGSS 6280. Independent Study. 3 Credits.

May be repeated for credit. Arrangements must be made with sponsoring faculty member prior to registration.

WGSS 6283. Practicum in Women's, Gender and Sexuality Studies. 3,6 Credits.

Study of the changing status of women, gender, sexuality, and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Placement arrangements must be made the semester prior to registration; departmental permission is required. Graduate students may take the course for either 3 or 6 credits, with substantial additional research and writing of a case study required for 6 credits. (Same as WGSS 4183).

WGSS 6295. Independent Research in Women's Studies. 1-3 Credits.

Individual library or field research. Arrangements must be made with the sponsoring faculty member prior to registration; a written proposal is required.

WGSS 6299. Capstone Research Seminar. 3 Credits.

Designed primarily to ready students for their next pursuit, whether it is academic or non-academic. Assists students in making progress on theses and/or develops a case study related to practicum placement. Restricted to graduate students in the women's, gender, and sexuality studies program. Prerequisites: successful completion of all WGSS core courses and degree requirements.

WGSS 6430. Gender, Sexuality, and American Culture I. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. (Same as HIST 6430, WGSS 6430).

WGSS 6431. Gender, Sexuality, and American Culture II. 3 Credits.

Continuation of WGSS 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/ HIST 6431.

WGSS 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST6435/HIST 6435.

WGSS 6560. Postcolonialism. 3 Credits.

Exploration of aesthetics and politics through global and postcolonial literature and cinema, primarily from the twentieth and twenty-first centuries. Includes legal, theoretical, literary, and film texts. Restricted to graduate students and junior and senior undergraduate students. Same As: ENGL 6560.

WGSS 6998. Thesis Research. 3 Credits.

.

WGSS 6999. Thesis Research. 3 Credits.

.

WGSS 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. (Same as PSYC 8275).

YIDDISH (YDSH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

YDSH 1001. Yiddish for Reading and Conversation I. 3 Credits.

Grammatical essentials of the language, appropriate reading selections, conversational exercises for beginners.

YDSH 1002. Yiddish for Reading and Conversation II. 3 Credits.

Continuation of YDSH 1001. Grammatical essentials of the language, appropriate reading selections, conversational exercises for beginners.

YDSH 1099. Variable Topics. 16 Credits.

YDSH 5099. Variable Topics. 1-99 Credits.

Assessment, Testing, and Measurement in Education, Graduate Certificate	668	Biophysics, Bachelor of Science	388
Assessment, Testing, and Measurement in Education, Master of Arts in Education and Human Development	637	Biophysics, Minor	392
Assignment of Credits for Transfer Students	52	Biostatistics	163
Astronomy and Astrophysics, Bachelor of Science	386	Biostatistics and Bioinformatics	1185
Astronomy and Astrophysics, Minor	392	Biostatistics (BIOS)	1443
Astronomy (ASTR)	1428	Biostatistics, Doctor of Philosophy	164
Autism Spectrum Disorders, Graduate Certificate	669	Biostatistics, Doctor of Philosophy	1375
B		Biostatistics, Master of Public Health	1334
Bachelor of Fine Arts with a Major in Fine Art Photography	195	Biostatistics, Master of Science	166
Biochemistry and Molecular Medicine	134	Biostatistics, Master of Science	1358
Biochemistry (BIOC)	1429	Blood Banking for Medical Laboratory Science, Minor	1069
Bioinformatics and Molecular Biochemistry, Master of Science	136	Blood Banking for Medical Laboratory Science, Post-baccalaureate Certificate	1097
Bioinformatics, Bachelor of Science in Health Sciences	1054	Brain Injury: Educational and Transition Services, Graduate Certificate	669
Bioinformatics, Minor	1327	Budget and Public Finance, Graduate Certificate	443
Biological Anthropology and Anthropology, Bachelor of Science and Master of Arts	124	Business, Accountancy Concentration, Bachelor of Science	554
Biological Anthropology and Human Paleobiology, Bachelor of Science and Master of Science	125	Business Administration (BADM)	1443
Biological Anthropology, Bachelor of Science	122	Business Administration, Doctor of Philosophy	587
Biological Anthropology, Minor	126	Business Analytics, Graduate Certificate	590
Biological Sciences	137	Business Analytics, Master of Business Administration and Master of Science	586
Biological Sciences (BISC)	1431	Business Analytics, Master of Science	581
Biological Sciences, Doctor of Philosophy	154	Business Analytics, Minor	569
Biological Sciences, Master of Science	153	Business Analytics (STEM), Bachelor of Science	561
Biology and Biological Sciences, Bachelor of Science and Master of Science	153	Business and Business Analytics, Bachelor of Science and Master of Science	567

Business and Information Systems Technology, Bachelor of Science and Master of Science	567
Business and Sport Management, Bachelor of Science and Master of Science	567
Business, Bachelor of Science	553
Business, Bachelor of Science and Master of Human Resource Management	567
Business, Business Analytics Concentration, Bachelor of Science	555
Business, Business Economics and Public Policy Concentration, Bachelor of Science	556
Business, Finance Concentration, Bachelor of Science	556
Business, Individualized Concentration, Bachelor of Science	561
Business, Information Systems Technology Management Concentration, Bachelor of Science	557
Business, Innovation and Entrepreneurship Concentration, Bachelor of Science	558
Business, International Business Concentration, Bachelor of Science	558
Business, Marketing Strategy and Analytics Concentration, Bachelor of Science	559
Business, Master of Business Administration and Master of Tourism Administration	586
Business, Minor	568
Business, Real Estate Concentration, Bachelor of Science	560
Business, Sport, Event, and Hospitality Management Concentration, Bachelor of Science	560

Correctional Health Administration, Graduate Certificate	1095	Data Science (DATS)	1530
Correctional Health Administration, Master of Science in Health Sciences	1074	Data Science, Graduate Certificate	211
Counseling and Human Development	607	Data Science, Master of Public Policy and Graduate Certificate	443
Counseling and Life Transitions, Graduate Certificate	670	Data Science, Master of Science	210
Counseling (CNSL)	1522	Data Science, Minor	209
Counseling, Doctor of Philosophy	667	Decision Sciences	526
Counseling, Post-Master's Certificate	677	Decision Sciences (DNSC)	1532
Courses A-Z Index	1394	Decorative Arts and Design History, Master of Arts	200
Creative Writing and English, Bachelor of Arts	246	Design and Assessment of Adult Learning, Graduate Certificate	670
Creative Writing, Minor	252	Digital Communications, Graduate Certificate	1175
Creativity, Innovation, and Entrepreneurship, Graduate Certificate ..	592	Digital Marketing and Analytics, Graduate Certificate	592
Creativity, Innovation, and Entrepreneurship, Minor	569	Digital Politics, Graduate Certificate	1175
Crime Scene Investigation, Master of Science	277	Doctoral Programs	587
Criminal Justice, Bachelor of Arts	469	Doctoral Programs	660
Criminal Justice, Minor	475	Doctoral Programs	1088
Criminology, Master of Arts	473	Doctoral Programs	1131
Cross-Cultural Communication, Minor	126	Doctoral Programs	1375
Curriculum and Instruction, Doctor of Education	660	Dual Bachelor of Accountancy and Master of Accountancy	567
Curriculum and Instruction, Elementary Education, Master of Arts in Education and Human Development	640	Dual Bachelor of Arts in an SMPA Major and Master of Arts or Master of Professional Studies Degree Programs	346
Curriculum and Instruction, Interdisciplinary Studies of Literacy and Reading Education, Master of Arts in Education and Human Development	641	Dual Bachelor of Arts with a Major in Art History and Master of Arts in the Field of Art History	200
Curriculum and Instruction, Jewish Education, Master of Arts in Education and Human Development	642	Dual Bachelor of Business Administration and Master of Accountancy	567
Curriculum and Instruction, Master of Arts in Education and Human Development	640	Dual Bachelor of Business Administration and Master of Tourism Administration	567
Curriculum and instruction, Secondary Education, Master of Arts in Education and Human Development	642	Dual Bachelor of Business Administration and Master's in Management	567
Curriculum and Pedagogy	611	Dual Bachelor of Science in an Approved Columbian College Program and Master of Science in the Field of Data Science	210
Curriculum and Pedagogy (CPED)	1526	Dual MAEd&HD in Curriculum and Instruction, Elementary Education Concentration, and Graduate Certificate in Incorporating International Perspectives in Education	657
Cybersecurity Analytics, Master of Engineering	791	Dual MAEd&HD in Curriculum and Instruction, Elementary Education Concentration, and Graduate Certificate in TESOL	657
Cybersecurity, Bachelor of Professional Studies	1143	Dual MAEd&HD in Curriculum and Instruction, Secondary Education Concentration, and Graduate Certificate in Incorporating International Perspectives in Education	657
Cybersecurity in Computer Science, Master of Science	796	Dual MAEd&HD in Curriculum and Instruction, Secondary Education Concentration, and Graduate Certificate in TESOL	658
Cybersecurity Policy and Compliance, Master of Engineering	790	Dual MAEd&HD in International Education and Graduate Certificate in Assessment, Testing, and Measurement	658
Cybersecurity Strategy and Information Management, Master of Professional Studies	1147	Dual MAEd&HD in International Education and Graduate Certificate in Incorporating International Perspectives in Education	658
D		Dual MAEd&HD in the Field of International Education and Graduate Certificate in TESOL	658
Dance, Bachelor of Arts	499	Dual Master of Arts in any Elliott School Program and Master of Public Health	1036
Dance, Master of Fine Arts	502		
Dance, Minor	503		
Data Analytics, Master of Science	798		
Data Science	204		
Data Science, Bachelor of Science	207		

Dual Master of Business Administration and Master of Arts in Education and Human Development in the Field of Higher Education Administration	585
Dual Master of Business Administration and Master of Human Resource Management	586
Dual Master of Business Administration and Master of Science in Project Management	586
Dual Master of Business Administration and Master of Science in the Field of Finance	586
Dual Master of Business Administration and Master of Science in the Field of Sport Management	586
Dual Master of Health Administration and Graduate Certificate in Health Care Corporate Compliance	1365
Dual Master of Public Administration and Graduate Certificate in Homeland Security Emergency Preparedness and Response	442
Dual Master of Public Health in the Field of Health Policy and Graduate Certificate in Health Care Corporate Compliance	1366
Dual Master of Science in the Field of Data Science and Certificate in Geographic Information Systems	210
Dual Master of Science in the Field of Geography and Graduate Certificate in Geographical Information Systems	288
Dual Master of Science in the Field of Statistics and Graduate Certificate in the Field of Data Science	493
Dual Minor in Art History and Fine Arts	268
Dual SEAS Bachelor of Science and Master of Science in the Field of Computer Science	784
Dual SEAS Bachelor of Science and Master of Science in the Field of Cybersecurity in Computer Science	785
Dual SEAS Bachelor of Science and Master of Science in the Field of Data Analytics	785
